

# IB WORLD SCHOOLS YEARBOOK 2019

The Official Guide to Schools Offering  
the International Baccalaureate  
Primary Years, Middle Years,  
Diploma and Career-related  
Programmes

An illustration on the left side of the page shows a woman with long black hair, wearing a white patterned shirt and a green and blue striped skirt, sitting and looking through a large blue telescope. The background is a teal color with a network of white lines connecting various celestial bodies: a blue planet with a ring, a brown planet with a ring, a sun-like star with a blue core, a green and blue Earth-like planet, and several smaller blue and white stars. The overall theme is space exploration and discovery.

# Message from Chair and Director General

Dear member of the IB community,

We were delighted to celebrate fifty years of achievement and our extraordinary, lasting impact on the world in 2018. We have much to be grateful for, and even more to look forward to in the years ahead as we build on a strong foundation.

Our engaged, worldwide community of educators and students continues to grow steadily in all regions, and among all types of schools, so that our mission is having an impact on ever more lifelong learners and communities, no matter their geographical or socio-economic backgrounds.

The unique nature of the International Baccalaureate – the only global organization that offers top-class curricula, schools support and assessments – makes us increasingly attractive to parents, policy-makers and schools who are looking for a rigorous education that meets world standards and the changing needs of our times.

This spread of activity gives our educational vision remarkable breadth, and guarantees consistency of execution across all our core areas, while strengthening our capacity to deliver our mission of creating a better world through education.

The international mindedness, critical thinking, and independence that an IB education develops are important in this respect, as is the fact that our students are sought out by the world's leading universities and employers.

The impact of the IB is impressive, and has always been disproportionate: for an organization our size, the many ways we influence global educational practice, the educational conversation and – most importantly – student outcomes, are notable and distinctive. As a humble organization, we are pleased to see this influence but remain reluctant to tout it.

Our commitment to our community of schools is essential to the continuing success of the IB and is built on continuous improvement in our service to schools. The launch of the IB World Schools department in 2017 to meet the expressed needs of schools will deliver tangible benefits.

Turning to our programmes, the Diploma Programme (DP) review is now underway, and will work on the optimal combination of academic excellence and student well-being for today's child. The Primary Years Programme (PYP) review is completed and has delivered an enhanced programme that our educators have been keen to embrace. The Middle Years Programme (MYP) has been distinguished with an international award for its eAssessment while the Careers-related Programme (CP) continues to grow as schools increasingly value its flexibility for their students. Work on revising our Standards and Practices is also identifying exciting areas of

improvement and streamlining to better meet the needs of schools.

In the area of partnerships, we have exciting new initiatives and successes to celebrate. Our partnership with Tes, to create an IB hub for DP teachers, is the first step in realizing our vision for the Agora, the IB platform for sharing resources, collaborating with others and leveraging existing expertise and technology.

In all our work, we seek to improve schools' experience of the IB: that is the core operational task of our organization.

Our overriding aim, as always, is to deliver the mission of our founders.

In 1968, those founders re-envisioned what education should be. Their mission – a better world through education – is timeless yet revolutionary. The IB will always foster it. It is ever more relevant in a world facing unprecedented changes and challenges.

The IB will grow and evolve to fit our new connected, continually changing world.

**Siva Kumari – IB Director General**  
**George Rupp – Chair of the IB Board of Governors**

## OFFICIAL HIGHER EDUCATION PARTNER OF INTERNATIONAL BACCALAUREATE

The International University Alliance is a group of nationally recognized top-tier U.S. universities expanding opportunities for international students by supporting multilateral relationships among its participant universities and global higher education stakeholders.

The International University Alliance is proud to be an official higher education partner of International Baccalaureate and provide access to IUA participant universities for qualified IB Diploma students from schools across the world. Our universities welcome the diversity, academic excellence and intercultural understanding that underpin the international Baccalaureate and recognize its status as a global education leader.

In recognition of their achievements, IUA participant universities provide IB Diploma students access to the following benefits:

### Credit recognition

All IUA participant universities recognize subjects studied in the IB Diploma for credit transfer into a wide range of Bachelor degrees, allowing students to save time and money as well as focus on studying at a level that will help them develop and succeed at their university. The specific score requirements and credits received can be found in the IUA Advanced Standing Guide.

### Access to research funding and mentorship

Students who excel in their Extended Essay can apply for a \$2,000 (USD) research grant to undertake a research project in an area that interests them and is relevant to their studies. A mentor will provide guidance on selection of the subject area, planning and execution of the project. The grant money will be provided in partnership with Shorelight Education.

### Merit-based scholarships

In association with the IUA, Shorelight Education will award scholarships to high-scoring IB Diploma students for select programs at IUA participant universities. This is IUA's largest and most prestigious merit-based scholarship, and applicants must demonstrate excellence beyond the classroom as leaders in their schools and communities.

### Consideration for Advanced Programs

IB Diploma students will be considered for entry into advanced programs at select IUA participating universities. These elite programs support exceptional candidates by providing them an opportunity to attend exclusive tutorials and classes that further promote academic excellence.

Disclaimer: specific admissions policies differ by university

Find out more information on the partnership and how it can benefit students from your IUA regional representative, or visit [iua.org](http://iua.org) to ask us a question.

# Introduction, How to use this Yearbook

The International Baccalaureate (IB) offers high quality programmes of international education to a worldwide community of schools, aiming to develop internationally minded people who, recognizing their common humanity and shared guardianship of the planet, help to create a better, more peaceful world.

The IB works alongside state and privately funded schools around the world that share the commitment to international education, to deliver these programmes.

Schools that have achieved the high standards required for authorization to offer one or more of the IB programmes are known as 'IB World Schools'. As of September 2018 there were 1,317 schools with 1,521 programmes in candidate status (611 PYP, 457 MYP, 371 DP, 82 CP).

The *IB World Schools Yearbook* is the official guide to schools authorized to offer the Primary Years Programme, the Middle Years Programme, the Diploma Programme and the Career-related Programme. It tells you where the IB World Schools are situated and what they offer, and provides up-to-date information about IB programmes and the IB organization.

This is an ideal reference for school administration, parents and education ministries worldwide as it:

- provides a comprehensive reference of IB World Schools for quick and easy access.
- raises the profile of IB World Schools within their local community and beyond.
- provides comprehensive information about IB programmes and the IB.

## How to use this Yearbook

The *Yearbook* has been designed to be as easy as possible to use and has been divided into five sections:

1. **General information** about the IB and its programmes.
2. **Comprehensive information** about IB World Schools presented in alphabetical order by school name, colour coded according to IB geographical region. In this section, schools have been given the opportunity to highlight their best qualities by creating an enhanced profile for their school.

3. **Directory Information** about every IB World School that offers one or more of the IB programmes as of September 2018. The directory is ordered by IB region and contains general and contact information about each school. Information about the three IB regions is also given in this section. (Those schools that have elected to purchase a profile in the Yearbook will appear in capital letters in the directory.)
4. **Appendices** containing information and lists relevant to the IB. These include addresses of IB offices, location of IB World Schools, Diploma Programme subjects offered (in 2019), IB Associations around the world, university acknowledgement of the Diploma Programme and Career-related Programme and universities offering IB scholarships.
5. **Index** of all schools listed geographically and alphabetically by name.

## Are you looking for a specific IB World School?

If you know the name of the school but are unsure of its location, turn to the index on p. 697 where you will find an alphabetic listing of all IB World Schools.

## Are you looking for an IB World School in a specific country?

Look first in the directory section; this will give you the basic information about all the schools in each region. More detailed information can be found in the profiles section for those schools marked with capitalized letters.

The IB website, [ibo.org](http://ibo.org), also contains the most up-to-date information on IB World Schools. A school search option is available from every page on the site for people wanting to find an IB World School.

# IB Mission Statement

---

The International Baccalaureate aims to develop inquiring, knowledgeable and caring young people who help to create a better and more peaceful world through intercultural understanding and respect.

To this end the organization works with schools, governments and international organizations to develop

challenging programmes of international education and rigorous assessment.

These programmes encourage students across the world to become active, compassionate and lifelong learners who understand that other people, with their differences, can also be right.

## Déclaration de mission de l'IB

---

Le Baccalauréat International (IB) a pour but de développer chez les jeunes la curiosité intellectuelle, les connaissances et la sensibilité nécessaires pour contribuer à bâtir un monde meilleur et plus paisible, dans un esprit d'entente mutuelle et de respect interculturel.

À cette fin, l'IB collabore avec des établissements scolaires, des gouvernements et des organisations

internationales pour mettre au point des programmes d'éducation internationale stimulants et des méthodes d'évaluation rigoureuses.

Ces programmes encouragent les élèves de tout pays à apprendre activement tout au long de leur vie, à être empreints de compassion, et à comprendre que les autres, en étant différents, puissent aussi être dans le vrai.

## Declaración de principios de IB

---

El Bachillerato Internacional tiene como meta formar jóvenes solidarios, informados y ávidos de conocimiento, capaces de contribuir a crear un mundo mejor y más pacífico, en el marco del entendimiento mutuo y el respeto intercultural.

En pos de este objetivo, la organización colabora con establecimientos escolares, gobiernos y organizaciones internacionales para crear y desarrollar programas

de educación internacional exigentes y métodos de evaluación rigurosos.

Estos programas alientan a estudiantes del mundo entero a adoptar una actitud activa de aprendizaje durante toda su vida, a ser compasivos y a entender que otras personas, con sus diferencias, también pueden estar en lo cierto.

# It's our birthday!

Ten years old. That's ten years of supporting IB World Schools with flexible digital solutions that address key educational challenges. To celebrate, we're offering new IB DP courses. And if that's not enough, we're also launching iGCSE and A Level courses.

**Happy birthday to us.**

Find out more and join the party at [pamoja.courses/birthday](https://pamoja.courses/birthday)

# About the IB

Pioneering a movement of international education since 1968, the International Baccalaureate (IB) is a non-profit foundation that offers four high quality and challenging educational programmes to students aged 3-19 years old. The four programmes focus on teaching students to think critically and independently, and how to inquire with care and logic. An IB education also prepares students to succeed in a world where facts and fiction merge in the news, and where asking the right questions is a crucial skill that will allow them to flourish long after they've left school. The organization is supported by IB teachers and coordinators who develop and promote the IB's curriculums in almost 5,000 schools globally every day, in more than 150 countries around the world.

The **IB Primary Years Programme (PYP)**, for students aged 3 to 12, focuses on the development of the whole child as an inquirer, both in the classroom and in the world outside.

The **IB Diploma Programme (DP)**, for students aged 16 to 19, is an academically challenging and balanced programme of education with final examinations that prepares students for success at university and beyond.

The **IB Middle Years Programme (MYP)**, for students aged 11 to 16, provides a framework of academic challenge that encourages students to embrace and understand the connections between traditional subjects and the real world, and become critical and reflective thinkers.

The **IB Career-related Programme (CP)**, for students aged 16 to 19, incorporates the vision and educational principles of the IB programmes into a unique offering specifically designed for students who wish to engage in career-related learning.

IB programmes are available to students in a wide variety of schools and from a range of cultural, ethnic and socio-economic backgrounds. IB World Schools form a worldwide community in which there is no such thing as a “typical” school.

**Figure 1: Types of IB World Schools (Information correct as of September 2018)**

	Africa, Middle East	Asia-Pacific	Americas	Total
Private	809	747	719	2,275
State	334	129	2204	2,667
<b>Total</b>	<b>1,143</b>	<b>876</b>	<b>2,923</b>	<b>4,942</b>

Does not include European Platform schools. Includes MYP Partner Schools.

IB World Schools:

- share the mission and commitment of the IB to quality, international education
- play an active and supporting role in the worldwide community of IB World Schools
- share their knowledge and experience in the development of IB programmes
- are committed to the professional development of teachers

Funding for IB programmes comes from the fees paid by IB World Schools, with additional income from workshops and publication sales. Donors provide support for development projects that cannot be implemented from the organization's budget.

# The IB Learner Profile

The aim of all IB programmes is to develop internationally minded people who, recognizing their common humanity and shared guardianship of the planet, help to create a better and more peaceful world

## IB learners strive to be:

<b>Inquirers</b>	We nurture our curiosity, developing skills for inquiry and research. We know how to learn independently and with others. We learn with enthusiasm and sustain our love of learning throughout life.
<b>Knowledgeable</b>	We develop and use conceptual understanding, exploring knowledge across a range of disciplines. We engage with issues and ideas that have local and global significance.
<b>Thinkers</b>	We use critical and creative thinking skills to analyze and take responsible action on complex problems. We exercise initiative in making reasoned, ethical decisions.
<b>Communicators</b>	We express ourselves confidently and creatively in more than one language and in many ways. We collaborate effectively, listening carefully to the perspectives of other individuals and groups.
<b>Principled</b>	We act with integrity and honesty, with a strong sense of fairness and justice, and with respect for the dignity and rights of people everywhere. We take responsibility for our actions and their consequences.
<b>Open-minded</b>	We critically appreciate our own cultures and personal histories, as well as the values and traditions of others. We seek and evaluate a range of points of view, and we are willing to grow from the experience.
<b>Caring</b>	We show empathy, compassion and respect. We have a commitment to service, and we act to make a positive difference in the lives of others and in the world around us.
<b>Risk-takers</b>	We approach uncertainty with forethought and determination; we work independently and cooperatively to explore new ideas and innovative strategies. We are resourceful and resilient in the face of challenges and change.
<b>Balanced</b>	We understand the importance of balancing different aspects of our lives—intellectual, physical and emotional—to achieve well-being for ourselves and others. We recognize our interdependence with other people and with the world in which we live.
<b>Reflective</b>	We thoughtfully consider the world and own ideas and experience. We work to understand our strengths and weaknesses in order to support our learning and personal development.

# IB Programmes

## What is an International Baccalaureate (IB) education?

An IB education is unique because of its rigorous academic and personal standards. IB programmes challenge students aged 3 to 19 to excel not only in their studies but also in their personal growth.

We aspire to help schools develop well-rounded students, who respond to challenges with optimism and an open mind, are confident in their own identities, make ethical decisions, join with others in celebrating our common humanity and apply what they learn in real-world, complex and unpredictable situations.

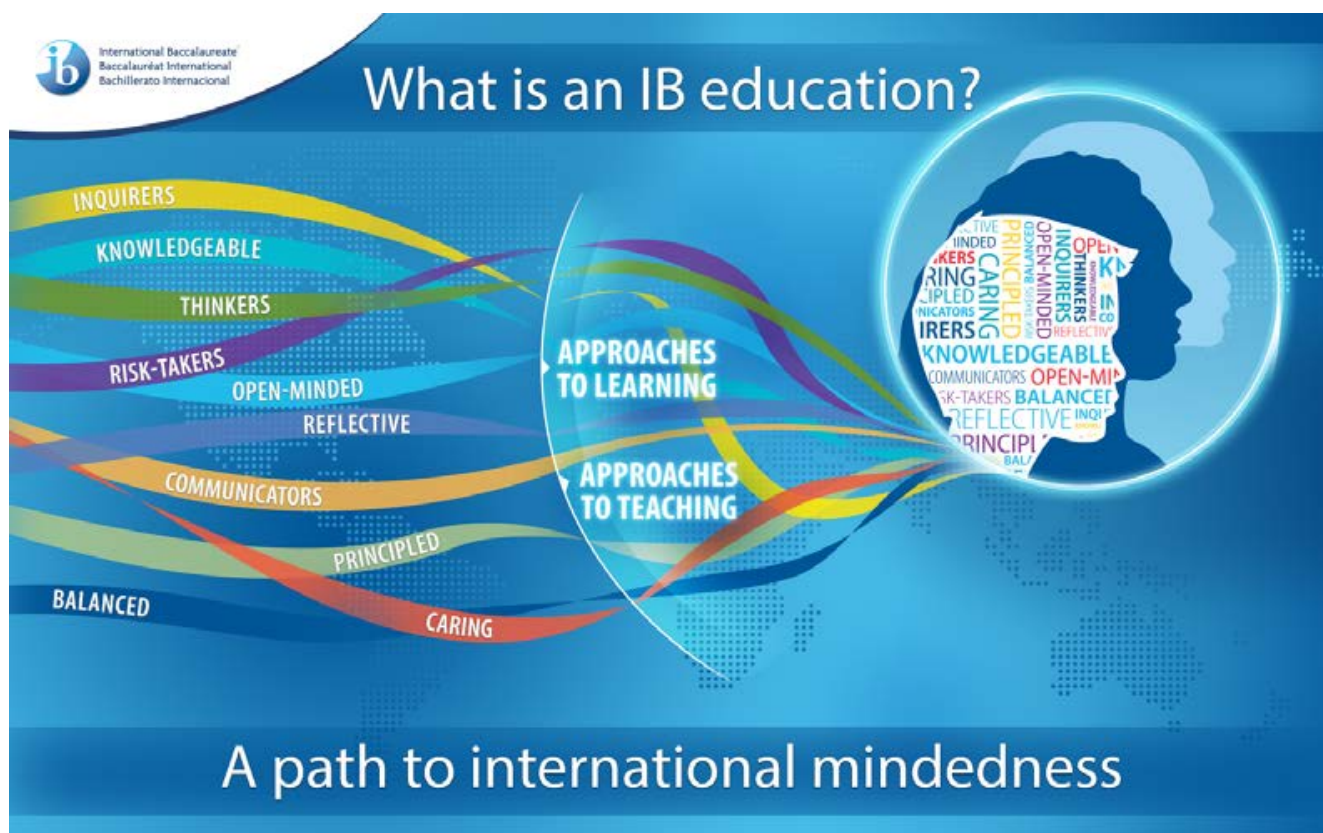

Through our high-quality programmes of international education, we aim to inspire a quest for learning throughout life that is marked by enthusiasm and empathy.

Our vision is to offer all students an IB education that:

- focuses on learners – our student-centred programmes promote healthy relationships, ethical responsibility, and personal challenge

- develops effective approaches to teaching and learning – our programmes help students to develop the attitudes and skills they need for both academic and personal success
- works within global contexts – our programmes increase understanding of languages and cultures and explore globally significant ideas and issues
- explores significant content – our programmes offer a curriculum that is broad and balanced, conceptual and connected.

Informed by values described in the IB Learner Profile, IB learners strive to become inquirers, knowledgeable, thinkers, communicators, principled, open-minded, caring, risk-takers, balanced, and reflective. These attributes represent a broad range of human capacities and responsibilities that go beyond intellectual development and academic success.

- 25 subjects covered
- 148 expertly-written textbooks
- 4,000+ interactive learning activities
- A pair of shoes with built-in jetpacks\*

\*Ok, the jetpack bit isn't true, but we know that pointless gadgets aren't really what you need to teach the IB curriculum. What you need is a clear, effective and well-signposted toolkit. So, we've made sure all our resources are well-researched, clearly-laid out and full of simple, practical ideas.

Everything you need, nothing you don't. So no jetpack shoes, sorry.

Pearson

Find out more at [www.pearsonglobalschools.com/ib](http://www.pearsonglobalschools.com/ib)

## What is the IB Primary Years Programme (PYP)?

The recently enhanced IB Primary Years Programme (PYP), for children from 3-12 years-of age, nurtures students as they embark on a lifelong journey of learning.

Informed by research into how children learn, how educators teach, and the principles and practices of effective assessment, the programme places a powerful emphasis on inquiry-based learning.

Empowered by agency-voice, choice and ownership- PYP students not only develop new knowledge and important social-emotional skills but also learn HOW to learn as they explore their relationship to the world and take meaningful action for positive change.

## Transdisciplinary learning

Transdisciplinary learning is unique to the PYP and mirrors the natural way children learn. Rather than organising learning by subjects, a transdisciplinary approach is driven by the interests and passions of students.

Guided by six transdisciplinary themes of universal

significance, students inquire into a central idea to build on existing knowledge, deepening conceptual understanding to develop new understandings, skills and knowledge.

## Transdisciplinary themes

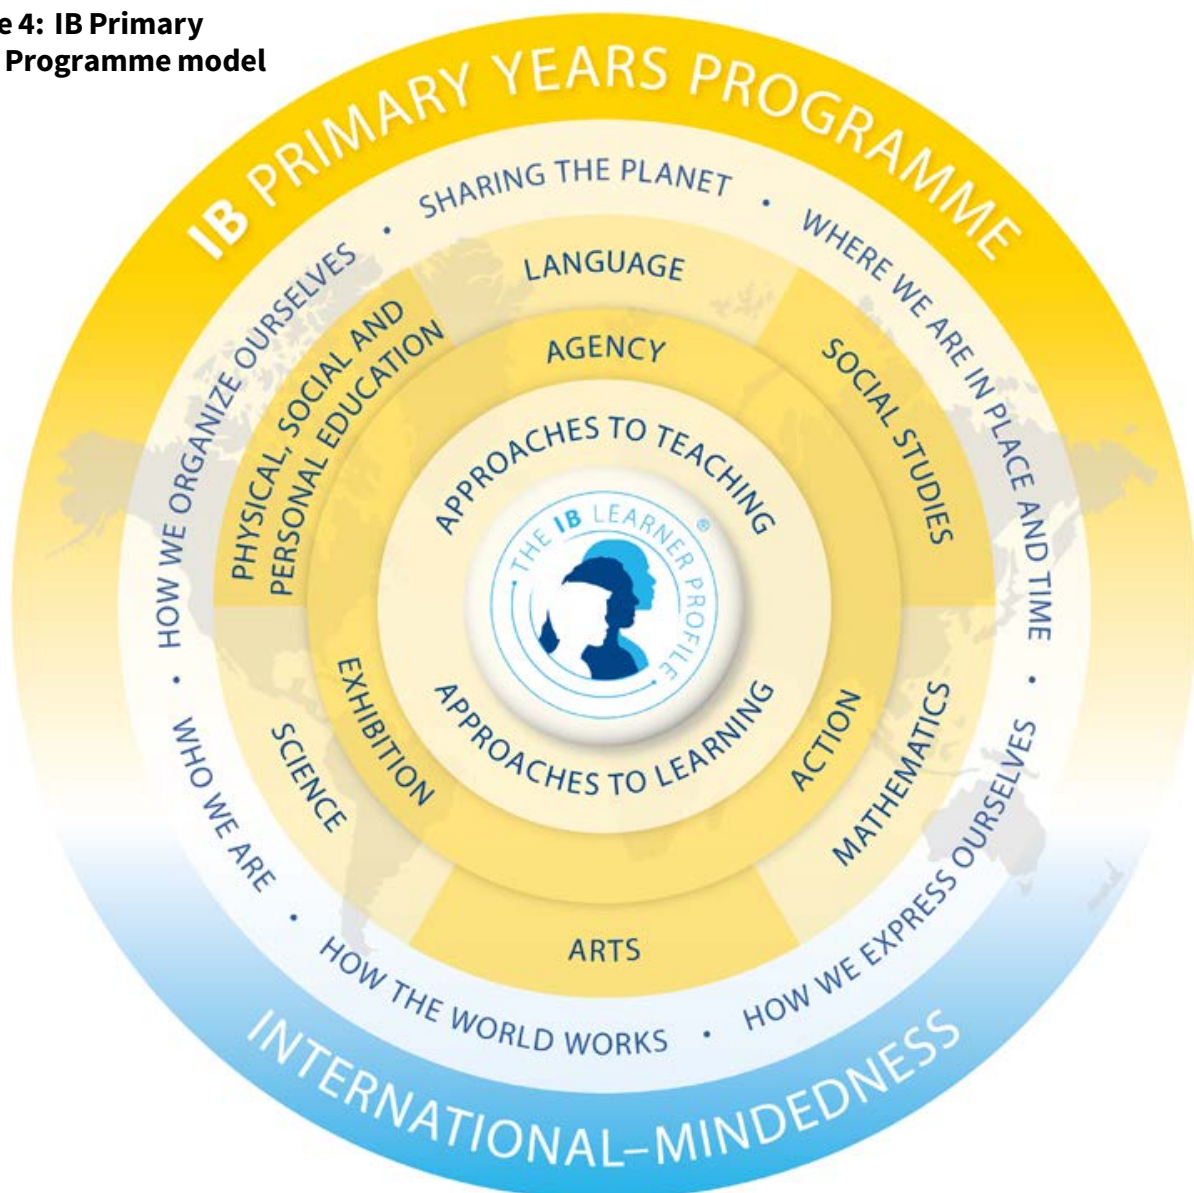

- Who we are
- Where we are in place and time
- How we express ourselves
- How the world works
- How we organize ourselves
- Sharing the planet

Subjects are incorporated into each transdisciplinary theme to guide, support, enrich and connect learning.

## Subject areas

- language
- social studies
- arts
- mathematics
- science
- personal, social and physical education

## Assessment

In the PYP, assessment is integrated throughout the learning process to support acquisition of skills and knowledge and development of conceptual understandings. Ongoing assessment enhances learning and provides opportunities for students to reflect on what they know, what they understand and what they can do. Both teacher and student feed-back and feed-forward provide the guidance, tools and support for students to become assessment-capable learners.

The four pivotal dimensions of assessment in the PYP are:

- Monitoring
- Documenting
- Measuring
- Reporting

## The Exhibition

The exhibition is a celebration of each student's learning journey and the culminating experience of the programme. Driven by their passions, students analyse and propose solutions to real-world challenges and opportunities.

## What is the IB Middle Years Programme?

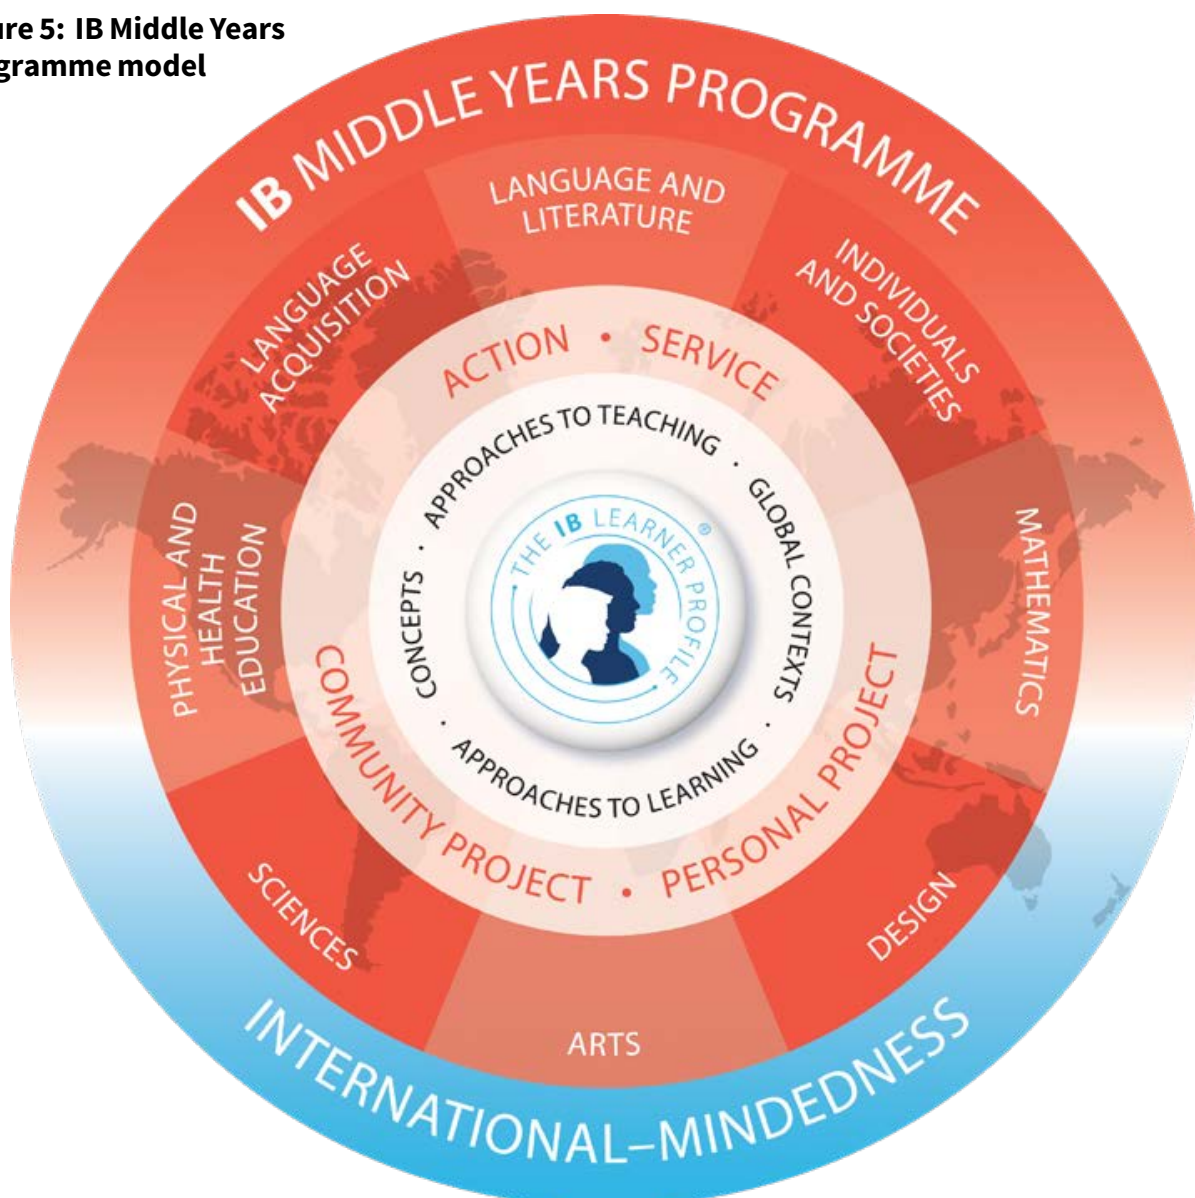

The IB Middle Years Programme (MYP) is designed for students aged 11 to 16. It provides a framework of learning that encourages students to become creative, critical and reflective thinkers. The MYP emphasizes intellectual challenge, encouraging students to make connections between their studies in traditional subjects and the real world. It fosters the development of skills for communication, intercultural understanding and global engagement – essential qualities for young people who are becoming global leaders.

The MYP is flexible enough to accommodate national or local curriculum requirements. It builds upon the knowledge, skills and attitudes developed in the IB Primary Years Programme (PYP) and prepares students to meet the academic challenges of the IB Diploma Programme (DP) and the IB Career-related Programme (CP).

The IB Middle Years Programme:

- addresses holistically students' intellectual, social, emotional and physical well-being
- provides students opportunities to develop the knowledge, attitudes and skills they need in order to manage complexity and take responsible action for the future

**Figure 5: IB Middle Years Programme model**

# OPENING Minds Shaping the FUTURE

**At PolyU**, we create knowledge, transfer technologies. We work closely with business and industry, adding meaningful significance to our innovations.

We invite you to be part of our journey.

## CONNECT WITH POLYU

 [www.polyu.edu.hk/iao](http://www.polyu.edu.hk/iao)  [international.study@polyu.edu.hk](mailto:international.study@polyu.edu.hk)

   [polyuiaio](https://www.instagram.com/polyuiaio)

- ensures breadth and depth of understanding through study in eight subject groups and interdisciplinary learning.
- requires the study of at least two languages (language of instruction and additional language of choice) to support students in understanding their own cultures and those of others.
- empowers students to participate in service within the community.
- helps to prepare students for further education, the workplace and a lifetime of learning.

The MYP consists of eight subject groups: language acquisition, language and literature, individuals and societies, sciences, mathematics, arts, physical and health education, and design. Student study is supported by a minimum of 50 hours of instruction per subject group in each academic year. In years 4 and 5, students have the option to take courses from six of the eight subject groups, which provides greater flexibility, with optional MYP eAssessments at the end of year 5 for schools that wish for their students to have externally validated results.

## The MYP: a unique approach, relevant for a global society

The MYP aims to help students develop their personal understanding, their emerging sense of self and responsibility in their community. Using global contexts, MYP students explore human identity, global challenges and what it means to be internationally minded.

MYP teachers organize the curriculum with appropriate attention to:

- Teaching and learning in context
- Conceptual understanding
- Approaches to learning (ATL)
- Service as action
- Language and identity.

## MYP projects

MYP projects provide students the opportunity to demonstrate what they have learned in the MYP. In schools that include MYP year 5, all students must complete the personal project. In programmes that include MYP years 4 or 5, schools may offer students the opportunity to do both the community project and the

personal project. In schools that include MYP year 3 or 4, students must complete the community project.

- The community project encourages students to explore their right and responsibility to implement service as action in the community. Students may complete the community project individually or in small groups.
- Each student develops a personal project independently, producing a truly personal and creative piece of work that stands as a summative review of their ability to conduct independent work.

## MYP assessment

The optional MYP eAssessment provides external evaluation for students in MYP year 5 (typically 15–16 years old) that leads to the internationally recognized IB MYP certificate and IB MYP course results.

MYP eAssessment represents a balanced, appropriately-challenging model that comprises examinations and coursework.

- Two-hour on-screen examinations in four subject groups (language and literature, sciences, mathematics, individuals and societies) and in interdisciplinary learning are individually marked by IB examiners.
- Portfolios of student work for four subject groups (language acquisition, physical and health education, arts, and design) are moderated by IB examiners to international standards.

These innovative assessments focus on conceptual understanding and the ability to apply knowledge in complex, unfamiliar situations. They offer robust and reliable assessment of student achievement in the MYP.

Registration for MYP eAssessment is highly flexible and can differ per candidate from a single subject to the full MYP certificate. IB World Schools can register their students for a variety of subjects, which provide the candidates with externally validated results. All candidates receive IB MYP course results; specific conditions apply for registration for the IB MYP certificate.

MYP eAssessments meet the General Conditions for Recognition established by England's Office of Qualifications and Examinations Regulation and is recognized by other national education systems as preparation for further study at the senior secondary level.

# BE REMARKABLE

*At Griffith, we understand the value of your International Baccalaureate Diploma and recognise it as a mark of academic excellence.*

**Ranked in the top 2% worldwide\***

Griffith ranks alongside some of the best universities in the world.

**Credit for IB subjects**

Griffith awards up to one trimester of credit for IB subjects.

**Griffith Honours College**

Australia's only Honours College for high achieving students.

**Global Impact**

We support students to make a difference to the world.

## What is the IB Diploma Programme (DP)?

The IB Diploma Programme (DP) is an academically challenging and motivating curriculum designed to address the intellectual, social, emotional and physical well-being of students aged 16 to 19 and prepare them for success at university and life beyond.

To ensure both breadth and depth of knowledge and understanding, DP students must choose at least one subject from each of the six groups:

- |                                       |                |
|---------------------------------------|----------------|
| 1. Studies in language and literature | 4. Sciences    |
| 2. Language acquisition               | 5. Mathematics |
| 3. Individuals and societies          | 6. The Arts    |

Students may choose either an arts subject from group 6 or a second subject from groups 1 to 5. In addition to disciplinary and interdisciplinary study, the DP features three core elements that broaden students' educational experience and challenge them to apply their knowledge and skills.

The DP core elements are:

- **The extended essay** is an independent, self-directed piece of research, finishing with a 4,000-word paper
- **The theory of knowledge (TOK) course** in which students reflect on the nature of knowledge and on

how we know what we claim to know.

- **Creativity, activity, service (CAS)** is a project related to these three concepts.

The DP prepares students for effective participation in a rapidly evolving and increasingly global society as they:

- develop the skills and a positive attitude towards learning that will prepare them for higher education
- study at least two languages and increase understanding of cultures, including their own
- make connections across traditional academic disciplines and explore the nature of knowledge through the programme's unique theory of knowledge course
- undertake in-depth research into an area of interest through the lens of one or more academic disciplines in the extended essay
- enhance their personal and interpersonal development through creativity, activity and service

The Diploma Programme has gained recognition and respect from the world's leading universities.

Ten diploma courses can now be taken online by students in IB World Schools through Pamoja Education Ltd ([www.pamojaeducation.com](http://www.pamojaeducation.com)).

\*IEC qualifies for an IB Educator Certificate in Teaching and Learning which makes you eligible to teach amongst the 4700 IB schools worldwide.

## What is the IB Career-related Programme (CP)?

The IB Career-related Programme (CP) is designed for students aged 16 to 19. It incorporates the vision and educational principles of the IB into a unique programme specifically developed for students who wish to engage in career-related learning.

The CP's flexible educational framework allows schools to meet the needs, backgrounds and contexts of students. By engaging with a rigorous study programme that genuinely interests them, CP students gain transferable and lifelong skills in applied knowledge, critical thinking, communication and cross-cultural engagement.

The CP enables students to prepare for effective participation in an ever-changing world of work as they:

- consider new perspectives and other points of view
- engage in learning that makes a positive difference
- develop a combination of traditional academic skills and practical skills
- think critically and creatively in rapidly-changing and global workplaces
- communicate clearly and effectively

- work independently and in collaboration with others
- become self-confident, resilient and flexible.

The CP framework allows students to specialize in, and focus on a career-related pathway. CP students must complete at least two Diploma Programme courses alongside their selected career-related studies and the distinctive CP core, which is designed to connect academic courses and the career-related study and provide students with a combination of academic and practical skills.

### The CP core

**Personal and professional skills**, designed for students to develop attitudes, skills and strategies to be applied to personal and professional situations and contexts now and in the future. It emphasizes skills development for the workplace, as these are transferable and can be applied in a range of situations.

**Service learning** is the development and application of knowledge and skills towards meeting an identified and authentic community need. Through service learning, students develop and apply personal and social skills in real life situations.

**Figure 7: IB Career-related Programme model**

**Murdoch**  
UNIVERSITY

# Thinking of advancing your teaching career in IB?

Enhance your prospects in International Baccalaureate (IB) schools and/or build on your IB experience by enrolling in an IB Certificate in Teaching and Learning or the IB Advanced Certificate in Teaching and Learning.

This IB certification can be completed within the Graduate Certificate in Education (International Education), or as part of the Master of Education (Coursework). Both courses are offered at our Perth campus, or online, with our Master of Education also available at our Dubai campus.

You can target your specific area of IB interest (PYP/MYP/DP) and through our flexible range of elective units you can choose your area of teaching specialisation.

Murdoch University is a research led university and this is reflected in our range of postgraduate programs for teachers, educational administrators and other educational professionals who seek to extend and deepen their expertise in education.

To learn more, visit  
[murdoch.edu.au/education](https://murdoch.edu.au/education) or email  
[EducationReception@murdoch.edu.au](mailto:EducationReception@murdoch.edu.au)

**Language development** is a central tenet of an IB education that ensures students have access and are exposed to a second language in order to increase their understanding of the wider world and enhance their skillsets within a highly competitive global workforce.

The **reflective project** is an in-depth body of work submitted towards the end of the programme. Students identify, analyze, critically discuss and evaluate an ethical dilemma associated with an issue from their career-related studies. The project can be submitted in different formats including an essay, web page or short film. This work encourages students to engage in personal inquiry, action, and reflection, and to develop strong research and communications skills.

## Assessment

CP students are assessed both internally by the school and externally by the IB. Diploma Programme courses within

the CP framework are assessed in accordance with rigorous international standards.

Students take written examinations at the end of their courses, which are marked by external IB examiners. The marks awarded for each course range from 1 (lowest) to 7 (highest).

The reflective project is assessed by the school and moderated and graded by the IB (grades A to E with A being the highest). The school is also responsible for monitoring and confirming with the IB that students have completed requirements for service learning, personal and professional skills, and language development.

Through the CP's flexible framework schools create their own distinctive version of the programme. The IB collaborates with major providers of career-related qualifications to support schools who wish to offer the CP.

## Business Education Global Perspective

# BACHELOR OF BUSINESS ADMINISTRATION

### A renowned Business School

Since 1971, IFM University - Institute of Finance and Management has been the reference in business education and in training future managers in Switzerland. Recognized for academic excellence, IFM is fully accredited by several major accreditation bodies.

At IFM, your employability is our priority and we help you to achieve your personal aspirations and your career goals.

To develop your business skills, our experts have designed a cutting-edge curriculum, taught by professors with top academic credentials and solid managerial experience.

Our innovative curriculum combines academic excellence, practical skills and real-world relevance.

The employment record of our graduates is excellent and IFM benefits from a solid reputation among recruiters.

### A Bachelor to succeed

Our Bachelor's degree provides you with a solid education and a strong foundation in business to prepare a brilliant career.

Our objective is to design courses and programmes with business leaders' input to equip you with valuable knowledge and real-world skills to give you a competitive edge when you start your career.

We don't simply teach theory or business concepts, we prepare you to use what you learn to become valuable members of your future employer's team.

We offer a comprehensive, stimulating and rewarding experience of studies.

The knowledge, critical thinking and analytical skills acquired at IFM give you new perspectives and the adaptability needed to meet current business challenges thus increasing professional opportunities.

### 5 specialisations

- BBA - Management
- BBA - Banking & Finance
- BBA - International Business
- BBA - Comm. & Marketing
- BBA - Family Business

### Program start dates

- January, April and October

### Duration of the bachelor

- 3 years

### Languages (3 sections)

- Courses fully taught in English
- Bilingual : English & French
- Courses taught in French

### Location

- Geneva, Switzerland

### Contacts

# IB Recognition

The IB works with the higher education community to ensure IB students get the recognition they have earned, as well as to examine and further develop our programmes to make sure we continue to offer the best preparation for university studies and life beyond.

IB students undertake one of the most challenging education programmes available to them. They are ambitious, and well-prepared for success — in further study, and in life beyond. By studying in the IB, students develop core skills for success at university.

Through our programmes, students develop:

- an understanding of and appreciation for research
- presentation and communication skills
- critical thinking skills
- report writing skills
- a sense of international mindedness and cultural understanding
- time management skills.

A number of online resources focusing on recognition of IB programmes are available on [www.ibo.org](http://www.ibo.org). These include information about IB programmes, research and evidence into the effectiveness of IB programmes, support in policy development, and information on where and how the IB is recognized around the world. The purpose is to increase understanding of the IB's aims and the unique aspects of each of its programmes, their assessment and the way they prepare students for further education.

## IB World Student Conferences

**IB World Student Conferences:** In 2018, the IB organized three IB World Student Conferences (WSCs) at The George Washington University, Washington DC, USA, Erasmus University Rotterdam, Rotterdam, The Netherlands, and The University of Hong Kong, Hong Kong, bringing together DP and CP students from around the world to explore and experience what it means to be globally engaged. More than 450 students attended the conferences, representing over 25 countries. During these conferences, students took part in enriching activities to expand their understanding of diversity, human rights, and urban planning while being provided with an exceptional opportunity to develop leadership skills and international understanding. Attending an IB World Student Conference provides opportunities for students to:

- engage globally
- Be inspired to act on global issues
- Collaborate with IB peers from around the world
- Develop solutions to global challenges
- Explore academic life at a world class university  
Scholarships are available.

Find out about IB World Student Conferences at [ibo.org/wsc](http://ibo.org/wsc).

# 100%

English Speaking Campus  
American Degree  
Tokyo

Temple University, Japan Campus (TUJ) is a comprehensive overseas campus of Philadelphia's Temple University. TUJ is located in the heart of Tokyo's international business, diplomatic and entertainment district. Students can complete U.S.-accredited associate's, bachelor's, master's and doctoral degrees in English without leaving Japan.

JAPAN CAMPUS

# Research, Professional Development and Government

## IB research

Research plays a central role in the development, quality assurance and assessment of IB programme outcomes. The IB commissions research to leading research institutions and universities around the world, and also conducts a small number of studies in-house.

The core of our work involves research on IB programmes. We conduct Outcomes research to investigate the impact of IB programmes on students, teachers and schools, and Curriculum research to support the development and review of all programme curriculum and pedagogy.

We also design, implement and maintain Quality assurance frameworks that inform the IB's service to schools and professional development. The Assessment research department (formally part of the Assessment Division) collects and analyses data to ensure assessments are well-grounded in current understanding of best practice. We also coordinate research services such as the Jeff Thompson Research Award.

For more information on IB research, please visit [ibo.org/research](https://ibo.org/research).

## Professional development

Educators, school leaders and administrators are offered continuous support through plentiful IB professional development workshops and services. Development of a worldwide teaching and learning community committed to lifelong learning is an IB priority.

Each IB Global Centre presents a comprehensive calendar of workshops, webinars and conferences to help teachers and schools better understand and deliver our four IB programmes. Through this broad array of resources, IB educators are continuously challenged to reflect on and improve their teaching practices.

For more information, please consult [ibo.org/programmes/pd](https://ibo.org/programmes/pd)

## The IB and governments

Engaging regional and national governments is at the centre of the IB's commitment to diversity and inclusivity. We are defined by our values and those include pedagogical leadership and international-mindedness. There is a growing awareness among governments that education systems have to work in an international society, not just a national one. We engage with many governments, either to create more IB World Schools or to influence national education systems. Across the world, the IB is working hand-in-hand with regional and national governments to ensure state access to IB programmes.

# Create change with The University of Queensland

## Ranked 48th in the world's top universities

For more than a century, The University of Queensland (UQ) has educated and delivered change makers through unparalleled teaching, learning and research excellence.

At UQ we recognise your IB studies and offer you opportunities to accelerate your learning. As an IB student you can:

- Be eligible to receive credits or exemptions for up to one semester,
- Pursue multiple study interests through our dual degrees,
- Continue your language or music learning through our Concurrent Diplomas,
- Realise your entrepreneurial ambitions through UQ's iLab and IdeaHub.

Be part of creating change for a better future.

*Ranked 48th in the world according to QS World University Rankings 2019 and top 30 in 10 subjects according to QS World University Rankings by Subject 2018.*

CREATE CHANGE

# The IB Around the World

We currently work with IB World Schools in 153 countries. All our jurisdictions have not-for-profit or charitable status with headquarters in Geneva, Switzerland. Our four global centres are in Washington, USA, The Hague, Netherlands, Cardiff, UK, and Singapore. We employ approximately 700 IB staff worldwide.

Our IB staff and educators work closely with prospective and candidate schools as well as existing IB World Schools. They are also responsible for creating and sustaining relationships with governments, international and national agencies, universities and other educational institutions, foundations and concerned individuals. Through its strategic goals, we are also promoting wider educational access.

## Core services we provide include:

### For prospective schools

- Introductory or orientation workshops
- consultation, advice, and materials on application and authorization
- Training workshops
- authorization visits.

### For IB World Schools

- professional development programmes for new and experienced IB teachers
- regional conferences
- support via webinar
- online access to resources and support via My IB
- periodic evaluations of schools' IB programmes
- ongoing support throughout a school's IB journey.

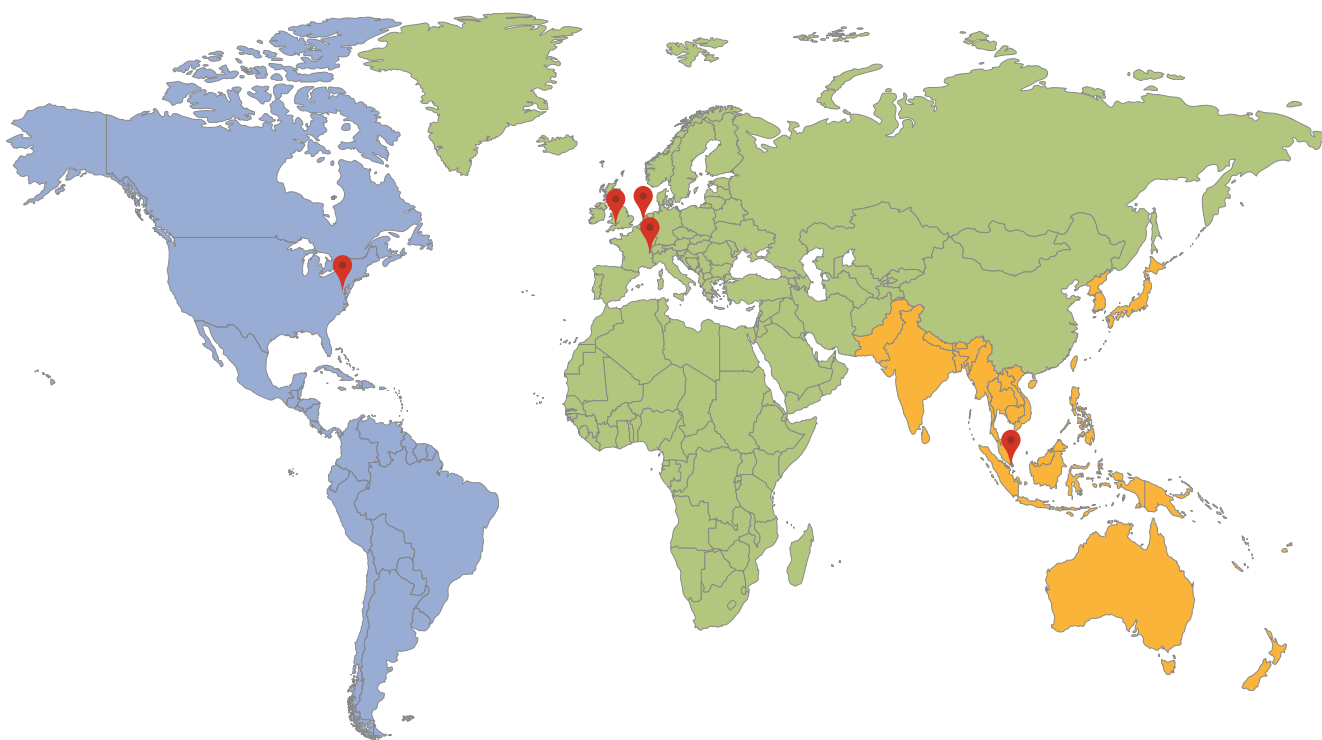

### For universities

- information on the philosophy, structure and requirements of the IB Diploma and Career-related Programmes
- access to the content and requirements of the IB Diploma and IB Career-related Programme curriculums and assessment
- research to demonstrate the effectiveness of IB programmes
- advice on establishing an IB recognition policy.

### For governments

- advice on how to integrate IB programmes into state educational systems
- consultation regarding recognition of the IB Diploma.

# Promoting and Explaining IB Logos

## The IB World School logo

IB World Schools may use the IB World School logo in connection with the programmes for which they are authorized.

The logo is a registered trademark to ensure that only schools that have achieved the high standards required by the IB are able to use it. The design uses the same core as the main IB logo. It is available for download from the digital toolkit on [ibo.org](http://ibo.org) in a wide variety of formats

## IB programme logos

We have some unique logos representing each of the IB's four programmes. This is simply an extension of the IB brand that allows the IB and the extended community a more deliberate and distinct method of promoting each of the individual IB programmes. The programme logos draw on the core IB colours and attributes of the already recognized brand to ensure that all marques remain fully connected. Programme logos are offered in English, French and Spanish, and are available in various application styles for different backgrounds for both colour and black and white reproduction.

## Using the IB World School and programme logos together

Programme logos must only be used to identify and support programme-related information and must always be accompanied by the trilingual IB World School logo. For convenience and correct application, we have created versions of the programme logos in combination with the trilingual schools logo. These combination logos are offered in English, French and Spanish and are available in various application styles for different backgrounds for both colour and black and white reproduction.

## The IB Continuum logo

The IB Continuum logo is for use by IB World Schools offering three or more contiguous IB programmes.

An IB Continuum logo, with overlapping spheres connecting the Primary Years Programme (PYP), Middle Years Programme (MYP), Diploma Programme (DP) and Career-related (CP) Programme is available. This visual represents the alignment and articulation of IB programmes and the IB's philosophy of the continuum of international education

All of the materials described here are available to download at [www.ibo.org/digital-toolkit](http://www.ibo.org/digital-toolkit).

# THE UK'S GLOBALLY CONNECTED DIGITAL UNIVERSITY

# IB Governance

## IB Board of Governors

We are governed by a Board of Governors, whose members are appointed by the Board upon recommendation by the governance committee. Membership comprises a diversity of gender, culture and geography with experience from both the business and academic worlds. Board members, with the exception of the Chair, are volunteers and receive no payment for their time or work on the Board.

## Members as of November 2018

### Chair

Dr George Rupp, former President of the International Rescue Committee

### Vice chair

Dr Sijbolt Noorda, President of the Magna Charta Observatory, Bologna, Italy, and President of the Academic Cooperation Association, Brussels, Belgium

### Members

Professor Amy Tsui, Chair, Professor of Language and Education at The University of Hong Kong (HKU), Hong Kong.

Dr Coenraad Vrolijk, Regional CEO, Allianz, Geneva, Switzerland.

Dr David Homer, Chair of the IB Examining Board, Somerset, United Kingdom.

Mr David Walker, Founder, Kauri Capital, Singapore

Mr Dominique Ledouble, HEC, Doctor of Law, accountant and auditor, France.

Dr Jamelle Wilson, Dean of the School of Professional and Continuing Studies, University of Richmond, USA.

Mr Jon Kessler, President and CEO of HealthEquity, Draper, Utah, USA.

Dr Luis Rey Goñi, Director of Colegio de San Francisco de Paula, Seville, Spain.

Mr Luke Thomson, Principal of Pembroke School, Adelaide, South-Australia, Chair of the Heads Council and ex-officio member of the IB Board.

Ms Maysa Jalbout, Chief Executive Officer, Abdulla Al Ghurair Foundation for Education, United Arab Emirates.

Dr Nikki C. Woodson, Superintendent of Schools for the Metropolitan School District of Washington Township, Indiana, USA.

Ms Sian Carr, Principal, Skinners' Kent Academy, Kent, United Kingdom.

Mr Steven Kim, Partner at Verdis Investment Management, Villanova, Pennsylvania, USA.

Mr Winston Hodge, Principal, Anglo-Chinese School, Singapore.

# Saint Michael's College offers the **gold standard** for IB Admission policies

---

## Scholarships

IB Diploma holders will receive merit scholarships of \$18,000/year or more depending on their score.

## Credit and Advanced Standing

Students who complete the IB Diploma Program may receive up to 32 credits, which is equivalent to one full year of study. IB students not completing the Diploma Program are also eligible to receive advanced standing and/or credit for both HL and SL courses with grades of 5 or higher.

## English-Language Test Waiver

TOEFL/IELTS requirements are waived for IB diploma holders and students who achieve a score of 4 or higher in two or more courses that are not in a foreign language.

## Honors Program

IB diploma holders will receive special consideration for membership in the Saint Michael's College Honors Program.

## Admission

Students who expect to complete the IB Diploma program or who complete individual IB courses will receive special consideration regarding admission and scholarship decisions, and are strongly encouraged to apply.

---

Saint Michael's College values the mission and education of IB programs and wishes to provide IB students with a higher education that will continue to help them achieve success and improve the world.

# The IB Online

## IB public website

The IB public website is often the first point of contact for many people who are new to our organization and community. Each year, over 24.5 million pages are viewed on [ibo.org](http://ibo.org) – it is the largest, most comprehensive and most widely used source of information about the IB.

Every IB World School is given its own page on [ibo.org](http://ibo.org) that is automatically created and maintained using data from our administrative website (My School – [www.myschool.ibo.org](http://www.myschool.ibo.org)). We encourage IB World Schools to link to their official page on our site to certify their relationship with the IB.

Features accessed from the website include:

- application forms to find out more and start the process of becoming an IB World School
- information, resources and links for IB coordinators, school leaders, educators, students, parents, universities, and policy-makers
- a “Find Workshops” function, supporting thousands

of professional development opportunities, both around the world and online, for educators, coordinators, heads and administrators

- a “Find an IB World School” function, to enable quick and easy searching for authorized IB World Schools
- a rich variety of research on outcomes of IB programmes, curriculum research, assessment, and monitoring and evaluation
- links to all of the official IB social media accounts
- the IB blog is home to hundreds of engaging and inspiring stories from across the IB community of educators, students, alumni, and school leaders, plus opinion pieces from people in the wider field of education. Visit [blogs.ibo.org](http://blogs.ibo.org)
- an online store where you can purchase IB publications, resources and merchandise. Find the store at: [www.follettibstore.com](http://www.follettibstore.com).

**VICTORIA**  
Educational Organisation  
維多利亞教育機構

# Multilingual Students Today Global Citizens Tomorrow

Victoria Educational Organisation offers the highest quality education for children from the age of 8 months to 6 years old. With eight nurseries and kindergartens situated throughout Hong Kong, our schools share a common vision and curriculum, with each campus celebrating its own style and individual qualities.

- Teacher / Student Ratio 1:8 (Average)
- International Baccalaureate World School
- Trilingual / Bilingual Language Immersion Environment
- Columbia University Teachers College Reading and Writing Project
- Maker-centered Learning, Project Zero at the Harvard Graduate School of Education

[www.victoria.edu.hk](http://www.victoria.edu.hk)

[enquiry@victoria.edu.hk](mailto:enquiry@victoria.edu.hk)

New applications available via My IB include:

- Three online communities—Heads Engage, programme communities and IBEN Engage—that replace the forums on the Online Curriculum Centre (OCC) as the place for educators to network and collaborate.
- The programme resource centre that replaces the resources on the OCC.
- A new IB Answers service that contains thousands of FAQs, multi-media content and real-time support.

Look out for more applications in the future; plus plenty of ongoing enhancements to the existing applications.

Heads of schools, IB programme coordinators, and members of the IB Educator Network (IBEN) were registered automatically with My IB and can log in using their My School and/or IBEN Central login credentials. All other IB educators can register themselves with My IB by clicking on the link **at the top left of [www.ibo.org](http://www.ibo.org)**.

## IBIS

IBIS is the online administrative system used by IB coordinators in IB World Schools. IBIS allows coordinators to:

- register candidates, change registrations and produce reports about candidate registrations
- produce invoice/fees reports
- submit predicted grades and internal assessment marks
- receive examination results
- submit electronic forms
- access relevant guidance during an examination session
- upload candidate's coursework.

# Explaining and Promoting IB Programmes

For schools that have achieved the high standards required for authorization, one of the many benefits is the designation as an IB World School and the use of the IB brand identity. This helps to reinforce the reputation and credibility of your school by associating with the globally recognized quality and values of the IB.

## IB World Schools pages on the IB website

To increase the number of visitors to your page on [ibo.org](http://ibo.org) we automatically ensure that Google and other major search engines index your page regularly. We include your page in our own site search engine and the site A to Z index.

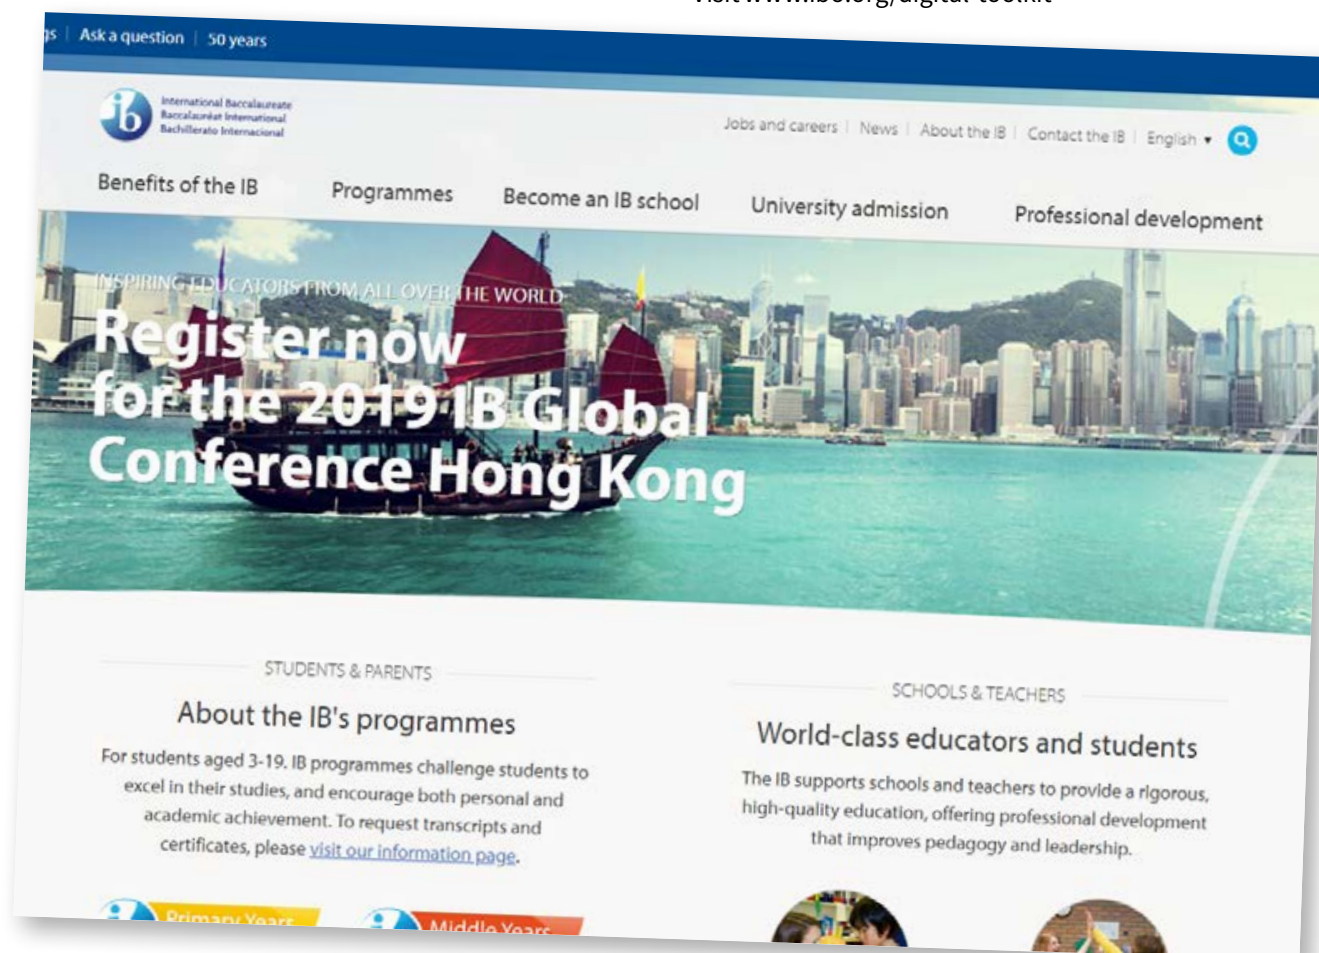

## IB Digital toolkit

The IB digital toolkit is designed to provide IB World Schools with a wide range of free communications materials that can be used to present the IB and its programmes to stakeholders such as students, parents, teachers and school boards within your community as well as universities and government bodies.

You will find:

- branding guidelines
- brochures, flyers and posters
- logos and programme models
- Powerpoint presentations to help schools explain and promote IB programmes to diverse audiences.
- videos and testimonials
- 'alumni relations' materials
- university recognition materials.

Visit [www.ibo.org/digital-toolkit](http://www.ibo.org/digital-toolkit)

## Celebrating 50 years of the IB

### **IB World magazine**

Our official magazine is published once per year in October plus additional IB World digital stories published weekly on the IB blog. The magazine aims to share best practice and interesting stories from the ever widening IB community along with a variety of content from opinion makers and experts from the field of international education. The articles vary widely, from teachers writing about classroom experiences and students sharing their community, activity, service (CAS) projects to thought leadership articles about the role of international education.

All IB World Schools receive four complimentary copies

of each edition. The magazine is also uploaded to [ibo.org/news/ib-world/](http://ibo.org/news/ib-world/) making it possible for parents, students, teachers, board members and others who are interested in the IB to enjoy. The magazine is available in English and Spanish with key features also available online in French.

### **Support available**

Information and supporting materials are available on the public website with the IB digital toolkit to help you promote your programmes. Alternatively, if you have any other questions, please contact the IB communications team by email at: [communications@ibo.org](mailto:communications@ibo.org).

# IB Certificates in Teaching and Learning

Two distinct certification opportunities in teaching and learning are offered by a network of universities in coordination with the IB. Educators can choose from nearly 44 highly ranked universities in locations all around the world.

1. Choose the **IB certificate in teaching and learning** to examine principles and practices associated with the Primary Years, Middle Years and Diploma Programmes. These university courses of study help new and experienced educators develop themselves into reflective practitioners and teacher-researchers.
2. Pursue the **IB advanced certificate in teaching and learning research** to supplement IB experience with rigorous, systematic, investigative work in curriculum development, pedagogy and assessment.

The IB educator certificates can help you gain a rich learning experience, ongoing professional development and a career path leading to greater opportunities in the IB global community of schools. Your programme of study at an IB-recognized university will enable you to:

- improve the quality of your classroom teaching.
- demonstrate your deep understanding of student learning.
- enhance your competitive edge in the education job sector.
- interact with leading academics.
- demonstrate your commitment to continuous self-improvement and lifelong learning.
- establish a strong peer network for research and publishing consultation.
- gain access to IB community resources, including the IB's online curriculum centre.

## IB Certificates in Leadership

Certified IB leaders inspire and guide school communities as they implement and sustain IB programmes. IB certificates in leadership verify your understanding of principles and practices associated with leadership in an IB World School and in the IB community at large. Two distinct IB certificates in leadership development are offered by universities around the world.

1. The **IB certificate in leadership practice** is designed for aspiring educators and administrators who want to improve their leadership capabilities in an IB context. Through this programme, learn to refine your abilities to take on leadership responsibilities and to better understand your role in guiding a school through IB authorization and implementation
2. The **IB advanced certificate in leadership research** focuses on rigorous investigative work to give experienced leaders a more grounded understanding of IB leadership responsibilities and capabilities. Your training will include research within the context of IB leadership as well as deep reflection on your personal leadership practice.

Take the next step to becoming a certified IB educator or leader. Visit [www.ibo.org/en/professional-development/professional-certificates](http://www.ibo.org/en/professional-development/professional-certificates) for more information about the IB's partner universities, or contact [pd.pathways@ibo.org](mailto:pd.pathways@ibo.org).

# Africa, Europe and Middle East

## Some facts about this region

We serve 1,145 IB World Schools across Africa, Europe and Middle East (AEM). These schools offer 1,649 IB programmes and each school may teach more than one IB programme. Specifically, we have:

- 354 that offer the Primary Years Programme (PYP)
- 278 that offer the Middle Years Programme (MYP)
- 943 that offer the Diploma Programme (DP)
- 74 that offer the Career-related Programme (CP)

*\* Figures as of September 2018*

## Recent developments in Africa, Europe and Middle East (AEM)

### Africa

The Development & Recognition Manager (Africa) works with key institutional bodies to strengthen recognition of IB programmes on the continent. In February 2018, the IB held the first African Education Festival in Ghana in partnership with United Nations Educational, Scientific and Cultural Organization (UNESCO). The event brought

together eminent education experts including policymakers, principals, educators and administrators from across Africa and further afield to share and learn about global best practices in education with the aim of enhancing teaching and learning within schools on the continent. The Development & Recognition Manager (Africa) continues to maintain and strengthen relationships with key institutional bodies such as the Association of International Schools (AISA). Working closely with groups of schools such as the Aga Khan Network and Enko Education, the IB continues its discussions to boost MYP, DP and CP recognition in Mauritius, Kenya, Ghana and South Africa, and growing its mission leading to more access to an IB education in the region.

### Europe

In the UK, development of the CP continues apace with a further 18 schools starting to teach the programme in the 2017-2018 academic year. This has brought the total of CP schools in the UK up to 40. Additionally, a further 14 schools are developing the CP for first teaching in September 2019 by which time the number will be well over 50. The CP meets a critical need in offering a flexible programme which bridges the academic-vocational divide and allows a student's curriculum to be personalised. The experience of schools in our Kent pilot has shown that over 60% of CP students

progress to higher education and so the CP provides a pathway to raise students' aspirations and attainment.

Spain continues to grow in all IB programmes. It is highlighted that Spain has reached 117 authorized schools which will benefit from the new conversion scale of DP scores towards the national system for university access. Both state and private Spanish universities accept the IB diploma as an entrance qualification and welcome IB graduates from all over the world.

Following up on a successful project with the European Commission in Georgia, the IB Development & Recognition team is working on further recognition of IB programmes in the Eastern Partnership countries (Armenia, Azerbaijan, Belarus, Moldova and Ukraine). The IB continues taking

part in various events such as the Moscow Education Fair, Didacta (Germany), BETT Show (UK), etc. In April 2019, the first IB European Education Festival will be organised in Zagreb, Croatia.

The Nordic region continues to develop at a steady pace, supported by improved recognition in Denmark. Discussions are continuing within Sweden, Finland and Norway to ensure IB programmes are gaining fair recognition.

Growth in Italy has increased as interest across both PYP and MYP has spiked. This has been in the most part due to one school group building its continuum of IB Education.

## Middle East

Supporting its existing partnership with the Knowledge and Human Development Authority (KHDA) in Dubai, UAE, the IB has signed the International Certification Organization agreement in 2018. The IB continues to work closely with the Ministry of Education to improve the recognition of IB programmes across the UAE.

The Ministry of Education in Jordan has recognised the CP as an official qualification in Jordan and the IB has a partnership with the Queen Rania Teacher Academy under the patronage of Her Majesty Queen of Jordan.

The parliament in Lebanon issued a decree of the equivalency of the IB DP and the Lebanese Baccalaureate allowing Lebanese students to pursue an IB education.

The Middle East Development & Recognition team continues working closely with the Ministry of Education in Qatar, Oman, and Egypt as well Kuwait and Saudi Arabia for the recognition of IB qualifications. These relationships have led to growth in these countries.

## The IB Educator Network (IBEN)

For the last two years, the IB Educator Network in Africa, Europe and Middle East (AEM) has been strengthening its efforts to quality assure all IB educators within the pool and further improve the IB Educator recruitment and development.

In Fiscal Year 2017, IBEN has successfully implemented a new recruitment and development process for the IB Workshop Leader and School Visit Team Member roles. This year, IBEN has been successfully implemented the following initiatives:

- **Recruitment and Development for Consultant and School Visit Team Leader:** The new recruitment and development process had been successful for the new batch of School Visit Team Leaders and Consultants in AEM Region. This time, applicants were required to submit a portfolio which contains pieces of evidence to demonstrate the educators 'fit' for the consultant and team leader roles. IBEN has also piloted the new blended development for consultants and school visit team leader – requiring educators to complete four online modules and two-and-a-half-day face-to-face sessions.
- **High-stake assessment:** IBEN AEM has completed the quality assurance of IB Educators who had been inactive for a while but have reconfirmed their commitment to continue to support the IBEN work. As a result of this exercise, the IBEN team managed to clean its database of active and engaged IB Educators.
- **Field Representative:** IBEN has revamped the role of Field Representative to further emphasize its accountability in providing pedagogical leadership to workshop leaders and contributing to the global Quality Assurance Framework of IB professional development. The goal is maximising workshop leader performance and understanding, while ensuring that both workshop leaders and participants receive the highest quality of professional development available.

## Professional development

Through our events and workshops, educators can share best practice and network with colleagues across the region. Professional Development (PD) in the region is transitioning to meet local school needs, by providing more available and affordable PD. The PD regional events are growing in numbers and are being offered in new locations throughout the region. The range of accredited outsource providers is increasing steadily to help meet market needs and the range of online PD offerings is expanding rapidly providing opportunities for a more reflective PD experience. Workshop leaders training has expanded in the region, supporting the highest number of regionally trained workshop leaders to date. These workshop leaders provide PD via the following workshop models:

- **Regional workshops** are held in a variety of venues in major cities throughout the region. They provide collaborative learning experiences, opportunities to network and share best practice with peers, bringing regional and global perspectives to a face-to-face learning environment. Most of the academic workshop titles are offered and new subjects are added each year. Subject-specific seminars, designed to help educators understand and implement the changes made to IB subjects, are also being provided.
- **In-school workshops** are on-demand IB training events that provide schools with the opportunity to meet their professional development needs in their own school. They create a collaborative environment for teachers and staff, while eliminating or greatly reducing travel costs by allowing schools to tailor PD to suit their needs by training a large number of teachers on their own premises. In-school workshops are for schools that have applied for candidacy or are at the candidate stage or an IB world school. All in-school workshops are recognized for school authorization and evaluation purposes. While they are useful in addressing particular school needs, it is understood that they form only a part of the school's broader IB professional development portfolio, including participation in regional workshops, online workshops and conferences.
- **Cluster events** are designed to train educators, on a specific IB programme, at a host school's premises. They are an innovative solution to meet PD needs and to accommodate gaps in PD opportunities within the AEM region, whether it is due to language, geography or non-availability of a workshop topic. They are designed to take place at a host school with a minimum of two participating IB World Schools.
- **Online workshops** are becoming increasingly popular due to their flexible and scalable learning model. While the topics are similar to those offered at face-to-face events, online workshops provide flexibility and convenience for educators unable to travel to an event. They are also cost-effective, and available at any time – meaning that participants can complete them without taking time out of school. The

knowledge exchange that the online environment promotes between IB teachers living and working around the world is unmatched. The IB's high-quality learning platform promotes invaluable social and professional interaction. Alongside these workshops, the IB provides online seminars – known as webinars – that develop expertise by providing brief, specific snapshots of different aspects of IB programmes.

Online professional development (PD) continues to offer engaging and high quality formal and informal online professional development products to IB teachers globally. The IB Workshops and Services catalogue includes almost 350 online workshop titles covering all IB programmes, enabling over 12,000 educators globally to engage in professional learning. Furthermore, an increasing number of these online workshops are now being offered in French and Spanish. Online workshops are scheduled in seven sessions every year and can also be requested on demand through the IB website. Online PD has also launched a series of informal, bite-sized nanoPD for teachers and the IB community worldwide, including the nanoPD series on “What is an IB education”, webinars in all programmes and addressing topics of interest to leaders which can be accessed free of charge on the IB website. “MyCompass” – an introduction to online learning and the DP Advantage are two digital PD open to schools

Online PD products continue to offer great opportunities for schools that are looking for a flexible and cost-effective way to offer their teachers relevant and innovative PD.

For more information on Professional Development, please visit [www.ibo.org/pd](http://www.ibo.org/pd).

## University recognition

The AEM Development & Recognition team continues their important mission to achieve recognition or clarify the status of IB programmes in each country where there is an IB World School and remains in contact with ministries and a large number of universities throughout the AEM region. A growing number of ministries have shown an interest in closer cooperation with the IB by signing a Memorandum of Understanding or similar agreements.

## Associations of IB World Schools in Africa, Europe and Middle East

Many IB World Schools have chosen to form local associations with other IB World Schools at a national or sub-regional level. These non-profit associations provide a forum for school collaboration, informal gatherings and the exchange of good practice. Associations are often active in negotiating university and government recognition for IB programmes and can be an indispensable resource for schools discovering the IB for the first time. There are formal and/or informal associations for IB World Schools in the following countries:

Associations of IB World Schools with cooperation and licence agreement

- Commonwealth of Independent States – The IB Schools Association of Commonwealth of Independent States (IBSA)

- Germany – Association of German International Schools (AGIS)
- Middle East – Middle East IB Schools Association (MEIBA)
- Morocco – Association des Ecoles du BI du Maroc (AEBIM)
- Netherlands – The Association of Dutch IB World Schools
- Spain – Asociacion de Colegios BI en Espana (ACBIE)
- Sweden – The Association of Swedish IB Schools (ASIB)
- United Kingdom – The IB Schools and Colleges Association (IBSCA)
- Italy – Association of IB World Schools in Italy
- Switzerland – Swiss Group of International Schools (SGIS)
- Greece – IB Schools in Greece Association
- Lebanon – Association of IB World Schools in Lebanon
- Association of Eastern European Schools (ACES) – Eastern Europe

### Other Associations of IB World Schools

- Denmark – The Danish Association of IB Schools
- Finland – Association of Finnish IB Schools (AFIB)
- Norway – Norwegian IB Schools (NIBS)
- Poland – IB Schools Association in Poland
- Portugal – IB Schools in Portugal Association
- Turkey – Association of IB World Schools in Turkey
- Saudi Arabia – IB Association of Saudi Arabia
- UAE – Association of IB World Schools in the UAE (a chapter of MEIBA)

The IB Organization would like to inform all Associations of IB World Schools of the updated cooperation and licence agreement available on [www.ibo.org](http://www.ibo.org). It is our hope that all IB candidate and authorized schools within the region will be able to be part of an association in the coming years.

## IB research

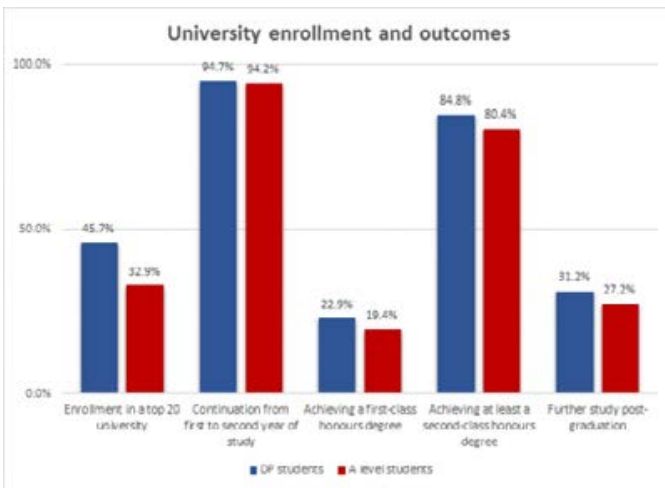

Key findings from research in the Africa, Europe or the Middle East region:

1. A study across five countries (**including Russia, the United Kingdom (UK) and Kenya**) explored student, teacher and parent experiences with the **PYP exhibition** – the culminating project of the PYP. Study participants found the exhibition to be a pivotal experience that helped students to develop critical thinking skills, international-mindedness and learner profile attributes. Additionally, parents valued the exhibition for fostering “real world” skills, such as independent inquiry and reflectiveness (Medwell et al 2017).
2. In **Spain**, researchers investigated the **impact and implementation of the MYP** in eight private schools, including examining the **integration** of the MYP and the local curriculum. Implementing the MYP alongside the local curriculum offered students and schools a number of benefits, particularly introducing concept-based learning, the learner profile and a more comprehensive assessment system. School heads and coordinators also believed the MYP helped to develop students’ critical thinking, communication and research skills,

- and fostered positive shifts in teaching and learning (Valle et al 2017).
3. To explore **the alignment of the DP and Sweden’s upper secondary curriculum (Högskoleförberedande examen)**, researchers conducted a curriculum comparison of select subjects, and also examined the underpinning philosophies and approaches of both systems. The study found clear and substantial similarities between the DP and the Högskoleförberedande examen in terms of their philosophies and recommended learning approaches. While some differences in subject content were noted, the DP covers a significant proportion of the Swedish content and also includes additional valuable content. The study indicates that IB World Schools in Sweden are well equipped to deliver the DP in a way that is compatible with the Swedish system (UK NARIC 2018).
  4. Researchers in **Turkey** investigated the **university outcomes** of DP graduates and their non-IB peers at Turkish universities. Compared to non-IB students, DP graduates generally had higher subject grades (in all subject areas examined), overall grade point averages (GPA) and graduation rates. DP alumni also reported feeling well-prepared for university studies, particularly with regard to English language skills and academic skills, such as writing and managing independent work (Ateşkan et al 2015).
  5. A large-scale study that took place across two regions – Asia-Pacific and **Africa, Europe, Middle East** – explored the **impact of creativity, activity, service (CAS)** on DP students and schools. Coordinators, students, and alumni believed that CAS helps students to become better at “taking on new challenges”, “learning to persevere”, and “developing better interpersonal skills”. Students also generally believed that CAS would have a positive impact on them post-DP in terms of preparing them for future life or studies (Hayden et al 2017).
  6. A study in five **Eastern and Central European** countries explored components of the DP that support **academic persistence**. Analysis indicated that the DP fosters students’ academic persistence to a higher degree than does the traditional education system. Fostering academic persistence has other benefits as well – in this study, IB students had higher academic achievement and were less likely to drop out of high school compared to similar non-IB students in Romania (Holman et al 2016).

studies and careers. By connecting with the IB, former students have the opportunity to participate in research, support development efforts and speak at our events. These graduates are also supporting educators and parents in understanding the impact of an IB education from a student’s perspective. To see how graduates are supporting IB programmes, visit [ibo.org/programme-stories](http://ibo.org/programme-stories) and connect with us at [www.ibo.org/alumni](http://www.ibo.org/alumni).

**AEM region in media 2018**

Throughout 2018, the IB secured a steady stream of significant editorial coverage across the AEM region and was reported on in an increasing number of high quality media outlets. The quality and range of widespread coverage ensures that significant messaging and news about the IB, its programmes and, most importantly, its students are highlighted and celebrated. The total estimated audience reach of this coverage for the past calendar year (starting in January 2018) is 88,015,036. The coverage featured all four programmes; focusing on the important details of each programme as a single unit and the all-encompassing nature of an IB education. Notable media coverage across the AEM region includes: the PIE News feature on 50 years of the IB, Modern Ghana’s report on the Education Leadership Conference in Ghana, Gulf News and Khaleej Times’ coverage of the DP results day, and FE News’ report on the celebratory news of seven schools’ 40 year commitment to the IB.

7. To examine the higher education outcomes of students in the **UK**, researchers explored the **university enrollment and achievement** of statistically matched groups of DP and A level students<sup>1</sup>. The study revealed that enrollment in the DP significantly increased a student’s likelihood of attending a top 20 university in the UK (by 57%). Additionally, compared to their A level peers, DP students were significantly more likely to receive a first- or second-class honours degree and to enroll in further education after completing university (HESA 2016).

**The IB alumni network**

The IB Alumni Network is a resource for IB graduates around the world. The network links graduates from IB World Schools in 153 countries to support their future

<sup>1</sup> This study used propensity score matching to compare DP students with similar non-DP students. This statistical technique allows the researchers to better isolate and identify the impacts of the DP specifically, as the two groups are similar otherwise

Abdul Rahman Kanoo International School (ARKIS) is a bilingual school located in the Kingdom of Bahrain, founded by Mr. Abdul Rahman Kanoo, a philanthropist, in 1997. Currently, there are more than 2,000 students enrolled at ARKIS.

Our first cohorts graduated in 2010 with IB results above worldwide averages and are currently employed in local and international work places. It was Mr. Abdul Rahman Kanoo's vision to provide quality, balanced and international education. ARKIS aims at graduating responsible, active citizens, empowered with knowledge and skills to meet the challenges of an ever changing world and to contribute positively to the development of the community and nation.

The school is accredited by the Council of International Schools (CIS) and New England Association of Schools and Colleges (NEASC) since 2013.

ARKIS is a certified Cambridge Assessment International Education Centre (CAIE) from 2006 and Edexcel from 2013. The Cambridge curricula programmes are taught from KG

to Grade 10, followed by the International Baccalaureate Diploma Programme (IBDP) and International Baccalaureate Courses (CP) in Grades 11 and 12.

Our school has implemented Universal Concept of Mental Arithmetic System (UCMAS) from KG2 to Grade 8. This programme is based on an ancient Chinese concept and modern scientific research to stimulate and develop both hemispheres of the brain by using a simple educational tool, the abacus.

We are extremely proud of our Creativity Activity Service (CAS) Programme which starts as early as Grade 6. Students participate in community service programmes locally and internationally through fund raising campaigns, as well as awareness campaigns on different topics.

The Abdul Rahman Kanoo Award Scholarship (AKAS) was established in 2010. This award is to inspire students towards high academic and social achievement by granting them scholarships to study abroad in reputed universities and colleges.

As the adage goes, 'A tree with strong roots laughs at storms.' This best encapsulates what Acorns International School (AIS) is symbolic of. Our tree bears fruits that stand the test of time.

Nestled between the verdant folds of Kampala, the capital city of Uganda, AIS is sprawled over a 5-acre state-of-the-art, purpose-built campus, that nurtures the balance between academics and extracurriculars.

Over two decades in the field of education, we have grown to represent more than 50 nationalities. The AIS team strives to inspire and empower every student to achieve their personal best and become enquiring, knowledgeable, lifelong learners and pluralists who create a better and peaceful world, through intercultural understanding and respect.

Admissions are open throughout the academic year, subject to availability. We have a limit to the number of students per classroom, for uncompromised quality. This interface gives teachers an edge to assess each student's area of strength, and improvement. Teachers are supported in this process, with timely professional development sessions, to ensure growth and excellence. Through an open-door policy, we ensure that our main stakeholders, our parents, are full partners in the decision-making process and voice concerns not only of their children, but their own too.

The language of instruction is English, with French and Kiswahili as part of our dynamic curriculum. Through our engaging and rigorous, inquiry-based environment, students

reach their full academic potential and become responsible, caring, multilingual, and culturally-literate global learners.

AIS is non-sectarian and co-educational institution, founded on strong partnerships between parents, teachers and learners.

A visit to AIS allows your family to experience the school in a relaxed environment, meet with the administration, as well as visit classrooms, science lab, performing arts room, library, swimming pool, auditorium, soccer grounds and the basketball court.

AIS is an authorised International Baccalaureate (IB) Primary Years Programme (PYP) School and a \*candidate school for the Middle Years Programme (MYP) and Diploma Programme (DP).

AIS accepts students from the age of 18 months, in the Early Childhood department (18 months – 5 years), to Primary Years Programme (Year 1 – Year 6), Middle Years Programme (Year 7 – Year 11), and Diploma Programme (Year 12 – 13) to be offered in academic year 2020-21.

It is always onwards and upwards for us, at AIS, and we would love for you to join us!

*\*Only schools authorized by the IB Organization can offer any of its four academic programmes: the Primary Years Programme (PYP), the Middle Years Programme (MYP), the Diploma Programme (DP), or the Career-related Programme (CP). Candidate status gives no guarantee that authorization will be granted.*

Education should be a way of life. School should be about the development of the whole person. When John Corlette founded Aiglon College in 1949, he had a unique vision: to combine the special character of mountain life with an innovative educational mission. Aiglon today guards this original vision and has grown into one of the world's most distinctive boarding schools.

Spirited, independent and a not-for-profit organisation, Aiglon's aim toward the balanced development of mind, body and spirit works to create a principle-driven environment where students and teachers alike are encouraged toward academic excellence, pursuit of physical challenge and the learning born through a deeply international culture.

Aiglon is an English-speaking school styled in the tradition of British education. Students follow the globally recognised IGCSE and International Baccalaureate (IB) programmes while simultaneously developing practical skills that integrate curriculum into all areas of life. The focused, individually tailored programme allows each student to access a unique course of study.

The school's professional College & Careers Counselling team works closely with each student to help them understand and succeed in the university application process. Through these efforts, our students have access to the world's top universities. This tailored programme encourages, develops and ultimately matches every student with a university that can continue developing their education.

The character of Aiglon students is forged on the mountain. Aiglon is located just beyond the ski resort village of Villars-sur-Ollon in French-speaking Switzerland, at 1,258m. Making use of our safe, alpine environment we enjoy an open-style campus and are just 250m from the ski resort's main lift. Central to its educational philosophy, the uniquely crafted expedition programme utilises Aiglon's location in the Swiss Alps to engage students in activities designed to develop their sense of challenge and responsibility in a highly practical environment.

In winter, students ski twice per week as part of the physical education programme. Beyond winter, students participate in a wide range of competitive and noncompetitive activities from football and swimming to yoga.

All the teaching staff play a key role in pastoral care and learning support at Aiglon. From their roles as Houseparents, Assistant Houseparents or as tutors, teachers are available to students 24/7. In this community relationship, students and teachers are able to connect in unique ways that enable young people to grow and better understand their purpose and role at Aiglon.

Our unique combination of academic excellence and the spirit of living life on the mountain ensure that an Aiglon education provides your child with everything needed to succeed.

As an International Baccalaureate (IB) World School for the Primary Years Programme (PYP), and a candidate school for the IBMYP and IBDP, we provide an international, premium quality, holistic education to Emirati and expatriate children in the region and boast a student body at the school with over 51 different nationalities. We ensure that each student's individuality and talents are recognised and developed to the full. Ajman Academy is a co-educational school offering innovative technological integration in all areas of the curriculum.

Our school provides a rich programme, primarily English and Arabic; however, our language programme aims to develop the mother-tongue of all students alongside English. At Ajman Academy, we believe that an appropriately structured curriculum and active learning strategies ensure this development.

At Ajman Academy, we are dedicated to empowering students to become lifelong learners in an ever-increasing digital and global environment. The school was developed with a vision of providing a 21st Century educational platform. It offers a complete WiFi experience with a 1:1 Apple device programme and wireless configuration of shared

learning with real-time commentary. With an IT-enabled 'state of the art' building and flexible learning spaces including Music, Art and Design rooms along with Science, Food Technology, Robotics, and IT laboratories, the school is quickly becoming a leader for integrated learning in the United Arab Emirates and beyond.

The School has three campus buildings, Pre-KG, Primary and Secondary utilising a space of 600,000sqm.

Middle Year students choose from six global contexts to establish a real-world framework for each unit of study.

Ajman Academy is also a candidate school for offering the International Baccalaureate Diploma Programme (IBDP), which is built on a structured framework that lays a strong emphasis on developing core skills and competencies through critical thinking, problem-solving, inquiry, creativity and learning how to learn.

At Ajman Academy, every student is guided through our vision of 'World Leading Learning for All'. We aim to support them in reaching their academic and personal best while demonstrating the traits of the IB Learner Profile within an environment of mutual respect and understanding for all.

Al Faris International School is a fully authorized IB World School in the PYP, MYP and DP Programmes. The school was established in 2004, is licensed by the Saudi Ministry of Education and certified by AdvancEd. Diversity is reflected in the student and teacher profiles as well as the teaching methodology and resources.

## Academics

Al Faris provides an enriching, challenging and supportive learning environment that allows each student to fulfill his/ her own individual potential. We have an experienced international staff including teachers from Saudi Arabia, the Middle East Region, South Africa, Asia, Europe and the USA.

Our curriculum meets international standards and includes the core subjects of English, math, sciences, social studies/ history as well as Arabic, French, computer studies, robotics, art, and physical education in a transdisciplinary learning framework for the PYP and disciplinary and interdisciplinary learning in the MYP and DP.

We strive to give our students a comprehensive educational experience which will prepare them to be effective contributors in today's global arena as well as life-long learners. To this aim, we continuously keep informed of the latest educational programs and trends worldwide and implement those which we feel effective in order to give students the best in global education. Examples include the Lucy Calkins Writing Workshop and the Daily 5 Literacy Program. At the same time, we offer a strong Arabic language

program as well as Islamic studies, thus maintaining the balance between our world outreach and our cultural heritage.

## School Facilities

Facilities include interactive classrooms; state-of-the-art computer and science labs; four libraries serving diverse grade levels; art rooms; an auditorium; drama rooms; sports facilities including a gymnasium; indoor and outdoor soccer courts; two indoor swimming pools; ballet and gymnastics rooms; spacious, shaded playgrounds; a school clinic and cafeterias.

## Extracurricular Activities

Students are offered a wide variety of extra-curricular activities including after-school sports programs and the Al Faris Academy offering sports and exercise classes. Students also take part in field trips as well as academic and sports competitions. The school has recently launched a Model United Nations (MUN) for middle and high school students as well as a Ted Ed club.

Our DP students are involved in many community service activities including breast cancer awareness; visits to children's hospitals, handicapped children and the elderly; tutoring younger students; and an ongoing support of the Azraq School through Helping Refugees in Jordan which includes regular student visits to take supplies and assist teachers.

Al-Hussan International School (AHISK) is a private English language day school with 1,318 students, situated in three buildings in the city of Al-Khobar. The Pre-School-G2 Campus currently houses students in Pre-K to Grade 2. The Girls' and Boys' Section Campuses house Grades 3 to 12 respectively. The school provides the environment and the experiences which promote the moral, social and intellectual development of all its pupils. Every child is cherished and receives support and encouragement within a strong, caring community.

The school offers a well-rounded education through its provision of different programmes of instruction for students from Pre-K to Grade 12. We acknowledge that every child is born with unique potential, and we seek to develop each child's creativity, expand their horizons and prepare them to be responsible citizens and leaders. English is the language of instruction, with Arabic, French or Urdu offered as a second language and as a foreign language for non-native speakers. Islamic classes are offered to all students from KG to Grade 12.

AHISK strives to continually improve the quality of education it provides. We are accredited by AdvancED and a member of CIS. The Al Hussan curriculum is offered from KG to 12. Students have the option to sit for IGCSE O levels in Grade 10 and A levels or IB in Grades 11 and 12.

Courses on offer in the IB Diploma Programme are: English Literature, Arabic B, Arabic *ab-initio*, French B, French *ab-initio*, Business Management, Economics, Biology,

ITGS, Chemistry, Physics, Computer Science, Math Studies, Mathematics and Visual Arts.

**Our Vision**

Leaders of Excellence in International Education

**Our Mission**

Al Hussan International School provides high quality education through a safe, stimulating, and multicultural environment to prepare leaders for a global society.

**Our Beliefs**

At AHISK, we believe:

1. all students can learn and realize their full potential.
2. a safe and stimulating environment promotes quality education.
3. in respecting cultural and individual differences.
4. all stakeholders share the responsibility for advancing our mission.
5. in preparing students to pursue further educational goals.
6. commitment to continuous improvement is imperative.

At AHISK we believe in preparing students to become well-rounded young people, ready to meet the challenges in an ever-changing world. This is done through our challenging programs of study and with the help of an experienced, extensively trained team of teachers. Our student body is very active and striving to make a change in their community. Our graduates are joining universities across the world, mainly in the Middle East, Far East, Canada and USA. We are proud of our family and we invite you to visit us and experience our loving and nurturing family ambiance.

**“Where academic excellence meets passion”** – The first of its kind in the heart of Europe, AMADEUS International School Vienna offers a unique blend of rigorous academics, innovative music and arts education, and optional boarding in superior facilities.

**School**

Our educational programme for children aged 3 to 18 (Early Years 1 – Grade 12), taught in English, is based on the globally recognised International Baccalaureate. Learning at AMADEUS Vienna is inquiry-based and creative and empowers students to bring their ideas to life. We believe that education is a process, full of opportunities to explore, discover, create, develop, and enrich knowledge, skills, and perspectives.

**Arts**

Accompanying our excellent academic curriculum is an innovative music and arts programme. Driven by the AMADEUS Music and Arts Academy (AMAA), we support our students in choosing the creative path best suited for

their individual talents and goals, focusing on appreciation, enrichment, and specialisation. The skills and experiences they gain will remain with them throughout their lives.

**Boarding**

AMADEUS Vienna has a strong sense of community and inclusion. We promote a healthy and balanced lifestyle that emphasises fresh and nutritious food, physical exercise, and overall well-being. Unique among Vienna’s international schools, we offer optional on-campus boarding for our secondary students.

**Location**

The AMADEUS Vienna campus is just a tram ride away from the city centre and a 40-minute taxi ride from Vienna’s international airport. Our beautiful campus is located in a tree-filled park in a distinguished residential district, and our students thrive in a city famous for its history, culture, and quality of life.

American International School Kuwait (AIS) is an accredited co-educational independent day school that offers three IB Programmes Pre-K through Grade 12. It has a rigorous academic programme within a nurturing learner-centered environment.

English is the primary language of instruction. A large population of our Arabic first-language speakers are from Kuwait or within the Middle East region. Our international student population hail from over forty-seven countries globally.

The school has an outstanding extracurricular programme that offers a wide-variety of activities in sports and the creative arts. There is an active Model United Nations (MUN) club and every year, our students travel to the annual Assembly in The Hague.

The school facility includes two gymnasias, several outdoor

sports areas, music and theater spaces, strength training and aerobics rooms, as well as a 1200 seat auditorium. The walled campus includes nearly one hundred teaching spaces that surround two interior courts. Our Learning Commons offers a collaborative space for student inquiry, instructional coaching, and collaboration and houses a library with a large fiction, non-fiction, and Arabic collection.

Graduates of AIS attend dozens of English language universities in the United States, Canada and the United Kingdom. The ethnic diversity of the Middle East, layered with the complexity of an otherwise international student body, provides a stimulating and endlessly fascinating environment in which we live the IB learner profile.

AIS Kuwait inspires students to become critical thinkers and contributing world citizens through rigor and balance in a nurturing educational environment.

**Aim. Succeed. Become more.** The American School of Milan (ASM) is an independent, nonprofit college preparatory day school with a state-of-the-art campus located south of Milan. Founded in 1962, ASM has been educating international students from more than 50 countries for more than 55 years. The school's mission is to provide a modern and rigorous education for international students to excel in the changing world of tomorrow.

ASM offers a student-centered, American-style education that encourages children to develop their full potential, achieve personal excellence and become global citizens committed to lifelong learning. We embrace the IB learner profile along with our school values of accountability, respect and empowerment. Technology is a key focus at ASM and an integral part of student learning.

**Student Body and Faculty.** Current school enrollment is 895 students and there are 103 full-time faculty employed. High school enrollment is 291 students representing 40 nationalities. Our teachers are talented, highly educated, experienced and, above all, inspiring leaders. The school encourages faculty continued learning through a substantial professional growth fund.

**IB Diploma courses.** ASM was authorized to offer the International Baccalaureate Diploma in 1983. Students are also awarded the American High School Diploma upon graduation. All junior and senior level courses are taught at

the International Baccalaureate level and course offerings include English A1 or Italian A1 Language and Literature (HL/SL); Italian B/French B/Spanish B (SL/HL/Ab initio); Global Politics/History/Psychology/Economics (SL/HL) or Environmental Systems and Societies (SL); Biology/Chemistry/Physics (SL/HL) or Computer Science (SL) or Environmental Systems and Societies (SL); Mathematics (SL/HL) or Mathematical Studies (SL) and Visual Art/ Film/Music (SL/HL).

**IB Diploma scores.** ASM student IB results have consistently exceeded world averages in terms of pass rate and average points. All juniors and seniors are encouraged to sit the exams and pursue the full Diploma. In 2018, ASM students achieved a 34 average score and went on to attend leading universities throughout the world, above all in the US, UK, Europe and Canada.

**Co-curricular activities.** ASM has an extensive 9-acre campus located next to a golf course, tennis facilities and a swimming pool. Co-curricular activities include a thriving Model United Nations, National Honor Society, ABRSM music exams, orchestra, band, musical, varsity sports and Yearbook.

**Admissions.** Admissions are on a rolling basis. Acceptance decisions are based on academic reports, entrance tests and teacher letters of recommendation. For information, contact admissions@asmilan.org

American School of The Hague (ASH) serves the educational needs of the American and international corporate and diplomatic communities in The Netherlands. ASH students, ages 3-18, represent up to 80 nationalities at any one time with 28% of the student body being American and 14% being host country, Dutch nationals.

While the school reflects an American educational philosophy, the diverse backgrounds of the students foster teaching and learning in the context of international understanding and global citizenship. ASH has a rigorous academic program. The High School curriculum emphasizes preparation for university studies in North America, Europe and students' home countries around the world. All students may earn an IB Diploma in addition to a US High School Diploma. IB Diploma Programme offerings include both standard and higher level courses across the curriculum. Students may choose the IB Diploma Programme (IB), or combine IB courses with Advanced Placement (AP) or regular curriculum subjects to earn IB certificates in subject specialties. A variety of IB language courses – including mother tongue tutorials – are available. Students who choose the IB Diploma Programme continue to achieve an excellent success rate, and ASH consistently posts scores higher than the world average. The school prides itself in engaging students in active learning at all levels and accessibility to highly academic classes remain an ASH hallmark as can be

seen in their results. The school's unique IB group IV project provides students with the necessary conditions, using the local environment, to 'do science' for three days in the field. The project has become a model for emulation by schools around the globe.

In addition, ASH students move with confidence to new schools throughout the world, and on average 98% of each graduating class enters university. The academic program includes a wide range of fine and applied arts courses, with a curriculum that is technologically competitive throughout the disciplines. A full athletic program and extra-curricular activities are an important part of student life and the school boasts several gyms and soccer and baseball fields. Athletic teams in ten sports travel throughout Europe competing with other international schools. The Hague International Model United Nations, a major event for many ASH High School students, is sponsored by the school each January for more than 3500 international participants. The arts program offers individual and group instruction and performance opportunities in vocal and instrumental music, movement and theatre, and the ASH Jazz Band is well known throughout Europe. The two campus locations have spacious classrooms, specialized teaching areas, and multiple science and multi-media labs. ASH accepts applications at all grade levels throughout the year. For more information, visit [www.ash.nl](http://www.ash.nl) or follow ASH on social media.

The Amman Bacculaureate School (ABS) is a private, fee-paying day school, licensed by the Jordanian Ministry of Education. It is coeducational and prepares its students for the International Bacculaureate Diploma and Career-related Programme and courses as school leaving qualifications. In addition to providing an academic education of high quality, the school attaches considerable importance to creative, physical and community service activities, and offers a wide and developing range of facilities and opportunities in these areas.

ABS was founded in 1981 with the aim of providing a bilingual education that would meet, in quality and breadth, the highest international standards, whilst remaining firmly rooted in the Arab heritage. At the same time, the school has increasingly attracted students from the international community who wish to take advantage of the opportunity offered in the Middle Years School (MYP) and the IB College (Diploma Programme/Career-related Programme) to pursue an education in English that, nonetheless, sustains close contact with the culture of the host country.

The Amman Bacculaureate School is a school where modern educational theory and practice are implemented and enthusiastically embraced. In its officially recognised role as a 'pioneer school', ABS pilots new material, methods and approaches, and so paves the way for other schools to follow. Emphasis on bilingualism at every stage promotes

knowledge of different cultures, traditions and values, and this fosters openness, understanding and tolerance.

Aligned with the School's vision to be "recognised as a leading pioneer school", ABS piloted the World Academy of Sport (WAOs) Athlete Friendly Education Centre (AFEC) accreditation in 2015 and the Council of International School's International Protocol accreditation in 2017. Both accreditations were deemed a huge success. ABS was re-accredited by WAOs AFEC in 2018.

The ABS has a unique curriculum model for a bilingual (Arabic/English) Primary Years Programme (PYP) and is amongst a select few schools worldwide to offer all four IB Programmes (PYP, MYP, DP, CP).

Involvement with each and every student as an individual is a guiding principle at ABS. The 1:6 teacher to student ratio allows this principle to be a reality. This compares very favourably with institutions of similar academic standing, nationally and internationally. ABS teachers are qualified and trained educators, coming from open-minded and global backgrounds.

Amman Bacculaureate School also offers an international section for Grades 6-12. This section is for those students that do not have the level of Arabic to cope with an ABS bilingual education, but wish to benefit from our outstanding holistic educational experience.

The Anglo European School is a genuinely distinctive and unique comprehensive school committed, for more than 40 years, to achieving the highest academic success through its internationalist curriculum. The broad and balanced education, with its challenging additional experiences, produces open-minded and confident young people who are able to communicate effectively in a variety of languages and who have an appreciation and understanding of different cultures, religions and communities in modern Britain and beyond.

The Sixth Form is outstanding and has been awarded the highest Ofsted grades for over 20 years. In 1977 Anglo European School was the first UK state school to offer the International Baccalaureate Diploma and in 2010 became the first UK state school to offer the IB Career Programme. It also provides the opportunity to study A Levels or A Levels with selected parts of the IB Diploma. All students also study a language ranging from introductory level, which assumes no prior knowledge, up to more advanced courses in the A Level and IB Diploma Routes. Eight languages are taught: Arabic, French, German, Italian, Japanese, Mandarin, Russian and Spanish. We believe that this gives an unrivalled opportunity for each student to combine qualifications in a way which best suits their needs and makes them stand out in the global employment marketplace.

Situated in Ingatstone, with excellent rail and road connections, local children are joined by children from Essex, Suffolk, Hertfordshire, London and abroad who value its internationalist philosophy based on the mission of the International Baccalaureate. This diversity provides a rich education which prepares succeeding generations of students for the world they will live and work in, whatever their background or ability. It really is an education fit for the 21st Century.

A remarkable feature of the school is its visits and exchanges programme. Over 700 students every year take part in the exchange programmes and extended study visits in Europe, China and Japan. Sixth Form students also have the opportunity to undertake international work experience in Madrid, Frankfurt and Avignon, visit the United Nations in Geneva and to do voluntary community work in Lesotho.

This is a caring, principled but purposeful school which is confident in its ambition and passionate about its mission. It is a school which is determined to ensure that an education within an international dimension is compatible with high academic and outstanding personal development for all its students whatever their background or ability.

www.apgschool.com

APG School was founded in 1996 by Mr Mohammed Moosa Al'Aali. It is a private school situated in the Capital Governorate, Kingdom of Bahrain, near the historic Khamis Mosque, which was built in AD 692. APG is meant to carry the national reflection of Bahrain as the Pearl of the Gulf.

APG started with around 250 pupils in Gr. 1, 2 & 3. Today APG educates 1,451 from K-12, with a new campus for kindergarten. It was authorized to offer the IGCSE in 2006, and the IBDP in 2008. APG successfully graduated its first batch in 2010 and first IB in 2011. Since 2014, APG requires all students to take the IB diploma or IB course.

The school is successfully run by the long-serving principal and now the deserving head of school Ms. Ebtisam Saeed Al Zeera – a Bahraini citizen who strongly believes that education is a core factor towards the improvement and progress of individuals and communities. She views education as a significant source of personal empowerment, economic growth, and social progression.

APG envisions to be the top, quality school in the country, with a strong emphasis on high morals and global competence in producing highly educated and lifelong learners.

APG is committed to provide quality opportunities for learners to become GREAT:

- Global and digital citizens
- Respectful of others and of nature
- Excellent in academics and intellect

- Active, well-rounded, and self-directed achievers

- Thinkers and communicators

The APG community is guided by the values of PEARL:

- Punctuality
- Excellence
- Adaptability
- Respect
- Leadership

APG is a quality school awarded Good in the latest BQA or Bahrain Quality Authority evaluation. IB in APG has always been above world average in diploma points and grades. Pass rates were at 100% in 2014 and 2015. Percentage of candidates scoring in the 40s has increased. 14% of them obtained the “elite score” of 38 and above. In the National Exams, APG’s results have been higher than the national average scores.

In 2017, APG became a member of the Council of International School or CIS. It has completed its strategic and operational plans towards CIS accreditation, BQA outstanding award, and overall school excellence.

APG’s best bags no less than the country’s highly coveted Crown Prince international scholarship program.

APG alumni and alumnae study here and abroad. APG is open to the world in respectful dialogue with all mankind and in active participation in the education of humanity. We are committed to educating globally competent learners.

Asamiah International School (AIS) is a co-educational, bilingual and bi-curricular school from KG to Grade 12. AIS is an IB school. It offers the IB PYP Curriculum for grades 1-5 (in addition to the early years program (3 to 5 years)) as well as the DP for grades 11 and 12. The school is located in Khalda and is easily accessible to parents and visitors with state-of-the-art facilities. We sit comfortably and proudly alongside the best schools in the country and this is reflected on our happy students and successful alumni who are accepted at the best universities in the world.

AIS aims to develop inquiring, self-confident, independent, productive, respectful and caring lifelong learners.

Our fully-equipped facilities include: Libraries & Media Centers, ICT Labs, Science Labs, DT Workshop, KG Indoor & Outdoor Play Area, Robotics & Innovation Studio, Music & Sound Recording Studio, Drama Room, Art Room, DP Students' Common Room, Sports Facilities (Indoor Gym, Basketball Court, Two Football Fields, Multiple Playgrounds), Cafeteria & Healthy Snacks Vending Machines, Books & Uniform Store, and Two First-Aid Centers.

At AIS we aim to provide every learner with the very best education possible through vibrant and engaging teaching that is deeply rooted in IB pedagogy and practice. Our learners are thus enabled and challenged to become creative, active, compassionate and confident learners.

The After-School Activities are designed to complement the school programs and provide students with an opportunity

to learn skills beyond the classroom. They include a wide variety of choices such as Athletics, Basketball, Football, Mixed Martial Arts, Photography, Robotics, Gaming, Design Thinking, Dancing, Arts, Individual & Group Music Instrument Lessons, Languages and much more including our yearly exciting summer camps.

Our children are, first and foremost, engaged in every day concept-based practices, morals and values that support character education and public speaking skills. We link our cultural ethics with the heart of the IB Learner Profile to raise good citizens. We teach towards the 21st century and equip our learners with important IT, communication, self-management and leadership skills for life.

AIS sets up a rigorous, exciting, broad and balanced IB curriculum for all its different learning stages. AIS is IBPYP and IBDP authorized. It is also slowly preparing the middle years to become MYP authorized in due course.

Throughout the school, we aim to ensure that our children enjoy a wide range of learning engagements and real-life experiences which bring the curriculum to life and make learning engaging and fun. Our staff work hard to ensure that the best possible quality of education is at the service of our dear learners.

At AIS, every child matters and thus we offer learning and leadership support and enrichment to all our students based on their individual needs.

**Ethos**

The Sixth Form at Ashcroft Technology Academy is an exceptional place to learn. Students and staff have worked together to create a culture of aspiration and success. Our students enjoy their time at the Sixth Form and are given superb support and guidance, which combined with excellent teaching, enables our students to excel.

**Academic**

Students leave our sixth form articulate, confident, accomplished and ambitious young adults who understand the importance of rigour and high standards. Underpinning our proven track record of success is a team of highly motivated, hard working and qualified staff who have an unreserved belief in the ability and potential of young people to succeed. Our IB results are outstanding: in 2018 our average score was 38.3 points, the average grade per subject was 6.02 and we achieved our highest ever points score of 45. Each year a number of students achieve over 40 points, allowing them to take places at the very best universities in the UK and abroad.

**Outside the Classroom**

The extracurricular provision at the Academy is virtually unrivalled. Every member of staff at the Academy runs a club or society, providing our students with a wealth of enrichment opportunities. Our rowing club and performing arts clubs are particularly popular with the IB students at present. Students attend a range of workshops, lectures and conferences both within and outside of school. In addition to a range of local visits, students have also had the opportunity to visit places such as Morocco, Iceland, Berlin, Florence, Krakow, Amsterdam and Kenya.

**Location and Facilities**

Ashcroft Technology Academy has a superb location in South West London. Waterloo station is just 15 minutes away by train and we are located adjacent to the A3 and East Putney underground station. Facilities are exceptional; our purpose built Sixth Form Centre has a university style study area, classrooms designed for Sixth Formers and a Sixth Form exclusive annex to our main school library. Additional to our excellent existing resources, the Academy boast 10 state-of-the-art science laboratories, a sixth form Art Studio and two professional quality fitness suites.

www.bedfordschool.org.uk

Bedford School is a vibrant, inspiring independent school for boys aged 7-18 years, with a mix of day boys, weekly and full boarders. The school has an established reputation for academic excellence with additional strengths in sport, music, drama and art.

**Academic**

The highly qualified teaching staff are selected on their ability to communicate and inspire, and the Bedford curriculum provides a varied choice of subjects that will stir the potential in each pupil and challenge his individual strengths.

Academic excellence is high on the agenda and the school has recorded outstanding results in each of the years since 2003, in which students have completed the IB Diploma Programme. The average point score in 2018 was 35 points, with 87% of grades at 7/6/5 (the equivalent of A\*, A or B at A-Level).

**Location**

The school is set within an estate of 50 acres in the heart of Bedford, within easy reach of London (just 45 minutes by rail) and its major airports. Facilities are virtually unrivalled and include an observatory and planetarium, purpose-built

library, a music school with state-of-the-art facilities, as well as extensive sports facilities.

**Outside of the Classroom**

Bedford School is renowned for its sport, notably cricket, rowing, rugby and hockey. Its music school is one of the largest in the country and has a full programme of music concerts and performances throughout the year.

The school offers a diverse and wide programme of extracurricular activities including the CCF (Combined Cadet Force), Duke of Edinburgh's Award Scheme, Community Service, fundraising groups, and more than 50 other clubs and societies from Astronomy to Young Enterprise.

**Boarding**

When boys arrive at Bedford they are welcomed into a genuinely caring community, where individuals and individuality are valued. At the centre of this community are the boarding houses, which are in the care of a housemaster who has overall responsibility for each pupil and who is that pupil's first and last supporter throughout his time at Bedford.

Set in the village of Bradfield amidst unspoilt Berkshire countryside, Bradfield College enjoys a well-established reputation for being one of the country's leading co-educational, independent schools through its provision of academic excellence and a well-rounded education.

The College welcomes pupils from Britain and overseas and provides challenge and choice for all. We offer a personalised programme of study that is inspired by expert, passionate and engaging teaching and focuses on providing an education for life. We are acutely aware of the global community in which pupils will live and work when they leave the security and dynamism of Bradfield.

The Bradfield Sixth Form aims to provide an outstanding all-round education to prepare young people for success in a rapidly changing world. We care about the individual and pride ourselves in the warmth of a community in which young people feel happy and valued. We aim to foster an environment of high expectations in which all our students are encouraged to believe in themselves, to be inquisitive, to be resilient and to

show ambition both within and beyond the classroom.

The IB Diploma Programme focuses on the education of the whole person whilst also seeking to provide an international perspective. This is very much in line with Bradfield's own educational ethos and values. The IBDP emphasises the importance of Language, Science and Mathematics, as well as the Arts and Individuals and Societies. At the core of the curriculum model, Theory of Knowledge, Creativity, Activity and Service and Approaches to Teaching and Learning, both inside and outside of the classroom are all elements that Bradfield views as essential to an all-round education. We offer an unrivalled sports and co-curricular programme for all our pupils which ensures that every individual has the opportunity to develop valuable skills, wherever their interests lie. The need to complete the Extended Essay sits perfectly with Bradfield's drive towards creating independently-minded and curious young men and women by the end of the Sixth Form. In short, the IB Diploma and Bradfield fit perfectly together.

**Website** [www.gardenestate.braeburn.com](http://www.gardenestate.braeburn.com)

On behalf of all the staff at Braeburn Garden Estate Secondary School I would like to extend a very warm welcome to you as prospective students and parents. Braeburn Garden Estate Secondary School (BGE) is an International, co-educational school with the option of weekly boarding, educating students between the ages of 13 and 18 years (Year Groups 9 to 13).

BGE has students from a wide diversity of countries and communities, more than 45 different nationalities at the last count. We teach children to respect each other and to show an interest in the opinions and beliefs of others. Opportunities are created for students to celebrate differences in cultures and backgrounds, as part of the curriculum and through school events.

BGE offers a curriculum based on the English National Curriculum. While this is the basis for what we teach – with a significant emphasis on the development of core skills – all our students are given opportunities to learn from their context here in East Africa. Many of the learning experiences are therefore based on ‘real’, meaningful interactions from group-based investigations to outdoor learning and from whole schooled themed days (e.g. Space Day) to individual tasks differentiated for the needs of the child.

We pursue a holistic approach to education, placing equal emphasis on academics, sport, music, drama and the arts. Students are encouraged to become involved in many different extra-curricular activities and attend a range of educational visits. This rich and varied program compliments and extends the student’s learning experience and provides them with the skills they need to succeed the World beyond Garden Estate.

In Years 10 and 11 students study a range of IGCSE subjects and in Years 12 and 13 students study the International Baccalaureate Diploma Programme (DP) or the International Baccalaureate Career-related Programme (CP). We are full members of Council of International Schools (CIS) and we continue to develop and grow as we become more successful and ambitious.

Braeburn Garden Estate has been delivering the IB Diploma courses since 2002 and consistently exceeds the IB world average pass grades. We were also the first school in Africa to offer the International Baccalaureate Career-related Programme in order to expand the potential university and career options for our broad intake of students. Small class sizes, high teacher to pupil ratios and differentiated teaching practices, all work to ensure that each and every child is closely monitored and able to reach their full potential. We encourage our children to be open to new opportunities, to work hard and strive to excel, both within and beyond the classroom.

Overall, our aim is to provide a stimulating, safe environment where students feel happy and excited about coming to school and where they can enjoy a wholesome, fulfilling educational opportunity that prepares them for all walks of life.

Universities around the world, from the UK to the US, from Scotland to South Africa, have welcomed Braeburn Garden Estate graduates. With the extensive, grounded education delivered at Braeburn Garden Estate, our students become successful international citizens, respectful of others and are well prepared to enter the global workplace.

The founding of Brains International Schools was an innovative and challenging educational project started in Madrid in 1979. Four decades have since passed; during which time, Brains Schools have earned a reputation for excellence in bilingual education.

Brains International Schools offers a fully international Diploma Programme for both Spanish and international students alike. We pride ourselves on our uniquely diverse range of subject-language combinations, which we are able to offer from our multi-lingual teaching team from all over the world.

Taking full advantage of Spanish and English as official IB languages, students may choose to study subjects in either of these two languages, allowing truly bilingual programmes to be achieved through all of the six subject areas which make up the Diploma Programme.

At Brains we appreciate and value the distinct backgrounds and interests of our students, and we aim to provide them

with the appropriate study programmes for the futures which they may be seeking. Accordingly, we strive to provide a wide choice of subjects at both standard and high level, enabling students to hand pick the diploma that best suits them.

The Diploma Programme is currently taught at our Madrid campus, which is situated in the northern part of the city within easy reach from all areas of Madrid by our school bus service or local transport. We offer students an excellent range of academic and technological facilities at this site, in addition to outstanding sporting and extra curricula opportunities, which fully support the educational service we aim to provide at Brains International Schools.

Brains International Schools are currently following the process of authorisation and implementation of PYP, MYP and DP across all our sites, as we strive to provide an excellent international education through an IB continuum of programmes.

brentwood.essex.sch.uk

**Website**

www.brentwoodschool.co.uk

Brentwood School shines out as a beacon of excellence. Academically, we sit comfortably alongside the best day and boarding schools in the country, and we enjoy an unparalleled local reputation.

Our pupils are happy individuals who thrive on the high standards which are expected of them. They benefit from state-of-the-art facilities, set in the heart of Brentwood in Essex, and are surrounded by 75 acres of green playing fields and gardens. Our close proximity to London is especially helpful for international families looking to place their children in a safe UK location but within easy reach of the Capital.

To quote our latest ISI Inspectorate report (2013) our *“pupils emerge as intellectually curious, resilient and enterprising life-long learners.”*

We offer full and weekly boarding for 13 to 18 year olds in comfortable houses where experienced husband and wife teams ensure the best possible care for all the boarders.

*“Boarders have an excellent level of personal development. They are erudite and open, relating to fellow boarders and to adults with an easy confidence. A wide range of nationalities is represented within the houses and the tolerance and understanding exhibited by boarders for one another is outstanding,”* ISI Inspection report, 2013

We celebrate a 462-year history and take our heritage seriously. We are a Christian School and our pupils are expected to have self-respect, to exhibit pride in their appearance and embrace values such as courtesy, consideration for others, kindness, looking after each other,

honour, courage, sportsmanship, duty and selflessness. Our vast and exciting co-curricular programme enjoys national prominence.

Our pupils achieve excellent academic standards that rank among some of the best in the country and consistent high grades are achieved by all pupils. They work exceptionally hard and are supported by highly professional and inspiring teachers who offer dedicated Oxbridge mentoring. 75% of offers are from Russell Group / UK Top 20 universities (95% for IB Diploma students). 70% of our students were admitted to their first choice university (85% for IB Diploma).

A four-year average of more than 36 points (equal to AAA at A Level), puts Brentwood among the top IB schools in the UK and the world. More than a quarter of our students consistently achieve 40 points or more and our 2018 cohort took up places at top universities across the globe including Oxford University; Imperial College, London; The University of California, Los Angeles (UCLA); Toronto University and the American Academy of Dramatic Arts in New York.

We offer an enviable range of subjects including Dance, Food Science, Chinese *ab initio* and Global Politics, as well as more usual subjects like Physics, History, English, Mathematics, Psychology and Economics.

Our IB Diploma cohort has increased noticeably in the last two years. More than two-thirds of our IB students are from the UK, with one-third international.

A flourishing Old Brentwoods community keeps thousands of alumni connected across the globe.

The British School of Milan (Sir James Henderson) has been educating students in Milan since 1969. This year marks not only its 50th anniversary but also the 10th anniversary of its IB Diploma programme. The school is not-for-profit and the only Milanese school inspected by the UK's Independent Schools Inspectorate (ISI). In 2018 it achieved the highest rating of 'Excellent' on a full inspection.

It provides a high quality balanced and academic British education to age 16 with IGCSE examinations in Year 11 and then the IB Diploma in the Sixth Form. With over 40 nationalities represented, the school offers a rich and international educational experience.

Academic results are excellent and students progress to top universities around the globe. In the last few years they have gained places in both arts and sciences at Oxford, LSE, Imperial, University College London, The University

of Edinburgh, Trinity College Dublin, Università Bocconi, University of British Columbia, Science Po and many other leading universities.

There is a strong emphasis on the co-curricular with over 100 activities on offer. The school is particularly proud of its outstanding music, art and drama departments. In addition, the school acts as the Italian headquarters for the UK based ABRSM, the exam board of the Royal Schools of Music. The school is very proud of its strong tradition of community service and involvement in the International Duke of Edinburgh's Award Scheme.

The BSM is situated just outside the centre of Milan, close to the metro and on several bus routes. Linate airport and the popular Milano 2 residences are just minutes from the school.

Admission applications are accepted throughout the year.

bromsgrove-school.co.uk

**Website**

www.bromsgrove-school.co.uk

**FLAIR, DISCIPLINE, ACADEMIC RIGOUR**

Set in 100 acres of beautiful parkland, Bromsgrove School caters for 1300 pupils with over 400 pupils in the hugely popular sixth form. Main intake is at ages 7, 11, 13 and 16, with international pupils joining at any of these stages.

Bromsgrove takes girls and boys between the ages of 7 and 18 in the hope of nurturing compassionate people who change the world for the better. International Baccalaureate and A level results place Bromsgrove in the first division. These impressive results combined with a massive sporting and extra-curricular programme means that at Bromsgrove breadth and quality are not mutually exclusive.

Life at Bromsgrove is dynamic. Great boarding schools offer pupils a home, not a place to sleep after work. People, not systems, must come first. The houses are different, as boarding houses in the best schools should be, but there are core values and structures shared by all. Houseparents are resident in the boarding houses with their own families. They are academic staff and are supported by a housemother. Bromsgrove boarders see family life going on around them. Each house has a dedicated tutor team, doing day and evening duties on a rota basis. Support, encouragement and trust are the watchwords.

A mix of over 40 different nationalities makes Bromsgrove vibrant. Bromsgrove School has an active International Students Department with full-time teachers who provide pastoral and academic support, specialising in the particular needs of the international pupils in the school. The department focuses lessons on the development of English language skills. International pupils are prepared for internationally recognised tests of English as an Additional Language. Bromsgrove results are outstanding: the IB Diploma average score was 38.4 in 2018.

Bromsgrove offers a unique weekend programme, covering a huge range of timetabled options from exclusively academic sessions to school trips. All staff work Saturday and the Sunday boarders' programme is extensive.

Admission for international students is by entrance test and, where possible, interview. Prospective pupils and their families are encouraged to visit. The Admissions Director has an extensive programme of international visits each year and will always try to meet prospective pupils in their own countries when she visits.

www.bryanston.co.uk/ib

At Bryanston we aim to develop well-balanced 18-year-olds, ready to go out into the wider world, to lead happy and fulfilling lives and to contribute, positively and generously; an aim that is reflected in the principles of the IB Diploma, making it a natural fit at Bryanston. In 2018 our fourth cohort of IB Diploma pupils passed with an average score of 34.

Set in 400 acres of Dorset countryside, Bryanston offers a wide range of facilities, including purpose-built centres for science and mathematics, art, drama, music and sports.

Our tailored approach means that pupils benefit from extensive one-to-one time with their tutor and also with subject teachers each week, providing the academic and pastoral support they need to achieve their full potential.

Outside the core IB curriculum there is a fulfilling academic enrichment programme, as well as a range of over 100 extra-curricular activities on offer and all our pupils, whether they are studying the IB Diploma or A levels, are encouraged to pursue a wide range of interests.

As a full-time boarding school, weekends are an integral part of life at Bryanston, with many of the school's facilities open and the chance to take part in a range of sports fixtures, outdoor activities and rehearsals. There is a particular focus for the whole school on some weekends and more specialised activities on others. It makes all weekends busy but there is also time for pupils to relax.

Our website includes further information on the IB Diploma at Bryanston including details of the range of subjects on offer. We are planning on offering the IB Career-Related Programme from September 2019. It offers the same as the IB Diploma in terms of breadth of subjects studied, but has additional vocational qualifications. You can also attend one of our Information Afternoons, held in the autumn before you would be due to join us, to meet members of staff and get a feel for what Bryanston is like.

Entrance procedures for our IB course require candidates to sit both an English and a maths test, have an interview with the Head and meet Heads of Departments. Candidates unable to attend our Test and Interview Day can sit their papers at a suitable venue overseas and have a Skype interview with the Head.

Successful candidates are invited to an induction week in June to explore their chosen subjects before confirming their academic programme. This gives candidates the chance to familiarise themselves with the school, make friends and get to know their tutor. It means that when starting sixth form in the following September each pupil is already a member of the Bryanston family.

www.charterhouse.org.uk

**Motto: Deo Dante Dedi**

Founded in 1611, Charterhouse is one of the UK's leading independent boarding schools. With four centuries of history behind it, the School is committed to being at the forefront of educational progress in the twenty-first century.

Building on the success of its mixed Sixth Form, the School is moving to full coeducation from the age of 13, and will welcome the first girls into Year 9 in September 2021. There will be girls in every year group from September 2023.

The pupil roll will grow over the next decade to around 1,000, with the increase representing additional places for girls.

**Campus**

The School moved from London to Godalming, Surrey in 1872, and is set within an inspirational 250-acre campus, conveniently located close to London and within 50 minutes of Heathrow and Gatwick airports. With 17 grass sports pitches, 3 full-sized Astroturf pitches, an athletics stadium, a sports centre, 24 tennis courts and a 9-hole golf course, not to mention beautiful lawns and gardens, the campus is one of the best, if not the best, in the country. Combined with a 235-seat theatre and separate music performance and art display spaces, the School's setting encourages pupils to contribute, and provides a safe community in which to explore and grow.

**Academic**

Charterhouse's academic curriculum promotes academic rigour, develops intellectual curiosity and fosters the ability to learn independently. The curriculum follows the normal

path to (I)GCSEs in Year 11, followed by a choice of A Level courses or the IB Diploma Programme in the Sixth Form. The School also offers a taught series of timetabled extended projects and academic enrichment electives. The university destinations of leavers reflect both their abilities and the quality of the education provided at the School.

Pupils from both courses of study are now celebrating securing their university places, including those pupils who have achieved their offers for Oxbridge entry as well as to leading international universities such as Berkeley, Bocconi, Columbia, Chicago and NYU.

**Co-curricular Activities**

With more than 80 different sports and activities, including music, drama and other creative opportunities, everyone is encouraged to develop existing interests to exciting levels or take up new ones. A great many clubs and societies are pupil-led, offering real leadership opportunities and few limits to what can be pursued. Outdoor education, including a thriving DofE programme and a growing community and partnerships agenda, foster teamwork, service and leadership.

**Boarding**

Charterhouse is one of the very few schools now that is almost 100% boarding, with daily life for all pupils revolving around the Houses. The Housemasters and their families live in the Houses and are supported by resident Matrons, Assistant Housemasters and a team of tutors. Each tutor has a small number of pupils with whom he or she meets at least once a week to provide the help and encouragement

that enables every pupil to make the most of life at the School. They take an active interest in their tutees, attending concerts, plays and sporting events in which they participate.

**Admissions**

Around 75 girls and 30 boys join the Sixth Form each year. Admission is by competitive examination and interview. Boys

and girls should submit an application form by October of the year before entry, and will be assessed at Charterhouse in early November. Offers of places are made on 1 December. For further information please contact the Admissions Department: [admissions@charterhouse.org.uk](mailto:admissions@charterhouse.org.uk)

Colegio Internacional Torrequebrada is part of the 'Horizonte Ítaca' Educational Group backed up by more than 70 years dedicated to the field of education and which has seen 23,000 students pass through its classes. The school's educational philosophy is firmly grounded in a commitment to the holistic development of each child by taking in to consideration not only the academic, but also the emotional, psychological and social dimensions. For this reason, it combines both the British and the Spanish curriculum along with an ambitious and rich programme of 'experiential enrichment' enhanced by the International Baccalaureate (IB), of which it is a member.

Supported by a multi-lingual approach, Colegio Internacional Torrequebrada cultivates the Universal Values stated by the United Nations, of which it is a member. These values are developed through an inquiry-based approach to learning which results in a deep understanding of oneself and the world in which we live in order to successfully face the challenges and responsibilities which a global, plural and interactive world imposes. Many of its programmes of studies are developed with institutions and prestigious members of the local, national and international communities who

promote frequent exchanges and favour the participation of families in areas of interest. This results in the positive well-being of their children and the creation of a solid and committed educational community. The avant-garde architecture and excellently-cared for facilities along with its privileged location on the 'Costa del Sol' just 20 minutes from the international airport and the high-speed AVE train network, just a few metres from the sea beside the prestigious 'Torrequebrada Golf Club' and a short distance from the Marina and the 'Costa del Sol Race Course', all enhance the multitude of diverse and personalised opportunities and complementary experiences Colegio Internacional Torrequebrada offers.

Finally, the school counts on a Foundation which develops, among other things, excellent student programmes on social awareness and responsibility, volunteering, cultural activities, personal development, career guidance, health and environment, sport, sponsorship and patronage, speech and debate, and leadership activities, all alongside theme days, seminars and events related to experiences which support education.

www.champittet.ch

Collège Champittet is a world-renowned Swiss School with a long tradition of being “open to the world”.

Founded in 1903 the school is embedded in the cultural and academic fabric of the city of Lausanne. The school is not only part of the local community but has a real sense of community itself. Students are nurtured in a caring and supportive environment by a full range of highly qualified and experienced pastoral and academic staff.

The ethos of Champittet is perfectly matched to the ethos of the International Baccalaureate.

The IB’s core aims are to promote internationalism and peace along with a broad and challenging academic curriculum. Champittet has a long and rich Swiss pedagogical tradition based on an ambition to link to the world. The IB at Collège Champittet has the trademark Swiss quality with a global mindset.

Champittet has one of the most amazing campus locations in the world, on the shores of Lake Geneva. Students can even choose to live at school and enjoy the camaraderie and activities that come with it.

Collège Champittet is part of the global Nord Anglia Education group. This provides our students with amazing opportunities in music thanks to the partnership with Juilliard and in science projects with the Massachusetts Institute of Technology (MIT). They can also take part in sports tournaments against students from all over the world and engage in Humanitarian missions in Africa and Asia.

Students also have access to the online Global Campus. This amazing resource allows students from across the Nord Anglia group from Shanghai, to Chicago, via Dubai – to collaborate on projects and competitions all year round. Competitions include debates, photography and arts and collaboration can be centred around subjects, courses and expeditions. Collège Champittet is a truly international place to study with students from all over the world.

Multilingualism is embedded through the school and with that the advantages it brings our students for their academic and cultural development.

Our Pre-IB and IB classes are kept small and as a result we can offer our students individual attention and care not afforded by large classes. Knowing our students thoroughly as individuals is essential for us to help provide the specific support our students need to succeed. That support includes a dedicated Dean, experienced tutors and homeroom teachers. We understand the need for a holistic approach for our young people to succeed.

Coming to Champittet is more than just starting a school – it is joining a community.

Here at Collège Champittet we believe that being traditional is a strength. Values such as politeness, respect and understanding of others are central to the development of the whole child that has been the hallmark of a Champittet education through the years.

We are an international college preparatory school located in Geneva, Switzerland. Our boarding and day school programmes offer individual growth and academic excellence to students from Pre-K through to Grade 12. Collège Du Léman belongs to the Nord Anglia Family of schools, a worldwide group of elite college preparatory schools that offer students the highest standards in education and unique, international learning opportunities.

Our campus is an 8-hectare landscaped campus nestled between the Jura mountains and Lac Léman on the outskirts of the city of Geneva. It offers comfortable residential facilities and recreational areas, providing students with a wide range of sport and leisure activities. In addition to our commitment to excellence in education, our philosophy also includes stimulating enthusiasm for lifelong learning and intellectual growth.

Students benefit from our multicultural learning environment. By nurturing a sense of social responsibility and respect for others, they are well-prepared to become respected world citizens. The knowledge students gain must be applicable across cultures and be supported by qualifications recognised worldwide. Each student's

individuality as well as his or her integration into society is highly valued.

We have offered the Diploma Programme (DP) since 2005 and the Careers Programme (CP) since 2016. The DP is very successful and attracts around half of our graduates every year. Our broad choice of subjects allows students to focus on their strengths and fulfil their interests. This, combined with a strong pastoral programme and the professionalism and dedication of our teachers, contribute to consistently excellent exam results.

Our thorough university advising programme enables students to enroll in the universities of their choice all around the world. Our IBDP graduates come from over 100 countries worldwide.

For the IBCP we offer two career-related streams: Hospitality and Sustainability Management. Each course has been developed in partnership with the Les Roches School of Hotel Management in Bluches and the Sustainable Management School in Gland. Students will, in addition, study a minimum of 3 IB subjects.

Collège Du Léman-Made for success, Made for you!

enquiries@dallam.eu

**Website**

www.dallam.eu

Dallam School has been an IB World School since 2007 and is located on the southern fringes of the English Lake District, part way between the city of Lancaster and the market town of Kendal. As a co-educational school with state boarding, we are a learning community of local and international students and we embrace the internationalism of the IB programmes and develop our students to become active enquirers and independent learners. Dallam provides a learning environment where our students develop the skills and mind-set that enables them to progress in life with confidence.

The Diploma programme at Dallam is very successful. Our average points score in 2018 was 34; many of our students outperform this with over a quarter achieving a score between 37 and 45. Many students move on to some of the most prestigious universities including Oxbridge but our caring and student-centred approach ensures that all students are guided towards meeting their own future career plans and aspirations.

Dallam offers the IB Diploma and the IB Career-related Programme – a popular vocationally focused alternative to our academic offer, as well as the more traditional UK A Levels. Beyond the classroom our students develop as young people by taking advantage of our extensive enrichment opportunities. The Duke of Edinburgh Award Scheme is extremely popular as are the Community Sports Award programmes. Music and theatre provide strong extra-curricular opportunities. Students can also take advantage of our excellent sporting facilities and many participate in competitive sports.

Dallam Boarding provides a caring and secure home to many of our international students. A dedicated team of boarding staff provide for the pastoral needs of our boarding students and has helped to create an environment in which young people are valued and their individual needs catered for.

# Ecole Internationale Bilingue Le Cartésien (EIBC)

stevembikayi@yahoo.fr

**Website**

www.lecartesien.cd

L'Ecole Internationale Bilingue Le Cartésien (EIBC) est une école du monde du baccalauréat international autorisée à dispenser le programme du diplôme et candidate au programme primaire. C'est une école de choix qui attire les familles locales et étrangères de Kinshasa qui sont à la recherche d'une éducation progressive dans un environnement scolaire mixte, non confessionnel et non racial.

Le Cartésien est membre de l'International Schools association "ISA" ainsi que la Société des Ecoles du monde du Baccalauréat International du Québec et de la francophonie "SEBIQ".

Le Cartésien est une école qui prône une éducation holistique et sur mesure pour les enfants voulant avoir un profil exceptionnel dans leur vie. C'est un milieu de brassage culturel où se côtoient et se tolèrent, dans un environnement ouvert et inclusif, les enfants de plusieurs nationalités.

Notre philosophie est la Formation de l'esprit et du corps des véritables citoyens du monde : altruistes, tolérants, dotés d'un bagage intellectuel solide; multiculturels, respectueux de l'autre et capables de contribuer à l'évolution de notre monde.

Cette philosophie prône la problématisation des leçons qui

permet à l'élève de construire son savoir (constructivisme et recherche personnelle) : Nous mettons à la disposition des élèves des questions ouvertes favorisant les débats en vue d'atteindre l'appropriation et appréhension des notions envisagées dans divers contextes tant locaux qu'internationaux. Cela se fait soit individuellement soit en groupe. Nous prenons également en compte les spécificités de chaque élève en vue d'une mise à niveau obligatoire. En sus, nous intégrons les réalités mondiales, continentales et régionales (en rapport avec les pays de la CEAC, de la SADC, du CIRGIL) ainsi que celles qui se rapportent à la RDC et ses provinces, de manière particulière. Ces réalités peuvent concerner la politique des échanges culturels. La journée de cultures autochtones permet à la communauté scolaire de réfléchir sur les situations ayant trait aux problèmes locaux, culturels, économiques, politiques, ...

Enfin, nous procédons aux évaluations diagnostiques, formatives et sommatives pour atteindre les objectifs spécifiques d'apprentissage. Dans ces approches nous démontrons l'importance de chaque élément en vue d'ouvrir les élèves à toutes ces entités en favorisant la connaissance sur les autres ; ce qui permet de former des citoyens du monde.

EIM is a secular, co-educational international school. Based in the very heart of Brussels and close to European and international institutions, EIM offers a PYP, MYP and DP education in both English, and in English and French languages. Already accredited for the IB Diploma Programme, EIM is on track to become accredited for both PYP and MYP programmes in 2020.

EIM is able to offer a warm, welcoming environment for students and parents, whether new to Belgium or to the school. We encourage the development of individual skills that lead to successful outcomes, personal and academic, as embodied in the ten aspects of the IB learner profile. The education model at EIM is student-centred. With a maximum of fifteen students per class, EIM incorporates the values that IB promotes and stimulates each student's innate abilities and interests while developing new areas of learning. Thus, the IB culture and character supports EIM's outlook.

EIM's student population is mostly composed of expatriates from diplomatic or international families; additionally, long-term resident expat and Belgian families send their children to EIM. We foster bridge-building between cultures, societies and personal outlook, a necessary attitude for today's world. Openness and acceptance of others are aspects that we cultivate in our community activities, which range from

serving charities in Belgium to organising donations for, and visits to a children's home in Moldova every year. This aspect underpins once more our activities with the DP CAS students in their project work.

Regular local and international trips are embedded as part of the students' IB studies. EIM is particularly active in theatre and the visual arts with biannual performances and exhibitions in well known historic, prestigious Brussels theatres.

EIM is in a phase of growth but is still able to offer close contact with and attention to students of all years and subjects, giving individual support and differentiation where needed. We have agreements with university libraries in Brussels, enabling our secondary students to use their facilities; we have access to large sports facilities for a full range of sports lessons. We offer a hot lunch programme, after-school garderie service for primary students and a home-school bus service. Our uniform serves to give identity and a sense of belonging to our students.

Additionally, EIM is a Cambridge Assessment Admissions Testing Centre and runs university assessments for Oxford, Cambridge and other UK universities for both internal EIM and external students.

**Website**

www.ecolejeanninemanuel.org

École Jeannine Manuel Lille is a non-profit pre-K-12 coeducational school founded in 1992. As the sister school of École Jeannine Manuel Paris, they have the same educational project and the same mission: develop international understanding through bilingual (French/English) education. An associated UNESCO school, École Jeannine Manuel Lille is the only non-denominational independent school in Nord-Pas-de-Calais, with over 900 pupils representing 50 nationalities and every major cultural tradition. The school's academic excellence matches its diversity: École Jeannine Manuel Lille achieves excellent performances, both at the French Baccalaureate and the International Baccalaureate. The school is accredited by the French Ministry of Education, the International Baccalaureate Organization (IBO), the Council of International Schools (CIS) and the New England Association of Schools and Colleges (NEASC).

The campus of school extends over 3,5 hectares and includes a boarding house, a restaurant, two football fields, a multi-sport room, and high standard sports facilities and equipment. The boarding house welcomes 120 pupils from 6th to 12th grades.

Each year, École Jeannine Manuel Lille welcomes non-French speaking students. Over the years École Jeannine Manuel has developed a program to suit the needs of these students, for whom the emotional challenge of relocation is often as great as its academic challenge. Thanks to their French teachers and their methods, the students will be fluent in French in a few months.

The lower and middle school follow the French national curriculum with several exceptions: English is taught every day and, in middle school, experimental sciences, history and geography are taught in English. The curriculum is enriched at all levels, not only with a more advanced English language and literature curriculum, but also, for example, with Chinese language instruction (compulsory in grades 3-4-5), an integrated science programme in lower school, and independent research projects in middle school.

In upper school, tenth graders follow the French national curriculum, albeit taught 50% in French and 50% in English. In 11th grade, pupils choose between the French track (international option of the French baccalaureate (OIB)) and the International Baccalaureate Diploma Programme (IBDP). Approximately 25% of our pupils opt for the IBDP. (Please note that, since the IBDP does not receive any government subsidies, its tuition is three times the French track tuition.) In 12th grade, students receive the High School Diploma.

**Admission**

Although admission is competitive, every effort is made to reserve space for international applicants, including children of families who expect to remain in France for a limited period of time and wish to combine a cultural immersion in French education with the ability to re-enter their own school systems and excel.

**Website**

www.ecolejeanninemanuel.org

École Jeannine Manuel is a non-profit pre-K-12 coeducational school founded in 1954 with the mission to develop international understanding through bilingual (French/English) education. An associated UNESCO school, École Jeannine Manuel welcomes pupils representing 80 nationalities and every major cultural tradition. The school's academic excellence matches its diversity: École Jeannine Manuel is regularly ranked among the top five French high schools (state and independent) for its overall academic performance (ranked first for five consecutive years). The school is accredited by the French Ministry of Education, the International Baccalaureate Organization (IBO), the Council of International Schools (CIS) and the New England Association of Schools and Colleges (NEASC).

Each year, École Jeannine Manuel welcomes more than one hundred new non-French speaking pupils who enroll in 'adaptation' classes where they follow a French immersion programme. A senior advisor follows them closely and, the following year, they join the mainstream where they continue to be supported with a special French programme involving three additional weekly hours of special French classes.

The lower and middle school follow the French national curriculum with several exceptions: English is taught every day and, in middle school, experimental sciences, history and geography are taught in English. The curriculum is enriched at all levels, not only with a more advanced English

language and literature curriculum, but also, for example, with Chinese language instruction (compulsory in grades 3-4-5), an integrated science programme in lower school, and independent research projects in middle school.

In upper school, tenth graders follow the French national curriculum, albeit taught 50% in French and 50% in English. In 11th grade, pupils choose between the French track (international option of the French baccalaureate (OIB)) and the International Baccalaureate Diploma Programme (DP). Approximately 25% of our pupils opt for the DP. (Please note that, since the DP does not receive any government subsidies, its tuition is three times the French track tuition.) In 12th grade, students receive the High School Diploma.

Over the past three years, approximately 20% of our graduating class have gone to US colleges or universities, 48% chose the UK or Canada, 37% entered the French higher education system, and the balance pursued their education all over the world.

**Admission**

Although admission is competitive and applications typically exceed available spaces by a ratio of 7:1, every effort is made to reserve space for international applicants, including children of families who expect to remain in France for a limited period of time and wish to combine a cultural immersion in French education with the ability to re-enter their own school systems and excel.

- Holidays: day care for children aged from 3 to 7 years old

### Languages

English begins at 3 years of age, with 3 to 4 hours per week, followed by daily classes in Primary school. German is introduced in year 4 of Primary school. Spanish, Italian and Russian are offered from year 9 (1st year of the Senior school).

English classes are provided for new students, beginners and those requiring further support.

English teaching in Middle and Senior school is carried out in ability groups.

The school offers French classes for foreign students (French as a foreign language) as well.

### Summer Camp

Our summer camp takes place from July to mid-August for children aged from 9 to 18 years old.

Mornings, 9 am to 12 pm: French and English classes (elementary, intermediate and intensive).

Students are placed according to their language level in classes of 4 to 7 students.

Afternoons and weekends: sports, leisure, cultural activities and trips.

Multisports formula (only sports, no language classes).

### Boarding School

Boarding facilities are offered for students as from Middle school, year 5 (11 years of age).

Our boarding school provides a friendly and warm atmosphere offering security, care and support.

Boarding is offered for either 5 or 7 days per week.

Being the first private trilingual school in Egypt and the first one allowed to offer the four programs of the International Baccalaureate in French, Oasis International School makes it a point to always put forward a quality education enabling students to thrive whilst developing their natural curiosity and open-mindedness.

Throughout our twenty nine years of educational service, we have achieved a high success rate having witnessed the graduation of thirteen generations of classes and made their way to universities. A great number of our students have travelled abroad to study in the most prestigious universities in countries like The United States of America, The United Kingdom, Canada and many others.

Oasis closely blends teaching pedagogy with technology. Thereby, the school implements advanced aspects of technology, such as the iPad One to One program in order to facilitate meaningful constructivist learning. Our job as educators is to be innovative with our teaching methods to make learning an enjoyable experience. The project has indeed supported student engagement and motivation through creative activities on campus, community service

projects, and through Adventure Learning. In this context, students have the opportunity to participate in national as well as in international trips in which they learn to put into practice their theoretical knowledge. Under the headline and values of community service projects, patronage of a public school which the entire school community participates in.

Our school mission has also improved teacher productivity while facilitating communication between both parties, thanks to the application of differential instruction and positive discipline.

Last but not least, the school attributes its success mostly to the yearly extracurricular and academic activities that are being offered. A high percentage of its students participate every year in activities such as the Model United Nations, The Francophonie Forum and the Model Arab League in Egypt and abroad. All of these activities has helped students to become better communicators developing their presentation and their negotiation skills. Emphasis is on both international mindedness and self-esteem. The future is looking good now that even some of our alumni have decided to join our staff after finishing their university studies.

**“Where students become family”**

Eerde International Boarding School is situated at a historical estate with an abundance of green lands surrounding it, assuring a clean and healthy living environment. Our campus knows several buildings of which one is a castle dating from the year MDCCXV (1715). Moreover, located in a country famous for its innovative trade mentality, water management and quality of life, The Netherlands is the perfect gateway for pupils to experience the best Europe has to offer.

Eerde provides a holistic learning environment in which students are guided to develop their full potential. We do so by inspiring academic excellence, stimulating inquiring minds and developing our students as active members in their community. Furthermore, we promote a healthy and balanced lifestyle that is a combination of physical exercise, fresh and nutritious meals and social-emotional wellbeing. At Eerde, students will gain experience and confidence to become compassionate and capable global citizens.

Small classes, excellent staff/pupil ratios and the international environment provide opportunities to succeed at international examinations; allowing access to university and further education worldwide. Our enthusiastic team of international educators provide students with the tools and guidance to learn and grow. Mentors closely monitor the progress of each pupil – both in academic achievements and personal development. Our academic programmes are designed to empower students to innovate and be creative in their own ways.

In boarding we stimulate boarders to develop a sense of responsibility and care for one another. Boarders (age 12 and above) share a double room and are looked after by boarding parents, who are dedicated to creating a happy and safe home. Boarders can join a variety of activities offered during weekends. All members of our boarding community treat each other with respect, honesty and tolerance.

EF Academy International Boarding Schools opens a world of opportunities for high school students by providing them with a superior secondary school education, thorough university preparation and access to a future that knows no borders. We believe in every student's ability to succeed and we empower them to do so through our renowned curricula, as well as quality relationships with teachers and mentors. With a student body made up of 75 nationalities, multilingualism and intercultural exchange are built into every course and our students live the IB ethos every single day.

**The School**

This IB World School is situated in the city of Oxford, renowned for its scholastic tradition and rich cultural and architectural heritage. EF Academy students join Oxford's vibrant academic community, which attracts leading scholars from around the world. Ten minutes from the city center, the campus has spacious classrooms, modern science labs and inviting lounges. Students also benefit from access to the library and sports center of nearby Oxford Brookes University. Students can live in on-campus residences with classmates and house parents, or they can stay with a local host family where they benefit from full immersion into British culture and language.

**Academics**

Education at EF Academy Oxford is highly individualized.

Students follow the IB Diploma Programme and benefit from an enrichment program that includes visits to Oxford University lectures and laboratories. Our students are supported by faculty members who offer guidance on everything.

**University Placements**

EF Academy Oxford graduates have gone on to attend universities such as the University of Cambridge, Imperial College London, University of St. Andrews and Durham University. All of our students receive acceptance to university degree programs, many for highly competitive courses such as Economics, Engineering or Medicine. Dedicated university advisors work together with students to help them prepare the best applications possible. This involves giving them feedback on their personal statements, holding mock interviews and exploring program options with them.

**Student Life**

Students at EF Academy Oxford have access to a wide range of co-curricular activities. From subject-specific academic groups and competitions to sports and arts, there is an option for every student. The school's activities coordinator also arranges excursions for students on the weekends so they have the opportunity to experience the culture in and around Oxford and other parts of the UK.

EF Academy International Boarding Schools opens a world of opportunities for high school students by providing them with a superior secondary school education, thorough university preparation and access to a future that knows no borders. We believe in every student's ability to succeed and we empower them to do so through our renowned curricula, as well as quality relationships with teachers and mentors. With a student body made up of 75 nationalities, multilingualism and intercultural exchange are built into every course and our students live the IB ethos every single day.

**The School**

Our IB World School in Torbay is situated in a modern-day castle on a hill overlooking the sea and Torquay, a quiet town on England's sunny south coast. The community, made up of students, school staff and locals help students feel comfortable in this encouraging, international learning environment. Students can live in off-campus residences with their classmates and house parents, or they can stay with a local host family where they benefit from full immersion into English culture and language.

**Academics**

At EF Academy Torbay, students follow the IGCSE program in their first two years of secondary school and then continue

on to the IB Diploma Programme. Each student is assigned a personal tutor whose role is to monitor their academic progress and general welfare by supporting them in everything from managing homework and selecting the right courses, to helping them overcome homesickness or culture shock.

**University Placements**

EF Academy Torbay students have been accepted to universities such as Durham, Warwick and Exeter. They have also gone on to study Business at the University of Bath, ranked number one for business in the UK, and Accounting and Finance at the University of Leeds, also ranked number one for that subject in the UK. Our dedicated university advisor works together with our students to help them explore program and career options, research universities in the UK, US and their home country, and prepare for entrance exams and interviews.

**Student Life**

Students at EF Academy Torbay have access to a wide range of co-curricular activities. From subject-specific academic groups and competitions to sports and arts, there is an option for every student. On weekends, students often enjoy exploring nearby Babbacombe Beach, sailing in the harbor or going horseback riding.

www.ellesmere.com

Ellesmere College is a fully co-educational day and boarding school set in the beautiful English countryside. Founded in 1884, the school offers students between the ages of 7 to 18 the chance to achieve success both academically and in a wide range of co-curricular activities including music, art, sport and drama in world class facilities and award winning programmes.

At Ellesmere College great emphasis has always been placed on the breadth of education on offer and the Sixth Form is no exception. The International Baccalaureate (IB) Programme, now in its 10th year at Ellesmere, widens this breadth further than the usual A level suite and BTEC Diploma, and builds on already established strengths within the College such as our sporting reputation, outward bound opportunities, community based activities and the Arena Arts programme.

The Ellesmere IB delivers a two-year programme of advanced academic study, and offers a much broader curriculum than A-Levels, enabling students to acquire a more balanced subject profile. It encourages independent learning, and is widely respected and accepted by universities worldwide, because of the range of skills it develops.

Our unique position as a World Academy Of Sport (WAOs) accredited centre also allows Ellesmere College to run the IB over three years to cater exclusively for elite athletes who are

combining a busy training and competing schedule with their studies.

It also allows students to feel more confident when they begin a degree course – students from the IB Diploma have significantly lower university drop-out rates than students who follow the more familiar A-level system.

Mr Brendan Wignall, Headmaster of Ellesmere College, explains, “*The IB is a rewarding but demanding course, and is a fantastic preparation for university. The fact that IB students study 6 subjects, write an extended essay, follow a course in the Theory of Knowledge and are assessed on their extra-curricular commitment means that they really have a very full education, providing them with something which will last for the rest of their lives.*”

Ellesmere IB students have consistently performed well above average with regular achievements of 37 points and above and the maximum score of 45 points achieved by a selection of the IB cohort since its inauguration. Graduates have progressed onto a variety of courses and universities worldwide, including many of the Russell Group Universities in the UK, and overseas.

Sixth Form Scholarships and bursaries are available to study the International Baccalaureate and A levels at Ellesmere College. Additional information can be found on the School’s website: [www.ellesmere.com](http://www.ellesmere.com) or call to arrange a visit: 01691 626510.

**Website**  
www.ermitage.fr

Ermitage International School of France is a bilingual K-12 school located in the historic town of Maisons-Laffitte, just 20km west of Paris. With a student body of approximately 1300 students, representing over 50 nationalities, Ermitage offers student-centered learning, with a focus on internationalism, leadership and service. Weekday and full-time boarding is available in traditional French residences. For students Grades 6 – 12, the International Studies Program offers instruction entirely in English, with French classes from a beginner to native-level.

**Middle Years Programme (MYP) 1-5**

At Ermitage, we believe that IB Learners start young, and thus we aid students in becoming IB Learners in skill, knowledge and attitude. Our intellectually stimulating lessons are hands-on, inquiry-driven and concept-based aiming to stretch the child and to encourage inquisitiveness and exploration.

Classes are tailored to the individual needs of our students to prepare them for the demanding IB Diploma Programme curriculum. Through a balanced timetable of MYP subject groups, learners are exposed to a wide range of knowledge. We apply the tenets of the IB to our approach to learning in and outside of the classroom throughout these years, encouraging our students to ask challenging questions, to develop a strong sense of identity and culture and fostering good communication skills with people from all over the world.

**IB Diploma 1-2**

Following the Foundation Years, students enter the IBDP prepared and motivated after gaining experience with character-based projects and developing their critical

thinking skills in a supportive learning environment.

Within the dynamic IB environment, students are encouraged to think critically and become independent learners, coming prepared to class, presenting the material and being coached by their teachers. Assignments are demanding, but by graduation the calibre of research, writing and project management skills will be exceptional. The balance between academic work and co-curricular activities allows students to tailor the program according to their interests and develop an impressive university profile in the process.

**Round Square**

As a Global Member of the Round Square Organization, Ermitage is connected to like-minded schools, offering a variety of service-learning trips, global exchanges and leadership conferences.

Students also discover their interests outside of the classroom through a daily co-curricular program with the opportunity to initiate projects, participate in leadership experiences, sports and more while connecting with local and global communities.

**What sets us apart**

- Student-centered approach with a balance of academics and character-developing projects
- Opportunities for student leadership via well-rounded co-curricular and CAS programs
- Teachers are approachable & serve as coaches, guiding students individually
- Students learn in engaging ways both inside and outside of the classroom
- Learning environment is interactive and collaborative

## The College

Exeter College is a large and thriving tertiary college based in the heart of Exeter. For twenty five years, we have offered the IBDP to students from across the county, with increasing numbers travelling from further afield (including overseas) in order to study on our highly successful programme, judged ‘outstanding’ by both internal and external inspection processes.

The College has recently benefited from a new state-of-the-art Maths and Science centre and a Sports Hall, along with a 135-seat lecture theatre, and new art facilities. Every site has at least one learning resource centre, as well as a range of cafes and snack shops to ensure bodies and minds are well-nourished!

### Our Ethos

We pride ourselves on our inclusive approach to the delivery of the IBDP, promoting its core values of independent and active learning within a globally-minded community. The relatively small cohort (typically 80-90 students across the two years) ensures that IB students become a very close-knit group here, and they can enjoy learning in relatively small classes with a strongly student-focused approach. However, as part of our large College, our IB students benefit from its wealth of provision, including sports opportunities, drama, music, debating, MUN, educational visits, and of course

highly-experienced, enthusiastic staff and well-equipped classrooms.

### The IB Experience at Exeter College

Because of the great diversity of students who join the IB here, our community is an especially vibrant and active one. Many students take part in or set up their own clubs, and participate positively in our Learner Voice to ensure that the Diploma Programme continues to respond to student needs and interests. Students have set up a ‘buddying’ system, and many also act as IB ambassadors at College events. Visiting speakers and trips, including foreign residentials, feature throughout the year.

All students are members of a tutor group, and the tutor plays a key role in providing both pastoral and academic support throughout the two years, including progression guidance. Our students have succeeded with excellent results year on year, with last year’s our best ever, when students achieved an average of 36 points – significantly above the IB World average as well as above the UK national average. Over 20% of our learners achieved 40+ points.

Our students will talk about belonging to the ‘IB family’ here and many alumni return to regale us with their tales of life beyond college. For many, and to quote Amber, one of our current cohort, joining the IB is ‘the best decision’ they have ever made!

Eyübođlu Educational Institutions are a group of private, coeducational schools founded in 1985 Eyübođlu Educational Institutions (EEI) is comprised of six kindergartens, three elementary schools, 3 middle, 1 high school, and a science and technology high school that offers a bilingual education to students from aged 3 to 18. All Eyübođlu schools are accredited or re-accredited by CIS. School philosophy is based on academic excellence, internationalism, intercultural and social awareness. Eyuboglu schools were the first Turkish institutions to achieve authorization to offer all three IB programmes: Diploma, Middle Years and Primary Years Programme. With this unique feature, the schools' internationally recognized high standards of academic excellence enables Eyübođlu graduates to further their studies in the finest universities, both locally in the US, Canada, UK and other prestigious universities around the world.

In addition to a heavy focus on IB qualifications, there is a strong EAL program in all sections, leading our students to UCLES and TOEFL English proficiency examinations. Starting from grade 5, German and Spanish are taught as a second foreign language. Elective subjects offer more intensive and specialized study in the fields of social sciences, sciences, arts, music, technology and astronomy. Individualized instruction is part of the curriculum. There is a wide variety of

extracurricular activities in art, music, humanities technology and drama. Besides traditional sports activities, archery, golf, horse riding, fencing, swimming, folk dancing, and modern dance are also offered.

Teachers have an average of ten years of teaching experience, and 43% of the subject teachers hold postgraduate degrees. The average tenure at the school is seven years.

Facilities on the main campus include an arts and sports complex with a swimming pool, various art studios and sports areas for handball, volleyball, athletics, basketball, golf, archery, ballet and folk-dancing. There is a theatre hall (seating 500), a full-sized gymnasium, four smaller multi-purpose PE halls, activity rooms, four art and ceramic studios, 2 libraries with over 90,000 volumes, tennis, basketball and football courts, and a general playing field. There are 11 science laboratories. The two observatories are equipped with powerful telescopes, which enable the school and wider community to make astronomical observations.

Admission to Eyübođlu is offered on the basis of a school administered interview up to grade 3 and a written examination and interview for grade 3 upwards Entrance to the middle and high school is in accordance with Turkish Ministry of Education regulations.

[www.fkg-goettingen.de](http://www.fkg-goettingen.de)

Founded in 1890, Felix-Klein-Gymnasium has a long history of academic excellence in the areas of experimental sciences and language education. The public, co-educational day school is situated in the City Centre of Göttingen, the academic hub of Lower Saxony. On its two campuses with large prizewinning gardens, FKG offers educational programmes for Years 5-13, run in German and English (CLIL), that award graduates the German diploma Abitur.

Since 2008, FKG has been accredited as an IB World School, a collaboration that has helped the school consolidate its reputation as the leading provider of education in Göttingen. It is one of two public secondary schools in Germany to offer the IB Diploma Programme in English as an alternative to the Abitur. This flexibility allows students to tailor their studies to their individual skills and interests. The IBDP reflects the international-mindedness of the surroundings and was established with the help of dedicated parents and the financial support of local international companies and academic institutions, with whom FKG continues to maintain close co-operations. It forms an integral part of the school community and IB students have access to all school facilities and support systems. Together we strive to develop young adults who are prepared to be life-long learners in the world of the 21st century.

The IBDP at FKG is aligned with the Lower Saxony academic year schedule, with classes mostly starting in August. It follows the recognition conditions agreed on by the German Conference of the Ministers of Education and Cultural Affairs with the IB. The subject range is growing continuously and currently includes English and German A Language and Literature (Group 1), German B (Group 2), History and Geography (Group 3), Biology, Chemistry, and Physics (Group 4), Mathematics (Group 5) and Visual Arts (Group 6). All subjects are run at Standard and Higher Level (exception: German B, only HL). The IB team at FKG consists of experienced and highly-committed educators. All teaching staff have passed the rigorous German teaching exams and receive on-going IBDP teaching training.

Admission to the IBDP at FKG is based on academic performance and careful counselling before enrolment. FKG Diploma students consistently achieve results well above the world average and every year, a number of students are awarded bilingual diplomas. Among graduates, the renowned Georg-August-Universität Göttingen is a popular choice, but most go on to tertiary education institutions all over the world, including top universities.

*“Felsted produces self starting, entrepreneurial and independent spirits – characteristics that are immediately evident among the ambitious, self motivated and self aware pupils, who have some of the healthiest can-do attitudes we’ve seen.”* The Good Schools Guide

We welcome students from all over the world to appreciate a British boarding school education, with full boarding offered from the age of 8 at our Prep School. Felsted offers boys and girls aged four to eighteen a first class all round education, based on a safe, rural 80 acre village campus in stunning North Essex, only one hour from London and Cambridge. International students, which make up approximately 20% of our pupil body, instantly become part of the Felsted family and quickly make new friends.

Pupils thrive in a School which cares for the individual and gives so many opportunities to excel both academically and in a wide range of activities. Away from the classroom, your child will become a valuable member of sporting teams, involved in drama and music or many of the other clubs and activities available.

We offer the GCSE programme for ages 14 to 16 and a choice of A Levels or the IB Diploma Programme from age 16

to 18, with many subject options to choose from. Felsted has a successful record of achieving well in the IB, with an average score of 35.5 in 2018, 5.5 points above the world average. Five students achieved scores of over 40 points, putting them in the top 6% worldwide.

Our welcoming Boarding Houses ensure that strong friendships are made, with an active weekend programme ensures your child is happy and stimulated. All our students and staff attend School on Saturday, and our Sunday boarders’ programme is extensive.

We believe that our rounded and holistic approach, supported by the global Round Square network to which we belong, is what will make a difference to your child’s path through life. In return, we hope that your child will also develop into someone who seeks to make a difference.

Admission for international students is by entrance test and interview. Prospective pupils and their families are encouraged to visit. Our admissions and marketing team make many international visits each year and will always try to meet prospective pupils in their own countries when they visit.

In keeping with the vision of GEMS Education the founder and chairman, Mr. Sunny Varkey, GEMS Modern Academy (GMA) assures every student a world-class education that is wholesome and exciting. Spread over 120,000 square meters, this state-of-the-art institution is located in the heart of Dubai and has been making its mark on the local and global education scene for the last 30 years. The school is recognized and accredited by Ministry of Education, Dubai, UAE, the Council for Indian School Certificate Examinations (ICSE – New Delhi, India) and the International Baccalaureate.

‘Modern’ as it is fondly called, lives up to its name as it strives ceaselessly to nurture 21st-century learners who will become active, sensitive and responsible world citizens. Our educational philosophy aims at making students independent and lifelong learners who will contribute positively to society. The faculty and management work passionately to keep the balance between modern educational demands and the wholesome traditional values that the institution embodies.

In addition to being rated as an ‘Outstanding’ school for seven consecutive years by the Knowledge and Human Development Authority of Dubai, the school has also been awarded the coveted Hamdan Award for Distinguished Academic Excellence and School Administration. The highly qualified and committed faculty ensures that all pupils at Modern strive to reach their goals and prepares them to take

their place in the world. Modern’s alumni receive admission to Ivy League and other world renowned universities and the school boasts of a 100% placement record.

Modern offers the IBDP to students of grades 11 and 12, with twenty-three individual subject options available. We are proud of the achievements of our three graduating batches since 2016. May 2018 batch achieved average of 33.4 points with 100% diploma pass rate. This balance between strong academic performance and fantastic experiential outcomes from areas such as CAS is a hallmark of our growing Diploma Programme.

Modern also has a unique advantage that sets it apart from other IB schools – our bespoke “Bridge Programme”. This consists of 13 modules designed and delivered by our teachers prior to students entering the Diploma Programme. The Bridge helps students develop a clear idea of the philosophy behind Diploma programme and the skills needed to be successful in it. This is accomplished through modules such as “Critical Thinking”, “Culture of Collaboration”, “Academic Honesty” and “Investigative Science” which are directly linked to key IB themes like the learner profile, approaches to teaching and learning, international-mindedness, and CAS. By proactively engaging students in these interactive modules, we aim to ensure that they hit the ground running in the Diploma Programme and aspire to be lifelong learners afterward.

**Ethos**

George Watson's College is a leading independent day school that provides high quality learning and teaching from Nursery through to S6. Located in Edinburgh, Watson's 52-acre campus, is home to over 2,400 pupils and offers a broad and varied range of academic and extracurricular activities for all levels.

**Academic**

Our IB results in 2017/18 were outstanding. Our pass rate was 94.4%, with 100% pass rate for pupils sitting IB for the first time. Of our candidates three achieved 40 points or more, out of a maximum 45 points, with three achieving a very impressive 41 points, putting them on a par with the very best performing candidates across the globe. The average point score awarded to pupils sitting the diploma for the first time was 36.2.

We have an open policy for examinations, pupils are encouraged to make their own choices about which subjects to sit and we do not block them for going forward to examinations.

**Outside the Classroom**

Our pupils are encouraged to challenge themselves both academically and through the broad range of extra-curricular activities which the school provides. All our third year pupils participate in S3 Projects, a two-week outdoor education programme that has been a feature of the school since 1962.

Trips and exchanges provide opportunities to visit Spain, Germany, France, USA, or further afield to South Africa, Australia, Malawi or our partner school in Taiwan.

Our Homestay programme enables senior pupils to join our International Baccalaureate Programme or to study for Scottish Qualifications in S5 and S6 even if their home is abroad or is otherwise too far from Edinburgh to travel to the school every day. In joining our Homestay Programme pupils are able to enjoy life in Edinburgh, one of Europe's greatest cities with a history, cultural life and intellectual dynamism unlike any other. Edinburgh hosts four universities and many other academic and cultural institutions with which we enjoy close links.

**Location and Facilities**

The school's Nursery, Junior and Senior pupils are all housed on the same campus which includes state of the art sports facilities, music school, art department, technology building and drama studios. Watson's provides leading IT facilities, including Wi-Fi for all, latest technology and the ability for senior pupils to bring their own device.

Our Family Foundation provides a number of bursaries, scholarships and other financial assistance, helping to widen access to the school. The Family Foundation was set up in 1997 and exists to continue the spirit of the legacy left by George Watson.

*Our mission is to create lifelong learners who possess the competencies, confidence, and knowledge to meet the challenges that face them. Living in a diverse society and globalized world, we work on graduating students who are contributing members of society, tolerant of others and empowered to shape their own future.*

The German International School Beirut maintains its progress through constant improvement in both structural and curricular aspects, having the students at the top of our pyramid of priority. Our motto is *“Inspire-Educate-Support”*.

## **Inspire**

One of our main goals has always been to inspire our students to follow their passion. We support our students to decide what course their life will take at such an early stage, and so to aid their decision we try and expose them to as many activities and experiences as possible. From our balanced and eclectic subject offerings to our wide range of CAS projects and experiences, we want our students to have the most fulfilling educational process possible. As such, we’ve made full use of technology in order to turn our classrooms into informational ecosystems that allow students to freely exchange ideas and take advantage of interactive media to truly immerse themselves in their work. While the written word is the cornerstone of education, we also want our students to learn with sights and sounds, and their state-of-the-art PC’s they have the world at their fingertips. Beyond that, we strongly believe in going green, and our technology

initiatives have helped us work towards a totally green campus. We hope that our efforts to promote environmental awareness can really inspire our students to help make the world a better place.

## **Educate: Curricular Aspects**

Our school offers a variety of academic programs. Aside from the IB Diploma Programme, our school also offers the Lebanese National Programme as well as the official German language Diploma (DSD I, II). Each curriculum strives to impart students with the necessary skills and knowledge they need to excel in academics. Our teaching methods emphasize collaborative learning and critical thinking, and we have developed a highly skilled student body as a result. We also want our students to have a truly international education and as such we offer a variety of language courses in English, German, Arabic, French, and Spanish.

## **Support: School Community and atmosphere**

Inspiring people is all about making them believe they can do something, and we want our students to truly believe in themselves. Our school fosters a diverse, supportive environment that encourages students to be both expressive and patient. Missteps and false starts are part of every process, and our students need to be given the freedom to grow freely and safely. Overall, we want to give our students the setting in which they can reach their fullest academic, emotional, physical, and spiritual potential.

Green Land – Pré Vert International Schools (GPIS Egypt) is a member of Green Land Educational Foundation (GEF Egypt) and is celebrating this school year 2018-2019 its 25th anniversary. Today GPIS operates in 4 campuses in Giza & Zayed bilingual (French and English) international IB continuum schools & nurseries from K-12. Moreover, GPIS teaches foreign languages beside Arabic Language complying to an exclusive international standard and qualifying its students for earning the International Baccalaureate Diploma.

Since 2005, GPIS has been the only IB World School in Egypt authorized to offer three IB programmes in French and English – IBPYP – IBMYP – IBDP (Primary – Middle & Diploma Programme).

Also, GPIS is the only school in Egypt to hold four quality assurance certificates ISO 9002:1994 since 1997 until the latest update BS EN ISO 9001:2015 from the British Standard Institution BSi-UK.

GPIS has been granted several awards from well-recognized international bodies:

The International Gold Star for Quality from BID in Spain in 2002, followed by the Robert Blackburn Award by the IBO in 2007 for best Community and Services project in Africa, Europe and the Middle East.

In order to contribute in the development of education in

Egypt, GEF-Egypt signed MOU in May 2014 with the Egyptian Ministry of Education and the International Baccalaureate Organization to apply as a pilot project the three IB programmes in Arabic in two governmental schools (EIS Zayed – EIS 5th Settlement).

The Egyptian International School – EIS Zayed was inaugurated in Sep 2014 and was authorized for PYP in May 2017 and received ISO 9001:2015 from BSI in June 2016.

The Egyptian International School – EIS 5th settlement has been inaugurated in October 2018.

GPIS recognizes learning as a life-long process. We provide a learning environment that promotes the academic, social and personal development of all our students. GPIS students has results in their bilingual IB Diploma higher than the world average in all subjects.

In May 2011 Session GPIS DP students' average (37/45) was 23% above the world average, which was 30/45. Moreover, 23% of our students achieved 40 points and above 10% of our students scored 43/45 and were among the top 200 IB DP students worldwide.

GPIS takes pride in its extracurricular programme and encourages students to participate in service-based activities where they engage in numerous service and action activities, field trips and social exchanges throughout the academic year.

Greenfield Community School (GCS), a member of the highly regarded Taaleem group, opened its doors in 2007, and since then has promoted and inspired the limitless potential of young minds of diverse backgrounds. We are fully authorised as an International Baccalaureate Continuum World School and offer the IB Curriculum from Kindergarten through to Grade 12. We were also one of the first schools in the Middle East that successfully piloted the IB's Career-related Programme and each year our number of graduates from this programme grow.

With our students coming from over 80 different countries, we are a truly international school, rich with cultural diversity. The spirit of internationalism is reflected in the philosophy of the International Baccalaureate (IB) Curriculum, as well as extracurricular-activities (ECA) we offer our students. This approach enriches our students' minds, their skills and talents through collaborative approaches to learning. Our holistic education allows students to not only achieve excellent academic results but also to thrive outside the classrooms by developing their talents and communication skills through extracurricular activities.

As committed IB practitioners, our team are experienced

international educators and the driving force behind the school's academic and pastoral success. Our classrooms are vibrant student-centred environments where inquiry-based approaches are balanced with direct teaching. Our teachers actively strive to encourage children's natural curiosity and love of learning. They take great care to support each child's social and emotional growth.

We also know how important it is to build strong parent-teacher relationships as we recognise what a pivotal role the teacher plays in the child's life. As a result, we encourage parents to be active participants in school life and we welcome you to be part of our many family events and class activities.

As a mark of quality assurance, GCS is fully accredited by two of the world's most highly regarded accreditation bodies; the Council of International Schools (CIS) based in Europe and the New England Association of Schools and Colleges (NEASC), based in the USA. Along with the IB authorisation, the CIS and NEASC accreditation offer a guarantee of quality knowing that your school meets or exceeds international standards.

Greensprings School, Anthony and Lekki campuses were established in 1985 and 2006 respectively. The scope of the educational focus was expanded to introduce the IBDP in September 2010. Eight years later, Greensprings School opened two new campuses: Greensprings Ikoyi (Pre-School and Elementary) and Anthos House to cater to children with special needs.

At the core of educational pursuit in Greensprings is the spirit of child-centeredness in accordance with our mission statement which is ‘... to promote lifelong learning in an open atmosphere that motivates students to be confident and responsible global citizens.’ Accredited by Accreditation International (AI), Greensprings is an IB World School and a member of the Association of International Schools in Africa (AISA).

We have embraced the Thinking Schools initiative and trained all our staff and students on the use of specialized thinking tools, such as Thinking Hats and Thinking Points. Also, the students are inspired to imbibe the Habits of Mind and the IB Learner Profile.

### Sixth Form Programme

We offer the International Baccalaureate Diploma Programme (IBDP) – a two-year course for students who have

attained A\*-C grades in 5 or more subjects in GCSE, IGCSE, WAEC/SSCE or equivalent certificates. Also, we provide the flexible IB course option, meeting the needs of students who seek a different pathway to the same goal.

Scholastic Aptitude Test (SAT) lessons are available for students who are applying to universities and colleges in the US. All our students gain admission into top universities around the world.

### Boarding

Our boarding facility, located in a serene environment, is tailored towards preparing students for life after school. The rooms are en-suite and Wi-Fi internet enabled, there is also a kitchenette and recreation area where students socialize and experience what is obtainable at universities.

### Trans-disciplinary skills

The curriculum equips students with social, communication, research, self-management and thinking skills.

### Students about Greensprings

“Recently, I completed my degree in Biomedical Science with a first class; and there is no better foundation or preparation for a rigorous three year degree than what I received from the IB Diploma Programme at Greensprings School” – Akintelure Folake

[www.greshams.com](http://www.greshams.com)

Gresham's School is located in an area of outstanding natural beauty, only four miles from the stunning north Norfolk coastline in the East of England. We focus on educating the whole child by providing a broad yet rigorous curriculum, combined with an extensive range of sporting, social and cultural opportunities. In 2017, Her Royal Highness, The Princess Royal, opened a new state-of-the-art Music School and in 2018, Gresham's opened its own outdoor activity centre with a 28-metre climbing tower and 250-metre zip wire in its school woods.

The school is within easy access of the city of Norwich with its national and international transport links.

Gresham's has a tradition of producing outstanding achievers in a wide variety of fields. Old Greshamians have been inspiring others for generations from composer Sir Benjamin Britten, poet W.H. Auden, Chairman and Founder of the Dyson Company, Sir James Dyson, international rugby players Tom and Ben Youngs and BAFTA and Golden Globe award-winning actor Olivia Colman.

In 2016, Gresham's was awarded an 'Excellent' rating

in all nine categories following an Independent Schools Inspectorate visit which is testament to its progressive academic curriculum, high quality teaching and excellent pastoral care.

There are 493 students at the Senior School. In Year 11 (16 years), students sit IGCSE and GCSE exams and in Year 12 students have the option to choose between the IB Diploma Programme or A levels.

Seven boarding houses provide a welcoming, home-from-home environment where all year groups support each other. Pupils joining the school immediately become part of a unique community where they will become immersed in a fulfilling and hugely varied school life supported by our dedicated and caring team of house staff.

We are proud of our pupils who leave us as enthusiastic, happy, confident and capable young adults ready to make a real difference in the communities in which they live.

The school has two Open Mornings, one in the autumn and one in the summer term, alternatively you can book an individual visit by contacting our Admissions Team.

Depuis sa création en 1982, le Groupe Scolaire la Résidence (GSR) place ses apprenants au centre de ses préoccupations pour former des citoyens aptes à s'adapter tant au monde qui les entoure qu'à l'échelle internationale.

Conformément à sa volonté d'innover dans ses pratiques pédagogiques, l'équipe du GSR a trouvé dans les programmes (notamment le PP et le PEI) de l'IB, en 2000, cet épanouissement professionnel et personnel tant recherché, tout en respectant les exigences nationales Françaises et Marocaines. En effet, leader dans son domaine, le GSR a toujours souhaité offrir à :

- ses apprenants une formation d'excellence, basée sur un continuum pédagogique et éducatif de la Petite Section à la Terminale, quelle que soit la filière choisie (Française ou Bilingue), leur permettant de s'ouvrir à d'autres modes de réflexions et d'autres cultures tout en préservant leur identité nationale et leur inculquant des valeurs citoyennes capitales et universelles telles que l'humilité, le partage et la tolérance ;
- ses apprenants un accompagnement personnalisé tout le long au leur parcours afin qu'ils définissent leur projet de vie en cohérence avec leurs valeurs, leurs ambitions et leurs compétences ;

- et ses équipes mixtes et expertes un parcours riche humainement et professionnellement, les amenant ainsi à réfléchir régulièrement sur leurs pratiques et les faire évoluer selon les exigences mondiales.

Depuis ces quatre dernières années, le GSR a également revu toute sa politique afin de s'inscrire dans une démarche de qualité sur tous les plans pour assurer à ses apprenants des espaces adaptés à leurs besoins spécifiques et garantissant ainsi leur épanouissement global. A ce titre, des établissements ont refait peau neuve, d'autres ont vu le jour dans des zones géographiquement attractives sur Casablanca dont trois sont certifiés Haute Qualité Environnementale (HQE). Le dernier ouvert à Casa-Anfa en septembre 2018 a reçu le prix international du GREEN SOLUTIONS AWARDS 2018 et se veut un modèle innovant d'école pilote au Maroc ; un espace ouvert sur son environnement, à la fois lieu et objet d'apprentissage.

Le GSR, en tant qu'école citoyenne, partage, dans le cadre d'un partenariat avec l'Office Chérifienne de Phosphates (OCP) depuis 2011 avec une présence dans six villes nationales, son expertise afin de permettre aux enfants du personnel de ce groupe leader au Maroc, de bénéficier de la formation d'excellence dont seul le GSR a la recette.

The Gymnasium am Münsterplatz, the second oldest school in Switzerland, is situated in the heart of Basel on Roman foundations opposite the cathedral. It enjoys considerable prestige in the city and commands a worldwide net of alumni whose generous donations go to support numerous extra-curricular activities in our school. The historical buildings are equipped with state-of-the-art equipment specially designed so that students can focus entirely on their studies in a dynamic modern atmosphere. Throughout the successive reforms in the educational sector over the last years, reflecting the social dynamics of our city, the school has changed considerably both within and without. Our recently installed Learning Centre allows pupils to carry out independent research under constant coaching provided by teachers and senior students. The integration of foreign-language-speaking pupils into Swiss society through the public school system is another of our major concerns.

The main objective of our Learning Support Centre is to provide individual didactic counselling, subject-specific backup courses, as well as various integrative measures for pupils with diverse educational biographies. It also aims to furnish individual, accompaniment and supervision for highly-talented pupils.

Apart from the modern foreign languages, French, English and Spanish, we also offer a choice of main elective subjects including; Latin, Greek, Spanish, English, and the combination Philosophy, Pedagogics, and Psychology. Of course, our Mathematics and Natural Science departments together with our Arts and Sports departments also furnish their necessary contribution to the education of our students.

The School has a rich and varied extra-curricular life. Every year, each of our 4th classes (11th grade) prepares and performs a drama project under the guidance of professional directors. We also have an annual Winter or Spring Ball. We have both a top-quality jazz band and a choir. Almost every year, one of our delegated teams to the National Session of the European Youth Parliament has been selected to represent Switzerland at the European Youth Parliament. We invite politicians and diplomats on a regular basis to discuss world affairs in our classrooms.

Apart from successfully preparing our students for third level education, the Gymnasium am Münsterplatz, in keeping with its humanistic tradition, places great importance on the development of individual personalities. We aim to address and promote our pupils as whole persons in their psychological, spiritual and physical integrity.

Outside our regular school programme, and our local interdisciplinary weeks, we also offer numerous activities away from Basel, such as study trips linked to the main elective subjects (Spain, Greece, Rome, UK, Vienna), annual skicamps, and concentrated study-weeks elsewhere in Switzerland.

As the first public school in Basel to be accredited in 2011, the GM has been offering the IB Diploma Programme as an ideal complement to the state gymnasium syllabus. Thanks to the great popularity of the IB Curriculum, our IB scores continue to improve every year and are well above world average, giving our students easier access to the world's leading universities.

**Website**

www.haileybury.com

Founded in 1862, Haileybury is one of the UK's top independent co-educational boarding and day schools offering a well-rounded education to 11-18 year olds. The school is a short 20 miles north of London, nestled in over 500 acres of woodland, playing fields and superb facilities.

**Academic**

A key part of the school's philosophy is about empowering each child to follow their passion and build their self-confidence. Pupils are encouraged to be independent, creative and intellectually ambitious.

The school offers a dedicated Lower School for Years 7 and 8, a wide range of GCSE and (I)GCSEs and the choice of the International Baccalaureate (IB) Diploma or A Level Course in Sixth Form. In the Sunday Times independent schools league table, Haileybury was the highest ranking co-educational boarding school for IB Diploma results (2016) and reached the top 30 for A Levels and GCSEs. In 2018, nearly 80% of its pupils were accepted into their first choice of university and 98% into either their first or second choice.

**Co-curricular**

Haileybury offers an enormous range of co-curricular opportunities; pupils can choose from over 130 options. There is also a wide array of clubs and societies, broad

enough to cater for the most eclectic individuals.

From trekking in the Himalayas to debating global issues at its Model United Nations programme, to performing at the latest music or drama production. The school is among the Top 3 for 'Best for extra-curricular activities' according to the Good Schools Guide (2018).

Sport is central to Haileybury life and the school has an outstanding reputation for sport. It has recently been selected as one of the top 100 secondary schools in the UK for its cricket provision by The Cricketer's Good School Guide 2019.

**Boarding**

The Independent School's Inspectorate describes the quality of boarding at Haileybury as excellent. The houses lie at the heart of a Haileybury education and have done so for over 150 years. They are vibrant, happy, productive and homely communities where lifelong bonds are formed. The school believes that a caring environment is crucial to happiness and fulfilment. For those who board, Haileybury is like a home-from-home, warm and friendly where each and every child is supported to develop their confidence and to help them find their identity, embracing failings as much as successes in their personal journey of discovery.

halcyonschool.com

Halcyon is a thinking community, committed to nurturing engaged, reflective, life-ready, global citizens. Halcyon is committed to innovation, collaboration and community. Students enjoy a challenging academic programme, an innovative approach to wellbeing and an integrated digital learning environment.

Halcyon has been inspected and rated as Outstanding in all categories by Ofsted in 2017. The school is certified as both a Google Reference School and an Apple Regional Training Centre.

Our mission is to provide an exceptional education that draws out the unique potential of each student, and we do this through innovation, collaboration and community.

To be innovative is to dare to explore, to have the courage to discover, and to value and learn from mistakes. We nurture this culture, always asking how learning and teaching can be more effective, embracing difficult questions and demanding more effective, research-led, answers. We stretch our students with a challenging IB curriculum, enriched by a fully integrated digital culture; we continue to develop a positive, student-centred wellbeing programme; and we provide the opportunity for all students to explore new ideas, and have their own, self-directed, personal learning time.

Collaboration is at the core of our practice, as life-long learners and as teachers. We intentionally create an environment that encourages and develops collaborative learning and teaching. This exists not only in our classrooms, but also in our open learning spaces, in our student-mentor coaching dialogues, and through the passion of our student leadership and engagement. All this is enabled and enhanced by our commitment to digital learning, using the most innovative apps and technologies to inspire more effective ways of creating and learning together.

Halcyon champions an understanding that the best way to succeed is to do so together. Just as we value the possibility of every student to fulfil their unique potential, we actively nurture the same opportunities for growth for everyone in our community – learning together to build and support our school.

Halcyon takes pride in its commitment to the environment. We constantly seek new ways to mitigate our impact on the world and to educate and inspire our community to pass it forward. As a community, our philosophy is to learn through doing and this is modelled in our commitment to improve our sustainability through positive action.

Hayah International Academy is committed to create and maintain an environment that fosters and enriches the personal and academic growth of each student. Hayah empowers students to live with purpose, honor their cultural identity, respect diversity, and serve humanity by positively impacting local and global communities.

Hayah International Academy is a distinguished entity founded on the belief that every child is creative, special, and capable of achieving outstanding results if provided with the proper support. Hayah provides a wide selection of educational programs and extra-curricular activities aiming to generate well rounded students and promoting social, academic and physical development.

The school campus is located over a land lot of 55,000 square meters with separate buildings for Early Childhood, Elementary and Middle / High school, all equipped to support various learning and extracurricular activities.

Our IB teachers are characterized by their educational excellence. They undergo ongoing development to maintain their professional experience.

### IB subjects offered at Hayah:

English Literature HL/SL – English Language and Literature HL/SL – English B HL – Arabic Language and Literature HL/SL – Arabic B HL – Arabic *Ab-initio* SL – French B HL/SL – French *Ab-initio* SL – Economics HL/SL – History HL/SL – Business and Management HL/ SL – Psychology HL/SL – Information Technology in Global Society ITGS HL/SL – Chemistry HL/SL – Physics HL/SL – Biology HL/SL – Environmental Systems and Societies SL – Mathematics HL/ SL – Visual Arts HL/SL – Film HL/SL – Global Politics HL/SL.

Class of 2018 students received excellent results with an average IB Diploma score of 34.73. A total of 90% of students scored above 30 points, 52% scored 35 and above and 12% of students scored 40 and above with 43 as the highest score.

Class of 2018 students have joined many top level universities around the world in countries such as: United States, Canada, Egypt, Europe, UK, UAE, Netherlands, Spain, Croatia, Belgium and Australia.

Headington School is a leading day and boarding school for girls aged three to 18, set in 23 acres just a mile from Oxford city centre. A major refurbishment and extension of the Sixth Form Centre is due to be completed in early 2019. Other facilities include an award-winning library, complete with 'sonic chairs' where girls can listen to music or lectures without disturbing their neighbours and interactive tables for group working, a state-of-the-art Music School, a purpose-built 240-seat Theatre, light and airy Art School and spacious Dance and Fitness Centre, which features a fully-equipped gym, training rooms and a large dance studio.

**Results**

A top 10 IB UK school, Headington's results regularly place it among the top schools in the country, with girls going on to study at top universities around the world. Headington offers an extremely broad curriculum with a choice of 30 A Level subjects or IB in the Sixth Form. A growing number of girls opt for IB each year with great results. The average points score, out of a perfect 45, is consistently above 38 with our 2018 results seeing it reach 38.5. More than half our girls scored 40 points or more in 2018 with one of our candidates scoring the maximum 45.

**Oxford**

With inspirational Oxford on its doorstep, Headington girls benefit from the city's fantastic museums, art galleries, theatres, restaurants and cafes. The Dreaming Spires of Oxford have inspired countless famous writers while 27 British Prime Ministers, at least 30 international leaders, 50 Nobel Prize winners and 120 Olympic medal winners boast an Oxford education. Today girls can take advantage of a host of academic events such as thought-provoking and challenging talks, lectures and workshops both in school and in the historic colleges, meeting and learning from experts in their field.

**Beyond the classroom**

Headington also offers an excellent extra-curricular programme, with more than 150 clubs and activities to choose. In the Sixth Form girls are given leadership responsibilities and gain experience doing everything from running clubs to leading expeditions. There are currently over 45 different nationalities represented throughout the School, reflecting Oxford's culturally and ethnically diverse make-up.

An education at Headington prepares girls for every aspect of life. Headington girls are intellectually curious, emotionally confident, kind and considerate to each other and to adults.

[www.hockerill.com](http://www.hockerill.com)

Hockerill Anglo-European College has offered the International Baccalaureate Diploma programme since 1998 and is one of the largest UK centres with on average 125 students per year sitting the IB Diploma examinations. The College also offers the Middle Years Programme.

The College's results are significantly above global averages and each year students gain admission to leading universities around the world. In 2017, 75% of its students' UK destinations were to prestigious Russell Group universities. University destinations include: University College London, King's College London, SOAS and the Universities of Oxford, Cambridge, Edinburgh, Durham, Exeter, Glasgow, Nottingham, Warwick, Manchester, Bristol, Leeds, Bath, Birmingham, Newcastle, Southampton, Sheffield, St Andrew's and York. With overseas destinations including Bocconi, Sciences Po, Universities of Amsterdam, Heidelberg and Tokyo. Courses of university study include: Economics, History, Natural Sciences, Medicine, Law, Modern Languages, Business, Architecture, PPE, Engineering, Biomedical Sciences, Social Sciences, Veterinary Science, Anthropology and Politics amongst many others.

Hockerill prides itself on the manner in which IB principles inform teaching and learning across all stages of the College.

Hockerill offer both day and boarding places with the main intake years being at age 11 and age 16. Its high quality boarding provision is rated outstanding by Ofsted and is comparable with many leading Independent Schools despite being half the cost. The College has been praised for its strong extra-curricular provision which includes: Sports (Rugby, Hockey, Football, Basketball, Netball, Equestrian, Cricket and Athletics); Music Ensembles, Bands and Choirs; Debating and Model United Nations, Amnesty and Interact Charity Fundraising.

The trips and exchanges programme starts from Year 7 right through to Year 13 and encompasses such destinations as Uganda, India, Japan, China, South Africa, Spain, France, Croatia, Belgium, Germany, Italy, Canada, Austria and Finland.

Hockerill was listed as the top UK comprehensive school in the Sunday Times 2018 Schools Guide.

## Introduction

Hout Bay International School is more than a school – it is a community of diverse individuals and families, a centre for academic excellence, for some a home away from home and yet more importantly a family for all those that are part of it. Few schools can boast that they belong to two international organisations spanning across almost every continent of the globe. The first being International Education Systems (IES), a family of international schools committed to quality educational experiences for all who attend and, second, the International Baccalaureate Organisation (IBO), renowned for its high quality and rigorous academic programme.

Our School is as diverse as the location in which it finds itself, our commitment to highlighting social injustice, the celebration of differences and the fostering of international mindedness goes beyond the classroom. Students are encouraged to ‘think outside the box’, ‘have a voice’ and engage on pertinent topics daily. From the Primary Years Programme (PYP) through to the Diploma Programme (DP), students, staff and parents are part of a learning community that seeks to encourage awareness of the wider world. They have a sense of their own role as global citizens, who respect and value diversity, who have an understanding of how the world works and who take responsibility for their actions.

We are proudly South African, embodying an International mind-set, where the spirit of ‘ubuntu’ – the idea that humanity is bound together and expressed by caring for each other – can be seen and felt. The teachers genuinely care for

their students and love practicing their craft. The students genuinely love learning and are encouraged to become life-long learners.

## Facilities

Our campus is cradled between beautiful mountains on three sides with the sparkling Atlantic Ocean on the other and houses the following facilities: 35 Classrooms (each equipped with Wi-Fi and Data Projectors), 2 Fully Equipped Science Laboratories, Black Box Drama Room, 2 Art Studios, School Library, 2 Music Rooms, Creative Arts Outdoor Courtyard, Courtyards (equipped with climbing walls and Sandpits), Canteen for daily lunches and snacks, Small Hall, Stop and Drop / Pick Up Facilities, 2 Netball / Tennis Courts, 3 Cricket Nets, 2 Multi-purpose playing fields, Bio-Diversity Sanctuary, Sustainable Vegetable Garden.

## Extra-Curricular Programme

Our students enjoy an extensive Extra-Curricular programme exposing them to various sports, creative arts, dance, martial arts, community service activities, all contributing to their ‘Whole Child’ educational experience and embracing the concept of CAS.

## Admissions

All students are required to sit a formal entrance assessment to assess where they fit within our programme. We accept students year round, in all grade levels except the Diploma Programme which requires a two year commitment from the student. Application forms and previous school reports are required for entry.

Ibn Khuldoon National School (IKNS) is a non-profit self supporting coeducational institution that is dedicated to providing high quality education for local and expatriate students. The school offers a bilingual programme of study for students from Kindergarten to Grade 12. IKNS students can communicate in both Arabic and English with ease and lucidity from an early stage of their lives.

A diverse faculty, whether teaching in Arabic or English, provide a rich and supportive learning environment for students. The faculty is supported by a dedicated team of administrative and support staff.

At the top level of the school's governance stand the board of trustees, board of directors and specialist committees. Their members volunteer their expertise, time and effort to ensure that the school is always heading in a forward direction.

IKNS opened its doors to students in 1983. The first group of students walked up the graduation stage in 1992. Since then, the institution has graduated more than 2000 young men and women, with a current student population of 1,600.

IKNS has been affiliated with the International Baccalaureate (IB) since 1990, as an IB Diploma Programme

provider. The first group of students sat for the IB Diploma examinations in 1992. Since then, the IB Diploma has been a popular choice for motivated students at IKNS.

IKNS started implementing the PYP as a candidate school starting September 2018. Furthermore, the school is working on its IB Middle Years Programme (MYP) application, which is planned to be implemented starting September 2019.

In addition to the IB Diploma, IKNS offers an American high school diploma. A large number of high school diploma students opt to study one or more DP courses. IKNS students go on to complete their tertiary education in different parts of the world including UK, USA, Canada and Arab countries, many gaining admission to prestigious institutions.

The school received its full accreditation from the Middle States Association of Colleges and Schools (MSA) in 1994, and it continues to be in good standing with the association. The Accredited status of the school affirms that it provides the level of quality in its educational programmes, services, activities and resources expected by its stakeholders. IKNS continues to be rated as an "Outstanding School" by the Education and Training Quality Authority (BQA).

An IB World School, Impington International College is truly international, attracting students from all over Europe and beyond. Situated just outside Cambridge it is a unique environment, where local UK and overseas students are fully integrated and reap all the benefits of an international education.

The Sixth Form has been rated as Outstanding by Ofsted for many years and a number of our teachers, including the Assistant Principal: Post 16 who is the Head of Sixth Form, have spoken at IB Conferences across the world.

Student outcomes are consistently excellent:

In 2018...

- 97% of students passed the IB Diploma (International Pass Rate: 80%)
- The Average Point Score was 34 (International Average: 30)
- 99% of students were offered a place at the University of their choice
- Our IB Careers Programme and BTEC students also achieved excellent outcomes, with 50% Distinction/Distinction\* grades, 100% pass.

Most students at Impington International College follow the International Baccalaureate Diploma Programme. This intellectually challenging programme allows students to retain a broad curriculum, whilst also exploring subjects in depth at Higher Level. With over 25 years' experience at delivering superb outcomes, it is no coincidence that many of our students go to some of the best universities in the world, including Oxford, Cambridge and further afield.

We also offer the innovative IB Careers Programme, which allows students to pursue vocational and academic courses; our IBCP has attracted sponsorship from Cambridge technology and media companies such as ARM, the Cambridge Independent and Marshals ensuring our students have access to the best industry work experience placements. Our Performance School is renowned for its outstanding results and superb productions; the majority of students who study Performing Arts with us go on to become professional actors, dancers and musicians.

**Website**

www.florimont.ch

Institut Florimont is a co-educational day school offering children from 3 to 18 years of age a complete education from kindergarten to the three diplomas that will open the doors to higher education. As well as encouraging academic excellence, Florimont fosters the traditional values and beliefs that are important for life.

Since 1905, Florimont has been preparing students for the French Baccalaureat and, as of 1942, for the Swiss *Maturité*. Since September 2014 our range of final examinations includes the bilingual (French-English) International Baccalaureate. Therefore, Florimont offers children more opportunities and more choices, allowing them easier access to the world's best universities.

All sections of our school work together to ensure the continuity and coherence of the programme of study. Clear procedures are in place to ensure that new students joining us from other private or public schools are successfully integrated.

Close communication with parents, additional lessons and one-to-one tutoring are just some of the ways that Florimont supports students during their studies.

Our student body is made up of more than fifty

nationalities making Florimont a rich multicultural and multilingual learning environment. The importance we attach to this is reflected in our language learning programme. In addition to English, emphasis is placed on German, Switzerland's predominant language, as well as on Chinese, Spanish and Italian. Other languages such as Russian and Arabic are individually tutored or taught to small groups. Bilingual classes in French and English are offered from the first year of the middle school.

Priority is given to partnerships and exchanges with leading schools worldwide, as well as to many activities that can add value to a university application.

The CAS programme is therefore an important component for our students. Philosophy lessons are taken by students from Primary level onwards, and this prepares them to challenge the Theory of Knowledge.

Our students are encouraged to be entrepreneurial, bold, adaptable and creative because we know that these qualities will not only strengthen their university applications but also prepare them to face the challenges of working life.

The Institut International de Lancy was founded in 1903 (Pensionnat Marie-Thérèse). A private, co-educational school, IIL is a member of the Sisters of St. Joseph de Lyon European network of schools. IIL students, aged 3 to 19 years old, come from a wide variety of cultural and religious backgrounds and represent around 90 countries. The school offers challenging and inspiring programmes with a strong emphasis on languages, aiming for a bilingual outcome for all pupils.

Within a warm, nurturing and bilingual environment, IIL Start welcomes children from 3 to 6 years old in three learning paths: English, French and Bilingual (with teaching in both languages by mother-tongue speakers).

An IB World School, IIL is certified to teach the International Baccalaureate Diploma Programme. The school is also a Cambridge University examination centre and is a member of the GESBF (Groupement des Ecoles Suisses qui préparent au Baccalauréat Français). The French Baccalaureate programme is taught under the aegis of the Académie de Grenoble. The school prepares students for Cambridge and IELTS examinations, as well as for a number of certified examinations in other languages.

In the English section, students follow the National Curriculum for England, sit Cambridge IGCSE exams, and prepare for the IB Diploma with multilingual exam options. They also prepare for University Admission tests. Children are taught French as a foreign language from the age of 4.

Students in the French section follow the Education Nationale curriculum which leads to the Brevet des Collèges and French Baccalaureate (L, ES, S) diplomas. Children learn English from the age of 3.

Recently recognised as an Apple Distinguished School, IIL is a pioneer in incorporating information technology in education. In 2011, it became the first One-to-One iPad school in Switzerland, creating an individualised learning environment and a platform for clear information sharing between teachers, parents and students.

After-school supervision, as well as a wide variety of extra-curricular activities, are available for all age groups. IIL operates a regular school bus service.

Students of all ages benefit from modern facilities including fully equipped sports halls.

**La Mission**

Engagé dans une mission de service pédagogique et scolaire, l'Institut Moderne du Liban est un établissement scolaire ouvert à la participation des citoyens, des familles, et de la société civile. Il revêt un caractère mixte, conduit en partenariat avec plusieurs organismes éducatifs internationaux (AEFE, UNESCO, IB organisation) dont il en tire enrichissement et avantage. L'IML gagne en dynamisme et en légitimité par son engagement à promouvoir l'enseignement français.

Cette ouverture internationale, volontaire et naturelle aux différents besoins des apprenants met l'IML en situation d'évolution constante ce qui lui permet de leur donner une souplesse suffisante et adaptée pour un enseignement riche et ciblé.

Cet approfondissement constant dans le monde de l'éducation et de la pédagogie le place aussi au centre de la concurrence et du défi pour s'adapter aux différentes méthodologies vers un meilleur encadrement de tout élève (en difficulté scolaire ou à la recherche de l'excellence et de la réussite tant sur la plan personnel que sur le plan académique)

De cette visée se crée la motivation de l'établissement et le souci de traduire les quatre piliers de l'éducation pour le XXI<sup>e</sup> siècle, pratiques exemplaires pour une éducation de qualité:

- Apprendre à connaître
- Apprendre à faire
- Apprendre à être

**• Apprendre à vivre ensemble**

Depuis sa fondation, l'IML s'est engagé à promouvoir une éducation de qualité à la recherche de la paix, de la liberté, de la justice et du développement humain afin de répondre l'évolution du monde éducation et d'honorer les principales valeurs de sa création *le modernisme et l'acceptation de l'autre dans toutes ses dimensions.*

**Les programmes**

Etant un établissement d'enseignement français à l'étranger, homologué-partenaire, l'IML respecte les principes définis de dispenser un enseignement conforme non seulement aux programmes français mais également aux objectifs pédagogiques et aux règles d'organisation applicables en France, tout en prenant en compte le contexte local du pays et les valeurs internationales qui promeut la sensibilisation aux contextes mondiaux définis à l'international.

Dans ce contexte, la communauté éducative œuvre pour l'implémentation des programmes enseignés à l'établissement d'où la prise en charge des élèves tout au long de leur cursus, ainsi que leur encadrement dans l'élaboration de leur projet personnel de formation et d'insertion sociale et professionnelle, Cette approche personnalisée ne se limite pas uniquement aux apprenants mais s'étend aux parents pour les impliquer dans un choix plus approprié aux compétences et aux attentes de l'apprenant.

**Le projet Educatif**

Les principes généraux qui sont à la base du projet éducatif de l'Institut Moderne du Liban, sont conçus comme une

structure éducative et pédagogique, dans l'idéal de la modernité, et dans une formule heureuse que le fondateur feu Père Michel Khalifé a puisée, il y a plus de soixante ans, dans l'œuvre du philosophe allemand Friedrich Nietzsche, une formule qui n'est pas sans évoquer une des dimensions de cette modernité: *Le gai savoir*.

La gaieté du connaître qui renforce le plaisir de vivre.  
 La passion du connaître c'est Connaître pour vivre plus et

vivre mieux.

Le projet passionnant qui interprète le Savoir tel un projet passionnant et ambitieux grâce auquel l'homme se branche au réel et se l'approprie en se faisant ou en se re-faisant.

L'Ouverture et la disponibilité qui font du Connaître est une entreprise continue où l'on ne connaît jamais assez.

La priorité à la vie qui présente Le Savoir au service de la vie.

www.montana-zug.ch

Institut Montana Zugerberg was founded in 1926 by Dr Max Husmann and his humanist vision continues to guide us to help every student find their own individual path and thrive.

**Learning, Personal Growth, Community**

The combination of small class sizes and individual support fosters a familial atmosphere that builds up enthusiasm for learning and motivation to excel. Our international school community is highly diverse yet also promotes typically Swiss values, such as a strong work-ethic, respect for each other and dedication to achieving excellence.

We are a fully accredited Swiss international boarding school and since 1987 an official IB World School.

**A central location in a natural setting**

Our 60 acres campus, at an altitude of 950m, offers seclusion and contact with nature while benefitting from its proximity to Switzerland's major cities and the manifold opportunities they offer (15 minutes by public transport from the city of Zug, 55 minutes from Zurich airport).

**The Pursuit of Excellence**

Students have the opportunity to choose the academic program that suits their interests and aspirations. Our offers (grades 1-12) draw from leading Swiss and international educational programs and are carefully structured to ensure the highest standard of quality. Bilingual Elementary and Secondary School, IGCSE programme (9-10), IB Program (11-12), Swiss Gymnasium (9-12).

**Home at School**

Life at Montana is unique: we breathe mountain air, drink our own spring water and eat fresh locally-sourced food that accommodates all dietary restrictions. Our daily routine promotes a strong work ethic while maintaining a well-balanced, active lifestyle.

Our campus is equipped with everything a modern teenager needs to live and learn comfortably and the location encourages outdoor activity throughout the seasons.

**Empowering Students**

We want our students to grow into confident adults who will make the most of their life. Our extracurricular activities encourage to pursue unique interests, whether those be athletic, intellectual, cultural or social in nature. Montana students participate in athletic competitions, Model United Nations conferences, entrepreneurship programs, theatre productions and more.

A Student Council actively influences all aspects of boarding life with the school's full support and our students contribute to the world at large with charity projects both within Switzerland and around the world.

**Montana for Life**

We continue to generate a vibrant community that highlights the strong connections we built at school. From scientists to politicians and film directors, our alumni are a diverse group of passionate people who share the same background and values.

**School Description**

The Inter-Community School Zurich (ICS) is the longest-established international school in the Zurich area. A private co-educational day school, established in 1960, we provide a world-class international education for students aged 3 to 18.

Our language of instruction, in a multilingual context, is English. Our 'English as an Additional language' (EAL) programme supports students with limited English. All students learn German, the language of our host country.

Students undertake the full IB Diploma. As well as offering the full IB Diploma to all students, ICS champions excellence in Sports and Arts and offers students a broad range of exciting extra – curricular opportunities alongside the academic IB programme.

**Learning Beyond the Classroom**

ICS believes that learning beyond the classroom, as well as within, adds value to a rigorous educational experience. We offer collaborative and innovative extra-curricular activities to inspire and engage students.

Service Learning, both locally and internationally, is a key component of the ICS curriculum. Students are constantly encouraged to look beyond themselves. As a Round Square

member school, ICS offers students opportunities to join Round Square Service initiatives.

**Zurich, Switzerland**

With vast natural and cultural resources, Switzerland is a perfect environment for "learning through doing". By deliberately structuring authentic learning experiences outside the classroom, we foster students' holistic development. Field trips are an integral part of learning at ICS, giving students the chance to apply their learning, broaden their horizons and develop leadership and independence.

**Admissions**

As an international school, we welcome students of all nationalities; we currently have students from 48 countries here.

We welcome applications from prospective students throughout the year. Please contact us at [contact@icsz.ch](mailto:contact@icsz.ch) if you have any questions or if you would like to arrange a visit.

**Location**

We are conveniently located on a single campus, situated near the Zurich city centre and easily accessed by public transportation. We also offer a school bus service.

The International Bilingual School of Provence, an independent coeducational school located near Aix-en-Provence in the south of France, owes its international character to the diversity of its student population. The school, established since 1984, has an annual enrolment of 700 students from more than 75 different countries in its day and boarding sections. In addition to the French students who make up 50% of the student population, IBS welcomes pupils from the five continents desiring to pursue their education in English, French or both.

A particularity of the school is that the international section is not dominated by any one nationality and new students are made to feel at home immediately. Committed to French-English bilingualism, the school offers both the International Baccalaureate Diploma Programme and the French Baccalaureate. The school also offers seven first languages to ensure that the student maintains his/her own language skills.

### **Philosophy**

Small classrooms, qualified teachers, modern facilities in a tranquil, calm environment help ensure the success of each student. IBS of Provence recently invested in a new 7000m<sup>2</sup> state-of-the-art campus which includes a sports complex, four new tennis courts (2 hard surface, 2 synthetic clay), football field, indoor gymnasium, 400+ seat auditorium for theatre performances and international conferences as well as a three-level academic building with fully equipped

laboratories, art rooms, library, multi-media room and rooftop terrace.

The school also has a boarding section with over 150 students residing in one of the five boarding houses which offer a home-like atmosphere in a beautiful Provençal setting. Involvement in various extracurricular activities is expected and enhances the development of each individual's character within the spirit of the school. Politeness, respect and consideration for others are important values at IBS. Students leave IBS, the majority for 1st choice university placements, as caring, responsible young citizens.

### **Summer school**

During the spring and summer holidays, IBS offers intensive French as a Foreign Language and English immersion programmes. Over 350 students from all over the world join IBS every summer to develop their language skills while discovering the beauty of the Provence region. For more information about our summer program or group visits, please contact Ms. Lisanne Harms, Spring/Summer Camp Coordinator, by email at [lharms@ibsofprovence.com](mailto:lharms@ibsofprovence.com).

### **Admissions**

We accept applications for admission to our school year-round based on availability. There is no formal entrance exam but students must submit two years' of school reports, a letter of recommendation from a teacher/Head of School as well as a letter of motivation. For more information about admissions or to schedule a tour of the school, please contact Ms Wendy Heinicken at [admissions@ibsofprovence.com](mailto:admissions@ibsofprovence.com).

International School Augsburg (ISA) is a coeducational English language day school, located about 60 kilometres from Munich. The 350 students currently on roll represent 34 nationalities. The 64 teachers come from 24 countries and bring with them a wealth of experience and enthusiasm.

Founded in 2005, ISA is authorised to offer the IB Diploma Programme and the IB Primary Years Programme. The school is also a certified Cambridge Examination Centre offering the IGCSE, and a fully accredited member of the Council of International Schools (CIS).

The school provides a rich and balanced programme of education, designed to foster in students the skills, knowledge and attitudes that enable them to be successful in school and in life. IB Diploma results at ISA are consistently excellent, with some students receiving exceptional scores. ISA alumni are currently studying in Germany, Austria, the UK and the US in fields as diverse as medicine, law, film & media, international business and politics. The ISA community is committed to the mission and philosophy of the International Baccalaureate Organization.

Technology is central to teaching and learning and the school is very well-resourced. Students and teachers have access to a range of plentiful IT hardware and software to support learning. From grade 6, all students take Computer Science which focuses on programming and robotics.

The arts are alive at ISA! The annual Middle School musical is held at a local theatre. ISA students regularly exhibit their artwork at local exhibitions and there is an annual school event showcasing the visual arts.

The outdoor education programme and the extra-curricular programme enrich the ISA school experience for students.

The International School Augsburg is known for its friendly and welcoming atmosphere.

### **ISA's attractive and modern facilities:**

- Sports hall
- Cafeteria
- Fully equipped science labs
- Beautiful media/library centre
- Music practice rooms

**Mission:**

*“We all want to learn more;  
We all do it in different ways;  
We all have fun learning;  
We all help.”*

– ISB Student

ISB is a private, not-for-profit, co-educational day school established in 1979. Our students and teachers come from all corners of the world, creating a diverse community. We live our Mission every day in every area of the school, as it reminds us to appreciate our learning differences, help each other out, and in our quest for excellence, find a way to make it fun and engaging. Here at ISB, we firmly believe that true education neither ends nor begins in the classroom alone. As our students explore the world beyond the classroom, our well-qualified teachers and staff instill a skill set that will help them remain lifelong learners, no matter where they live and what they do in the world. That is why our Mission begins with the simple phrase, “We all want to learn more.” We live in a rapidly changing world, thus, education must lead that change. Investing in professional development at all levels to stay at the forefront of educational trends is our priority to prepare our students to embrace challenge and shape a better world.

**Campuses**

The campuses of ISB, located on the outskirts of the city of Basel on the edge of the Swiss countryside, provide students with world-class learning opportunities. An efficient public transport system and convenient pedestrian and bicycle paths ensure easy access to ISB campuses. Age-appropriate and supportive learning environments encourage students’ potential and nurture their talents at all stages of intellectual, physical and emotional development, providing them with the means to grow and thrive.

**Inclusion**

One of the guiding statements in our Mission is “We all do it in different ways.” ISB understands that all children learn differently and possess individual strengths and areas for growth. ISB embraces diversity, not only in race or culture, but in the learning profiles of our students. ISB serves learners by aligning student needs with appropriate resources and support by qualified and experienced teachers and staff.

**Academic Results**

In 2018, 107 students took the IB Diploma exams and achieved a 99% pass rate and an overall average of 35 points with 64% of students achieving 35 points or more. ISB graduates have successfully transferred to top universities around the world.

Teaching and learning at International School Brescia is about preparing our students in a global community to have the skills, the knowledge and the capacity to problem solve that will enable them to meet the challenges of the future. With a strong emphasis on developing the IB Learner Profile\*, and by learning through inquiry, action and reflection our students acquire in-depth knowledge and become deep thinkers.

ISB is a co-educational private day school located in the small town of Botticino, in the province of Brescia, Italy. Founded in 2009 we are an authorised World School for the Primary Years Programme and the Middle Years Programme and we are a candidate school for the Diploma Programme.

Our school vision for the future is to become an IB Continuum School offering our students the best possible international education in a supportive and inclusive, caring environment. Principled IB learners are honest and fair and take responsibility for their own learning and actions and our students are guided to act with integrity.

Our open-minded and respectful culture encourages the whole school community to contribute to the teaching and

learning in school and this collaboration and involvement makes our school a very welcoming and special place to learn.

Our student body is made up of around 15 nationalities and we cultivate a truly international outlook whilst fostering knowledge and experience of our host country, Italy. English is our language of instruction, and we provide support for those students joining us, who have limited knowledge, to be communicators.

In addition to delivering the IB subjects, our balanced curriculum provides many opportunities for extra-curricular experiences such as workshops, field trips, sporting exchanges and international travel. We enable our students to be risk-takers and support out of school interests and achievements.

As ISB grows and develops we continue to reflect on our practices and to participate in the wider IB world community to produce a positive impact on student learning outcomes.

The International School of Berne (ISBerne) serves Berne's expatriate community, principally the multinational corporate and diplomatic communities. The school is a multicultural community of 340 students, representing over 40 countries, located in the village of Muri-Gümligen, just 15 minutes from Berne, the capital city of Switzerland.

ISBerne is proud to be an IB World School, offering all three core IB Programmes. Additionally, ISBerne is accredited by the Council of International Schools (CIS) and the New England Association of Schools and Colleges (NEASC) and as such, offers a fully accredited US High School diploma, in addition to the IB Diploma. ISBerne also offers this US High School Diploma to successful graduates of its affiliate distance learning programme, ISBerne Online.

Admission to ISBerne is based upon two criteria; the potential of the applicant to benefit from the educational services provided and the capacity of the school to meet the educational needs of the applicant. ISBerne welcomes applications from students who have demonstrated academic and social skills, a sound character, reliability and an eagerness to learn. These traits, combined with an ISBerne education, will prepare students for the future, teach them cultural appreciation and enable them to work with others. Graduates from ISBerne are regularly accepted to top university around the world.

The ISBerne curriculum reflects a carefully considered

balance between guided inquiry and the acquisition of essential skills. Students benefit from small class sizes, a highly qualified faculty, and numerous language programmes and are active in the local community through various field trips, sporting events and other experiences such as Outdoor Education Week and the Ski Fridays Programme. The curriculum is supported by an expansive extra-curricular After School Activities Programme as well as competitive sports teams which compete against teams across Switzerland in the Swiss Group of International Schools (SGIS) circuit.

To support our curriculum, and the future technology of learning, ISBerne has a new state-of-the-art campus under construction, slated for completion in December of 2016. This new campus will not only allow for continued growth in enrollment but will also better support current conduits of learning, such as our online electives, and the advancements in the technology that will accompany future generations.

As an IB World School, ISBerne takes its commitment to internationalism very seriously. The diversity of cultures that make up the school community requires an appreciation, acceptance and respect of oneself and others. ISBerne prides itself on developing positive and enriching relationships between teachers, students and parents. Through choices made, daily operations and the philosophy embraced, the school places the child at the center of all it does.

The International School of Bologna was founded in 2004. The enrollment is currently 250 students. This enrollment size ensures that each student can receive individual attention and differentiated instruction, recognizing that not all students learn at the same pace: a key feature of the planning in an ISB classroom.

ISB offers an Early Years to university preparation educational programme in the medium of the English language that provides an education that develops international mindedness based on cultural understanding, our common humanity, human diversity, and shared values.

The curriculum is designed in conjunction with the International Baccalaureate (IB) and draws on the growing educational research worldwide informing effective teaching and learning. ISB incorporates the three IB programmes: the Primary Years Programme (PYP) for students from 3 years old to 10 years old; the Middle Years Programme (MYP) for students from 11 years old to 16 years old, and the Diploma Programme for 17 and 18 years old students. Successful completion of the Diploma is an outstanding preparation for

university and research has shown that Diploma students report being excellently prepared for their studies and tend to find greater choice in their university admissions. The Diploma is accepted as an entrance qualification to university in many countries around the world, including Italy.

The IB curriculum offered by ISB has its own unique character which is influenced by the particular context of Bologna which itself has a rich educational heritage. The school is staffed by qualified and experienced teachers drawn from around the world. This international mix of faculty itself provides outstanding opportunities to draw on the best practices of national systems, including Italy. Apart from being part of the network of IB schools which spans the world, the quality of the programmes is further assured by an accreditation process through the Council of International Schools. Through this combination of the local and global we are preparing students not just to cope with a changing world, but to lead the change. To participate in the education programme at ISB is to aim high.

Since its founding in 1997, ISB has grown to become one of the largest and most successful international schools in Bucharest. International School of Bucharest follows The National Curriculum for England and Wales, adapted to meet international best practices. We offer International General Certificate of Secondary Education (IGCSE) for Year 10 and Year 11 and International Baccalaureate Diploma Programme for Year 12 and Year 13.

Our curriculum offers students from age of 2 to 18 a broad-based, challenging and reflective education with an international perspective.

In the Sixth Form, all subjects are taught by specialist teachers, making use of an extensive range of facilities, science laboratories, computer rooms, 2 art studios, a theatre, a gym and rooms for music, all ensure that our students learn through experience. Technology complements learning, with classrooms equipped with projectors and interactive whiteboards and the iPad Programme running throughout the secondary school. The iPad Programme enables the school to develop blended learning within the classrooms, where teacher's input is fully supported by access to the latest resources to enhance the lessons.

We take pride in our students' achievements, and teachers are committed to helping each individual succeed. This is at the heart of our community.

In September 2017, International School of Bucharest switched from A Levels to IB Diploma Programme for our Sixth Form students. Our first cohort of IB students, numbering 59 in total, will take their examinations in May 2019. We are proud that we have been able to give our students the opportunity to select their subjects from a choice of 24 different options.

We think that the IB Diploma programme combines academic rigour with critical thinking skills and personal growth to produce a programme which truly prepares students for university study and professional life after school.

As a member of the Eco-Schools project, a Duke of Edinburgh's Award Centre and a supporter of the Outward Bound organisation, we feel that the IB is the ideal academic programme to complement, perfectly, our wider curriculum aims. The school's core values are Learn; Respect; Succeed. We sincerely hope that our broad, balanced and challenging programmes will help our students to realise that, in the words of Kurt Hahn "there is more in you than you think."

The International School of Lausanne (ISL) is a not-for-profit, English-language day school that emphasizes academic excellence and rigour in a supportive school and family environment. It prepares students for a global education and entrance to the best universities in the world. At present, there are approximately 900 students enrolled and many parents are employed to work in international companies in Lausanne or along the Swiss Riviera. The School is a leader in European international education with highly professional, dedicated teachers.

Our mission and aims put the learner firmly at the centre of everything that we do. ISL is committed to excellence in education; it strives to fulfil the unique potential of each student in a supportive and challenging holistic learning environment that prepares him or her for continuing education and an active and responsible role in a multicultural world.

### Students and faculty

The student body at the International School of Lausanne consists of students from the ages of 3 to 18. It is comprised of a Primary School, a Middle School and a High School with approximately 75 students in each year group. There are over 72 nationalities represented within the student body, the largest groups being the USA, the UK, Switzerland and France.

ISL's high school faculty consists of approximately 72 teachers who originate from Australia, Belgium, Canada, Finland, France, Germany, Greece, Ireland, Lebanon, New Zealand, Spain, Sweden, Switzerland, UK and USA. The student/ teacher ratio in the High School is 7:1, and the average class size is approximately 16.

### Curriculum: Focus on Academic Excellence

ISL is highly regarded for its academic excellence and has been for over 50 years. With teachers who are passionate about their subject areas and dedicated to the students they teach, we prepare students for entry to the very best universities in the world.

We are an International Baccalaureate World School, offering three IB programmes, the Primary Years Programme, the Middle Years Programme, and the Diploma Programme. Excellence is the norm throughout the school. From when a child first enters ISL at the age of three in Early Childhood, where the focus is on learning through play, until they leave at the end of Year 13, students experience a rigorous and coherent education which prepares them for the demands of an ever-changing future. Approximately 98 percent of ISL students will follow the full Diploma Programme.

### Holistic Approach

We care for our students as individuals, providing a strong intellectual, physical, social and emotional foundation. With a focus on active learning, open inquiry, critical and creative thinking, and independence of thought, our small class sizes allow the personal interaction necessary for effective learning. We aim to provide opportunities for every student to be successful, while encouraging personal and collective responsibility.

Relationships come first, and through our homeroom and well-being programme, we work hard to ensure that each student feels valued as an individual and connected to the diverse and exciting social and cultural environment of our international student body.

The International School of London (ISL) is an International Baccalaureate (IB) World School with embedded mother tongue literacy programmes and over 40 years' experience of delivering education excellence for ages 3-18. Our school has earned a global reputation as a leading International Baccalaureate (IB) school and is widely recognised as one of the UK's best and most experienced international schools.

We offer an exceptional world of learning for every student. Starting with a genuinely warm welcome to our multi-cultural environment, we work with each child to devise an individual learning programme tailored to their unique needs and goals. Our strong focus on student wellbeing, in a supportive environment, is complemented in the classroom by dynamic teaching practises. It's this all-round approach that we believe leads to the academic and personal success that characterises ISL pupils.

We are a culturally diverse community. Students' cultural and linguistic identities are valued and nurtured through our international curriculum and mother tongue programme. Our school develops the attitudes, skills and understanding needed for active and responsible contributions to both local and global communities.

ISL has high academic standards, offering three IB programmes: the Primary Years, Middle Years and Diploma Programmes. These three align to the unique developmental needs of students from age three through to pre-university.

We are committed to re-imagining education taking learning beyond the walls of the classroom. We provide many opportunities in sports, service learning, and the arts which challenge our students to grow and develop. Our location in the city of London provides fantastic opportunities for innovative projects. The breadth and depth of our programmes ensure that our graduates are prepared for life at leading universities worldwide.

ISL has a family atmosphere, and we give a voice to all members of our community, with active parent groups and a committed student government. Students at ISL develop a keen sense of inter-cultural understanding which is something of great value in our globalised world. ISL actively celebrates this diversity throughout the year from class activities to whole school events.

The International School Neustadt (ISN) is a coeducational, full-day international school for children aged 4-19 years. ISN was founded in 2005 by the Verband der Holz- und Kunststoffverarbeitenden Industrie Rheinland-Pfalz e.V together with the financial support of the SBW Haus des Lernens Organisation (Switzerland). With around 160 students from over 24 nations, ISN offers a caring family atmosphere both for expatriates and local families. Expatriate families enjoy the social network at ISN which eases integration into a new location, while local German families benefit from the innovative educational program and English language instruction.

As an IB World School, ISN was accredited in 2009 by the International Baccalaureate (IB) to offer both the Primary Years Programme for students between 4 and 12 years of age, and the IB Diploma Programme for students aged 16 and above. ISN is also an accredited examination center for Cambridge International Examinations and offers the full range of English examinations and IGCSE (International General Certificate of Secondary Education).

The school, which is located in several adjacent vineyard villas, offers a full day program from 8am until 5pm. While the main language of instruction is English, German classes are also taught daily to all students from beginner to native-speaker level. French and Spanish courses are also offered. Before and after school supervision is available each day, at no extra cost, to students from kindergarten up to grade 6. ISN also provides a wide range of after-school activities including music, drama, art and sports.

ISN is recognized by the state of Rhineland-Palatinate as an accredited supplementary school ('anerkannte Ergaenzungsschule'). The operators of the school, SBW Haus des Lernens in Switzerland have over 30 years schooling experience and 15 schools in Switzerland and Germany. In recent years the SBW has dedicated its expertise to the development of its International Schools which strive towards the implementation of the globally recognized IB PYP, IGCSE and IB Diploma qualifications.

The International School of Uganda (ISU) is a thriving school with over 50 years of history behind it and is committed to being at the forefront of international education in Uganda. It is a non-profit school, established in 1967 offering an international education for students 2.5 to 19 years old. The school is authorised to offer the PYP, MYP and DP.

ISU is governed by a Board of Directors, which is comprised of seven elected members and two appointed members.

### A Campus to Enhance Learning and Living

Our 33 acre campus located on the outskirts of Kampala offers four fully equipped, state of the art science laboratories, three computer laboratories with access to the internet and wireless connectivity campus-wide, a library of 25,000 volumes, 2 sports fields, sports hall, track, 2 swimming pools, 4 tennis courts and separate facilities for Early Childhood education. The school is currently constructing an Arts Centre which will contain classrooms for music, visual arts, dance and drama as well as a 450-seat auditorium. This is expected to be finished by December 2019.

To mold balanced individuals, students participate in a range of after school activities. They also participate in the local (ISSAK) and international sports leagues and arts events (ISSEA), and are involved in service activities at both school and the wider community.

ISU students founded the Ugandan chapter of Model United Nations (MUN) and run training courses for students at

Ugandan schools. ISU has hosted Ugandan MUN for the last five years.

The school provides support for students who are learning English as a Second or Other Language (ESOL) and have special learning needs.

ISU runs 17 different bus routes to transport students from all over Kampala and Entebbe.

### Faculty

ISU has 62 full-time experienced teachers, most of whom are certified in the United Kingdom, United States or Canada. Almost half of them hold a post-graduate degree. Many are also IB workshop leaders and school visitors.

### Self-Selection into the International Baccalaureate Diploma Programme

All grade 11 and 12 students take Diploma subjects and are encouraged to try the full IB Diploma. If students do not complete the internal assessments or miss crucial deadlines they are counselled into the IB certificate course. All graduating students receive an ISU Diploma which is validated by both the Middle States Association of Colleges and Schools and the Council of International Schools.

### College Counselling

Our College Counsellor works with students and their parents to help guide them through the college application process. The majority of ISU graduates go to universities in the US or the UK.

The International Sharing School is a highly respected school on the lovely island of Madeira, Portugal. The school offers the PYP and the MYP programmes, teaching students aged 3 to 16, currently representing 23 different nationalities and with teachers from 8 different countries, in an international, multilingual and multicultural environment.

With 38 years of experience of international education, the International Sharing School recently decided to embrace the challenge of IB education, receiving full authorisation one year ago for both PYP and MYP, thus becoming the only IB World School in Madeira for both phases.

We are dedicated to achieving enjoyment and excellence in education for all.

As we continue to follow our ethos statement – “The passion of learning, the pride of teaching” – the International Sharing School aims to provide an excellent and continuous international educational experience, in order to develop enquiring knowledgeable and caring young people who help create a better and more peaceful world through intercultural understanding and respect.

The International Sharing School offers a curriculum focused on personal and professional development, preparing students for an increasingly global, competitive, multicultural and multilingual world.

Students begin their school learning at 3 years of age in a

bilingual environment, with educators who are English and/or Portuguese native speakers, so that by the age of 6 they enter PYP 1 with a sound foundation of bilingualism. The language of instruction throughout the school is English but in respect to the host nation and, as the “heart” language for most of our students, there is a daily lesson of Portuguese for all students. In addition, the academic curriculum includes the teaching of German, Spanish, French, Mandarin and Russian. Students, therefore, are able to move to upper secondary and university education, having had the opportunity to learn, with a great degree of fluency, at least 5 of the 7 languages we offer.

We are very proud of our learning-journey and the traditions we have created. We are innovative and always strive to reflect the best of current practices and adapt to the demands of an ever-changing world.

Choosing a school is one of the most important decisions and has high significance as a long-term family investment. We offer a happy, enthusiastic and effective learning environment, combined with the expectation of challenging work experiences and high standards.

We encourage each and every student to fulfil their potential both academically and as a person in readiness for them to take their place successfully in the world of today and for the future.

**The ISTEK Schools** is comprised of several K-12 campuses. As an educational organization and a community that believes in life-long learning, the Foundation is committed to constant innovation and by providing scholarships the Foundation strives for equal opportunity education. Working in national and international contexts, aiming to make positive contributions to both the country and the world's future, and giving priority to scientific inquiry defines ISTEK as a foundation apart.

ISTEK Baris Schools' student body is mainly composed of Turkish students. About 5% come from bilingual/ bicultural backgrounds. The Turkish National Curriculum is implemented under the PYP framework.

The school library is very active and has a central role in the lives of the school community. The classrooms that are equipped with modern technology, the field trips organized during the year and access to various databases develop students' research skills and lead them to become active inquirers.

With open mindedness as a goal, open communication is promoted by all the members of the school community. The Student Council is very active and participates in code of conduct related management decisions, regarding the suggestions and wishes of the students. Students are always encouraged to express their opinions and respect others' views. Their opinions are valued and they are provided with many opportunities to take action.

Learning together and learning from one another through cooperative learning and our reflective-thinking-oriented assessment system, support ongoing development of the students and play a pivotal role in leading them to become autonomous learners.

ISTEK Baris Schools as a community is committed to life long learning and responsible action that will help to create a better and more peaceful world.

Admission to ISTEK Baris Schools is offered on the basis of a school administered evaluation and according to the regulations of Turkish Ministry of Education.

Situated on the European side of Istanbul overlooking the Bosphorus, lies Istek Kemal Atatürk Schools, which educates students from pre-school to high school. Apart from the Preschool and Primary School National Education Curriculum, PYP was added with IB authorization in 2013.

Since 1985 Istek Kemal Atatürk Schools offers a safe environment with open and closed sport centers, a semi-olympic swimming pool, well equipped laboratories, and libraries rich in resources and modern educational technologies. One can also find a spacious dining area, art rooms, a bicycle training zone, and a 7400m garden!

We believe that every child is gifted in a unique way. We aim to discover those gifts by offering different programmes such as; chess, musical instruments, visual arts, swimming, gym, modern dance, drama and brain teasers.

Throughout the year we assess our students in order to provide the best support for those whose needs differ from their peers. Our educational program is continuously developing out of consideration for our children's age, level of development, needs and any international developments. The curriculum is enhanced by making changes that allows students to perform at their top cognitive capacity. We support them in reaching this capacity by activating their curiosity, asking them to research, explore and

solve problems. The IB Baccalaureate PYP Primary Years Programme helps students to experience learning and the process of knowledge. Taking into account each students individual differences, we have tutorials for students who need extra support. We believe that students should care about the issues facing their communities and environment, and it's our responsibility to create a community of well rounded, knowledgeable, internationally minded, and caring students.

English is taught intensively at our school. Our students are evaluated by internationally recognized tests such as Cambridge, Trinity, and GESE every year. From fourth grade on, we teach French and German intensively in an effort to broaden our students horizons and to show them that they are citizens of the world.

We aim to create experiences that will make our students well rounded, organized, mature and socially responsible. We open new clubs in areas where we see students show interest, in addition to the arts and sports lessons that they normally attend. Students are selected to take part in after school clubs aimed at advancing their knowledge of science, and their abilities in arts and sports. These students go on to represent our school in national and international competitions.

**The Jubilee School.** The Jubilee School (JS), founded in 1993, is an independent, non-governmental, non-for-profit, residential, co-educational secondary school for the duration of four years (grades 9-12), that promotes academic excellence and provides a unique opportunity for outstanding students to reach their highest potential.

**Mission.** Contribute to the development of future leaders committed to serving their country and capable of addressing global challenges by advancing national and regional educational standards through the development of innovative curricula and quality programs.

**Educational Program.** The Jubilee School provides a comprehensive educational program that includes both compulsory and elective courses. The compulsory courses are mandated by Jordan's Ministry of Education (MOE), the British International General Certificate of Secondary Education (IGCSE), and The International Baccalaureate. Concurrently, the students study nine out of over 40 elective courses. Additionally, a prerequisite for graduation is the successful completion of a Graduation Project and 120 hours of community service.

In addition to the Academic Program, the school focuses on the interpersonal development which is a variety of scheduled classes and training workshops that allow students to be critical thinkers capable of effective

communication and innovation in a new economy that prizes individual excellence.

**Extra-Curricular Program.** The School is distinguished by its activities. All students are exposed to a variety of experiences on both national and international levels. They are offered opportunities to meet and converse on current issues and future challenges with politicians, academicians, economists and social leaders. They are also encouraged to design and implement research studies and surveys, as well as to take part in student-exchange programs, competitions, workshops and seminars, computer networking, camping and voluntary work in Jordan and abroad.

**The Students.** The JS brings together approximately 500 students from various socioeconomic backgrounds and geographic regions in Jordan, majority of whom come from families with limited financial sources, and from areas and social environments that lack adequate educational and life counseling resources required to nourish their unique intellectual capabilities. Their diversity is a living model in pluralism, tolerance and democracy.

Each year, around 150 students from public and private schools are selected to join the Jubilee School. JS employs rigorous multiple-criteria based on exceptional students' academic performance and demonstration of leadership potential.

### Campus

Founded in 2010, Jumeira Bacalaureate School (JBS) is part of Taaleem, the UAE's second largest school provider.

The JBS campus sits on approximately eight acres of prime land in the heart of Dubai, with outstanding learning, sporting and performing arts facilities; including a grass football field, swimming pool, two large gymnasiums, multi-purpose auditorium, designated music/drama and visual arts rooms, library and shared play areas for younger students.

### Vision and Mission

Our vision is to prepare all of our students for the innovation age by igniting their passions, purpose and curiosity through challenge and high expectations. Our students will be responsible, confident, and independent learners who are respectful; they embrace and celebrate diversity and have awareness of the environment. They strive to reach excellence whilst maintaining happiness and wellbeing.

Our mission is:

- To embrace and respect diversity
- To foster the wellbeing of all members of our community
- To create a culture in which learning can flourish
- To engage with high levels of challenge, enabling

academic and personal success

- To support cognitive and social skill development using innovative, research-based practice to enhance learning for all
- To support the development of emotional intelligence, guided by the elements of the IB learner profile
- To promote environmental awareness, sustainability and entrepreneurship

### Extended Learning and Inclusion

At JBS, we aim to provide exceptional opportunities for each of our students in a supporting and challenging environment.

We welcome all students to JBS. This could include students with special educational or learning needs, students with English as an additional Language (EAL), and those who are Gifted or Talented. Our dedicated Inclusion team works on a graduated response to identify and remove barriers to learning.

With a 2018 global pass rate of 97% (DP and CP), we pride ourselves on high academic standards, however we are more than this. Truly excellent education is about developing a passion for life-long learning and a capability for independent thinking.

www.kisu.com

Surely there can be no better preparation for life in our complex, globalised society than an education at a good international school? A good international school is a vibrant, colourful, welcoming and outward-looking place where the things that make us different are celebrated and where there is a sense of real joy in our shared humanity.

Kampala International School, Uganda (KISU) is such a school. The Council of International Schools inspection team commended a “clear commitment to internationalism and interculturalism”. Likewise, the International Baccalaureate Organization described “a learning environment based on understanding and respect”.

KISU is blessed with a truly international student population: over 80% of the student body is made up of students from some 57 different nations. The school is centrally located in the attractive and cosmopolitan east African city of Kampala, where it occupies a beautifully landscaped campus and is in its third decade of offering high-quality international education to the community.

KISU boasts a world-class learning environment; it is equipped with four science labs, three computer labs, three music practice rooms, four performance areas, an indoor gym, a 25m eight-lane competition pool and five acres of lush, green playing fields.

KISU recruits and invests in the further professional development of teachers from all over the world; at the last count they shared more than 100 years of IB teaching experience between them. Small class sizes and the support of numerous highly qualified Teaching Assistants ensure that teachers have capacity to spend high quality time with individual students.

Academic success is, of course, important. Today’s young people enter a truly global marketplace where competition is fierce and the school does everything it can to ensure its students have the best chance of succeeding with results at IB Diploma consistently outstripping world averages.

However, education is about far more than just examination success: it is about embedding values, developing skills and shaping character. It is those who are resilient, resourceful and reflective, those who are confident, committed and conscientious, and those who have strong interpersonal skills, who succeed. These are the kinds of qualities and attributes that KISU seeks to develop in its young people. The school takes its mission to “educate today’s children for tomorrow’s world” seriously. It aspires for its graduates to be not only ready to enter tomorrow’s world, but for them to be prepared to shape it, change it and lead it.

### Kent College Facilities

Kent College sits on the outskirts of the historic city of Canterbury on an 80 acre campus. As well as boasting 26 acres of sports fields, the school has a working farm where students can join the Farm Club or receive riding lessons. This year will also see the completion of the Great Hall, a 600 seat state-of-the-art auditorium for the performing arts.

### Curriculum

Kent College offers a full range of IB subjects for study over the two years of the Diploma. We also offer a very popular pre IB course in Year 11, this allows students to get a taste of their IB options. Our IB results have been consistently very high with an average points score of 37, placing the school in the top 10 Independent IB schools in the UK. The ISI Inspection in February 2015 compared our results as “exceptional in comparison to worldwide averages”.

Many of our students gain the bilingual diploma as they are able to study literature courses in their first language alongside the main programme. All our Diploma candidates gained places at their first choice universities including Oxbridge, top London Universities alongside other European Universities.

We are very flexible when it comes to constructing the timetables for Diploma candidates and encourage applicants to identify courses and subjects they wish to study even if we do not offer them as we are able to bespoke most

options. Kent College offers outstanding levels of teaching and support for the IB Diploma with additional classes and tutoring available as standard to ensure the very best outcomes for individuals. Class sizes are small – generally between 8 -14. The school also offers A Level, GCSE and IGCSE.

### Extra Curricular

The academic life of the IB student is complemented with a rich and diverse extracurricular programme. There are large numbers of clubs and societies for every interest and new ones established each year to meet the changing desires of our students. National representation in sport is common with equally high standards in music and drama, there is simply something for everyone at Kent College.

### Pastoral Care

The pastoral system in the school is highly valued and central to our ethos as a Methodist school, the family atmosphere and supportive environment in the boarding and day school community means that well rounded global citizens leave the school on graduation from the IB. The majority of students are British but the school’s students represent over 40 different nationalities. The school operates a strong pastoral network from House Parents to Tutors and Heads of Year that ensures all students receive the wrap around care that they need to flourish academically and to grow into confident young adults.

**School Background**

King Abdulaziz International School Madina, established in 2013, is an accredited IB school that offers the Primary Years Programme and is a candidate school for the IB Middle Years Programme. It offers a rigorous broader international curriculum that prepares students for life.

**The School Mission Statement**

King Abdulaziz School strives to cultivate dynamic educational experiences that prepare students for life. It aims at providing a stimulating academic programme and a friendly learning environment that enable students to reach their full potential intellectually, physically and emotionally. King Abdulaziz School prepares students to be open to other perspectives, values and traditions whilst recognizing their own identity and taking pride in their cultural heritage.

**School Curriculum and Activities**

King Abdulaziz School's enrichment initiatives are embedded in local and global programmes on peace and tolerance, celebrations of cultural and international events, language development, e-learning, arts and crafts, sports, after school

clubs to create a basis for interactive experiential learning. English is the primary language of instruction.

**The School Faculty**

The teaching staff comprises more than 30 educators who are professionally trained by the IB through in-school, online and regional workshops. Many of our staff members are native English speakers and have vast experience in teaching in international schools.

**The Facilities**

King Abdulaziz School is striving to provide a wide array of facilities for both its students and teachers in order to implement the IB programmes effectively. The facilities include a purpose-built campus, dedicated staff, libraries, computer and science laboratories, an art room and an auditorium. The school regularly organizes field trips to enhance the bond and connection with the community.

**KAIS inspires the individual potential of all students to enable them to become principled, proficient, inquiring, and caring lifelong learners. It is the school's firm belief that together we can Make a Difference.**

King Edward's Witley, a co-educational independent British boarding and day school for pupils aged 11-18 is sited on a stunning 100-acre campus, in a designated Area of Outstanding Natural Beauty, in Surrey.

The School benefits from a convenient location, sited ten miles south of Guildford and within a 45-minute drive of the UK's two main international airports: Heathrow and Gatwick. The nearest local train station, Witley, is a five-minute walk away, providing easy access (50-minute train journey) into central London.

Founded in 1553, King Edward's enjoys established links with the City of London and the School embraces its illustrious heritage, successfully combining time honoured traditions with a thoroughly modern outlook consistent with the requirements of a world-class centre of excellence. Regardless of the significant changes since its inception, the School has never lost sight of its original fundamental ethos of diversity and commitment to the pastoral and education needs of the children it serves.

King Edward's Witley is an early adopter of the IB, ranking as one of the UK's top 25 co-educational day and boarding schools offering this prestigious course. The majority of King Edward's 140 Sixth Form pupils follow the IB Diploma Programme. Over the last five years, an average of over

70% of pupils achieved grade 7-5 (equivalent of A\*, A & B at A-level). In 2018, the average points per pass was 32.4 (out of a possible 45) and three pupils scored 40+, enabling students to take up preferred university places in the UK, as well as the US and overseas. The School also offers a one-year Pre-Sixth Form course for overseas pupils to allow for the development of language skills and trial of the IB subjects on offer, in addition to the acquisition of the thinking and learning attributes consistent with Sixth Form study.

Facilities at King Edward's include a state of the art Business and Finance Centre, dedicated Sixth Form Common Room, superb sports programme and access to a wide range of outdoor pursuits and activities including the renowned Duke of Edinburgh's Award Scheme. The School excels particularly in football for both boys and girls, music and drama and all pupils are involved in charity work spanning several continents.

65% of the pupils are English native speakers, King Edward's Witley also has pupils from over 45 countries around the world.

In December 2015, the School received an "excellent" rating (equivalent to Ofsted "outstanding") in all nine inspection areas from the Independent Schools Inspectorate.

**Committed to a balanced education**

Since its foundation in 1985, the King Fahad Academy has achieved an impressive reputation as one of the leading independent bilingual schools in the United Kingdom. With the Diploma Programme authorised in 2008, the PYP in 2011 and the MYP in 2015, the KFA gained additional status as the only Islamic school in the UK authorised to provide the International Baccalaureate Programmes.

We provide quality international education for students age 3-19 years that blends with the rigour and innovative IB curriculums within the ethos and values of the Islamic faith. The KFA aims to inculcate in its students, through their faith and culture, an understanding and respect for other cultures. Commenting further, Dr Abdulghani Alharbi, the Director General of the King Fahad Academy observed:

*“We encourage our students to show and reflect our shared values as a school: Knowledge, Faith, and Aspiration, in atmosphere that identify and promote the unique potential of each student, within a caring, understanding, happy and stimulating learning environment”.*

The IB programmes have enabled us to extend the scope and subjects of the curriculums on offer, with varieties of exciting and interesting opportunities and experience for the students, enhancing and extending their learning with experience from the real world.

We are excited and keen to extend the dynamics of teaching and learning via inquiry, concepts and skills across the King Fahad Academy to enhance the principles of the IB continuum.

**Website**

www.kwc.im

King William's College opened in 1833. The School is situated approximately 200 metres from the beach in over 37 acres of grounds. The Isle of Man is a beautiful, healthy and safe location for young people to grow and study in.

The College is distinctive in that it is one of the few UK schools where every student in the Sixth Form studies for the International Baccalaureate Diploma. The IB philosophy – particularly its emphasis on skills and its focus on internationalism – is central to our approach and we are one of the largest and most experienced IB schools in the British Isles.

Our highly qualified and enthusiastic staff, combined with small class sizes, ensures that all pupils are inspired and given the individual support they need to achieve success. The School has always been relatively small, around 400, and that means each student gets the encouragement and support they need. As such, our academic results are consistently strong and our students go to top universities in the UK, Europe and the USA.

Around 30% of students board. There are two boarding houses on campus, one for the boys and one for the girls. The boarders take advantage of the busy activity programmes on

offer from sport to paintballing! Students travel from all over the world to study in such a beautiful environment and they foster friendships that last a lifetime.

The pupils follow a broad curriculum of sporting activities, competing in the major sports against the other Island schools, but also travelling to the UK for off-Island fixtures. Every three years, the senior rugby and hockey teams embark on an impressive world sports tour during the summer months. The College also has its own Golf Academy and rock climbing and sailing are also on offer along with a wide variety of other extra-curricular activities.

Drama and Music thrive at King William's College and pupils are given the opportunity to perform at many events and School productions. There are workshops throughout the year and students are also encouraged to participate in Island-wide competitions.

We are a non-selective school, but entry is dependent on good school reports and an interview process.

The underlying philosophy behind the IB is fundamental to the education we provide and, without question, so is the Island. A beautiful, safe environment in which to go to school.

An Island Education for a Global Future.

Knightsbridge Schools International Montenegro is an IB World School authorised to offer the Primary Years Programme, Middle Years and the Diploma Programme. School is also fully licensed by the Montenegrin Ministry of Education, and a member of Council of International Schools (CIS). KSI Montenegro is a member of an international network of schools – KSI, based in London.

Located in the tranquil surroundings of Boka Bay, within the luxury superyacht marina and nautical village Porto Montenegro, KSI offers students a challenging and rewarding educational experience. Students benefit from our stimulating surroundings which promote our healthy body, healthy mind philosophy.

Boarding at KSI is a great addition to the school and a new aspect of education in our community. It opened in September 2013 offering a British model of pastoral support with an international ethos. It is available to students aged 11-18. KSI Montenegro strives to create an environment of comfort, safety and fun for boarders.

While KSI Montenegro has a diverse student body with children from about 18 different countries, the teachers are mainly coming from English speaking regions.

KSI Montenegro provides a holistic, balanced and varied curriculum that addresses the needs of all learners and

supports the development of learning strategies that prepare them for each stage of their education. All students are encouraged to take initiative and develop personal responsibility, and are expected to actively participate in developing a friendly, welcoming and culturally understanding environment. This adds to the holistic experience of boarding and allows students to develop as a community of empowered and engaged global citizens.

KSI Montenegro aims to develop the knowledge, skills and values of learners through active inquiry, participation and reflection, so that they may become collaborative and compassionate global citizens who are committed to making a positive difference.

The main language of instruction in the school is English, but the school is developing multilingualism through its language programmes by currently offering the host country language, as well as French and German lessons.

At KSI, we believe that learning is year-round. During the summer months KSI offers exciting summer camp, which includes a variety of outdoor activities such as sailing, rowing, swimming etc. Winter months bring great possibility to enjoy hiking and sightseeing. There is also an expanding after school activities programme that makes school life much more interesting.

**“Students of today, leaders of tomorrow”**

Kuwait Bilingual School (KBS) was established in September 1998 in Al Jahra City, Kuwait. Its foundation was a landmark in educational provision in the district, being the first school in the area to offer a coeducational, bilingual, private school education for people of the city.

Our mission is to develop intellectually mature and responsible learners who contribute positively to the community, showing commitment to both local and global issues.

We provide challenging educational experiences based on IB curriculum frameworks, to ensure that learners will acquire the skills, knowledge and attitudes needed to develop their full potential and to meet the demands of a rapidly changing and morally complex world.

In June 2013, we were authorized as an International Baccalaureate (IB) World School at the primary level and

were recently also authorized to deliver the middle years programme (May 2018). KBS received accreditation with the Middle States Association of America in the summer of 2016.

The school moved to a brand new campus, KBS2, in 2016. With these improved facilities we have spacious classrooms fitted with the latest technology, a purpose built theater, swimming pool, science labs and sports halls. This has enabled us to enhance our programmes, particularly in the areas of performing arts, science and sport. The facilities are also open to the wider community after school hours and at weekends, with extra curricular programmes and sports activities available for students, parents and the public.

In September 2018, we will open a Technology Innovation Center, which will initially include a robotics area and virtual reality suite, with rooms for expansion. We aim to ensure that our students remain on the “cutting edge” when it comes to technology!

**School**

Leibniz Privatschule (LPS) is a coeducational German and English-language day school. LPS provides education from kindergarten, primary school, to secondary school. In our German-language program students can graduate with the German school leaving certificates of middle school and Abitur. As an International Baccalaureate (IB) World School, LPS is serving the internationally-minded community of the metropolitan region Hamburg. We teach the IB Diploma Programme, an ambitious two-year program in English language leading to an internationally acknowledged university entrance degree. Our primary school follows the language-immersion method where children are embedded in an English-language environment. LPS was founded in 2006 by educators and teachers. The modern school campus is located in Elmshorn, a town with 50,000 inhabitants 35 km northwest of Hamburg. A second campus was founded in 2008 and is now residing at a newly built site in Kaltenkirchen, 35 km north of Hamburg.

**Mission**

We seek to deliver not only education but to help young people to develop strong personalities and to be prepared for life. It is our aim to enable them to flourish in their chosen fields, for example in academic, cultural and sporting pursuits. We encourage intercultural understanding while paying respect to cultural and national identities.

**Community**

Students attending LPS comprise a variety of nations. While most students have a German background a growing number of students are non-German totaling 40 different nationalities. Our teachers reflect this internationality. Some have worked and lived abroad before teaching at LPS. A substantial part of our teachers are foreign.

**Why to choose us?**

*Learning structure:* In all classes standardized instructional method are applied. It is based on latest neuroscientific and educational knowledge.

*Reliable from 7.30 am to 5 pm:* Our school provides all-day activities. Five to seven 45 minute lessons, lunch, afternoon training sessions, and clubs in sports, music, handcrafts and other activities.

*No class cancellations:* We do not cancel classes. There is always a substitution if the teacher gets ill. Therefore, no student has to leave school early.

*We care:* If there are problems of any kind, the teachers are there for you. They spend the entire working day in the school building and are contactable via phone or email.

*Daily sports classes:* Physical activity is crucial for children: it prevents health problems, and supports cognitive capacities. LPS is the only school in Germany offering daily physical education for children in primary and secondary school.

**Website**

[www.leightonpark.com](http://www.leightonpark.com)

At its core, a Leighton Park education focuses on the individual and the promise of choice. Our ethos informs an approach where students are able to follow their most impassioned interests, become active learners and strive to fulfil their potential.

Our emphasis on creative thinking, invention and innovation ensures that every student can succeed and make a meaningful contribution in an ever changing world. Central to the school's approach, we teach leadership, creative thinking and risk-taking, empowering students to be a force for good in the world and reflecting the school's Quaker values.

The success of our academic approach is demonstrated by the latest UK Government analysis, which showed that our Sixth Form students achieved the best academic progress in Berkshire – with the school in the top 40 in England. Our small cohort IB results place us in the top 3 co-educational boarding schools in the UK.

All our Sixth Form students benefit from small class sizes (the average is 7 students per class) and dedicated teachers who, due to the closeness of the school community, are able to cater lessons to each student and ensure they are

kept on track both inside and out of lessons. This allows an unparalleled level of support and also a relationship between students and teachers which allows students to feel that can speak honestly and openly to teachers about any problems they may be facing.

Our location, 35 minutes from London, close to Oxford and the South Coast, and surrounded by some of the most historic and picturesque countryside in England, creates unrivalled opportunities for students to enrich and contextualise their learning.

The quiet moments and the calm atmosphere of our 60 acre park, encourage students to collect their thoughts and reflect within a caring community. All of this, and the focus on mutual respect, create a stable, unique and sustainable environment where children can live, learn and grow.

We believe that our greatest strength is the way we quietly balance a wonderful sense of calm with an incredible amount of activity and dynamism, creating an environment where students are encouraged to try a huge range of new experiences and develop their greatest talents.

Come and see our beautiful grounds, talented students and welcoming school for yourself.

Les Écoles Internationales Al-Kawthar (EIK) is the first private International Baccalaureate (IB) French school in Saudi Arabia. It was established in 2012. We offer the IB Primary Years Programme (PYP) that includes the Petite Section (ages 3–5) to PP6 (ages 6–11). Teaching of all subjects is in the French language. EIK is now looking forward to obtaining authorization for the IB Middle Years Programme (MYP) and IB Diploma Programme at the Secondary level in both French and English.

Our international schools are licensed by the Saudi Ministry of Education of Saudi Arabia. The schools provide an enriching education in French, English and Arabic.

In 2018, AL-Kawthar International Schools (KIS) received accreditation from Cambridge Assessment International Education for Grade 1 to Grade 8 including the Cambridge Progression Tests and Cambridge Primary Checkpoint that assess learner achievement.

**Mission**

EIK is dedicated to empowering our learners with knowledge and ability to take responsibility to ensure lifelong learning. Our schools are committed to providing high quality-education for all students by ensuring a complete intellectual, physical, and aesthetic environment. We encourage social development through practicing international sensitivity so that our students can acquire important values that contribute to the development of the local and global community.

**Vision**

Our vision is to create a caring and open school culture that reflects a spirit of mutual understanding, intercultural respect and adaption to the needs and expectations of all members of the school community.

**Teachers**

Our teachers are highly qualified and experienced with IB certification. The school ensures progressive development through continuous in school training and the implementation of advanced aspects of technology to facilitate learning.

**Students**

Our students come from different countries and cultures. This multicultural diversity helps students appreciate their own culture and understand themselves in relation to their communities. We identify the needs of each student and ensure they receive the necessary support and encouragement to acquire the knowledge and skills to benefit independent learning.

**Facilities**

The school campuses have a wide range of excellent facilities consisting of interactive and spacious classrooms, science labs, computer labs, art rooms, a library, playing areas, sport spaces, music rooms, theatre spaces and a cafeteria. A modern security system provides a safe environment for our students.

EIK supports various after-school activities that encourage student self-development.

The Lincoln Community School (LCS) is a private, nonprofit, college preparatory day school which offers educational programs from prekindergarten (age 4) through grade 12. The School, established in 1968, is located in the cosmopolitan West African city of Accra. The School has positioned itself as a center of excellence in the region, with strong professional development programs for its teachers and serving as a regional site for teacher workshops.

The School is international in both population (60+ nations represented) and philosophy, with an emphasis on inquiry and problem solving. It is designed to be appropriately challenging, and to allow a smooth transition into other international schools. LCS is an International Baccalaureate (IB) World School, authorized to offer all 3 levels of the IB Program. These 3 levels of the IB Program guide the curriculum: the Primary Years Programme (PK–grade 5), the Middle Years Programme (grades 6-10) and the IB Diploma Programme (grades 11-12). Elective courses are offered in art, music, drama, design, and technology. The school offers English language as an Additional Language (EAL) support for students with developing English skills. Learning support services for students with mild to moderate learning needs are provided, but families who may need additional support are advised to consult with the admission office about the

services provided to ensure a good programmatic fit for their child. LCS is accredited by the Middle States Association of Colleges and Schools and the International Baccalaureate Organization. It is a member of both the Council of International Schools and the Association of International Schools in Africa (AISA).

Our School facilities are air conditioned with 74 classrooms including 4 art rooms, 5 science labs, 1 technology lab, 4 music rooms, 1 dance room, a visual and performing arts center, elementary, middle and high school libraries and learning support centres, an early childhood center and office space for counseling and administrative staff. All classrooms are equipped with LCD projectors and/or interactive smartboards. The library has multimedia equipment: iPads, kindles and internet enabled wireless laptops.

There are 2 multi-purpose halls and 2 health clinics. Sports facilities include a fitness center, 2 fields and a semi-Olympic swimming pool, an outdoor gymnasium/multipurpose hall (court) with a stage, and dressing/locker room facilities. Playground space includes 2 grassy playing fields and separate playgrounds for the early childhood and elementary school, with recreational apparatus with purpose-designed equipment. A new state of the art Elementary school will be completed in June 2019.

www.efblbv.org

The Lycée Franco-Britannique Ecole Internationale was founded in 1989 with a view to educate children ready to meet and embrace the needs and demands of tomorrow and adaptable to an ever-changing world.

Our School was the first in Gabon to become a candidate school for the IB programmes as well as authorized to dispense the PYP, the MYP and the DP. Pupils have the possibility to sit the *Brevet des Collèges General* (French exam) at the end of Middle School alongside the MYP Certificate.

The core of our program is taught in French with a particular emphasis on foreign languages which occupy a key position within our School and are taught daily: English is offered from the age of 3 and Spanish from age 7 onwards. However this is not to the detriment of other subjects which all hold an equal importance within our taught curriculum.

Moreover, a plethora of nationalities are represented within our School. This multi-national spectrum nurtures a spirit of tolerance and respect for the values, beliefs and culture of every single pupil whilst encouraging cultural diversity

and international awareness. Our philosophy has for aim to develop responsible and solidary citizens through the various activities undertaken during the Service and Action Programme.

Class size doesn't exceed 16 pupils per class which enables a personalised follow-up. In the afternoons, supervised study is offered to pupils with learning difficulties or to those with higher capabilities to deepen their knowledge. Students have the opportunity to partake in various extra-curricular activities (creative writing, film club, debating ...) as well as swimming, athletics and team sports.

Throughout our 30 years of education, we take pride in seeing our pupils travel abroad to study in Europe and America. We believe that by offering a holistic education, which hones the abilities of each pupil so that they can fulfil their individual potential, we can reach our objective which is to endow them with the required skills to become active citizens of the world, driven by their will to change it for the better.

malverncollege.org.uk**Website**

www.malverncollege.org.uk

Malvern College is rooted in the best of tradition but is forward-looking and ambitious in its aspirations for the future. As one of the first schools to run the International Baccalaureate in the UK, the school celebrated 25 years of running the IB alongside A levels in 2017.

Academic results are excellent and, through an extensive co-curriculum, pupils can develop the necessary personal qualities required for life beyond school. Emphasis on nurturing the individual is balanced by an understanding of the responsibility each has to play in the lives of others.

Ideally placed in the inspirational setting of the Malvern Hills and near to the town of Great Malvern, we are close to major transport links and to Birmingham Airport.

At Malvern, we are proud of our innovative spirit, superb and developing facilities, and a teaching staff that enables pupils to flourish, all of which make this the very best environment in which to learn.

**The IB at Malvern**

The IB Diploma Programme is taught at Malvern in a school with all the benefits of full boarding life and in a context of global awareness. We offer pupils a real choice of subjects so that they are able to shape their future. Our 'Malvern Qualities' are clearly linked to the IB Learner Profile with

the IB ethos firmly embedded in school life. The IB's holistic philosophy of education clearly matches our own approach to the development of the individual.

The IB Diploma at Malvern focuses on opening minds and developing a pupil's curiosity. Our outstanding candidates have gone on to achieve academic excellence at top universities all over the world, and beyond are involved in exciting projects worldwide in careers that seek to make a difference to the lives of others.

**Boarding at Malvern**

Malvern is a full boarding school – 77% of our pupils board and weekends are busy. We seek to prepare those who study at Malvern for a world that is always changing, and our House system engenders a sense of community and collective purpose. Pupils eat in their houses creating the family feel for which Malvern is well-known.

**Admissions**

Each year, around forty new pupils enter the Sixth Form to join one of our eleven boarding houses. Registrations are requested 18 months in advance of the proposed term of entry. Please contact our Registrar, Giles Vosper-Brown, for details: registrar@malverncollege.org.uk or +44 (0)1684 581 515.

**1065 | IRAQ**

**TEL** +964 750 144 5031

**Email**

info@marqardakh.com

**Website**

www.marqardakh.com

**Location**

Mar Qardakh School is a private, Catholic coeducational school that offers three IB programmes: PYP/MYP/DP. Mar Qardakh is located in Ankawa, a suburb of Erbil, Iraq, in the heart of the Middle East.

**Mar Qardakh school inauguration anniversary**

On the eleventh of November 2011, Mar Qardakh international school was opened to the public. The students and staff celebrate the anniversary every year. The celebration starts as the students come out of their classes with their teacher and stand in the center of the hub. The coordinators and head of the school then give a speech to the students. The students proceed to sing the school's anthem and pray. Later they head back to their classes and complete the rest of the day.

**Why MQS?**

Mar Qardakh School strives to perpetuate a great and ancient heritage. Iraq is often thought of as the Cradle of Civilization, the land where some of the first and greatest ancient civilizations of Mesopotamia – Sumer, Babylon, and Assyria – began. The beginning of multiple languages, the beginning of writing and the beginning of education have often been associated with this region. Today, Mar Qardakh School is building upon this ancient heritage and carrying it forward by providing a comprehensive, rigorous education,

centered on the holistic development of the entire person, in order to invest in the well-being of each individual and of the community as a whole. Mar Qardakh is also the only school in Iraq offering PYP, MYP and DP levels.

**Mission**

Our mission is to empower students for life in the 21st century by providing them with a holistic and international education, encompassing academic, social, spiritual and personal development, and an awareness of the world around them.

**Our values**

Mar Qardakh school offers an environment for students to develop their critical thinking skills, their sense of responsibility and their openness to international diversity.

Furthermore, Mar Qardakh school prepares students to become virtuous leaders; who can shape a peaceful society and a peaceful future.

**Our students**

Being one of the first IB schools in the country, MQS trains students and prepares them to overcome the challenges and difficulties they face. The newly established system in the region helps students to become better leaders who can face future challenges with confidence, self-discipline, and determination.

www.marymountlondon.com

Founded in 1955 through the charisma of the Religious of the Sacred Heart of Mary (RSHM), Marymount International School London is an independent school for girls, nurturing the limitless potential of curious, creative young women of diverse faiths and backgrounds. We proudly stand as the first all-girls' school in the United Kingdom to adopt the International Baccalaureate curriculum (IB MYP and Diploma), bringing together day and boarding students ages 11 through 18 in a personal, dynamic, intellectually challenging, and supportive environment where multiple perspectives are respected and celebrated.

Marymount London offers a strong academic programme based on the International Baccalaureate curricula:

- The Middle Years Programme (MYP), offered in Grades 6 to 10, is a student-centered programme encouraging each student to draw connections among eight subject groups and the world in which she lives.
- The International Baccalaureate (IB) Diploma, offered to students in Grades 11 and 12, builds on the strong foundation of the MYP, preparing each graduate for university studies and lifelong learning.
- Our results are outstanding: 100% pass rate and an average of 36 points.

The rigorous academic programme offered to each Marymount girl is complemented by a rich palette of

interesting clubs, engaging activities, and educational trips. Students participate in a number of inter-school activities throughout the year, developing an understanding of how the work of the RSHM continues to touch the lives of thousands of students across the globe.

Marymount London is a member of the Girls' School Association, the Boarding Schools Association and the Independent Schools Council. Accredited by the Middle States Association of Schools & Colleges (USA) and the Council of International Schools, the School is inspected in the UK by the Independent Schools Inspectorate (ISI).

Marymount offers expansive transportation services from London and the surrounding areas.

#### Admissions Procedure

Marymount is pleased to offer year-round rolling admission. Our team is committed to a personalized approach throughout each step of the admissions process, with the goal of placing the prospective student in an environment where she will thrive and experience success. The admissions section of our website, featuring an online application portal, provides all of the information necessary to get started. We encourage agents and applicant families to learn more about our strong tradition of excellence by exploring our website, contacting us by phone/email, and scheduling a campus/Skype visit.

**Mashrek International School** is a private bilingual coeducational school founded in 1992, governed by a team of educators and professionals, located in Western Amman with a spectacular view and picturesque landscape.

**Our Vision** is to become a leading educational entity through building a school community that provides a caring and stimulating environment, and emphasizes the development of the whole child. Fostering students' leadership, advocating ethos of international understanding and promoting active citizenry, through the diversity of education, technology and human resources.

**Our Mission** is to teach students critical thinking, international understanding and appreciation for diversity while preserving the Arabic culture. Mashrek raises the individuals to become proud of their identity, responsible and productive citizens in their country and the whole world as well.

**Our Values:** Justice, temperance, empathy, respect, integrity, equity and leadership.

**Our Motto:** Maximizing Each Student's Potential.

**Academic Programme:** Mashrek International School has been an IB World School since 2005 offering the IBPYP, IBMYP and IBDP.

### **We are now a CIS Accredited School**

In February 2018 Mashrek International School was awarded the CIS Accreditation, this was based on evidence of

excellent and effective alignment with the standards for CIS accreditation.

### **Educational Practices**

At Mashrek students learn to use and transfer knowledge to innovative situations, find solutions to problems, stimulate prior knowledge to construct meaning, and develop cognitive, social, emotional, intellectual and spiritual well-being.

Mashrek adopts research based instructional approach and delivers a curriculum that provides high quality education for the 21st century learner. At Mashrek the learning process engages students through inquiry and the use of different resources, it revolves around big ideas; it is conceptual, and it connects to real life; it is contextual. Assessment is authentic and allows students to demonstrate understanding in multiple ways, their thinking is visible, and the feedback they receive is constructive.

Bilingualism is one of our school's strengths; students acquire language skills in both Arabic and English.

Mashrek values our Arabic heritage and our students' mother tongue languages and believes that it enhances students' development in the local and international community. International students are supported by a special Arabic Language programme. The school also offers Spanish, French and Chinese as an additional language. The school is renowned for its individualized educational

programme and differentiated instruction allowing students to reach their maximum potential.

DP and MYP students' grades are consistently above the world average, with outstanding results supported by qualified educators. Our graduates are skilful, mindful and career oriented, they enrol in distinguished universities in Canada, USA, UK, Europe, and The Middle East. Mashrek hosts representatives from universities around the world to showcase career pathways and provide students opportunities to discuss admission requirements.

#### **Leadership Practices and International Mindedness**

Mashrek aims to transform students into leaders who recognize their common humanity and help create a better and more peaceful world.

Mashrek students are exposed to a variety of experiences in which they practice community service, and communicate with local and international distinctive organizations and individuals. They learn how to investigate, plan, take actions, find solutions and reflect.

Mashrek students develop their emotional, physical and social skills through participation in sports, music, drama and visual arts. They participate in National and International events, musical productions, art exhibitions, plays, and conferences which allow for meaningful involvement and ownership.

Student well-being is the school's priority, an Advisor-Advisee programme is designed to ensure that every student is recognized, cared for and guided. This programme is supported by a comprehensive counselling system.

#### **Staff Professional Development Approach**

Professional development needs for teachers are aligned with the school's appraisal system and teachers' professional

growth. The School's PD program offers specialized in-school training for teachers on research-based practices in education. Teachers also participate in international workshops done by accredited organizations.

Teachers within the school have the opportunity to undergo an accreditation process that enables them to become IB workshop leaders, thus in-house training is conducted on a regular basis.

#### **Innovative learning Environments**

The school has launched its innovative learning spaces, 'Manarat Ibn Rushd', that includes 'Zain Zinic'. These spaces aim to provide students with different learning opportunities and new technologies that support them in converting their innovative and creative ideas into productive projects that are shared with their community.

Marymount International School Rome is a private, Catholic, co-educational day school. The oldest international school in Italy, we are located on a 40-acre campus of protected parkland just 20 minutes north of the city center. An English-language Early Childhood through 12th Grade, standards based international curriculum is complemented by a wide range of extracurricular activities both on and off-campus, including visits to Rome's famous attractions and national and international traveling. Marymount graduates obtain an accredited American High School Diploma and in any given year as many as 100% of students work towards either the full IB Diploma or individual IB course certificates.

Marymount has been an IB World School for over 30 years obtaining accreditation to offer the IB Diploma Programme (DP) in 1985. Over the years the DP has become an integral component of Marymount's academic program. School-wide curriculum alignment builds towards the High School where over 30 IB subjects are offered.

Marymount consistently obtains well above world average results. In 2018, for example, about 100% of the School's DP candidates obtained the Diploma and the School's mean overall points total was 34.47; a record score for the school and 5.4 points higher than the worldwide pass rate for each examination session. Marymount is a culturally and responsibly inclusive School, with a liberal admissions policy, and is therefore particularly proud of its students' results. The internationalism of the program is reflected in that 55% of the students achieve the Bilingual Diploma.

The School's IB students go on to study in many of the world's top universities and colleges, including Yale, Johns Hopkins, UC Berkeley, NYU, Boston College and McGill in North America and Imperial College London, King's College London, the London School of Economics, and University College London. The Marymount Learner Profile and the School's Mission and Vision provide a road map for Marymount's standards-based education that embraces internationalism and intercultural understanding and all MMI students take part in local or international service-learning projects.

Classroom activities focus on skills development, conceptual understanding and authentic learning. A rigorous academic program is supplemented by a wide variety of after school activities including Varsity athletics, S.T.E.A.M. classes in our FabLab building which foster innovation, creativity and entrepreneurship, classes in journalism, theatre, choir/band, Model United Nations, and photography. The School also has an ever-growing commitment to technology. All Marymount secondary students work with personal Apple computers and the School is equipped with multiple computer labs, science labs, art studios and libraries.

Marymount welcomes students from over 60 different nationalities and of all faiths to participate in its vibrant community life, providing an inclusive environment in which each student is valued and nurtured to become tomorrow's leaders.

**Our Motto**

“Building Bridges between Countries and Cultures”

**Our School**

MEF IS was founded in 1998 to serve the expatriate community in Istanbul. MEF IS has been an authorized provider of the IB Diploma Programme (IBDP) since 1998 and the IB Primary Years Programme (PYP) since 2005. In addition, MEF IS is a Cambridge International Examinations Centre (CIE), offering Checkpoint and IGCSE examinations. The school’s mission is to inspire, nurture and challenge its learners to realise their unique potential. The school aims to be an open-minded community striving for creativity, innovation and excellence. Each child is guided to discover and develop intellectual, creative, social and physical potentials that cultivate a passion for learning. The school empowers students to become global-minded. Students develop an appreciation for individuals, groups, cultures, and societies by striving to learn from others’ perspectives.

Instruction is in English. Students also study French, Spanish and the host country and its language. The Learning Support Team provides individual and small-group support through English Language Learning (ELL), Learning Support, Enrichment/Extension, Guidance Counseling and College Counseling.

**Our Students**

Students come from 54 different countries.

**Model European Parliament, Model United Nations and Junior Model United Nations**

Students participate in Model European Parliament, Model United Nations, and Junior Model United Nations. This year students will attend conferences in Athens, Maastricht (The Netherlands), Bratislava (Slovakia) and Istanbul.

**Academic Success**

Middle school students scored well above average on Cambridge Checkpoint Examinations in June 2018. At IGCSE, 80% of students scored A\*-C in June 2018. Students in the IBDP scored above the world average in May 2018 examination session, as they averaged 32 points for the IB Diploma. Graduates attend prestigious universities around the world.

**Our Faculty**

Eighty-one full-time staff members represent 16 nationalities. All teachers hold university degrees and teaching certificates having an average of 13 years experience in education. Forty-five percent of teachers also hold advanced degrees. The student to teacher ratio is 6:1.

**Our Facilities**

The campus is in the heart of Istanbul on over nine acres in a residential neighbourhood above Ortaköy near the Bosphorus Strait. Facilities include over 30 classrooms, specialist and learning support rooms, four science labs, an IT lab, a technology and innovation lab, a library, two playgrounds, an indoor swimming pool, a gymnasium, three sport-centres, a dance studio, two outdoor football fields, a tennis court, an auditorium, and an outdoor amphitheatre.

The Modern Montessori School (MMS) aims to provide a rich and stimulating environment where children can develop to their full potential. Understanding and appreciating the differences that make every student unique, each child is valued as an independent thinker and encouraged to make choices on his or her own.

Our system of personalised education encourages every student to develop his or her own talent, to respect the differences in others, and to be a respectable member of a community, thus achieving the finest possible holistic education. This aims to instil a pride in accomplishments, providing the students with the confidence needed to use their abilities to the fullest and enabling them to define and achieve success in college, career and, above all, in life.

To this end, the IB Diploma Programme at MMS is designed largely to cater for the needs of individuals, rather than for the collective needs of a group; our subject menu is varied and enjoys a degree of flexibility, which in turn allows students to choose the subjects that appeal to their different learning preferences and future university courses.

Furthermore, MMS has devised an extracurricular, three-level award scheme, which has the IB CAS perched atop its golden level. The Amin Hasan Award (AHA) provides students from grade 6-10 with the ability to participate in enjoyable yet beneficial and thought-provoking activities. This non-academic aspect of their education is extremely valuable in the overall development of the whole child, as it fosters a sense of compassion, teamwork, and mutual respect among

students, in addition to promoting the principles of model citizenship and the importance of solidarity and togetherness among people, irrespective of their ethnic, religious, or gender differences. One of the many AHA activities was having students work together to meet the challenge of scaling Jordan's highest peak.

At MMS, we also believe in the inherent ability of each student to achieve distinction. This is why our LEAD Department (inclusive assessment) works hand-in-hand with administrators, programme coordinators, and teachers to cater for students who have special learning needs, through the application of an inclusion programme.

We also believe that cooperation between home and school is required to ensure the personal and intellectual development of each student. Consequently, we have designed an e-school portal where both parents and students are kept up-to-date with everything they need from report cards and academic calendars to forums and e-learning material.

As a PYP/MYP accredited school, the MMS prepares students through a devised preparation programme and curricula that will ultimately expose students to the IB continuum of international education.

The Modern Montessori School is accredited by the International Centre for Montessori Education (ICME), Cambridge and Edexcel International Examinations' syndicates and is an authorised IB World School.

Moscow Economic School was registered on February 1, 1993, as a non-government educational institution.

MES is a secondary school with grades ranging from 1st through 11th.

It also has a kindergarten and a pre-school department. The admission age ranges from 3 to 5 years.

There are two campuses. “Presnya” Campus is located in the center of Moscow. Odintsovo Branch is in the countryside, outside Moscow.

MES is a bilingual school with the languages of instruction being Russian and English. Other foreign languages include German, Spanish, French and Chinese, are introduced in the second grade.

Moscow Economic School is a member of the Council of International Schools (CIS), the European Council

of International Schools (ECIS) and the Association for Advancement of International Education (AAIE).

Since 1996 the school has been following the International Baccalaureate programmes for Primary Years (PYP), Middle Years (MYP) and Diploma (DP) schools (grades 1-11).

Since 2001 the school has been providing research opportunities for the Russian Academy of Education and for Moscow State Pedagogical University.

In 2013 the Council of International Schools (CIS) reaccredited MES.

Extra-curricular activities (art studios, clubs, etc.) are available.

MES students actively take part in the “Moscow Giraffes” sport school and the children’s “Camerton” school of music.

Our co-educational institution is a part of historical, cultural and educational environment of the capital. It functions in the social and economic areas of Arbat and Hamovniki districts, that is reflected in the development of State Educational Government-Financed Institution of the City of Moscow 'School 1231 named after V.D. Polenov'. The school was founded more than eighty years ago, then transformed into a campus in 2012. Now about 4000 of boys and girls from 3 to 18 years are studying here.

Our school represents all stages of the learning journey: nursery, primary and secondary levels.

The main targets of the written curriculum correspond to modern and perspective state, social and personal needs:

- forming of the civic identity;
- social consolidation in the conditions of cultural, ethnic and social diversity;
- respect and trust among different social, cultural, religious and ethnic groups;
- achieving competitive abilities of a personality, society and state;
- improving of the world and keeping of the peaceful environment through intercultural understanding and respect.

The 1231 school provides compulsory and functional studying of the following foreign languages: English, French, German, Spanish, Chinese (elective). The intensive studying of foreign languages has always been a priority for our institution. In this connection the educational programme provides the increased time for mastery of English language (intensive studying); inclusion of the second foreign language

according to a student's choice (German, French or Spanish). Its aim is to create stimulating atmosphere for career self-determination on the linguistic basis. The 1231 school teachers ensure success in preparation for international exams: DSD (International Exam in German language); KET, PET, FCE (International Exams in English language).

Our school was authorized according to the PYP programme in December 2016 and we became a part of the IB World Schools' community. In present time, the IB programme is an inspirational model for nursery and primary learning levels of our campus, which enriches national educational standards. The teaching staff realizes it in the state language of the Russian Federation.

The leading role in personal development belongs to a family. Gaining positive results in the educational process organization is possible through parents and teachers collaboration. We have already accumulated positive experience in interaction with parents and it has contributed a lot to our community extension.

All foresaid principles help to externalize our school's mission.

**Our school mission is upbringing of harmoniously developed, open-minded and caring inquirers with a strong sense of fairness and respect for other cultures; that are able to change the world for the better.** It encourages our pupils to become active citizens, being able to feel compassion; who will also keep hunger for knowledge during their whole life; understand that other people could be different, and respect their point of view.

**Mission Statement**

Narmer American College has as its primary mission the education and development of the whole student; mind, body and spirit. The student will be equipped to assume positions of leadership with an understanding of technology and its impact on the global community. Students will be able to cooperate in a diverse multicultural community.

**School and Community**

Narmer American College (NAC) is a Nursery-Grade 12 international college preparatory school with English as the language of instruction. NAC serves a community of predominately Egyptian and Middle Eastern families seeking an international primary and/or secondary curriculum of education- American, British, or International Baccalaureate. Our families represent the professional segment of Egyptian society plus expatriate families who are in Egypt working for various embassies and private business enterprises.

**Accreditation and Association Memberships**

- International Baccalaureate World School, Diploma Programme (IBDP)
- Accredited by the Middle States Association of Colleges and Schools (MSA), USA
- Accredited by the North Central Association Commission on Accreditation and School Improvement (NCA CASI), USA
- Member of the Council of International Schools (CIS), USA
- Approved by the Egyptian Ministry of Education of the Arab Republic of Egypt

**Curriculum**

The underpinning of the NAC educational programming is the American system of education following the Common Core Standards. Students are consistently being challenged to expand their knowledge and skills and prepare for higher intellectual engagement. We offer Advanced Placement (AP)

courses, which are college-level courses offered to grades 11 and 12 that are much more rigorous than the regular course offerings. The culminating achievement for our graduating students is the completion of requirements and credits leading toward an American High School Diploma. Qualified students may earn an additional AP International Diploma (APID) by passing in five AP exams in different subjects. Additionally, our students have the option of joining the International Baccalaureate Diploma Programme (IBDP) starting grade 11. The IBDP at NAC is a rigorous and balanced 2-year university preparation program, providing outstanding research-based education, and developing both disciplinary and interdisciplinary knowledge and understanding.

**Activities**

NAC recognizes that student involvement beyond the classroom is important for intellectual, physical, and social development. Therefore, an expansive student development program has been organized. The emphasis throughout the spectrum of activities is on competence, character, leadership, and citizenship. Our activities program offers a wide variety of options, ranging from art, drama, dance, and music to community service and team sports. Some students also participate in the Model United Nations and Injaz Company Competition.

**IB Subjects offered at NAC**

- English Language and literature (SL/HL)
- Arabic Language B (SL/HL)
- French and Spanish *Ab initio*
- Economics and Psychology (SL/HL)
- Environmental Systems and Societies (SL)
- Biology, Chemistry and Physics (SL/HL)
- Mathematics (SL/HL) and Mathematics Studies (SL)
- Visual Arts (SL/HL)

North London Collegiate School is internationally recognised as an outstanding school which provides an exceptional education. One of the oldest day schools for girls in England, we have maintained our position as an established force at the forefront of women's education, and our girls consistently excel in every area. Our students leave us not just with outstanding qualifications, but also as articulate and independent young women who possess the confidence, intellectual curiosity, and passion for learning and understanding that will endure for life.

Whilst ensuring academic excellence, equal attention is given to supporting the development of the whole person, inspiring confidence, individuality and self-esteem. Consequently, the school is a positive and energetic community where girls are encouraged to take advantage of the opportunities open to them, with around 36 productions, 40 societies and 30 foreign trips offered each year.

**International Outlook**

NLCS has a highly international perspective that is unique amongst London day schools. We feel it is vital to prepare our students to become global citizens, by providing opportunities for them to be outward-looking, internationally minded and well informed about the world beyond school. Our growing family of sister schools in South Korea and Dubai, with more branches planned for the future,

benefits pupils and staff through exchange opportunities and internships. The IB Diploma resonates with the values of NLCS, and its international dimension affords students the opportunity to be part of a programme which is offered in, and recognised by, almost every country in the world.

**Academic Excellence**

We have offered the IB programme since 2004, and have had a consistent record of success. Our students consistently achieve an average Diploma score in excess of 40 points. 13% of students have achieved a perfect score of 45 over the last decade, a result only achieved by about 0.4% of IB candidates worldwide. 45% of NLCS candidates have achieved 43 or above, making NLCS the top performing IB school in the UK and one of the very highest achieving IB schools in the world.

**Looking to the future**

Our IB students have received offers from a range of impressive institutions including Oxford, Cambridge, Harvard, Yale, Georgetown, Stanford and Princeton, as well as other leading universities such as Bristol, Edinburgh and the London colleges and medical schools.

The IB Diploma programme offered at NLCS ensures that students enjoy an exciting and academically stimulating Sixth Form experience, providing them with an excellent preparation for life at university and in the wider world beyond.

Notion International School is a private, fee-paying co-educational school, Cambridge associated school, an authorized IB PYP & MYP and a candidate DP school. The school currently offers the International Baccalaureate Primary and Middle Years Programmes for its K-9 students and is preparing to offer them the Diploma Programme as they grow into high school. Parallel to that, the school aligns with the British curriculum in the primary years and lower secondary stages, as well as offers to its graduating students both the IB Diploma and American Diploma pathways.

Pursuing excellence in education, Notion International School aims at developing internationally minded citizens who embrace their culture and identity, as well as recognize their common humanity and shared guardianship of the planet, helping to create a better and more peaceful world. The school provides a unique learning experience that inspires self-discovery, inquiry and the construction of conceptual knowledge in authentic real-life situations. Incorporating values and attributes with skills, knowledge and concepts in a 3-Dimensional rigorous curriculum, the school fosters the development of well-rounded global citizens, who value others' perspectives, respect diversity in culture, and are committed to contributing in making the world a better place.

Guided by the philosophy that a holistic approach to learning is absolutely vital, we firmly believe that it is essential that all teachers at Notion aim at recognizing the uniqueness of every student, adapting their teaching and learning strategies to meet their learning styles and abilities. Their guidance thus prepares our students with what they need to face in the 21st century with all its challenges; sustaining their natural curiosity and individual passions to become principled learners and independent thinkers who are determined to make a difference. Nevertheless, the endeavors of our parents and their support thus remain an indefinite pillar at Notion. Acknowledging that children benefit best when the significant adults in their lives work together to encourage and support them, we believe that fostering positive home-school links are key to the success of our educational process.

As one walks through the school hallways and visits classrooms, one can confidently say that we offer an exceptional education for every child that attends our school. Notion offers a world-class international curriculum that seeks to grow learners who want to make the world a better place through meaningful action and inquiry-based learning

Oakham School has always been at the forefront of educational developments, having successfully offered the IB Diploma for nearly 20 years. We are well known and loved for being a friendly and unpretentious co-educational boarding and day school with over 500 boarders.

Our educational ethos reflects the IB's vision to nurture intellectually ambitious thinkers, giving them the ability to learn effectively and independently at school and beyond. Our IB Diploma results far exceed the global average and our teachers are leading practitioners.

Whilst we are proud of our 400-year heritage, we continue to look to the future and our focus now, as we introduce the IB MYP to our pupils in Forms 1-3, is on equipping our students with the knowledge, aptitudes and skills to thrive in the world of 2030 and beyond.

Students benefit from the School's location close to Rutland Water, in the heart of safe, rural England. The beautifully green campus is just a few minutes' walk from Oakham's historic town centre, whilst Oakham's excellent road and rail links mean that London, Birmingham and Cambridge are all within easy reach.

At Oakham, learning is never just confined to the four walls of a classroom. Hundreds of students take part in the Arts –

there are five major drama productions every year, we teach over 500 individual music lessons each week, and our award-winning Art & Design Department is a hive of creative activity. Oakham also has a national reputation for Sport, offering 30 different sports to students of all levels – from enthusiasts to elite athletes. Activities are also an integral part of life beyond the classroom, with students able to choose from over 130 activities to take part in each week, to discover and develop their interests and talents, and provide service to others. In addition to Duke of Edinburgh, CCF, and Voluntary Action, options range from dance to robotics, e-textiles to sailing – there is something for everyone!

Oakham is an exceptionally caring and vibrant boarding community. Our unique House structure ensures we nurture all aspects of our pupils' well-being during every stage of their Oakham journey. Expertly trained staff support our students, helping them to become resilient and responsible within a home-from-home environment.

Our students leave Oakham as well rounded and confident young adults, who are effective and independent learners, well equipped with the skills and habits of mind to succeed in tomorrow's world.

OIS – Oeiras International School, offers the International Baccalaureate (IB) programme for Years 6 to 13 (ages 11-19), where students with a range of abilities find success.

**Why OIS?**

- We invest in our students. OIS is a non-profit school: all generated earnings are re-invested in the school for the benefit of the children.
- We have individual care and attention to each child – average class sizes do not exceed 18 students, so as to facilitate multi-level teaching and to focus on individual learning styles.
- We have created a supportive, caring environment in which students take responsibility for their own learning process.
- Its beautiful campus and facilities, sports fields, woods and vegetable gardens promote a healthy and challenging environment.

- OIS only hires experienced teachers with degrees and teaching credentials from their home countries.

This non-profit school was founded with a commitment to academic excellence and intellectual rigour. Our intention is to maintain the sense of community and freedom amongst the students and teachers under the IB learner profile umbrella.

For students this means that the school has an innovative and creative character, provides an environment of openness and mutual respect, and develops the individual talents of each and every student. Extracurricular activities focus on creativity and community service. A huge variety of sports and activities is provided, as well as it is meant that every student learns his/her mother tongue as a language and literature subject.

At OIS happy students are taught by committed and contented teachers.

Welcome to Pechersk School International Kyiv!

We are proud of our motto, A Place Where We Belong. Now in our 24th year, PSI is a welcoming and vibrant international school, educating approximately 450 students from about 46 countries around the world. PSI promotes collaboration between students, parents, teachers and staff.

**Mission & Vision**

Our Mission: Pechersk School International is a diverse learning community, which provides an academically challenging programme in a student centred environment. As an IB World School, PSI is committed to developing well rounded, global citizens by promoting personal excellence in the classroom and beyond.

Our Vision: We grow. We lead. We succeed.

**Governance & Accreditation**

Founded by parents, PSI is now governed by twelve parent board members. Eleven are parent elected, and one appointed by the US Embassy. The board meets monthly, with each member serving a three-year term.

Our international accreditations mean that we must maintain the highest possible international standards for teaching and learning, as well as for the facilities, extracurricular activities and the environment that makes us so special.

**Teaching Staff**

PSI ensures that student learning is engaging, relevant, challenging and significant. To this end, our teachers are certified, experienced and committed professionals. The

majority of teachers hold advanced degrees in education and specialist fields from universities around the world. We employ our expatriate teachers from recognised international school recruitment organisations that rigorously screen the background and experience of candidates.

**Campus & Facilities**

The centrally located urban campus hosts three blocks that house our Primary and Secondary Schools, with specialist facilities that provide ample space and flexibility for events, meetings and extracurricular activities.

**Curriculum**

PSI offers an academic curriculum using the authorised programmes of the IB. Our curriculum and activities are annually reviewed for quality and suitability to ensure that we meet the evolving needs of our community.

In addition to our IB World School status, PSI is the only international school in Kyiv to be approved and accepted by the Ukrainian School of External Studies, allowing local students to earn Ukrainian certification.

**Admission & Placement**

We welcome applications for children of all ages and nationalities throughout the school year and will consider all prospective applicants unless it is believed that admission would not be in the best interests of the applicant or the school.

For more information about PSI and to learn about our admissions process, please visit our website ([www.psi.kiev.ua](http://www.psi.kiev.ua)).

QSI International School of Bratislava (QSIB) is a private, nonprofit institution that opened in September of 1994. It offers a rigorous, high-quality American international education in the English language for children ages 2-18. The warm and welcoming community that is QSIB makes it an ideal setting for children to grow in ability with the finest faculty and educational opportunities in Bratislava. Students in the secondary earn stellar results in our International Baccalaureate (IB) and Advanced Placement (AP) Programs.

The brand new state-of-the-art facility (opened in January 2018) is a large, 2-story complex, which has 35 classrooms, a library (over 18,000 titles), two computer laboratories, a gymnasium, an atrium, several outdoor playgrounds, a full-court outdoor basketball court, an artificial grass mini-pitch for soccer, and several offices. QSI International School of Bratislava (QSIB) provides full security for its students, teachers, staff, and visitors with guards, an advanced key card system, and an elaborate security camera network. Partner facilities are found within the nearby Olympic training facility ([www.x-bionicsphere.com/domov](http://www.x-bionicsphere.com/domov)), including indoor and outdoor swimming pools, fitness facility, dance/exercise rooms, track & field, full soccer pitch, gymnastics hall, equestrian course, and movie cinema. Free Shuttle Buses to/from the campus are available from six different locations in and around Bratislava.

QSIB offers the IB Diploma Programme to students ages 16-19, during the final two years (Secondary III & IV). The QSI courses offered in Secondary I & II prepare students to take IB courses. Students may elect to enroll in the IB Diploma Programme as full diploma candidates or as course candidates. Enrollment of students is done through one-on-

one counseling with the Director of Instruction and the IB Coordinator. Prerequisite skills are required for the program, but specific prerequisite courses are not typically required.

QSIB students enjoy a high success rate of 94% passing the rigorous diploma programme with an average score of 31.9 over the last 10 years.

**Kyiv International School** is a private, nonprofit day school, serving Preschool through Secondary IV. The school was founded in 1992 to provide a quality education in English for the children of expatriates living in Kyiv. Parents of its students are primarily employed by large corporations and governments. Kyiv International School is a member of Quality Schools International, a consortium of non-profit college-preparatory international schools with American-style curriculum. QSI has 37 schools in 31 countries. The world headquarters of QSI is in Ljubljana, Slovenia.

**Mastery Learning Philosophy:** Kyiv International School believes in personalized instruction within a positive learning environment leading to mastery of clearly defined objectives. The educational philosophy emphasizes cooperative and collaborative learning, reflection, innovation, and higher-order and critical thinking. Mastery learning prepares our students for the higher-level thinking, reflection and self-motivation that is so fundamental for students engaged in the IB Diploma Programme.

**International Baccalaureate Diploma Programme:**

Kyiv International School has offered the International Baccalaureate Diploma Programme since 2004 and the program continues to grow and evolve through reflection

and review. With more than twenty teachers involved in the IB curriculum and classes, there are varied opportunities for students enrolled in the program. Students are encouraged to enroll in the full diploma program, but also have the opportunity to enroll in classes for IB certificates.

**IB Language Courses:** KIS is proud to offer German, French, Spanish, Russian and Ukrainian which students can study as either a first or second language. We also encourage students to enroll in school-supported self-study of their native language. Students have recently received bilingual diplomas in Russian, French, Ukrainian, German, Italian, and Korean.

**Facilities and location:** KIS is located just 10 km from the city center. The park-like campus includes 95 classrooms (including fully equipped science laboratories to support Group 4 subjects), a learning center, 2 sensory rooms, 3 art rooms, 3 music rooms, a recording studio, 3 computer laboratories, 2 indoor gymnasiums, an indoor pool, a fitness center, a climbing wall, a cafeteria, a snack café, 2 playgrounds, a purpose-built track, an artificial turf soccer field, an artificial turf soccer mini pitch, an outdoor basketball court, outdoor fitness area, other outdoor spaces, and a brand new auditorium with a seating capacity of 350.

At Raha International School, a member of the Taaleem family of schools, we believe that a successful education is all about inspired, imaginative teaching, centred on the learner as an individual. We nurture students not only to achieve academic success but also to become true global citizens. Raha is an International Baccalaureate World School catering for all grades from Early Years 1 to Grade 12. Our school community is made up of over 2,000 students from 80 nations who collectively speak over 45 mother tongues. We pride ourselves on being a big school but a small family!

Situated on 14 acres of beautifully landscaped property in a bustling residential suburb, our campus boasts an abundance of open spaces and play areas. We support our students and rigorous curriculum with state-of-the-art facilities that include; libraries, a purpose-built arts centre and auditorium, sports and training facilities, wellness areas, parent and visitors' café and more.

Raha was the first school in Abu Dhabi to achieve

accreditation in the full IB curriculum. The IB is internationally acclaimed and respected for its relevance in today's multicultural and increasingly global society. We are also the only K-12 school in Abu Dhabi to receive the highest rating of 'Outstanding' from the Abu Dhabi Department of Education and Knowledge for a second time, an amazing achievement for our staff and students.

Our programmes feature an inquiry approach that aligns student interest with what they learn, thereby enriching their natural curiosity and promoting a love of learning. Our team of internationally-experienced, skilled and passionate teachers model the attributes of the IB Learner Profile and encourage students to "respect themselves, other and the world around them". A strong sense of common purpose pervades our learning community. We believe that trust and strong parental participation are an integral part of a quality education and we see parents as our partners in their children's learning journey.

For thirty years, Rome International School (RIS) has meant knowledge, opportunity and discovery both personal and intellectual.

Our mission is to provide a nurturing environment, in which children of all nationalities and faiths can explore and respect their own and each other's cultural and religious heritage. We aspire to equip our students with the skills needed to become life-long learners, so that every child is able to realise their unique gifts and talents and achieve their full potential.

In 2018, RIS joined the NACE family of schools, one of the leading education networks in Europe. This brings many new opportunities for our community. RIS students and teachers will benefit from exchange of best practices and a range of annual art, sports and inter-cultural events with other schools across the NACE network.

We are the only school in Rome authorized to offer both the IB PYP and the IB DP programmes. We are also an accredited centre for the IGCSE, as validated by Cambridge University for the first two years of High School, thereby ensuring the quality and consistency of a truly international education and a passport to the world's best universities.

Our highly specialised and experienced international staff, who represent 19 different nations, are committed to our students' education and are there to support, inspire and motivate students. We are a non-denominational school and welcome students from all cultural backgrounds.

The school actively encourages and rewards academic merit. A range of scholarships and awards are available each year.

We also offer a broad variety of extra-curricular activities where students can develop and promote the attributes of the IB Learner Profile.

Students in Grade 3 have the opportunity to study either Arabic or Chinese within the curriculum, taught by mother tongue teachers. French, Chinese and Spanish language courses are also available as extra-curricular options in Elementary allowing students the possibility to continue these courses in the Middle and High School.

Creativity, physical health and well-being is important for all of our students. Middle and High School students have lessons in Art, Music, Drama and P.E. is taught in all years.

Information Communication Technology is embedded in everyday learning. Students across the school have access to banks of laptops and iPads and the school. A thriving Italian department is present in the school and the didactic activities of our Italian subject teachers are carefully coordinated across the school.

Our school building and campus are specifically designed for 21st century education. Nestled in almost four hectares of natural parkland, our students benefit from ample outdoor play and learning spaces and state-of-the-art facilities. The school is part of the Eco Schools network and proudly flies the Eco School flag.

With a student intake of over 45 different nationalities, Rome International School is the ideal context for a rewarding and progressive educational experience.

**Website**

[www.rossall.org.uk](http://www.rossall.org.uk)

Rossall has been described as ‘a warm, inclusive and remarkably happy place to be’.

Set on an historic 160 acre campus, Rossall is one of the country’s leading independent co-educational boarding and day schools, where boys and girls aged 2–18 are nurtured in a safe, secure and supportive environment.

Rossall currently provides one of the broadest curriculum programmes available in the UK independent school market. Rossall Junior School is authorized to offer the IB Primary Years Programme whilst the senior school continues to follow the British National Curriculum culminating with GCSE/ iGCSE examinations at the end of Year 11. In sixth form, pupils then have the choice to study either A levels or the globally recognised IB Diploma Programme.

Small class sizes and a rigorous tutorial system, ensures academic excellence, with 95% of Rossall pupils entering higher education, at universities around the world.

Rossall’s enviable on-campus facilities include 150 acres of outdoor grassed sports pitches, floodlit all-weather surfaces, a gymnasium, heated indoor swimming pool, Fives courts, shooting range and a newly built Multi-Use-Games-Area. In 2016, Rossall opened its Golf Academy, boasting an indoor golf studio, equipped with the latest video analysis

equipment and GC2 launch monitor/simulator, as well as an indoor putting lab. Rossall also has a Pentathlon Academy in association with Pentathlon GB, and a Football Academy, run by Fleetwood Town Football Club.

The school is also home to the Lawrence House Astronomy & Space Science Centre, the only centre of its kind in Britain, specialising in astronomy education.

In 2019, the school will see the completion of a brand new £4million Sports Centre.

A huge range of extracurricular activities are offered to all pupils throughout the school. Aside from a large number of successful sports teams, pupils can join everything from the world famous Chapel Choir to The Combined Cadet Force. The diverse range of clubs at Rossall ensures that there is something for everybody.

Admitting boarders as young as seven years old, Rossall’s ‘family structure’ provides the framework for its exceptional standards of pastoral care. With major investments recently ploughed into its 8 boarding houses, each house is a well-equipped and comfortable home, which are in the process of being sensitively modernized to the highest standard.

Rossall School is a registered charity (No. 526685) that exists to provide education for children.

## Our Vision

Educating for self-awareness, curiosity and integrity in a changing world

## Our Mission

Our mission is for every student to enjoy their youth. We will do this by providing innovative approaches to learning, by encouraging achievement, by fostering international mindedness with local and global engagement, by modelling ethical behaviour and by acting respectfully and with honesty.

## Our Strategic Goal

To be an exceptional example of an international school.

## Our Core values

- Respect
- Responsibility
- Relationships
- Courage

As a provider of international education, RISS holds a unique position both within the Wolfert School Group and across Rotterdam and the Netherlands. Partly private and partly state subsidised, it exists to service the growing need the city has for high quality international education for foreign nationals or returning Dutch citizens, one that is not based on privilege or exclusivity.

While many schools claim to be international simply because of the curriculum they offer, RISS is a genuinely comprehensive coalition of teachers and students drawn from across the globe. What unites us is a common belief in the importance of an inclusive, culturally diverse, child-centred, enquiry-driven education that not only prepares young people for university and life beyond but that ensures young people actually enjoy their youth too.

With a new internationally-minded vision, RISS is at an exciting time in its life, proud of its compelling new strategic plan that prioritizes foundation years to ensure the highest standards of pastoral care and instruction for all our students. RISS is also accredited by the Council of International Schools (CIS), the Cambridge International Education Board and the International Baccalaureate Organisation. RISS students are well placed to go onto a variety of institutions of higher learning worldwide. With English as the language of instruction, students are also encouraged to continue to study their own language and sit their own language examinations and, of course, study the Dutch language too.

[www.rydeschool.org.uk](http://www.rydeschool.org.uk)

The school has an excellent record of academic achievement throughout all age groups and was the first independent school in the UK to offer the IB Career-related Programme alongside the IB Diploma Programme and our linear two year A Level Plus Programme, through which pupils study for A Levels but also take advantage of the IB courses on offer and add them as enrichment options. We also offer a one year GCSE and Pre-Sixth Form course providing excellent preparation for entry into the Sixth Form.

Year after year pupils leave to go on to study at Oxbridge, medical schools, other Russell Group Universities and Art, Music and Drama colleges. Pupils succeed academically and are well-mannered, characterful, happy and independent; a result of Ryde School's dynamic yet welcoming environment.

Our pupils benefit from an extensive range of excellent resources and extra-curricular activities. Sailing is on the curriculum in both the Junior and Senior Schools and has a strong focus throughout the school. In addition to the extensive academic, creative arts and sporting programmes, the location of our school enables us to offer a full extra-curricular programme including fencing, riding and water sports.

Situated in a beautiful, safe and idyllic island setting just off the South Coast of England, Ryde School with Upper Chine (known locally as Ryde School) is a thriving, prosperous independent day and boarding school for boys and girls aged 2.5 to 18, providing exceptional educational opportunities in a nurturing environment – helping them to be resourceful and resilient in the face of challenge and change.

Just ten minutes by Hovercraft from the mainland, the school and both junior and senior boarding houses benefit from being near high-speed sea, rail and air links to regional, European and international destinations and the school is minutes from Cowes, the home of international sailing.

Constantly investing in the future of our pupils, we have recently updated the science labs and libraries, the Sixth Form centre and added a new Sixth Form boarding house offering flexi, weekly and full boarding options, helping pupils to learn to adapt to more independent living and study. The aims of Ryde School as embedded in the school motto, 'Ut Prosim', have always been focused on service to others, and our Sixth Formers are encouraged towards self-knowledge, good governance, academic excellence and leadership in order to contribute positively within their chosen fields.

St. Dominic's International School, Portugal, is a highly respected and well-known international school. It is the only school in Portugal authorised to offer three of the International Baccalaureate Programmes: Primary (PYP), Middle (MYP), and the Diploma, and is celebrating its 22nd year as an IB World School.

Our commitment to the IB and its programmes is at the core of SDIS' educational philosophy of 'Nurturing and Educating International Minds'. The IB programmes encourage students to question perceived truths and beliefs and reflect on their place in, and contribution to, the society in which they live. The principle of inquiry based learning ensures that students develop into independent learners, equipped to embrace both the challenges and opportunities they will face throughout their lives. Situated 15 kilometers from central Lisbon, in the district of Cascais, St. Dominic's is a private, non-selective, coeducational day school serving students aged 3 to 18 years in the international community, through the medium of English. We currently have 58 nationalities amongst our student population, making us a truly international school. The school is housed in three one-storey buildings. In addition to 48 classrooms, it has a

self-contained nursery and kindergarten for our youngest students, two gym halls, three art rooms, two libraries, five science and technology laboratories, two music rooms, a drama studio and a multi-faith meditation room. Our ICT facilities include both dedicated ICT suites as well as portable devices. We have an excellent reputation for sport, and have facilities for football, basketball and volleyball on site; a wide range of other sports are played using outside facilities. The junior school offers: English, Portuguese, mathematics, social studies, information technology, art, music, PE and social education through the curriculum of the PYP from nursery to grade 5. In the senior school, students in grades 6 to 10 study the MYP, and in grades 11 and 12 we prepare students for the full diploma or for diploma courses. Our students go on to study at prestigious universities and colleges around the World. Classes begin in early September and run to the end of June with breaks for Christmas and Easter and shorter mid-term breaks. The teaching day is from 8:30am to 3:30pm, with a wide range of extra-curricular and co-curricular activities offered after school to support the holistic development of our students.

The School of Young Politicians (SYP) is a Russian state school located in the Western administrative district of Moscow. It is currently one of the first state schools in Eastern Europe to realise then IB continuum programme alongside the national curriculum. The students have a rare opportunity to receive two Diplomas, both the IB and Russian state.

A great emphasis is placed on selecting the teaching staff: all of our teachers are university graduates with international qualifications from Russia as well as other countries from around the world (currently the UK, USA, Australia, India and France). The school offers them ongoing professional training both in Russia and abroad.

The student body, aged between 3-17, is comprised of children from 44 nationalities. This fact provides for a very international environment that ensures cultural diversity and an ethos of tolerance as well as an open-mindedness beneficial to the educational process.

The school sees its mission as raising holistic life-long learners who care about the world around them. Therefore we offer a wide range of subjects and rigorous assessment as well as a huge variety of extra-curriculum activities such as choir, ballroom dancing, sport dancing, drama classes in English and Russian, robototechnics as well as many others. The school also offers many unique activities as monthly meetings with distinguished people who have achieved public recognition in various fields of life – writers, musicians, philosophers, sportsman, entrepreneurs etc. In addition, the school runs a Club of Young Politicians, where active politicians are invited to speak, discuss and debate

burning issues from the world of politics, economics and international relationships.

We don't only pay attention to theoretical knowledge but also put emphasis on transferring this knowledge into real-life situations and making its application practical. To realise this, the school is well equipped with libraries, science laboratories, a botanic garden, both indoor and outdoor sport stadiums and other sporting facilities, dance halls, choreography classrooms as well as a fully-equipped theatre and cinema halls. Each classroom is equipped with interactive white boards and projectors.

Specifically in the arts field the school hosts an annual international arts festival that encourages and promotes theatre, dance and choral singing. A top panel of judges and professionally offered workshops and masterclasses offer students both a competitive and supportive experience that culminates in public performances in a prestigious Moscow theatre.

The school plays a vital role in the life of the community. Children initiate and realise various projects addressing the needs of disadvantaged children, war veterans, victims of domestic abuse and others in need. As volunteers they support the work of several charity organisations, initiate fund-raising activities and other socially important campaigns.

During its seventeen years the school has been nominated for numerous awards and prizes. A recent special independent survey published in Tatler magazine called our school "unique". It offers a happy, productive environment for children to learn.

Schule Schloss Salem is Germany's most prominent boarding school. Founded in 1920 by Kurt Hahn, who was also one of the key figures in the creation of the International Baccalaureate Diploma programme, Salem aims at challenging its students by means of high academic and extra-curricular expectations and opportunities.

**Location**

Salem comprises two beautiful castles and one modern campus situated on the north west shore of Lake Constance, one of Europe's most beautiful cultural regions.

Austria, Switzerland and the Alps are also within easy driving reach.

**Profile**

- State recognised grammar school for years 5-12
- Qualifications: Abitur (German national university entrance qualification) and International Baccalaureate IB, Diploma Programme, years 1 and 2.
- German's largest boarding school, offering 600 boarding school places for both boys and girls.

**Boarding**

Schule Schloss Salem offers accommodation in traditional architecture and modern design. The students share their rooms and for each house group there are kitchens, common rooms and studies.

**Curriculum**

From year 8 onwards, Salem offers a dual curriculum.

Students from over 40 nations across the globe may either continue their education in the German Abitur system or

enter international classes which are taught in English, providing an ideal basis for the IB Diploma.

With class sizes averaging just 15, teaching prepares students for individual thinking and self-initiated learning. Salem offers an exchange programme with more than 50 top boarding schools worldwide and university entrance is internationally oriented. Our graduates attend many highly regarded universities in the UK, US, mainland Europe and beyond.

**Boarding life**

Involvement in extra-curricular activities and the intense life of the boarding school community count as much as academic achievement. All students from year 9 onwards engage in weekly community service and all students follow a regular programme of sports/outdoor pursuits. Participation in cultural activities such as theatre, music and visual arts is also strongly encouraged.

In Salem we believe that if students are to internalize the democratic ideal they need to live it for themselves. Therefore many of the responsibilities for the everyday running of the school are, according to their age and the ideas of Kurt Hahn, placed in the hands of the students. School regulations are framed with the consent of the student parliament.

Our educational philosophy at Salem is to develop students that are personalities who respect others, feel responsible for their environment and have internalized the democratic ideal.

Located on the seashore and adjacent to the Punta Entinas Natural Park, in Almería, SEK International School Alborán is considered one of the best bilingual schools in Andalusia, and the only one in Almeria that offers three IB International Baccalaureate Programmes, from 3 to 18 years of age (Primary Years Programme – PYP – for Early Childhood Education and Primary Education, Middle Years Programme – MYP – for Compulsory Secondary Education and the Diploma Programme, either bilingually in English and Spanish or fully in English). The school offers the International Baccalaureate Programme in close coordination with the Spanish education system.

For SEK Education Group, to which SEK-Alborán belongs, physical fitness and respecting one's health are an essential part of the learning process. SEK-Alborán has extensive recreational areas, and 28,000m<sup>2</sup> of outdoor spaces, as well as extensive sports facilities and a heated indoor pool. Its classrooms are equipped with cutting-edge technology (makerspace, video recording and editing spaces, radio,

3D printer, robotic tables, TED ED Club). It is considered a standard in educational innovation in Andalusia.

Social and emotional learning programmes are of particular importance in students' curricula to foster the resolution of social and personal problems. In the Intelligent Classroom, each student progresses according to their potential, working in teams and having individual efforts rewarded. Teachers and tutors are afforded an open space for dialogue with students and parents both in-person and online. Students can take advantage of the Flipped Classroom to work on content and tackle issues from a 360-degree perspective, solving doubts with their teachers and learning by doing.

SEK-Alborán offers a bilingual Spanish-English education that is incorporated progressively over all educational stages (50% of the subjects are taught in English). The school is the only Cambridge English School in Almeria, and in addition to preparing official Cambridge exams, students also prepare Goethe Institut (German) and Alliance Française exams.

SEK Education Group, to which the SEK International School Atlántico belongs, offers all educational stages, from 4 months to 18 years of age. SEK-Atlántico is the only school in Galicia authorised to teach three International Baccalaureate Organisation programmes (PYP, MYP and DP).

SEK International Schools are committed to offering each student a learning experience focused on personal perfection, preparing for success in later life. Very close to Pontevedra and Vigo, between the sea and the mountains, SEK-Atlántico boasts modern and functional school spaces and buildings.

Students are afforded a bilingual education and learn to live with other cultures from an early age. The school places great importance on students' oral and written expression, fostering fluent and correct expression in different languages. Considered a standard in educational innovation in Galicia, SEK-Atlántico offers learning in Galician, Spanish, English and French from year 3 of Primary.

The SEK education model is based on a shared principle for

all years: the leading role played by students. They discover for themselves, build and organise their own knowledge, with expert mediation from teachers.

SEK-Atlántico students share facilities designed for their physical, social and creative development: makerspace, psychomotor skills classroom for the little ones, dining room, laboratories, music and painting room, library, language classrooms, Learning Lab and large indoor and outdoor sports areas.

Technological spaces are integrated in the day to day of the school and are designed to make the most of their possibilities: absolute portability, tactile use compatible with any space (floor, carpet, table, etc.) and use of keyboards in netbooks and laptops.

From the second year of Primary to Baccalaureate, SEK-Atlántico students prepare for their Cambridge University Examinations. As of Secondary school and in Baccalaureate they can also opt to take the Alliance Française *Diplôme d'étude de langue française*.

catalunya.sek.es

SEK International School Catalunya is a multilingual school, with English, Catalan and Spanish as languages of instruction. Over all educational school stages, 50% of the curriculum is in English, 25% in Catalan and 25% in Spanish. Starting from year 5 of Primary, students begin studying a fourth language: French or German.

Located in La Garriga and at the foot of the Montseny Natural Park in Barcelona, it offers a quiet and safe residential environment on school grounds spanning 100,000m<sup>2</sup>. The spaces are at the service of learning objectives, so the forest of pines, holm oaks and ferns becomes an extension of the classroom.

At SEK-Catalunya knowledge is acquired through the exploration of concepts, research and the development of skills that encourage critical thought and creativity. Learning by doing is the concept of practical, experiential, collaborative and thoughtful learning. Students are given relevant coursework that reflects real-life, such as the organising the SEK-Business Expo.

The school offers a balanced education featuring sports,

the promotion of understanding, natural and responsible use of technology, development of emotional intelligence, community service integrated in the learning process and visual arts, music and drama as a means of foreign language expression.

Pioneer in Catalonia in offering three International Baccalaureate programmes, SEK-Catalunya encourages students to be inquiring, international, critical and open-minded to ensure admission to the best universities from around the world. The school offers the Primary Years Programme (PYP), the Middle Years Programme (MYP) and the IB Diploma (DP). In addition, it offers its Secondary School and Baccalaureate students the opportunity to take part in the prestigious Duke of Edinburgh's International Award. An all-round personal development scheme focused on the development and training of skills such as: Leadership, audacity, autonomy, problem solving and teamwork.

In addition, SEK-Catalonia has been presented the CIS (Council International School) international seal that endorses the excellence of schools throughout the world.

SEK International Schools are committed to offering each student a learning experience focused on personal perfection, preparing for success in later life. SEK Schools are bilingual and pioneers in offering International Baccalaureate programmes, boasting an educational model that has made a tradition of innovation and placing them among the best schools in Spain since their foundation in 1892. SEK International School Ciudadcampo offers the Primary Years Programme – PYP – for Early Childhood Education and Primary Education, Middle Years Programme – MYP – for Compulsory Secondary Education and the Diploma Programme – either bilingually in English and Spanish – or fully in English and the Spanish Bachillerato LOMCE.

SEK-Ciudadcampo offers an innovative educational model based on early stimulation, 100% immersion in English and the development of talent and creativity in a digital environment that favours the development of emotional intelligence.

Through an active methodology, SEK-Ciudadcampo turns the classrooms into a flexible place for all students. The student goes from being a mere spectator to an active agent, building learning for themselves. The Design Thinking methodology helps students to develop skills like cooperation, creativity and innovation.

The TeamLe@rning space allows students to experiment and improve their social skills and develops their curiosity and critical thinking. Under the motto Learning by Doing, SEK-Ciudadcampo's MakerSpace is the first school ideas lab in Spain. In this space resources and knowledge are shared with over 300m2 devoted to innovation, creativity and student talent.

SEK-Ciudadcampo boasts the CIS (Council of International Schools) accreditation and is the first Spanish school to be recognised as a global member of Round Square.

Studying at SEK International School Dublin is much more than just going to school. It is a learning experience that fosters the development of students' intellectual, personal, emotional and social skills and affords them an international perspective.

SEK-Dublin International School is located in an exclusive setting, between the towns of Bray and Greystones and just 30km from Dublin. The school blends traditional architecture with the most cutting edge technology in a space spanning over 250,000m<sup>2</sup> where sports facilities play a leading role.

SEK-Dublin International School was founded in 1981, and since then over 4,000 students between the ages of 12 and 16 have been taught by its Irish and Spanish teaching team. The school offers next-generation learning technology, the chance to live with carefully selected local families and an education programme meeting SEK Schools rigorous quality standards.

SEK-Dublin is the first school in Ireland to be authorised

by the International Baccalaureate Organisation to teach its Middle Years Programme.

We are aware that education does not only take place in the classroom, therefore, SEK-Dublin International School offers numerous and varied extracurricular and cultural activities that ensure students' all-round personal and academic development.

Students at SEK-Dublin enjoy football, golf, horseriding, rugby and an arts school offering piano, drama and expression and Irish dance. As well as sports, the school offers outings to concerts, museum visits (The Natural History Museum and The National Print Museum), visits to historic cities (Cork and Belfast) and participation in major events outside school grounds, providing a unique opportunity to appreciate the local culture.

All of this affords an exceptional added value to an experience that, without a doubt, contributes to students' all-round development as future citizens.

SEK El Castillo offers an international education focused on innovation, professional development and the willingness to adopt new ideas. The SEK educational model is based on knowledge acquisition through the exploration of concepts, research and the development of skills that encourage critical thought and creativity. SEK students learn all those skills and abilities that will permit them, throughout their lives, to be autonomous, self-assured and able to learn independently.

To ensure the all-round development of our students, we aim to offer a balanced education over all stages, from 4 months to 18 years of age, that places particular importance on sports, the development of technological skills and those related to social and emotional intelligence, community service and artistic expression.

SEK-El Castillo is a pioneer in obtaining the accreditation to teach the PYP, MYP and DP International Baccalaureate programmes. Furthermore, it has been accepted as a candidate to be accredited in teaching the fourth International Baccalaureate programme (Career-related

Programme or IBCP). It will be one of the 131 schools around the world and the second in Spain to obtain it.

The University Baccalaureate methodology is based on the Flipped Classroom concept, which promotes the acquisition of information outside of class time. The school received accreditation from the CIS (Council International School), international label that guarantees the excellence of schools throughout the world.

SEK-El Castillo is a fully international school and proof of this are the more than 15 nationalities that share its classrooms and live together in its boarding houses for girls and boys. The school also offers tailored and individual high-performance sports programmes through SEK International Sports Academy, an innovative and unique programme in Spain to support young athletes that allows all-round sporting, academic and personal development from primary education to university studies. It boasts first-rate sports facilities, with over 40,000m<sup>2</sup> devoted to sports.

SEK International School Qatar was founded in 2009 within the framework of the Outstanding Schools Programme of the Ministry of Education of Qatar. The school today caters for students from over 50 nationalities and boasts teaching staff from over 25 different countries. The school is a modern coeducational, international and multilingual school in Qatar and boasts a cutting-edge learning campus located in the trendy West Bay district of Doha. English is the language of instruction, but it also offers Spanish and Arabic courses for all its students.

SEK-Qatar teaches the International Baccalaureate Organisation (IB) programmes, from pre-school to grade 12. SEK Schools use the IB curricular framework, which combines a rigorous curriculum with a methodology that fosters the development of skills. The International Baccalaureate Organisation offers international teaching programmes to a community of prestigious schools worldwide.

In its 126-year history, SEK Education Group has stood out as a pioneer in introducing to Spain innovations such as the classroom without walls, maker spaces, the SEKMUN United Nations model applied to education or the International Baccalaureate Organisation programmes. Since its foundation in 1892, SEK Group has launched over a hundred pioneering initiatives in Spanish education.

SEK-Qatar boasts its own educational model that is committed to offering quality education that seeks to promote individualisation, places emphasis on learning rather than teaching and fosters activity and effort, freedom, interaction and teamwork and improvement. Technology, sports and artistic and social activities also play a major role in the SEK educational model. The ultimate goal is for students to acquire skills and knowledge to become citizens determined to build a better world.

SEK International School Santa Isabel is one of the 9 schools making up SEK International Schools. Located in the centre of Madrid, it teaches the International Baccalaureate Primary Years Programme (PYP), the only school in Madrid authorised to teach this IB programme, and the Middle Years Programme (MYP).

Set in a district full of history and culture, the school has flexible and innovative environments that allow collaboration and teamwork between students and teachers, and is fitted with all the resources necessary for learning.

SEK-Santa Isabel teaches Early Childhood Education and Primary Education. The school is bilingual, with 65% of the day in English. The teaching staff is native-English speaking or bilingual, with extensive experience and training in English-speaking countries. In addition, the school also prepares its students to take external language certifications.

The school has a spacious gym on school grounds, as well

as outdoor areas for sports such as swimming, tennis and padel tennis, football or basketball.

SEK-Santa Isabel students are part of a Virtual Learning Community 2.0, equipped with the necessary resources and devices for connected learning and including all the knowledge available on different platforms and devices (iPads, digital whiteboards, laptops, notebooks, wifi or Live@edu spaces, among others).

SEK-Santa Isabel teaches students all the skills they will need to be successful in the third millennium: education in values, emotional intelligence, mindfulness, multiple intelligences, public speaking and debate and a makerspace.

Another of the school's objectives is to discover the talents of its students early on and nurture them through its Stellar Programme for high-achieving students, with the aim of enriching their personal development.

www.sevenoaksschool.org

Sevenoaks is one of the leading schools in the UK, providing an outstanding modern education. All 400+ students in the sixth form study the IB Diploma Programme, which the school has taught since 1978. The leafy 100-acre campus is in the Kent countryside, just half an hour from Central London and Gatwick Airport. International students make up around 20 per cent of the student body and the school provides pupils with a balanced and intellectually stimulating education while promoting global understanding. Pastoral care is consistently excellent, enabling friendships between all members of a peer group to flourish. Sevenoaks was named as *The Sunday Times* Independent Secondary School of the Year for 2018.

**Curriculum**

A wide range of subjects is offered at GCSE, IGCSE and the school's own Sevenoaks School Certificate. In the sixth form all pupils study the IB Diploma Programme. Academic results are outstanding. In 2018, 12 students gained 45 points in the IB, and the average score was 39.5 points (ten points above the world average). Virtually every student goes on to one of the world's best universities, with around 80 per cent taking places at leading UK universities, and up to 20 per cent accepting places at top US, Canadian, European and international universities.

A wide range of sport is offered, and pupils achieve honours in cross country, rugby, football, hockey, netball, cricket,

athletics, sailing, shooting and tennis. There is a strong emphasis on music, drama and art, with chamber music a particular strength. The school is proud of its strong tradition of community service and DofE Award participation.

**Facilities**

Facilities are first class. Recent developments include a sports centre, an award-winning performing arts centre, a Science & Technology Centre uniting the four core fields of science, and an innovative Sixth Form centre. There are seven boarding houses, including five single-sex houses (13-18), and two sixth form houses (16-18). Accommodation ranges from a charming Queen Anne house to a modern building with contemporary social spaces and en-suite study bedrooms.

**Entrance**

Year 7 (11+): entrance examination, school reference and interview.

Year 9 (13+): pre-assessment, entrance examination or Common Entrance or scholarship examination, plus school reference and interview.

Sixth form (16+): entrance examination, personal statement and interview.

Up to 50 scholarships are awarded annually at 11, 13 and 16, for academic excellence, music, sport, art and drama, and means-tested bursaries are available.

*Sevenoaks School is a registered charity for purposes of education. Charity No. 1101358.*

**Sotogrande International School (SIS)** is a day and boarding school, which follows the IB programme from 3-18 years. Home to a passionate learning community who inspire and encourage learning and intercultural understanding, promoting education as a force for good in the world.

With more than 980 children from over 44 countries, SIS provides a challenging, nurturing and academically rigorous International Education. Throughout the IB programmes teachers aim to combine academic excellence with extraordinary educational experiences. Embracing the creative use of technology and authentic service experiences students are encouraged to think independently and critically, developing their own unique interests, gifts and talents and to take opportunities to be the best they can be.

### Academics

As an Apple Distinguished School, the use of technology is embedded in the curriculum for all students from the age of 3, while the F1 in Schools programme and the Hyperbaric Challenge provide an exciting way for students to learn Science, Technology, Engineering and Maths (STEM) related subjects.

Music and Expressive Arts students perform at a wide range of events and are prepared for examinations with the Associated Board of the Royal Schools of Music, Trinity Rock School and the London Academy of Music and Dramatic Art (LAMDA). The outstanding sporting facilities, including

a covered swimming pool, sports pitches, running track and sportshall, provide many opportunities for students to compete in team and individual events.

Aspiring sports students have the opportunity to couple an outstanding education with pursuing their dreams of playing sport at the highest level with the Academic Centres for Excellence in Sport (ACES) programme. Working in conjunction with professional golf and tennis academies elite sports students are given the best possible chance of gaining university scholarships.

Academic results are consistently excellent, with both MYP and Diploma students achieving well above world average scores year after year. 2018 saw ten of our students receive an impressive 40+ points, with two achieving a perfect score of 45.

Supported by the Universities and Careers team, students go on to study at some of the best universities in the world.

### Boarding

Sotogrande International Boarding House is a warm vibrant community, where the staff are dedicated to caring for, and getting the best out of each individual.

Providing exceptional accommodation, academic support and an outstanding array of extracurricular activities, Sotogrande International Boarding House is an incredibly rewarding and enriching environment in which to live, grow and study.

If you are looking for a top Sixth Form offering the IB Diploma programme, then look no further – St Edward's College in Birgu, Cottonera is only a few minutes from Malta's Capital, Valletta. St Edward's was established in 1929, basing itself on British Public School ideals, to fill the void left in the Maltese education system by the departure of the English Jesuits.

The College site originally served as a Military Hospital and has extensive grounds between the bastion walls and the old hospital buildings, which serve as ideal recreational areas. St Edward's College was authorised to offer the International Baccalaureate (IB) Diploma Programme (DP) commencing September 2009 and following successful years, applications for boarders and day students have been increasing.

Between the age of 16 and 18 we offer the 2-year International IB Diploma programme which is recognised by both local and international universities. The IB was designed to meet the needs of these students to ensure that they can effortlessly integrate into different International Schools when the need arises.

After carefully looking at the options available to Maltese

students we reached a conclusion that the IB Diploma would also be their best option.

The International Baccalaureate® (IB) aims to do more than other curricula by developing inquiring, knowledgeable and caring young people who are motivated to succeed.

The College is an English speaking school so all the lessons are conducted in English.

St Edward's offers a unique opportunity for parents seeking a boarding school also. We have five-day and seven-day options. Our boarding facilities are split over two floors where single and double rooms are available.

- The school operates on British boarding school principles with high academic standards
- The location and environment are superb with year round sunshine on a Mediterranean island
- Malta is within 3 hours of any European capital city by air
- The IB Diploma is recognised by all top universities
- Our fees offer some of the best value of any European boarding schools

Come and join our students on the IB Diploma Programme!

### St Edward's

The number of pupils choosing to study the IB at St Edward's has increased significantly in recent years. We now have an excellent balance in the Sixth Form between the IB and A Level, with candidates for both qualifications achieving equal levels of success. IB candidates at St Edward's are part of a friendly, engaged academic community where there are countless opportunities to try out new things and get involved. The School sits on a vast 100-acre estate, complete with riverside boat house, pitches, courts, sports complex and arts centre – yet is only a 5-minute bus ride away from the centre of one of the most famous university cities in the world.

#### Oxford

Being so close to all the amenities and attractions of Oxford is of enormous benefit to our pupils. The city's rich architectural history and the University's global reputation for scholarship are an intoxicating combination. Venues such as the Ashmolean Museum, the Oxford Playhouse, The Museum of Modern Art and Blenheim Palace offer important learning opportunities – but also welcome distraction from the busy school day. In Oxford, pupils can attend talks and lectures by notable speakers at countless venues across the city. Pupils enjoy being part of this international cultural and intellectual community.

#### Sixth Form Achievements

Over the past five years, IB candidates achieved an average point score of 36. In 2018, 85% of all Higher Level grades were

Levels 5-7. Each year, a number of pupils are awarded places at Oxford and Cambridge whilst the majority (around 85%) go on to top universities in Britain and overseas. Pupils are increasingly interested in studying outside the UK and we have considerable experience in this area. In recent years, pupils have gone on to study at US and Canadian universities including Dartmouth, UCLA, McGill, Northeastern and NYU's Tisch School of the Arts. Pupils have also been successful in their applications to universities in Hong Kong, Japan, Ireland and elsewhere in Europe.

#### Pastoral Care

The pastoral care system at St Edward's has long been regarded as one of the school's great strengths. Underpinned by a highly effective network of relationships, the system offers distinct but interwoven levels of care. An active Overseas Pupils' Committee organises a lively calendar of events to celebrate our rich cultural diversity and to ensure that our international pupils find their niche and feel at home.

#### The School and the Admissions Process

St Edward's has around 700 pupils, 85% of whom board. The boy/girl split is 60%/40%. The Sixth Form has around 285 pupils, some 25% of whom are from overseas (15% overseas across the school). Entry to the Sixth Form is competitive with around 4 applicants per place. Academic Scholarships are available at 13+ and 16+ entry, as well as further awards in Music, Sport, Art, Drama and Dance.

**Website**

www.stgeorge.school.it

St George's British International School was founded in 1958, in order to provide an outstanding British education to Rome's international and expatriate families. Today, St George's is one of the leading UK-curriculum schools in continental Europe, and educates boys and girls from ages 3 to 18. Since 1996, pupils have undertaken the IB Diploma during their final two years of study.

**Academic Excellence**

St George's is a non-selective school that gives priority admission to international families. Emphasis throughout the curriculum is on developing academic excellence in every child, and results are consistently outstanding: in 2018 the average IB Diploma score was 35.4 points. Nearly all St George's graduates go on to attend leading universities, primarily in the UK, USA, Canada and Australia. Recent destinations have included Cambridge, Oxford, UCL, Imperial, London School of Economics, Stanford and Berkley.

**Truly International**

A total of 77 nationalities are represented amongst the diverse student cohort. Approximately 30% of pupils hold British passports and 30% hold Italian passports. Other nationalities with large representation include American, Chinese, Indian, German, Spanish, Dutch and Russian. New pupils are welcomed throughout the year.

**Teaching and Support**

Most teaching staff are British and have trained in the UK. There is a large specialist support team for students with additional educational needs, and for whom English is an additional language. The core curriculum is supplemented by a wide-range of off-site visits, to destinations around Italy and beyond.

**Expansive Facilities**

The school's main campus is a leafy and spacious 14-acre site in the North of Rome. Facilities include seven fully-equipped science labs, a drama studio, specialist teaching rooms for music, art and design technology, two multi-purpose 4G AstroTurf pitches, tartan running track, cross-country trail, tennis, basketball and volleyball courts.

**Beyond the Classroom**

Pupils at St George's are always encouraged to try new activities. Music is a lively department with a full orchestra, jazz band, percussion group and a range of choirs. Drama is popular, with various productions running throughout the year. Sports teams include football, rugby, hockey, volleyball, basketball and tennis. Other clubs include MUN, Environmental Awareness and Zambian Orphans Appeal, a charity established by the school.

**Website**

www.stleonards-fife.org

St Leonards is an independent, coeducational boarding and day school in the heart of St Andrews. Less than an hour from Edinburgh Airport, this special Scottish coastal town is renowned as the home of golf and Scotland's first university.

St Leonards is a progressive yet traditional British boarding school with the benefit of an international outlook. It welcomes pupils from around 27 nationalities, with boarding from age 10.

Boarding houses are stylish, comfortable, with a 'home-from-home' warmth. Many bedrooms have inspiring views of the sea beyond the pitches and playing fields. Class sizes are small and teachers know each student as an individual. A lively academic ethos encourages pupils to explore ideas and develop their thinking, enabling them to form ways of learning that last for life.

**Curriculum**

Pupils are welcomed from schools across Scotland, the UK and internationally. Children also move up from St Leonards Junior School, which received accreditation in 2018 to teach the PYP curriculum, and progress through the Middle Years to IGCSE and GCSE exams in Years 10 and 11. Everyone in Sixth Form studies the IB Diploma Programme, so each student follows a curriculum tailored to his or her individual requirements. In addition, a BTEC in Business combined with IB courses was introduced in August 2018 as a more vocational option for students in the Sixth Form.

St Leonards leads the way with its IB provision in Scotland

and has excellent links with universities. The school recently held a conference on the IB, attended by Scotland's universities' admissions staff, and hosts annual Universities Fairs featuring UK and international higher education institutions.

Last year, 100% of St Leonards leavers who gained a place at university were offered their first or second choice. 83% achieved the equivalent of A\*/A/B at A Level. The average points score was 33 – an excellent outcome in an all-IB Sixth Form that welcomes students with a range of academic abilities.

Elite, development and beginner golf programmes are offered, as well as activities including music, drama, art, sailing, outdoor pursuits and equestrian sports; with our own livery, students are welcome to bring their own horse. The school fosters an imaginative choice of projects for the CAS component of the IB. Recent examples include teaching languages to younger children, tree-planting, singing at community events and a sunrise swim in the North Sea for charity.

**Entry requirements**

Tests and interviews are held throughout the year. Entry into the IB Diploma Programme is by the school's own examination, along with school reports and interview. A Pre-IB programme is offered, usually for one year before a student starts sixth form.

St. Mary's School is a private Catholic Day school founded by the Holy Ghost Fathers in 1939. It is owned and managed by the Catholic Archdiocese of Nairobi which is committed to promoting spiritual, intellectual and international consciousness through its various Educational Programmes. In September 2014, the school celebrated its Diamond Jubilee Anniversary. The school philosophy is based on the school motto: Bonitas – Goodness, Disciplina – Discipline, and Scientia – Knowledge. These three inspiring virtues, have created the community-spirit of St. Mary's today.

The school prides itself with a modern cafeteria department that provided hot meals to students at reasonable prices. We also have a well-managed transport system that serves most areas around Nairobi.

St. Mary's has well-equipped libraries and computer laboratories with Wi-Fi internet connectivity, a careers counselor, well organized yearly Careers Fair and a weekly Pastoral Programme for students of all denominations.

The school offers a range of sports like rugby, soccer, basketball, swimming, squash, table-tennis and lawn-tennis. We hold renowned yearly events like The Blackrock Rugby Festival and the Annual School Musical. Students are also encouraged to participate in inter-house drama and debating competitions.

Students may also join the school Orchestra, undertake the ABRSM Music examinations in the Cardinal Otunga Music Center or participate in the East Africa Model United Nations as delegates or Ambassadors. Community service is expected of all those in the Diploma programme under the auspices of the Diploma Core – CAS. Students engage in service activities at New Life Home, Nairobi and Kenyatta Hospitals and at St. Martin's School Kibagare, in Kangemi slums.

There has been a growing demand for admission to the International Baccalaureate Diploma Programme. Over 50 students now sit for the IB Diploma each year and about 90% of them proceed for university education, in the USA, the UK, Canada, Australia, Kenya and other world class universities. The concept of Global mindedness is entrenched in the programme and the IB learner profile is emphasized as important attributes in the formation of learners. Subjects are interdisciplinary with common themes that are highlighted through the Approaches to Teaching and Learning.

The school is proud that it offers a holistic education founded on the belief that education is for the growth of the whole person in body, mind and spirit.

St. George's International School, the first international school with British traditions in Switzerland, was founded in 1927. With the motto 'Levavi Oculos', the school offers an open-minded education both in and out of the classroom. The school's Learning Principles closely relate to the IB learner profile and students are challenged to become more curious, thoughtful, resilient, reflective, collaborative and balanced.

The school provides a 'Home away from Home' to approximately 80 boarders and over 300 day students from 60 different nationalities. Nestled between the Alps and Lake Geneva, the school includes tennis courts, football field, sports hall, play parks and opened landscaped grounds. During winter students ski and in the summer they make use of the lake, surrounding countryside and local sports facilities.

The curriculum contains the following subject groups:

**Groups 1 & 2: Languages**

Students usually select from English and French. Spanish, German, Chinese, Russian and other languages as part of the mother tongue Literature self-taught programme are also possible.

**Group 3: Individuals and Societies**

- Economics
- Geography
- History
- Environmental Systems and Societies
- Business Management

**Group 4: Experimental Sciences**

- Biology
- Chemistry
- Physics
- Computer Science
- Environmental Systems and Societies

**Group 5: Mathematics**

St. George's offers Maths to higher and standard level as well as Maths studies.

**Group 6: The Arts (or elective subject)**

Students can follow courses in either Visual Arts, Music or Theatre Studies.

Alternatively students may follow a second subject chosen from Groups 2, 3 or 4.

St. Peter's International School is the most recently authorized IB World School in Portugal, offering the IB Diploma Programme. With approximately thirteen hundred students in total, from the age of 4 months to 18 years old, the school has consistently been placed in the top positions in the national league tables and has been considered the best in the region for various years. Founded in 1993, St. Peter's International School continuously aims to provide the highest quality in education, contributing to the most complete personal development of our pupils.

St. Peter's International School currently offers a National Curriculum (Portuguese) and an International Curriculum, where pupils can study the International General Certificate of Secondary Education (IGCSE) in a variety of subjects.

In a world that is constantly changing, in which society lives at an ever-increasing pace, the school's mission is to build self-reliant, critical, creative students, who have the necessary skills and abilities to perform well at a personal, social and professional level, allowing them to pursue their studies, benefitting from an active and significant integration into a rapidly changing and increasingly globalized society.

Considering the cosmopolitan spirit of the school, in which

students of different nationalities work together, the English language acquires particular importance in our educational context, present in the syllabus from kindergarten to secondary school. The acquisition of other languages is also vital, including Spanish, German, Mandarin and Latin, helping students gain an in-depth understanding of different worldviews and an insight into diverse cultural realities.

The school also aims to develop an appreciation of various art forms, different physical activities and sports, by offering a myriad of extracurricular activities and clubs to all our pupils. The facilities also allow students to develop other areas of interest, with science labs, art rooms, IT labs and a fully equipped multimedia resource centre.

Finally, it is the school's aim to ensure that all students reach their personal and academic goals for their future, helping to nurture individuals who will contribute positively to the world they live in, becoming young adults with a proactive approach to life who are curious, open-minded, caring and reflective. As such, by exploring their critical spirit, St. Peter's International School aims to promote responsibility, autonomy, citizenship and solidarity in their students.

**Location, Location, Location!**

St. Stephen's is the only English-language day and boarding high school in the center of Rome. Located minutes from the Roman Forum, Colosseum and Circus Maximus, our unique and unrivaled location enables us to use the Eternal City as our classroom. Surrounded by Rome's ancient wonders, students engage with their surroundings through field trips and visits to historic monuments, richly diverse museums and archaeological ruins. Our stimulating and intellectually challenging environment transforms receptive young minds and provides access to a world-class education.

**A World-Class Faculty**

Distinguished authors, poets, playwrights, musicians, and published scientists form our diverse faculty of accomplished scholars; 90% have an advanced degree, and 20% hold a PhD. Students learn from a prepared and engaged faculty, who challenge and inspire intellectual curiosity and motivate them to achieve their personal best. Teachers participate in professional development programs throughout the year to keep up with educational trends and to bring the highest level of instruction, knowledge and experience to the classroom.

**A Focus on Internationalism and Global Citizenship**

Our internationally-minded community aims to foster a thoughtful sense of global citizenship in our students. We value the American roots of the school; we embrace Rome as our location, in both its historical and contemporary dimensions; and we are global in our outlook, both in terms

of our active interest in histories, cultures, languages and belief systems from around the world, and in our personal awareness of the global impact of our actions. We welcome students, faculty and staff from all backgrounds and believe that every one of us contributes in equal measure to the evolving cultural fusion that makes St. Stephen's special.

**A Commitment to Discovering Rome and Beyond**

A signature program unique to St. Stephen's is our dynamic all-school trips program that takes students to regions throughout Italy every fall, and to destinations throughout Europe and the Mediterranean Basin every spring. Travel opportunities provide students with concrete ways to explore and develop greater historical appreciation and cultural understanding. Paired with summer service-learning experiences in Rwanda, Senegal, and Sri Lanka, students gain insights and are equipped with a global mindset balanced with compassion and consideration for others.

**The Oldest IB School in Italy**

As the first school in the country to offer the International Baccalaureate programme, our graduates have consistently ranked in the top percentile of IB exams since 1975. In addition to the highest IB scores in the history of the school in recent years, three of the perfect scores worldwide were achieved by St. Stephen's students. Our commitment to the International Baccalaureate underscores our adherence to academic excellence, a true hallmark of a St. Stephen's education. While most enroll in the IB programme, select Advanced Placement courses are also offered.

### **A Boarding Program Nestled Within A Day School**

Fully integrated with the day school population, 46 boarders make up our vibrant boarding program and are housed within the school's campus in an historic villa located on the site of a former Roman temple. Our boarding program offers a balance between a rigorous college preparatory curriculum and extra-curricular activities, a structure that eases the transition from home to boarding life, and a student-boarding faculty ratio of 4:1 that supports students as they develop both academically and personally.

### **An Emphasis on Cultivating Community**

We are small. Our student body of 246 day students and 46 boarders allows us to get to know and work one-on-one with each student. We focus on building close relationships and creating a sense of community between students and faculty. We also strive to provide a holistic preparatory experience with an emphasis on our core values of care, scholarship, creativity, integrity and independence, all of which lay the foundation for continued academic achievement and a fulfilling life. Students who live and learn at St. Stephen's carry this unique experience forward into the rest of their lives.

We'd love to welcome you to our vibrant 6th Form College in the heart of Cambridge. We have been named *International Baccalaureate School of the Year* twice since becoming an IB World School in 2007 (Sunday Times). Our students achieve top results, with an average score of 40 points the last five years. They go on to study at world-leading universities, with around 20% going to Oxford or Cambridge. But we believe that a good education is about more than just results. It's about preparing you for life beyond tests, exams and certificates. That's why we teach the International Baccalaureate, with its global outlook and its emphasis on social responsibility.

In the classroom, you will become a more independent learner, inspired by excellent teachers in small classes of no more than 15 people and supported by one to one discussions with your tutor, alongside an excellent guidance programme. There's always someone there to challenge, support and inspire you.

*"The best thing is the amazing network of teachers – not only are the class sizes perfect for interesting and topical debates, the lessons are dynamic."* Khadijah

**Live and learn in Cambridge**

Cambridge is our campus. Both our teaching buildings and our boarding houses are close to the city centre, giving you easy access to the culture and experiences Cambridge has to offer.

We enjoy a relaxed – but 'grown-up' feel our college. You will have access to fantastic learning facilities, including

science labs, a Visual Arts Centre and a 6th Form library. Learning is supported by the latest technology, with all students given iPads to support their studies.

**Enrichment**

You'll learn so much more than the subjects you study with us. You'll have the time to develop skills and interests in enrichment sessions that universities and employers alike will value. From the Duke of Edinburgh's Award to Beginners' Chinese, from Model United Nations to TED Ed Club, from journalism to community outreach, from drama to music, from basketball to fencing, from yoga to rowing... the choice is yours! You'll also hear inspiring talks from visiting speakers who are experts in their field, and enjoy a tailored university and careers guidance programme to help you with next steps.

*"The sense of community makes College more than just a great place for study, it's a great place to socialise and make new friends."* Thomas

**Leadership**

There are plenty of opportunities to gain leadership experience. Whether through our Student President Team, running a Society or taking the initiative in charity activities and events. Our Student President Team has four committees run by 6th Form students, who raise funds and awareness for charities, promote stewardship of the College, mentor Senior School and Junior School pupils at the Foundation, and arrange social events. You are the leaders of tomorrow, and you can start today. Gain invaluable leadership experience

at the Stephen Perse 6th Form College by running charity activities and events, setting up a society, or becoming a sports captain. Once you reach your final year, you could also be elected to the Student President Team.

**Inspiring futures**

Each of our students is encouraged to pursue their dreams

and follow the path that's right for them, resulting in some of the most exciting opportunities the world has to offer. From Classics at Oxford, Veterinary Science at Bristol, Engineering at Stanford, Liberal Arts and Sciences at Maastricht, to a training scheme at Deloitte – your future is your choice. We will inspire and guide you every step of the way.

www.stiftsschule-engelberg.ch

Stiftsschule Engelberg is a Christian day and boarding school under the trusteeship of the Benedictine monastery of Engelberg, Switzerland. About 120 students attend the school, some 60 students are boarders. Stiftsschule Engelberg offers a coeducational college preparatory school (grades 7 to 12). All students graduate with both the Swiss high school diploma and the IB diploma. The dual qualification allows graduates to pursue their education without entrance examination at any Swiss university and facilitates admission to universities outside of Switzerland.

Engelberg is situated in Central Switzerland, near Lucerne. The town is a renowned mountain resort. Our students take advantage of the local facilities to participate in a variety of sports.

Stiftsschule Engelberg follows the Swiss curricula for bilingual college preparatory schools: All teaching from grade 7 to 9 is done in German, from grade 10 geography, biology and mathematics are taught in English. In grade 11 and 12 the teaching of these subjects follows IB curricula. Three languages, that is German, French and English, complete

the number of the six IB subjects. Additional subjects are taught to meet the requirements of the Swiss high school diploma („Matura“). The dual qualification program provides a broad academic education to ensure that graduates are fully prepared to pursue their education at university in any subject of their choice, be it in Switzerland or abroad.

Besides mandatory education in sports, music and the arts our students have the opportunity to do a variety of sports, play musical instruments, join an orchestra and choir, or take part in plays.

Due to the bilingual character of the program applicants must have prior knowledge of German and must be willing to acquire proficiency in German during their stay at Stiftsschule Engelberg. Knowledge of English is expected to be appropriate to the grade applicants wish to enter. Applications are accepted throughout the year. Admission usually takes place at the beginning of the academic year in mid-August. For more information please contact the secretary's office at +41 41 639 61 00 or info@stiftsschule-engelberg.ch.

**Website**

www.louisenlund.de/en

Preserving values, taking responsibility, shaping the future – Louisenlund, the only IB boarding school in Northern Germany, impresses with its beautiful surroundings, a thoroughly international character and education of the highest quality. Located on the Schlei, the school is committed to forming open-minded and responsible citizens.

Louisenlund seeks to develop personalities and promote talents. Practical, proactive and experiential learning enables students to actively acquire and develop knowledge and to achieve their individual educational objectives. Louisenlund's students are expected to become the principle players in their learning process and to be accountable for their own academic process. Nevertheless, each student is accompanied by a faculty mentor, who acts as an academic advisor and helps students maximize their potential. Committed to the IB Learner Profile, Louisenlund not only aims for the best possible academic achievement amongst our young learners; the sense of community, companionship and consideration for others, as well as the readiness to take on responsibility are of particular importance.

Since its founding in 1949, Stiftung Louisenlund stands for a top-class education, with high standards for academic

achievement and character development. We offer the possibility to choose between the German Abitur and the International Baccalaureate (IB) Diploma, two widely recognized qualifications. 440 pupils, including 66 from abroad, currently attend the half-day primary school and the full-day 'Gymnasium' (German secondary school) or the IB Diploma Programme. Nearly 325 students are residents of our boarding community, which impresses with its relaxed and familial atmosphere. Because of the large number of Anglophone teachers, various native speakers teach their own language (English, Spanish and Chinese) and our membership in the esteemed Round Square network, Louisenlund enjoys a good reputation worldwide.

Another important feature is the exceptionally good relationship between students and staff, deriving from the small learning groups. Particular talents and weaknesses can be specifically fostered.

Besides the educational possibilities and the broad range of extracurricular activities, life at Louisenlund is a time to remember for other reasons: local and international projects, linguistic and cultural diversity on the campus, lifelong friendships and the exceptional team spirit of our community.

www.stonyhurst.ac.uk

Stonyhurst is the UK's leading co-educational Catholic boarding and day school for 3-18 year olds. Inspired by the beautiful Stonyhurst estate and the heritage of the world's oldest continuous Jesuit school, our students pursue academic excellence alongside spiritual and emotional growth and learn to embody their school motto: "Quant je puis", meaning "all that I can", in every activity. The IB mission reflects Stonyhurst's Jesuit mission and identity, in that both organisations seek to develop the whole person – intellectually, physically and emotionally.

Students come from the UK and around the world to experience an IB education at Stonyhurst. We offer an extremely full and enriching educational experience and our students flourish in a safe, happy, ordered environment and vibrant, close-knit community. Thoughtful, age-appropriate pastoral care encourages all students, whether day, weekly boarders or full boarders, to become increasingly self-reliant and considerate global citizens.

Since its introduction in 2013, we have found our IB offering has grown rapidly in popularity at Stonyhurst, and our year 12 IB intake now comprises around a quarter of total admissions into our sixth form. Our academic results for the IB Diploma bear testimony to the hard work and dedication

of both highly qualified staff and motivated students. Our 2018 average points score in the Diploma was 33, with 35% of students achieving over 56 points. Our IB students consistently perform above the world average and have gone onto prestigious universities in the UK and beyond, in a wide variety of challenging subjects, such as law, economics, medicine and engineering.

We also offer the IB Career-Related Programme with a sport or business career related pathway. With exceptional sports facilities, pupils who take on the IBCP sport related option can expect to study in one of the best environments in the country. This includes a brand new state of the art gym, an exciting outdoor pursuits programme, as well as the recent installation of LTA standard indoor tennis courts. Our global alumni network, as well as strong links with the local business community, can provide unique opportunities for our IBCP business students. Of course, these experiences are available for all students at Stonyhurst, and our students benefit from a huge range of co-curricular options, with over 100 clubs and societies running through the week.

An IB education at Stonyhurst provides an exceptional foundation for any young person, and we look forward to being a part of your future.

## 'Family is the cornerstone of our school.'

We believe that there is no such thing as an unsuccessful student. Our programme is based on this philosophy. We endeavour to develop not only the confidence and skills of our children, but to help them realize their maximum potential through balanced personal and interpersonal development. The positive environment is reinforced by the limited presence of externally imposed discipline – students are not punished, and bells are not rung. We focus on facilitating the knowledge, as well as the behaviour, attitudes and skills that will help our children become successful adults, whatever challenges they choose to undertake in the future.

We are committed to the responsibility and privilege of educating and nurturing inquirers and critical thinkers. Our goal is to become internationally recognised for our active participation in enriching the qualities of our countries'

human resource, and thereby improving the world we live in, and the cultural patrimony of future generations.

Towards this end we energetically pursue a course of study that holds the essential elements of the PYP (Action, Attitudes, Concepts, Knowledge and Skills) at its heart, and not only for our students. We embrace the continuing education of our parents as well by offering them a range of studies, and symposiums designed to stimulate and continue their personal development. We regularly reach out to our alumni and encourage them to maintain contact as role models and examples. Throughout the year our students participate in charity and fundraising events to support communities both locally and nationally.

The TAS School family; our parents, teachers, students, and support staff look forward to the challenges of the future. We embrace the diversity of our community and plan for our successes carefully and consciously.

www.tasis.ch

Founded by M. Crist Fleming in 1956, TASIS is a day and boarding international school committed to creating global citizens through education, travel, and service.

The oldest American boarding school in Europe, TASIS welcomes 710 students from 60 nations in grades Pre-Kindergarten (beginning at age three) through Postgraduate. Approximately 250 students between ages 12–19 reside on campus.

High School students can choose from individual Advanced Placement courses or pursue the International Baccalaureate (IB) Diploma, helping them receive offers from more than 400 universities in 20 different nations over the past five years. The School offers an extensive Fine Arts program that includes courses in Drama, Music, and the Visual Arts, enabling aspiring artists of any ilk to find their creative voice and nurture their talent.

Accredited by the European Council of International Schools (ECIS) and the New England Association of Schools and Colleges (NEASC), TASIS is proud to employ gifted, passionate educators who encourage intellectual curiosity. Nearly 80 percent of the High School faculty hold advanced degrees.

The campus includes more than 25 buildings dating from the 17th century Villa De Nobile to the state-of-the-art Campo Science Center. Perched on a hillside in sunny southern Switzerland with commanding views of snow-capped mountains, palm trees, and Lake Lugano, the School's

enviable location makes possible an impressive Academic Travel program that brings students face-to-face with the rich cultural heritage of Europe and the spectacular natural beauty of the Alps and beyond.

The School's pioneering Global Service Program transforms lives by providing every High School student with a unique opportunity to connect across borders – whether geographic, economic, or social – through comprehensive experiences that build empathy and encourage personal responsibility. The Program awakens students to humanitarian needs, inspires them to build enduring relationships, and leads them toward a life of active service and committed service.

TASIS encourages physical fitness and healthy lifestyles. Varsity sports teams compete throughout Switzerland and Europe, and a variety of other fitness activities are offered to cater to all interests. Each year also brings many opportunities to ski and explore the breathtaking Alps. Students leave TASIS with a heightened appreciation for the outdoors and an understanding of what it takes to succeed in challenging environments.

Each summer, hundreds of students aged 4 1/2–18 journey to Lugano for the TASIS Summer Programs, which feature intensive academic courses, an unparalleled performing arts program, thrilling outdoor adventures, advanced sports training, and exciting cultural excursions around Europe.

#### Website

[www.theabbey.co.uk](http://www.theabbey.co.uk)

The Abbey is a vibrant and welcoming community of almost 1,100 girls aged 3-18 years. Academic excellence is achieved in an environment that is diverse, inclusive and energetic, while an exceptional extra-curricular programme enables girls to develop their interests and talents. Girls are encouraged to strive for their best both intellectually and personally, and achievement is celebrated in all its many and varied forms.

At the heart of The Abbey community lies a shared enthusiasm for lifelong learning, underpinned by a relentless intellectual curiosity and spirit of discovery encouraged at every stage of the educational journey. Supported by a proactive and compassionate pastoral system, every girl from Nursey through to Sixth Form is encouraged to explore her passions, embrace new challenges and question her assumptions. The result is the development of free-thinking, confident young women equipped with the skills to build a meaningful future in today's rapidly changing world.

With its global perspective and emphasis on balance, the International Baccalaureate Diploma provides a programme very much in line with the School's outlook. Since becoming an IB World School in 2008, The Abbey has consistently produced world-class results. In 2018 almost half of the girls

studying the IB scored 40 points or more, out of a maximum 45 points, with two girls achieving the full 45 points. The average of 39 points (against a global average of 29 points) places the School among the very top IB schools in the world. These results have consistently gained students places on a wide variety of courses at leading universities, including Oxbridge, Durham and Imperial.

In Sixth Form, girls can further enrich their experience by taking part in schemes such as Young Enterprise, the Duke of Edinburgh's Award Scheme or applying for School Officer roles, all promoting resilience, responsibility and building leadership skills. Throughout, girls are supported to identify and hone their aspirations for their future and, crucially, provided with the tools with which to fulfil these ambitions.

Located within walking distance of Reading Station, the School provides an extensive coach network across Berkshire and Oxfordshire for both Junior School and Senior School girls. A range of scholarships are available, as well as financial assistance offered via means-tested bursaries.

The Abbey represents a unique and exciting opportunity for any girl with a desire to learn, where inspirational teaching and an ethos that promotes aspiration and balance provide the platform for a successful and fulfilling future.

**Website** [www.agakhanschools.org/kenya/akan](http://www.agakhanschools.org/kenya/akan)

Established in 1970, The Aga Khan Academy, Nairobi is a private, co-educational school located in the Parklands suburb of Nairobi, Kenya. The Nursery School is located on a separate campus on Kipande Road About, at the bottom of Museum Hill in Nairobi.

Together, our Schools have an enrollment of over 1,000 students and are authorised to offer the International Baccalaureate, Primary Years Programme, Middle Years Programme and Diploma Programme.

**School Overview**

The Aga Khan Academy is one of few schools in Kenya offering the International Baccalaureate Programme of studies, and is one of the two schools in Kenya authorized to offer three components of the IB programme – the Primary Years Programme (PYP), the Middle Years Programme (MYP) and the Diploma Programme (DP).

The Aga Khan Academy, in keeping with the IB philosophy, ‘touches hearts as well as minds’. Our students learn to be knowledgeable, open-minded thinkers, inquirers, principled, risk takers, well-balanced, and caring. They are prepared for life.

**Mission statement**

Enable many generations of students to acquire both the knowledge and the essential spiritual wisdom needed to balance that knowledge and enable their lives to attain the highest fulfillment.

**Exam Results**

The Aga Khan Academy provides an outstanding academic

education and enables students to obtain the best results. Although the Nursery School does not have a grading system, it typically holds an annual graduation and exhibition celebrating the completion of the Early Years PYP. The Junior School has obtained above global average results in the International Student Assessment by ACER.

In the year 2018, the senior school had a mean of 33 points of the diploma with a cohort of 58 candidates. Out of this, 96% of the candidates achieved the diploma with top candidate scoring 40 points out of 45 points.

**Relevant Curriculum**

The IB curriculum enables students to learn using a transdisciplinary and an interdisciplinary approach and to develop critical thinking, creativity and international-mindedness – identified by leading educators globally as some of the necessary skills for the 21st Century learning.

All three schools of The Aga Khan Academy, Nairobi work together to develop the IB learner profile beginning with an inquiry-based, Early Years Primary Years Programme (PYP) at the Nursery School, followed by the Primary Years Programme (PYP) at the Junior School for grades 1-5. Students continue in the Senior School, enrolling in the Middle Years Programme of studies (MYP) for grades 6-10. Upon completion of the MYP programme, students enter the Diploma Programme (DP) for their final two years of study in the Senior School.

**Admission**

Admission is based primarily on merit determined by a wide

range of criteria, including academic strengths and overall potential.

Our curriculum combines academic excellence with athletics and visual performing arts programmes.

**Innovative Education**

The Aga Khan Academy Nairobi continues to innovate and refine its programme to ensure a contemporary, relevant education is provided to students. Some recent introductions include:

- Robotics in grades 7-9
- Student Leadership programmes
- Film studies in grades 10 and diploma

**Excellent University Admissions**

Graduates from the Aga Khan Academy gain admission to the top universities globally.

**Outstanding Faculty**

The Aga Khan Academy faculty are of the highest caliber and reflect the school's cultural diversity. All teachers have internationally recognized qualifications and together bring a wealth of educational expertise and international experience to the school.

**Examinations offered**

IB Diploma Programme (IB DP)

**Facilities**

ICT resource centres, film studio, music rooms, art rooms, science labs, well-resourced libraries, wireless connectivity and ebeams in some classes.

www.theacademyschool.com

The Academy International School, established in 1985, has long been recognised as a centre of excellent academic achievement, where the whole school community shares the joy of learning. We are also proud to be the first International British School to bring the International Baccalaureate Diploma Programme to Mallorca.

In a beautiful setting in the Mallorcan countryside students enquire, discover, analyse and evaluate. They are creative, innovative and proud to be part of this school community. The Academy teaching team accompanies the students on a wonderful learning journey from our Nursery classrooms all the way through to IBDP.

Academy students are encouraged, supported and challenged. They are offered a broad and balanced curriculum, delivered by motivated and creative teachers, to ensure that learning is effective and promotes a lifelong passion for education. The Academy International School

prepares students to compete in a rapidly changing international marketplace where academic content is important, but is no longer enough.

In today's evolving global society, inquiry, critical thinking, and international mindedness are essential skill sets that students must have to determine their success as a leader and in the workforce. The Academy International School offers students multiple ways to develop and demonstrate what they know and understand. Students complete collaborative projects, oral presentations, essay writing, inquiry-based experiments, and take part in discussion and debate that mirror what they will experience in the challenging fields they hope to enter after university.

The Academy students see how our school connects with the world at large through community projects and activities locally, nationally and internationally.

Our goal is to help students achieve their dreams.

www.ais.at

Set within the rich cultural context of Austria, The American International School Vienna is one of the top international schools in the country. Founded in 1959, AIS Vienna today serves over 780 students, representing more than 50 countries, from Pre-Kindergarten through Grade 12 (International Baccalaureate (IB), Austrian Matura, or American diploma). AIS' core values – nurture, include, challenge and respect – ensure that students develop intellectually and interculturally while internalizing the commitment and leadership necessary in today's globally-minded world.

AIS Vienna provides comprehensive opportunities for learners from around the world. Our students succeed academically, as well as in athletics, music, and visual arts. A variety of activities, including class trips to mountain ranges and service-oriented community projects, allow students to practice commitment, leadership, and meaningful self-reflection. We maintain a broad set of offerings to help us serve our students and be true to our mission.

The tightly knit school community allows students to develop personal relationships with both highly qualified teachers and their peers. We maintain a culture of high expectations and close connection to the pulse of

international education. Investments in the quality and skill of our staff are on-going, and recent enhancements to our facilities and technology resources are assuring our role as a vital partner and a leader in our city and region.

AIS Vienna recently celebrated its 40th anniversary as an IB World School. The distinction coincided with the 50th anniversary of the IB. Since its inception at AIS, the program has shown impressive growth. In 1977, its first year of the IB program, AIS had 10 IB Diploma candidates. Currently, AIS has over 70 IB Diploma candidates. Perhaps most striking is the massive growth in the percentage of AIS seniors graduating with an IB Diploma: 18% in 1977 compared to a projected 90% in 2018-19.

We welcome all to our community of learners; we work every day to assure learners understand the connections between learning and living. We make decisions based on the understanding that we are not only guiding children towards learning but building experiences and memories that will serve to inform futures not yet imagined. Our goal is to help each of our students define success in a nurturing environment that supports excellence. Ultimately, we prepare our students for the next step in their lives after AIS Vienna.

Pater Dupierreuxlaan 1  
3080 Tervuren | BELGIUM**TEL** +32 (0)2 766 04 30**FAX** +32 (0)2 767 80 70**Email**  
admissions@britishschool.be**Website** www.britishschool.be

The school was founded in 1969 and officially opened in 1970. It has a beautiful site of ten hectares, surrounded by woodlands and lakes in Tervuren (20 minutes drive from central Brussels). The school is a coeducational non-selective day school for children aged 1-18, with over 1,350 on roll. There is an Early Childhood Centre for children aged 1-3. 31% of the students are British with 70 other nationalities represented.

Students follow a British-based curriculum up to age 16 – (I) GCSE. This is adapted to our European context and international cohort and is followed by the choice of three internationally recognised pre-university examination courses from age 16-18: English GCE A Level, The International Baccalaureate (IB) Diploma Programme (French/Dutch options) and BTEC Business, Hospitality, Sport and Applied Science. French and Dutch are taught from an early age and there is a bilingual French/English programme for students aged 4-14 years. German or Spanish are additionally available from age 11. There is an Additional Educational Needs (AEN) department and extensive support provided with an English as an Additional Language (EAL) department. A specialist international careers team provides guidance and support to Post-16 students.

The school has excellent facilities including a state-of-the-art design & technology workshop, food technology rooms, networked IT suites, drama studios, nine science laboratories, four art studios and cafeteria. BSB is the only international school in Belgium to have its own 25m indoor swimming pool.

Arts, music and drama thrive and a wide range of performances are held regularly in the 240-seat theatre. The music department has a music technology suite, full-scale recording studio and a rehearsal studio.

Sports include rugby, football, hockey, tennis, gymnastics, swimming, athletics and basketball. The school participates successfully in ISST/ISGA. There is a wide range of extra-curricular activities with frequent opportunities for overseas travel and school journeys.

Our academic results are amongst the highest of any international school in Europe and well above the worldwide average. In 2018 results at Post-16 for A Level, BTEC and the IB Diploma were fabulous, translating into brilliant university places worldwide on a wide variety of competitive and exciting courses.

At A Level, our results were splendid and students achieved 100% pass rate, with an impressive 35% of grades at A\*/A (26.2% national average 2018) and a remarkable 13% at A\* (2018 national average 8%)!

Our IB Diploma students produced some outstanding results. All our IB students sat the IB Diploma and achieved a pass rate of 97.2%. Our average point score was 35 points. An impressive 46% of our candidates obtained 36 points or more and 91% scored over 30 points. 17% achieved the Diploma with 40 points or more – an outstanding achievement. Meanwhile, our BTEC results were again extremely strong. A very impressive 61% of grades were at Distinction or Distinction \* level, equivalent to A and A\* at A Level.

BSB does not select students by ability. For many, English is not the native language. This makes success even more tremendous. The programmes are led by a highly committed and well-qualified team of teachers and our academic, university and pastoral support is organised throughout the two years to help individual students to be the best they can be and aim high.

**Website**

www.englishschoolkyrenia.org

The English School of Kyrenia (ESK) is a purpose-built modern IB World School offering exciting opportunities for academic excellence and personal development for boys and girls aged 2 to 18. An enviable and spacious learning environment, the campus is set in the inspiring surroundings of the Kyrenia foothills, overlooking the Mediterranean to the front and the Kyrenia mountains to the rear.

The Early Years Eco building houses the school's youngest learners from Pre-Nursery to Year 2. The unique building aims to generate its own electricity requirements and seeks to provide all ESK students with a living example of green sustainability.

For the current 2018-2019 academic year, ESK has 960 students drawn from both international and local backgrounds. In September 2015, ESK opened a modern boarding house on campus, and welcomed its first intake of boarders. Boarders reap the benefits of a world-class education with A-level and IB course offerings, and fees in the region of 50% less than a traditional Boarding School in the UK.

The sections of the school are Early Years (Pre- Nursery age 2, Nursery age 3 and Reception age 4), Primary (Year 1 – Year 6) and Secondary (Year 7 – Year 13).

All classes are taught in English, with an addition of Turkish as a second language, and an option of Mandarin, Russian, French, or Spanish. The Early Years follow the UK's EYFS

(Updated) curriculum and the Primary School follows the Cambridge International Primary Programme (CIPP).

In the Secondary School the widely respected IGCSE, A-Level and International Baccalaureate (IB) Diploma Programme give students the opportunity to develop an international perspective and attend the world's top universities. Over 88% of graduates attend University in the UK, and 10% in the EU or North America. Graduates have attended prestigious universities such as The University of Cambridge, UCL, LSE, Parson's school of Design and Charles University, to name a few.

Today's students are tomorrow's leaders and decision makers: we afford every opportunity for our boys and girls to reach their personal and academic potential whilst nurturing their curiosity and encouraging individuality and creative thought.

IBDP Subjects available:

Group 1: English Language & Literature, Russian Language & Literature, Turkish Literature

Group 2: English B, Spanish *ab initio*

Group 3: Geography, History, Business and Management

Group 4: Biology, Chemistry, Physics

Group 5: Mathematics HL, Mathematics SL, Mathematics Studies

Group 6: Visual Arts, Music, Theatre Arts or one other subject taken from groups 3-4 above.

godolphinandlatymer.com**Website**

www.godolphinandlatymer.com

The Godolphin and Latymer School is an independent day school for girls aged between 11 and 18; it is located in Hammersmith, West London, and is easily accessible by public transport from the surrounding areas. Means-tested bursaries are available at 11+ and 16+ entry covering up to 100% of fees. The school offers an exciting range of facilities including the Rudland Music School, with its own recording studio, and a drama and performance space in the recently opened Bishop Centre. A state of the art Sports and Fitness Centre opened in September 2015, providing a sports hall, climbing wall, dance studio and fitness suite. Tennis/netball courts and an astroturf hockey pitch are also on-site.

We are a school with a strong pastoral ethos, where academic excellence is encouraged in a caring environment and where each individual girl is able to develop her interests and her talents in all areas. We aim to provide choice and challenge for each pupil with the IB Diploma Programme or traditional A levels being offered as part of the sixth form curriculum. The school has an excellent academic record and

when girls leave us at 18, to take up their places at leading universities in this country and overseas, they are confident, articulate and independent.

Girls are proud of their school and value its unique character. They enjoy a wide range of extracurricular activities and appreciate the many opportunities to take responsibility within the school community and contribute to its future development. Girls have the chance to enjoy an exciting range of visits during their time at the school, recent examples being to Iceland, Italy, Washington and a ski trip to Vermont. Sixth form girls are able to participate in European work experience in Versailles or Berlin, giving them an opportunity to gain an insight into possible future careers as well as practising their language skills. The school aims to develop students who will become the leading citizens of the future; girls who are capable of thinking for themselves and who can demonstrate a critical awareness of the wider world, having a sense of their own worth whilst being appreciative of others.

**TEL** +39 010 386528

**Email**

secretary@isgenoa.it

**Website**

www.isgenoa.it

The International School in Genoa was founded in 1966 as a private co-educational day school to serve the needs of the international and national communities in Liguria. A high school program began in the fall of 2000 and the school was authorized to start teaching the International Baccalaureate Diploma Programme in 2002.

The International School in Genoa is the only school in Liguria among 8 in Italy that is accredited by the Council of International Schools (CIS) and offers a complete international education where English is the language of instruction from Pre-School (age 3) to Grade 12 (age 18) leading to the achievement of both a High School Diploma and the IB Diploma. It is currently home to an international student body of 363 students representing 32 different nationalities.

ISG provides an ideal setting for students to learn in a serene, supportive and stimulating environment: the school is located on a magnificent 6000 square meter campus of historical gardens in Genoa. The students learn in the beautiful grounds of a restored 14th-century Benedictine abbey.

The Early Childhood and Elementary schools follow the International Primary Curriculum (IPC), an inquiry-based program emphasizing students taking an active part in their learning. The International Baccalaureate curriculum

provides the ideal framework to promote concepts, skills, and attitudes that foster this evolution and understanding. The language and culture of the local Italian community offer rich resources to complement and support our mission. Italian is offered as both first and second language as well as French and Spanish offered as second languages.

Since the first high school graduating class in 2004, 97.5% of ISG candidates have earned the IB diploma. Our students' success is due in large part to our small class sizes, highly qualified and dedicated teachers. We offer Student Support Services and provide a College Guidance Program with the objective for students to gain offers from the universities that best suit their future academic and personal aspirations.

100% of our students go to university mainly in the UK, USA, Italy among other countries. The following list is a sample of universities where our students are attending/attended in the past 7 years: Boston University, Brown, Chapman, Clarkson, College of William and Mary, Cornell, Georgetown, Harvard, Lehigh, New York University, Northeastern, Tufts, UC Berkley, Michigan, Virginia, Pennsylvania, Cambridge, Kings College, Royal Holloway, Essex, Bocconi. For a full list, please visit our website.

ISG is a founding member of AIBWSI, the Association of IB World Schools in Italy and a UNICEF ambassador school.

Curious, Connected and Compassionate: inspiring personal excellence in our strong and diverse community.

We offer a top quality international education, fostering academic success as well as encouraging sporting and creative abilities in a community based on honesty, fairness, open-mindedness and tolerance. There are more than 90 nationalities represented at The International School of The Hague. In addition, as a part of a Dutch school foundation, we benefit from the rich learning opportunities our host country offers.

Our Primary School is the first in the world to have achieved accreditation at 'Mastering' Level from the International Primary Curriculum (IPC). Years 7-11 offer the International Baccalaureate Middle Years Programme (IB MYP), and Years 12-13 offer the International Baccalaureate Diploma Programme (IBDP) and Careers-related Programme (IBCP). In addition, Dutch is taught to all students in the MYP to assist them in integrating in the Netherlands.

The IB MYP provides the framework for the broad range of subjects that are offered in Years 7-11. Learning across the

MYP eight subject groups is integrated through Approaches to Teaching and Learning, in particular a focus on concepts and inquiry, and through the global contexts. All students participate in our Service as Action Programme.

The IB DP aims to continue the education of critical and empathetic global citizens in six selected subjects and the mandatory components of Creativity, Activity and Service (CAS), Theory of Knowledge (TOK), and the Extended Essay, which prepares students for writing at university level. Supporting our international community is key in all aspects of the school. The English Language Resource Centre, Mother Tongue classes and the Learning Support Centre play important roles in meeting the individual needs of our students.

The aim of the IB programmes at The International School of The Hague is to develop internationally minded people who, through recognising their common identity and shared guardianship of the planet, help to create a better and more peaceful world.

[tks.kaust.edu.sa](http://tks.kaust.edu.sa)

The KAUST School (TKS) proudly serves a thriving multi-cultural University community, with an enrollment of approximately 1,500 students from more than 60 nations. As an International Baccalaureate World School authorized in three programs: Primary years, Middle years and the Diploma program, we share a common philosophy and a commitment to high quality, challenging international education for children from K1 through to Grade 12. TKS is accredited by the Council of International Schools (CIS) and the New England Association of Schools and Colleges (NEASC).

**Our Resources**

The school is uniquely located within the university campus of King Abdullah University of Science and Technology (KAUST), a destination of choice for world-class scientific and technological graduate education and research, north of Jeddah on the shores of the Red Sea.

The School is purpose built with a design that supports a balanced curriculum. The Gardens Campus which houses the Elementary and Secondary School, has technology equipped classrooms, science laboratories, a design and technology hub, two library media centers, two indoor gymnasiums, two performance theatres, outdoor basketball and tennis courts, an outdoor swimming pool and soccer pitch. The Kindergarten Campus is filled with natural light, color and materials that stimulate learning. The buildings include activity rooms, two libraries and several specialized rooms for Art, Music, Arabic and Islamic studies.

The School offers a state-of-the-art technology environment that incorporates a broad spectrum of educational solutions while maintaining a 1:1 Apple computing environment.

**Our People**

Our students are the children of KAUST academic and professional staff, TKS staff, graduate students and University partners.

TKS Staff consists of over 330 teachers, specialist support staff and administrators from across the globe, with over 70% having advanced degrees and the majority with previous international school experience.

The school maintains classroom ratios of one teacher to 15 students in early childhood; to 18 students in Elementary; and to 22 students in Secondary.

**Our IB Diploma Curriculum**

TKS offers a co-educational IB academic program in English. Targeted support is provided for students with instructional needs, including intensive English language support, as required. Both Arabic and French are offered as a first language to native speakers and as a second language to non-native speakers in Secondary. In Kindergarten and Elementary only Arabic language is offered.

**Co-curricular Activities**

With the benefit of being located on a university campus and enclosed community, TKS utilizes all university and community facilities enriching the co-curricular programs.

**...opening minds for life!**

The Sultan's School was established in 1977 under the guidance of His Majesty Sultan Qaboos Bin Said with the vision of providing a world class, holistic education that incorporated the best of Islamic and Omani culture and values within an international context. To enable this vision to become a reality His Majesty gave the school a campus that was, and continues to be, the envy of many educational establishments. Located in Seeb, a suburb of Muscat, the school sits on 500,000 square metres (approx 220 acres) and is blessed with excellent academic and sporting facilities, that continue to be improved as the school develops. Future initiatives will include, but are not restricted to, additional staff housing, new boarding facilities, a specialised IB centre, a new multimedia centre/library and an expansion of the sporting facilities.

Sultan's School students learn in both Arabic and English. The majority of them join the school at the age of four and then follow a rigorous bilingual programme based on an abridged English National Curriculum, as well as the Omani National Curriculum for Arabic, Islamic and Social Studies. This is continued in middle school which leads into Cambridge IGCSE courses in Years 10 and 11 and the International Baccalaureate (IB) Diploma in Years 12 and 13.

Within the IB programme, students are given extensive careers guidance to assist them in planning for their future. The school boasts a full time university counsellor who, in conjunction with the IBDP Coordinator, provides student

support in the selection of IB subjects to match academic abilities and personal interests with potential and future aspirations. In addition to internal guidance, The Sultan's School often hosts prestigious international universities, who offer additional advice to the students through careers fairs, workshops and presentations. Our graduates attend many of the world's leading universities, studying subjects as diverse as medicine, geology, computer science, law, engineering and psychology. A large number of our graduates attend university on full scholarships that have been awarded by the Omani Ministry of Higher Education.

The Sultan's School also offers all of its students numerous opportunities to engage in community service and afterschool activities through the extensive ECA and CAS programmes. Each week, they can choose from a host of clubs and activities that range from drama to sailing, from eco club to working at the local children's hospital and from golf to working with disabled students. The school also has a well-deserved reputation for its sporting prowess and has won numerous local and international tournaments in a variety of sports, including swimming and football. A number of our students have gained further recognition by representing Oman in international competitions.

Our students are also given the chance to broaden their experiences and horizons by participating in numerous international trips. Most recently, the school has organised trips to the UAE, Spain, Italy, Switzerland and England to engage in activities that range from IB revision courses to

cultural trips. The school also organises three ski trips each year for primary and secondary students.

Although the majority of our students are Omani, the faculty represent a wide variety of cultural and academic backgrounds. Our teachers are drawn from all over the world including Morocco, Tunisia, Syria, the UK, Belgium, New Zealand, USA, and South Africa. A number of our staff hold advanced degrees and are IB workshop leaders.

The original intention of the school was to educate the future leaders of Oman. We can now proudly say with confidence, that we have been extremely successful in our aim. Today our alumni include many of the country's leading political and business figures, including the Minister of Education; and proudly, in a testament to the success of our school, many of them now choose The Sultan's School for their own children's education.

Situated on a large, wooded campus in Istanbul, Turkey, the Koç School is at the forefront of K-12 education, offering both the Turkish National Curriculum and the International Baccalaureate Diploma Programme to over two-thousand students, 200 of whom take advantage of the school's exceptional boarding facilities.

The Koç School was established in 1988 by the Vehbi Koç Foundation, the philanthropic arm of Koç Holding, which is one of the largest and strongest business conglomerates in the world.

The school prides itself on providing a bilingual education for all of its students from Kindergarten onwards and was the first school in Turkey to establish the IB Diploma Programme in 1994. The benefits of the application of the IB Learner Profile can be seen at every level and in every subject throughout the school.

The Koç School's teaching faculty is diverse and around one-third of the staff, just over 70 in number, is from overseas, creating a truly international perspective.

Throughout the school's rigorous academic programme, students have access to a range of activities that provide them with excellent opportunities to interact with other schools. The European Youth Parliament, the International Schools Theatre Association and the MUN are but a few. In

fact, the school hosts the world's only MUN Development Programme conference, attracting more than 800 students from Turkey and across the globe each year.

Locally, students are encouraged to develop high ethical standards and participate in a wide range of social responsibility projects. The CAS element of the IB core has enabled students to organise and take part in all manner of activities in Turkey and overseas, including teaching students in local schools, national and international sporting tournaments and environmental initiatives.

Financial aid and scholarships amount to around £6 million, enabling students from diverse backgrounds and from all over Turkey to benefit from the school's education.

With a strong alumni presence across the globe, Koç School graduates are placed in top ranking universities in the US, UK, Europe and Turkey and receive significant scholarships each year.

Since 2013, IB scores have broken not only school records but also gone beyond Turkish and international standards.

The Koç School aims to build on the strong academic standards it has already developed and hopes to continue to see more and more of its students heading to the world's top universities based on the quality of their academic performance.

A member of Taaleem, Uptown School is a highly reputed and certified International Baccalaureate (IB) World School for the Primary Years Programme (PYP), the Middle Years Programme (MYP) and Diploma Programme (DP). Dedicated to nurturing the development in all aspects of education and personal growth, our mission is to encourage curiosity and enthusiasm, creativity and independence, and compassion and communication through an exciting, rich and engaging learning experience.

**Vision and Mission**

A school for the whole of our international community, that delivers a world class education and achieves excellent student outcomes, by all measures, for all our students, in line with UAE National Agenda. Our Missions is to use education to make the world a better place to be, at the individual, community and global level.

KHDA Rating: “Very Good” with “Outstanding” features.

**Our Facilities**

Our facilities are spread over 14 acres of landscaped grounds and were designed to ensure that our students have the best environment to support their learning and development including a 25-metre swimming pool, a multi-purpose Sports Field, DT studios and more.

**Our Teachers**

Our teachers are highly qualified educators with vast experience in IB and education. All our teachers are trained IB practitioners, with many being IB workshop trainers and IB site visitors.

**Student body:** Co-educational, ages 3 to 17 years, over 85 different nationalities.

**Extra-Curricular Activities**

Our students have access to over 135 afterschool activities that fall under sports, arts, academic interests, and various enrichment programmes. Examples include: Model United Nations, TEDx Youth, Choir, Dance, Football, Gymnastics, Rugby, World Scholars Debate, Chess Club, French DELF, Emirates Literature Club, Uptown Record Label and more.

UTS also offers a broad range of educational visits and excursions, which are a vital part of supporting our students’ unit of inquiries.

**Uptown School (UTS)** is part of Taaleem, the United Arab Emirates’ second largest school provider for early years, primary and secondary schools founded in 2004.

**Introduction**

UWC Adriatic is set in the picturesque village of Duino, near Trieste, in north-eastern Italy which was heavily influenced by political and ethnic divisions during World War I and the Second World War. By entering this arena of ethnic and historical complexity, UWC Adriatic has embraced an educational role of highly-charged political meaning and stepped into a world of extraordinary cultural diversity.

**Inside the Classroom**

Within the International Baccalaureate Diploma Programme curriculum, in addition to standard courses, the College offers Arabic, Slovene, Serbian, Croatian and Bosnian, World Arts and Cultures, Environmental Systems, and Art. Additionally, all students are expected to take Italian as a subject, although this does not have to be an IB DP exam subject.

**Outside the Classroom**

UWC Adriatic places a special emphasis on the “service” component of its Creativity, Activity, Services (CAS) program, with music playing a major role thanks to the presence of the ICMA music academy. Being physically integrated into the life of the local community, the College has long-standing collaborative relations with many associations that lead

volunteering activities in a wide range of areas. Social services activities include work with Italian and Slovene speaking children through art, teaching English in local primary schools, refugee work, offering companionship to the elderly and performing musical concerts in hospitals. Creative activities include chess, creative writing, current affairs study group, debate club, photography, robotics and theatre. UWC Adriatic also capitalizes its seaside village setting on Trieste’s karst highlands and in the vicinity of the Alps to offer its students a range of related outdoor activities, such as sailing, kayaking, climbing and hiking.

**Campus and Facilities**

The college has student residences scattered all over the village of Duino. Rooms vary in size and may be single, double, triple or quadruple. Each residence is unique and this is reflected by the distribution of students/rooming and facilities. Every residence is manned by one or more residence tutors. Fully equipped music centre are available, as well as sports facilities shared with other local associations which fosters socialising with the local youth and population.

**Admissions**

Students can apply through their UWC national committee or through the UWC Global Selection Programme.

**Introduction**

An education at UWC Atlantic College is transformational. Students come with a vision and graduate empowered to make a positive difference in the world. As the UWC movement's founding college, we have entrusted students with authentic responsibility and guided them to make appropriate choices and to learn from their mistakes. It is through this trust, responsibility and accountability that students learn that through effort and engagement they can achieve far more than they ever imagined. We empower change makers, place shapers and compassionate global corporate citizens through the delivery of a pioneering IB educational model. The way students learn, interact with one another and take part in community presents a life-changing journey to making a positive difference in the world.

**Inside the Classroom**

The two-year Diploma Programme combines the IB curriculum with extensive experiential learning focusing on key aspects of peace, a sustainable future and student initiative. UWC Atlantic College offers a wide range of IB DP subjects both at Higher and Standard Level. The college has been instrumental in developing new courses for the IB.

**Outside the Classroom**

The afternoon programme focuses on a commitment to service in the community and develops a sense of personal initiative and the skills of leadership. It aims to empower

students to go above and beyond their academic capabilities. Their impact extends from helping teach local pupils to swim, taking music therapy into residential homes to wider global organisations such as Amnesty International. Building on the strong traditions of seafront activities (the Rigid Inflatable Boat was developed at the college in the 1960s) students can learn lifesaving, paddle boarding and kayaking together with participating in an exciting new partnership with Atlantic Pacific, building rescue boats for use worldwide. With an extensive woodland and our own farm, students are given the opportunity to focus on ethical growing and animal husbandry. Four times a year, students organise two-day conferences when normal routine is suspended and the whole college community participates.

**Campus and Facilities**

Set in the beautiful 12th century St Donat's Castle on our 122-acre campus, the student community is accommodated in eight boarding houses, each sharing the spirit of global collaboration, under the care of dedicated houseparents. Facilities include a dining hall, library, indoor and outdoor swimming pools, a state of the art sports centre and extensive grounds.

**Admissions**

Students can apply through their UWC national committee or through the UWC Global Selection Programme.

**Website**

www.uwcdilijan.org

**Introduction**

In 2014, UWC Dilijan officially opened its doors, becoming the 14th UWC college. Since then, UWC Dilijan has been pursuing the goal of bringing world-leading education practices and values to Armenia. Through nurturing talented, creative and empowered young people we are striving for a bright future for the world.

**Inside the Classroom**

UWC Dilijan offers the International Baccalaureate Diploma Programme (IBDP) curriculum. Alongside standard courses, the College offers Russian, German, Spanish, Global Politics, Philosophy and Theater.

With a 1:5 teacher student ratio, the College provides a tailor-made approach to every student's IB experience. The majority of teachers have international and/or UWC experience prior to joining the college.

**Outside the Classroom**

The co-curricular program at UWC Dilijan consists of 4 elements – the Creativity, Activity, Service program, Project Weeks, Focus Weeks and Cultural Weekends. Due to its geopolitical location, studying at UWC Dilijan is a unique opportunity for those interested in gaining experience in conflict resolution. In line with this idea, many service initiatives are focussed on cooperation with local NGOs in order to achieve one of the foremost objectives of the

College, continuing to contribute to the development of the region as an educational cluster, which, in turn, fosters education throughout Armenia.

Therefore, many students organise various service activities engaging kids from the local community, such as Science with Kids, Dilinglish and many more. One of the recurring Project Weeks is the Fuller Centre for Housing initiative in which students assist in building houses for the homeless. UWC Dilijan's Outdoor Education Program includes hiking, skiing and caving expeditions.

**Campus and Facilities**

UWC Dilijan's location in the valley of the 16th century town of Dilijan, provides the perfect opportunity for engagement with Armenia's long history. Students have access to a variety of sports, and academic arts facilities. Renewable technologies were employed for the construction of the campus including harvesting of natural springs and using rainwater for irrigation. Typically, students will share rooms of two or four, with the aim of having a wide variety of national, cultural and linguistic groupings within each room. Each house has male and female students on separate floors and houseparents resident within the accommodation.

**Admissions**

Students can apply through their UWC national committee or through the UWC Global Selection Programme.

**Introduction**

In addition to the highly recognized International Baccalaureate curriculum, UWC Maastricht is a multicultural school that hosts students from more than 100 different nationalities. The school operates within the Dutch public educational system and is subsidized by the Dutch government. It is formed to serve both the needs of the Maastricht international community and the students chosen by the UWC national committee system.

**Inside the Classroom**

At age 4, children can start their education at UWC Maastricht. The Primary Curriculum (until 11 year) is composed of a variety of subjects, at various levels of English language proficiency. After primary school UWC Maastricht offers the IB-Middle Years Programme (11-16 year-olds) in which students are encouraged to become critical and reflective thinkers. For 16-18 year-olds, UWCM applies the IB Diploma Programme Curriculum. Alongside the IB standard courses, the school offers Dutch, Spanish, German, Italian, Arabic, World Arts and Cultures, Global Politics, Visual Arts, Film and Music.

**Outside the Classroom**

UWC Maastricht has designed a social impact programme including action-oriented courses, social entrepreneurship

and community service projects. The students develop the skills and attitudes needed to be active participants in society, to identify problems and injustices wherever they exist. They design a local Project Week providing service to the Maastricht community, they organise and lead conferences and they learn to engage critically with the world around them. Because the students come from all over the world and many different backgrounds, there are unique insights and always interesting discussions.

**Campus and Facilities**

UWCM campus is located in a very green and leafy part of Maastricht, close to the city centre. The site is surrounded by sports fields, a nature reserve and modern housing. Students live on residences across three buildings consisting of three floors, each comprised of six rooms. Every room hosts four students, of different nationalities, so it is a lively setting. Each floor has a common room, study room, laundry room and kitchenette and is supported by a Residence Mentor who lives in an apartment adjacent to the floors.

**Admission**

Day student applications for Primary and Secondary must meet the requirements of the Dutch Law on International Education. Residential IB Diploma students are recruited through UWC's National Committee system (NC) or through the UWC Global Selection Programme.

**Website**

www.uwcmostar.ba

**Introduction**

UWC Mostar is the only UWC college built into a post-conflict country with the aim to “equip the next generations of young people with the knowledge, skills, leadership qualities and international values necessary to bridge the still existing ethnic divisions.”

**Inside the Classroom**

UWC Mostar offers the International Baccalaureate Diploma Programme curriculum. Alongside standard courses, the College offers Bosnian Literature, Croatian Literature, Anthropology, Balkan Studies, Economics, Environmental Systems and Societies and Visual Arts.

**Outside the Classroom**

UWC Mostar was established in 2006 as the core part of the Foundation Education in Action. UWC Mostar is the first UWC with an explicit aim to contribute to the reconstruction of a post-conflict society. Therefore the interaction of students with the local community is the essence of UWC Mostar. Annually students and staff organize projects and events open for the Mostar community and UWC Mostar is a frequent partner in almost all major events happening in the city of Mostar.

One of these is the Street Arts Festival, engaging young people from all parts of the city in a cooperative artistic adventure that aims to bring back to life the public spaces which have not yet recovered their pre-war liveliness. UWC Mostar also organises the annual Festival for Children in Mostar, European Researchers’ Night, Winter Arts Festival and has pioneered the Model United Nations concept in the whole country.

**Campus and Facilities**

Unlike most UWCs, UWC Mostar does not have a distinct, walled-off campus. The school building itself is located in the city centre and shares its premises with the Mostar Gimnazija, including science labs, a spacious, light-filled library in the attic, and a big assembly room. The Gimnazija’s sports facilities are available to all students. Students live in three residences in different parts of Mostar, sharing rooms with one to three other students from different ethnicities and nationalities.

**Admissions**

Students can apply through their UWC national committee or through the UWC Global Selection Programme.

**Introduction**

UWC Red Cross Nordic College has three pillars: Nordic, Humanitarian and Environmental. All Nordic countries contribute to the funding of the College, enabling the College to undertake a selection entirely based on merit and potential, creating a learning environment where diversity is truly experienced as a value for all.

**Inside the Classroom**

UWC Red Cross Nordic offers the International Baccalaureate Diploma Programme (IBDP). Alongside standard courses, students can take Danish, Norwegian, Swedish, Global Politics and Theater Arts. Additionally, all students take a Red Cross Diploma, and first year students attend weekly sessions in the Life Skills program, exploring and developing their familiarity with topics relating to the Nordic, Humanitarian and Environmental pillars of the College. Distinctive of UWC Red Cross is the The Survivors of Conflict Program, which enables young people with disabilities coming from conflict zones to attend UWC RCN. The aim is that the participants will return to act as resourceful and active society members in their home countries. This is assisted by the Foundation Year Program, a necessary prerequisite for including students from a marginalised background and is offered to students who arrive with a disrupted educational background

and limited competence in English. UWC RCN also runs a preparatory Summer Course in advance of the academic year to give new students with limited English exposure lessons in the language, provide them with a supportive network and introduce them to life at UWC.

**Outside the Classroom**

The college places a strong emphasis on community service with a wide range of cultural and outdoor activities (e.g. Ski Week, Cultural Days, crafts and other activities at Haugland Rehabilitation Centre). The College has its own centre for visitors, which receive camp school children in spring and autumn. This is a central part of the College Service program. The beautiful fjord landscape provides an excellent setting for activities in the water and on the mountains.

**Campus and Facilities**

The College has 5 student residences, each housing 40 students. The rooms are furnished in traditional Norwegian style and each has its own bathroom facilities. There is good access to the swimming pool at the Haugland Centre as well as a weight training room and a gym.

**Admissions**

Students can apply through their UWC national committee or through the UWC Global Selection Programme. There is a special selection process for the Survivors of Conflict Program.

uwcrobertboschcollege.de**Website**www.uwcrobertboschcollege.  
de**Introduction**

Located in Freiburg, Germany's "green city", the College has a special focus on sustainability, which is embedded in academics, student life and the architecture of the buildings. The proximity to the Black Forest National Park further allows for a well-rounded outdoor program. For the purpose of deliberate diversity, it currently provides 70% of its student body with full scholarships and is host to 90 nationalities.

**Inside the Classroom**

UWC Robert Bosch College offers the International Baccalaureate Diploma Programme curriculum. Given the College's focus on sustainability, the Natural Sciences play an important role, as does the field of Mathematics. Apart from other standard courses, the College offers Arabic, World Arts and Cultures, Political Thought, the History of Asia and Oceania. The Creativity and Activity sections include a wide range of often student led activities, such international vegan cooking or Bollywood dancing.

**Outside the Classroom**

Twice a year, during Project Week, students participate in projects that need to be bound to a learning outcome and can be a social service, an activity or a creativity. Four times a year, the College suspends classes and organizes Special Focus Days for the whole community. These days include presentations, workshops and speeches around one single

theme, such as Interfaith Dialogue or Democracy.

Integrated in the curriculum, Global Affairs are additional sessions targeted at dealing with questions of our time often involving known keynote speakers. Finally, the campus functions as a community: every student is encouraged to choose an area of interest within the College and to contribute to its maintenance.

**Campus and Facilities**

UWC Robert Bosch College is housed in an old monastery, surrounded by a historic monastery garden (dating back to 1340), which is cultivated by the community in an organic way and is considered a "green classroom". The Mensa is run by an NGO which provides jobs to people with disabilities. The student village is located opposite the Kartaus and has been built deliberately to set a contrast to the historic building. Each house offers a different perspective on the surrounding, a reflection of the diversity within: 24 students share a house. All buildings are constructed according to Freiburg's energy efficiency standards.

**Admissions**

Students can apply through their UWC national committee or through the UWC Global Selection Programme. The College also offers two scholarships per year to students with a refugee background.

Founded in 1975 as one of the first linguistic high schools in Italy, the Vittoria International School Torino offers bilingual education for children and young adults starting from elementary school and continuing through to the IB diploma. Located in the heart of Turin's city center, the school ensures a modern and innovative learning environment for students of all ages and nationalities.

Since the very beginning, we have leveraged the best of tradition and innovation both in the choice of educational pathways and teaching methods. Fully certified by the Italian Ministry of Education, the school offers bilingual primary and secondary programs in addition to traditional Italian and international, English-language high school programs.

We have been an authorized IB World School since 2008. We offer the IBDP grades 11 and 12. The Italian Government recognizes our DP as equivalent to the Italian Maturità Linguistico or Scientifico, depending on the track chosen by each candidate.

We have been a Cambridge Upper Secondary School IGCSE (grades 9 and 10) since 2010. We will be welcoming students at all phases of their education beginning in the Primary years and Lower Secondary as of September 2018.

Our curriculum is constantly growing and adapting to

the individual needs of our students. The final scores and completion rates of our students are consistently above the international average. We provide professional, personalized career and university guidance, and many of our students go on to study at world-class universities around the globe. Our students are supported in their pursuit of excellence in extracurricular activities, and many have been rewarded nationally and internationally in sports and the arts.

A low student-teacher classroom ratio allows for individual attention as part of a socially and academically rich formative experience. Our door is always open to parents and students who have ideas to propose or concerns to express, and we use a centralized, password-protected system to keep parents and students updated on all school activities.

Our teachers are all university graduates; IB and Cambridge trained. They are passionate about their subjects and dedicated to their students.

A vibrant discussion of global issues begins in our classrooms and extends into CAS projects. Students experience world issues as they play out in our local community and abroad. We have an ongoing relationship important international organizations located in Turin.

Warminster is a coeducational school of 550 students aged 3 to 18, located in the South-west of England. Founded in 1707, the school is a member of HMC and has been an authorized IB World School since December 2005.

Warminster School prides itself on its ability to combine a strong academic record and excellent facilities with a warm, friendly family ethos. A comprehensive pastoral care programme, centred around the role of the tutor, provides appropriate levels of support at all times.

Warminster School's students have consistently achieved excellent results, averaging 34 points in 2016, an average of 31 and a 100% pass rate in 2017, and an average of 30 in 2018. 95% of our students go on to study at leading universities around the world, including Oxford and Cambridge, where the IB Diploma is particularly well received. Several individual candidates have secured exceptional IB results; the highest candidate points scored to date is an outstanding 44 points out of 45.

Warminster School welcomes students from over twenty-eight different countries into a community that celebrates its own diversity and encourages service to local, national

and global societies. With a talented and enthusiastic staff and a diverse range of subjects and activities on offer, pupils are able to develop their potential to the full. The wide range of co-curricular activities include music, drama, a comprehensive range of sports and opportunities to go on challenging international visits.

Experienced resident house staff provide a supportive environment for boarding students in comfortable, well equipped boarding houses. Recreational activities and trips are arranged each weekend. For medical care there is a school nursing sister on duty every day.

Subjects offered vary according to student demand but typically include: English A and B, German A, 'self-taught languages', French B, Spanish B, Spanish *Ab Initio*, History, Geography, Economics, Biology, Physics, Chemistry, Maths, Maths Studies and Art. In addition to offering the Diploma Programme, from September 2017 Warminster School has offered the IB Career-Related Programme, combining Diploma Programme subjects with vocational qualifications (OCR Cambridge Technicals at level 3) in Business, Art and Design and Sport.

## Introduction

Waterford Kamhlaba UWC of Southern Africa was founded in 1963 as a response to the separate and unequal educational systems in South Africa. When His Majesty King Sobhuza II visited the school, he gave it the name “Kamhlaba”, which meant both “of the world” and also that we are “of the earth” and without distinctions such as race. Differently to all the other schools, the academic year at runs from January to November.

## Inside the Classroom

Waterford offers the Waterford curriculum in the junior school, the University of Cambridge International General Certificate of Secondary Education (IGCSE) program in the middle school and the International Baccalaureate Diploma Programme in the senior school. For the IBDP, alongside standard courses SiSwati, French, Spanish, Anthropology, Psychology, Business Management, Music, Theatre are offered.

## Outside the Classroom

As the only UWC school in Africa, Waterford is an ambassador of UWC’s mission on the continent and having educated a large group of African changemakers since its inception. With the School having been the first multiracial school in Southern Africa; founded as a direct response to its system of

apartheid, its history of embracing and celebrating diversity from across Africa and beyond is something deeply ingrained into Waterford Kamhlaba’s nature and continues to be at the core of its values today. The School, through community service, has strong relations with local organizations such as the refugee camp and neighborhood care points (children welfare centres). A commitment to community service has been recognized as an essential part of the school’s policy, organisation and life. A regular commitment to a service project is required of IBDP and Form 5 students, and projects usually vary from involvement at the local hospital to work for the disabled. UWC WK offers a wide variety of sporting- and recreational activities run by both staff and students (e.g. kayaking, art clubs, etc.).

## Campus and Facilities

Ekukhuleni residence accommodates up to 80 Form 1, 2 and 3 students. Esiveni accommodates up to 110 Form 4 and 5 students. Emhlabeni and Elangeni accommodate, respectively, up to 130 and 68 IBDP students, in either single rooms or shared rooms; consisting of separate wings for males and females. Each day there is one male and one female residence tutor on duty in each residence.

## Admissions

Students can apply through their UWC national committee or through the UWC Global Selection Programme.

**Website**

www.wellingtoncollege.org.uk

Wellington College is a vibrant, inspiring and challenging all-round coeducational boarding and day school set in 400 acres of parkland, 40 minutes from Heathrow. It opens the hearts and minds of its pupils by developing each child's individuality, allowing them to become interested and interesting life-long learners. Its international reputation in sports, arts, service, wellbeing and leadership, and its genuine commitment to an education that extends far beyond the classroom ensures that students leave school equipped for the challenges and opportunities of tomorrow's world. The Wellington identity is built on inspiration, intellectual curiosity, true independence, the courage to be properly and unselfishly individual and a generous and far-reaching inclusivity. We hope that all our pupils will find the inspiration to choose to be the very best that they can be, to make of themselves something special, no matter what their talents are. 100 Wellingtonians have been offered places at Oxford or Cambridge over the past four years and on average 25 pupils move on to US universities each year, many to Ivy League institutions.

190 pupils take the IB Diploma in the Sixth Form. 65% are from England and the rest are from 50 different countries (this stat sets us apart from competitors who tend to have smaller programmes with only international pupils). In 2018 our Diploma students obtained an average of 39.3 points, with 51% scoring 40 or more and three pupils achieving the perfect score of 45. Our high academic expectations of our pupils are expressed through encouragement and support – nearly 40% of teachers have Masters or Doctorates and all are specialists.

Wellington College introduced the International Baccalaureate Diploma Programme in 2007. Its philosophy – of combining academic rigour with breadth and depth – is very much in sympathy with our own. We offer a wide range of subjects, at all levels, and we believe our support for the core subjects – the extended essay, theory of knowledge, and creativity, activity, service – is truly world class, combining as it does academic expertise with outstanding opportunities and resources. This is a school that actively promotes excellence without compromising the ideals embedded within the IB's learner profile.

At present there are 640 boys and 400 girls, of whom 190 are day pupils. Subjects offered in the IB Diploma Programme are all at both HL and SL unless stated:

**Group 1:** English literature, German literature, German language and literature, English literature and performance SL.

**Group 2 Modern B (HL, SL and ab initio):** German, Spanish, French, Mandarin.

**Group 2 Modern B (HL and SL):** Italian, Russian.

**Group 2 Classical:** Greek, Latin.

**Group 3:** business and management, economics, history, philosophy, psychology, geography, global politics, environmental systems and societies SL, art history SL.

**Group 4:** biology, chemistry, computer science, design technology, physics, sports, exercise and health science, environmental systems and societies SL, astronomy SL.

**Group 5:** mathematics pure and applied.

**Group 6:** music, visual arts, theatre arts.

Wellspring Learning Community is the first IB Continuum World School in Lebanon and it is the realization of a belief that children of Lebanon deserve to study in a high quality learning environment that opens up space for developing their talents and intellectual potential, as well as their capacity for caring about the world around them. Wellspring is a non-sectarian community with no political affiliations. Depending on availability, enrolment is open throughout the year. We welcome inquiries and visits from interested families.

**Authorization**

Wellspring is authorized for the IB Diploma, Middle Years Programme, and Primary Years Programme.

**Vision and Mission**

Wellspring is an inquiry-based learning environment where students are given every opportunity to realize their social, emotional and academic capacities. Teachers, students and parents work collaboratively in an atmosphere of mutual respect and trust by sharing a positive learning environment that builds on an ongoing process of self-assessment, evidence-based decision making, and continual improvement. Our students will become confident,

resourceful, creative, caring, responsible and thinking citizens, prepared to use their education to contribute in meaningful ways to improve society; locally and internationally.

**Teachers**

Our 151 faculty members are highly qualified and experienced teachers; many are native English speakers. In addition to being IB trained, some teachers hold additional positions within the IBO such as workshop leader and workshop evaluator.

**Students**

Wellspring has a large international population, with 54 countries represented across our two campuses, in addition to our local students that come from diverse backgrounds within Lebanon.

**Facilities**

We are proud to offer two campuses in the vibrant heart of Beirut. Both environments are attractive, technologically advanced, and continuously upgraded to keep pace with the demands of the educational program. Facilities include music and art rooms, science labs, computer labs, cafeteria (CCC), libraries, play areas and sports spaces.

**Website**

www.windermereschool.co.uk

Windermere School is situated in the heart of the Lake District National Park, a UNESCO World Heritage Site. The rugged beauty of the landscape not only makes for an inspiring educational setting but enables students to make use of what surrounds them.

The curriculum offered at Windermere School reflects the belief that students should be exposed to as many opportunities as possible and leave the School as well-rounded individuals. We have offered the International Baccalaureate Diploma programme (DP) since 2009.

Windermere School is not academically selective and we aim to help each student find the pathway most suitable for their ambitions. We believe that it is essential that students have access to high quality careers advice and are given the opportunity to explore an extensive range of career options. We are committed to finding what is right for each student, whether it be the DP or Career-related programme.

Over the past few years, leavers have gone onto a variety of universities, including Oxford, Cambridge, Imperial College and Durham.

We are a Round Square School and this blends perfectly with the IB philosophy and the two intersect with Service at their cores and we support many Service initiatives. Each year a group of students travel to South Africa to support the Thussanang Service project. We also support worldwide humanitarian appeals and, locally, provide support in residential care homes and with conservation projects.

There is a vast array of academic and extra-curricular opportunities available to students: School musical, sports and adventurous expeditions. The School boasts its very own RYA accredited watersports centre and in 2018 it was the first school in the UK to become a British Youth Sailing Recognised Centre for its race training.

The Sixth Form boarding house is designed to promote the successful transition between School and Higher Education. It is laid out in apartments with twin and single bedrooms, a bathroom, common room and kitchen. There is also a large communal space for socialising and numerous social events are held throughout the year.

school@integration21.ru

**Website**

www.integration21.ru

The XXI Century Integration School is an independent day school for girls and boys from Kindergarten to Grade 11. The school has a proud tradition of excellence in education, sports and cultural pursuits.

XXI Century Integration is comprised of a kindergarten for five and six-year olds, based on ideas such as respect, trust, compassion, rights and responsibilities; a primary school with an emphasis on numeracy and literacy and a senior school, where students choose from the National Programme, or the IB Diploma Programme. The school campus is located to the North-West of Moscow in Strogino, one of the green districts of the capital. The facilities are modern, well-equipped and easily accessible by public transport. XXI Century Integration is an internationally minded school that encourages cultural exchange and welcomes students from all over the world.

XXI Century Integration has an inclusive school policy and all students are welcome. We offer the IB Primary Years Programme, the IB Middle Years Programme and the IB Diploma Programme and/or the National Programme.

The IB Diploma Programme subjects on offer are Russian, Croatian, English, French, Italian, German, Chinese, Spanish, Business management, History, Environmental Systems and Societies, Biology, Chemistry, Physics, Computer Science, Mathematics, Visual Arts and Music.

XXI Century Integration's academic results are outstanding: 51% of the 2015-2018 IB Diploma students achieved a score of 38-42. The school balances excellent academic results with a range of exciting co-curricular activities including sports, arts, music, drama and community service.

The most important attributes of school life are the school's five core values of relationships, courage, creative reflection, intellectual enquiry and engagement in life. It's values are aligned with the IB philosophy of developing inquiring, knowledgeable and caring people who create a better world through intercultural understanding. Students learn in an environment that nurtures important life skills, thus ensuring that students leave XXI Century Integration as well-rounded, self-reliant and confident individuals.

We participate in the IB Schools to Schools Projects in Russia and abroad. In August XXI Century Integration runs a summer school in a beautiful area of Croatia where students take part in fun activities that prepare them for future studies within all the IB Programmes.

XXI Century Integration also holds a signed agreement with the City University of Hong Kong (City U) to provide scholarship opportunities for highly talented students at our school, thereby allowing our students to pursue full-time undergraduate education at City U.

# TAKE YOUR HIGH SCHOOL STUDIES TO THE US OR UK

Our students live the IB ethos each day. With over 75 nationalities represented at our schools in New York, Oxford and Torbay, they learn from each other's differences and seek to build a better world.

## BY EARNING THE IB DIPLOMA AT EF ACADEMY, YOU WILL:

- Be encouraged to think critically and independently
- Build a path that can lead you to some of the top ranked universities around the world
- Become more culturally aware, considering both local and global contexts
- Be able to respectfully engage with and understand people in an increasingly globalized, rapidly changing world

Plus, our dedicated community of advisors, teachers and fellow classmates will be there to support you every step of the way.

# IB

## ASIA-PACIFIC

# IB Asia-Pacific

## Some facts about this region

In the Asia-Pacific region, we support over 870 schools offering more than 1,290 programmes in 29 countries and territories. The largest concentration of IB World Schools in Asia-Pacific can be found in Australia with 188 schools, Greater China with over 180 schools and India where there are over 150 IB World Schools offering one or more IB programmes.

### You will find the IB World Schools in:

Australia	Guam	Lao People's Democratic Republic	New Zealand	Sri Lanka
Bangladesh	Hong Kong	Macao	Pakistan	Taiwan
Brunei Darussalam	India	Malaysia	Papua New Guinea	Thailand
Cambodia	Indonesia	Mongolia	Philippines	Timor-Leste
China	Japan	Myanmar	Singapore	Vietnam
Fiji	Republic of Korea	Nepal	Solomon Islands	

## IB Asia-Pacific Global Centre, Singapore

Our IB Global Centre, Singapore provides ongoing support to Candidate and authorized IB World Schools across the globe in implementation of IB programmes. The IB Global Centre, Singapore is responsible for functions including the supporting schools interested in becoming IB World Schools and schools in candidacy working towards authorization. Regular, ongoing and rigorous evaluations of authorized IB World Schools are part of our commitment to keeping high quality, consistent academic standards around the world. We also organize teacher professional development workshops for schools in the Asia Pacific and develop greater recognition of IB programmes by directly working with universities and governments.

### Commitment to serve the diverse needs of our schools

To enhance our services and support to schools we now have transitioned into a new structure with an authorization department specifically supporting schools in candidacy and an IB World Schools (IBWS) department focusing on building active and engaging relationships with authorized IB World Schools and meet their diverse needs.

As a special project, we continue to work with the Ministry of Culture, Sports, Education, Science and Technology (MEXT) in Japan to expand access to DP subjects and examinations in Japanese in a select group of subjects. Recently we have received interest from some Provincial Offices of Education in South Korea who are interested in introducing IB programmes in their public schools.

The IB's dynamic development, authorization and IB World Schools teams are constantly reaching out to

communities to raise awareness of the value of an IB education. From contacting interested government systems or educational investors, to mentoring candidate programmes or recognizing, sharing and endorsing best IB practices across a global network of authorized IB schools, together we are making the education in the Asia Pacific an ever more inspiring environment for tomorrow's children to explore

## The IB Educator Network (IBEN)

The IB Educator Network (IBEN) in Asia-Pacific is made up of IB practitioners fulfilling the roles of workshop leaders, field representatives, school visitors, consultants, readers and lead educators; and is part of the wider Global IBEN community. Through the contributions of the IBEN educators (IBEs), we can provide support and training to promote high-quality experiences in classrooms and schools. In the Asia-Pacific region, there are currently 1,113 IB educator network members who contribute in various professional development roles and school services roles for the four IB programmes.

Thank you to all IB Educators, Heads of Schools and their staff from the IBEN Team for your continued interest and support of the educator network and your collaborative contributions to the wider IB community. Look out for our 2019 recruitment/development opportunities in MyIB. We look forward to identifying and providing development opportunities to new educators to meet our identified growth areas, and ongoing support to those network members currently carrying out roles for us.

We also look forward to working with you all in 2019 and hope to see many of you at the Global Conference in Hong Kong in March. Thank you to all IBEs who have submitted proposals to lead a break-out session at the conference. Finally, we encourage all Educator Network members to IBEN Engage, a great platform within MyIB to share, collaborate, and keep current with what is happening within the Network.

## Professional development in the Asia-Pacific region

In Asia-Pacific, we strive to improve professional development accessibility by bringing the workshops to our educators. Most of our regional workshops are hosted by IB World Schools, we hope that it will achieve a double effect of bringing professional development closer to you and your community and providing a familiar environment that catalyses assimilation of new learning. Furthermore, this also provides the opportunity for a school visit, which facilitate the exchange of experience and best practices. If you are a school interested in hosting IB regional workshops, reach out to us via [www.ibo.org/globalassets/events/ap/host-a-workshop-ap-en.pdf](http://www.ibo.org/globalassets/events/ap/host-a-workshop-ap-en.pdf).

Join us at our regional workshops to network and to bring regional and global perspective to a face-to-face learning environment. Please visit [www.ibo.org/pd](http://www.ibo.org/pd) for our professional development workshop schedules and catalogue. You get to enjoy early bird savings when you register two months ahead.

On demand in-school workshops are designed to provide professional development to meet the needs of the teachers

and staff in your school premises. It creates a collaborative environment for your teachers and provides them with time to reflect and plan action that is relevant to your school. Contact us for more information or to explore other benefits of in-school workshops.

We work closely with informal regional networks of IB programme coordinators. Schools can leverage on these networks to help us plan the right workshops.

## University recognition

We have more than 2,000 published recognition policies from universities around the world, including 500 policies in Asia-Pacific. In the past five years, student university destinations within the Asia-Pacific region includes (in order of preference): Australia, Hong Kong, India and Singapore. These include foreign students going to these countries as well as students remaining in their home country. In Hong Kong, for example, which has a high diversity of student nationalities and university destinations, the most popular choices are Hong Kong, United Kingdom, Canada, the US and Australia.

In Australia, the Group of Eight (Go8) universities and all major tertiary institutions recognise that the IB Diploma is a comprehensive and challenging programme.

In India, we have a long-standing partnership with the Association of Indian Universities (AIU). Through our work with the AIU, the IB Diploma has been recognized as an entry qualification to all universities in India since 1983, and this was renewed in 2012 with the additional recognition of the MYP.

The Malaysian Qualifications Authority (MQA) has granted the IB Diploma as having equivalency to STPM or Malaysia's Grade 12 qualification while the MYP Certificate is equivalent to the country's SPM or Grade 10 qualification.

The Inter Board Committee Chairmen of Pakistan has also granted both the MYP and the DP equivalency to the country's Secondary School Certificate and Higher Secondary School Certificate respectively.

The IB in the Asia-Pacific is continuously collaborating with Japan's Ministry of Education, Culture, Sports, Science, and Technology (MEXT) in implementing the Dual Language Diploma Programme in Japanese.

## Associations of IB World Schools in the Asia-Pacific

Associations of IB World Schools are independent organizations established under the Guidelines of Associations of the IB. The members are commonly IB Candidate and IB World Schools. Groupings in the Associations are based on geographically relevant communities to support IB World Schools as well as schools new to the IB in the region. The IB Associations in Asia-Pacific commonly represent a country such as India, Japan, and Australia among others. Most associations charge a fee to schools belonging to their group.

Associations, who are independent of the IB, support member schools through advocacy and by:

- providing current information on the local and regional context, e.g. what is happening in education, changes

affecting the schools in their Association, feedback, advisory capacity, a platform for collaboration and IB research.

- disseminating updates and seeking advice from the IB about core IB services such as professional development (PD), school services, government and university recognition.
- providing professional development in association with the IB, when a separate agreement is in place.

There are currently five Associations of IB World Schools in the Asia-Pacific region:

- IB Association of Japan (IBAJ)
- IB Association of World Schools for South Korea Resource Centre Society
- IB Schools Australasia (IBSA)
- The Association of Chinese and Mongolian International Baccalaureate Schools (ACMIBS)
- The Association of International Schools of India (TAISI)

## IB research

Key findings from research on the impact of IB programmes in the Asia-Pacific region:

- A study across five countries (one of which was China) explored student, teacher and parent **experiences with the PYP exhibition**—the in-depth, culminating project of the PYP. Study participants found the exhibition to be a pivotal experience that helped students to develop critical thinking skills, international-mindedness and learner profile attributes. Additionally, parents valued the exhibition for fostering “real world” skills, such as evaluating

information and reflectiveness (Medwell et al 2017).

- At two leading universities in **East Asia** and one in **Australia**, researchers examined **post-secondary outcomes** and **critical thinking skills** of DP and non-DP alumni. While there was no significant difference in grade point average (GPA) between the two groups, in general, DP alumni reported higher capacities for a variety of critical thinking skills compared to their non-IB peers. DP graduates were particularly confident in their capacity for cultural sensitivity, global-mindedness, critical thinking, leadership, and time management (Lee et al 2017).
- Researchers examined **student performance** in 14 state and private schools in **New Zealand** as well as **curriculum alignment** between the PYP and the New Zealand Curriculum (NZC). Analysis of a national standardized test indicated that achievement in the PYP schools generally exceeded achievement in non-IB schools with similar student populations. The study also found that the PYP and NZC are largely compatible, although there were a few points of difference, specifically the emphasis on international-mindedness, inquiry and action in the PYP (Kushner et al 2016).
- Exploring the **curriculum alignment** between the PYP and MYP and the national curriculum of **India**, curriculum analyses demonstrated clear similarities between the PYP and MYP and the Indian education system. Furthermore, there were many shared principles and aims, as well as framework compatibility, that should enable Indian IB World Schools to implement the PYP and MYP in a way that is well-matched with the aims, values and requirements

of the Indian National Curriculum Framework and central education boards (UK NARIC 2016).

- In **China, Hong Kong, India, Indonesia and Japan**, researchers compared the **DP outcomes** achieved by students who completed their middle years studies in the MYP, a state or national curriculum, or another international programme. Former MYP students performed significantly better than non-MYP students in the total DP points earned, as well as in subject exams in language and literature, language acquisition, individuals and societies and mathematics. The MYP students also reported using higher-order thinking skills, such as critical thinking and analytical skills, more frequently than the non-MYP students (ACER 2015).
- Researchers investigated the impact of **creativity, activity, service (CAS)** by exploring the perceptions of those involved in the programme, past and present. Coordinators, students and alumni surveyed from **across the world** (including in the Asia-Pacific region) believed that CAS helps students to become better at “taking on new challenges”, “learning to persevere” and “developing better interpersonal skills” (Hayden et al 2017).
- Researchers in a **global** study conducted a curricular comparison of four DP **mathematics courses** along with five mathematics qualifications from around the world (Alberta Diploma, Advanced Placement, GCE A levels, **Singapore-Cambridge GCE A Levels and Gōokō**). Of the curriculums investigated in this study, the DP offered the greatest number of mathematical course options for students with different needs. Additionally, based on the criteria used in this analysis, the IB’s further mathematics HL was determined to be the most cognitively demanding course of the curriculums examined, followed by A level Further

Mathematics and Singapore H3 Mathematics respectively (Alcántara 2016 and UK NARIC 2016).

- A study in **Japan** investigated the implementation of the **dual language (Japanese and English) DP** in Japanese secondary schools. Taken as a whole, the study highlighted the need for more practical help in addition to general advice from the Japanese Ministry of Education, Culture, Sports, Science and Technology (MEXT) and the IB as well as greater flexibility with regard to determining curricular equivalency. An additional finding was that Japanese DP students reported higher ratings than non-DP students for being internationally-minded and had higher expectations of acquiring problem-solving and leadership skills while at high school (Yamamoto et al 2016).

### The IB alumni network (Asia-Pacific)

The IB Alumni Network is a resource for IB graduates around the world. The network links graduates from IB World Schools in 153 countries to support their future studies and careers. By connecting with the IB, former students have the opportunity to participate in research, support development efforts and speak at our events. These graduates are also supporting educators and parents in understanding the impact of an IB education from a student’s perspective. To see how graduates are supporting IB programmes, visit [ibo.org/programme-stories](http://ibo.org/programme-stories) and connect with us at [ibo.org/alumni](http://ibo.org/alumni).

Alcanta International College is a unique school with high ambitions. We put students at the center of their own international education with the goal of developing global citizens prepared for a world of options when they leave our campus. We aim to live the IB ideal.

Established in 2011, AIC has been inspired by the IB philosophy. We push students to inquire, to be open-minded as they live among a diverse student body, to care for one another, and to maintain balance in their own lives. Beginning with a cadre of 12 students, we have steadily grown to a student body of over 200, with our sights set on more than three times that number. Despite our growing numbers, we maintain small class sizes so we can address the academic and social needs of individual students. We like to claim that we are the most personal school in southern China with an overall teacher-student ratio of 1:8. We take pride in the close relationships and friendly cooperation among students, parents and teachers.

We are one of the few international schools in China that enrolls both Chinese nationals and students who come from

other countries. Our modern facilities and contemporary education practices provide access to rich learning opportunities for a diverse group of learners.

The school runs the IB Diploma Programme for its senior students, and also offers a four-year Pre-IB Program aimed to prepare students for an IB education. The Pre-Diploma Programme is unique to our school as it blends the school's particular needs with ideas borrowed from a diverse set of international curricula. We offer contemporary education practice, complemented by the modern facilities and equipment that one would associate with a new school.

AIC is located in the beautiful Nansha District of Guangzhou, conveniently situated near three airports that make it a good launch point for international travel – Shenzhen, Hong Kong, and Baiyun. Sitting at the mouth of the Pearl River Delta, just a short ferry ride from Hong Kong, residents of Nansha enjoy tree-covered hills and riverside walking trails. A short trip to the north provides access to Guangzhou, the most populous city in southern China with a long history and a bustling modern atmosphere.

**Welcome**

Our team is waiting to welcome you at our school either online or in person.

**Mission Statement**

A spirit of community shapes the A-JIS experience. We are dedicated to developing global-minded, compassionate, collaborative learners inspired to learn, take risks, and lead change in the world.

**Vision**

A-JIS will continue to be a leading international school. We provide our young people with a vigorous international education conducive to learning. Learners' needs and perspectives are supported and respected and their unique qualities valued and nurtured. Through a continued emphasis on educational excellence and innovation, each individual learner is provided with relevant resources and opportunities that will enable them to secure the best of what the future holds for them.

**Our Philosophy**

We believe that our young people are enabled to reach their full potential as international citizens who are dedicated to learning and who are inspired to succeed in an ever-changing world.

**Our 5 core Values**

At A-JIS we value the concepts of:

- Global Leadership
- Entrepreneurship and Innovation
- Effective Communication

- Wise Risk Taking
- Effective Problem Solving

**Our Learning Environment**

The school is a welcoming, inclusive and engaging place for learning. We proudly follow the IB curriculum in the PYP, MYP and DP. Owned by BBT (Business Breakthrough University – Japan's largest online university), our recent focus has been on investing in our people and providing contemporary learning environments for our learners. Apart from our renovated playing fields, all our classrooms are equipped with interactive technologies providing connections to the world.

**Our Learning Aims**

Embracing the IB philosophies and practices, our school aims to support our learners to become global leaders capable of making positive changes in the world. We aim to have all our learners achieve their personal goals by connecting learning, and their development as learners, through constructive and proactive membership within the communities they live in – school, local, home and global. Our learners are encouraged to follow their passions and interests and build the critical and discerning capacities needed to make wise decisions. We have dramatically increased the choices our learners have within school and for when they leave us, be it into university, business, creative industries, or the social sectors in our society.

**Location**

A-JIS is a caring K-12 learning community set in the peaceful

and leafy north-western suburb of Tokyo. It is easily accessible by the Tokyo metro train system and a short 10-minute walk from Hikarigaoka station, which is 25 minutes from downtown Tokyo. The school has a long tradition of being a welcoming and inclusive place of learning and that tradition is being continued under the new ownership of Business Breakthrough University. The partnership between BBT and A-JIS has already produced benefits for our learners and teachers alike. With a focus on investing in our people and learning environments we are driven to provide our

young people with a wealth of opportunities to learn, develop as learners and use what they learn to good effect.

**Support Program**

We provide extensive support for both English as an Additional Language and Learning Support. Our expert teacher teams and faculty have university-level EAL course qualifications. We also have opportunities for sports, swimming, after-school clubs, and summer school. We look forward to connecting with you soon.

The American School of Bombay (ASB) was founded as an independent, coeducational day school in 1981. The school offers an educational program from Prekindergarten to Grade 12 for 700 students representing over 50 nationalities. ASB was designed to serve the expatriate community of Mumbai and is recognized with full accreditation from the Middle States Association of Colleges and Secondary Schools. ASB has been an IB World School since 1998 and is authorized to offer both the Primary Years and Diploma Programmes. While focusing on the development of the whole child, the school offers a college preparatory curriculum that awards graduates an American high school diploma and/or the IB diploma.

ASB challenges students to become lifelong learners; pursuing their dreams while being caring and sensitive to the needs of others. ASB is a school that believes mutual trust and respect are essential for healthy, enduring relationships and to that end promotes international mindedness on the parts of adults and students in the school community. Our school houses families and students from diverse cultures and perspectives and is committed to international understanding and responsible citizenship.

Developing 21st century learning skills is a priority at ASB. These skills complement and enhance the IB learner profile, the school mission and form the basis of our programming. Students focus on communication skills, being digitally literate and inventive thinking through effective teaming,

collaboration and interpersonal skills. They are encouraged to be aware of their personal, social and civic responsibility towards themselves and others and this is emphasized through our well-established Community and Social Responsibility (CSR) and CAS programs. The school's curriculum is enhanced with a widely-recognized one-to-one laptop program throughout the school that focuses on technological fluency from the earliest years. Students are required to bring their own laptops in grades 4 through 12.

ASB's well-equipped campuses – both academically and recreationally – offers a number of extended learning opportunities after school and during school holidays. ASB is a member of the South Asia Inter-School Association and the American Schools in India Activities Conference, which provide students the opportunity to compete in sports and collaborate in the arts with other international schools. Students also participate in Model United Nations, International Schools Theatre Association and international choral and instrumental concerts. In addition, all middle and high school students participate in a Week Without Walls/ Yatra program that is directly linked with the curriculum.

ASB graduates are accepted at the world's finest colleges and universities including MIT, Harvard, Columbia, Princeton, Brown, Johns Hopkins, Emory, Duke, McGill, University College London, Leeds University, University of Sydney and the University of Paris and contribute personally and professionally across a diversity of fields.

**Globally focused, distinctly Australian**

The Australian International School's 'globally focused, distinctly Australian' approach provides students aged 2 months to 18 years with an international education that is underpinned by the Australian curriculum. As the only southern-hemisphere school in Singapore to offer both the IB and Australian curriculums, the Australian International School is widely regarded as a leading centre of educational excellence.

**A place for every child**

The Australian International school offers a holistic, well-rounded education, which cherishes the arts and sport as well as academics as being essential to each student's learning journey. The AIS curriculum and culture not only values academic achievement, but aims to develop students into adults who have a moral commitment to making the world a better place as reflective, caring knowledgeable and principled people.

Students at AIS enjoy a wealth of opportunities across academics, sport, the arts and co-curricular activities. There is a place for every child at AIS, and as such the school remains non-selective in its admissions policy, confident that it is not intellectual ability alone that determines an individual's worth or contribution to the world.

As an international school, diversity is at the heart of the AIS culture. With a community made up of more than 50 different nationalities, students are exposed to a truly global education and the opportunity to gain a deeper

understanding of other cultures.

**An education that delivers results**

Despite its non-selective admissions policy, AIS consistently achieves outstanding academic results across all areas of the curriculum. In 2017, the School achieved a 100% pass rate on the IBDP for a second year running, with an average score of 34.5 (15% higher than the global average.) One student achieved the top point score of 45 and has been accepted into Stanford University, USA to study Biochemistry. Another student achieved a top ten in the world result in the Australian HSC for Legal Studies and will be going on to study Marketing at Macquarie University, Sydney. The School continues to strive for academic excellence as part of a well-rounded and balanced education.

**New Early Learning Village**

AIS has continued to grow rapidly since it was founded in 1993, with the latest groundbreaking stage of development having launched in 2017. The Early Learning Village opened in July and provides learning capacity for 800 young learners aged 2 months to 6 years.

Featuring bright, spacious classrooms each with their own outdoor learning space, the Early Learning Village is the first of its kind in Singapore and every element has been specifically designed with young learners in mind. With sprawling outdoor play decks, 6 multi-purpose rooms for dance, drama, music and physical education, plus a specialist early learning swimming pool, this is a place where young children love to learn and have fun.

## Background

Beijing National Day School (BNDS) is a public, co-educational day school founded in 1952, providing superior education for China's high achieving youth. Through collaborative inquiry and holistic approaches to teaching, BNDS is a unique community that supports student success in an inclusive and academically challenging environment. Faculty and staff at BNDS join together to inspire and prepare future global leaders, providing opportunities for cross-cultural exchange and adapting instruction to meet the needs of 21st-Century learners. As an internationally accredited school offering the prestigious International Baccalaureate Diploma Program, BNDS graduates are consistently admitted to the best universities in the United States, Canada and the UK.

## Facilities and Curriculum

BNDS is located 12-kilometres directly west of Tiananmen Square in the multicultural city of Beijing. The school's vibrant, modern, and technologically integrated facilities reflect its goal of providing students with the best learning environment. The campus is extensive (over 156,000 square metres), boasting numerous classroom buildings, arts centres, libraries, gymnasiums, science centers, and sports fields. The school-wide campus intranet connects more

than 1,100 computers, and 116 classrooms are equipped with interactive whiteboards, printers, and multi-media resources connected to the internet. Additionally, the science and technology building has modern labs for mathematics, physics, chemistry, and biology.

BNDS offers four different curricula: Chinese National Curriculum, A- Level, AP, and IB Diploma Programme. Additionally, BNDS offers students a wide range of extra-/co-curricular activities including advertising, animation, automobile design, debate, economics, environmental studies, equestrian, fashion design, fencing, foreign languages, skiing, and student government.

Moreover, 30 field-research courses, 280 clubs and organizations are part of the daily life of IB Diploma students at BNDS.

## Faculty

BNDS teachers and administrators are highly experienced and qualified professionals who are committed to the learning and development of each student. BNDS has more than 460 educators most of whom hold advanced degrees in their respective fields from prestigious universities in China and abroad. The school's international department has 79 international teachers, counselors, and administrators of 12 different nationalities from North America, South America, Europe, Asia, and Australia.

Beijing No. 80 High School (BJ80) was founded in 1956. Since its founding, BJ80 faithfully adheres to its educational philosophy, under which “every student can succeed in his or her own unique way as much as every tree creates its own sphere of nature”. The school strives to inspire and educate every student to be a prime example of elite who demonstrates the core values of diligence, honesty, creativity and dedication. The school prides itself for being continuously elected as a National Advanced Scientific Research Unit, a National Traditional Projects School of Track and Field, a National Advanced Arts Unit, a National Top Ten Educational Innovation School of Science and Technology, Beijing Advanced Moral Education School, IT Field Base School of Beijing Soaring Plan, Beijing Jinfan Pipe Band, Beijing Jinfan Dance Company, Beijing Jinpeng Scientific Community, Beijing Base School of Training Sports Talents, Beijing Scientific Activities Model School, and Beijing Campus Environment Model School.

Built upon the spirit of “Casting the national Souls and Fostering International Talents”, the international education system with the characteristics of Beijing No.80 High School

has been formed through the fusion of Chinese and foreign high-quality education. Presently, the school houses more than 500 students from more than 30 countries and regions. Each year, a large number of outstanding and talented students have been admitted to many prestigious Chinese and foreign universities. Among the students taking the Entrance Examination of Foreign Students, the International Department prides its record of attaining a perfect college admission rate. Among them, the acceptance rate of Peking University and Tsinghua University have been more than 60%; In 2018, 92% of senior students from the AP program received offers from the top 50 US Universities, while 100% of senior students from the A Level program received offers from the top 30 UK Universities, including Stanford University, Cornell University, Washington University in St. Louis, Imperial College London, etc.

The School is currently a CIE center, AP school approved by College Board, and an IB World School. In June 2017, BJ80 was formally accredited by AdvancED, making the school the first one in Asia to be accredited for both international & national divisions. Beijing No.80 awaits you!

Branksome Hall Asia is the sister school of Branksome Hall, a 115-year-old independent girls' school in Canada, consistently ranked as one of the world's best boarding schools. Founded in 2012, we are an IB World School that offers the academically rigorous and challenging Diploma Programme, Middle Years Programme and the Primary Years Programme.

At Branksome Hall Asia, girls take center stage as they learn and grow. We nurture the development of global perspectives and leadership through service, which benefits all students as they discover their "Remarkable" and their place as leaders locally, nationally and globally. Our distinctive educational journey actively pursues our mission, "To challenge and inspire girls each day to love learning and to shape a better world." This educational journey promises to support each student to discover within themselves a strong voice, to take risks and step outside their comfort zones, and the power to lead lives of curiosity, empowerment, service to others, and personal fulfillment.

Dedicated to providing exemplary educational programs, our students grow as globally minded learners and leaders prepared for the challenges and opportunities they will meet

in a rapidly changing interdependent world. They grow as architects, athletes, debaters, doctors, engineers, historians, lawyers, mathematicians, musicians, researchers, scientists, writers and much more, and often at the same time.

From JK Prep to Grade 12, our students share their learning and living in a state-of-the-art world-class facility that embodies and encourages our value for intellectual inquiry, collaboration, effective communication, and strength of character. Branksome Hall Asia vibrates with students' energy and warmth.

The exceptional Branksome Hall Asia faculty fuels this energy. Experts in their field and dedicated to professional growth, their commitment to the highest levels of learning, to ensure each student discovers her unique "Remarkable," is central to our success.

Our remarkable history transforms into a remarkable future at Branksome Hall Asia. If you strive to reach your intellectual potential, value a well-rounded and rigorous educational experience then Branksome Hall Asia has been created for you. Intellectual rigor, empowering women, innovation, and a commitment to shaping a better world exemplify the Branksome Hall Asia experience.

At the British International School Hanoi, we are a caring community that enables children to realize their academic and personal potential in a dynamic and challenging learning environment which values enquiry, perseverance and reflection. Our students act with integrity and treat one another with respect, learning together as responsible global citizens.

BIS Hanoi is a state of the art, purpose-built school whose campus boasts exceptional learning facilities and includes a dedicated Early Years Centre, a large library, a theatre, an auditorium, an indoor 25-meter swimming pool, a sports hall, as well as artificial turf playing fields. The school has specialist suites for Science, Music, ICT, Art and Drama.

Building on the success of its sister school in Ho Chi Minh City, the British International School opened doors in Hanoi in 2012 and in the short time since, has established itself as one of the premier international schools in Vietnam's vibrant capital city. The British International School Hanoi is a selective, independent and co-educational day school, providing a British-style education for an international student body aged between 2 and 18 years old. Students at BIS Hanoi follow the English National Curriculum from the Early Years Foundation Stage through Key Stage 3, supplemented by IPC – the International Primary Curriculum.

The IGCSE qualification is available to students in Key Stage 4 through Cambridge Assessment International Education.

The school became an IB World School in January 2016 and began offering the IB Diploma Programme from August 2016. School-wide curriculum alignment builds toward Key Stage 5 where over 20 IB subjects are offered. A rigorous academic program is supplemented by a wide variety of available CAS experiences. In the academic year 2017-18, BIS Hanoi had 34 DP candidates who achieved an overall Diploma average of 32.3 points, with the highest grade achieved of 44 points.

Students at BIS Hanoi can participate in the globally-renowned Duke of Edinburgh's International Award, the world's leading youth achievement award. In the summer of 2017, four DP candidates at BIS Hanoi became the first in Vietnam to complete the Gold Award, with an expedition in the highlands of South Korea.

In 2015, BIS Hanoi was granted membership of FOBISIA – the Federation of British International Schools in Asia, while in 2017 the school became a fully accredited member of CIS – the Council of International Schools as well as ACS WASC – the Western Association of Schools and Colleges. Since 2015, BIS Hanoi has been a proud member of Nord Anglia Education – the world's leading premium schools organization.

Bucklands Beach Intermediate School opened in 1976 to provide quality education to preadolescent students in the 11-13 year age group. Our mission is 'To educate, guide and mentor all students to become successful, internationally minded, lifelong learners.' The current school roll sits at 800, consisting of students from a diverse range of global backgrounds.

BBI is located in the Eastern suburbs of Auckland, in close proximity to several outstanding beaches. The city centre is 30 minutes away, accessible by motor vehicle and scheduled ferry services. Our site is spacious and our learning areas are well-equipped. BBI strives to be at the forefront of digital learning, and has invested heavily in hardware and infrastructure. Approximately 60% of our students own personal digital devices which are fully integrated into teacher pedagogy.

We offer students a combination of generalist Primary style learning and elements of specialist education experienced in Secondary schools. Special in-depth education is required to help students through these 'middle years' and our curriculum has been designed to assist and prepare them for

this transition. We seek to structure programmes which cater for the needs of all our students, enabling them to reach their fullest potential. Learning at BBI is wide ranging and covers not only academic fields, but many physical and cultural areas as well.

Our students develop self-awareness, courage and confidence in themselves as risk-takers in their learning. They are proud of our achievements, recognising their uniqueness. They become confident decision makers, and have high expectations of themselves and others.

In turn, BBI provides the structures, the environment and the support to enable each learner to meet with success. There is a positive school culture based on mutual respect and understanding, inspiring all to strive for their personal best.

For students to be successful, we establish a partnership between students, teachers and family, all working together in the best interests of the learner. The school actively promotes this partnership.

Student learning is the focus for all that we do.

Awarded India's Best Residential School, Candor International School, a day-cum-boarding institute, was launched in August 2011. The school is an initiative of the Chairman Dr Suresh Reddy, whose vision is to provide holistic and affordable international education for one and all. The curriculum includes the Primary Years Programme, and Diploma Programme of the International Baccalaureate, and Cambridge Program of the University of Cambridge, United Kingdom. Candor International School students go on to study in prestigious foreign universities such as: Christ University – India, Mount Carmel College – India, St. Joseph's College – India, National Law School – India, University of California, Berkeley & San Diego – U.S, Pennsylvania State University – U.S, Rutgers University – U.S, Princeton University – U.S, University of Bath – U.K, University of Sussex – U.K, NUS Singapore, and many more.

Candor is an Apple-authorized school with a commitment to use technology in learning and communication. The school ensures a world-class educational experience delivered through an enquiry-based, student-centric, trans-disciplinary and inter-disciplinary curriculum. Candor is the first school to introduce age-appropriate, STEM-based learning, wherein students gain the ability to integrate and apply concepts from science, technology, engineering, and math. The school is an authorized center for PSAT (preliminary scholastic aptitude test), the entry-level

assessment for admission to the US and the UK institutes, and Trinity exams, conducted by Trinity College London for Music.

The first certified 'Green School' in India, Candor is nestled in 25 acres of prime land in the South of Bangalore and offers a world class academic and sporting infrastructure with modern amenities, including a hostel for regular and weekly boarders. At Candor International School, sports (basketball, soccer, tennis, swimming, athletics, table tennis, and cricket), creative (drama, music, robotics, dance, model united nations, and young entrepreneurship program), clubs (cooking, visual media, nature club, and debate), and community service are all part of the curriculum.

Recently, Candor was recognized as Forbes Great Indian School 2018-19 and Best International Day / Residential School 2018-19 by Times Of India, Education World, & Careers360. Over the years, Candor International School has received several accolades and awards. The school was ranked number 1 in India for Safety & Hygiene, number 3 in India for Campus & Architecture, and featured as one of the top 5 schools in India for Day-cum-Boarding.

Admissions from Pre K to Grade 12 are all year round. For any queries, parents and guardians are advised to contact the school at admissions@candorschool.com or call 7760299992 for more information.

Founded in 1923, Carey Baptist Grammar School is a Christian independent coeducational school offering 3-year-old Early Learning to Year 12. Carey is situated close to the Central Business District of Melbourne, within easy distance of public transport.

As one of Australia's leading schools, Carey maintains a 50:50 gender balance, fostering the development of confidence, communication skills and self-esteem in both girls and boys. Students participate in community service; study different cultures, religions and beliefs; learn the importance of human rights; and are encouraged to respect and appreciate the world beyond their own experience.

Carey works in partnership with families to develop wise, independent, motivated young people who are inspired and equipped to create positive change. The Senior School offers both IB and VCE and fosters a dynamic and stimulating environment. Our students achieve university entrance scores that place Carey amongst the top schools in Victoria.

Recruiting and developing highly professional teaching and support staff is one of our greatest priorities. Carey is known for being innovative, progressive and leading the way in best practice teaching and learning, supporting strong academic results and personal development for each student. Carey's philosophy of student-centred learning requires students to be active, responsible participants in their own learning, with

the teacher working as a mentor, facilitator and guide.

To support the learning program, Carey is committed to providing inspiring buildings and resources. In 2016, Carey officially opened the new Centre for Learning and Innovation, developed on principles of contemporary education and the latest pedagogical thinking and understanding. At the heart of the building is the Information Resource Centre which, in addition to housing our extensive catalogue, offers a variety of spaces that cater for the different needs of our students. On the top of this building sits the United Nations Room which reflects Carey's diversity, inclusivity and commitment to social justice, thus preparing our students for the rapidly changing local, national and international communities in which they live, work and serve.

Carey students are curious, aspirational and engaged global citizens. We build on their individual qualities to develop young women and men who flourish and can lead and serve with courage, compassion and intelligence.

We welcome the cultural diversity that international students bring to our community.

Chadwick International is a PreK- G12 international school fully equipped with the state-of-the-art facility built in the Songdo International Business District, Incheon, Republic of Korea.

Chadwick International is the sister campus of Chadwick School, a K-12 school in the greater South Bay area of Los Angeles, which was founded by Margaret Lee Chadwick in 1935. The two campuses share the same mission that Chadwick Schools develop global citizens with keen minds, exemplary character, self-knowledge, and the ability to lead.

Chadwick International is an authorized three programme International Baccalaureate (IB) World School, offering PYP, MYP and DP. Chadwick International emphasizes experiential and inquiry-based learning both in and outside the classroom including Outdoor Education and Service Learning programs. The Outdoor Education allows students to develop conflict-resolution abilities and leadership skills through various outdoor experiences. Meanwhile, Service Learning program teaches students how to interact with both their local and international communities and problem solve on a deeper level. These fundamental programs assist students in transferring valuable lessons learned in the classroom and develop them as contributing members and leaders of tomorrow.

Physical Education plays an integral part of the Chadwick curriculum as it focuses on the promotion of good personal health and a holistic lifestyle for our students. Its activity-based program emphasizes the skill development that

improves the fitness and well-being of the individual student as well as healthy and safe lifestyles.

Chadwick International has rich and diverse Visual and Performing Arts programs. In these classes, students develop their knowledge, skills, creativity and ability to respond to artistic ideas. Also, students are exposed to a variety of theatrical mediums to express themselves and heighten their awareness of themselves in relation to the people and culture around them.

Chadwick International helps to achieve its educational mission through recruiting and supporting highly experienced, dedicated, and diverse faculty members from around the world. With the support of the faculty, Chadwick International is capable of a low teacher to student ratio of 1:8.

Chadwick International's superior educational facilities include an aquatic center with scuba diving capabilities, two gymnasiums, two performing arts indoor theatres, a television studio that allows production up to eight channels, a working garden, purpose-built science laboratories and three design/maker spaces. These facilities permit the students to cultivate their intellectual, artistic and physical abilities based on Chadwick International's experience-based curriculum.

Chadwick International is accredited by Western Association of Schools and Colleges (WASC) and Council of International Schools (CIS).

## Commitment to the Promotion of International Understanding and a Superior Education

Chengdu Meishi International School (CMIS) is financially supported and was established by the Chengdu Meishi Culture Co., Ltd, an affiliate of the Shenzhen Meishi Group. In 2002, CMIS was approved by the Sichuan Education Department, becoming only one of the few schools in all of China that can enroll both national and international students. It is a grades 1-12 boarding school and day school. The campus of the school is absolutely beautiful and has been equipped with first class facilities. Currently, there are over 2100 students in the school. Meishi is the first international school with a large campus in southwest China.

### Academics

Since the school was established, it has made dazzling achievements in academic excellence by stressing quality education and small class sizes and current professional best practice to enhance students' learning. The school philosophy includes cultural diversity, the integration of Chinese and Western methodologies, and inquiry based education. The school's objective is admitting students from around the world and educating them to think globally.

CMIS's International Baccalaureate (IB) World School status and the American Middle States Association (MSA) accreditation attest to Meishi's genuine standing one of the few schools in China and the world offering all three IB Programmes – Primary Years Programme (PYP), Middle Years Programme (MYP), and Diploma Programme (DP). The school is committed to creating a system of values which are innovative, practical, and logical, which has resulted in awards such as the "Chengdu Environmentally Friendly School and Model School" award from the Chengdu Education Department.

The overwhelming majority of our graduates go on to attend top 50 universities in the United States and top 100 universities in the world. Recently, Meishi students have been accepted by world prestigious universities, which include but are not limited to, University of Southern California, New York University, University of California (Santa Barbara, Irvine, Davis, San Diego), Brandeis University, Georgia Institute of Technology, Boston University, Northeastern University, University of Illinois-Urbana-Champaign, University of Texas-Austin, University of Wisconsin-Madison, Imperial College London, University College London, University of Edinburgh, University of Manchester, Durham University, University of Sheffield, University of Toronto, McGill University, University of British Columbia, University of Alberta, Australian National University, University of Melbourne, University of Sydney, University of New South Wales, University of Auckland, Hong Kong University, Nanyang Technological University, Waseda University, Ecole hoteliere de Lausanne, etc. Further, the Meishi graduates continue to excel after graduating from college, some of whom have studied in graduate schools at Columbia University, Johns Hopkins University, etc.

### Extracurriculars

Meishi prides itself on developing the whole student. As a result, we offer robust extracurricular activities and are charter members of the Chengdu International Schools Association (CISA), which provides our students many opportunities to participate in a variety of academic and athletic competitions with other international schools in Chengdu. Meishi has achieved a great deal since the establishment of the school 16 years ago. For more information about Chengdu Meishi International School, please visit our website.

CHIREC International, known for its quality and excellence in holistic education, is celebrating 30 glorious years in education. A K-12 day school, CHIREC International has three eco-friendly campuses with 3,500 students being offered the highest standards of excellence across 3 curricula – Cambridge, IB and CBSE. Established in 1989 by Mrs. Ratna D. Reddy, CHIREC International has successfully fostered a passion for learning, creativity, and innovation in students.

Consistently ranked amongst the top 5 day schools in India, CHIREC International makes no compromise in quality, depth and width of its offerings. Education at CHIREC means individual attention, limited class strength, hands-on learning, equal emphasis on academics and co-curricular activities, an appreciation for sustainable green initiatives, development of empathy and compassion towards the underprivileged, building a multicultural, multilingual and tolerant student community, exposure to global perspectives and engagement with international issues.

Our unique programmes include:

Innovation – The members of Physics and Engineering Club made a multirotor Octocopter capable of lifting a human pilot – the first of its kind by students in India. CHIREC Clubs also include Better by Design, Robotics, Orators', Drama, Book Reading, Science, Photography, Home Science, Calligraphy and Filmmaking; a plethora of indoor and outdoor activities; additional help classes and enrichment classes for the students. We have inaugurated the CHIREC Hub, where

students are encouraged to design, experiment and build projects involving technology, engineering, and tinkering.

Community outreach – A mobile library, 'Library on Wheels' that travels to government schools to provide books and engage students in learning activities.

We host a variety of activities such as 'Girls Code Camp' which empowers young women with computer technology; CHIREC Model United Nations and Robotics competition. We very recently hosted the first-ever TEDx youth@CHIREC in August 2018.

CHIREC'S 'Green Initiatives' include a solar power generation plant, zero waste management, recycling of kitchen wastewater, rainwater harvesting, planting saplings and wildlife adoption.

CHIREC International has adopted three Government Schools. This year, CHIREC International has launched a Foundation which will oversee all its Community Outreach Activities.

CHIREC has successfully completed six years of offering the IBDP and received commendations for its CAS projects and written curriculum in the 5th year review by IBO. Many of our students have walked the halls of great Universities in India and abroad through our University Placement Cell.

CHIREC is all set to enter its 4th decade of providing quality education and is determined to continue offering its students world-class educational opportunities.

www.dpsghaziabad.com

DPSG, established in the year 1980, is an ISO – 9001:2015 certified school. This ISA and Microsoft Showcase School is located in the heart of Ghaziabad, Delhi NCR and is inimitable with its fine auburn architecture and panoramic expanse of fifteen acres and provides an environment that is conducive to meet the intellectual pursuits and holistic development of nearly 5000 brilliant minds. With an unparalleled effective instructional design, significant learning environment is created that inspires, fosters and facilitates deeper learning. DPSG is affiliated with CBSE (Central Board of Secondary Education) for 38 years and International Baccalaureate since 2016 onwards.

In order to nurture students who are independent thinkers and are ready to face the rigors of life self-assuredly, we at DPSG are also providing innovative and challenging learning environment by adopting the IB PYP and IBDP. The first IBDP cohort achieved 100% graduation in IB Diploma with an impressive school average of 36 Grade Points, well above the world average of 29.78 Grade Points in IBDP May 2018 Examination.

DPSG has carved a niche for itself by being India's top ranker day boarding school in term of academic rigor for 7 consecutive years as per a survey conducted by a national daily of great repute.

The primary years (IB-PYP) are the most crucial years in learning and development of a child and a primary school sets the foundation for seeking formal school education and provides students the impetus to explore the world around in

their unique, individual ways. Therefore, the principal focus of the school lies on nurturing the natural curiosity of students by providing them opportunities to ask questions and build ideas, both individually and through collaboration with their peers. The school encourages the ability to question facts, build ideas and understanding by giving students myriad opportunities to explore new realms of learning and express them in their own unique ways while acting and reflecting upon their learning meaningfully.

We have always willingly embraced any change in the curriculum design or prescribed pedagogical techniques to ensure effective curriculum transaction catering to the differential abilities of the students. The integration of STEM, IB-CAS, Physical Education and Community connect programmes in the curriculum has given a sense of purpose and direction to students when they learn their classroom curriculum by painting the ideas to solve a problem generated in the classroom and programming an application that models a real world problem.

The school recognizes the fact that children today live in a global environment. In order to explore new frontiers, the school has forged partnership with world-renowned institutions to expose students to pluralistic cultures through exchange programme over 12 countries.

The vision of DPSG is to create a unique platform and environment that facilitates and encourages the spirit of enquiry, creativity and moral leadership. It is this that inspires DPSG and has enabled it to become a destination school.

Founded over 45 years ago, Dover Court International School is an established British international school in Singapore. Our school, all on one site, is set on a spacious, green 12 acre campus, situated in the heart of Singapore. We welcome students from 3 to 18 years old, from Nursery to Year 13, with our student body comprising of over 60 nationalities. In Years 10 and 11 students sit examinations, earning iGCSEs and our Sixth Form, years 12 and 13, offers the IB Diploma Programme.

We are passionate about how children learn and are committed to ensuring that the aspirations and potential of every student are fostered and nurtured. DCIS offers a broad, balanced and differentiated programme operating within the framework of the National English Curriculum as well as the IB Diploma Programme. At DCIS, academic success is as important as all-round development. All students respect, support and interact with people from different cultures and become socially and intellectually confident.

Dover Court International School is committed to providing a high quality, challenging, international education at all levels and this shaped our decision to offer the International Baccalaureate Diploma Programme. Having launched the IBDP in August 2017 and welcomed our first cohort of students, we are now well under way with our second IBDP cohort. Our third cohort will start their studies in August 2019.

As part of Nord Anglia Education we benefit from the unparalleled opportunities gained from being part of a larger network and we can draw on the experiences from other NAE schools. With over 55 schools worldwide, with the majority having offered the IBDP for many years, Nord Anglia Education provide us with the support needed. One in three Nord Anglia Education graduates go on to attend one of the world's top 100 universities, as ranked by QS World University Rankings and we are looking forward to our first cohort graduating in the spring of 2019.

Dulwich College (Singapore) is an international school with a British independent school ethos and values, which draws upon 400 years of excellence and tradition from Dulwich College in London. Our traditions form part of our culture and are firmly embedded in all that we do. Every day we embody these traditions through our pastoral structures, such as our House system and the opportunities that we provide for our young people to confidently articulate their thoughts and develop leadership skills. Every student is supported by a form tutor and the College's pastoral team. All students follow our wellbeing programme which is age appropriate and coordinated across year groups. Our counselling service is not just designed for students but for the whole College community. Alongside our traditions, our collaborations across the network of schools in Asia and Dulwich College in London stimulate innovation and encourage an international outlook, which we believe fully prepares students for their futures. The result is a community where academic ability is nourished, creativity is valued, diversity is celebrated, and inspiration is paramount.

Our three-year enriched (I)GCSE programme ensures students are fully prepared for the IB Diploma Programme in both their skills and knowledge. Students also participate in a global skills programme which ensures understanding of global issues, academic honesty and the ability to think critically, which are essential to the IB Diploma Programme.

Our Upper Senior School and IB Diploma Programme focuses on ensuring that students have numerous

opportunities to be involved in leadership positions across the College, with an emphasis placed on serving the community. Our Head Boy and Head Girl lead the Student Council and are considered ambassadors for the College, making presentations in assemblies, welcoming visitors and, most importantly, leading the student voice in the College. We have academic and global responsibility prefects who drive the important goals of sustainability, service and wellbeing, alongside subject specialisms throughout the College. All students are involved in creativity, activity and service projects which focus on the leadership of community projects. Making a difference in local and wider communities ensures that students understand how they can make a difference in the world. Every single student at Dulwich College (Singapore) also has a unique and personalised pathway. Our teachers, pastoral leads and senior leadership team help to design and nurture these pathways with students when they join the College and are monitored throughout their personal enrichment profile.

What differentiates our IB Diploma Programme? We put our students first. Learning is at the centre of their journey. Students are encouraged and supported to understand how they are learning, focus on feedback to improve and reflect upon how to get better. We firmly believe that this leads to better outcomes and therefore better results for all students. Students become their own drivers of success, write their own reflective reports and will 'Graduate Worldwide' and ready for life's challenges.

Our students go to some of the best universities and colleges in the world and we are proud of our individualised university counselling service and the network of schools that support this. Throughout their final year students are able to fully access this support to ensure that they apply to the universities that fit their needs and academic abilities.

What is the Dulwich College (Singapore) IB Diploma

#### Programme Difference?

- Embedded enrichment and leadership for all students
- Passionate, highly experienced IB Diploma Programme teachers who put students first
- Three-year (I)GCSE programme which ensures enriched activities and a focus on skills that enable students to be fully prepared for the IB Diploma Programme
- Part of a network of schools that truly support students in terms of opportunities and shared knowledge
- Holistic programme where the arts and sport are a valued and integral part of each student's education
- Small cohort and class sizes that focus on student wellbeing
- Academically rigorous but holistic at the centre
- Personalised IB Diploma Programme application process
- Individualised university application process supported by the Dulwich College International network
- An IB Diploma Programme that focuses on feedback and metacognition, so students can independently plan and improve their own learning
- State of the art facilities for IB Diploma students to collaborate, study independently and flourish, including a purpose built IB common room and quiet study areas
- A personalised pathway for every single student.

Dulwich College Shanghai Pudong provides top quality education for over 1,600 students from Toddler to Year 13. The College draws on 400 years of excellence in education from its connection with Dulwich College in London and combines this with the best of modern teaching based on the English National Curriculum and the International Baccalaureate programme. Our Vision and Purpose is to create the best schools in the world so our students make a positive difference.

The College campus is an expression of our learning philosophy. We offer an educational environment designed to nurture the intellectual, physical, social, and emotional development of our students. The campus is made up of three schools; DUCKS, Junior School and Senior School, in addition to shared facilities.

Shared facilities include a fully refurbished theatre with two drama black boxes, music classrooms, a recording studio and seven individual music practice rooms. For sports, there are two gymnasiums, a dance studio, function room, 25-metre six lane FINA swimming pool and training pool.

DUCKS students have their own dedicated building with a music classroom and library. There are extensive external play areas with shade, a running track, multiple tennis courts and a dedicated Toddler unit.

Junior School students have their own film studio, which includes an editing suite, Maker Space, The Lab (science laboratory), an art room and a fully stocked library. They also have access to outdoor classrooms and outdoor play areas with shade.

The Senior School opened its state of the art facility, SE21, in 2017 to encourage STEAM (Science, Technology, Engineering, Art, and Technology) and entrepreneurship. There are also basketball courts, large sports fields and shaded external areas. The University Counselling service, led by our in-house university counselling team, is based in the IB Common Room. The laboratory building opened in 2018, which includes laboratory of Physics, Biology and Chemistry.

ELCHK Lutheran Academy (LA) is a through-train school with its primary and secondary sections at the same location. We gained authorization to offer the Diploma Programme (DP) in September 2014 and the Primary Years Programme (PYP) in 2018, and we are a candidate school for the Middle Years Programme (MYP).

We offer a wide range of subjects for all the programmes. DP subjects comprise the 6 subject groups: Languages (Chinese, English, and French), Sciences (Physics, Chemistry, and Biology), Individuals and Societies (Economics, Business & Management, and History), and The Arts (Visual Arts and Music). MYP subjects encompass the 8 subject groups such as Languages (Chinese, English), Arts (Visual Arts, Drama, Music), and Design and so on.

The PYP, as the foundation of the curriculum, initiates students to develop ideas contributing to international mindedness. Embracing the Unit of Inquiry (UOI), students are encouraged to question and refine their understanding of individual wellbeing, learning communities, and the world from different perspectives.

Away from the hustle and bustle of city life in Hong Kong, we are dedicated to make a difference in students' lives. Creating a warm and friendly campus, students are nurtured to explore their potentials and develop their talents through diverse experiences.

By offering holistic and balanced Christian education, the

professional teaching team with teachers from different cultural backgrounds is committed in nurturing students to strive for excellence and to become global leaders of tomorrow. To maximize the learning opportunities and provide adequate care to individual needs, LA adopts small-class teaching that our overall teacher-student ratio is around 1:8.

We encourage students to explore concepts in manifolds of forms to ensure their whole-person development. Students are exposed to learning from varieties of activities, including field trips, Co-curricular and Extra-Curricular activities. During the Global Classroom (Learning tour) week, students visit places of diversified cultures around the world to experience the learning outside the classroom and broaden their horizons. After the tour, they showcase to share what they have acquired to their classmates, parents and teachers.

To support programme implementation, Information and Communication Technology (ICT) has been well integrated into education to equip students with ICT skills. With the "Apple One-to-One Program", each secondary student is equipped with a laptop for daily learning. Together with the whole school Wi-Fi coverage, the ICT-infused inquiry-based learning has been effectively and efficiently facilitated.

With the enthusiastic support from the LA community, the school is growing from strength to strength to provide high quality education for the future rising generation.

www.abacus.edu.hk

ESF Abacus International Kindergarten is part of the English Schools Foundation (ESF). ESF is the largest provider of English-medium international education in Hong Kong. Our vision is for every student to be the best that they can be. Our mission is to inspire creativity and nurture global citizens and leaders of the future. We do this by creating joyful learning environments, led by a community of exceptional teachers who bring out the best in every child through a personalised approach to learning and by inspiring curious minds.

ESF Abacus International Kindergarten's programme is for children aged 2 years 9 months to 5 years of age. Children attend for three hours per day, five days per week. The average class size is 22 children and classes are structured into K1 & K2 groups.

Abacus is authorised to deliver the IBO Primary Years Programme, providing an inquiry-based and highly interactive programme. Children learn through play experiences and are encouraged to discover, experiment and reflect on their learning. Our aim at Abacus is to encourage children to become confident and independent learners. We

teach children to respect themselves, others and the world around them and to work hard to reach their full academic potential.

Abacus offers two streams in both K1 and K2: English and Bilingual.

**English**

The programme is conducted in English with Chinese as a specialist language, taught by a Chinese teacher who undertakes specialist sessions, introducing Chinese vocabulary and Chinese customs and festivals and reinforces the classroom teacher's planning and activities in Chinese.

**Bilingual**

The bilingual programme is jointly planned and delivered by two teachers, one English and the other Chinese. Children receive instruction in both languages and all areas of the curriculum are delivered in both languages with the exception of English and Chinese Languages. There are differentiated sessions for all children in English Language and Chinese Language, meeting the language needs of each child.

**Our Vision**

To be a happy, diverse and inclusive community where everybody has confidence to aspire to be the best they can be, now and in the future.

**Our Mission**

- We create a safe, caring and supportive environment enabling purposeful challenge through a dynamic and rigorous curriculum
- We inspire and develop creativity and academic potential
- We encourage global and social responsibility
- We foster independence in thought and action

Beacon Hill School is part of the English Schools Foundation (ESF), the largest provider of English-medium international education in Hong Kong.

Beacon Hill School was founded in 1967 and moved to its present location in 1968. It occupies a well-equipped seven storey building and has classroom space to accommodate a three form entry. There are a number of special purpose rooms that are state of the art; these include a fully equipped drama studio, music rooms, learning technologies room, art room and library.

Beacon Hill School staff is made up of dedicated professionals providing an all-round education of the very highest quality academically, creatively and socially

ensuring that each child has the opportunity to reach their potential. The students come to us from many countries and this international mix adds a great deal to the atmosphere and the richness of the school experience. An active Parent Teacher Association and School Council support our school ensuring the school achieves its aims.

Beacon Hill School is an International Baccalaureate (IB) World School authorised to implement the Primary Years Programme (PYP). We have single-subject teachers for learning technology, PE, music and Mandarin. We encourage the development of creativity amongst our students and place a strong emphasis on the arts. Our students also experience cutting-edge technology learning, such as virtual reality art creation, 3D printing or coding. We are well-resourced with 1:1 Chrome books for students in Years 3 to 6. We have a strong focus on language, both in the Mandarin and English literacy provision. We are an inclusive school with 21 students with more moderate special educational needs. These students are catered for within the mainstream classes with additional learning support teachers and educational assistants. We offer a range of programmes to depending on the needs of the students, such as a Perceptual Motor Programme, Social Thinking, Friends for Life, B2 – Social/Emotional tracking system, Fine Motor and individualised sensory programmes. Our SEN provision is world leading.

Bradbury School is part of the English Schools Foundation (ESF). ESF is the largest provider of English-medium international education in Hong Kong. Our vision is for every student to be the best that they can be. Our mission is to inspire creativity and nurture global citizens and leaders of the future. We do this by creating joyful learning environments, led by a community of exceptional teachers who bring out the best in every child through a personalised approach to learning and by inspiring curious minds.

Bradbury School offers a caring environment, providing children with an all round education of the very highest quality. The calibre of all of our staff and the positive, encouraging approach in our classrooms produce outstanding results. We encourage our children to become independent thinkers who are curious about the world around them and who develop the skills to become learners and leaders. We place a high importance on partnership with parents and see this as a cornerstone of how we operate on a daily basis. We have a very active and hardworking Parent Teacher Association who contributes much to the life at our school and we are governed by a knowledgeable School Council.

Bradbury School is an IB World School, is a Council of International School (CIS) accredited school, and is a member of The Association of China and Mongolia International Schools (ACAMIS) association. We use the Primary Years

Programme (PYP) as the basis of our instruction and to underpin our beliefs as expressed in our school mission statement – to inspire learners, inquire together and to enhance our world. At the same time, we place a high value on our students becoming numerate and literate in a 21st century learning environment and embrace an extended concept that new technologies offer us. Chinese is offered to all students, with levels of instruction adjusted according to ability. Bradbury School operates an Intensive English Class (IEC) for Year 1 students who do not as yet have the necessary levels of English. This class focuses on scaffolding language learning as a priority through the Unit of Inquiry.

The school has excellent resources, offering a number of specialist subjects in dedicated spaces. We have a state of the art library, which is seen as the hub of inquiry throughout the school. In addition, we have a full gymnasium, school hall, music room, including soundproof studios, netball courts, a variety of large adventure playgrounds installed across various levels, undercover play areas, a large free form sandpit and art studio. Bradbury has an extensive sports programme and offers amongst others, rugby, netball, cricket, soccer, swimming, basketball and running, as well as other activities such as judo and kick boxing. The school makes provision for 21 children with moderate learning difficulties through a Learning Support Programme and we believe in a full inclusion approach for all of our students.

Clearwater Bay School is part of the English Schools Foundation (ESF). ESF is the largest provider of English-medium international education in Hong Kong. Our vision is for every student to be the best that they can be. Our mission is to inspire creativity and nurture global citizens and leaders of the future. We do this by creating joyful learning environments, led by a community of exceptional teachers who bring out the best in every child through a personalised approach to learning and by inspiring curious minds.

Clearwater Bay School is an IB World School serving the Sai Kung, Clearwater Bay and Tseung Kwan O communities in the Eastern New Territories of Hong Kong. We are accredited by both the Council of International Schools and the International Baccalaureate Organization and offer a world class international primary education to students in years 1-6. There is strong demand for admissions and the school is currently at capacity with 720 students enrolled.

Our school values create a safe, welcoming learning environment that fosters care, respect and intercultural understanding. We value and celebrate the rich cultural diversity of students and families who come from more than 35 different nationalities and cultural backgrounds.

Through the IB Primary Years Programme, we offer an engaging, challenging inquiry programme that develops students' creativity, confidence and willingness to achieve their personal best. High standards of academic achievement combined with a strong emphasis on the arts, physical education and sport provides students with a comprehensive, well rounded curriculum. Specialist Chinese, physical education, music and library programs are also taught. An extensive co-curricular programme provides opportunities for students to participate in a range of arts, sport and special interest activities.

We cater to the individual learning needs of students through a developmentally appropriate curriculum that is differentiated to extend students needing further challenge and to support students who experience difficulties. Specialist learning support, English as an additional language and counseling services are available.

We have skilled and passionate staff and an active parent community who work collaboratively to create a learning community that strives to provide every student with the best possible education.

Discovery College is part of the English Schools Foundation (ESF). ESF is the largest provider of English-medium international education in Hong Kong. Our vision is for every student to be the best that they can be. Our mission is to inspire creativity and nurture global citizens and leaders of the future. We do this by creating joyful learning environments, led by a community of exceptional teachers who bring out the best in every child through a personalised approach to learning and by inspiring curious minds.

*Grow. Discover. Dream.* This vision statement, created by the College community when the school was founded in 2007, recognizes Discovery College's belief that students are to be independent, critical and creative thinkers, equipped with the skills, attitudes and values to contribute positively in this complex world in which we live. At Discovery College we believe that powerful learning and teaching occurs under a shared spirit of respect, which dignifies and prizes our diversity of experiences and perspectives, reaches into our traditions as well as into the future, excites a passion for ongoing inquiry and strives to help all learners reach for enduring excellence.

Discovery College was established by the English Schools Foundation to serve the needs of the local and expatriate communities in Hong Kong. It is a full Years 1 to

13 school offering the PYP, MYP, Diploma and Career-related programmes. Partial and full scholarships are available for exceptional secondary students.

The College strongly supports all subject areas with a robust academic curriculum, including the performing and creative arts, design and ICT. Technology is embedded across the curriculum, supported by a number of digital literacy staff and a 1:1 laptop programme from Year 6 onwards. Apple Asia provides a dedicated Mac Service Centre and technician on site.

The teaching staff represent more than 20 nationalities and are chosen from amongst the world's best. The student population comprises more than 45 nationalities and almost as many mother tongues.

The College uses English as the medium for teaching and learning. There is also a strong emphasis on the acquisition of Chinese (Putonghua) as a second language. The College focuses on international-mindedness throughout the community.

The College's facilities are second to none, with an award-winning design that incorporates an exceptional performing arts centre, gymnasium spaces, 25m rooftop heated swimming pool, library, science labs and design technology rooms.

Glenealy School is part of the English Schools Foundation (ESF), the largest provider of English-medium international education in Hong Kong. Our 22 schools and comprehensive programme of extra-curricular activities bring out the best in every student through a personalised approach to learning and by inspiring curious minds.

The characteristics of Glenealy School are:

- A small school with a big heart
- Inclusive
- Progressive and innovative
- A vibrant international community

Glenealy is a community-based school and we pride ourselves on the positive relationships that we build with students, their families and the wider community. Being a 2-form entry primary school of 360 students, we are able to offer a personal and flexible approach to meeting the needs of our learners.

At Glenealy our mission statement is to empower learners to flourish and make a positive difference. We believe every student will be successful. We support and challenge students to ensure continual academic progress and personal growth.

We are committed to providing a vibrant and enriching educational environment for students to flourish. Our school creates safe, challenging and exciting learning within modern flexible spaces and also maximises a range of opportunities outside of the classroom. We help our students become confident, independent and resilient learners who are empowered to achieve their best in all aspects of life. We strongly believe that all children can be successful.

As an International Baccalaureate (IB) World School we offer a significant, engaging and high quality international education for our students. Using the IB Primary Years Programme (PYP) as a framework, students learn through an inquiry approach where they are encouraged to explore concepts and ideas that are meaningful and relevant to their lives. We embrace the diversity of cultures within our internationally-minded community, and our students aim to make a positive difference.

When you join Glenealy, you don't just join a school, you join a community of like-minded people who all want to ensure that every child can be the best that they can be.

ESF Hillside International Kindergarten is part of the English Schools Foundation (ESF). ESF is the largest provider of English-medium international education in Hong Kong. Our vision is for every student to be the best that they can be. Our mission is to inspire creativity and nurture global citizens and leaders of the future. We do this by creating joyful learning environments, led by a community of exceptional teachers who bring out the best in every child through a personalised approach to learning and by inspiring curious minds.

ESF Hillside International Kindergarten has eight classes, four in K1 and four in K2. Children start K1 in the year in which they are three years old. Children attend the kindergarten on a part time basis, five morning or five afternoon sessions per week, with sessions being three hours long. The school community is diverse with children and staff coming from a variety of ethnic groups, and we are able to draw on this culture richness to enhance teaching and learning.

In January 2014 we were authorised as an IB World School, delivering the Primary Years Programme. Through their

inquiry into four of the six PYP transdisciplinary themes each year, the children in both K1 and K2 develop knowledge and understanding, as well as skills and attitudes that they can use in Kindergarten and take with them into their future learning.

At ESF Hillside International Kindergarten, play is the primary mode of learning and the learning environment is set up to promote inquiry through a broad range of play opportunities that promote creativity, critical thinking, and communication. At Hillside the students develop their sense of self, and further develop the skills necessary to nurture positive friendships with other children. They become more aware of their place in the wider-world. Staff work with children on adult-initiated inquiries and to support those that are child-initiated.

The attributes of the learner profile have a significant place within our school and are acknowledged in the actions and achievements of both our children and staff.

We do this by creating joyful learning environments, led by a community of exceptional teachers who bring out the best in every child through a personalised approach to learning and by inspiring curious minds.

Our focus is on igniting a passion for learning in every student. Teaching students facts and figures is not enough for them to succeed once they enter higher education and the work force, we show students how they can problem solve, question and think creatively with new concepts and ideas. We encourage students to become resourceful, adaptable and confident learners and leaders. Our students come from all over the world and central to our international heritage is the celebration and understanding of each other's cultures. Students learn to care for each other, for their environment

and for other people through our rich curriculum, our co-curricular programme and the family atmosphere of the House system.

Our academic record is excellent, with our students going on to the foremost universities and colleges in the world. You will find details of the qualifications on offer at Island School including the IB Diploma and the IB Careers Programme on the school's website. Island School prepares students for these qualifications with a broad based middle school curriculum including IGCSEs and a wide range of exciting options in our unique Futures curriculum. Our aim is to recognise that each student is an individual and to find the right match for their individual skills and strengths. Currently Island School is going through a period of redevelopment. The building at Borrett Road which was Island School's home for 50 years is now being redeveloped, during this time the Island School community is using two temporary campuses in Sha Tin.

Kennedy School is part of the English Schools Foundation (ESF). ESF is the largest provider of English-medium international education in Hong Kong. Our 22 schools and comprehensive programme of extra-curricular activities bring out the best in every student through a personalised approach to learning and by inspiring curious minds.

Kennedy School was established in 1961. The school occupies a pleasant location on the west of Hong Kong Island, and benefits from the use of the swimming and sporting facilities of The University of Hong Kong's Stanley Ho Centre, which is adjacent to the school. Music, performing arts and physical education are strengths of the school. A strong interest in environmental and ecological issues is also a feature of the school.

We offer a high-quality, modern, liberal education based on

the IBO PYP with links to the English National Curriculum and adapted to meet the needs of children living in Asia.

The school boasts a rich mix of nationalities and cultures among its 900 students, and had received Council of International Schools (CIS) Accreditation status in May 2010 and had a five-year review in November 2015 by CIS. It received IB authorisation in December 2011 and was recently evaluated in November 2015.

Occupying a pleasant location overlooking the South China Sea, the school has regular use of the adjacent Stanley Ho Sports Centre. All children receive regular swimming lessons in terms one and three. The school provides daily Mandarin lessons for all students and also offers a very rich and varied extra-curricular programme.

## KING GEORGE V SCHOOL

**Address**2 Tin Kwong Road, Homantin Kowloon  
Hong Kong, SAR | **HONG KONG, CHINA****TEL** +852 2711 3029**FAX** +852 2760 7116**Email** office@kgv.edu.hk**Website** www.kgv.edu.hk

At King George V School, our purpose is based on our belief that every student can ‘be their own remarkable...’ as they achieve, improve and learn. Our vision is to create a ‘school for one’. A place where each and every person engages in remarkable learning to achieve at high levels and be the best they can be.

Our school is also about continual improvement. As an agile school, we collaborate and innovate to make a difference in the communities we serve and lead. KGV School is part of the English Schools Foundation (ESF), the largest provider of English-medium international education in Hong Kong.

KGV School reflects the goals of ESF where the comprehensive programme of extra-curricular activities brings out the best in every student through a personalised approach to learning and by inspiring curious minds. Our strategic intent is to be the key driver of best practice in teaching and learning. Our model of education is on the cutting-edge of global innovation producing excellent outcomes for our students.

King George V School originated as the Kowloon British School in 1902, moving to its present site in 1936. The present name dates from 1948. Today it serves students

from Kowloon and the New Territories. It occupies a large site of over ten acres and has its own AstroTurf sports field and outdoor swimming pool. There are two new buildings completed in 2013 (Performing Arts and a Science Block) on the school site and an extensive Learning Resource Centre (LRC).

The school is well known for its commitment to developing all aspects of student life and it has a fine tradition in sport, music, drama, dance, community service, charity work and environmental sustainability. Our school has a very strong House system, which is run and inspired by our students and provides a wide range of learning opportunities and activities.

Our school is implementing the IB Middle Years Programme (MYP) in Years 7 to 9, after which the schools delivers the IGCSE in Years 10 and 11. Students then progress to study either the IB Diploma Programme or the more vocationally oriented BTEC applied learning programme.

The school motto is *Honestas Ante Honores*: Honesty before Glory. Our alumni are passionate and connected to our school. We have a proud history and even more excited about our future as we strive to provide opportunities for each and every student to ‘be their own remarkable...’

Kowloon Junior School (KJS) is part of the English Schools Foundation (ESF), the largest provider of English-medium international education in Hong Kong. ESF's 22 schools and comprehensive programme of extra-curricular activities ensures every student can, 'be the best that they can be' through joyful learning environments, personalised learning and inspired curious minds.

KJS is a five-form entry school with 900 students. Our learning environments are designed to support our learners and help ignite their passions. Within our year group areas and dedicated Chinese area, the shared spaces ensure opportunities for true collaboration between students and teachers. Learning is further supported by access to a very spacious, light and airy library which houses a wide variety of books and resources. The dance studio, music suite, specialist creative arts area and multi-media room support students to express themselves in a wide variety of ways. Our gymnasium and diverse outdoor spaces, including an outdoor classroom designed by students, are used for a wide variety of sports and recreation. The sustainable action by students of designing learning spaces at KJS includes further development of outdoor garden spaces ("Secret Gardens") to enhance student wellbeing. Our large hall and stage with professional light and sound, ensures our whole school community can enjoy a wide range of celebratory events.

The school's Vision of 'Success for Every Child' permeates all levels of the school. Success at KJS is defined as **Achieving**, having **Agency** (the capacity to act intentionally, having voice, choice and ownership of learning), showing **Respect**

(for self, others and the environment), taking advantage of **Opportunities** and having positive **Wellbeing**, we call these the **AAROWs** of Success at KJS! Teachers and support staff take time to know their students, personalising learning goals to stretch learners and ensuring students are active participants in their learning process. Our Learning Enhancement Team provides excellent support for students with additional needs.

KJS works within the PYP framework which allows the school to incorporate the best educational practice from around the world and places a great deal of emphasis on developing international mindedness; positive learner attitudes; inquiry learning; creative, critical and collaborative thinking and learning through meaningful experiences. Our students enjoy stimulating learning within their homerooms together with opportunity to learn with specialist teachers in music, dance, the arts, physical education and Chinese. Students have an immense opportunity to pursue their passions through in class inquiries, specialist classes and the extensive co-curricular activities offered during the day, after school and in the weekends. Our students benefit from the ongoing working relationships that we have with King George V High School, our main feeder school, and Jockey Club Sarah Roe School. The close proximity of these schools ensures students have opportunities for support or extension whilst ensuring a smooth transition to the next phase of their education.

We warmly welcome visitors who would like to get a first hand experience of our school, KJS.

Peak School is part of the English Schools Foundation (ESF). ESF is the largest provider of English-medium international education in Hong Kong. Our vision is for every student to be the best that they can be. Our mission is to inspire creativity and nurture global citizens and leaders of the future. We do this by creating joyful learning environments, led by a community of exceptional teachers who bring out the best in every child through a personalised approach to learning and by inspiring curious minds.

Peak School opened in 1911 and grew rapidly to serve the needs of the community in the area. It moved into its current buildings in 1954. The school has 360 places mainly serving the Peak area of Hong Kong. The school prides itself on being a community school that respects and appreciates the contributions of everyone involved.

Peak School offers the PYP which is based on an inquiry approach to learning. We live by and up to all the attributes and attitudes of the Learner Profile to develop students who are open minded, knowledgeable, confident, caring and internationally minded.

Peak School is an extremely well resourced school and has a team of highly committed and skillful staff. The school makes provision for children with moderate learning difficulties through a Learning Support Centre. Boasting a large playing field, the envy of schools across Hong Kong, the school is fortunate to be able to have all children playing together at both snack and lunch breaks. This helps enhance the 'family atmosphere' which we proudly foster.

Quarry Bay School is part of the English Schools Foundation (ESF). ESF is the largest provider of English-medium international education in Hong Kong. Our school's vision and mission statement is "Empowering Learners To Make A difference". We aim to empower individuals to become confident, independent learners who strive to make a difference within the changing local and global communities. We do this by creating joyful learning environments, led by a community of exceptional teachers who bring out the best in every child through a personalised approach to learning and by inspiring curious minds.

Quarry Bay School opened over 80 years ago and was relocated to new, purpose-built premises at Braemar Hill, on the north eastern side of Hong Kong Island in 1985. In recent years, our school premises have benefitted from being refurbished and redesigned. This has resulted in the creation of an outstanding environment for teaching and learning. The school aims to encourage a love of learning by providing learning experiences both inside and outside the classroom that help to develop confident, enthusiastic and successful learners who are able to inquire about the world. We have 40 different nationalities represented in our school contributing to a rich and diverse learning environment. Quarry Bay School is an inclusive school where all students are included as part of the school community. We feel that all children have talents which can be developed and that all children can succeed. Our school provides equality of opportunity

irrespective of race, gender, religion or disability for all children. We encourage our students be active learners who work collaboratively and support one another.

Quarry Bay School prides itself on its high quality relationships; students and adults work collaboratively and support each other enabling all to reach their full potential. Children with a range of learning needs are effectively supported by the school's Individual Needs team. The school makes provision for children with moderate learning difficulties through a Learning Support Class. Quarry Bay School uses the International Baccalaureate's

Primary Years Programme (PYP) as its curriculum framework. This transdisciplinary, concept-driven approach allows us to meet the challenges of educating in the 21st century by constructing a personalised programme that is engaging, relevant, challenging and significant for our diverse school population. Making use of collaborative planning in the development of teaching and learning engagements, teachers model lifelong learning and the attributes of the IB Learner Profile to the school community. Quarry Bay School was awarded full Council of International Schools accreditation in May 2013 and completed a very successful PYP Evaluation in October 2013. In March 2018 the school had a very successful CIS Preliminary Evaluation Visit. The school is due to have its next joint CIS/IB Evaluation Team Visit in late October 2019.

Renaissance College is part of the English Schools Foundation (ESF). ESF is the largest provider of English-medium international education in Hong Kong. Our vision is for every student to be the best that they can be. Our mission is to inspire creativity and nurture global citizens and leaders of the future. We do this by creating joyful learning environments, led by a community of exceptional teachers who bring out the best in every child through a personalised approach to learning and by inspiring curious minds.

Renaissance College Hong Kong (RCHK) is a world-class coeducational independent school and an IB World School. It was the first school in Asia to offer all four of the IB programmes: PYP, MYP, DP and CP. Located in the heart of Hong Kong's New Territories, the college was established in 2006 by the English School Foundation (ESF) to serve the needs of the local and expatriate communities in Hong Kong.

Students are educated from Year 1 to Year 13 on one site, guided and encouraged by a team of experienced international educators. Our student body comprises 40 nationalities, with 20 languages represented. English is the medium of instruction, with Mandarin taught at every level.

The Renaissance College Scholarship Programme provides

pathways for motivated and talented secondary students, who strive for academic excellence and are empowered to take progressive action in their lives.

Apple Asia described Renaissance College as a leading school in the region. Technology is integrated college-wide throughout the curriculum.

Creativity, activity, service (CAS) is integral to college life. Students participate in a myriad of artistic, musical, sporting and service activities conducted on-site and off-campus.

Renaissance College encourages young people to be curious and caring global citizens. Our aim is to prepare well-educated young people to lead future generations, to seek and create an environment of intercultural understanding and respect for others.

**Facilities**

The purpose-built campus provides the context for students to excel. State-of-the-art facilities include the Performing Arts Centre, ICT Centre, Black Box theatre, 25-metre indoor swimming pool, music rooms, library, science laboratories, gymnasiums, climbing wall, outdoor basketball courts, an outdoor sports field and cafeterias.

Sha Tin College is part of the English Schools Foundation (ESF). ESF is the largest provider of English-medium international education in Hong Kong. Our vision is for every student to be the best that they can be. Our mission is to inspire creativity and nurture global citizens and leaders of the future. We do this by creating joyful learning environments, led by a community of exceptional teachers who bring out the best in every child through a personalised approach to learning and by inspiring curious minds.

Sha Tin College opened in September 1982 to meet the increasing demand for places from families in northern Kowloon and the New Territories. The school provides 1,200 places and has over 30 nationalities represented within the student body. Sha Tin College is committed to providing the best possible teaching and learning experiences for every individual through the medium of English. The education provided leads to a variety of internationally recognised examinations, granting students access to higher education and career opportunities worldwide.

Unique to Sha Tin College is a culture where we take responsibility for fulfilling our own potential and that of others for the good of humanity at all levels. Ample opportunities exist to challenge students to become mature, open-minded, caring, responsible and committed individuals with a passion for learning, creativity, sports and a sense of compassion.

With commanding views over the Sha Tin countryside, the College boasts a swimming pool and multipurpose sports hall, music rooms, drama studios, design and technology workshops, science labs and a food technology centre and other specialist classrooms.

As part of quality assurance, Sha Tin College embraces review and accreditation processes with the Council of International Schools (CIS) and Western Association of Schools and Colleges (WASC); IB five-year review; ESF internal review and ESF stakeholder surveys. These processes assist the school in its strategic developmental planning.

Sha Tin Junior School is part of the English Schools Foundation (ESF). ESF is the largest provider of English medium international education in Hong Kong. Our vision is for every student to be the best that they can be. Our mission is to inspire creativity and nurture global citizens and leaders of the future. We do this by creating joyful learning environments, led by a community of exceptional teachers who bring out the best in every child through a personalised approach to learning and by inspiring curious minds.

The school opened in 1988 and provides an English-medium education for the children of families who reside in the New Territories of Hong Kong. We share a safe, secure and well-resourced site with our partner secondary school, Sha Tin College.

A recent school refurbishment programme has ensured the provision of new facilities and the upgrade of existing learning spaces for our 900 students. Facilities include well-resourced Learning and Access Centres, a gymnasium, a performing arts studio, a Learning Technologies Suite and a DARC (Design, Arts, Recording and Cooking) Room. Shared facilities (with Sha Tin College) include an indoor swimming pool and a sports hall.

Our School Vision – ‘Learning for Life’ – is underpinned by four core values. In order to aspire towards a life of learning, we encourage our students to focus on:

- Wellbeing
- Inclusivity
- Flexible minds and
- Making a difference.

We offer a balanced programme ensuring learners have opportunity to develop academically, mentally, socially and physically. Our programme is guided by the philosophy of Positive Education and is inquiry based in outlook. Individual needs are catered for through an inclusive approach, implementing a range of teaching and learning approaches.

All stakeholders are encouraged to develop resilience, use a growth mindset and a ‘can do’ attitude. We empower learners to take meaningful action and realise the impact each and every one of us can have in reaching the 2030 Global Goals.

Sha Tin Junior School is fully accredited by the Council of International Schools and authorised by the International Baccalaureate Organisation to offer the Primary Years Programme.

We do this by creating joyful learning environments, led by a community of exceptional teachers who bring out the best in every child through a personalised approach to learning and by inspiring curious minds.

South Island School is a dynamic, innovative and forward looking school located in a green setting on the south side of Hong Kong Island. It caters for 1,440 students from 39 different nations. The school prides itself on a strong values-based philosophy, international outlook, a personalised curriculum and very high academic standards. There is a focus on the development of students' personal qualities, fostering a skill set which is creative and contemporary and that develops community responsibility under the banner 'Making a Difference'. The School makes excellent provision for children with moderate learning difficulties through a Learning Support Class.

The School is a candidate school for the Middle Years Programme.

The English Schools Foundation (ESF) is the largest provider of English-medium international education in Hong Kong. Our 22 schools and comprehensive programme of extra-curricular activities bring out the best in every student through a personalised approach to learning and by inspiring curious minds.

Our strategic intent is to be the key driver of best practice in teaching and learning. Our model of education is on the cutting-edge of global innovation producing excellent outcomes for our students.

There are 17,000 students from more than 60 different nationalities in ESF schools, PIS and kindergartens. About 70% of our students have parents who are permanent residents of Hong Kong.

ESF is proud of the high academic and wider achievements of our students. In 2017, 15 ESF students achieved the perfect score of 45 points in the IB Diploma examinations; more than 95% go on to leading universities worldwide.

ESF Tsing Yi International Kindergarten is part of the English Schools Foundation (ESF). ESF is the largest provider of English-medium international education in Hong Kong. Our vision is for every student to be the best that they can be. Our mission is to inspire creativity and nurture global citizens and leaders of the future. We do this by creating joyful learning environments, led by a community of exceptional teachers who bring out the best in every child through a personalised approach to learning and by inspiring curious minds.

ESF Tsing Yi International Kindergarten has eight classes, four in K1 and four in K2. Children start K1 in the year in which they are three years old. Children attend the kindergarten on a part time basis, five morning or five afternoon sessions per week, with sessions being three hours long. The school community is diverse with children coming from 15 ethnic groups. The cultural richness within the school enhances the learning.

In July 2013 we were authorised as an IB World School,

delivering the Primary Years Programme. Through their inquiry into four of the six PYP transdisciplinary themes each year, the children in both K1 and K2 develop knowledge and understanding, as well as skills and attitudes that they can use in kindergarten and take with them into their future learning.

At Tsing Yi, play is the primary mode of learning and the learning environment is set up to promote inquiry through a broad range of play opportunities that promote creativity, critical thinking, and communication. At Tsing Yi the students develop their sense of self, and further develop the skills necessary to nurture positive friendships with other children. They become more aware of their place in the wider-world. Staff work with children on adult-initiated inquiries and to support those that are child-initiated.

The attributes of the learner profile have a significant place within our school and are acknowledged in the actions and achievements of both our children and staff.

West Island School is part of the English Schools Foundation (ESF), the largest provider of English-medium international education in Hong Kong. West Island School is a world class co-educational IB School. In 2001 the school received an Outstanding School Award from the Hong Kong SAR Government. West Island School is an accredited member of CIS/WASC.

The school motto “Strength from Diversity” reflects that the school caters for students from over 40 nationalities in a modern building overlooking the University of Hong Kong and the vibrant shipping lanes of the South China Sea. The school has a strong focus on the value of international mindedness and the importance of community. It has a reputation for academic excellence balanced with compassion and service beyond the classroom. The vast majority of students graduate to a range of international universities with 90% achieving their first choice. In 2018, the average IB diploma score was 36, 6 points above the world average.

Students are encouraged to become “responsible global citizens” as part of the mission of the school. Training for leadership roles within the school and beyond is a strength which the school believes heralds access to better choices beyond Year 13. Over 120 activities are offered termly and one week annually focuses exclusively on CAS projects within

Hong Kong and internationally. The school has a unique one to one tutoring model where students meet individually with their tutor to consider academic progress and commitment to CAS.

**Facilities**

The school has purpose built specialist rooms in all subjects and in particular: specialist science laboratories, a modern library, performance space for drama and dance, two gymnasiums, state of the art design technology workshops incorporating a graphics studio, textiles and food, 3 art studios, 7 music studios and 2 music classrooms both with raised performance platforms, outdoor courts for a range of sports, a 25 metre swimming pool and a large auditorium. The proximity to Hong Kong university playing fields provides further sport facilities. WIS is a one to one laptop school with digital literacy as part of the curriculum.

**Curriculum**

WIS is an authorised IB Diploma school offering DP for 300 students at Post 16. From 2018, WIS will offer the IB Careers-related Programme. IGCSEs and some BTEC courses are offered for Pre 16 students.

West Island School is a candidate school for the IB Middle Years Programme (MYP). As an IB World School, we share a common philosophy – a commitment to high-quality, challenging, international education.

Our vision is for every student to be the best that they can be. Our mission is to inspire creativity and nurture global citizens and leaders of the future. We do this by creating joyful learning environments, led by a community of exceptional teachers who bring out the best in every child through a personalised approach to learning and by inspiring curious minds.

ESF Wu Kai Sha International Kindergarten is located in Ma On Shan and opened in August 2009. We cater for children aged 3-5 years old and follow the International Baccalaureate Primary Years Programme (PYP). The school was authorised as an IB World School in July 2013.

In partnership with families we aim to develop confident, creative, knowledgeable children who respect all others and participate actively within the school community. Our inquiry based curriculum encourages children to explore relevant concepts and ideas through child-centred play and exploration, real-life experiences and focused learning

and teaching activities, allowing them to develop a range of understandings, knowledge and skills in all areas of the curriculum.

We have a wonderful team of highly qualified and experienced teaching staff who are both nurturing and knowledgeable about early childhood education. Children work closely with their class teacher and EAs to develop a range of skills, knowledge and understanding. A range of groupings are used to enable all children to learn effectively. Learning is planned to cater for the needs of all children and is differentiated for individual children's skill levels.

We strive to provide an engaging and enriching environment that stimulates children's curiosity and supports independent learning. The school has large, bright spaces for learning and play and children spend their time in classrooms, shared areas and in the indoor and outdoor play areas. All classrooms have an excellent range of resources which includes a wealth of technology resources. We also have a dedicated, well stocked library from which children and families can borrow a range of books, story sacks and other resources.

## Ever Onwards

Fairview is a network of 5 International Baccalaureate world schools located in strategic cities across Malaysia in Kuala Lumpur, Penang, Johor, Subang Jaya and Ipoh. Our mission is to serve the local and international community with the best in education in line with the IB philosophy of education for a better world.

As the largest provider of IB programmes, Fairview stands tall in delivering the IB programmes exclusively in line with our steadfast commitment to the IB philosophy.

Our students have received offers and scholarships for admittance at world-renowned universities like London School of Economics (Scholarship – Economics), Kings College (Scholarship – Dentistry), University of British Columbia (Scholarship – Engineering) and University of Melbourne (Scholarship – Chemical Engineering). With over 20% of our graduates receiving full scholarship offers and 50% receiving partial scholarship offers, Fairview graduates are among the most sought after in the industry.

## Learning at Fairview

- **Personal** – Our comfortable student teaching ratio of 1:8 allows for personalised and close relationships to be built with every child in our care.
- **Differentiated instruction** – Individually tailored learning programmes, enhancement and support classes with special attention to different English language abilities, ensures that every child’s individual needs are taken care of.

- **Inspirational** – Students are exposed to life changing events organised by students for students like the Model United Nations (MUN) conferences, Fairview’s Got Talent, World Scholars’ Cup and many other sports and charity events.

## Fairview Students

- **Academically Outstanding** – Fairview’s IB Diploma Programme consistently achieves outstanding results with a class average of 36 points for the past four years, placing the school among the top 27% IBDP schools in the world.
- **International minded and globally responsible** – Learners go on international expeditions twice a year, learning about different cultures and developing a deep understanding that others may also be right.
- **Prepared For The Future** – Fairview’s uniquely developed Approaches to Learning programme received great acclaim from international educators at the 2012 IB Asia Pacific Conference.
- **Structured and systematic** – Fairview is able to develop important transferrable skills in a consistent manner as a continuum school, scaffolded from the PYP and the MYP up to the DP.
- **Centred with Great Values** – Learning at Fairview is interwoven with many opportunities to develop an understanding of the Learner Profile attributes, built naturally into the curriculum. Learning Genetics and the value of being principled are taught seamlessly in

the same class, allowing our students to link classroom experiences to real world ethical challenges.

- **Balanced** – Our unique music programme ensures that every Fairview student has the opportunity to learn an orchestral instrument, learning musical theory within the IB programmes. Students learn music concepts and acquire instrument mastery, all during school hours.
- **Creative and Inquiring** – A first of its kind, all Fairview students take a trip annually to our very own purpose built Fairview EduResort at Port Dickson, Negeri Sembilan. Classroom learning goes outdoors, developing an incredible sense of inquiry and creativity as learning develops relevance, blended with adventures and experiments all done under a cool breeze by the beach.
- **Proficiency in Languages** – Mandarin, taught in phases, is provided for all students. Bahasa is also available to Malaysian students.
- **ABRSM Music Medals** – Fairview is the first and only school outside of the UK to offer the Music Medals assessment run by the UK's Associated Board of the Royal Schools of Music.

#### Fairview Teachers

- **Lifelong learners** – Professional Learning Communities combined with a well-structured modular learning programme mean that teachers learn what they need and when they need it, in small, personal learning teams. Fairview is the only school to be authorised to deliver the IB Certificate in Teaching and Learning, recognition of the rigour of our teacher development programme.
- **Active in the IB Community** – Fairview actively shares in the teaching community, and has been consistently

invited to present at the 2012, 2013, 2014, 2016 and 2016 IB Asia Pacific conferences on topics ranging from Language Acquisition in the MYP, Approaches to Learning, iPads in education and International Mindedness.

- **Internationally Recognised** – Our team of educators include visiting school team members, IB workshop leaders and curriculum reviewers.
- **Trained educators** – All teachers at Fairview will have an option of taking a step up their career ladder by undergoing a postgraduate course while working at the same time. University College Fairview allows teachers to obtain their PGDE or Masters; fully accredited by the IBO. Find out more about Fairview International School by contacting us at [enquiries@fairview.edu.my](mailto:enquiries@fairview.edu.my) or visiting our website at [www.fairview.edu.my](http://www.fairview.edu.my).

GEMS World Academy (Singapore) is a truly international school with over 60 nationalities, offering an academically demanding and balanced programme of education that helps prepare students for success at university and life beyond.

Educating more than 250,000 students from 151 countries around the globe, GEMS Education represents a truly universal and multicultural learning hub. The school in Singapore is entirely dedicated to the provision of an outstanding global education, through its International Baccalaureate (IB) continuum education.

GEMS (Singapore) is the first and only international school in Singapore authorised to offer all four IB Programmes (Primary Years Programme, Middle Years Programme, Diploma Programme and Career-related Programme) from Kindergarten to Grade 12. In addition, the students in Grades 9 & 10 complete the internationally recognised IGCSE course and examinations through the IB MYP framework.

Understanding that academics form the bedrock of your child's successful development, GEMS (Singapore) noted programme emphasises international perspectives and global ideals. Consistently driving learning through inquiry, GEMS (Singapore) nurtures desirable traits like curiosity and

discovery, also providing a cross-disciplinary foundation that reinforces subject connections and bolsters the overall learning experience.

Blending a caring, child-focused environment, cutting-edge facilities, low student-teacher ratio and globally experienced and passionate teaching faculty, GEMS (Singapore) provides diverse extracurricular activities and outstanding learning opportunities for the international student community in Singapore.

The world-class facilities at GEMS (Singapore) provide a rich environment for stimulating young minds. In addition to state-of-the-art classroom technologies, students have access to an Olympic-size swimming pool with a specialist Early Years pool, contemporary auditorium, indoor gym complete with climbing wall, all-weather playing field, innovation and entrepreneurship centre honing the holistic development of all students and representing the ultimate global learning journey.

At GEMS (Singapore) we believe in practising holistic learning that develops students' academic outcomes, nurtures core human values and builds real-life skills every day, in every classroom.

### Website

www.gardenrayong.com

Garden International School (GIS) is the most experienced IB school on Thailand's Eastern Seaboard. For nearly 25 years, GIS has provided a world-class IB education to students.

GIS is based in a safe, secure, semi-rural environment, around two hours' drive from Bangkok. The area includes a recently-developed airport, excellent transportation links, and a large expat community.

### Quality Education

The school has an excellent track record. In 2016, 2017 and 2018 we enjoyed a 100 per cent pass rate for the IB Diploma and our points' average of 35 was far higher than the global average. In recent years, GIS students have gone on to study at world-famous institutions such as UCLA and Berklee College of Music in the US and the University of Cambridge and University College London in the UK.

Our IB numbers continue to grow, but we are still able to offer a low teacher-student ratio. These small class sizes mean teachers can offer extensive support and help to students. Our teachers are highly experienced, with many years of IB experience.

### Pastoral Care

As well as support in classes, GIS has a strong pastoral element which offers significant extra guidance. This

includes a specialist University Counsellor, trips to university exhibitions and workshops. The workshops help students know how to apply to universities, give advice about living independently and also show students how to write a CV and personal statement. We also offer boarding.

### Outstanding Facilities

Students at GIS have access to excellent, state-of-the-art facilities. These include fully-equipped laboratories, new ICT suites, high-quality musical sound rooms and 3D printers for our well-equipped DT classrooms. Our sports' facilities include two swimming pools, a football pitch and basketball courts.

### Leadership Roles

Our student leadership programme offers IB students the chance to take on significant leadership roles within school. This experience is also useful and influential when applying to universities. In addition, we operate a popular Model United Nations (MUN) club and have strong after-school sports and community programmes.

As the only school in the region with full accreditation from the Council of International Schools (CIS), we have the experience and quality to offer outstanding opportunities for IB students.

Global Indian International School is operated by the Global Schools Foundation (GSF) which is a frontrunner in nursery to Grade 12 education in Asia. The foundation proudly manages a blossoming network of 19 campuses across 7 countries with a strength of 16,000 students. It has a vision of becoming the global role model for teaching and learning through its holistic framework of the 9 GEMS model.

Global Indian International School has three campuses in Singapore offering 4 different curricula including IBDP. The Mountbatten Campus is dedicated to Montessori inspired schooling, East Coast Campus is for primary section, while the SMART Campus at Punggol ranges from nursery to Grade 12.

The school aims to build a perfect balance between academics, extracurricular and co-curricular activities for the all-round benefit of students and their holistic development.

Our IB Diploma Programme is a much sought after programme with high achieving students, dedicated and well-trained teachers with the latest technologies and facilities. Our students have graduated with flying colors year after year. In the last 12 years, GIIS has produced 13 IB World Toppers and 19 near perfect scorers. The school's unique performance-measuring metrics track and monitor each child's academic results, enabling teachers to determine and

continuously improve their academic record. Close to 120 students graduate every year from the school.

Our graduates are sought after and enter prestigious universities all over the world – including the University of Cambridge, University of Oxford, National University of Singapore, Nanyang Technological University, University of California, New York University and many others. Our dedicated career-counselling department guides students at every step to confidently navigate through the complex pathways to the best universities.

The new SMART Campus at Punggol has a capacity to accommodate nearly 3,500 students on its more than 33,000 sqm of gross floor area.

The digitally-savvy campus has smart classrooms, strategically engineered to cultivate the delivery of learning outcomes through technology. Smart displays, campus-wide high-speed Wi-Fi, a 1:1 tablet scheme, and video conference-enabled connectivity all add up to truly cutting-edge learning spaces in which students can create and explore a world of ideas in the most effective way.

Data analytics in sports, 40 labs to encourage skills-based learning like TV and Radio studios, green and sustainable premises in a safe and secure environment are our unique features that make this campus more than the sum of its parts.

admissions.intl@  
greenwoodhigh.edu.in

**Website**

www.greenwoodhigh.edu.in

Greenwood High students pride themselves in being able to not only balance academics, sports and co-curricular activities, but excel in them. Greenwood High IB results far outshine the world average; this year (2018) three students achieved a perfect score of 45 in IBDP, in IGCSE results 60% students received a distinction and 35% students secured a merit. The school has produced India toppers in both IGCSE and ICSE. And yet, these very same industrious students immerse themselves in theatre and with support from their theatre, art and music teachers, and their talents blossomed into a musical 'Annie' that was compared to professional theatre productions. To encourage them further, the school has held various workshops including one from the prestigious Globe Education.

The school is an open art gallery, for its hallways and open spaces display artwork by the promising young artists. In sports too, the students are champions, for they have won various Basketball, Soccer and Badminton championships. The students are very socially aware, and the Model United Nations debates and forums begin from middle school itself, so that they grow into international minded global citizens.

Greenwood High students are extremely involved in social projects and have contributed to various causes. Our student designs include a six wheeled hand cart with steering, gears and brakes to help street vendors maneuver their hand carts over uneven, hilly terrains, and this has won her the

President's Award. Another student had developed a cell phone app 'Corner Shop' "aiming to give small time vendors a platform to boost their sales." One student developed an App for the blind to help them in purchasing groceries and was hailed by IBM while another launched an online debate forum at global level, which was funded by Google and Microsoft. One student has been awarded the Diana Legacy Award for setting up science laboratories in schools for the underprivileged.

The CAS students volunteer in hospitals, paint government run schools for the underprivileged, create breast cancer awareness, clean streets and recycle waste. They raise funds for education and health in rural areas. The CAS students have also worked on a social project in Thailand.

The students of Greenwood High aim high and reach higher. This year IBDP students has received 324 acceptances at 139 universities, for many have been accepted in Ivy League colleges, with scholarships to a total of 6.2 million USD. Greenwood High already has students in the University of Pennsylvania, Columbia University, Cornell University, Brown University, Johns Hopkins, Georgia Tech, UCLA, Berkeley, Duke, Imperial College London, to name a few. Indeed, they all take the school motto 'Rooted in Knowledge' very seriously, and while spreading out their wings to soar high, remain rooted deeply in knowledge.

**Website**

www.gsis.sc.kr

Gyeonggi Suwon International School (GSIS) opened its doors on September 18, 2006. Located in the exciting and ever-changing city of Suwon, South Korea, the school was established to provide a high-quality international education with a Christian emphasis for foreign children. GSIS has a capacity enrollment of over eight hundred (800) students in grades pre-kindergarten to grade 12. It consists of an elementary school (pre-k – 5th grade), a lower secondary school (6th-8th grade), and an upper secondary school (9th-12th grade).

The school is authorized with the International Baccalaureate Organization in the Primary Years Programme (PYP), Middle Years Programme (MYP) and the Diploma Programme (DP). GSIS was one of the first schools to offer three programmes in the region.

The dynamic and rigorous curriculum at GSIS is designed to kindle a passion for inquiry, to recognize diverse intellectual talents, to seek areas of service, and to cultivate a Christian worldview. GSIS believes that students experience individual achievement most effectively in a safe, nurturing, and inclusive learning environment. The pre-kindergarten

to grade 12 educational plan is a continuum of carefully designed, standards-based courses where students are introduced to and guided through mastery of skills with specific learning goals. The school's comprehensive co-curricular experiences are responsive to the intellectual, physical, social, and spiritual development of each student. Additionally, GSIS is a technology school that has selected Apple laptops and iPads for its dual-device program. GSIS believes technology brings richness to the educational environment when implemented at developmentally appropriate levels. Students in the 21st century live in an increasingly connected world and are expected to contribute on the global stage in ways that were never possible in the past. GSIS students demonstrate amazing creativity when given the freedom to engage their academic work in motivating and unique ways.

Suwon is located at the center of the Korean Peninsula and is one of the largest cities in Gyeonggi Province. Just 30 kilometers (20 miles) from Seoul. Suwon, like much of Korea, is a mix of 21st century technology surrounded by 5,000 years of ancient history.

**Website**

www.headstart.edu.pk

The first Headstart School was established in 1991 under the leadership of its Chief Executive Mrs. Naznin Murtaza, who continues to provide vision and leadership for the schools that are part of the Headstart School Pvt. Ltd network. Entering its third decade, Headstart School has a strength of more than 2800 students across a network of 12 campuses.

The flagship campus, Headstart School Kuri (HSK) Campus, an IB World School, was inaugurated in 2014 providing quality education for students between age 2 and grade 12. The campus is built on 20 acres of land with purpose-built buildings, vast grounds, cafeteria and sports facilities offering students a holistic experience.

HSK subject offerings are diverse, ranging from physical sciences to the arts and humanities. Classroom knowledge is supplemented by state-of-the-art laboratories in the fields of Science, IT, and Robotics. The school is also a center for Cambridge Assessment International Education (CAIE) assessments and practical examinations. The school's robotics program was the first of its kind in Islamabad, allowing for students to immerse themselves in STEM disciplines, furthering IB's inquiry based approach to learning. In the field of language, students have a choice between Urdu, Chinese, French, and German.

The school is aligned with IB's principles and practices

which calls for schools to be organized in ways that value student diversity and respect individual learning differences. HSK's Academic and Behavioral Intervention and Support (ABIS) programme provides inclusion for all children of different backgrounds and abilities.

At HSK, students represent more than 10 nationalities, and are at the center of life on campus. They engage in a diverse set of activities, from hosting Model UN, traveling internationally for student conferences, and also locally to the Northern Areas of Pakistan. The school offers Basketball, Badminton, Football and equestrian facilities. The cafeteria provides wholesome and nutritious meals to its students and staff. Facilities on the campus also include a lecture hall/ auditorium for presentations and film screenings, and an open-air amphitheater that can offers outdoor seating for all-school assemblies, performances, and plays.

HSK staff regularly participates in IB trainings at all levels, and several teachers possess advanced degrees within their fields of specialization.

HSK is recognized across the twin cities of Islamabad and Rawalpindi for its rigorous academic experience, and for provision of facilities that pave the way for excellence in academics, personal growth and success beyond the classroom.

[www.jdfz.cn](http://www.jdfz.cn)

The High School Affiliated to Shanghai Jiao Tong University (known as JDFZ in Chinese Abbreviation) is one of Shanghai's most renowned and competitive public high schools, situated in Shanghai's northern suburbs. In 2014 the school marked its 60th anniversary.

The school established its International Curriculum Center in 2011 and gained IB authorization for the Diploma Programme in 2012, saw its first cohort of 65 DP graduates in 2014. In the year of 2019, there are 315 students in total, ranging in age from 15-19. The students come from in and around Shanghai, with some from provinces across China. The vast majority of students are boarders. Students undergo a foundation year of IGCSE before moving into the DP in years two and three. The graduates from IBDP have earned outstanding offers of admission from top universities, largely in the United States, Canada, and the UK.

The centre has had excellent results in its short history as an IB World School, with each year graduates finishing above IB world averages in nearly every subject offered. This success comes from both the hard work of the students, and the passion of the teaching staff. Staff are dedicated, enthusiastic, and professional, hailing from both China and abroad. English is the medium of instruction in all lessons other than Group 1.

One of the core elements of the school's ethos is the balance between love for one's mother country and the growth of an international outlook. This thread is woven into all subjects. The IB Learner Profile is also very much a living part of the school, with regular discussions, events, and activities making it relevant. HSASJTU also strives to utilize IB concepts to promote the educational reform of the national curriculum.

Hills Grammar is a truly independent, intentionally co-educational, proudly diverse and inclusive, Pre K to year 12 school located in Kenthurst, part of Sydney's growing Hills District.

Pre-schoolers to HSC students occupy the same campus, creating a strong, vibrant community. With intentionally small class sizes and peer groups, Hills Grammarians receive personalised attention and individualised learning.

Hills Grammar is a vibrant learning community and offers its students a high quality, comprehensive education that is constantly developed through a commitment to continuous improvement and innovation.

We provide a broad, liberal education, including the International Baccalaureate Primary Years Programme (PYP) in Early Childhood to Year 6 and a commitment to the New South Wales curriculum up to the Higher School Certificate.

The curriculum is academically rigorous and aims to enable, enrich and extend all students. It provides extensive opportunities for broad and in-depth academic study across

all Key Learning Areas. The study of foreign languages and the creative arts, which we see as crucial to intellectual development, starts at Pre- Kindergarten.

The NEAS accredited Hills International Education provides an intensive English program for High School Preparation. Situated within the campus grounds, HIE provides a natural pathway for International Students to study intensive English prior to mainstream enrolment whilst being integrated with their year group for other subjects and co-curricular activities.

Knowing that our graduates may change careers many times in their lives we promote thinking skills, encourage curiosity and instil a deep love of learning because these qualities, above others, will aid our Hills Originals as they enter the world beyond our gates.

Core values of respect, integrity, service and excellence underpin everything we do as we strive to deliver outstanding teaching within a unique learning environment: fostering each student's potential for greatness.

**Website** [www.igbis.edu.my](http://www.igbis.edu.my)

IGB International School (IGBIS) is a vibrant Early Years to Grade 12 International Baccalaureate (IB) World School in Kuala Lumpur, Malaysia. The School has an Elementary School (ages 2-10), and a Secondary School (ages 11-19) serving more than 450 students.

In a diverse and inclusive learning community, students receive a challenging IB education which empowers them as caring global citizens to contribute to a flourishing Malaysia and a sustainable and peaceful global society.

Our team of internationally experienced IB educators are trained to deliver an innovative international education that inspires our students to be lifelong learners who aim to make a positive impact on the world. Our teachers and administrators are recruited worldwide for their expertise, commitment and international experience.

IGBIS is the only IB continuum school in Malaysia authorised for all four IB programmes: the Primary Years Programme, the Middle Years Programme, the Diploma Programme and the Career-related Programme. IB continuum schools share a common philosophy - a commitment to a high quality, stimulating international education for all students from Early Years to Grade 12, that IGBIS believes is important for its students.

The school offers two career-related streams through the CP, where students can study either accountancy through the Institute of Chartered Accountants in England and Wales (ICAEW), or undertake college-level art and design subjects through the Savannah College of Art and Design (SCAD).

Graduating students have consistently achieved

outstanding results, scoring well above the world average on the IB Diploma, and achieving acceptances to prestigious universities including University of Cambridge, Imperial College London, University College London, Cornell, NUS Singapore and University of Edinburgh.

Through the curriculum, co-curriculum and after-school programmes, IGBIS offers a focus on sports, the visual and performing arts, languages, outdoor education and community service. This focus complements the school's commitment to providing students with a 21st Century learning environment by incorporating the latest information technology into classrooms, including an established digital platform, a one-to-one laptop programme in the secondary school, the latest touch-enabled devices throughout the whole school.

The 10-acre campus is located only 12 kilometres from central Kuala Lumpur, Malaysia. The outstanding facilities that provide students opportunities to explore their talents and interests, include a 50-metre Olympic-size swimming pool and a 25-metre learn-to-swim pool, an 8-lane 400-metre running track surrounding a FIFA-standard artificial turf football pitch, five visual arts studios and a multi-media art studio, purpose-built music and drama rooms, and a 520-seat state-of-the-art theatre.

The school is a member of the Association of International Malaysian Schools (AIMS), and is accredited with both the Council of International Schools (CIS) the New England Association of Schools and Colleges (NEASC).

## History and Background of the School

It has been 11 years since the inception of Ilmesters Academy in August 2006 by Ms. Alia Sajjad, the owner and the director of the school. It started with Nursery, Kindergarten and Primary grades 1-2.

Ms. Alia started the school with the aim of giving back to the community, a better and a new system of education, as it seemed to be the need of the time whereby the child would be able to express his/her learning through different media.

It was a risk worth taking as at that time it involved the re-learning of the teachers employed.

The school started offering IB Primary Years Programme, and became authorized in 2012 for IB PYP. In 2016 with the aim to expand, it was decided to opt for the candidacy of IB Middle Years Programme, in addition to get the affiliation with Cambridge to offer IGCSE O levels as alternate option for students to meet the local equivalency requirement for higher education in Pakistan.

The school became authorized for IB MYP in July 2018. IB DP candidacy was accepted in May 2018. Currently, ILA is a candidate for IBDP with the aim to commence IBDP from September 2020.

## Mission Statement

Motivated to work for a tolerant and peaceful world, our mission is to create a learning environment that promotes intercultural understanding and helps young learners grow academically and personally as socially responsible citizens of the world.

Our challenge is to merge knowledge of a rich and diverse tradition with the openness and flexibility of an international curriculum and deliver it through an enthusiastic faculty that works collaboratively with students and parents.

## Our Philosophy

Our aim is to produce minds that can handle the upcoming challenges, problems, issues of the world with peace, appropriate skills and attitudes. In order to achieve this aim, ILA is working as an IB World School and pursuing programmes offered by International Baccalaureate. Ilmesters Academy follows a student centered teaching approach with the objectives to inquire and explore to make sure all our learning methods support student inquiry, exploration and discovery.

International School Bangkok (ISB), widely recognized as one of the world's leading international schools, was the first to be established in Thailand. Opened on the grounds of the U.S. Embassy in 1951, ISB has proudly provided a high-quality international education to students from over a hundred nationalities and is the pioneer International Baccalaureate school in Thailand.

ISB is a learning-focused, US-accredited, IB authorized, independent Pre-K to Grade 12 school offering a challenging international curriculum to a multicultural and multilingual student body of over 1,700 students from 60 different nationalities. Learning at ISB is informed by leading educational research and global best practice, incorporated into North American and International Baccalaureate Diploma frameworks.

ISB has long valued its globally-minded, inclusive and vibrant community and its strong culture of care. ISB is committed to encouraging students to follow their passions in academics, the arts, athletics, and many other areas both in and out of school. ISB maintains a constant focus on quality with respect to learning, faculty, leadership,

professional development, and facilities.

ISB graduates attend colleges and universities around the world. ISB takes great pride in the accomplishments of thousands of alumni who are enriching our local and global communities.

Located in the safe and beautiful community of Nichada Thani, ISB's 15-hectare campus houses world-leading facilities purpose built to align with the multitude of subjects and activities on offer for students. These include state-of-the-art performance venues and studios, international standard sports facilities, fully-equipped science and design labs, innovative libraries and learning spaces, and cutting-edge technology integrated across the school.

Through outstanding teaching and learning, ISB inspires students to achieve their academic and personal potential; be passionate, reflective learners; become caring, global citizens, and lead active, healthy, balanced lives. ISB's vision is *to enrich communities through the intellectual, humanitarian and creative thoughts and actions of our learners.*

Celebrating 25 years of learning, International School Ho Chi Minh City (ISHCMC) is the most established international school in Ho Chi Minh City. Students are taught through a progressive educational model set in modern learning environments. Educators are experienced and trained to facilitate the International Baccalaureate (IB) programmes, specializing in inquiry-led teaching. This, paired with international-standard safeguarding policies ensures that all children are safe and supported to reach their potential. ISHCMC students enjoy coming to school and inquire beyond knowledge taught in the classroom and develop life-long skills.

ISHCMC is proudly the first fully accredited IB World school in Ho Chi Minh City offering all three IB Programmes (Primary Years Programme, Middle Years Programme and the IB Diploma) for all students.

Founded in 1993, ISHCMC has more than 1,300 students aged 2 to 18 years old representing over 50 nationalities. ISHCMC creates a Culture of Achievement where students are energized, engaged and empowered to become active participants in their communities.

In 2018, ISHCMC's graduating class celebrated a second consecutive perfect score of 45-points with a cohort pass rate of 98% in the IB Diploma Programme. ISHCMC is inclusive and all students can pursue the full IB Diploma. This is supported by ISHCMC now offering more DP subject options than any other school in Ho Chi Minh City.

The Primary campus boasts physical facilities such as an indoor gymnasium, a large outdoor pitch and numerous covered and uncovered hard surface play and sports areas. There are also facilities to help our students to become well-rounded, balanced individuals with a passion for learning in all its diverse forms such as information technology lab, a makerspace and an exclusive area for art.

In 2018, ISHCMC opened a new state-of-the-art Secondary campus for students 11 to 18 years old. The facility features Vietnam's first Innovation Centre for collaborative learning between students and the corporate sector, a 350-seat professional theater, Multi-purpose room courts, rooftop sports field, and a 25 meter – 8 lanes competitive swimming pool.

The International School of Islamabad (ISOI) is a private, coeducational, college-preparatory day school. ISOI offers an inquiry-based curriculum to students of twenty-seven nationalities. The school operates on the semester system and is accredited by Middle States Association of Colleges and Schools. ISOI is an IB World School, offering the International Baccalaureate Diploma (IBDP) in grades 11/12. ISOI is also an IB PYP school. ISOI was founded in 1965. The campus is located on 23+ acres on the outskirts of Islamabad, Pakistan. The campus includes Elementary School, Middle School and High School quads, a gym, an auditorium, an open-air theater, an IB art gallery, a physical education center, tennis courts, a climbing wall, a running track, playing fields, a swimming pool, two library media centers and three technology centers. Students are admitted on the basis of previous academic records, standardized test

scores, a writing sample and verification of the need for an international, English curriculum.

The school year runs from August to early June and is divided into two semesters. The first semester runs from August to December and the second semester runs from January to June. The school follows a two week, rotating block schedule.

## Vision

The International School of Islamabad inspires open collaboration to create a student-centered, inquiry-based learning environment that cultivates enthusiastic and globally-minded individuals.

## Mission

The International School of Islamabad ensures that each student strives for academic success, develops intellectual curiosity, and becomes a responsible global citizen.

The International School of Western Australia (ISWA) is fast becoming a school of choice for both international and local Perth families looking for progressive education in a co-educational, non-denominational, boutique school environment. They support the growth and achievement of children from families who desire a unique boutique education that is characterized by an experience of excellence and student voice within an internationally-minded, open-minded and culturally-minded 21st century learning environment.

Topics are studied with both a local and global perspective. ISWA offers the outstanding International Baccalaureate program in all year levels, from K-12. The IB approach to learning is: inquiry-based; concept-based and transdisciplinary. The emphasis is on curiosity, creativity, critical thinking and community service, and on creating well-rounded, independent, engaged individuals.

Amongst the strengths of ISWA's academic approach is the ability to nurture students from a wide variety of backgrounds, with a wide range of learning styles, in a safe, encouraging learning environment. ISWA takes pride in their academic rigor and strong academic results, which are achieved in a relaxed, friendly atmosphere. As part of their transdisciplinary approach, a key focus is developing students as well-rounded individuals. There is an emphasis on language learning, with students spending the same amount of time studying a second language as they do their other core subjects. With so much extra time spent on

immersion-based language learning, ISWA students graduate with real second language skills, a valuable asset that they will use throughout their lives.

As IB educators, ISWA understands that examinations do not always accurately measure the true abilities of children. ISWA's progressive system of assessment helps all children maximize their potential. This belief is echoed in ISWA's scholarships program. While strong academic performance is imperative for scholarship recipients, ISWA scholarship students must also be well-rounded. That is why ISWA never asks prospective scholarship recipients to sit an exam, which only ever measure a student's performance in a specific circumstance on one day. Instead, ISWA scholarships are evaluated on ePortfolios, past academic transcripts, examples of leadership and community service, and face-to-face interviews. This helps ISWA award scholarships to students who will thrive in this unique school.

ISWA offers further education academic pathways that are unique in Perth. ISWA is the only school in Western Australia that enables senior school students the choice between studying for the International Baccalaureate Diploma, or the U.S. College Board Advanced Placement courses, whilst also delivering the requirements of the Western Australian curriculum. Successful completion of these rigorous academic pathways opens up the opportunity of university study at prestigious and specialist higher education institutions across the globe.

The ISWA school community plays a particularly

important role in the lives of students and their families. An inclusive, welcoming school community and active Parent Association have numerous strategies in place to ensure newcomers are welcomed and settle quickly and happily into their new Perth lifestyle. This welcome is not exclusive to ISWA's international families. Due to the egalitarian, open-minded and progressive nature of the school community, local students who did not fit into their mainstream Perth school structure find their place at ISWA; often for the first time ever in a school environment, they find they belong. The family atmosphere of our campus is enhanced by our co-educational K-12 campus, where vertical age interactions

are facilitated and encouraged. The connectedness between primary, middle and secondary school, between staff and pupils, and school and parents is at the core of ISWA's holistic approach to education. Due to these unique benefits, ISWA has a growing community of local Western Australian families at the school. These families enjoy the world-class education that ISWA offers. Local families are also able to take advantage of significant reductions in school fees. ISWA is a wonderful community made up of caring, highly qualified and experienced teachers, supportive parents and very happy students.

Founded in 2002, through the foresight and partnership among the Government of Canada, the Province of New Brunswick, and Dr. Francis Pang, the International School of Nanshan Shenzhen (ISNS) is a leading IB World School providing quality education to students from age 4 to grade 12.

Unique to ISNS is our globally-relevant curriculum. ISNS is accredited by the Department of Education, New Brunswick Canada and is the first continuum IB World School in Shenzhen, China. ISNS is fully authorized across three programmes: Primary Years Programme (PYP), Middle Years Programme (MYP) and Diploma Programme (DP).

At ISNS, students have the opportunity to graduate with a New Brunswick diploma and an IB diploma. The School's education philosophy caters to developing globally responsible and compassionate citizens of the world by encouraging students to become active and inquiring life-long learners within an intercultural community.

The IB programme is renowned for its intentional design, rigorous academics and high standards. ISNS provides students with the tools to achieve excellence in academics, personal growth and success beyond the classroom.

Representing over 30+ different nationalities, the ISNS family values cultural diversity, fostering international

mindedness and independent thinking. ISNS encourages students to share their different perspectives and experiences while providing them with the opportunity to learn through a variety of cultural exchanges both locally and abroad.

ISNS strives to engage students with innovative technology as a vehicle for learning and ensure that our students are well prepared for a future that will be deeply immersed in technology. We explore new ideas and approaches to learning to meet the needs of all children and the demands of our ever-changing global environment.

With a state-of-the-art campus, ISNS is a place where students can learn in a nurturing and safe environment. A full outdoor track and field, playground, indoor gymnasium, and courts for basketball, volleyball and tennis provides a variety of spaces for Athletics, PE and Extracurricular programs. Indoor classrooms and laboratories are equipped with the latest technology for innovative lessons. Our library, music, media, art and dance rooms are fully equipped to add a creative and enriching dimension to each student's learning experience.

ISNS cultivates the whole child, fostering student growth in all areas so that they are inspired to pursue their own dreams as global leaders while taking with them a love of learning.

ISA International School of Guangzhou is an International Baccalaureate (IB) World School, authorised to deliver the Primary Years Programme. The PYP is a framework which we use to 'sweep' across the UK national curriculum, the latter covering the subjects that students learn and the standards children should reach in each subject. The national curriculum for primary students is divided into 3 key stages: Early Years Foundation Stage (EYFS), Key Stage One (KS1), and Key Stage Two (KS2).

The aim of ISA International School of Guangzhou is to educate the next generation of internationally-minded students, to take their place in the world as leaders, thinkers, developers, and creators and shapers of a better world. Students will graduate with outstanding academic skills. Through a spiraling curriculum, each student studies key concepts and discovers knowledge of the world around them through an inquiry-driven approach to learning.

Students will be both internationally-minded and also grounded in their own unique cultural identity. We believe that every child must maintain his or her cultural identity and mother tongue language development.

We are located inside the famous Redtory Art and Design complex, beside the Pearl River, very near the Zhujiang New Town CBD. Visitors are always welcome.

**What do our parents really like about ISA?**

- We are a small, boutique school that has small class sizes and pays particular care and attention to each and every child.
- We are an international school with a fusion of UK curriculum standards and the IB's Primary Years Programme (PYP). We have a special focus on literacy and numeracy.
- We have a well-developed pastoral care program that focuses on moral and character development as well as helping students develop high levels of self-confidence and positive social relationships.
- Our teachers are highly qualified, experienced, and really enjoy teaching children. They expect good academic results and also focus on the children's wellbeing.
- We have a broad cocurricular program with excursions and camps, and also sport, music, and special interest clubs on Thursday afternoons. Some clubs operate on a weekend as well.
- We focus on languages more than most international schools. All students have 5 hours of English and 4 hours of Chinese per week. Students with a different 'mother tongue' also have 4 hours of language tuition. Currently we offer Arabic, French, Hebrew, Italian, Japanese, Korean and Spanish. Students with a Chinese heritage can choose to do an extra 4 hours of Chinese or 4 hours of English.

Jerudong International School (JIS) founded in 1997 is in the small, beautiful country of Brunei, on the island of Borneo. JIS is a thriving school with 1625 students from 55 countries, 3-18 years in age. It is a leading British international school in South East Asia preparing students for I/GCSEs, A levels and the IB Diploma. The School ethos is based around six key aims: Leadership, Active Engagement, Language, Integration, Thinking and Participation, working together to empower students to Achieve Excellence.

**The IB Diploma Programme at JIS**

Students study in small classes (5-15 students) with up to 20 subjects on offer across the six IB Group areas. Theory of Knowledge (TOK) is taught in lectures, small group discussions and supplemented by lunchtime lectures from outside speakers, staff and students. The IBDP programme at JIS is a student centred programme designed to enable students to be actively engaged in academic subjects but also thoroughly grounded in world events so they can really make a difference. Ask us about our IB Boarding Fee Scholarships!

**Outstanding IB Diploma Results**

In 2018, JIS IB students average score was 37. World Average IB Score was 29.8, so 94% of JIS students exceeded the world average. 36% of JIS IB Diploma students achieved 40 points or more. In 2017, two JIS students achieved the IB Diploma 'perfect score' of 45 points (Only 218 students globally achieved this). JIS average IB score was 35.1 and world average score was 29.95 in 2017.

**University Destinations**

A specialist team of Higher Education advisors guide and prepare students for ACTs, SATS, IELTS and University applications. 2018 graduate destinations include UK – Cambridge, Imperial College, King's College, Durham University, University of St Andrew's. USA – UCLA, University of New York – Tisch, Brown University. CANADA – University of Toronto, UBC. AUSTRALIA – Melbourne, ANU. IB Diploma students also received a number of Scholarships including one student who was awarded the prestigious Pearson Scholarship by the University of Toronto.

**Accreditation**

JIS is an IB World School; a British School Overseas (BSO), an international HMC School. A leading member of Federation of British Schools in Asia (FOBISIA), Council of British International Schools (COBIS). A silver level ECO School, JIS is also a certified provider of the International Award (Duke of Edinburgh) young leaders programme.

**Teaching Staff**

JIS has approximately 200 highly qualified teachers primarily from the UK but also Australia, New Zealand, France and Brunei. The IBDP is staffed by highly experienced teachers.

**The Campus**

JIS facilities are exceptional. The purpose built, fully WiFi and ICT networked school uses 120 acres of its 300 site on a single coastal campus – a short drive from the capital city. Students use the Arts Centre (725 seat auditorium, dance studio, black box theatre, rehearsal rooms), 26 Science laboratories,

extensive music faculty, art, design and technology studios, libraries and traditional classrooms as well as the 50m and 25m swimming pools, 3 sports halls, basketball /tennis courts and 3 soccer/rugby pitches. The boarding facilities are purpose designed and built for the community of 280 boarding students.

#### **Co-curricular Programme**

Creativity, Activity and Service (CAS) builds on an extensive co-curricular programme with over 300 activities including a mature International Award programme, Model United Nations (MUN), ECO JIS, Diving, Sports and Performing Arts. Students are involved in projects locally; also Malaysia, Cambodia, Vietnam and Northern India.

Founded in 2007, the Jakarta Multicultural School (JMS) is located in the green Situ Gintung area South of Jakarta, providing abundant open spaces and clean air away from the crowded city. JMS is committed to provide an education that respects the plurality of beliefs, cultures and way of thinking. Moreover, we advocate for inclusive education whereby everyone including learners with special needs are given equal opportunities to discover and enhance their potentials as individuals.

JMS provides a learning environment that broadens learner's understanding to recognize and accept different cultural and belief systems. Also, learners are guided and supported in their learning journeys as they independently explore and seek the truth and relevance of their learnings. During the process, JMS makes sure that our learners feel secure and safe. Moreover, we ensure that our learners enjoy and have fun as they take on their learning journey.

Our school is equipped with spacious Libraries (Main, Primary and Early Years), Laboratories (Biology, Chemistry, Physics, and IT), a Music Centre, an Art Room, a Performance Theater and interactive-classrooms which support creative teaching and learning. JMS also has extensive sport facilities- a soccer field swimming pools, indoor and outdoor playground, and the Sports Hall which houses the Basketball, Badminton and Futsal courts.

JMS' Early Years program focuses on nurturing our learners'

creative and curious minds in discovering themselves and the world around them through exploration and experiential learning.

JMS implements the IB Primary Years Programme (PYP) from Pre-school to Year 5. We place special emphasis on treating learners as individuals, acknowledging their different needs and facilitating the development of the student as a whole. Different learning support programmes such as English Language Support programme and remedial classes are provided to assist every learner to overcome their weaknesses and difficulties.

For the Secondary programme (Grades 6 to 10), JMS offers the Cambridge International Examination (CIE), whereby learners earn the International General Certificate of Secondary Education (IGCSE) after completing Grade 10. This helps prepares our learners a solid foundation for their Junior College (Years 11 and 12) academic work requirements.

Our Junior College (Years 11 and 12) implements the esteemed IB Diploma Programme (IB DP) to prepare our learners' acceptance into the premier academic institutions of their choice for their university studies.

JMS is a bully-free school and we have joined the group of pioneers who stand against bullying in schools in Indonesia by launching our No BS Campaign.

At JMS, every learner matters.

**Website**

www.kambala.nsw.edu.au

Authorised as an International Baccalaureate World School since 2010, Kambala is the first independent girls' school in Sydney's Eastern Suburbs to offer the IB. The Kambala girl, her care and academic development is at the heart of the School's Strategic Vision. With academic curiosity and a compassionate constitution, she is both self-aware and prepared to make a difference in the world. Kambala believes in raising women equipped to embrace and achieve their personal successes. This vision complements the aim of the IB Diploma Programme: to develop students who flourish physically, intellectually, emotionally and ethically.

Kambala's reputation as a leader of girls' education, enhanced by the exceptional results of its IB students, is a testament to the expertise of the staff and to the students' academic engagement and commitment. Kambala's academic success is complemented by its broad cultural extra curricular program and focus on charity that facilitates IB students' participation in the 'creativity, activity and service' components of the IB Diploma Programme. Kambala's large lawns and courtyard areas, grassy oval and tennis courts, are situated against the panoramic backdrop

of iconic Sydney Harbour. Other facilities include flexible learning spaces, an indoor swimming pool and specialist learning areas for Music, Visual Arts, Science and various technological subjects.

Kambala's onsite boarding houses provide a nurturing and supportive communal family environment for 90 girls. Years 7 to 9 boarders occupy the beautiful heritage-listed Tivoli House, while Years 10 to 12 boarders enjoy the greater privacy, independence and social privileges of purpose-built Fernbank building. To assist boarders to structure their time in a positive way and to develop and maintain productive study habits, Kambala employs in-house tutors to work with girls on homework each evening. Technology enables parents who are not based in Sydney to have greater personal involvement with their daughter's learning, including three-way Skype sessions with the student and her teachers. The shared experience of boarding creates a strong network of friends and a feeling of community that lasts for life.

For further information contact Mrs Tracy Mulligan, Director of Enrolments, at +61 02 9388 6844 or email [enrolments@kambala.nsw.edu.au](mailto:enrolments@kambala.nsw.edu.au).

For more than 20 years, Kardinia International College has focused on the ideal of international understanding. The College was established as a symbol of hope for the world by being a place of quality and exceptional personal development, where people from every corner of the earth feel welcome and at home.

One of our aims is educating our students to a profound sense of internationalism. Graduates of Kardinia, live in a global village. An understanding and deep respect of all other cultures is an essential characteristic of leaders and productive citizens of the 21st Century.

The College is independent, coeducational and non-denominational, providing a caring environment for 1900 day and international students from Kindergarten-Year 12.

As an IB World school, we offer the Primary Years Programme (PYP) in Kindergarten-6, a vertical curriculum based on the guidelines of the Victorian Curriculum and Assessment Authority to students in Years 7-10 and both the International Baccalaureate Diploma Programme (IB) and the Victorian Certificate of Education (VCE) in Years 11 and 12.

In the Senior School, the vertical curriculum offers advantages, as students' progress at a rate appropriate to their ability. Able students can fast track subjects, while other students can allow extra time for consolidation. Some

students complete the IB Diploma or VCE in five years, most in six. An extensive range of VCE and IB subjects are available.

The Senior School curriculum is further strengthened by our International Immersion Programs. Our Year 9 students can join our positive, life changing eight-week Chiang Mai program in Thailand. Students can also visit our sister schools; Gotemba Nishi High in Japan, Saint Alyre in France and Discovery College in Hong Kong.

Our world class facilities include; Katsumata Centre – our 1500 seat theatre and gymnasium, Goodfellow Aquatic Centre, a 25-metre indoor pool and cafe, School of Performing Arts, Learning Commons, Six ovals, six tennis courts, a 1560 seat outdoor Amphitheatre and much more. Our main, 22-hectare campus is in Geelong, our Year 5, 11-hectare farm campus in Lovely Banks and our 2.5-hectare campus in Chiang Mai, Thailand.

The emphasis at every year level at Kardinia International College is on academic rigour and we are renowned for the outstanding results our students achieve in Year 12 examinations every year. Integral to our success is that we encourage and expect positive student attitudes, understanding and actions towards each other, our community and the wider global environment.

KIS's vision is Inspiring Individuals!  
The community of KIS International School in Bangkok aims to inspire students to challenge themselves to become better people, who in turn become inspiring individuals who help make the world become a better place.  
The school was founded in 1998 as one of the first full IB Schools in Thailand, offering the PYP, the MYP and the DP.  
As a mid-sized school with around 700 students from 55 different countries, the atmosphere at KIS is one of the school's great strengths. Students and parents quickly feel at home and develop a sense of pride in their school. KIS's smaller size means there is individual attention for each student and openness to creative and progressive ideas.  
Students at KIS have a positive attitude to learning, as they are encouraged and nurtured by a group of vibrant, highly qualified, IB trained, supportive and, above all, exceptional educators. The school supports the learning of many languages, with between 10-20 different languages taught at KIS at any time.  
The programmes are well-balanced and not only engage

our students with a world perspective in the humanities, languages, mathematics, the arts, technology and the sciences, but there is also a strong focus on contributing to the community. The wide range of extracurricular activities further allows students to develop their interests and skills outside of the classroom. Activities include arts and crafts, technology and robotics, games, dance, competitive sports, non-competitive sports, leadership programmes, Model United Nations, and entrepreneurial activities.  
Academic results are strong, with consistent high Diploma pass rates and high average scores, which have paved the way for KIS graduates to enter top universities around the world.  
The green, spacious campus with excellent facilities is situated in a gated and guarded housing estate, near the city centre, providing a fine learning environment away from the noise and pollution while being easily accessible from both central Bangkok and the suburbs.  
We invite you to visit KIS and experience our blend of Knowledge, Inspiration and Spirit first hand.

**Education with a global perspective**

Kodaikanal International School (KIS) is an autonomous, international, residential school located in South India offering education for Grades K-12. With a rich heritage spanning over a century since its establishment in 1901, KIS has been serving young people from diverse cultures and backgrounds to become leaders the world needs. We do this through a rigorous and broad college-oriented IB curriculum that emphasizes deep learning and critical thinking and celebrates the arts, music, sports, social justice, and environmental awareness.

Key milestones include a number of ‘firsts’ – from when we became the first IB school, first international school in India (and the third in Asia) by adopting the International Baccalaureate Diploma Programme in 1976, at the time among only nine other schools worldwide; to when we became the first school in India to have its own separate campus for camping and outdoor activities in 1994. At the heart of the programs is a balanced approach catering to the student’s passions, strengths and academic requirements.

**International community living**

The school’s student community consists of over 450 children, representing around 25 countries. Our greatest strength lies in our learning as a community – living together in an assortment of cultures, distinct faiths and varied experiences spanning the globe. We provide a wide range of opportunities to our students to be citizens of the world – from student exchange programs to providing a platform to

practice and exercise their leadership capabilities in our local community through our social and environmental programs. Our students also participate in a variety of national and international experiences such as the Model United Nations, other multidisciplinary exchanges, conferences and competitions.

**Qualified for life**

As the first school in India and the second in Asia to offer the IB Diploma, KIS has an outstanding 40+ year track record of consistently scoring above the world average. Students can earn the IB Diploma by passing at least six examinations in prescribed subject areas: three must be at a Higher Level and three at a Standard Level. IB examination papers are set and marked externally by members of the IB and experts around the world.

The evaluation of the IB includes a mini thesis and a recorded presentation of the topic. The school also provides a bilingual option of undertaking the IB Diploma that allows for international students to pursue and complete the diploma at KIS. Apart from core subjects, students are encouraged to complete courses in Religious Education, Sports & Health, Fine and Practical Arts, Computer Education and Community Service.

**Beyond the classroom**

With a range of extensive student exchange programs the school provides the opportunity to be citizens of the world. The programs develop students academically and nurtures them into resilient and culturally competent personalities,

enabling them to contribute positively in the communities they are established in. Critical thinking, ethical decision making and emotionally intelligent human beings are hallmarks of a KIS graduate.

Extracurricular programs have been designed for students to contribute positively to the local community and sustaining the natural environment. Initiatives are aimed at blending the classroom teaching program with a variety of community-oriented activities providing students with abundant opportunities for enriching personal growth, enhanced civic awareness and a progressive global outlook in line with the KIS vision and mission.

Our unique location and the natural beauty of Kodaikanal, a hill station nestled in the Palani Hills at 7000 feet above sea level, provides our students with an unparalleled experience of the environment and extraordinary adventures with nature. Hiking and Camping has been a staple feature of

the KIS education since 1991 and provides students the opportunity to explore the natural beauty of the Western Ghats. The school's 100-acre off-campus camping property, gives students an opportunity to raft, canoe, swim, explore archery, zipline, and enjoy the different climbing facilities.

Musical excellence is a hallmark of the KIS education and our alumni include a host of distinguished composers and professional musicians. In addition to the regular curricular music offerings, KIS offers IB Music to IB Diploma students and annually presents students for Royal Schools of Music (RSM), London examinations in Music, Practical and Theory which are held on campus.

With infrastructure to support up to 8 different sports, KIS provides an opportunity for learning the fundamentals, rules and strategies for the sport of choice. The sports curriculum provides a broad understanding for individuals through physical activities with a strong emphasis on the relationship between the physical, intellectual and emotional well-being.

Kohinoor American School (KAS) is the initiative of the Kohinoor Education Trust in collaboration with American Educators who bring together over a century of collaborative educational experience.

The school offers the IB MYP and IB DP programmes. KAS is a co-ed residential school situated in the hill town of Khandala. Though nestled in mist covered mountains, it is just an hour and a half away from either Mumbai or Pune International Airport, so it is conveniently situated for both domestic and international travel from either city.

The bedrock of KAS is the solid foundation of four pillars: Knowledge, Wellness, Service and Peace. These virtues are inculcated in our students through the school's curricular and co-curricular activities. Each student at KAS is considered unique and so personalized attention is provided to everyone.

The ancient gurukul style of education in India has been blended very carefully with the contemporary Western style of teaching and learning so that it provides the best of both worlds to the students. KAS is a community of learners within a multicultural and multilingual family setting. Students occupy the centre stage and teachers – the Gurus – are always available to mentor, encourage, support and help the students. KAS provides a holistic virtue- based character

development programme which is aligned with the UN Sustainable Development Goals in order to prepare students to meet the challenges of both our contemporary world as well as the future.

The students and staff represent various countries of the world as well as different states of India. The school has a safe and secure campus through its 24x7 CCTV Surveillance, Health Care and Wi-Fi while its Indoor Sports facilities make KAS an attractive place for students. The cafeteria provides vegetarian, non-vegetarian, Western and Indian food. Separate Residential facilities for boys and girls with attached washroom and AC are intended to make KAS a home away from home for the students. The school intentionally maintains diversity by enrolling and employing students and staff from various countries.

A well equipped covered Sports Court Area ensures that games and sports activities are not weather-dependent and this is what gives the school its special character.

The strong community Service programme of the school is another feature that ensures life-changing perspectives through service to the underprivileged and the disabled.

Kohinoor American School has been recognised as the Best Residential School in India at the International School Awards held in Dubai.

Kororoit Creek Primary School is a fully authorized PYP school, catering for 3-12-year olds. The school is in Public Private Partnership, maintained and operated through a connection of government and private sector companies. Established in a high growth area, the school has grown from 260 students in 2011 to over 1400 in 2018. We pride ourselves on being a true representation of our community, with over 50 languages and cultural backgrounds.

The school implements the PYP framework underpinned by the Victorian Curriculum, a transdisciplinary curriculum outlining the key outcomes and expectations of the Victorian Government. The curriculum supports us to unpack the Essential Elements using explicit Scope and Sequence documents, ensuring all students are working within their Zone of Proximal Development.

Recent preparation for our upcoming Evaluation has seen a renewed appraisal of our work in relation to the IB Standards & Practices through a self-reflective and collaborative

process. Our network and department focus on building student voice, agency & leadership has been central to this.

Being a PYP school, we have a major focus on documented curriculum, assessment and shared pedagogical approaches. We also have a major emphasis on evidence-based school improvement strategies. These strategies include the moderation of common student assessment tasks, data collection and analysis as well as evaluation of student learning growth over time. Timely and effective feedback to its community of learners underpins every student's personal learning goals. Teacher professional practice activities are rigorous and differentiated.

With a whole school approach to health, wellbeing, inclusion and engagement, KCPS supports strong community values that underpin its safe and orderly learning environment. These contribute directly to the school's positive standing and high reputation within the immediate and broader area.

Lalaji Memorial Omega International School Chennai, set in a serene and green 22 acre campus, provides a unique environment for both day-scholars and boarders. We are one of the few schools in Chennai to offer a wide range of national and international curricula, all in one campus.

- Cambridge Assessment International Education (CAIE)
- International Baccalaureate Diploma Programme (IBDP)
- Central Board of Secondary Education (CBSE)
- National Institute of Open Schooling (NIOS)

Our Value Based Spiritual Education and Life Skills

Activities programs are, together, the foundation on which the children's education is built. The school places a lot of emphasis on Humanities and Arts and Crafts. The school actively promotes many sports and games and offers coaching programs in quite a few of them; athletics, football and cricket, for example. Our students regularly participate at the District and State level tournaments and have been to the Nationals in both girls and boys soccer. A few of our boys are now playing at the junior level of ISL with the Delhi Dynamos and Chennaiyin FC. We also own Brindavan CC, a first division club affiliated to KDCA, so that we may offer our boys exposure to the district and state cricket programs.

### **Innovators & Communicators**

Students are encouraged to showcase their innate thinking and creative abilities. The research and analyses undertaken for their Extended Essays is a true test of their commitment to make a difference. They are given ample opportunities and provided with the resources they need to explore their research interests. Students have initiated, and now manage, specialised clubs including Robotics & Astronomy among others.

- Using our laboratories, students are able to provide exhaustive analysis on imaginative topics. Examples include researching a solar cell's current output and learning the fact that it is dependent on the amount of Fraunhofer diffraction through a single rectangular slit, and determining the effectiveness of Fusarium fungal isolates in controlling the growth of common weeds in soil.
- Similarly, students who wanted to understand the local environment around the school were able to test the waste water from an adjoining canal, to understand its composition, so as to make decisions on how to treat it. As a consequence, the once derelict canal is now becoming a sustainable ecosystem with many indigenous species of flora and fauna.
- Most recently, the students have initiated an apiary program and have placed ten bee hives along the banks of this canal to encourage pollination. This project is part of the school's initiative with UN Academic Impact.
- Students have initiated a Youth Exchange Program in collaboration with a delegation from Sri Lanka to promote Peace & Partnerships beyond Boundaries.
- Students regularly participate in national and international events and competitions; most recently in The World Scholar's Cup. Two teams of our students finished as the Second & Fifth Best Teams respectively in the Global round at Kuala Lumpur, and have qualified for the Tournament of Champions at Yale University.

### **Resources**

- The IBDP team comprises of well trained and dedicated facilitators, who ably guide each student through the

demanding requirements of the program. We regularly engage with subject matter experts to further enhance the students' knowledge and awareness. Our Facilitators periodically attend IB Qualified Professional Development training programs.

- Our library is stocked with around 32,000 books, apart from a collection of audio and e-books and numerous IB authorized journals. Students have access to our museum exhibits and our pictorial biodiversity record of over 2000 different reptiles, insects, amphibians and birds. We are one of the first schools in the region to set up a Government initiated Incubation Centre – the Atal Tinkering Lab. Our STEM subject labs on campus include tools like Vernier Labquest, Phase contrast Microscopes and 3D Printer.
- We have one of the largest faculties in Fine Arts, Performing Arts & Visual Arts.
- In the fine arts program, students are exposed to drawing and sketching, painting on a variety of media, clay and papier mache modelling, pottery and firing of models, and print making and etching. Students from local colleges visit our facilities to train in print making etc.
- The performing arts program offers training in classical and contemporary music and instruments, drama and mime, and various dance forms.
- Through the BridgeU University and Career Guidance platform, students get to interact directly with University representatives from US, Europe & UK. These initiatives, combined with their excellent performance, have seen our students go to prestigious Universities such as Imperial College, London, University of Cambridge, Brown University, University of Texas at Austin, University of California, Berkley, KU Leuven University, Belgium, to name a few.

### **Creativity, Activity & Service**

Our students are actively engaged in a variety of social integration programs:

- Students collaborate with a reputed Cancer Speciality Hospital to create awareness and provide counselling services on overcoming pain in a holistic manner. Students also pledge their support to raise awareness about Cancer through the Terry Fox Runs & other Marathons.
- Our school has the unique distinction of being the only institution from India to participate in the UN Student Leadership Conferences on Development for the last

seven years, and have also been endowed with the responsibility of identifying topics of global significance for the conference.

- Students engage in collaborative projects with “Habitat for Humanity” to identify and elevate the living standards of the downtrodden by providing them basic shelter needs. Students also work together with “The Gerry Martin Project” to learn essential life skills on conservation and ecology.
- Students organize and manage “Kalanjali” – an annual event to showcase India’s rich heritage in the Performing Arts. This event, comprising of an annual workshop and concert, usually held at a premium location in the city, is completely managed by students, and gives them event management skills beyond anything that they would normally receive at any school.
- Students operate the school’s paper recycling plant, to convert waste paper generated on campus into modern office stationery & souvenirs.
- Students are actively involved in social empowerment programs such as the International Award for Young People.

### **Recognitions and awards**

Our school has been recognized by the British Council with the “International School Award” from 2016 onwards.

We have the distinction of being recognized as one of the ‘Future 50 International & Residential Schools Shaping Success’ out of 600 schools surveyed in India by Future 50 – a Fortune India magazine initiative.

We are one of only 60 schools from Asia to be recognized as a “Great Place to Study” by Global League Institute for 2018-19, based on a Student Satisfaction Survey.

lsb.edu.in

Legacy School is a welcoming K-12 progressive and co-educational school. We offer a balanced and meaningful education through the Cambridge International (Pathway School) and IB curricula.

Our mission is to provide a progressive international education in a diverse learner-centered community, where learners are encouraged to develop the knowledge, skills and values that will enable them to evolve into leaders who will impact meaningful change in a global society.

Learning is an immersive process of self-discovery which takes place across various platforms, where our students are continually empowered with opportunities to excel in academic, creative, cultural, tech, sporting, social and responsible citizenship endeavours.

**Celebrating Learning**

We are a boutique school, where teachers care and love to share; a place where learning is exciting and interactive; where old ideas are challenged and new ones born; where opportunities are continually sought and explored and where we encourage all to discover themselves.

Legacy has been intentional in creating a people-centered school community, where all our practices are internationally benchmarked, and all our efforts are aligned with building an organizational culture that promotes equity and high expectations for learning outcomes.

**Teachers Are Learners Too!**

Ongoing professional learning opportunities abound! We believe that at the heart of any high-performing school are its

teachers. We care to invest in their professional and personal growth as the learning leaders who play an important role in shaping the culture and practices in our school. We provide several opportunities to advance competencies and prepare our team for leadership roles.

**Co-Learn | Co-Work**

Our modern environments have been designed by international architects to provide opportunities to learn in a hybrid environment with open classrooms. These hi-tech spaces have resulted in improved relationships across grade levels and amongst faculty; which has led to greater collaboration and meaningful engagement.

**We Care!**

Our commitment to impacting a positive change in the world around us, motivates us to nurture in our students the important attributes of being caring, reflective, balanced and open-minded thinkers. All students across the school are engaged in service learning initiatives and projects through our Global Perspectives curriculum that are mapped with the United Nations Global Sustainable Development Goals. In 2018, Vismaya Menon achieved the highest rank in India for her achievement in the Cambridge International AS Level course – ‘Global Perspectives and Research.’

As a conscientious community, we are currently working in collaboration with local, NGO and government organizations to reclaim and rehabilitate a neighbourhood lake to restore a balanced eco-system and create a new community space for both residents and citizens to enjoy. In addition, our

students continue to create awareness around matters pertaining to menstrual hygiene, protection of children from sexual offenders, participate in city-cleanup campaigns and supporting disaster survivors by organizing relief supplies.

#### **Tech-enabled!**

Students are empowered to take ownership of their own learning journey. We have chosen the Apple eco-system to provide a robust and safe platform where technology is used effectively to design and deliver a collaborative learning experience. Over 40 independent learning pods and centres across the school enable our students and teachers to interact and engage in more creative, personalized and flexible ways that help develop critical skills that are essential for the modern world.

An integrated 'Digital Citizenship' program helps ensure that our young learners understand their responsibilities and rights as a digital citizen, and learn how to leverage the advantages of technology. Our faculty are currently designing and delivering lessons using iTunesU, incorporating student contributions into their lessons. Faculty are able to develop lessons that are relevant, interactive and highly engaging. We are able to provide targeted feedback and support to ensure that every child receives the appropriate level and kind of support to help enhance their learning and advance their achievement.

*Pranav Nutalapati of Grade 11 represented India, and secured the third place for "Web Programming" in the recent World Skills Asia round of tech-based competitions hosted in Abu Dhabi in November 2018.*

#### **Learning for Life!**

We strongly believe in the integration and development of the attributes included in the IB learner profile. Through a variety of avenues we provide our students across every grade with numerous opportunities to develop as well-rounded people with the relevant knowledge, skills, values and dispositions that they will need for life.

We have curated a 'futures' program in partnership with an organization to provide a unique four-year long university and career preparation program for our high school students. These sessions are designed to provide them with the awareness and exposure about themselves, their interests and abilities, which empowers them to make a more self-assured decision about their choices in the future.

www.condorcet.com.au

Lycée Condorcet – the International French School of Sydney is situated in Sydney, Australia and offers a bilingual (French and English) immersion program from Prep-school to Year 12 (ages 3 to 18).

The school is approved and regulated by French authorities and is accredited to prepare students for the Diplôme National du Brevet and the French Baccalauréat. The school belongs to the network of the AEFÉ (Agency for French Teaching Abroad) and is the French exam centre for the whole of Australia.

Lycée Condorcet also offers the International Baccalaureate Diploma Programme which is taught in English. It is registered with the New South Wales government as a specialist school and it also belongs to the Association of Independent Schools (AIS).

Underpinning these registrations is a multiplicity of administrative and legal obligations with the French and Australian Governments and the International Baccalaureate Organisation. They are the foundation of the partnership which allows us to offer our children a bilingual and bicultural education – to experience and appreciate another culture and way of ‘seeing our world’.

The International Baccalaureate Diploma Programme is offered at the school as an alternative to the French Baccalaureate for students who wish to pursue their senior studies in the English language.

Students with a background in French graduate with a Bilingual Diploma which confirms proficiency in both languages. However, the ability to speak French is not a pre-requisite for enrolment as all levels of the French language are catered for – from beginners to advanced.

Importantly, although situated in Australia, the school operates on the northern hemisphere calendar so that the school year begins in August and final IB diploma examinations are held in May.

The school population is comprised of students from over 20 different nationalities and every effort is made to integrate non francophone students by providing French as a Foreign Language classes.

Through the promotion of French and Australian cultures, we aim to develop inquiring, knowledgeable and caring young people while working to promote international and intercultural understanding and respect.

Mentone Girls' Grammar is one of the finest schools for girls in Melbourne, Australia, consistently ranked among the best schools in the State of Victoria. We have been providing a premium education for girls from Kindergarten to Year 12 since 1899; accepting students of all talents and abilities, faiths and cultures.

We understand how girls think, learn and interact. Our contemporary curriculum is specifically designed to engage girls at each age and stage in order to support their growth as happy, independent, confident and capable individuals. Our beautiful beachfront single campus has inspired our **WAVES** priorities – key principles which guide the way we meet the particular learning needs of girls by contributing to their **Wellbeing, Achievement, positive Values, Enterprising** nature and **Success**. These priorities contribute to the unique culture and success of our School, as well as our personalised approach to learning.

As the first school in the world to receive the prestigious Council of International Schools International Certificate, and as an IB World School, we are often benchmarked against some of the best schools in the world. Our rich curriculum challenges and inspires our students to learn, lead and live with an international focus.

In the Junior School, at the heart of the Primary Years Programme (PYP) philosophy is a commitment to developing

inquiring, knowledgeable and caring young people who help to create a better and more peaceful world through intercultural understanding and respect. Every aspect of the curriculum is designed to engage students with these key concepts. We also have strong programs in STEAM (Science, Technology, Engineering, Arts & Mathematics), enterprise and financial literacy and align these initiatives within our Programme of Inquiry, delivered through an inquiry mode of instruction.

In the Senior School, we provide four languages (French, German, Chinese & Japanese), as well as Arts/Humanities offerings that form a significant component of our global learning program ranging from Accounting and Economics to Business Management, Geography, History, Digital Technologies, Global Politics and Legal Studies.

As an IB School, we receive professional development in exceptional IB practice and work hard to implement teaching and learning practices that deliver an outstanding educational experience for our students.

We aim to give our students an international education, one which will empower them to, as global citizens, meet the challenges of their times. Mentone Girls' Grammar is filled with staff and students who have passion, dedication and perseverance. We have high expectations and take great pride and joy in exceeding them.

Mercedes College is a contemporary school in a historical setting positioned at the base of the Adelaide foothills overlooking the South Australian coastline. It was established in 1954 by the Sisters of Mercy, and inherited their established traditions to develop a strong mercy culture embraced by the school community.

Mercedes is the only Catholic school in South Australia to offer curriculum provided by the International Baccalaureate from Reception through to Year 12. It became one of the first schools in Australia to provide the IB Diploma in 1990, and followed with the Middle Years Programme in 1995 and Primary Years Programme in 1997. With more than 25 years' experience, Mercedes prides itself on being a South Australian leader in IB education, and was recently commended by the IBO for its implementation of the MYP in particular.

A Mercedes College education is fundamentally based upon students having an opportunity to undergo rigorous study in a supportive and caring environment. The IB programmes supply the framework for the Australian curriculum to provide students with a world class education and subjects most relevant to young Australians in the 21st Century.

The College is proud of its culture of academic excellence, which saw 91 per cent of the Class of 2017 receive first round

tertiary offers, but is also committed to supporting students beyond the classroom. A range of pastoral care programmes are designed to help develop the whole person. The College works to build strong relationships, positive emotions, personal resilience and healthy lifestyles through a range of academic, creative, sporting, musical, expressive and spiritual pursuits.

The College is guided by its Catholic identity, but many students are of other faiths or denominations. They are warmly welcomed and harmoniously settle into the College community. While morning prayer and celebrations are observed following the Catholic faith, students study and respect global religions to ensure each has a comprehensive understanding of religions from all over of the world as part of a focus on international mindedness.

Mercedes College has maintained a strong commitment to fostering international understanding and awareness of others. The College was the first Australian school to become an associate member of the Council of International Schools, and has welcomed international students since 1983, who continue to form an integral part of the student body.

MLC in Melbourne, Australia is a leading independent girls' school, internationally recognised for its extensive curriculum choice, cutting-edge approach to education, authentic learning experiences and outstanding academic results. As an open-entry, non-selective day and boarding school, we are a welcoming, diverse community offering a broad, holistic education that prepares world-ready women for their lives beyond school.

MLC has a proud 137 year history of educational innovation and academic excellence. With an interdisciplinary approach to learning with a strong focus on STEAM (Science, Technology, Engineering, Art and Design, and Mathematics), we are committed to developing the next generation of skilled, technologically capable and creative problem solvers.

MLC offers opportunity and choice with a broad choice of electives to explore in the younger year levels. Over 60 subjects are offered across VCE, VCE VET and IB (International Baccalaureate) pathways in Years 11 and 12. All of our subjects are offered on campus, with learning support and extension programs designed to help our students be their

best. Within our diverse learning environment, there are multiple opportunities for students to form friendships across the College.

MLC's unique programs include our two external Outdoor Education campuses, MLC Banksia (Years 5-8) and MLC Marshmead (Year 9), and over 50 Australian and international tours each year.

MLC's state-of-the-art learning environment provides students with world-class opportunities for achievement, exploration and personal development. From the advanced science centre and renovated Library, state-of-the-art Physical Education Centre, commercial training restaurant and professional TV studio and video editing suites, MLC's facilities are exceptional. 2019 will see the opening of our new world-class Year 7-8 Learning Centre currently in development.

Our over-arching goal is to nurture and develop each MLC student so that she leaves school with the skills, knowledge and values necessary to be a world-ready woman.

Founded in 1886, MLC School is an independent girls' school of the Uniting Church. Our mission is to educate young women to be fearless thinkers with moral courage and compassion, to be agents of change in their lives and in the lives of others.

MLC School offers a fully integrated Pre-Kindergarten to Year 12 educational experience that is based on in-depth knowledge of how girls learn best. MLC School girls are fostered to be free-thinking women, who challenge the norm by taking measured risks. Girls attend MLC School from across Sydney, and they reflect the diversity of faith and cultural backgrounds evident in our global city. Difference is encouraged through MLC School's academic and co-curricular programs, which recognise and celebrate diversity. These programs allow girls to discover their academic, creative and physical strengths, reward curiosity and provide a safe framework for experimentation and risk-taking.

**Location**

MLC School is conveniently located 11 kilometres from the city of Sydney and has easy access to bus, train and expressway links.

**Academic**

MLC School continues to achieve at the highest level internationally in the IB Diploma.

Our most recent IB cohort delivered an outstanding result, with five students attaining a perfect score of 45, placing them among the top academic achievers worldwide. There

was a total of ten perfect scores achieved in NSW and five of those were from MLC School.

MLC School Middle Years students engage in the International Baccalaureate Middle Years Programme (MYP). The MYP is a comprehensive and rigorous five-year course of study, undertaken by all students in Year 6 to Year 10. Students continue to follow the content of the NSW Education Standards Authority (NESA) syllabuses for the Australian Curriculum while the MYP provides the framework in which it is taught. The MYP does not provide content but rather the manner in which the subjects are taught and sets international benchmarks for learning.

**Co-Curricular**

At MLC School, we have a proud tradition of offering high quality co-curricular programs that cater to the needs and interests of the individual. These programs support our student's academic, social, emotional and physical wellbeing, as well as fostering supportive, collaborative and creative communities across the whole school.

**Admissions**

While MLC School has formal entry points of Pre-Kindergarten, Kindergarten, Year 5, Year 6, Year 7, Year 9 and Year 10, new students are welcome to enter the school at other year levels, provided places are available, and at the discretion of the Principal.

If you would like more details, please contact our Registrar on +61 2 8741 3165 or enrol@mlcsyd.nsw.edu.au

Nahar International School is a co-educational Day school with a student strength of 900. It is affiliated to the IB for its IBDP programme and is a candidate school for the IBCP programme. It is also affiliated to the CAIE and follows the Cambridge Programme from the pre-primary to Grade 10.

The school is located in the central suburbs of the city and provides the availability of international education on a large, well-equipped and aesthetic campus to a vast township around it. It is an eight storey structure with two basements for administrative functions and faculty parking. Every classroom at NIS is designed to be airy, spacious and inviting, in order to create a comfortable environment conducive for learning. Each class is also equipped with SmartBoards and electronic methods of knowledge dissemination. The school has well thought-out infrastructure such as modern workshops, German-design science labs, iMac computer studios, a vast digitized library, spacious conference rooms and a large turf-based playground.

Nahar International School (NIS) is a young school which uses its fresh perspective in dynamic and innovative ways. It aims at creating globally adept world citizens and leaders for the future. Students are encouraged to be participators in academics, sports, and performing arts through programmes that are rigorous but not rigid.

NIS inculcates a holistic and learning-centric way of life. It aims to endow students with the right attitude, attributes, skills and social traits to care for themselves, their immediate

society and the community at large. Hence, at NIS, we consider CAS to be a 'way of life'. Students across all age groups are active participants in CAS.

Through our various Club Activities (Film Making, Photography, Carpentry, Cookery, Dance, Lawn Tennis, Archery, Football, Basketball, etc.), we offer our students numerous opportunities to engage themselves creatively and athletically.

Since Service is an integral part of our philosophy, we encourage students to engage themselves in various service related projects. In the past, our IB students have worked with several organizations, such as Bookwallah (an NGO that helps in setting up libraries at orphanages). Our students raised awareness, ran a book collection campaign and held a fundraiser for the NGO. NIS students have also been regular volunteers at a nearby Municipal school teaching younger students every week and making several teaching aids for the teachers. Some of our students also took the initiative to help our support staff in learning Spoken English.

Our students also undertake field visits to nearby tribal villages to understand the sustainable lives led by their inhabitants, or engage in waste-management related trips.

Our first batch of two IBDP students have successfully graduated and moved on to McGill University, Canada and UWE, Bristol, for a Bachelors of Engineering in Bio Engineering and a Bachelors in Art in Product Design in UK respectively.

### In the hub of Sydney, Australia

As an International Baccalaureate World School with an inner Sydney location, a secondary school boarding house and a PYP satellite prep school, Newington College attracts students from throughout the Sydney metropolitan and regional areas, the Asia Pacific and the globe.

Its location in the heart of an expanding international city gives boys of all ages the opportunity to access a range of learning and cultural resources. Surrounded by universities, theatres, libraries and museums, Newington College regularly engages with experts from nearby centres of learning.

The College is situated on 25 acres of gardens and playing fields; a spacious oasis of learning within a busy city. Newington is only 10 minutes from Sydney International Airport and Central Station and five minutes from the University of Sydney.

### A liberal tradition of innovation

Newington College was founded in 1863 with a liberal policy of inclusion that declared the College 'open to the sons of all'. Newington's Wesleyan fathers realised the need for a quality educational establishment to develop young boys into men of substance and resilience.

Newington's innovative approach to teaching and learning makes the College a remarkable place to educate your son.

### A diverse and inclusive community

Newington is committed to providing a liberal and holistic education for boys.

Newington families value the broad perspectives and liberal outlook of the Newington community. They enjoy the opportunity for their sons to experience the International Baccalaureate's belief that others can be different and also be right. Every day boys at Newington are encouraged to approach their education with an openness to diverse views and perspectives.

Newington's five pillars of distinction are the College's main educational priorities: learning and teaching; well-being, character and service; spirituality, values and ethics; co-curricular engagement and community in partnership.

### Academic Rigour in Learning and Teaching

In the primary years, Lindfield Preparatory School offers the Primary Years Programme. Newington's Senior School is the only Greater Public School in Sydney that offers a choice between the state-wide Higher School Certificate examination and the IB Diploma Programme. The IB Diploma at Newington is rapidly growing in popularity. In 2017, 28.5% of the senior boys have chosen the IB Diploma as their graduation programme.

Newington is committed to providing an internationally respected education with access to the best teachers, facilities and opportunities. Students at Newington are encouraged to develop a broad understanding of the world and to immerse themselves in their own particular areas of interest and passion.

Newington College supports a part supplied/ part Bring Your Own Device (BYOD) programme. Boys from K-12

can use their laptops and iPads anywhere to enrich their learning experience. The College is equipped with the latest technology infrastructure and subject specific, industry level facilities including a brand new technology centre, library, lecture theatre and super-labs.

**Well-being and character**

At Newington, teachers share their passion in their area of expertise and build strong relationships with their students. They tailor their teaching to suit the learning styles of each student.

The College is committed to ensuring that every person feels respected and valued in the school community. The boys admire their teachers and coaches for their genuine interest in each student’s well-being, passions, goals and setbacks.

**Spirituality, Values and Ethics**

As a Uniting Church school, Christian values are a strong part of the way that the College has built its community. This

includes welcoming students and families of all faiths and cultural backgrounds.

The boys are expected to build a sense of social responsibility and justice and are encouraged to test out their ideas and to seize every opportunity available to them.

**Co-curricular Engagement**

Newington College is committed to providing all boys with the chance to experiment and thrive through participating in a varied range of co-curricular activities. These opportunities are a large part of what distinguishes a school such as Newington College. Boys combine academic life with a number of sports, arts, outdoor education and hands-on learning activities. They are supported and encouraged in the journey to discovering their own unique passions and interests.

**Community in Partnership**

An exceptional sense of community is part of the Newington culture, which emphasises service to others and the development of strong and lasting relationships. This involves not only teachers and students but parents, families and Old Boys. The College strives for every member of the Newington community to feel welcome, connected and appreciated.

**Results**

The IB cohort for 2017 was made up of 60 boys. Three students achieved a perfect IB score of 45/45 converting to an ATAR of 99.95. Twenty of these boys achieved scores of 40 or above, equating to an ATAR of 98.30 or above. Strong results across the whole cohort meant Newington’s IB Diploma graduates achieved a mean score of 37.1, equating to an ATAR of 95.85. This is well above the average global score of 29.21 and is an outstanding achievement for the college.

## About Nexus International School

Established in Putrajaya in 2008, Nexus International School is a member of the Taylor's Education Group, which encompasses some of the largest and most successful international schools in Malaysia and Singapore.

Nexus International School caters to students from pre-school level to year 13 and offers the International Primary Curriculum (IPC), IGCSE and International Baccalaureate Diploma Programme. Current enrollment counts approximately 700 students from over 30 nationalities.

Nexus International School offers a stimulating learning environment, in which human respect and values are balanced against academic rigour, and where learners are encouraged to realise their potential and to respect their own unique worth as well as that of others.

Nexus is an internationally minded community which focuses on nurturing learners to become globally responsible and educated citizens. The Nexus Way provides a learning environment that is innovative, progressive, and grounded in trust, compassion, and respect. The Nexus Way consists of four elements – Relationships, Inclusion, Innovation, and Mindsets. Each of these elements form the foundation of our approach here.

### Innovation

Nexus has a reputation for innovative pedagogy and using the latest developments in educational thinking to support student learning. Nexus was proud to be recognised by Cambridge University as one of the most innovative schools

worldwide in 2017.

Technology play a key role in this and is used to transform learning in the school. Nexus has received the Apple Distinguished School accreditation in recognition of the school as an exemplary learning environment for innovation, leadership, and educational excellence.

### Boarding

Our Nexus Boarding House provides boarding facilities for 10 to 18 years old. Opened in October 2011, the Nexus Boarding House is home to over 60 boarders from New Zealand, Malaysia, China, Australia, UK, Korea, India, Japan, Bangladesh, and Vietnam. We provide learners with a supportive community, a multicultural environment, and a balanced programme that aims to nurture independence and respect.

### The IB Diploma at Nexus

At NISM, we take an immersive approach – one that is rigorous, warm and supportive. Gaining a Diploma at Nexus means becoming a valued member of our community. In all things, our Diploma learners take an active role. From developing their conceptual understanding across subjects, to serving their communities (both local and global). A wider range of subject choices is complemented by an extensive co-curricular programme which includes many opportunities for student leadership.

Our IB Team of staff focuses on meeting learners where they are and supporting them in going where they want to go.

As the first and only full, not-for-profit IB World School in Bangkok, NIST International School offers a world-class education to students from the early years to high school levels. Established in 1992 with the guidance and support of the United Nations, the school now welcomes over 1,600 students representing more than 60 nationalities. NIST is governed by the parent-elected NIST International School Foundation and was the first school in Thailand to receive triple accreditation through the Council of International Schools (CIS), New England Association of Schools and Colleges (NEASC) and Office for National Education Standards and Quality Assessment (ONESQA).

Recognized worldwide for its progressive approach and international scope, the IB framework provides students with critical 21st century skills that align to the demands of the modern workplace. Through the IB and its own unique programmes, NIST aims to inspire, empower and enrich lives. The academic structure encourages students to explore, take risks and make connections across disciplines. Student-driven service learning plays a central role, as they learn to understand and empathize with others, and take an active role in solving local, national and global issues. NIST also partners with other top schools around the globe to offer the

Global Citizen Diploma, an optional qualification that allows graduates to showcase strengths in leadership, service and community engagement.

In addition to its rigorous academics, NIST offers an expansive World Languages Programme and over 300 extra-curricular activity options. As one of the founding members of the Southeast Asia Student Activity Conference (SEASAC), the NIST Falcons compete against their peers from other top schools in Southeast Asia, as well as students around the globe. NIST has also committed itself to excellence and innovation in the use of technology. Students benefit from personal MacBook Air computers, iPads, a completely wireless campus, SMART Boards, the FrontRow classroom amplification system, and LCD-equipped classrooms.

NIST represents the future of learning through its stellar academic achievements and expansive resources. More importantly, the school has been successful in fostering reflective, principled learners with a passion for making a difference in the lives of others. With its graduates attending the best universities around the globe and going on to become community leaders, NIST has become recognized as one of the world's leading international schools.

www.npsinternational.edu.sg

National Public School (NPS) is the flagship brand of the pioneering group of educational institutions headquartered in Bangalore, India. The group has an enviable track record of academic excellence spread over six decades, nurturing 15,000 children each year in over 10 campuses. NPS International School is housed in a large, six-acre campus at Chai Chee Lane, near Bedok, in the East Coast of Singapore. The School commenced its academic activities in 2008.

NPS International School, a day school, welcomes students to its child-centred environment, offering Montessori, Nursery, Kindergarten and Grades I to XII and the IB and CBSE programmes for grades XI and XII.

The key difference between NPS and many other groups of schools is that our founding member leaders are practising teachers with vast experience in a wide range of educational contexts.

That richness of experience brings a maturity of systems and vision which has also been confirmed through the four-year Edutrust award, and, more importantly, has been recognised, valued and praised by our parents.

**Vision**

NPS International School is a value-driven school that develops inquiring, knowledgeable caring young people, who recognize their common humanity and shared guardianship of the planet and help create a better world.

**Mission**

We strive to provide education with a child centred approach,

set in a caring environment. Working closely with parents, we ensure that all students are encouraged to set goals and strive hard to achieve them by believing in their own abilities. We encourage students to be active, compassionate and lifelong learners who embrace their own culture whilst appreciating others. We aspire to provide personal, social, spiritual, emotional and educational growth in a cross cultural context, blending Asian values with Western professional work culture.

**Guiding Principles and Core Values**

NPS International School provides excellent infrastructure, sound organisational support and ample opportunity for students to develop their potential to the full.

NPS International School emphasises development of thinking skills – creative, critical and independent. The School emphasises cultural understanding and responsible citizenship/residency to its student body, so that students become compassionate and informed citizens/residents.

Our curriculum and instructional methods keep pace with advances in the scientific and technological world as well as with the dynamic societal demands. We foster academic excellence through a combination of comprehensive curriculum, rigorous standards and challenging assessments.

The students who leave the portals of this institution will have a strong sense of integrity and commitment to their work. The motto of the school is reflected in every action of our students: 'Reach Out, Reach High and Reach Beyond.'

**A World-Class Educational Framework, a Child-Centred Approach**

One World International School offers a rigorous, developmentally-appropriate IB education at a thoughtfully-priced fee structure. The curriculum combines a personalised approach with international standards, focusing on nurturing the natural love of learning within every child. Research has repeatedly demonstrated that for children to thrive academically, they must be engaged and enthused about their learning. At OWIS, our carefully designed curriculum incorporates hands-on learning experiences within a supportive environment to prepare students to become the leaders of tomorrow.

**A truly international learning environment**

OWIS brings together students from over sixty nationalities with a diverse staff. Children have the opportunity to learn and discover in an international environment that prepares them for our global society. As part of our programme, we are committed to providing all students with opportunities to learn other languages with a particular focus on Mandarin across the whole school.

**A holistic learning environment**

Students at OWIS have access to a well-respected curriculum that not only prepares them for the future in terms of academic excellence, but also emphasises the importance

of holistic development. Children are nurtured inside and outside the classroom environment with rich and varied opportunities to learn sports, perform on stage and work with hands-on projects that excite their love of learning.

At OWIS, we understand the importance of personalised learning with each child being given individualised attention and feedback. Our classes therefore are capped at 24 students to maintain a small and inclusive environment ensuring that each child receives the attention they need to thrive academically, emotionally and socially. The deep relationships that our teachers develop with their students help to create a welcoming, safe environment for every child to succeed.

**Access to the latest in technology and education**

Society has rapidly become dominated by digital technology and students today need to be given appropriate opportunities to embrace these technologies. At OWIS, we believe that students should have access to this technology under the guidance of their teachers who carefully consider how and when to incorporate it into the teaching and learning. Our focus is to enhance every child's creativity, communication skills and technical skills.

The OWIS values of being "One with the World" provides a balanced, rigorous educational experience that nurtures lifelong learners and unique thinkers to be leaders.

Odyssey The Global Preschool is an award winning preschool employing the Reggio-Emilia framework to meet the developmental needs of children aged 8 months to 6 years. There are currently 5 Odyssey campuses in Singapore, with the IB accredited campus situated at Wilkinson Road.

**Curriculum**

Odyssey's curriculum is described as a learning journey to reflect the continuous journey of inquiry, research and experimentation undertaken by the children. It promotes constructive and cognitive, process-oriented strategies that encourage children to be curious, reason and problem solve, develop inquiring minds, think critically and creatively, and develop a lifelong desire, passion and love for learning. Some of the key features of their curriculum and lessons include:

1. **Project Work** – engages children in initiating, selecting and exploring topics of interest for inquiry, leading to construction of new knowledge.
2. **Literacy Curriculum** – emphasizes learning and acquiring literacy skills – print concepts, writing and spelling conventions punctuation, sentence construction, word skills, phonetics, reading and writing.
3. **Math Inquiry** – promotes the learning and acquisition of mathematical skills and concepts based on a predetermined developmentally and progressively structured scope and sequence that provides the breadth and depth of learning across the age groups.
4. **Chinese Language Immersion** – engages children in listening and responding to instructions and communication

in Chinese, and learning the skills of the language through immersion in real world events and interactions.

5. **Art Odyssey, Music Odyssey and Fitness Fun** – implemented as core creative curriculum and enrichment experiences.

6. **Little Chef, Outdoor Learning Experiences (OLE) and ECQ Literacy** – planned as inquiry and creative projects that promote children's aesthetic, creative, life skills, social emotional and naturalistic experiences.

7. **Prep Class** – introduced as an enhanced preparatory learning with focus on acquisition and application of enhanced literacy and mathematics skills introduced in the last semester of the Kindergarten 2. EQ and IQ dispositions such as self-management, research, perseverance, risk-taking, critical thinking, problem solving, and reasoning are reinforced as part of the Prep class learning experiences.

**Educators**

Quality of teacher-child interactions has an impact on the quality of the preschool experiences for children. For this reason, Odyssey classrooms are featured with a lower teacher-child ratio that effectively enhances the quality of personalized attention given to each child. All classes are featured with a minimum of 3 teachers; a Curriculum specialist, an English teacher and a Chinese Language Teacher for a full Chinese Language Immersion experience.

The diverse roles of educators include such skills as observing, documenting children's learning, creating a rich classroom environment and facilitating children's learning

and play, and building collaborative partnerships with families and communities. Curriculum specialists are highly qualified and knowledgeable early childhood educators who are responsible for planning, monitoring and ensuring the attainment of individualized and group goals for children. Putting in place a teaching team of 3 teachers in a class also ensures low teacher child ratio at all times, whilst making it possible to facilitate personalized interactions and individualized teaching practices.

In addition to Curriculum specialist, Art and Music Specialists form part of the team of versatile, best in-class educators in the Odyssey. For example, an Art Specialist given the specialized art qualification and training; brings in the talent, knowledge and expertise in art, which a regular classroom teacher is not as equipped to do, which further supports and immerses children in creative and visual art experiences; their imagination, sense of wonder, curiosity, creative expressions and ideas.

### **Chinese Language Immersion**

Having a designated Chinese Language teacher in each class means that full Chinese Language Immersion is made possible at Odyssey. The school offers full Chinese Language Immersion in all classes from Tots to Kindy 2. This teacher stays with the class throughout the day and speaks and interacts with the children primarily in native Chinese Language thus ensuring that children get the language input throughout the day, not just in formalized lessons, but in daily interactions, routines and transitions.

These teachers structure and plan Chinese lessons based on a set of prescribed outcomes following through a set of scope and sequence. This will ensure that children acquire the skills in listening, speaking, building their Chinese vocabulary and word skills, reading, penmanship and writing skills in the Chinese Language. In this Chinese immersion environment, children listen and respond to instructions and communication in the Chinese Language and thus acquire it more readily and naturally, and learn to use it as a means of expression and communication in the contexts of real life events.

### History and development

OEC International School (OECIS) is funded by Daming Group and is a division of Shenzhen Oriental English College founded in 1994. OECIS is a co-educational school with students enrolled from kindergarten to high school. Our school is a set of kindergartens, primary school, secondary school, Hong Kong and Taiwan schools, IB International School and Korean International School in one of the fulltime, full-boarding private schools.

OECIS has been an authorized IB World School since 2004, delivering IB structured curriculum for over 13 years. OEC covers an area of 150,000 square meters (about 37 acres). With 114 classrooms, 3400 students and staff, advanced facilities and the campus provides for collaborative spaces and areas for group and individual teaching and learning. Located in The Baoan Education District, only a five-minute drive from the Shenzhen International Airport, it is situated at the foot of the Phoenix Mountain and surrounded by picturesque natural scenery. Shenzhen City, also known as the first Special Economic Zone in China is easily accessible from Guangzhou and Hong Kong.

#### Curricula

A well-acclaimed international IB programme is offered to

meet our students' diverse educational needs. In addition, we also offer intensive English training courses to help students prepare for both their English instruction in class and the various language requirements set by universities. The ratio of student-faculty is 6:1, which ensures each student receives enough attention and guidance. Our students have achieved remarkable results and continue to excel in all areas.

#### Classrooms

All classrooms have a comprehensive range of resources which includes a wealth of technology resources. Each classroom is equipped with interactive white boards and are used to present classes. We also have a dedicated, well stocked library from which children and families can borrow a range of books, story sacks and other resources.

#### Technology

By integrating technology and computers in the classroom students are learning faster and expressing themselves creatively more than ever before. With Office 365 (school information system) students, parents and teachers enjoy an open classroom environment. Bringing parent closer to the classroom. Empowering students through innovation in the classroom is the goal, here at OECIS!

Prem Tinsulanonda International School is a leading co-educational boarding and day International Baccalaureate (IB) World School. Located on its lush 100-acre campus set in the foothills north of the ancient and historic city of Chiang Mai, Thailand, Prem is the first IB World School in South East Asia to offer all four IB programmes: the Primary Years Programme (PYP), the Middle Years Programme (MYP), the IB Diploma Programme (IBDP), and the IB Career-related Programme (IBCP).

Since its inception in 2001, Prem Tinsulanonda International School has been dedicated to academic excellence. At Prem, students from all over the world receive a rigorous international education that provides them with the global competencies required for a future of increasing cross-cultural interdependence, rapid technological change and critical environmental challenges.

To complement their academic work, students also participate in Exploria, the after-school co-curricular activity programme available from Grade 1 to Grade 12. Exploria aims to expose students to many different possible activities which explore creative, physical, academic and service challenges.

As a four-programme International Baccalaureate boarding, and day, school, we offer every child an

appropriate educational challenge, which is augmented by an innovative boarding curriculum. Prem boarding apartments offer flexible boarding options for students from Grade 3 – Grade 12. Our boarding residences provide a warm, homely atmosphere that fosters a sense of “family”, on a beautiful, safe campus that fully supports the diverse needs of our students, and this is very important when our students come to us from so many different cultural backgrounds.

Prem graduates have gone on to study a variety of courses that include medicine, engineering, liberal arts, economics, business management, mathematics, the arts, environmental science, biochemistry and international relations. Prem alumni have been welcomed into leading universities around the world.

The Prem Class of 2018 has achieved the outstanding IB Diploma results in the May 2018 examination session with an average IB Diploma score of 34 points (IBO, July 2018), which is 4 points above the normal world average.

The most prestigious educational organisations and major educational agencies in the world have accredited Prem Tinsulanonda International School. Our thorough review process every five years ensures we continue to meet the exacting standards of international accreditation.

The backbone of QSI's mission statement is, "We believe that all of our students can succeed, that their successes encourage them to continue in a pattern of success, and that it is the schools' responsibility to provide the conditions for success." The IB Diploma Programme at QSI Chengdu reflects this mission as well as preparing its candidates for being leaders in a rapidly evolving world.

Our small class sizes give the highly qualified faculty the ability to individualize instruction and push our students

to achieve at their highest levels. QSI Chengdu also allows students to tailor their education by choosing courses and path of study to maximize their interests and take ownership over their education.

The IB "League", as named by the IB students, promotes a collaborative culture that strives to build well-rounded members of society from the strong core of our IB Diploma Programme.

## Success for All at QSI International School of Shekou!

QSI International School of Shekou is a non-profit institution that has operated in Shenzhen for 16 years as one of the only true international schools in Shenzhen serving the children of foreign families ages 2-18.

The city's largest international school with the longest-standing International Baccalaureate (IB) Diploma Programme authorization, QSI Shekou's four campuses offer an American-accredited (Middle States Association of Schools and Colleges) education in the English language. Students are able to graduate with both an American high school diploma and the IB Diploma. Prior to beginning the IB Diploma Programme, students have the option of taking Advanced Placement (AP) courses.

Students can choose over 22 IB course options, meeting the interests of our students and their university aspirations, which vary in reflection of the 40 nationalities of students.

In 2018, 59 students of 16 nationalities graduated as the Class of 2018, receiving offers from over 80 universities in 11 different countries.

QSI Shekou is one of 37 schools in 31 countries operated by Quality Schools International.

QSI Shekou follows a mastery-learning pedagogy that nurtures and challenges the whole student by offering

choice, rigor, and time as a resource with performance-based mastery.

Mastery learning pairs well with the IB Diploma Programme to challenge students to authentically learn, explore, and be challenged in accordance with the IB Learner Profile. QSI Shekou students are already well-versed in performance-based learning by the time they begin the IB Diploma Programme.

In the same vein as a strong CAS program, QSI educates the whole child by offering a wide range of after school activities ranging from competitive and recreational sports, choral and instrumental music, visual and graphic arts, a dynamic Maker's Space with opportunities to learn programming, robotics, and design, film & podcast production, and other events and clubs such as Model United Nations (MUN) and the National Honor Society (NHS).

Service is also embedded in QSI Shekou from an early age, with opportunities continually presented for students to participate actively as community members through service.

Our teaching staff of over 200 teachers is largely North American and hold current teaching licenses in their areas of expertise. Our IB Diploma Programme teachers are IB trained in a timely manner and collaborate with the QSI-wide network of IB teachers who have experience pairing the QSI mastery-learning approach with the IB Diploma Programme.

**Website**

www.queenwood.nsw.edu.au

A rigorous academic curriculum within a balanced program of activities has been the hallmark of a Queenwood education for over 90 years. Within a strong learning community, we create space for our girls to engage with big ideas and connect with a diverse range of people and communities. At Queenwood, our commitment is to a liberal education – an education which, at its core, develops rigorous thinking and the practice of inquiry.

**Our Programs**

We are an independent Kindergarten to Year 12 non-selective day school for girls that provides a well-balanced curriculum catering to individual differences. We seek to develop in our students the knowledge, skills and habits which will be the foundation for a lifelong awakening to the complexity of the world. As girls move through the school there are increasing opportunities and expectations for independence. Our curriculum, pastoral care structures and extra-curricular programs create a safe but challenging framework within which girls learn to manage their work, their time, their relationships and responsibilities – skills which are essential to a happy and productive life.

**International Baccalaureate**

We offer dual IB and HSC pathways for Year 11 and 12 students, and each girl has the opportunity to choose the pattern of study which best suits her individual interests and preference. Our IB results demonstrate the commitment

to academic rigour offered at Queenwood, with 56% of students completing our last IB Program placing in the Top 5% of the state with their overall mark. This has enabled our alumnae to attend Universities within Australia, as well as in the United Kingdom and the United States of America, such as Oxford, Cambridge, Harvard and Brown Universities. Our commitment to the life of the mind reaches far beyond the examination syllabus, and we recognise the school years as an essential grounding in developing an intelligent and sensitive awareness of the world.

**Our Values**

Truth, Courage and Service underpin a Queenwood education. Growing in wisdom with a strong sense of identity and self-knowledge aid students in seeking a deep understanding of the truths of the world. That sense of purpose, the willingness to engage with challenge and the desire to make a contribution remain at the heart of Queenwood's mission. By thinking and acting independently, our girls are keen to courageously engage with contemporary social and political issues, thereby deepening their knowledge of themselves and gaining deeper and more nuanced perspectives on the world. We encourage our students at every level to contribute in thought, word and deed: responding to the vulnerable and marginalised with respect and compassion; speaking out with courage; and taking action in their service.

**Website**

www.rbkia.org

RBKIA is a co-educational IB Continuum World School established in 2007 along with the Cambridge IGCSE option in grade 9 & 10, thus offering the widest possible pathway for world class education in an enriching and stimulating learning environment with the teaching faculty drawn from across the globe.

The school was established in Central Mumbai with a vision to educate global citizens who epitomize humanistic values, possess the 21st century skills and are developed holistically in a campus which possess state of art infrastructure. This makes the student ready particularly for overseas colleges and universities and future ready for professions and entrepreneurship.

**Moving beyond the classroom:**

At RBK, academics and development of socio emotional skills and humanistic values are not stand alone areas instead are interwoven into each other in order that it is more meaningful and relevant to the students. Mindfulness, grooming and personality development programmes involve professionals from these areas. There are also different experiential programmes for service, adventure, outdoor learning and cultural exchange. Further, the so called co-curricular activities like music, sports, theatre, dance and art are distinct subject areas which can be taken up to grade 12. Hence, the pathways and subject choices are wide in order to cater to the holistic development of the students & there is a college placement cell.

**Reaching Beyond Knowledge:**

RBKIA upholds the adage 'Reach beyond Knowing' by providing framework for a holistic and authentic learning.

The students are divided into 4 houses and have inter house competitions which further paves way to interschool and state and national level competitions.

- Major games: Drill & fitness, football, cricket, athletics, march past, marathon, basketball.
- Minor games: Table tennis, badminton, tennis, chess and carom.
- Co-curricular activities: Quiz, elocution, debates, MUN, dance, music and drama.

Further, the students take part in Olympiads, International Award for Young People, Trinity College examination in Speech & Drama and Music.

**Awards & Accolades:**

- **British Council:** International School Award 2017-20 for "Outstanding Development of the International Dimension in the Curriculum"
- **Future 50:** Top Schools in India (International Curriculum) in 2017-18 by Fortune Magazine
- **Mid-Day:** Excellence in Diverse and Holistic Curriculum, Central Mumbai 2018

www.redlands.nsw.edu.au

Redlands is a leading Australian independent school that offers a contemporary real world education, fostering academic excellence and confidence for life.

We have offered the International Baccalaureate Diploma Programme for Years 11-12 since 1988, longer than any other school in New South Wales. The 30-year association with the IB has helped the school build its reputation as a leading provider of a well-rounded global education.

Redlands provides an extensive range of opportunities – academic, sports, creative, outdoor education, service – for students to learn, to achieve and to develop their unique skills and talents.

The rich and balanced education program is aimed at developing well-rounded, confident and compassionate young adults who are prepared for life after school, ready to meet challenges and embrace opportunities and change in the 21st century.

Our students work together within an inclusive, real world, coeducational environment, complemented by a comprehensive leadership and service programme, to develop the knowledge, capability and confidence to let their light shine – at school and beyond.

At Redlands students receive an outstanding academic education as a result of the school’s individual approach, committed teachers and world-class learning programmes and resources.

In embarking on the IB Diploma Programme at Redlands, students will commit themselves to:

- a two-year journey of discovery and self-awareness;
- an experience that will be ultimately both rewarding and empowering; and
- an outcome that will enable a smooth transition between school and university.

As a non-selective school, students who come from over 30 different countries have the opportunity to study for the IB Diploma Programme if they so wish. Careful guidance is undertaken in considering course structure and styles of learning to assist students in making the right choice for them. Each year approximately 50% of Redlands students select the IB.

**Redlands IB Results**

- In recent years, ten Redlands students have achieved the perfect IB score – 45/45, putting them in the top 0.2% of IB Diploma Programme students worldwide.
- In 2017, 30% of candidates achieved an IB score of 37+, equating to an ATAR of 95 and above.
- From 2011 to 2017, 12% of candidates were awarded rare bilingual diplomas – in French, German, Italian, Chinese, Japanese, Korean, Dutch, Danish, Swedish and Spanish.

At Redlands, all components of the IB Diploma Programme are delivered by a strong team of IB teachers, including moderators in their subject areas, IB trained workshop leaders and experienced teachers.

For more information about Redlands please contact the Registrar or visit our website: [www.redlands.nsw.edu.au](http://www.redlands.nsw.edu.au).

## About Our School

Regents International School Pattaya is like no other school in Thailand. As part of the family of 56 Nord Anglia schools located around the world, we provide unique learning opportunities far beyond the ordinary. We are an exciting, vibrant and inclusive school which has something to offer to every child and every family in our dynamic and diverse community.

We have just over 1000 students aged from 2 to 18, spread evenly across our Early Primary, Primary and Secondary schools, including around 70 boarding students. As both a day and boarding school we encourage our students to be ambitious in their learning and believe there is no limit to what your child can achieve. We are the most successful school on the Eastern Seaboard with a long-established reputation over the past 20 years. Our students are successful because our approach encourages children to think for themselves, how to question, how to learn – skills that will last them for a lifetime.

Regents is the leading school on the Eastern Seaboard for good reason. We have joined forces with the world famous Juilliard School of Performing Arts in New York, and we also collaborate with the prestigious Massachusetts Institute of

Technology (MIT). As well as being part of the Nord Anglia family of schools, who provide an outstanding education to over 50,000 students around the world, we are also proud to be a Round Square school, offering unique opportunities for our students to take part in many exciting global projects.

### Boarding

We provide a safe, friendly and active boarding community with the emphasis on continued learning. We provide opportunities to collaborate, study independently, have fun, be active and have a sense of adventure. Our boarders develop into confident, independent, resilient and caring individuals who will make the world a better place. The outstanding range of learning opportunities and new environments to discover in Thailand and in South East Asia, make the boarding experience here so much richer and better value-for-money when compared with boarding schools in the UK, Western Europe and North America.

### We Invite You to Experience It For Yourself

Choosing the right community and learning environment for your child is a major decision. We hope you agree that Regents is not only a fabulous school but also the right school for you and we look forward to welcoming you into our family.

aip2008@ujc.ritsumei.ac.jp

**Website**

www.ujc.ritsumei.ac.jp/ujc\_e/

**About**

Ritsumeikan Uji Junior and Senior High School is located in Uji City, south of Kyoto in central Japan. The school is mixed boarding and day, coeducational, and offers an integrated six-year curriculum. Ritsumeikan Uji High School was established in 1994 as an affiliated school of Ritsumeikan University, one of the largest and most prestigious universities in Japan. The school was rebuilt in its current location in 2002 and established a junior high school in 2003.

**IBDP Programme**

Among the many courses available to students, Ritsumeikan Uji offers the IB Diploma Programme to a growing number of students each year. Authorized as an IB World School in 2009, the school was the first Japanese (non-international) school in the Kansai region to offer the Diploma Programme, and it is widely recognized as one of the best in the country. Successful graduates of our programme will hold a dual degree, an IB Diploma and a Japanese High School Graduation Certificate, and will be well-positioned to gain admission to top colleges and universities around the world. Recent diploma programme graduates have been accepted at Amherst College, the Australian National University, Duke University, Imperial College London, New York University Abu Dhabi, Toronto University, Tufts University and many others.

**Resources and Events**

DP students at Ritsumeikan Uji have access to first-class resources, including four science labs, a multilingual library, media labs, and an observatory, as well as a wealth of events including culture day, sports day, astronomy night, and the annual art festival. The school dormitory hosts many IB Diploma students from around the world, supports a wireless internet, and is a short bus ride to campus. In addition, the school supports DP student travel to overseas student conferences. DP students benefit from small class sizes and a highly dedicated staff, and are offered a range of course options so that they can spend more time on areas of special interest.

**Goals**

IBDP education at Ritsumeikan Uji builds on over fifteen years of experience in international education in order to offer a unique education which is focused on the twin goals of preparing students to succeed in increasingly competitive global education and labor markets, and to be responsible participants in the 21st century international community. We are strongly committed to both the academic and personal development of our students and reflect this commitment in everything that we do.

Roots IVY International Schools are synonymous with almost three decades of academic excellence and are the brainchild of internationally acclaimed student counselor, Dr. Khadija Mushtaq (Tamgha-e-Imtiaz), recipient of Yale and MIT educator awards. Established since 1988, Roots IVY has revolutionized the education landscape of Pakistan.

**Accolades and Key Features:**

- Roots IVY Schools have the distinct honor of holding 4 Guinness Book of World Records.
- Winner of Diamond Jubilee Common Wealth Essay Competition top school in Pakistan declared as “Super School of Asia”.
- WWF Green School Award by WWF Pakistan for consecutive five years.
- Winners of FLL Robotics UK in 2014, 2015, 2016, 2017 and 2018.
- Best Environmental friendly School Award by Federal Ministry for Environment and UNDP.
- Gold and Bronze award at Tiajin Art Festival, China.
- Collaborative linkages with 180 Top Universities of the Universities of the world.
- Roots IVY fosters global mindedness by offering classes for French, German and Chinese languages and has progressive partnerships with Oxford Royale Academy, Eurasia Institute Germany and Goethe Institute.

**IVY Leagues and International University Acceptances:**

Roots IVY offers career counseling opportunities like no other with special emphasis on IVY League and Russell group

universities. IVIANS secured 3 IVY League Acceptances in Year 2018 alone; Sarosh Kayani blazed her way into the Yale Class of 2022 on a scholarship of \$73195 per annum, Ahmad Afzal Bhatti received the much coveted offer from Cornell Class of 2022 on a scholarship of \$70,000 per annum and Zara Shahzad secured admission in the highly selective Brown class of 2022.

**IVY Alumni:**

For 30 years we have nurtured talented scholars, artists, writers and professionals who have left their imprint and continue to do so in their chosen area of enterprise. Roots IVY alumni are currently employed at Fortune 500 companies such as Google, Goldman Sachs, IBM and Pricewaterhouse Cooper. Our Alumnus Hamza Farrukh was recently featured in the Forbes 30 under 30 list.

**Facilities and Infrastructure:**

Roots IVY campuses redefine the concept of modern education amenities and are replete with swimming pool, amphitheater, football ground, basketball court, well equipped science laboratories, library, music room, multimedia, computer labs, food court and much more.

**An Extraordinary Community:**

With more than 25 student organizations in Roots IVY, students have the opportunity to take on leadership roles and share their interests through student government, clubs and community services that serve to enlighten students, expanding their intellect and widening their sphere of thought.

mtdibd@rmc.edu.my

Royal Military College (RMC), also known as Maktab Tentera Diraja (MTD) was established on 3 July 1952. As inspired by the then Malaya High Commissioner, Field Marshall Tun Sir Gerald Templer, RMC aims to prepare young Malaysians to take their places as officers in the Malaysian Armed Forces, in the higher divisions of the public service and as leaders in the professional, commercial and industrial life of the country. Embracing the slogan “SERVE TO LEAD”, it is also the mission of the school to provide a comprehensive smart learning environment to develop leaders with calibre, high integrity and noble personality to serve in the public and corporate sector.

Uniquely set in a multiracial context, students aged 16 to 19, are put through an active menu of training, combined with classes, games, extra-mural activities and prep work. These training and education inculcated self-discipline, self-reliance and self-confidence. Experience of living together in a multi-cultural and multi-religious society develops tolerance, empathy, trust, strong moral values and camaraderie. Dynamic and distinguished mentors and

teachers impressed upon them the meaning of integrity, courage, loyalty and honour. Together, they have successfully produced a new generation of leaders and have achieved scholastic excellence with a relentless spirit of high-self-esteem to see through the tough to become the prominent. Graduates of the school have taken positions as ministers, secretary-generals, chiefs of Armed Forces, academicians, heads of non-governmental organizations, chief executive officers of companies, sportsman and international artist.

RMC receives authorization to become an IB World School on 3 July 2015 to implement the International Baccalaureate Diploma Programme (IBDP) and has its first cohort of DP students on 10 August 2015. To enable RMC to continue to produce leaders of tomorrow, we need to rededicate ourselves to the spirit of the founding charter. Having the IB Learner Profile in mind and empowered by the mission of the International Baccalaureate, RMC now aspires to develop principled, inquiring, knowledgeable and caring leaders who are life-long learners, to create a better and more peaceful world.

Founded in 1957, Ruamrudee International School (RIS) was one of the first international schools in Asia to be accredited by the Western Association of Schools and Colleges. Today, RIS continues to deliver an outstanding academic program and is a model of excellence and innovation in global education. The school’s core values embed service learning, character development, and global citizenship into our enriched American curriculum. Our teachers are creative, compassionate experts in their fields; 72% of our faculty hold master’s degrees or higher.

An IB World School since 1998, RIS offers students a rigorous and extremely successful International Baccalaureate Diploma Program. Our IB Diploma students scored an average of 35 for the past three years, far above world averages. After graduation, our students go on to attend the most prestigious universities in the world and can then be found working in all branches of medicine; as government leaders, diplomats, and researchers; in the entertainment and film industries, as professional athletes, and in the emerging fields of AI and design technologies.

Located just outside of Bangkok, the school’s 29-acre clean-air campus is less than half an hour from Suvarnabhumi International Airport and is supported by a thriving local

community. State-of-the-art facilities include 21st-century learning spaces, a culinary arts center, recording studio, Makerspaces, and a robotics lab. Our middle and high school students who live on campus enjoy a contemporary boarding facility with a warm, familial feel.

At Ruamrudee International School, we nurture the minds, hearts, and hands of our students. From PreK 2 through grade 12, students benefit from small class sizes, relevant and innovative electives, modern languages, a vibrant performing and visual arts program, and one of the largest athletic programs of any international school in Southeast Asia. RIS offers a comprehensive extended day program with creative enrichment opportunities. Our Student Services department, led by school psychologists, ensures that our English Language Development and Learning Support programs meet the diverse needs of all our students. All RIS students are able to excel, both in and out of the classroom.

As it has been for the last 60 years, our deeply ingrained culture of self-reflection and self-improvement has resulted in students who are creative, compassionate, critical thinkers. Their commitment to leading happy, healthy lives while helping others do the same is why RIS students continue to forge positive, lasting legacies for the world.

Rungta International School (RIS) is a Social Responsibility venture of the famed Santosh Rungta Group of Institutions, one of the top ranked educational groups in the country with a total strength of 20000 students, who year on year, place their faith in the Group.

Rungta International School is the only IB World School in the state of Chhattisgarh and the 19th school in India offering three programmes. RIS has been authorized for the PYP, MYP and DP. In the heart of India and in the green zone, it is nestled in the capital of the state but far from the hustle and bustle of the noise, pollution and traffic and spread over 10 acres of lush green environment.

The infrastructure, playgrounds and facilities are of international standards and the whole leadership and faculty is trained by the IBO. RIS also has to its credit two Guinness World Records for the Clean India Mission and Largest Singing Relay. The community engagements of the children is probably the highest point of their learning. The children go to the public schools nearby, share resources, sensitize them on many factors like career options, child rights, health and cleanliness.

The alternate classrooms, amphitheatres, exhibitions, field visits all make the student enjoy while he learns and also applies his knowledge to real life situations. The students also organize the Model United Nations, Family events, flash mobs, Interschool quizzes, Word games and spread whatever they have learnt to schools in the city.

The aim of the Santosh Rungta Group while setting up RIS was to supplement the growing needs of education of the new state of Chhattisgarh and be a part of the development of the state. To that extent, in the past three years, RIS has grown by leaps and bounds and has added world class tennis and basketball courts, fully tech transparent classrooms, international faculty and trainings, robotics and iPad labs and a well equipped library with both physical and e-resources. Led by a visionary leader Dr Jawahar Suriseti, an eminent educationist and psychologist of India and the hands on experience of Dr Sourabh and Sonal Rungta in the running of RIS.

A loving and caring environment in a serene location with the best of education and lifeskills is what makes Rungta International School so special.

**Ryan Global School** is a vibrant and dynamic coeducational day school providing global curriculum in order to develop young minds to be prepared for an international interface and be lifelong learners. The school has established reputation in academic excellence and the extra-curricular activities. In the recent C-fore survey by Education World Magazine, the school has been adjudged amongst the best International Schools in India. Child centric friendly atmosphere is achieved through a meaningful partnership with the stakeholders ie parents, well wishers, staff, faculty and our students.

Our Mission Statement:- Ryan Global School delivers high quality teaching and learning within a safe, energetic and intellectually-challenging environment. We encourage our students to be inquirers, reflective and collaborative thus preparing them as life long learners and ethical citizens within a democratic society and global community.

**Facilities**

Ryan Global School provides facilities appropriate for quality teaching and learning. Besides the current norm of providing facilities which is conducive for learning it specially offers a plethora of enriching school activities, trans-disciplinary in nature and aspire to go beyond the given requirements in enhancing the learning experience for its students.

**Academic**

Ryan Global believes in developing a dedicated team of staff and teachers who are professionally trained and equipped to channelize their energy towards innovative teaching practices and are encouraged regularly to participate in a variety of training workshops, seminars, conferences and team building exercises which play a vital role in upgrading

the knowledge base and the latest trends in education.

As an authorized IB World School and also an authorized Learning Centre for the Cambridge International Examinations (CIE), Ryan Global School offers:

- The IB PYP (IB Primary Years Programme)
- CIE – IGCSE and AS/A Levels

**Beyond Academic**

Ryan Global School is part of the Ryan International Group of Institutions which has a nationwide presence. With farsighted vision of its Chairman, Dr. A. F. Pinto and MD, Madam Grace Pinto, the group has pioneered significant national and international events in order to develop excellence in leadership. By going beyond the traditional academic practices, the group has made a lasting impact in the segment of education.

The Ryan Group has been the first in the country to host the International Children's Festival of Performing Arts (ICFPA) and Indian Model United Nations (INMUN). Ryan hosted the prestigious World Scholar's Cup with record breaking participation from the students which is now the largest ever regional round in the history of the World Scholar's Cup amongst 40 countries of the world. Cultural Exchange Programmes, NASA – USA educational Trip, Social Service Camp are regular fixtures on the school calendar. RYAN TV – a media initiative mentors students to create India's youngest breed of technicians, news anchors, cinematographers and so forth. In the field of sport, the school has collaborated with the best in the industry to bring world-class coaching to its children.

## Unique Features

Saint Kentigern Middle and Senior Colleges are independent Presbyterian schools in New Zealand for boys and girls in Years 7-13 (ages 11-18). Students in the Middle College (Years 7-10) are taught in single-gender classes while in the Senior College, (Years 11-13) girls and boys learn together.

The College is located on 100 acres, bordering the Tamaki Estuary, 16km from the centre of Auckland, and is founded on strong Christian values, a focus on excellence in education and service to others.

## Curriculum

Academic success is expected of every student at Saint Kentigern Middle and Senior Colleges and we challenge our students to excel. An unparalleled range of subjects is taught in modern, specialist facilities. Senior students have a choice of qualification pathways. In the final two years of school, they can choose the New Zealand Qualifications Authority NCEA examinations or the International Baccalaureate programme. The College is a wireless campus and students work with their laptops and tablets to do collaborative class work, research and homework.

## Co-curricular Activities

Our sports facilities and coaches are among New Zealand's best and we enjoy success in regional and national competitions. We are deeply committed to performing arts. Drama students learn in dedicated spaces and perform in a purpose built performance venue. In addition, our separate music centre provides superb, soundproofed facilities for our

choral and instrumental enthusiasts.

## Boarding

Bruce House, our specialist boarding facility with separate houses for boys and girls, is the place our boarders call home. Boarders are involved in every facet of college life and they develop lasting friendships and a strong sense of school spirit.

Our international students come from many countries to enjoy New Zealand's and Saint Kentigern's unique learning environment. All students attain internationally recognised New Zealand qualifications.

## Student Wellbeing

Our students receive the best pastoral care. A dedicated team of teachers and personal care specialists monitors the students' progress, socially, academically and emotionally, ensuring they thrive at school.

## Fees

Tuition and boarding fees for each academic year are set in October. These are published on our website.

Overseas students at Saint Kentigern Middle and Senior Colleges require a designated 'caregiver' who will act on behalf of the parents while the students are enrolled with us.

## Enrolment Enquiries Welcome

Please contact us by email, phone or in person. We look forward to introducing you to 'a World of Opportunity for Boys and Girls' at Saint Kentigern Middle College and Senior College in clean green, Auckland, New Zealand.

Welcome to Santa Sabina College. We are a Catholic Dominican P-12 school located in the diverse, multicultural Inner West of Sydney.

Established in 1894 by a group of Dominican Sisters, Santa Sabina College, a Catholic school in the Dominican tradition, educates students to achieve personal excellence, to act with justice and compassion, and to embrace the future with an optimistic global vision.

As a P-12 College we benefit from the continuity of approaches to learning from the early years to Year 12. Inquiry learning in a student-centred learning environment characterises each stage of the learning journey. Our early education centre, Mary Bailey House, embeds the principles of inquiry learning through the Reggio Emilia programme.

We are an IB World School for the Primary Years Programme (Years P-5) and the Diploma Programme (Years 11 and 12).

Our Middle Years (6-8) and Senior Years (9-12) at Santa Sabina College are similarly committed to inquiry at increasingly sophisticated levels. Our strategic intent is to grow a community of discerning scholars who are intellectually curious, creative and reflective.

The pastoral care of our students is integral to our approaches to teaching and learning.

The significant sporting and co-curricular life of the College ensure that education is holistic and inclusive of a wide variety of student interests and abilities. Music education P-12 is designed to maximise students' opportunities for authentic performances in a range of contexts.

The structures and processes we employ at different stages of a student's education share common principles that reflect our values of community, service, prayer and learning. We encourage students to make good choices, and support them when they don't. Our aim is always to work with students and families in a spirit of community. The emotional, social and spiritual growth of students is critical to their present and future lives. It cannot be an afterthought to academic achievement.

Learning is enabled through a rich variety of educational experiences. Students participate in retreats, outdoor education, curricular and co-curricular programmes at our Tallong campus in the Southern Highlands. In the secondary

years, students are encouraged to participate in immersion experiences to Central Australia, Solomon Islands and to South Africa to deepen their understanding of global interconnectedness. These experiences are part of the fabric of life at Santa Sabina.

Our ex-student community is active, involved and

committed to both the legacy and the future of the College. Our Dominican Sisters have a continuing presence on our campuses, and offer pastoral support to families, as well as to students.

We invite you join us in 'this place' that is so special to generations of families.

**Background:** Sanjan Nagar is a journey of lifelong learning unlocking the potential of children/families from diverse and disadvantaged backgrounds. It is an evolving school for the future nurturing young learners through inquiry based liberal education in a global context bearing the motto 'Enabling our Future'.

'Sanjan Nagar' means 'people's voice'. 'Sanjan' is 'truth seeking' and 'Nagar' means abode for in depth inquiry. Inspired by the philosophy of Mr. Raza Kazim, the patron of the school, Pakistan's Renaissance man, the school was established in 1995 through philanthropy for low income communities. The Board and the Education Committee are active governance bodies providing close oversight for the IB PYP and recently embarked MYP.

**School Vision:** "To enable children and youth to become caring, knowledgeable and creative citizens of tomorrow for the meaningful progress of our society through a holistic education experience."

**The School:** The Sanjan Nagar School shifted to its current purpose built facility in 2003. A co-education facility since 2006, today the flagship campus is a single shift facility with 910 students enrolled from pre-school to grade XII, providing 15 years of rich experiential learning, respecting diversity.

It boasts of many alumni returning to school, as teachers

and young leaders, an inspiration for the Sanjan Nagar chronicles.

**IB Primary Years Programme:** Sanjan Nagar is the only non-elite IB school in the country; it was the first school in Punjab province to be authorized for IB PYP. The school seeking authorization for the MYP and is in the consideration phase.

**Student activities:** The school's enrichment program is embedded in programs on peace, tolerance, language development, exploring literature, e-learning, youth leadership, arts and crafts, theatre /music, sports, field visits, hosting/participating in the children's literature festivals; surdents exchange programs in USA (IEARN-YES) and South Asia for experiential learning.

**Facilities:** Students Club spanned a three week program in Chess, Literature, Debates, Communication; Design; Citizenship; Science, Environment, and Guiding; teaching expression, experiential and collaborative learning. Sanjan Nagar provides rich facilities and atmosphere for cultural inquiry, exploration and exposure to multiple identities. The facilities include: a Custom Built School; well stocked Library, Computer and Science Labs; Auditorium; Theatre/Arts spaces, Sports/Play areas; kitchen garden; health/ referrals. The campus is an optimized space for its large & diverse student body and local community.

Scots College is an independent Presbyterian day and boarding school, Years 1-13, located in Wellington, New Zealand. Founded in 1916, Scots College has a proud history and reputation for providing a world-class education. The rigorous academic curriculum is supported by a diverse range of sporting, cultural, service and leadership opportunities, enabling each student to reach their potential in all aspects of their lives.

The College is comprised of three schools; Preparatory, Middle and Senior. It is an authorized IB World School and the IB programmes are an integral part of the school's ethos. The school House system provides another dimension to life at Scots with a Dean and Tutor overseeing the pastoral care of each student.

#### Prep School (Boys, Years 1-6)

The Prep School provides a safe and caring environment where boys can experience the joys and challenges of learning as they build strong foundations for their future years. The Prep School proudly delivers the IB Primary Years Programme (PYP).

#### Middle School (Boys, Years 7-10)

The Middle School provides the opportunity for young men to realise their potential in a supportive and positive learning environment. Students take specialist classes, specifically in science, arts, technology and languages, and are provided opportunities outside the classroom with weekly sporting programmes, service initiatives and an EOTC programme.

The Middle School delivers the Middle Years Programme (MYP).

#### Senior School (Co-educational, Years 11-13 from 2020)

Scots College's Senior School is unique in providing a dual pathway education in Years 12-13; where students can choose to study via either the IB Diploma Programme or New Zealand's National Certificate of Education Achievement system (NCEA), in which Scots College consistently achieves above a 90% university entrance pass rate. In his final year of schooling Scots College student Andrew Tang received the 2017 Top Scholars Award for the top national Scholarship NCEA results.

#### Located in Wellington

Wellington is the capital of New Zealand – a harbour city at the heart of government, the centre of business, home to international embassies and renowned for its vibrant city culture and cosmopolitan population of 180,000 centrally, and 450,000 within the region. The Scots College campus is located in the suburb of Strathmore, just ten minutes drive to the central city.

#### Boarding School

The boarding school provides accommodation and care for over 100 students in a supportive and family orientated environment. There are currently over 60 international students at Scots College and over 40 nationalities are represented within the school community.

For over 25 years Pelita Harapan schools have offered high-quality Christian education in Indonesia. At all times the schools' practices are aligned with their Vision: True Knowledge, Faith in Christ and Godly Character; and their Mission: Proclaiming the preeminence of Christ and engaging in the redemptive restoration of all things in Him through holistic education. The Lippo Village campus was founded in 1993 by the Yayasan Pendidikan Pelita Harapan (YPPH), followed by Sentul City in 1994, Lippo Cikarang in 1995, Kemang Village in 2010 and Pluit Village in 2014. With total enrollments numbering 2,106 students from Early Childhood Education (age 1 year) to Grade 12 (age 18 years) across the 5 schools around Jakarta, SPH exists to prepare students to become tomorrow's Indonesian leaders and world citizens.

SPH schools are members of the Council of International Schools (CIS), and some are accredited by the Western Association of Schools and Colleges (WASC) and the Association of Christian Schools International (ACSI). The curriculum is internationally recognized and accredited by the world-renowned International Baccalaureate Organization (IBO). At Kemang Village, Lippo Cikarang and Pluit Village, the curriculum includes Cambridge and International Baccalaureate Programs.

Our teachers are recruited from overseas mainly USA, Canada, Australia, and the Philippines as well as domestically. We challenge our students to succeed academically and to reach their full potential in cultural, artistic, and sporting areas. Academic results continue to

show our IB Diploma graduates scoring above the world average. Almost all our graduates pursue higher education in well-respected universities around the world.

Besides being academic, SPH also has a proud history of excellence in the Performing Arts. Our students perform locally and internationally. We also plan purposeful, physical activities to equip our students with the skills, knowledge, and attitudes necessary to enjoy a physically active and healthy lifestyle.

SPH has excellent facilities to support creative teaching and an effective learning environment. These include swimming pools, tennis courts, gymnasiums, athletic field, soccer fields, basketball courts, badminton courts, fitness center, computer and science laboratories, food technology & design technology workshops, music rooms, art rooms, multipurpose rooms, resource rooms, libraries, health centers, bookstores, banks, canteens and playgrounds.

Sentul City campus also provides a boarding facility with separate accommodation for girls and boys in grades 7-12. A chaplain, supervisors, a nurse, and tutors are essential parts of the Pelita Harapan House community. Surrounded by a green environment, clean air, and all the school's facilities, this residence provides a comfortable and convenient home away from home, where people can maximize their learning and develop friends for life.

The student composition at each school varies from location to location; families are primarily Indonesian but include other nationalities. At our city school, approximately

45% of students are from other countries. There are currently expatriate students from many parts of the world.

The language of instruction is English. Mandarin and Bahasa Indonesia are taught to all students. Tuition fees (SPP) range from US\$ 5,000 to US\$ 20,000/year across campuses and grades. This fee excludes the annual

development fee (DPP) from US\$ 2,000 to 5,000.

Our admissions staff will be happy to respond to any questions and to provide more detailed information. We invite you to experience our campus in person. Please contact our admissions office for more information.

# Senior High School at Sakado, University of Tsukuba

<b>Headmaster</b> Prof. Kenji Tamura	<b>Fees</b> ¥800,000
<b>DP coordinator</b> Masaya Fujino	<b>Address</b> 1-24-1 Chiyoda Sakado, Saitama <b>350-0214   JAPAN</b>

<b>Language of instruction</b> English, Japanese	
<b>Authorised IB programmes</b> DP	
<b>Age Range</b> 15 – 18	
<b>Number of pupils enrolled</b> 480 (including 10 IB students for each year level)	

Senior High School at Sakado, University of Tsukuba (UTSS) is Japan's first "Integrated Course" high school, actively promoting reforms in education and research. In line with the school's mission to provide diverse learning opportunities to students, UTSS is now an IB World School offering the dual-language Diploma Programme in Japanese and English.

UTSS is an affiliated Article One high school of the University of Tsukuba. The school campus is located at Sakado, Saitama, approximately an hour from the center of Tokyo, with access through the Tobu Tojo line.

Students in the IBDP course of UTSS complete a three-year programme, beginning Year 1 with pre-DP and foundational courses, followed by Years 2 and 3 covering the 6 groups in the IBDP. The high school currently offers the following subjects under the IBDP:

#### **Subjects in Japanese**

- Japanese A: Language and Literature (HL)
- History (HL)
- Biology (SL)
- Mathematics (SL)

#### **Subjects in English**

- English B (HL)
- Theatre (SL)

The core subjects, Creativity, Activity and Service (CAS),

Extended Essay (EE) and Theory of Knowledge (TOK) are delivered and supervised in Japanese, however, students have the option to write their EE in English.

The dual-language program requires the students to work in the context of Japanese and English. The curriculum practices and develops reading, speaking, listening and writing skills in both languages, with emphasis on the use of higher order thinking skills. Students use Japanese and English as a means to understand and express critical and analytical ideas, thus, they are expected to have a solid grasp of both languages.

Even before becoming an IB World School, UTSS has consistently exercised experiential learning through fieldwork, school camps, research, clubs, volunteer work and international student exchange. These activities provide diverse platforms to enrich their learning experiences, and complement the core subjects of the IBDP.

The teachers and staff of UTSS recognize that each student is an individual with unique capabilities and intelligences. The curriculum is designed to encourage and support students in choosing career paths where they will thrive. UTSS graduates are empowered to meet the challenges of a changing world – both local and international.

**‘International in Every way’**

Seoul Foreign School is Seoul’s longest established International school and was one of the first 10 international schools in the world. Founded in 1912 it offers a community of excellence coming together to educate children at all ages and all stages. We combine heritage with a passion for learning and are dedicated to the service of all.

The school has a current population of over 1400 students. Coming from over 50 countries and many diverse backgrounds our students have an opportunity to learn and understand about many cultures. We aim to build on this and offer a global perspective on all aspects of education.

Our four individual schools – Elementary, Middle, High and British – are situated together on a world class campus in central Seoul offering easy access from all popular residential areas. Physical, spiritual and academic needs are served

across the facilities. Students have the opportunity to participate in many activities – within the school day and in extra curricular time – including many competitive sports, arts and sciences and holistic interests.

Teaching comprises a Pre- K to Grade 12 learning environment. The PYP and MYP are offered along with the English National Curriculum and both lead seamlessly into the IB Diploma Programme to prepare students for university and beyond. Our teachers are rigorously selected and their passion, inspiration and academic excellence ensure our students go on to attend prestigious colleges and schools and succeed in all walks of life.

We are a Christian school for all. Our students enjoy an education surrounded by our rich heritage in preparation for a future as global contributors.

**What You Should Know**

Simply put, Shanghai American School (SAS) is the kind of school you wish you would've attended when you were a kid. Our challenging academic curriculum helps pave a path to some of the top universities around the world, and we offer over 150 activities, award-winning clubs and trophy-collecting sports teams. Our culture welcomes students from 46 countries, and our dedicated faculty have an average tenure of six years – 56 of whom have been with us over a decade. And as a nonprofit, independent school, all revenue goes right back into making the school even better by creating dynamic learning environments and university-level facilities.

We are China's largest (and one of Asia's most respected) international schools, with beautiful campuses in Puxi and Pudong. We are also Shanghai's most established international school, with a history that begins in 1912. Our mission at SAS is to inspire in all students a lifelong passion for learning; a commitment to act with integrity and compassion; and the courage to live their dreams.

**Inside our Classrooms**

At SAS, we offer students a strong academic program driven by the school's mission and core values. From elementary school onward, SAS' balanced approach to teaching and learning helps students develop 21st century skills such as creativity, critical thinking, collaboration and communication – all in a dynamic learning environment. This approach results in students who are confident, empowered, and globally aware citizens of the world.

**Center for Inquiry & Design**

Our soaring Center for Inquiry & Design in Puxi is a learning space unlike any other in Shanghai. The "CID" (as the students have named it) provides an interdisciplinary lab that combines science, chemistry and technology in one space; a maker space; and our Innovation Institute, which utilizes a project-based learning model, incorporating design thinking processes that empower students to address complex problems with no clear answers.

**Early Childhood Center**

The pride and joy of our Pudong campus is our Early Childhood Center. Here, every aspect has been designed to inspire young learners as they begin their educational journey. The teaching kitchen, the outdoor learning garden and collaborative learning spaces found throughout the center allows our teachers to bring the world to our students in unique ways.

**Outside our Classrooms**

At Shanghai American School, it's academics first. But not academics only. We believe a well-balanced, whole-person education is the best way to prepare our students for the future. To support this belief, we offer over 150 after school activities for students of all ages, from grade 1 through grade 12.

**Athletics**

Our athletics offerings range from competitive to recreational and club level. High school students participate in the Asia Pacific Activities Conference (APAC) and Shanghai International Schools Activities Conferences (SISAC). In fact,

in 2018, Shanghai American School student athletes earned the school's 100th APAC Championship, and have gone on to win 5 more since!

### Arts

Our extensive arts programs include studio arts, drama, music, photography, and dance. Each campus features black box theaters and state-of-the-art performance centers with capacities of 650+. Our school calendar is packed with special events such as artists-in-residence, and photography trips to Iceland. And just last year, our film students dominated the student awards at the Shanghai Film Festival.

### Beyond our Classrooms

"American" may be our middle name, but we are truly an international community. As such, much of the learning at SAS extends outside the classroom and into the region. Our students travel throughout Asia for a week during China Alive; they travel to Jindezhen to study the ancient craft of Chinese pottery in the place where it all began; they support schools in Africa; they live for a month in a village of Southwest China while continuing their studies; and they travel to Malaysia to study the health of coral. Their experiences outside the classroom walls encourages collaboration, problem solving and teamwork which will serve them well, long after they depart SAS.

### After SAS

At SAS, we believe the secret to a successful life isn't a child's diploma – it's the child. That's why our counselors work closely with students throughout their time here, to assure each graduate finds a path that's right for them. Sure, some of our seniors head off to Ivy League schools. (At least nine acceptances per year since 2009.) But all find rewarding destinations. Some end up at the world's top design schools,

or at the best liberal arts colleges, or at one of the ancient universities in the UK. Others ended up forgoing college altogether to start their own businesses, study French cuisine, or establish their own NGO. For our graduates, a whole world lies ahead. Which is why at SAS, we say "From here to anywhere."

## The School

Established in 1865, Shanghai High School has an overall size of 340MU (223,617 square meters) and is historically one of the most well-known schools in China and around the world.

Shanghai High School International Division (SHSID) was founded on June 1, 1993. SHSID has two campuses and has enrolled about 3000 students from over 60 different countries.

In 1995, SHSID became an IB World School. SHSID has been authorized by the College Board to administer AP, SAT and PSAT exams and is also an authorized TOEFL, ACT and A-level exam center.

### Highly Selective Curriculum

SHSID offers its students two different curricula: the US-based program and the IB Diploma Programme. In grades 11 and 12, the IB Diploma Programme is available and the Advanced Placement courses are offered to students from Grade 10 to Grade 12 as college preparation programs. There are 29 IB courses and 20 AP courses for students to choose from.

Approximately 600 compulsory and optional courses are offered for students in grades 1 through 12. A total of 5 different levels, including Standard, Standard Plus, and Honors, are available to meet the varying academic requirements of individual students.

SHSID's high school curriculum encourages a distinct focus on math, physics, chemistry, biology, and environmental science education. A strong foundation in science supports students' future advancement into higher education. In the humanities and arts, many students have been admitted to top liberal arts colleges, as well as various prominent arts and music academies. The curriculum at SHSID aims to fully develop and cultivate the personalities and talents of all students.

## Digital Learning Environment

SHSID strives to create and maintain a modern and digitalized learning environment for students. The campus network, the school information system, the Desktop Cloud, digital libraries, and media centers provide students with opportunities to pursue learning and self-management online.

SHSID offers 30 world-class laboratories, including the Foundation Laboratory of Laser and Fiber Optics, the Modern Analytical Chemistry Laboratory, the Laboratory of Biochemistry and Molecular Biology, the Financial Investments Research Laboratory, and the Information Security Laboratory. At SHSID, these facilities offer students an excellent environment to pursue independent inquiry and research, while also encouraging them to identify and pursue their individual interests and aspirations for continued development.

SHSID also actively explores methods of applying digital tools toward education. New technology, such as the Cloud, Internet of Things, and modern tablets are introduced to stimulate individualized learning in a fully digitalized environment.

### Green Campus and Excellent Facilities

Located in the south-west of Shanghai, SHSID has the largest school campus in the city. We devote over 50% of our site to green space containing seasonal flowers and over 10,000 trees. This beautiful location provides students with a pleasant environment that nurtures creativity.

SHSID owns a 400-meter standard rubberized running track, a FIFA-size soccer field, seven indoor and outdoor tennis courts, an Olympic-sized indoor swimming pool, an outdoor swimming pool, a multi-purpose gymnasium, an indoor table-tennis and badminton center, as well as several

other facilities. With these numerous and varying amenities, students are able to enhance their physical development and sporting abilities in an easy and accessible manner.

SHSID also provides students with excellent art, music, and media facilities. The Digital Media Center, the Arts Center, and the Music and Performance Center are equipped with advanced devices and a wide array of musical instruments for students to improve their talents, skills, and artistic potential.

### Excellent Faculty

SHSID maintains a top quality, diverse teaching staff by recruiting from China, the United States, Canada, and Great Britain. Over 45% of faculty members are expatriates, and the majority of our Chinese teachers have attended various educational programs abroad.

All of our educators have excellent educational backgrounds and extensive teaching experience. More than 65% of the teachers have completed post-graduate education, and over 50% of the teachers are professors, associate professors or senior teachers at SHSID.

SHSID enhances professional development by providing teachers with the chance to expand their teaching experience with opportunities to participate in seminars and training courses both at home and abroad.

### Academic Achievement

IB Exam Results:

- 2016: Pass rate 100%, Average score 41.0
- 2017: Pass rate 100%, Average score 42.2
- 2018: Pass rate 100%, Average score 41.7

The AP program at SHSID produces outstanding results with an average score of approximately 4.6 (out of 5) on more than 700 exams.

SHSID graduates have been highly recognized by colleges worldwide. Prestigious American institutions have accepted our students including Princeton University, Harvard University, Yale University, University of Chicago, Stanford University, Duke University, Dartmouth College, Columbia University, University of Pennsylvania, Brown University, Johns Hopkins University, Northwestern University, Cornell

University, University of Notre Dame, Vanderbilt University, Washington University in St. Louis, Emory University, Georgetown University, University of California – Berkeley, University of Southern California, Carnegie Mellon University, University of California – Los Angeles, University of Virginia, etc. Our students also have the same excellent application results in other countries and regions, including the UK, Australia, Canada, Japan, South Korea, and Hong Kong, such as the University of Cambridge (Trinity College), University of Oxford, Imperial College London, LSE, UCL, the University of Sydney, McGill University, the University of Tokyo, Seoul National University, the University of Hong Kong, etc.

### Extracurricular Activities

SHSID offers a variety of extracurricular activities in many different areas, including studio arts, performing arts, gymnastics, science and technology, debate, drama, and news and media. All of these activities enable students to discover their personal interests and develop essential skills for the 21st Century, including communication skills, collaboration skills, and leadership abilities.

SHSID encourages students to demonstrate their abilities, strengths and confidence in all manners of competition, both inside and outside of the school. Students have received numerous honors, such as, Best Delegation at the Harvard MUN (China), the 1st Place Prize (China Round) and 2nd Place Prize (International Round) at the United States Academic Decathlon, 2nd Prize of the Adolescents Science and Technology Innovation Contest, 1st Prize of China Thinks Big 2018, Champion of National Economic Challenge 2018 (China Round), and a wide range of sporting championships in events held with other international and local schools.

There are approximately one hundred clubs organized and managed by students at SHSID, covering a diverse and wide breadth of areas. Various clubs are devoted to charities and community service. These student clubs at SHSID support more than ten charity organizations and hundreds of people every year throughout the community and abroad.

Shanghai Singapore International School has been delivering excellence in education for the past 22 years. It was established in 1996 to provide quality international education to children of expatriate families in Shanghai.

A balanced and unique curriculum is offered to students from 2-18 years of age. SSIS was certified by the International Baccalaureate Organization in 2005, and in 2014 it became the first school in China to offer the IB Career-related Programme.

SSIS ranks amongst the top international schools in Shanghai. The school is accredited and affiliated with the International Baccalaureate Organization (IBO) and the Council of International Schools (CIS). It offers a mixture of International and Singaporean-based curricula, Chinese culture classes, STELLAR, IGCSE, DP and CP programmes, providing a rigorous and challenging education for all students. SSIS students achieve excellent academic results, which are consistently well above the world average.

SSIS provides a very strong Mandarin program and has been awarded the Outstanding Organization Award in the 2015 Global Chinese Reading and Writing Competition. An extensive range of after school activities is offered as well as a comprehensive English as a Second Language programme. School lunch is freshly prepared every day by a team of chefs, using Mahota Farm organic vegetables.

School facilities include spacious and well-equipped classrooms, computer and science labs, fully operational kitchens, 3 libraries, music, art, dance and drama studios, outdoor and indoor amphitheatres, 300m running track,

indoor gymnasium, indoor aquatics centre, tennis courts, trampoline, football field, multi-functional auditorium, school clinic, teachers' service apartments and the only indoor and outdoor golf training grounds in any Shanghai school.

Today approx 1400 students attend our two campuses. Our students and staff hail from more than 35 different countries and their combined cultural knowledge and expertise help nurture our children to become global leaders and world citizens.

In the words of our 2018 graduate Hsieh Chi Hsuan, "The International Baccalaureate (IB) education at SSIS gave us opportunities to explore the world in as many ways as we possibly could, and that usually came with opportunities to develop our character, our interests, and more importantly, our present and future. Time management and essay writing skills are only the tip of the iceberg when it comes to what SSIS has taught me.

While there is no denying that many schools have better resources and final results, none of them have the same level of camaraderie between students and teachers as we do nor do they have the same level of comprehensive learning opportunities. Our school fosters confidence in students to become who they want to be. I am not the only student who will vouch for this because we have all lived contentedly, as a community, through most of our teen years. The IB curriculum has enriched us in various ways, and now we are on the paths to adulthood. The SSIS education is an invaluable part of our trajectory; there is no denying that."

Shanghai United International School was founded in 2003 and was authorized as an IB World School in 2010.

Situated in Shanghai it caters for more than 1980 students on two campus, Hongqiao and Gubei. Hongqiao Campus offers IB PYP, Gubei Secondary Campus offers Key Stage 3, IGCSE and IBDP.

Students are drawn from more than 40 nationalities, represented across the schools. Close links with nearby Chinese primary and secondary schools allow for rich academic and cultural exchanges leading to the enhancement of the school's signature 'East meets West' characteristic.

At the end of Grade 5, students are bilingual, proficient in both Chinese and English and able to comfortably access the curriculum of their secondary school. Some students use three languages with ease.

Augmenting the academic work of the school is a wide-ranging programme of extracurricular activities catering for the cerebral, the athletic, the artistic and the social aspects of life – hugely supported and enjoyed by the students. The aim of the school is to produce students who are prepared to live life to the full and to contribute to making the world a better place for all.

School facilities include an extensive games field, a 400 seat auditorium, an indoor heated swimming pool, a very large gymnasium and a cultural centre for the benefit of the students (and community at weekends). The range of laboratories and specialist teaching rooms necessary to support the IB programmes are also available.

Staff are recruited from many countries, with the USA, Canada, the UK and Australia being particularly well represented. This staff teaches alongside highly qualified and talented local Chinese teachers to provide a practical cross-cultural pedagogical framework in which students thrive. A comprehensive programme of staff professional development, both locally and internationally, is in place to enhance IB skills and to develop further the expertise of all staff.

Living in Shanghai at the beginning of the 21st century is an extraordinary opportunity for students to be part of a rapidly developing social and economic milieu, with all the benefits and opportunities this possesses. Shanghai United International School is ideally positioned to work with students to maximize their learning in preparation for being truly global citizens.

**Website**

www.wflps.com

Shanghai World Foreign Language Primary School, established in 1993, is one of the most prestigious schools in Shanghai, well regarded by parents. There are three departments, local, bilingual and a PYP Department authorized in December 2007. This school was the first local school on mainland China to be given IB World School status and continues to deliver programs in line with PYP standards and practices. SWFLPS is bilingual, offering students at least 50/50 Chinese and English. Competition to join PYP is high.

**School Mission**

'Shanghai World Foreign Language School provides an education based on International principles and values such as responsibility, understanding and co-operation in the hope of encouraging "a world without frontiers".'

Students in the school are served well with a foreign teacher and a Chinese bilingual teacher delivering a balanced, yet challenging program of inquiry. Collaboration between teachers is paramount and teams work towards providing the best learning opportunities for all students. A positive feature of the curriculum is the fusion of local and international content and practices. Developing positive values already embedded in Chinese culture, we celebrate and respect differences while encouraging our students to be active citizens.

The curriculum is rigorous, and all students also partake in specialist's subjects including Mandarin, Information Technology, Music/drama, PE, Library and Art. The facilities are modern and support our Global views. We believe in broadening our students interests and offer Student Clubs twice a week. There are a huge variety on offer including Table tennis, Chinese Kung Fu and cultural crafts. Self-defense, drawing and cooking with science, all enhance student learning. There is an increased emphasis on learning and maintaining cultural ties.

As a commitment to our community of learners we encourage students to follow their interests and develop a healthy regard of life outside the school. They are community minded, for example visiting the elderly to show their respect, and are aware of others and their needs.

They are also encouraged to participate on the International stage. Students partake in Robotics, sports and a variety of other events. The Choir visited Vienna in 2018 and were awarded Gold in their division. Students in The Odyssey of the Mind competition in 2018, gained third prize in the world final.

Our students develop into independent, confident and competent learners. They can and have taken on the World!!

**Website**

www.sis-shekou.org

Shekou International School (SIS) is a private, co-educational, not-for-profit school located in the People's Republic of China. It serves students in Nursery School through 12th Grade (ages 2-18). The Primary School campus is located in the beautiful Jingshan residential area. The Middle and High Schools are located at the Bayside campus overlooking the South China Sea. The language of instruction is English for all classes with the exception of proficiency levelled Mandarin and French classes.

**Celebrating 30 Years of Education**

SIS has long been at the forefront of international education for expatriate children in the region. The school currently enrolls close to 1000 students representing more than 40 different countries including the US, Canada, South Korea, Hong Kong, India, France and Germany. SIS currently employs 145 world-class faculty and staff members hailing from 15 different countries.

**Educational Programs**

At SIS students are provided with a well-balanced, rigorous education that provides challenge, depth and variety across all disciplines. SIS students participate in a number of program enrichment opportunities beyond the classroom, allowing them to become the best representatives of the school as they enter renowned universities and achieve success in a wide array of contexts. Academics are a priority for SIS students, and their hard work and talents are

demonstrated through a variety of assessments, including external examinations.

**Service Learning**

Service learning is an integral part of the educational experience at SIS. Students understand that they can make a difference in the world by learning about world issues and acting in an informed way to positively impact their local and global communities. Service learning at SIS also fosters an understanding of how others live and allows students to develop compassion and cultural understanding.

**IBDP**

SIS is extremely proud of another set of IB Diploma results from our Class of 2018. Students achieved an average Diploma score of 37, compared with the world average of 30.0 points, with 30% of SIS students achieving above 40 points. At SIS, we include and support all our students in the pursuit of their IB Diploma.

**Accreditations**

SIS is the only international school in Shenzhen that is fully accredited by the Western Association of Schools and Colleges (WASC). The IB Diploma Programme is fully authorized by the International Baccalaureate Organization. The school is a member of the East Asian Council of Overseas Schools (EARCOS), the Association for the Advancement of International Education (AAIE) and a member of All-China and Mongolia International School (ACAMIS) organization.

www.swis.cn

Founded in 2011, Shen Wai International School (SWIS) has established itself as one of the leading international schools in Shenzhen. SWIS is an IB Continuum School authorized to provide the PYP, MYP and DP and is fully accredited by the Council of International Schools (CIS) and the Western Association of Schools and Colleges (WASC).

With a vision of *inspiring global minds* and a mission to *develop confident, open-minded, lifelong learners and inspires students who take action as responsible global citizens*, SWIS strives to provide a world-class education for expatriate students based in Shenzhen as well as children who hold permanent residency from Hong Kong, Macau and Taiwan. At present, the school welcomes over 1040 students from over 38 different countries and employs a dynamic and diverse staff consisting of teachers from 17 different nationalities.

SWIS has a rigorous, inquiry based, concept driven academic program. SWIS students consistently score above average on a number of standardized and benchmark assessments.

SWIS has invested in a world-class, purpose built facility to support the school's curricular and co-curricular programs.

The modern facility has bright, air-conditioned classrooms equipped with technology that supports teaching and learning. SWIS also has a number of specialty learning areas such as a large, centrally located library, a maker space and robotics lab, a contemporary gallery, three science labs, two design labs, four art rooms, four main music rooms, a dance studio, a track and field, a full sized gym, an 8 lane 25m swimming pool, a fitness room, a 500 seat theatre, a drama room and play areas. There are several breakout areas all over the school to facilitate various types of learning.

SWIS has an extensive co-curricular program that includes over 100 diverse and inspiring music, drama, academic and technical related after school activities. Many activities are student led or service orientated allowing SWIS students to develop leadership and organizational skills. The many SWIS athletic teams compete in two regionally based athletic conference.

SWIS will graduate its first cohort in June of 2019. Without a doubt, these students will be prepared to be successful in the world's leading universities.

## Where young minds have found the wings to soar across the world

A Signature Boarding School, the only term, monthly, weekly and day boarding school in Mumbai.

With the finest educators following a unique international curriculum and a sprawling campus with state-of-the-art infrastructure, SIS offers an incomparable education experience. With only a select group of students cherry-picked each year, we ensure every child gets undivided attention and thrives to the fullest.

SIS aims to foster an environment that is characteristically different from any other school in the city, an atmosphere which only living together can create. As a leading international school, boarding forms a vital part of life at SIS. Boarding is a great way for children to develop their social skills and interact with people from different cities, countries and cultures. Children say that the best thing about boarding is spending time with their friends and many make friends for life as they continue through SIS and beyond. Boarding is also an ideal way to make the most of all the opportunities on offer, particularly the extra curricular activities and training that take place early morning and after school. Weekly boarding is on offer to children who may wish to go home on weekends; however weekly boarders enjoy their boarding experience so much that they often opt to stay in school on weekends to enjoy the social activities on offer with their friends. Flexi-boarding for day boarders for two nights or more on an ad-hoc basis are also possible subject to bed availability.

### Building Confidence and Empathy

Homeroom time in the morning is when students engage in general conversations with their teachers to discuss non-academic matters. Qualified and experienced counsellors

intervene in and outside classes to develop a sense of belonging to the institution and adhering to the rules and regulations. Regular communications with the parents and students ensures a constant flow of ideas and opinions so that an atmosphere of open communication prevails.

### Safety of Students

Entry to the school premises is only through an official electronic invitation and a registration confirmation. An official piece of identification needs to be submitted at the security gate prior to entry to the school premises. There are more than 225 CCTV cameras all over the campus including all classrooms so as to ensure students are in a safe environment. All floors have a security guard on duty 24 hours a day. The school buses are fitted with cameras and an electronic tracking system whereby parents and the school administrators can monitor en-route activities.

### Curriculum

The Singapore National Educational Curriculum is known worldwide for its very strong Science and Maths expertise and along with the internationally acclaimed childhood pedagogy The Reggio Emilia Approach from Italy, are the essence of SIS's primary year program. This progresses into the IGCSE and the IB Diploma Programmes.

A different learning environment catering to the unique learning styles of children is provided for. It is drawn from best practices such as concept based learning and the inquiry approach where students become agents of learning, while teachers act more like facilitators to apply and evaluate knowledge rather than dispensing content in various disciplines.

### Technologically Savvy Students

Technology is an integral part of the school life for both students and teachers. Every teacher at SIS is provided

with a laptop upon joining the school. All classes are fitted with projectors while the campus is wifi enabled. Hence classrooms are connected to the internet for both students and teachers. SIS also offers the Cambridge Computer Studies course for Grade 10 and Computer Science course at the IB Diploma level. In the primary and middle years, students have computer/technology lessons in two dedicated Apple-enabled computer laboratories.

The school also subscribes to many electronic educational support portals that enhance the educational experience of

learners. Key examples are: ManageBac that ensure a regular communication between teachers, students and parents. This portal enables teachers to post assignments, assign tasks while students can upload their work for teachers to mark. To inculcate values of academic honesty, a software called Turnitin is actively used in the school where students submit their work through this website and a similarity index is generated and students can then edit their work accordingly to give due credit to other peoples ideas if used in the work.

**About Dr. K. T. Mahhe, Chairman of Sreenidhi Educational Group:**

A visionary in education, Dr. K. T. Mahhe is committed to constantly ensuring best international education practices, and providing world-class educational, athletics and arts facilities to prepare students for a challenging future as socially responsible, engaged global citizens.

**Thoughts by Ms. Nancy Sanderson Swartz, Head of School:**

IB embraces Inquiry-based, concept-driven learning that allows students to explore their interests; where the role of the teacher becomes that of facilitator, responsible for challenging students to think critically, problem-solve, and reflect on their learning, considering all aspects and solutions.

**About Sreenidhi International School**

Sreenidhi International School is an authorized International Baccalaureate® (IB) continuum World School, delivering the PYP, MYP and DP. A member of the Council of International Schools (CIS), the school is seeking accreditation by CIS and New England Association of Schools and Colleges (NEASC).

Overlooking Himayat Sagar Lake, Sreenidhi is spread across a picturesque 60-acre landscape outside the hustle and bustle of Hyderabad. Believing that a physically pleasing environment translates to intellectual acuity and emotional tranquillity for its students, this eco-friendly campus is equipped with state-of-the-art facilities for learning,

athletics, creative arts, and digital literacy.

**What Makes Sreenidhi Stand Apart?**

- Model United Nations Conferences: Simulations of United Nations requiring students to partake in public speaking, debates and diplomacy to solve international affairs.
- International Exchange: nurtures intercultural understanding and values diversity through American, Canadian and European partner schools.
- Career Counselling: focuses on academic, personal and social development to identify student strengths, talents and interests, preparing students for universities worldwide.
- Sreenidhi International Sports Academy: offers national and international level coaching for cricket, football, squash, tennis, swimming, basketball, volleyball and equestrian pursuits, with several students ranked in their sport at district, state and national levels.
- Sreenidhi Football Academy: prepares talented prospects to playing in professional football leagues.
- Community Service: actively engages students to become socially invested citizens through rural development projects focused on literacy, health care and outreach programs.
- Recognition: ranked by the 2018 Times School Survey as “Best IB School in Hyderabad”, Sreenidhi has successfully kindled the vision to deliver an impactful, cutting-edge IB curriculum in India.

St Andrew's Cathedral School (SACS) is a dynamic, independent school located in the centre of Sydney's CBD. With modern facilities and innovative learning environments, our urban location presents innumerable opportunities for students to engage beyond the classroom; at city museums, concert halls, theatres, national institutions and galleries. Our central city location enables students to travel with their parents to work, or easily reach the school by train, car or bus.

**Our Academic Programme**

SACS caters for all learners, encouraging each to develop a lifelong love of learning. The overwhelming majority of students pursue university education following graduation – with increasing numbers going overseas to study.

SACS offers two credentials for the final years of school (Years 11 – 12): the Higher School Certificate (HSC) from the NSW Board of Studies, Teaching and Educational Standards, and the International Baccalaureate Diploma Programme (DP). Typically, around 70 per cent of graduates receive ATAR (Australian Tertiary Admissions Rank) conversion scores above 90, that is, in the top 10 per cent of the state of New South Wales. As a fully comprehensive school, St Andrew's differentiates teaching practices to accommodate students

with a broad range of interests and abilities. Our performance in public Australian examinations suggests an atmosphere of highly accomplished learning and teaching.

At SACS, every student is nurtured, encouraged and valued. A growing number of international students enrol every year and a diverse community of students are drawn from all over Sydney and beyond.

**Special Programmes**

Our comprehensive student wellbeing programs encourage a passion for learning and a culture of participation across sport, music, Outdoor Education and the performing arts. There are more than 20 music and drama ensembles at the school, along with an impressive variety of sporting opportunities and a comprehensive Outdoor Education programme (Years 3 – 10), based at the school's rural Southern Highlands property. Each year, the school offers a number of opportunities to travel across the world for international educational opportunities in sport, community service, music, drama, languages, history or art.

For further information, contact us by telephone on +61 2 9286 9579 or +61 2 9286 9664 or email the Enrolments department at enrolments@sacs.nsw.edu.au

St Andrews International School Bangkok was founded in 1997 on an attractive, conveniently located site, with excellent facilities and good access to local transportation. Today we are a school of more than 1,800 students representing some 50 nationalities ranging from Nursery (2 years) to Year 13 (18 years). In August 2017 we opened an additional campus at a nearby prime city centre location which delivers state of the art purpose-built learning facilities to our High School.

Our school provides a high quality, professional, well-resourced learning environment where each child's talents and abilities are recognised and nurtured, and their needs supported. Our teachers are professional and caring, selected for their awareness of the needs of a broad range of children who may come from different social, cultural, religious and educational backgrounds. They are capable educators who take care with their preparation of the curriculum, use a variety of strategies for its delivery and pay close attention to the progression of each individual.

We are an inclusive school that welcomes students of all abilities. To ensure that all our children have an equality of opportunity, we have a professional Learning Support Department. This team works with class teachers to identify and support children in their learning across the school,

whether they need extra help with their studies or have been identified as gifted and talented.

The curriculum draws on the best UK practices, adapted to reflect the international context of the school. Students take IGCSE examinations at the end of Year 11 and then follow the Senior Studies Programme in Years 12 and 13. Our school offers the International Baccalaureate Diploma Programme, alongside an alternative school-based curriculum, both of which lead to graduation and provide the opportunity to apply to prestigious universities all around the world. As part of Nord Anglia Education, the world's leading premium schools organisation, we collaborate with the preeminent performing arts conservatory, The Juilliard School, and one of the world's leading universities, the Massachusetts Institute of Technology (MIT), to bring truly inspiring learning experiences to all of our students.

With high quality teaching, excellent facilities and small class sizes, St Andrews International School Bangkok offers students the opportunity to fulfil their academic potential in a stimulating, caring and nurturing environment. We are fully accredited by CFBT Education Trust and Thailand's Office for National Education Standards and Quality Assessment (ONESQA), the first school in Thailand to receive this joint accreditation award.

www.standrewsgreenvalley.com

**About Us**

We are an outstanding school situated on the Eastern Seaboard for our global family of 2 – 18 year old children. We pride ourselves on offering a balanced education whilst achieving some of the highest academic results in Thailand. We are also the 1st and only school on the Eastern Seaboard to have been awarded 'GOLD' status twice from the Education Development Trust (EDT) and achieved outstanding in all areas. Nestling in spacious and beautiful surroundings of Green Valley, our campus is home to a community of around 450 students from over 35 nationalities, all of whom enjoy close, personalised attention from highly qualified teachers which is key to their success.

**Curriculum**

In Primary, we provide a stimulating, child-centred learning environment where students follow the framework of the IB Primary Years Programme (PYP) integrated with the principles of the English National Curriculum to provide the best of international learning. Teachers facilitate opportunities for hands-on learning and exploration through the inquiry process, setting high expectations and opportunities to work independently. In Secondary, students complete IGCSEs in Year 10 and 11 and we follow the International Baccalaureate Diploma Programme (IB

DP) in Years 12 and 13. We have found the IB DP challenges the students and provides an excellent preparation for top university courses around the world.

Over the past 10 years our IB Diploma students have achieved some exceptional results, with an average score for the past 5 years of 35 points and some students each year achieving 40+ points. One student recently achieved 45 points out of a possible maximum of 45 points (one of only 147 in the world).

**Maintaining balance is key**

At Green Valley we also emphasise the importance of our students being balanced as well as high achievers. Students are actively encouraged to develop themselves in all areas including sports, drama and music, being active in the wider community and pursuing their passions. The CAS (Creativity, Activity and Service) component of the IB complements this perfectly and allows the students to develop in these areas.

**Part of the Cognita Group of Schools**

We are proud to be a Cognita school and as such we are part of a wider community of 70 schools who believe in 'an inspiring world of education' and we can liaise with colleagues across the world to support student liaison and interaction internationally.

**About us**

St. Andrews International School Sukhumvit 107 (S107) is an international school for 2-18 year olds, focused on meeting your child's individual needs and offering a broad and balanced curriculum blending the best of the British curriculum, the International Baccalaureate and IGCSEs. The school is a spacious, well-resourced and attractive campus located just steps away from Bearing BTS Station. We believe in personalised learning in a caring environment where our young people are free to have fun and be themselves, building leadership skills, resilience and grit.

**The IB Diploma Programme**

The IB programme at S107 has developed over 5 years to the extent that our boutique style and size means that we can offer nearly every IB subject depending on student aptitudes and tastes. In the last few years we have introduced Theatre, Film and Spanish in response to student demand and next year we are offering Philosophy, Global Politics, Environmental systems and societies as a result of student requests. Our flexibility is based on a belief that if students study what they love they will make maximum progress and enjoy their learning to the fullest.

Our small class sizes and personalised learning

programmes help us to closely support all our students and the last 4 years have seen results improve year on year with 2018 seeing the highest IB score at the school (42). This is a significant achievement for an inclusive school and we support all our students to achieve beyond their expectations academically and in their wider learning.

The S107 experience also supports students to engage with their own community and the community outside of school. As well as running student and school community clubs and events, our students use the CAS programme to work with a huge range of community organisations in educational, social and environmental settings. Our students have built water tanks in remote areas of northern Thailand, supported medical charities such as Operation Smile and worked closely with refugee organisations. We are proud to be a Cognita school and as such we are part of a wider global community of 71 schools who believe in 'an inspiring world of education' and we can liaise with colleagues across the world to support student liaison and interaction internationally.

St. Andrews S107 IB experience is rich, varied, flexible and fun. Our ethos is to relentlessly support students in the belief that everyone succeeds at S107!

www.stcuthberts.school.nz

With over 100 years of experience in educating young women, St Cuthbert's is New Zealand's top academic school. With a dedicated Junior School (Years 1-6), Middle School (Years 7-8) and Senior School (Years 9-13), St Cuthbert's places an emphasis on embracing its founding heritage and traditions while ensuring that we impart skills that young women need for both tomorrow and into the future.

While our academic results are unrivalled, in choosing a school for your daughter it is important to also explore how we achieve these results while at the same time, growing every dimension of every girl.

Every girl is an individual, and we ensure that every girl has the support she needs to discover her unique talents, inside and outside the classroom. By identifying your daughter's strengths, she will be able to find her place, both in the St Cuthbert's community and in the wider world.

**A reputation for excellence**

At St Cuthbert's, excellence isn't just a grade – it's encouraging every girl to achieve her personal best. We recognise that every girl is a leader in some aspect of the school community. Whether she excels on the sports field or on the stage, in the classroom or in another unique way, we will ensure that your daughter is able to explore her strengths and talents in a supportive and inclusive environment.

St Cuthbert's students obtain exceptional academic results. With both National Certificates of Educational Achievement and International Baccalaureate (IB) qualifications on offer, no matter where your daughter's academic aspirations lie, our approach to teaching means

that our students gain the tools to become adaptable, forward-thinking, life-long learners. With these essential life skills, our students go on to pursue a wide range of tertiary studies and careers, both domestically and overseas.

In 2017, over 50% of Year 13 St Cuthbert's IB students achieved a score of 40 or above. Three St Cuthbert's students received perfect scores of 45, making us the top performing school for IB in New Zealand. We have small IB classes enabling our teachers to establish good relationships with their students and tailor courses and options to them.

**A Knowledge Rich School**

As an independent school we have the freedom, resources, and teaching capacity that enables us to operate as a Knowledge Rich School. This approach is a key strategic focus at St Cuthbert's and is based on a strong conceptual framework and teaching staff with in-depth and specialist subject knowledge.

Our Knowledge Rich approach introduces our students to a way of learning that will stay with them for life. With a St Cuthbert's education, your daughter will acquire the digital, entrepreneurial, creative and analytical skills that are needed to future-proof her chosen career path.

**Global Citizenship**

St Cuthbert's is focused on growing our girls to be caring leaders and influencers who are true global citizens. As part of our responsibility to prepare girls for their future, an innovative and robust Global Citizenship framework is engrained across every aspect of school life.

St Margaret's College in Christchurch is one of New Zealand's leading girls' school with a proud history of academic, sporting and cultural excellence. An education at St Margaret's College is holistic, embracing the spiritual and emotional wellbeing of our girls as well as their academic growth and their development in sport and the arts. St Margaret's College is the only girls' school in New Zealand's South Island to offer the dual academic pathway of the International Baccalaureate Diploma as well as the National Certificate of Educational Achievement (NCEA).

As each girl journeys through St Margaret's College, either as a boarder or day girl, she is surrounded by people who care about her wellbeing and academic achievement. We know when a girl is happy, she is open to new learning and will embrace new challenges and experiences. At St Margaret's, when we talk about "happiness" we refer to a state of deep wellbeing and personal awareness – the state of wellbeing Maori call 'hauora'. We welcome and support every girl as a unique and precious individual and we work in partnership with her family to ensure she flourishes during her time with us.

St Margaret's College led New Zealand academically in 2017 with the country's top NCEA results. International Baccalaureate results were equally impressive with 100%

achieving their university goals including 10% achieving an impressive 40 or above, putting them amongst the top 3% of students in the world. The world average for the IB Diploma is 29.21 points. The St Margaret's College average is 35.0. In addition, 46 domestic and three international university scholarships were offered to the Class of 2017 from St Margaret's College.

In keeping with the school's holistic approach, St Margaret's College students realise outstanding sporting success at school, regional and national level, including seven girls selected to represent New Zealand at international level this year. They also excel in the arts with students achieving top national honours in speech and drama, representation in national dance, choirs and orchestras and a strong reputation in debating.

Students at St Margaret's College benefit from small class sizes in the most modern campus in Christchurch with its future-proofed learning, including our leading Centre for Innovation and STEM programmes. Our reputation attracts high quality teachers who are passionate about empowering future generations of young women. This vibrant new campus also embraces the 110-year history of St Margaret's College, with its traditional family values, creating the best of both worlds.

**An opportunity for all**

No matter what your passion is, there is something for everyone at Stamford American International School (SAIS). With the aim of inspiring each student to create their unique future, each student has the opportunity to choose the graduation path which suits them personally and aligned to their university plans. Stamford American's dedicated team of educators go above and beyond to ensure all students are included. Providing a supportive and inclusive academic environment, Stamford American is focused on helping each student succeed on the academic path that is right for them.

**An international community celebrating diversity**

Upholding Stamford American's reputation as a truly diverse community of over 70 nationalities, its international culture is well-supported by the World Language Program offering 3 of the world's most spoken languages – Mandarin, Spanish and English. With the aim of developing excellent communication in these languages, Stamford American offers the daily Mandarin, Spanish, Mandarin/English Bilingual or the English as an Additional Language (EAL) Program. There is also the Mother Tongue Program which is offered after school and parent-led, keeping their mother tongue roots back in Singapore. Cultural events are also widely celebrated in school such as the International Fiesta, Chinese New Year, Deepavali and Christmas, to help students immerse and understand the other cultures well.

**Dual Curriculum – International Baccalaureate (IB) and Advanced Placement (AP) courses**

The only school in Singapore to offer the best of both worlds – the International Baccalaureate (IB) and Advanced Placement (AP) courses, students have multiple graduating pathways to choose from; each student graduates with a US High School Diploma alongside the opportunity to pursue the IB or AP Diploma. In addition to the over 40 IB courses, the AP courses are one-year university level courses for students who are willing to accept the challenge of a demanding academic curriculum. Administered by the U.S. based College board, Stamford American offers over 15 subject choices to students in Grades 10 to 12 towards university credits.

**Centrally located – Easily Accessible by Trains and Buses**

Easily accessible by public transport in Singapore, Stamford American has 2 world-class campuses centrally located in Singapore. The Early Learning Village which caters for students 2 months to 6 years, is located at Chuan Lane and is just 2.6km away from the Woodleigh Main Campus, which is for students 7 years to 18 years. Just 15 minutes away from Orchard Road, both campuses feature expansive teaching and learning facilities with sensorial learning at every turn.

Stamford American welcomes new students all year round. Have a chat with their friendly Admissions team today to book your personal tour.

SSIS is Suzhou's International School. We are a fully authorized IB World School as well as the oldest and largest international school in Suzhou, China. SSIS offers a challenging curriculum to cultivate global citizens and life-long learners. Everyday our 1150+ students (from 50 different nationalities) are challenged to actively participating in their education. This produces students that consistently perform well above world averages, and is why SSIS is one of the best schools in China.

### **Values and Mission**

SSIS provides an excellent international education to the children of expatriate families. Our faculty and staff are committed to creating a learning environment that encourages and enables students to be self-motivated, lifelong learners. We educate students to become global citizens that value other cultures and are responsible, meaningful participants in the international community.

### **Curriculum and Activities**

SSIS offers three IB programs; PYP, MYP and DP. A strong partnership between students, faculty and parents, enables us to maintain a rigorous and challenging education. We offer a wide range of academic, cultural and recreational programs ensuring we deliver the highest quality international education possible. Whether it is our visual arts program, showcased by a week-long celebration of the Arts; SSIS Book Week, celebrating global literacy or the much-anticipated International Family Day, there is something for everyone.

### **Accreditations and Affiliations**

We are accredited by The New England Association of Schools and Colleges (NEASC), The Council of International

Schools (CIS) and The National Center for School Curriculum and textbook Instruction (NCCT). Our students have the opportunity to compete against other peer schools in academics, arts and sports, through our memberships with ACAMIS, SISAC, EARCOS and CISSA. Go Dragons!

### **Faculty and Staff**

The SSIS faculty and staff are at the heart of what makes our school outstanding. Comprised of over 170 dedicated professionals, the faculty come from over 20 countries, each bringing their own unique perspective on teaching and learning. Every faculty member is fully qualified and certified. Because we are serious about creating lifelong learners, over half hold advanced degrees in their respective subject areas.

### **Campus**

SSIS is larger than life! Spread across a spacious campus, the building boasts integrated technology and air purification systems throughout all classrooms and common areas. Our Art and Performance facilities include 600-seat theater, black box theater, orchestra room, 3 dance studios, individual music practice spaces and individual art carrels. Our Recreational facilities include 2 outdoor and 3 indoor playgrounds, 2 gymnasiums, a new FIFA certified soccer pitch, new synthetic 400M running track, 25M swimming pool and tennis courts. The Science and Design facilities include fully equipped science labs, food technology labs and hard materials labs. Our Learning Technology Center includes 500+ ipads, charging stations, green room, podcast facilities and Lego robotics room. We are proud to be Suzhou's International School!

Taipei Kuei Shan School is an International Baccalaureate World School offering three programmes – PYP, MYP, and DP. It is fully accredited by the Taipei City Government Department of Education and a member of the Association of Christian Schools International.

Kuei Shan was established in 1963 as a K-9 school, founded by Professor Hsiung Hui-Ying as a research project to improve Taiwan Education. Many decades ago, education in Taiwan was a “one-size-fits-all” approach. To allow a holistic development of learners, Professor Hsiung built Kuei Shan as a small school environment with smaller class size to promote active learning, both academically and socially. She practiced the use of unit teaching and theme-based learning to engage students in hands-on and collaborative learning activities. Upon the success of this long-term research, the school continues its commitment to educational research and excellence.

In 2015, the high school program was added, and Kuei Shan’s first DP cohort graduated in 2017. As a small private school, we provide a lively campus community for more than 700 students from Pre-Kindergarten to Grade 12 by blending educational excellence and an international perspective with Christian values.

## Our Mission

Taipei Kuei Shan School is a Christ-centered community where students have opportunities to know God, follow Him and strive to live uprightly in a way He would approve. Our mission is to educate the whole person and develop life-long learners who are equipped to become knowledgeable and critical thinkers, effective communicators, responsible and engaged world citizens, virtuous servant-leaders, and

enthusiastic stewards to serve one another, their community, Taiwan, and the world.

## Activities and Service

- The school supports students to participate in a Taiwan team sports program which includes basketball, volleyball, soccer, softball, swimming, track & field, and cross-country.
- Students have opportunities to participate in band, string ensemble, choir, worship band, and drama.
- Students have opportunities to conduct a wide range of outreach and community service for underprivileged children and people in need.
- Students participate in student government, scouts, model UN, and Global Issues Network.

## Academic Achievement

Our two cohorts (2017 and 2018) earned diploma passing rates above worldwide average. Students are currently attending four-year universities in various regions – Asia, Canada, Europe, the U.K., and the U.S.

At Kuei Shan, we celebrate our distinctive place in PreK-12 education – where teaching, learning and faith guide the mind in understanding the complex diversity of God’s creation and prepare the whole person for service and leadership.

Our students strive to be:

**Scholars**

**Effective communicators**

**Reflective thinkers**

**Virtuous servant-leaders**

**Enthusiastic stewards**

Tanglin Trust School Singapore has a long tradition of providing British based learning with an international perspective. At Tanglin we strive to make every individual feel valued, happy and successful. Responsibility, enthusiasm and participation are actively encouraged and integrity is prized. Working together in a safe, caring yet stimulating environment, we set high expectations whilst offering strong support, resulting in a community of lifelong learners who can contribute with confidence to our world (Tanglin Mission Statement).

Established in 1925, Tanglin Trust School has over 2,800 students from the ages of 3 through to 18 years. The English National Curriculum provides the basis for the programmes of study which is enhanced and enriched to reflect the calibre of students and the school's international setting. Tanglin's links with Singapore and Asia are increasingly woven into subject areas and key topics across the school to ensure students achieve a global perspective and that they have an awareness of the world and their place in it.

As students progress through the Key Stages of the English National Curriculum, they are presented with widening choices of subjects in their (I)GCSE examinations. In 2009, Tanglin became accredited as an IB World School and students can choose to study for the IB Diploma or A Levels in the Sixth Form. Tanglin graduates typically progress to universities of their choice which are among the best in the world.

Tanglin is honoured to be part of the dynamic hub that

is Singapore. Over the years Tanglin has expanded to accommodate the increasing demand for world-class international education from families representing a diverse range of nationalities.

The School is inspected every year within the British Schools Overseas (BSO) framework, recognised by Ofsted. The last four inspections confirmed Tanglin's status as 'Outstanding', the highest possible grading. *"The teachers' enthusiasm for learning is often infectious, leading to students seeing learning as a highly worthwhile and enjoyable process; students are highly motivated to succeed."* BSO Inspector, 2017 (Senior School).

Tanglin is proud of its 93 year heritage. High levels of achievement are evident throughout the school and high quality teaching places great emphasis on meeting the needs of each and every student. In addition to its outstanding academic performance, Tanglin offers an extensive range of sporting, musical, creative, arts and recreational co-curricular activities. Tanglin students are also encouraged to contribute actively to the local community, support social projects and participate in a wide variety of extracurricular pursuits.

Underpinning life at Tanglin are a set of ten attributes, closely aligned with the IB's Learner Profile, which the school strives to develop in its students; to be balanced, caring, knowledgeable, principled, reflective and open-minded and to become resilient enquirers, risk-takers, thinkers and communicators.

Established in Karachi by the Group Chairperson, Dr. Farzana Firoz in 1978, The City School is today one of the largest private school networks in Pakistan with branches in all the major cities across the country. It currently has over 170 schools in 52 cities with over 126,000 students in 458 owned and franchised schools across Pakistan along with international campuses in UAE, Saudi Arabia, Oman, Philippines, Malaysia and Bangladesh. The City School continues to expand its reach to meet the demands for quality education. The knowledge and skills-based curriculum derived from the UK national curriculum guides students from Early Year Education to Cambridge Assessment International Examinations.

Capital Campus Islamabad is a vibrant school and has achieved excellence in many areas of school life, making it a harmonious teaching and learning institution. Our values-based education (VbE) programme supports this fact in and out of classroom through academic as well as non-academic endeavors. Our curriculum and methodology are designed to ensure a smooth transition in teaching and learning from the primary sector through the middle years and on to the final

years of the international examinations' syllabi of O and A Level. Digital media and ICTs are shaping the methodology of delivering online education adding efficiency, convenience, interactivity and outreach to the array of learning programmes that are offered.

With introduction of the IB Diploma Programme in August 2018, our students now have multiple study options at the high school level. Our proud first cohort of the prestigious Diploma Programme are actively learning about how IB students develop strong academic, social and emotional characteristics to drive their own learning. By studying in the IB, we hope our students develop core skills for success in the future while developing an understanding of and appreciation for research and a sense of international mindedness. Our mission is to nurture lifelong learners who are compassionate, ethical and innovative individuals while striving to become responsible global citizens.

An IB education at The City School Capital Campus provides an exceptional foundation for any young person, and we look forward to being a part of your child's future.

**Stunning Coastal Location**

The Illawarra Grammar School (TIGS) is an independent Anglican school located in Wollongong on the eastern coast of New South Wales, approximately 70km south of Sydney. Our campus is uniquely positioned between the mountains and the sea, with immaculate grounds decorated with purple Jacaranda trees. The atmosphere is warm and inclusive, reflected in the smiles, words and actions of students and staff.

**Mission Statement**

TIGS is committed to providing a caring and engaging environment where students thrive. Our mission statement is “the achievement of academic excellence in a caring environment that is founded on Christian belief and behaviour, so that students are equipped to act with wisdom, compassion and justice as faithful stewards of our world.” The School has an inclusive enrolment policy and welcomes students from all faiths and denominations.

**Academic Achievement**

The outstanding academic performance of TIGS students is a testament to the expertise of our staff, the effort students put into their studies and the culture of learning that is embedded deeply into all that we do. TIGS has a close working relationship with the University of Wollongong with 70% of

students on average being offered university placement prior to sitting their final exams.

TIGS is authorised to offer the Primary Years Programme, Middle Years Programme and Diploma Programme. As a result, there is a consistency and common philosophy to teaching and learning across the School, making the student experience both coherent and meaningful. TIGS students build their knowledge, skills and attitudes across their years of schooling to become enthusiastic and internationally minded lifelong learners.

**Holistic approach to learning**

Students at TIGS are encouraged to succeed across many fields of endeavour. They are challenged to become leaders of great character and resilience through a combination of academic, arts, sport, community service, outdoor and cultural experiences. TIGS offers a full range of experiences across the arts including music, dance, drama, visual arts, photo media and entertainment. Students also participate in a diverse range of activities from swimming and beach sports to bush walking, rock climbing and caving, taking advantage of our proximity to the coast and mountains. These experiences are built into our programmes in a structured manner resulting in valuable life lessons both within and beyond the classroom.

**Overview**

The International School Bangalore (TISB) was founded in 2000 and is one of India's most reputable, independent, selective, international boarding and day schools, set in 140 acres of stunning grounds on the outskirts of Bangalore, Asia's 'Silicon City' and India's 'Garden City'. Throughout its 18-year history the school has delivered consistently high academic standards in both IB and IGCSE, and this year's class of 2018 produced the school's best ever IB results with a stunning 5 students gaining the maximum 45 Points. The school is an authorized IB World School and is fully accredited by HMC, BSA, CIE and ISTA and offers a broad range of IB and IGCSE subject choices to its students.

The spirit of TISB is one of high energy and achievement and our students combine academic excellence and a deep love of learning with a wealth of co-curricular opportunities, to develop into exceptional individuals who believe that anything is possible. TISB students are encouraged to be independent in their learning and approach to life which is illustrated in their unique management and facilitation of 'Vivum', an annual two-day charitable event entirely

overseen by Grade 12 students, and their success in academic and social-awareness activities such as Future Leaders and the Model United Nations. In addition, students are encouraged and have the opportunity to be involved in numerous national and international sporting, theatrical and musical events and competitions.

The thriving boarding community at TISB is made up of three boarding houses, each one staffed by residential Houseparents. The boarding houses offer a home-from-home experience, with a balance of family life and academic support. Boarders are offered a variety of weekend activities ranging from sports matches, quiz nights and activity trips such as cycling, paintballing and archery to meals out and cinema trips.

TISB students are outward-looking, ambitious global thinking students who embrace opportunities and with the support of their teachers strive to be the best version of themselves.

It is our purpose to inspire and challenge every student to flourish and achieve their full potential, both now and in the future, and instill a passion for lifelong learning.

Tokyo Metropolitan Kokusai High School is a coeducational public high school established in 1989 and maintained by the Tokyo Metropolitan Government. Located in a leafy suburb not far from the cosmopolitan west side of Tokyo. The school's motto is "Your Wings to the World" and its aim is to provide education to develop well-balanced students with an international mindedness.

In May 2015, Tokyo Metropolitan Kokusai High School was authorised as an International Baccalaureate World School offering the Diploma Programme, the first of which to be offered in a Japanese public high school.

Kokusai High School conducts the IBDP in English with the aim of cultivating internationally-minded students who will study overseas after graduation. The Kokusai IBDP strives to nurture future global leaders, and based on this philosophy, the ideal Kokusai IB students should demonstrate the following attributes.

A Kokusai High School IBDP student should:

1. Demonstrate a clear goal to enter the IBDP, a desire to contribute to a global society, and the willingness to gain entrance into universities overseas.
2. Approach learning with a self-starter mentality by showing a strong sense of inquiry and a willingness to use their own initiative, while having the courage to handle difficult challenges.
3. Exemplify a well-rounded character, being cooperative and considerate of others, and also have the willingness to positively accept and understand different perspectives and opinions.
4. Be motivated to broaden their viewpoints, and be able to maintain a healthy mental and physical mindset and actively participate in extracurricular activities.

5. Demonstrate strong academic performances across all subjects, and have a high level of English proficiency. Kokusai High School offers entrance exams twice per year; April enrollment session (held in January) and September enrollment session (held in July). The April session is for students who will finish Year 9 school education by the end of March, and the September session is for those who will finish Year 9 school education between April and August. The maximum number of successful applicants is 25 per year. The ratio of Japanese students to International students for each enrollment session is announced by the Tokyo Metropolitan Board of Education. The assessment methods used in the entrance examinations are English Language Skills Test, Mathematics Academic Performance Test, Essay, Individual Interview, Group Discussion and Certificate of Academic Record.

Kokusai High School offers a three-year programme; Year 1 (Grade 10) is Foundation Year, Year 2 (Grade 11) and Year 3 (Grade 12) are IBDP. Students also graduate with a Japanese High School Diploma. Subjects we offer are listed below:

#### **Studies in Language and Literature**

Year 1: Comprehensive English, English for Academic Purposes, Integrated Japanese Language.  
Year 2 and 3: IB Diploma English A SL and HL (Language and Literature); Japanese A SL and HL (Literature).

#### **Language Acquisition**

Year 1: Comprehensive English, English for Academic Purposes, Integrated Japanese Language.  
Year 2 and 3: IB Diploma English B SL and HL; Japanese B SL and HL; Japanese *ab initio* (SL).

#### **Individuals and Societies**

Year 1: Japanese History B, World History B.

Year 2 and 3: IB Diploma History SL and HL, Economics HL, Geography HL.

**Science**

Year 1: Basic Physics, Basics Chemistry, Basic Biology.

Year 2 and 3: IB Diploma Physics SL and HL, Chemistry HL, Biology SL and HL.

**Mathematics**

Year 1: Mathematics I

Year 2 and 3: Mathematics SL and HL

**Other subjects**

Year 1: Physical Education, Health, Inquiry-Based Learning, Fine Art 1, Homeroom Activity, Period for Integrated Study, Basic Home Economics.

Year 2 and 3: Physical Education, Health, Homeroom Activity, International Relations, Information Study by Scientific Approach, TOK, CAS.

**Creativity Activity, Service (CAS)**

Throughout their DP years, IB students explore their interests and personal development by participating in a wide range of CAS experiences such as sports, arts and music. Former IB students' passion led to many volunteer activities both locally and internationally, including in Tokyo, Hiroshima, Kenya, Senegal and Ghana. While doing these experiences for CAS, students also won various awards such as the 2018 World Scholar's Cup, 2017 Interdisciplinary Workshop on Science and Patents (Rafael Kieboms Prize), and 2016 Eiga World Cup film festival.

**University Acceptance List**

UK: University College London, University of Edinburgh, King's College London, University of Manchester, University of Bristol. USA: University of Minnesota-Twin Cities, Purdue University, Illinois Institute of Technology, University of Illinois at Chicago. Canada: University of Toronto, University of British Columbia. Australia: University of Sydney, University of Melbourne. Hong Kong: University of Hong Kong, Hong Kong University of Science and Technology. Germany: Jacobs University.

The International School of Penang (Uplands) is a non-profit, co-educational Reception to Primary and Secondary School (Reception, Year 1 to Year 13) with boarding facilities, open to children aged 4 to 18 years old. It is one of the leading international schools in Malaysia, offering the IB PYP, IB Diploma and IGCSE qualifications.

Since its establishment in 1955 on Penang Hill and a later move to the present modern campus in Batu Feringgi, Uplands has strived to embody a caring community; a school where both international and Malaysian students are happy to learn. Our motto: Respect for Self. Respect for Others.

Students receive a wealth of quality education from an international teaching faculty as well as a range of sporting and extracurricular activities cultivating teamwork, self-confidence and all-roundedness. Year upon year Uplands students have attained academic results that are consistently higher than global averages, with some achieving perfect scores in the IB Diploma pre-university course and receiving prestigious university scholarships.

The International School of Penang (Uplands) is an IB World School, which is recognised by the Malaysian Ministry of Education and permitted to admit both foreign and local students. Uplands is a member of:

- The Council of International Schools (CIS);
- The Boarding Schools' Association (BSA);
- The Federation of British International Schools in Asia (FOBISIA);

• The Association of International Malaysian Schools (AIMS). The School is approved to offer external examinations by The International Baccalaureate Organisation (IBO), Cambridge Assessment International Education and Edexcel International Examinations. The School received an award from the Malaysian Ministry of Education in June 2003, recognising it as one of the leading international schools in the nation.

Languages offered at the school are English, Bahasa Malaysia, Mandarin, Japanese, Spanish, French, and German. School facilities include air-conditioned classrooms, swimming pool, sports field, library, gymnasium, refectory, playground, basketball court, badminton court, IT resource centre, science laboratories, auditorium, audio/visual room, art rooms, music rooms, design technology workshops and modern boarding facilities. The campus is fully networked with wired and wireless access.

Student support services are also on deck including career counsellors, learning support, and school counsellors. Student are able to engage in a wide variety of extracurricular activities such as basketball, tennis, football, touch rugby, athletics, chamber orchestra, chess, Chinese calligraphy, Chinese zither, environmental film, Japanese tea ceremony, karate, taekwondo, Mixed Martial Arts (MMA), gymnastics, yoga, Malay dance, Model United Nations, Rock & Jazz band and swimming among many others.

Established in 1994, Tunas Muda School is a Catholic International Baccalaureate World School which nurtures young people aged 1-18, through faith and love, to become fulfilled young adults who trust in God and have the wisdom, knowledge, and skills to lead fruitful lives and be ready to face the challenges of the global world.

We have 2 campuses which are enhanced by up-to-date and well-equipped facilities to support the learning process and ensure the best quality of educational services.

Tunas Muda is a community of learners which embraces the hearts, engages the minds, and enriches the lives of our students through our comprehensive 5-star education system, enabling them to become balanced and holistic young people who will reach their full potential to be the best they can be.

The academic programmes at Tunas Muda School are organized as a continuum, enabling students to experience consistency in philosophy and methodology from Early Childhood through to the Diploma Level. Our Early Childhood

Programme introduces young children to the fun of school and helps them develop independence, leading to the PYP which nurtures the joy and skills of learning and prepares them for secondary school. The MYP enables students to build on the strong foundation laid in PYP to develop as independent and successful learners ready to face the challenges of the DP.

In line with our school's motto, Nurturing Growth Together, and our mission to embrace hearts and nurture talents, engage in excellence and enrich the lives of all members of our school community, our CARE programme focuses on developing the important relationships between our students, parents, school and the community and aims to maximize school-home-community collaboration. The quality of these relationships is reflected in the spiritual, intellectual, emotional, physical and social development of our students. We all firmly believe that we each play a very important part in the lives of the students in our school and this belief fosters a happy, nurturing atmosphere.

**Introduction**

UWC Changshu China was founded in 2015 as the first UWC in the mainland of China on the initiative of Mark Jiapeng Wang and consists of Grades 10, 11 and 12. The college emphasizes its connection to its location and offers education focused on Chinese language and culture, youth leadership and environmental activism.

**Inside the Classroom**

UWC Changshu China offers the International Baccalaureate Diploma Programme curriculum, and a Foundation Program for Grade 10 students. Within the IBDP curriculum, alongside standard courses, UWC Changshu offers foundation Chinese language programs (for international students).

**Outside the Classroom**

UWC Changshu China capitalizes an immersive Chinese experience, providing rich Chinese cultural context to support teaching and learning through culture, language and literature lessons and the Creativity, Activity, Service (CAS) program named Zhi Xing, meaning “learning by doing” as well as “putting knowledge into action”. It enables the exploration of Chinese culture within the School and through interactions with the wider community. Many activities focus on building environmental stewardship.

Other activities, such as volunteering in local schools for

kids of migrant workers stretch the boundaries of students’ education and encourage youth leadership. In fact, many of the activities have student leaders, who use their knowledge to act as positive role models for their peers while also challenging themselves. Project weeks are an invaluable learning opportunity for students, allowing them to put UWC values into action. Students have the opportunity to interact with local communities and affect positive change.

**Campus and Facilities**

The 24-acre campus is built on an island on the northwest side of Kuncheng Lake. In architectural design, the campus is a reminiscent of a southern Chinese waterside village, where connections between all parts are seamless and unobstructed. The campus is also comprised of several cutting-edge technologies to enhance its sustainability. Campus facilities include: a multi-function performing arts-, STEM-, wellbeing- and conference centre, a design and innovation centre, a Chinese Programme Centre, residential houses for students and faculty; a dining hall and a library.

**Admission**

IBDP applicants apply through their UWC national committee or the UWC Global Selection Programme. Foundation Programme applicants need to contact the School directly.

**Introduction**

UWC ISAK Japan is the newest UWC college, admitting the first generation of UWC students in autumn 2017. UWC ISAK Japan founder, Ms Lin Kobayashi, discovered her passion for global education while attending Pearson College UWC in Canada. This inspired her to found ISAK, which opened its doors in 2014 to educate young leaders from around the globe who would be catalysts for positive change.

**Inside the Classroom**

UWC ISAK Japan offers both two- and three-year programs. The two year program features the International Baccalaureate Diploma Programme curriculum for Grade 11 and 12. The three-year program includes a “Pre-IB” year in Grade 10, which helps students prepare for the rigours of the IBDP. It also includes UWC ISAK’s signature leadership program. Alongside standard courses, UWC ISAK Japan offers Japanese, Chinese, History, Economics, Sciences, Film and Visual Arts.

**Outside the Classroom**

The College also offers regular outings and excursions that give students opportunities to explore Japanese culture, history and traditions. Students can learn the art of Japanese flower arranging, visit castles, join local festivals, visit museums, and more. Currently, there are 50+ clubs and activities at the College (ranging from sports and language

clubs to MUN and debate) complemented by the annual Project Week. As student autonomy is emphasized and fostered through its innovative leadership program, students are empowered to plan activities and campus events, and establish and maintain policies surrounding dorm life. Throughout the year, the College also hosts workshops with entrepreneurs and innovators as well as the UWC ISAK Japan Summer School, an exciting 2-week program for middle school students from around the world.

**Campus and Facilities**

UWC ISAK Japan features modern, light-filled buildings with an emphasis on traditional Japanese architectural principles. The campus sits in harmony with its wooded surroundings located in the town of Karuizawa (only 70 minutes by bullet train from Tokyo), creating an inspiring environment for living and learning. The Kamiyama Academic Center includes classrooms, a library/technology centre, study areas and meeting rooms. The Asama building houses additional classrooms, labs, cafeteria, and an outdoor terrace. Each residential house is home to 12 to 18 students.

**Admissions**

For Grade 11 enrollment, students can apply through their UWC national committee or through the UWC Global Selection Programme. For Grade 10 admission, students can apply directly to UWC ISAK Japan.

**Introduction**

UWC LPC opened its doors in 1992 and was formally opened by HRH the Prince of Wales (becoming the second UWC in Asia). It is characterised by its location in a vibrant city which lies at the crossroads of Asia and its emphasis on “whole person development” through its Quan Cai Program.

**Inside the Classroom**

UWC LPC offers the International Baccalaureate Diploma Programme curriculum. Alongside standard courses, UWC LPC offers Chinese, Mandarin, Spanish, French, Geography, Business Management, Global Politics, Environmental Systems and Societies, Theatre, Visual Arts.

**Outside the Classroom**

The “Quan Cai” program is an integral part of the students’ learning experience. A total of more than 70 activities are offered, including 18 sports experiences, 18 community support activities, and 39 others that are affiliated or connected to groups or organisations in the wider community. Among the different components of the Quan Cai program emphasis is given to community service, raising students’ awareness of the roles they can take in achieving peace and sustainability. The activities are mostly student-led and include Community Service (i.e. Coral Monitoring), Arts (i.e. Cooking for Healthy Lifestyle, Dragon Dance),

Physical Activities (i.e. kayaking, hiking), Campus Service (i.e. First Aid group, Synergy magazine). China Week and Project Week, Cultural Evenings and Educational Peace Programs give students the opportunity to develop a deeper understanding of China and interact with local communities.

**Campus and Facilities**

Situated in a beautiful setting in Ma On Shan, and overlooking the waters of Starfish Bay and Tolo Harbour, the school campus is located in a quiet and green haven of Hong Kong whilst simultaneously being only a short commute from the fast-paced skyscraper districts of the city. UWC LPC is a 100% residential community. Students live in 4 residences on campus, each of them sharing a room with three other students. Whenever possible, rooms are composed of two second year and two first year students, two from Hong Kong and two from different overseas regions. All full-time teaching staff live on campus and are tutors. The tutors and the tutor groups are important lines of support providing guidance, a shoulder to cry in time of need and a group with whom to share good news. The campus also includes various athletic facilities, assembly hall, canteen, library, classrooms, and laboratories.

**Admission**

Students can apply through their UWC national committee or through the UWC Global Selection Programme.

**Introduction**

UWC Mahindra is a vibrant college with a rich tradition of curricular innovation and community engagement. Programs such as the IB's World Studies Extended Essay were conceived and piloted here. The College also runs a bridge program and the Akshara Foundation, both of which enhance the positive local impact of the College and provide students with numerous opportunities for project-based and service learning.

**Inside the Classroom**

UWC Mahindra College offers the International Baccalaureate Diploma Programme curriculum. Alongside standard courses, the College offers Art, Theatre, Film, Psychology, World Religions, Global Politics. Additionally, students also take context-building courses such as Global Affairs, as well as specialized courses in Complexity Science and Systems Thinking. UWC Mahindra also offers the Project Based Diploma along with a Cambridge Pre-University Diploma, where a group of students take the IBDP curriculum during their first year and utilize the second year to conceive and execute an impact-driven project.

**Outside the Classroom**

UWC Mahindra College offers an immense variety of co-curricular activities through its Creativity, Activity, Service

program, referred to as "Triveni" program, which facilitates project-based learning in four areas: Education, Peace and Justice, Sustainability, Communication and Culture and Outdoor Education. Students are active in decision-making processes that affect campus life, such as envisioning and executing resource management initiatives on campus. Community Service include working with entrepreneurship programs or organic farming collectives. Students benefit the cultural diversity of the surrounding valley and India at large and have immersive experiences in other parts of the country. MUWCI also conducts short programs which bring together students from around the world to learn about issues such as sustainability and globalization.

**Campus and Facilities**

Students live together in five residential clusters known as "wadas", each of which forms a more intimate community. The campus also offers many informal locations for gathering and hiking, and several areas are well known among students for their gorgeous vistas of the valley during sunset. Academic facilities include a science lab, a library, an art space overlooking the valley, specialized facilities for theatre and music practice and a large sporting ground.

**Admissions**

Students can apply through their UWC national committee or through the UWC Global Selection Programme.

**First IB School in Asia**

UWCSEA has two campuses in Singapore. The Dover Campus, opened in 1971 by Prime Minister Lee Kuan Yew, was the first school in Asia to offer the IB Diploma Programme (IBDP). The East Campus (pictured) celebrated its 10 year anniversary in 2018, having added 2,550 students to the global UWC student community. The vibrant location, an emphasis on deliberate diversity in the admissions policy and its large student body provides students with opportunity to participate in a learning programme of unparalleled breadth that is aligned with the UWC mission. The size of each IBDP cohort (550 across both campuses) means the College is able to offer an extensive range of options in each subject group.

**Holistic K-12 learning programme**

A UWCSEA-developed learning programme provides students with a seamless transition from Kindergarten to the IB Diploma across all five interlinking elements of the curriculum: Academics, Activities, Outdoor Education, Personal and Social Education and Service. All five elements are considered equally important, and link directly with age-appropriate learning goals and the UWC mission. The curriculum incorporates many opportunities for learning outside of the classroom by bringing students into unique settings in which they are challenged to discover more about themselves and each other. The annual Initiative for Peace (IfP) conferences are an example of the way the learning programme is fused with our mission. Founded in 2001 to promote peace in global, national and regional conflicts,

the conferences are hosted by Grade 11 students following a year of planning and specialist training that prepares them to facilitate events for youth leaders in Thailand, Timor Leste and Singapore.

**Campuses and Facilities**

State of the art facilities support our ambitious curriculum and enable all students to access the extensive opportunities on offer, while being true to our mission of sustainability. Dover Campus is located west of the CBD, in an educational hub near the National University of Singapore. Although extensively redeveloped, the iconic Tent Plaza remains the social heart of the campus and the grounds are filled with mature trees. Residential boarding for 192 students is provided on-campus. The East Campus is a purpose-built facility that set global benchmarks in design, accessibility and sustainability for schools. Located in Tampines, a fast-developing northeastern hub near Changi Airport, the multi-storey Tampines House is an on-campus home to 160 residential boarders.

**Two entry pathways for admission**

Most of the 600-800 new students each year are admitted directly by the College. Students can join at any grade, as new class sets open each year in each grade. Students joining in Grade 9 complete IGCSE courses. A Foundation IB course is offered to students joining in Grade 10. Scholarships are given via the UWC national committee system. Applications for both pathways open 12 months before the start of the school year in which the student will commence study.

**Introduction**

Encircled by rubber tree plantations and virgin rainforest, UWC Thailand sits nestled in the foothills of Phuket’s green-capped mountains, away from the island’s busy city centres. Its unique location is both symbolic and intentional; a physical reminder that in addition to academic rigour, the UWCT community values wellness and environmental stewardship.

**Inside the Classroom**

Within UWC Thailand’s environment of authentic and targeted differentiation, equal emphasis is placed upon mental and emotional balance, and academic rigour. Students learn how to learn, analyse, think creatively and reach thoughtful conclusions, making it a demanding program that encourages students to the highest levels of academic achievement. The Nursery program is for students aged 2 – 3 years old. The Primary Years Programme is for students aged 3-12, and the Middle Years Programme is for students aged 11-16. To 16-19 year-olds, UWC Thailand offers the International Baccalaureate Diploma Programme.

**Outside the Classroom**

UWC Thailand offers a comprehensive activities program for students of all ages. The activities enable students to explore projects and passions in Service, Creativity, Sports, Social

and Culture, and are run during lunchtimes, after school and on weekends (activities include mangrove restoration, dancing, international cooking, etc.). In addition, students embark upon expeditions with their classmates, which focus on adventurous training and push the boundaries of their experiences. The expeditions range from Grade 5 students spending 5 days camping and kayaking around the coast of Phuket to independently organised Project Weeks for the DP students. Some grade levels take trips to learn how to sail with their classmates, others work with a regional turtle sanctuary to help protect endangered species.

**Campus and Facilities**

UWC Thailand’s campus is spacious and extensive hosting facilities for its Early Childhood, Lower Primary, Upper Primary and Secondary students. The boarding house is home to approximately 100 students from grades 7-12. The school is situated next door to Thanyapura, Asia’s largest sports and wellness resort, and all community members have access to its excellent sports facilities.

**Admission**

Students for UWC Thailand’s nursery, primary and middle schools apply to the school directly. The admissions process is based on UWC’s mission and values. For Grade 11 admission, students can apply through their UWC national committee or through the UWC Global Selection Programme.

## Helping children discover the power from within...

- Victorious Kidss Educares (VKE) is an IB World School in Pune (India) focused on guiding children to become lifelong learners. We, as parents and educators, need to understand that our children are no longer the people, as we were in school.
- We work towards making our students compassionate, caring and fearless citizens of the world, who will make a positive difference on this earth. Children are guided to that education by which, 'character is formed, strength of mind is increased and intellect is expanded, so that they can stand on their own feet' (Swami Vivekananda).
- To achieve this goal, we couple the wisdom of rich heritage of 'Vedanta in India' with the 'teaching and learning pedagogy of IB'. Both ideologies help the school fulfil its goal of building 'excellent human beings', who through inter-cultural and inter-religious understanding, will help create a more peaceful world.
- VKE is a complete IB World School offering full spectrum of IB programmes. The learning journey at our school starts from the moment a mother conceives and goes on till the child is 19 years of age (IB Diploma). Our Children are being guided to be Global Winners, Global Citizens, to be Globally Employed and to be Globally Accepted. We are preparing our children for Tomorrow's 'World of 2028'.

- The unique concept of 'early childhood brain development', is applied to tap the brain potential in the early years and build the fundamentals of learning. Building upon this foundation, the school training prepares the kids, till they are budding adults to face the challenging world by finding their individual strengths and competencies.
- VKE takes great pride and special endeavour to make elite IB tuition fee affordable to all.

## 'Every Child Matters'

- 'We believe that 'every child has at birth, a greater potential of intelligence than Leonardo Da Vinci, Isaac Newton or Einstein ever used'. All children are born gifted, and every child's brain has infinite power. By providing the right ambience and giving freedom to explore and learn through inquiry, we nurture this power and create true leaders. With this consciousness, freedom of inquiry, understanding and concept we discover, "Success for Every Child".
- Professionally well trained and experienced teachers ensure that all students are guided to find answers to each of their inquiry, with individual child focussed attention and guidance.
- We allow and encourage children to take responsibility of their own learning. A strong emphasis on 'Service'

(to mankind, to the people and to communities), help students develop an awareness of local and global issues.

**We teach, we touch lives and we make dreams come true.**

We offer:

- Career Counselling, Placements and Internships – Our career counselling department ensure that all students are placed in the universities of their choice much before their final results
- Scholarships for Diploma Programme Students
- Courses on Vedic Mathematics, Robotics, Abacus and Design Technology
- Visual Art and Performing Art
- Contemporary, Western and Indian Classical Dance
- Western, Traditional and Indian Music
- Concentration Techniques – pranayama, yogic breathing exercises and meditation

- Model UN programme from Primary Years to ensure our students learn the art of communication and negotiation.

**Achievements:**

- VKE has been commended for its philosophy and teaching techniques, by the IB Evaluation Team, since 2012, as a ‘Model IB School for others to emulate’. All three programs (PYP, MYP and DP) have been successfully evaluated by IB with many commendations.
- Principal and Vice President, Ms. Saarada Ghosh was commended with the prestigious ‘Siksha Bharti Award 2017’ by the Economic Development Forum inspired by the ‘Make in India’ drive. She has also been honored with the ‘Bharat Vibhuti Award’ for her excellence in reforming the National Education in 2016. She was chosen in 2015, out of 19 countries, to be the best District Principal by the SOF Olympiad.

The Vientiane International School (VIS) is an independent, non-profit, authorized IB World School offering the PYP, MYP and DP Programmes from Early Years through Grade 12. The school received initial accreditation in 2001 from both the Western Association of Schools and Colleges (WASC) and the Council of International Schools (CIS) and was reaccredited in 2018. VIS is the only IB World School in Laos and the only school to be accredited by two international organizations. Our mission is to challenge, inspire and empower students to develop their unique potential and to be responsible citizens in an ever-changing world.

The campus covers four hectares including two swimming pools, two soccer pitches, two basketball courts, ample playground spaces and a library that provides a unique environment for collaboration with extensive access to hardcopy and electronic books, magazines, newspapers and research material.

The VIS community is diverse. Students represent over 40 different nationalities and our faculty hail from over 25 different nations. A large percentage of our parents are professionals working with embassies, NGO's and international companies. With a transient rate of about 20% per year, our curriculum ensures a successful transition for

students to an English-medium school in their home country or their next international school. VIS graduates are likewise well prepared for acceptance into a colleges or universities around the world.

At VIS we value the arts, science, math and language acquisition and offer students unique opportunities for expression and rigorous academic learning. Our Mother Tongue Programme supports the development and maintenance of 14 different mother tongue languages. In 2018 half of our IB Diploma graduates were awarded a bilingual diploma – well above the world average.

The school has a strong ethos of service learning and community service. We strive to develop empathy, cultural understanding and global awareness in students through meaningful interactions with the Lao community, including our sister school.

VIS promotes a healthy lifestyle through an extensive co-curricular programme where students can engage in a wide variety of activities after school and on weekends. The school is a member of the regional association, Mekong River International Schools Association (MRISA), which enables our students and those from neighbouring countries to regularly take part in sporting and cultural exchanges.

The Western International School of Shanghai (WISS) is a forward-looking school that has been inspiring young people from around the world since 2006. We are the first and only full continuum IB World School in mainland China, authorized to offer the International Baccalaureate Primary Years Programme, Middle Years Programme, Diploma Programme, and the Career-related Programme. Our diverse and compassionate community is unique and provides the ideal environment for students to explore their passions, to develop holistically, and to succeed.

Located on the western side of Shanghai, close to many popular housing compounds in the expatriate community, WISS has one of the largest international school campuses in Shanghai with facilities for Early Years, Primary and Secondary spread out over 18 acres. The modern campus features open plan, bright classrooms equipped with ceiling air purification units, a well-resourced library, a large cafeteria, two cafes, and playgrounds. WISS also boasts state-of-the-art science and technology labs equipped with 3D printers and laser cutters as well as the most up to date hardware and software for design. Primary students use the Jungle for science and cooking and the Da Vinci Innovation Space for robotics and engineering. Our creative arts program boasts spacious art studios, a black box classroom theatre, the Orsini Theatre, and sleek music studios. Sports facilities include grass fields and a brand new professional grade AstroTurf football field, track and field areas, basketball courts, a gymnasium equipped with a rock climbing wall, and two swimming pools. Our newly constructed Tiger Hall is a large multi-purpose space used by

the entire community for sports, activities, performances, exhibitions, and celebrations.

WISS is also home to world-class academies, such as the ISTA Performing Arts Academy and the Stoke City FC Football Academy. WISS offer a wide array of after-school activities and athletics and is a member of the China International School Sports Association (CISSA), Shanghai Schools Sports Association (SSSA), Shanghai International Schools Athletic Conference (SISAC), and the Association of China and Mongolia International Schools (ACAMIS).

Our community represents over 50 different nationalities, offering a truly international learning environment, while still fostering an appreciation and respect for our host country through our well-developed Mandarin language and literature classes. Our community service programs enable our young people to help others and by doing so acquire a greater understanding of what it means to be an inspiration to those around them. Whether our students are with us for a year or two or stay through to graduation and move on to the university of their dreams, we want our young people to look back on their time at WISS as a time when their love of learning was awakened and they began to touch the lives of those around them. WISS is uniquely placed to promote new perspectives and broaden the minds of the children in our care, as well as deepen their sense of understanding and wonder.

WISS prizes academic achievement, communication, holistic learning and intercultural awareness. Our goal is for each child to enter the world as a well-balanced global citizen with a desire to contribute to the future as a leader.

Wesley College is a leading coeducational, open-entry school. Established more than 150 years ago, the College has enriched the lives of thousands of students through its outstanding liberal, broad-based curriculum. International students from a range of cultures choose Wesley because of our strong tradition of academic excellence, outstanding curricular and cocurricular programs and state-of-the-art facilities.

Wesley has three metropolitan campuses in Melbourne:

- Elsternwick, 3-year-olds to Year 9
- Glen Waverley, 3-year-olds to Year 12
- St Kilda Road, 3-year-olds to Year 12

#### **Boarding at Wesley**

Wesley's dynamic new boarding facility, Learning in Residence, is purpose-built for Senior School students (Years 10–12), from metropolitan Melbourne, rural Australia and various international locations.

The modern Learning in Residence facility features twin-share rooms with en suites, a central courtyard and a 240 seat communal dining room. On the Glen Waverley Campus, adjacent to the Senior School, students have immediate access to sport, music and drama facilities. Students are supported with outstanding academic mentoring, pastoral care, and a range of extension and cocurricular opportunities to help them develop intellectually, emotionally, physically, socially and spiritually.

Enrolments are open for full-time and weekly boarding options.

#### **Academic excellence**

Wesley places the highest value on academic excellence, and encourages each student to aspire to achieve excellence in all areas of learning.

Wesley is one of the top International Baccalaureate (IB) schools in Australia, and one of the only schools in Victoria to offer the IB continuum from Primary through to Middle and Senior Schools.

#### **Cocurricular learning**

What sets Wesley apart are the opportunities for students to explore their interests and talents across a rich variety of activities, from visual and performing arts, to sport, music, outdoor education and community service. With a choice of 19 sports, 23 bands, 21 chamber ensembles, 16 choirs, 10 orchestras, 7 musicals and 4 theatre performances, there's something for every student. Wesley students have won countless awards for their outstanding work – in debating, music, visual arts, drama and literary festivals.

#### **Tertiary destinations**

Our students graduate with much more than an ATAR score. Each student is encouraged to aspire to achieve excellence and personal best in all areas of endeavour. The majority of students are offered a place at either The University of Melbourne or Monash University. Many also choose to

study at leading international universities including Oxford, Cambridge and Harvard, within such fields as medicine, law, commerce, politics, science and information technology. Students applying to study at The University of Melbourne may receive preferential entry through the Melbourne Schools Partnership International, of which Wesley College is a member.

#### **Wesley College alumni**

Wesley has produced many outstanding alumni. The diversity of their achievements reflects the breadth of opportunities available at the College.

Below is a snapshot of some of our most prominent alumni:

- 2 former Australian Prime Ministers
- 1 Nobel Laureate
- 1 Senior Australian of the Year
- 1 Kyoto prize winner
- 23 politicians
- 13 Rhodes Scholars
- 1 High Court judge, 7 Supreme Court judges, 2 Federal Court judges and 1 Family Court judge
- 36 Olympic athletes and 1 world champion athlete
- 1 Victoria Cross recipient

www.woodcroft.sa.edu.au

Woodcroft College is an Independent Coeducational Anglican school for students from Reception to Year 12.

As an International Baccalaureate (IB) World School, Woodcroft College offers the Primary Years Programme (PYP) in the Junior School, the Middle Years Programme (MYP) in the Middle School, and the Diploma (DP) in the Senior School. Senior School students may also choose the South Australian Certificate of Education (SACE) with its Vocational Education and Training (VET) pathway.

Woodcroft College is vibrant, innovative and inclusive. It seeks to provide students with an excellent, all-round education in a Christian environment. The curriculum is broad and relevant, aimed at meeting the students' intellectual, physical, social and emotional needs.

The school has a strong pastoral care focus, a broad extra-curricular program (involving outdoor education, sports, clubs, and performing arts) and an international focus, with annual student exchanges with Japan, Germany and Italy.

The Junior School (Reception to Year 5) provides young learners with the opportunity to learn and practise the essential social, emotional and problem solving skills they will need throughout their schooling. A major focus of our school is to develop positive self-esteem, helping young children feel confident about who they are, and to encourage them in their ability to take on the challenges of new learning in a caring and nurturing environment.

Our Junior School is committed to laying a solid foundation

to support all students in their learning throughout their educational journey from pre-school to Year 12.

The Middle School (Years 6 to 9) is committed to supporting young people through their adolescence. With a global perspective, we encourage them to discover, explore and engage in their learning and to take supported risks with their learning. We cater for a wide range of student learning needs and offer students a wide range of academic experiences that will help them develop the knowledge, attitudes and skills they need for their Senior School years and beyond.

Our Middle School is committed to encouraging all students to achieve their personal best.

The Senior School (Years 10 to 12) is committed to nurturing the synergy between student, home and school. Effort, resilience, drive and grit are qualities developed by highly committed and encouraging staff to ensure that each student achieves their personal best. Students are encouraged to unlock their passions and interests, and pursue their individual strengths. Extensive subject selection and career counselling are offered to each of our students to ensure they are well aware of their options and post-school choices.

Our Senior School is committed to providing students with a holistic education, great opportunities, and a head start in life.

**About Our School**

Founded in 1911, Wuxi No.1 High School (WXYZ) is a public senior high school that offers the 3-year national Chinese curriculum (approx. 2,000 students enrolled). The International Department of WXYZ offers a global vision to the students through the British A-Level (since 2008) and IBDP (since 2012) curriculums. As the top public school in Wuxi, WXYZ and the International Department admit students strictly by score rankings in the Middle School Entrance Exam, and their performance in an admission interview. Since 2010, 1000+ International Department graduates have enrolled in top universities in the US, the UK, Canada and other countries or regions.

Our staff come from 12 countries including the US, the UK, Canada, China, India, New Zealand, Ireland, Sri Lanka, Kenya, Jamaica, Australia etc., which brings wide and diverse perspectives to students and the campus. The 6:1 student-staff ratio enables students to get full attention and individual guidance both inside and outside the classroom.

**Philosophy and Mission**

The philosophy of our school is oriented towards developing a sense of independence, commitment and compassion among students, and making them capable of providing the kind of leadership the world needs. By encouraging students to be curious, diligent, and reflective learners, The International Department of Wuxi No. 1 High School, aspires

to produce citizens who are aware of both local and global issues, and can realize their potential while acting with integrity and respect.

**Student Activities**

In the International Department, we believe that encouraging our students to develop a balance between their academic courses and extracurricular interests will prepare them for the demands of the 21st century.

Students in International Department participate in a wide range of extra-/co-curricular activities, including business competitions, academic competitions, robot design, debate, public speaking, community service, drama, photography, folk music, publication, rugby, basketball, and student government. Meanwhile, they are encouraged to work with NGOs, research institutes, charities and businesses to extend their academic and personal interests and potential.

**University Destinations**

A specialist counseling team guides students in their course selections, the arrangement of their outside activities, suggestions for standardized tests, and college applications. In recent years, students have gone to the Universities of Chicago, Cornell, California-Berkeley, and Swarthmore College in the US; the Universities of Cambridge and Oxford, Imperial College, London in the UK, and the Universities of Toronto, British Columbia and McGill in Canada and other universities of Middle East, Australia, Brazil and Europe.

With over 20 years of experience serving expat families in Beijing, the Yew Chung International School of Beijing has crafted a recognizable reputation for excellence in education, nurturing high-performing students with a commitment to global citizenship.

A complete through-school, students of all ages have the opportunity to receive an international education at YCIS Beijing. Our youngest learners participate in our Early Childhood Education (ECE) Programme, where we provide a nurturing environment for children of nursery and preschool age. Children are at the heart of our ECE programme, experiencing the joy of learning through a holistic and play-based learning process that encourages discovery.

Students transitioning to YCIS Beijing's Primary School will find a place of energy and life, where there is evident enjoyment displayed by the students towards learning and where there are a wealth of opportunities made available to the students for their learning. Our curriculum provides an academically strong, international, and bilingual education, emphasizing cross-cultural experiences combined with an additional focus on Chinese culture and extensive music, arts, and sports activities. Students in Years 1-3 attend violin classes multiple times a week, both instilling a love of music and increasing overall brain function in these formative years.

Our burgeoning global citizens entering YCIS Beijing Secondary School arrive into a truly international, multicultural, and bilingual learning environment that

wholly incorporates both Eastern and Western cultures. As in ECE and Primary, the curriculum in Years 7-9 is based on the National Curriculum for England, with students in Years 10-11 transitioning to our IGCSE programme, which in turn prepares them for the academically rigorous and internationally recognized IB Diploma Programme in Years 12-13.

Each YCIS Beijing ECE and Primary School classroom features one English- and one Chinese-speaking teacher to provide true bilingual immersion. Overlaying this emphasis on all-rounded education is our Character Education Programme, dedicated to helping students to develop a moral compass. We encourage our students to become global citizens of character and integrity who will make a positive difference in our ever-shrinking world.

Linguistic skills in both English and Chinese are equally sharpened in Secondary School, developing in students a deep understanding of and respect for cultural diversity and global awareness. Furthermore, Secondary School education encompasses competencies and co-curricular activities that provide enrichment opportunities beyond the classroom to inspire critical thinking and development of a strong moral character. These include the YCIS Seeds of Hope charity, communication and technology programmes, World Classroom trips, research and problem solving clubs, sport and athletic competitions, Experiencing China excursions, applied arts exhibitions, music and drama performances, and much more.

YCIS Beijing's Learning Communities are putting learners and learning at the centre. In purpose-designed and built facilities, we provide for flexible groupings and flexible learning spaces. Our emphasis on both teacher and student collaboration delivers holistic programs that respond to the social and emotional needs of students, including their individual differences, their innate curiosity, and their need to belong.

Learning Communities also aim to stretch all learners to achieve their potential, to enable them to influence the approaches to learning that work best for them, and to build connections between fields of knowledge and across cultures. At YCIS Beijing, each Learning Community is framed to respond to each stage of education. The bells and cells of old school models are giving way to common threads and individual variations amongst our communities, as we re-define the fabric of our school, enrich the lives of our students, and ready them for success in the 21st Century.

YCIS Beijing is a truly international school, with students of over 35 different nationalities making up its diverse population. In addition to in-class celebrations throughout the school year, including diversity weeks and festivals, the school holds an annual Global Community Day. The event is designed to celebrate the multicultural YCIS Beijing community through a variety of interactive games and booths, scintillating performances, and delicious food. Proceeds from the event go towards the Seeds of Hope charity, a Yew Chung Education Foundation (YCEF) project aimed at combating education inequity in China

by constructing new schools around mainland China and, more recently overseas. Work is currently ongoing for the construction of a secondary school in Manila, and our students have had the chance to experience firsthand how YCEF makes a tangible and positive impact on the world.

At YCIS Beijing, students and their families will find a welcoming global community that embraces strong academics, bilingual education, and the teaching of compassion and generosity. If you're moving to Beijing, please don't hesitate to reach out to us; we'd love to make you a part of our family!

# IB

## AMERICAS

# Americas

## Some facts about this region

IB Americas includes IB World Schools in 33 countries and territories in Central, North and South America. IB World Schools in the Americas are state/public, private, independent, charter, international, parochial, and secular. They serve a broad and diverse range of students in urban, suburban and rural communities. As of September 2018, there were 6,398 IB programmes worldwide, more than half (3,456) of which are located in the Americas region.

## The IB Educator Network (IBEN)

The IB Educator Network (IBEN) in the America's region is made up of IB practitioners fulfilling the roles of workshop leaders, field representatives, school visitors, consultants, readers and lead educators; and is part of the wider Global IBEN community. Through the contributions of the IBEs, we can provide support and training to promote high-quality experiences in classrooms and schools. In the Americas region, there are currently about 1600 IB educator

network members who contribute in various professional development roles and school services roles for the four IB programmes.

Thank you to all IB Educators, Heads of Schools and their staff from the IBEN Team for your ongoing interest and support of the educator network and your collaborative contributions to the wider IB community. Look out for our recruitment development opportunities on IBEN Central in early 2018. We look forward to identifying and providing development to new educators to meet our identified gap/growth areas, and ongoing support to those network members currently carrying out roles for us.

We also look forward to working with you all in 2019, and hope to see many of you at the Global Conference in New Orleans in July. Thank you to all IBEs who have submitted proposals to lead a break-out session at the conference. Finally, I encourage all Educator Network members to please visit IBEN Engage. IBEN Engage is a great platform accessible within My IB to share, collaborate, and keep current with what is happening within the Network.

## Professional development in the Americas region

In 2019, over 30,000 educators in the Americas region will attend IB professional development workshops, either in their schools or at one of our regional events. On-site workshops offer the opportunity to provide a variety of trainings to teachers from the same school, as an in-school workshop, or to teachers within a school community, as a district/cluster event.

The new IB Leadership and IB Education workshop series will be offered throughout 2019 at our regional events and can also be requested as an in-school workshop. Leadership workshops provide aspiring and experienced leaders with learning focused on leadership in an international context. IB Education workshops are appropriate for all educators at any point in their journey as lifelong learners. These workshops engage participants in provocative learning experiences around challenging ideas central to the IB's mission to make the world a better place through education.

## University recognition

In the Americas region, more and more universities are deciding to accept IB credentials and recognize the rigor and depth of our programmes. In professional associations such as National Association of College Admission Counseling (NACAC), International Association of College Admission Counseling (Int'l ACAC), and many of their affiliates, the IB Diploma is regarded as the gold standard that combines high academic achievement with the reflection and personal growth that come from the Learner Profile.

## Latin America

Private universities in Latin America have expressed great enthusiasm in partnering with the IB to recognize the competencies and personal qualities the DP and CP graduates possess. As such, several agreements have been signed and/or updated considering not only the full Diploma points, but also the core components. In the past year, IB has signed Memorandums of Understandings (MOUs) with universities in Argentina, Brazil, Peru, Mexico, and Colombia.

## United States

In the US, most universities accept the IB Diploma as a school leaving credential and will grant advanced standing for IB courses as part of the Diploma Programme, as part of the Career-Related Programme, or through standard or higher individual courses. Over 1,000 universities have published recognition policies including all of the Ivy League institutions and most highly selective institutions.

There has been a growing trend in institutions using the full diploma to satisfy state/national testing requirements. As universities recognize the holistic nature of IB programmes, lobbying with state and government institution systems remain a high priority.

In the past year, close to 100 higher education institutions have worked with IB staff through webinars and in-person trainings to establish or improve their IB recognition policies to attract these top students.

## Canada

All universities in Canada accept the IB Diploma as a school leaving credential and some of the top institutions award advanced standing for higher level courses. The two

highest transcript receiving universities in the world are the University of Toronto and the University of British Columbia.

In the province of Quebec, students who complete the Middle Years Programme and complete the national requirements will obtain the Quebec Diploma of Secondary Studies which qualifies them for higher education studies.

## Associations of IB World Schools in the Americas

Associations of IB World Schools are independent organizations established under the Guidelines of Associations of the IB. The members are commonly IB Candidate and IB World Schools. Groupings in the Associations are based on geographically relevant communities to support IB World Schools as well as schools new to the IB in the region.

Associations, who are independent of the IB, support member schools through advocacy and by:

- providing current information on the local and regional context, e.g. what is happening in education, changes affecting the schools in their association, feedback, advisory capacity, a platform for collaboration and IB research.
- disseminating updates and seeking advice from the IB about core IB services such as professional development (PD), school services, government and university recognition.
- providing professional development in association with the IB, when a separate agreement is in place.

The full listing of the current Associations of IB World Schools in the Americas region see in Appendix 4 'IB Associations Around the World', page 673.

## IB research

Key findings from research in the IB Americas region:

1. Utilizing a mixed-methods case study, an investigation explored the perceptions of administrators, teachers and students within four PYP schools in **Colombia**. Student interviews identified teachers as the primary drivers of their positive learning experiences. In an accompanying survey, 89.3% of PYP students indicated that they enjoyed being a student at their school while over 90% reported that they were proud to be a student of their school (Lester and Lochmiller 2015).
2. Within a large school district in the **United States**, researchers investigated the impact of MYP participation on high school course enrollment and achievement. The findings indicated that former MYP students were 34% more likely than non-MYP students to take at least one DP or Advanced Placement (AP) exam in high school. Furthermore, MYP enrollment significantly increased the likelihood of earning at least one "college-ready" score<sup>1</sup> on a college preparatory exam (by 39%) (Wade and Wolanin 2015).

<sup>1</sup> A "college-ready" score is defined in this study as a three or higher on an AP exam or a four or higher on a DP exam.

3. A study in **Chicago public schools** in the **US** explored how MYP teachers integrate the learner profile into their teaching practice. MYP teachers saw the learner profile as a central component of the programme. In general, teachers sought opportunities within regular classroom practice to identify or integrate attributes. There was also broad agreement among teachers that the MYP coordinator plays a key role in supporting teacher learning and incorporation of the learner profile (Ryan et al 2018).
4. Interim findings from a long-term study highlighted the high school and post-secondary outcomes of low-income DP students from **US** public schools. Compared to their non-IB peers, DP students generally perceived their classrooms as more rigorous, participated in more extra-curricular activities and had higher educational aspirations. Preliminary findings about DP alumni indicated that this group of students transitioned smoothly to college, had strong study skills and demonstrated self-efficacy and resilience (Aldana and Mayer 2017).
5. IB Research conducted a study to examine the higher education pathways of all CP graduates in the **US** from 2013 to 2015. The study found that 81% of CP graduates enrolled in university sometime after secondary school, with 76% enrolling immediately. Additionally, 79% of students who enrolled in higher education chose four-year over two-year colleges, compared to 64% of students nationally. Regarding university persistence, 89% of CP graduates who enrolled in university came back for a second year (Mack et al 2017).

## Conferences and events

Over 2,100 people attended the 2018 IB Global Conference in San Diego, California, USA from 26-29 July. The 2019 IB Global Conference will be held in New Orleans, Louisiana, USA from 18-21 July. This year's conference theme is Generation IB. The annual conference is an opportunity for members of the IB community to discuss best practices with colleagues, participate in engaging breakout sessions, and listen to stimulating keynote speakers who address some of the big questions facing the education community today.

## The IB alumni network

The IB Alumni Network is a resource for IB graduates around the world. The network links graduates from IB World Schools in 153 countries to support their future studies and careers. By connecting with the IB, former students have the opportunity to participate in research, support development efforts and speak at our events. These graduates are also supporting educators and parents in understanding the impact of an IB education from a student's perspective. To see how graduates are supporting IB programmes, visit [ibo.org/programme-stories](http://ibo.org/programme-stories) and connect with us at [ibo.org/alumni](http://ibo.org/alumni).

**Mission**

Baltimore International Academy is committed to providing a rigorous academic learning environment that challenges all students to achieve. Our immersion (Spanish, Chinese, Arabic, Russian, French) and International Baccalaureate Programmes provide a culturally and linguistically diverse education to help our students develop the knowledge, understanding, attitudes and skills necessary to participate responsibly in a changing world.

**Who We Are**

Baltimore International Academy (BIA) is a public charter school in an urban environment. We are located in Baltimore City, Maryland. We teach Kindergarten through Eighth Grades and have two signature programs, full Language Immersion and the International Baccalaureate. BIA offers a unique opportunity for Baltimore City children. Fluency in a second language will give them opportunities in their futures that their monolingual counterparts won't have. The international mindedness and critical thinking skills they gain by learning through the IB programmes is already setting them apart; their scores are higher than their City counterparts in the State's reading and math assessments. BIA's teachers are from numerous countries around the world, and our students enjoy a wide diversity of cultures and ethnicities as a result. This exposure gives them an open mindedness that is

another advantage our students have over the majority of the City's other students who lack this exposure.

**Academics**

BIA follows the Maryland State Department of Education's curriculum, but with our full language immersion program, our students learn their core subjects (Science, Social Studies, Math, Target Language Arts) through one of five languages; Spanish, Chinese (Mandarin), Arabic, Russian or French. Our students are City residents and 98% come to us only speaking English. From the time these children walk into the school, their teachers only speak to them in their target language, never in English. Our students become fluent in speaking, understanding, reading and writing in their target languages. Beginning in the second grade, students receive one hour of English language arts daily to learn the mechanics of their native tongue.

BIA is also an International Baccalaureate (IB) World School for the Primary Years and Middle Years Programmes. As such, students learn through inquiry-based instruction, project-based assessments, and collaborative group work. They study in a way that increases their critical-thinking skills and prepares them well for high school, college, and a global marketplace. The school's environment, its Immersion and IB Programmes, are geared to our slogan, to provide "an international education for global leaders".

The Baton Rouge International School (BRIS) is an independent, non-profit school offering a rigorous college preparatory curriculum in a multilingual environment (English, French, Spanish, Portuguese and Chinese) from preschool through 12th grade. By engaging our students in this unique program of foreign language immersion, technology education, language arts, math and science, music, physical education, and the visual and performing arts, they are equipped with the tools and resources needed to succeed in College and life beyond. Our highly qualified and diverse faculty includes certified native teachers. They are a daily example, bringing to light harmony in a world of differences. The Baton Rouge International School is authorized to offer both the International Baccalaureate Middle Years Programme (MYP) for grades 6-10 and the IB Diploma Programme for grades 11-12. At the end of their studies, BRIS graduates receive an American High School Diploma with Advanced Placement (AP) and the prestigious International Baccalaureate Diploma.

**Accreditation**

The Baton Rouge International School is an IB World School

authorized to offer the MYP and the DP. BRIS is also approved by the BESE and the Louisiana Department of Education/US Department of Education. In addition, BRIS is a full member of many professional/educational organizations in the United States and abroad.

**Campus Facilities**

The BRIS campus is located in Baton Rouge, Louisiana, USA. The modern facilities have been built on an 18 acre property in the heart of Baton Rouge. Its peaceful, green environment includes a lake visited by geese and falcons and plenty of space for playgrounds, fields for soccer and other sporting activities. The wooded site offers the tranquility needed for young minds to stay focused while enjoying campus life. BRIS recently started to implement its comprehensive campus master plan to design and build new buildings to serve as administrative, educational and recreational facilities for the future. The design, planning and buildings will reflect the innovative education that BRIS provides through contemporary and environmentally sustainable architecture.

Educating the global leaders of the future!

**Brooklyn Arts and Science Elementary School: Mission & Vision**

The mission of Brooklyn Arts and Science Elementary School (BASES) is to celebrate the unique complement of gifts and talents each learner possesses and to cultivate those strengths into powerful assets that serve the student and society. Through a rigorous, inquiry-based curriculum we equip our students to be fully active participants in local and global communities. Carefully designed learning experiences foster the development of personal attitudes that contribute to student success and academic achievement.

As an International Baccalaureate World School, we are dedicated to the mission of creating a better, more peaceful

world through intercultural understanding and with an intentional focus on social justice and equity. As our students learn to appreciate the contributions of others, they develop an awareness of their own value to the learning community as they discover, collaborate and reflect on projects that showcase their learning and development.

In addition to the academic program, Brooklyn Arts offers a plethora of enrichment opportunities. The school offers music education to all classes and partners with the Noel Pointer Foundation for violin instruction. Students explore the visual arts in the school's studio and dance exploration in the dance studio. The school also offers fencing and chess. STEM is offered through a partnership with the BEAM Center.

**Mission Statement:**

The mission of Cameron School, in partnership with parents and the community, is to provide all students access to a challenging curriculum rich in meaning and rigor that inspires students to become knowledgeable, lifelong learners. We are dedicated to promoting students who are: self-starters, responsible citizens, cooperative, and effective communicators. Together, in partnership, we accept the challenge of preparing our students to reach their greatest potential, committed to intellectual achievement, social emotional growth, and cultural diversity. Through this holistic approach to education, we aim to develop compassionate, responsible, and global citizens who strive to make a difference in creating a more peaceful world.

Cameron Elementary School is located in the heart of West Covina. Situated next to a community park, adjacent to West Covina High School, our school is in the hub of community activities. Opening its doors in 1952, Cameron was originally a K-8 campus. Over the next thirty-six years, Cameron went through many configurations, and in 1988, became a K-5 elementary school in the West Covina Unified School District. During the 2016-2017 school year, we added Transitional Kindergarten to our campus. An exceptionally professional staff includes highly qualified teachers, paraprofessionals, support providers and a principal. Each staff member strives

to continuously improve the quality of the educational experience for all Cameron learners.

As an authorized PYP school our goal is to provide a relevant and rigorous education, providing our TK through grade 5 students opportunities to make meaningful local and global connections through our units of inquiry. Our transdisciplinary units of study help students become critical thinkers and world citizens by providing tasks that are designed for engagement and higher levels of thinking. Cameron Elementary School offers two specials courses to all students, World Language-Spanish and Art. These specials courses provide students unique opportunities to further develop perspectives, conceptual understandings, and skills related to their units of inquiry.

At Cameron Elementary School, we believe in a balanced education for all students. Our district K-4 Reading Initiative supports our goal to have all students reading at or above grade level and ensuring their success in the PYP. In addition, we are dedicated to providing extended enriched learning opportunities. To facilitate this learning, all students in kindergarten through grade 5 are provided individual iPads for kindergarten and first grade students, and individual chrome books for 2nd through 5th grade students as a tool for supporting inquiry and developing skills.

Colegio El Camino is a Private K-12, non sectarian, nonprofit organization governed by a permanent board of governors made up by members of the three founding families and other invited members of the community.

Our mission at Camino is “to develop honorable, inquiring and caring life-long learners with intercultural understanding and respect for others who, through creativity and rigorous curriculum, become passionate leaders and participants in a global community.”

El Camino has a current student population of 420 students. The majority of students are Mexican nationals but the school is represented by 23 nationalities that include Americans, Canadians, Australians, Israelis, Japanese, French, Swiss, Germans, Venezuelans, Brazilians, Peruvians and other Latin nationalities.

The increased diversity is a result of our international accreditation with both the Southern Association of Schools (SACS) AdvancED and the International Baccalaureate Organization.

We are 1 of 36 AdvancED accredited schools in Mexico demonstrating our commitment and adherence to the high

standards of quality required by their organization based out of the United States.

We are honored to be 1 of the 120 IB World Schools in Mexico. We offer both the Diploma and Primary Years Programmes and are currently in the process of the feasibility study for the Middle Years Programme. We are registered with the Mexican Ministry of Education in all sections.

Camino is celebrating 35 years in offering the vanguard global education in Los Cabos to students from all nationalities, religions, cultures and socio economic standing. Our school provides students with a safe and caring learning environment supported by trained and certified staff from multiple nationalities.

In addition to our bilingual curriculum we offer many support services including certified and licensed psychologists, a mentoring program, career and college counseling, a nutrition program recognized by AdvancED as an outstanding practice, afternoon academic academies, afternoon sports program, the Camino Language Acquisition Support Program (CLASP), para-academic workshops and the IB Diploma CAS (Creativity, Activity, Service) program.

**CHMD: A relevant educational model**

At Colegio Hebreo Maguen David we are certain that it is possible to put together an educational project which places the individual and the community at its core. This is why, for us, the school is a space in which imagination, creativity, experimentation and inquiry are promoted; it is an open space for collaborative learning, joint creation, dialogue and innovation in order to continuously improve our pedagogical project.

Hence, we have designed a school that values and enables the development of the talents of those who participate in this learning experience. We develop innovating academic programs as we strive to generate social and emotional conditions conducive to the well-being and growth of our entire school community. We have designed meaningful experiences for the transmission of our traditional values and the construction of a solid Jewish identity in our students.

Through the Digital Culture educational model, we have designed a new thinking and living way in the school. From Kindergarden to Highschool, our students are learning differently through four courses of action: Makerspace,

Media-lab, E-Tools and Learning Architectures. This school transformation has been possible by hacking five dimensions: time, space, curriculum, evaluation and bonds. This is how we create new teaching formats where students decide and participate in their learning process.

Maguen is nowadays a benchmark for educational innovation nationally and even internationally speaking. In 2017 our school was recognized by Inter-American Development Bank as one of the 30 most innovative schools in Latin America. It was the first school in Latin America to have a Makerspace, a place inspired by the maker philosophy of learning by doing. Additionally, after the transformation of our spaces into innovative platforms that enhance interaction and collaborative learning, the design project of our school was awarded the bronze medal at the latest Design Awards in Milan.

Value, tradition and knowledge, represent our foundational beliefs and our commitment towards future endeavors. That is why, at CHMD we choose to take on the challenge of teaching to live as the biggest challenge of a relevant 21st century education.

Madison schools have been nurturing minds and creating successful learning experiences for the last 40 years in our community. We have been fulfilling internationally certified academic standards through collaborative work, positive attitudes and core values. These are highly regarded in our schools.

Madison Campus Monterrey was the first school founded in the Madison Group of Schools, which are located in different Mexican states: Nuevo León, Coahuila, Yucatán and Chihuahua.

Monterrey is a modern and industrial city, known as one of the three most industrious and important cities in Mexico. Monterrey has at least four well-known universities with important international exchange programs and several smaller ones.

Madison Campus Monterrey became bilingual in 1994. Since then, it has had a strong emphasis on the English language.

The school has programs that nurture its students' development:

- Destination Imagination (DI): Students compete in a nationwide contest, solving problems, and developing their thinking, creative and budgeting skills. Winners have the opportunity to compete in the international contest.
- United Nations Model: Academic simulation of the United Nations that aims to educate participants about civics, effective communication, globalisation, and multilateral diplomacy.
- Youth Leader Explorer expo: organized by one of the most

important high schools in Mexico where students develop different scientific skills.

- Future Leaders Contest: a two-week entrepreneur program held in Oxford, UK.
- French Immersion Program: a week in a half program held in Quebec, Canada.

In 1999 the school decided to become part of the IB and began working towards its authorization. The school achieved authorization to offer the International Baccalaureate Primary Years Programme (PYP) in 2003 and the International Baccalaureate Middle Years Programme (MYP) in 2007.

We have had students from Russia, Argentina, Venezuela, Canada, Nicaragua, Colombia, United States, Philippines, Lebanon, Poland, Switzerland, Germany, Spain, India and Japan.

One of Madison Group of Schools' greatest strengths is an International Teachers Program that enhances our students' abilities to interact with foreign cultures and learn from them.

For the last fifteen years, we have had instructors from Canada, China, Costa Rica, Croatia, Cuba, England, Ireland, Lebanon, Scotland, Poland, and the United States, teaching at our schools. Students and graduates from our school are well appreciated by the community and by the high schools they attend. Our well-articulated, inquisitive, mature and responsible graduates and students have already made a difference here in Mexico.

Madison Campus Monterrey is a certified school by SEP, an active member of FEP as well as IBAMEX.

Positivo International School is a certified IB World School that offers the Primary Years Programme and the Diploma Programme. It opened its doors in 2012 and it is part of a larger educational group that was founded 45 years ago. Through a multicultural approach Positivo International School encourages its students to act as global citizens. The international learning embraces activities that involve local and global contexts as well as the connections between various cultures and countries, which allows experiencing new realities and developing universal values. By doing so, our aim is to cultivate people capable of making the difference anywhere in the world.

**Faculty**

The faculty includes 153 full-time and part-time teachers, all holding university degrees, postgraduate educational qualifications and many masters and PhD degrees. All English teachers have International language certifications. We also have a mixture of local and foreign teachers.

**School Activities**

Positivo International School offers a full range of extracurricular sports and cultural activities including

Basketball, Flute, Soccer, Ballet, Yoga, Gardening, Jazz, Judo, Water Polo, Guitar, Baseball, American Football, Lego Club, Robotics, Fencing, Badminton, Choir and Tennis. Students also have access to clubs for especial interests such as the Engineering Club, Med Club, Business Club, Creative Writing Club, Model United Nations Club, Design Club, Science Club and Communication Club.

**Languages**

The school uses two languages of instruction: Portuguese and English. The access to the curriculum and the learning in school occurs through the use of both of those languages. Spanish, French and Mandarin are also offered as an extra-curricular class. The use of different languages in the school space helps to develop a citizen of the world, an international minded individual who has great sociability, ease of acquiring knowledge, perception and intercultural understanding and respect for diversity. We respect and honor how language reflects the individual and cultural beliefs, attitudes and perspectives, and are committed to creating the opportunity to help our students find their voices in our society.

## Well-established and Innovative

At Colegio Williams being avant-garde has been a tradition for more than 100 years. The school was founded by the British pedagogue Camilo J. Williams. Since then, four generations of educators have developed a unique education philosophy, characterized by purposive and innovative approach.

## Trendsetting

Colegio Williams was the first educational institution in México to include in its curricula sports, agro-livestock technology, and the most modern English learning methodologies and techniques.

At the Mixcoac Campus, there is a beautiful castle which up to 1917 belonged to José Ives Limantour Marquet, Minister of Treasury under President Pofirio Díaz. Both students and teachers find inspiration in the magical atmosphere of this 200-year old building.

## Elevated Principles and Standards

- An education that re-signifies and strengthens the pride of being Mexican.
- An education that integrates mind and body, theory and practice, arts and science, voice and thought, project and reality.
- An education that is critical, objective, optimistic, that, by understanding the present, projects towards the future.

- An education that fosters research inquiry and for which individual growth and that of the community are promoted.
- An education that brings about values that are acquired by practising them.

## Outdoor Activities and Facilities

Sports and contact with nature are essential to the development of Colegio Williams students, for which the school has top quality grounds, facilities, and instructors for a wide range of agro-livestock technology activities, which include breeding animals as well as growing vegetables, and sports activities such as swimming, scuba diving, horseback riding, soccer, Olympic gymnastics, cheerleading, dance, Tae-Kwon-do, tennis, volleyball, frontennis, and flag-football.

## Computer facilities

Include 130 Mac Books in 4 Mac Shuttles to transport them to different classrooms plus 60 iMacs in computer labs.

## Trips Abroad

Students are encouraged to participate in trips abroad that are organized by the school. The objectives are cultural and academic development, and the trips have included Canada, France, England, and the USA, to Iowa for scientific presentations and to New York for the National High School United Nations Model.

District of Columbia International School (DCI) is an innovative middle and high public charter school in Washington, DC, with a mission of inspiring inquiring, engaged, knowledgeable, and caring secondary students who are multi-lingual, culturally competent, and committed to proactively creating a socially just and sustainable world. To realize this mission, DCI students participate in innovative activities in and out of the classroom on a daily basis. Students form their own lunch clubs; testify before the DC City Council; participate in art, poetry, and design contests; create over 100 self directed projects in Student Led Inquiry classes; and compete in twelve sports through over two dozen teams.

DCI's three pillars of education are:

- International Baccalaureate education for all: DCI offers the IB MYP for grades 6-10 and offers the IB DP and CP for grades 11 and 12. There is no opt-in; all students will follow the IB tracks and work towards the IB diploma or Career Certificate.
- Advanced language learning in Spanish, French, or Chinese: Students choose one of these as their

primary language and some opt to study a secondary language as well. Languages are taught through inquiry-based, experiential learning and supplemented with international travel. Approximately 50% of students study Spanish, 30% study Chinese, and 20% study French.

- Student agency through 1:1 technology: Students learn and study with the help of Chromebook computers and coursework that is interactive, personalized, inquiry based, and concept driven. The Chromebooks go home with students and night and over the summer, which has helped DCI to increase learning even when school is not in session.

DCI proudly serves a diverse group of DC public school students. With no majority race, the student body is approximately 40% Hispanic/Latino, 40% African American, and 20% Caucasian and Asian; over half qualify for free and reduced lunches and 15% receive Specialized Education Services. Currently, DCI serves 1050 students in grades 6-11 and is growing by one grade level per year until it serves 1500 students in grades 6-12 by school year 2019-2020.

Dwight School is an internationally renowned college preparatory school with a rich, 147-year tradition of academic excellence and igniting the “spark of genius” in every child. Dwight’s world-class education rests on three pillars: personalized learning, community, and global vision. The School’s diverse faculty and student body represent over 40 countries, deepening the internationally minded, innovative learning environment.

A leader in global education, Dwight is the first school in the Americas to offer the comprehensive International Baccalaureate (IB) curriculum for students from preschool through grade 12. It was also the first school in New York City to offer the PYP. The rigorous IB is recognized as the “gold standard” in pre-university preparation. Through the IB, Dwight is educating students to become caring, open-minded and critical-thinking global leaders. Foreign language instruction is extensive and begins in preschool.

Through Spark Tank, Dwight’s unique incubator designed to nurture innovation, entrepreneurship, and leadership skills beyond the classroom, K-12 students develop their own

ideas for new businesses, non-profits, and products.

Dwight School in New York is the flagship campus of a global network, which includes schools in London, Seoul, Shanghai and Dubai. Dwight Global Online School – a campus in the cloud – extends a world-class Dwight education everywhere. Dwight Schools educate 2,500 students around the world, who benefit from a wide range of cross-campus academic, leadership, and creative collaborations.

Dwight School has a comprehensive college guidance program beginning in grade 9, and graduates attend some of the finest colleges and universities in the world, including Harvard, Yale, Princeton, MIT, Stanford, Oxford and the University of Edinburgh, among many others. Upon graduation, they join an already large and growing global network of alumni leaders – all dedicated to making a our world a better place.

Dwight is also accredited by the European Council of International Schools and by the Middle States Association of Colleges and Secondary Schools. Financial aid is granted on the basis of need.

## Honoring the Individual, Embracing the World

Mission: Eagle Hill School educates students identified with learning (dis)abilities by providing an intimate and encouraging community that honors the individual, values learning diversity, and cultivates international mindedness.

Eagle Hill School provides an exceptional college-preparatory education for students in grades 8-12 identified as learning disabled. Eagle Hill School believes in learning diversity, and the success of our students follows from our deep commitment to the idea that difference is the norm – that each student is best understood as unique, rather than a case of some disability. Therefore, every curricular decision follows from our ability to honor the individual. We strive to understand each student’s constellation of talents, challenges, interests, hopes, and fears – and then to customize each student’s Eagle Hill experience.

### IB with Support

The approach of knowing each student and honoring the individual guides the IB experience at Eagle Hill. Imagine IB in a classroom of 6-8 students, led by teachers who are both passionate in their discipline and highly trained in differentiated instruction. In this setting, students can

reach their full potential, whether in our IB program or our traditional American Diploma program.

With 96% of our graduates matriculating to four-year colleges, all EHS students benefit from uncompromising standards of excellence, within a school culture built around individual needs. In this environment, promising young minds reach and soar, preparing for college and for life. Folding IB into the already rich array of opportunities afforded all students at Eagle Hill, reflects our commitment to providing students with possibilities they may never have imagined possible.

In addition to the vibrant classroom experience, Eagle Hill offers a multitude of extracurriculars in athletics, clubs, community service, and leadership. These endeavors allow students to develop time management skills, responsibility for learning, and a collaborative work ethic.

Eagle Hill School’s 200 acre campus is located in the picturesque town of Hardwick, Massachusetts. Located 60 miles west of Boston and 30 miles northeast of Springfield.

For more information about Eagle Hill School, or to begin the admission process, please call +1 413-477-6000, or email IBinfo@eaglehill.school.

Edgewood High School is a public high school located in the city of West Covina, 19 miles east of downtown Los Angeles. Edgewood High School is an International Baccalaureate World School authorized to offer the IB Diploma Programme and a candidate for the Middle Years Programme. Edgewood is a school of choice serving a diverse population of 834 students. Edgewood recently reopened as a high school in 2010 with our first graduation class in May of 2014. We have been an IB World School since 2011 and we are accredited by the Western Association of Schools and Colleges through March 2021.

Edgewood offers a smaller learning community focused on preparing creative, inquiring, caring students prepared for college and career. This can be seen in our Mission Statement, *“Edgewood School is committed to building a globally aware community of lifelong learners who achieve high academic standards. Edgewood provides a diverse, challenging curriculum that is student-centered and develops inquisitive,*

*knowledgeable, and empathetic students who actively engage in and contribute to their family, community, and the world around them.”*

EHS offers a variety of courses to meet our diverse student needs. The curriculum includes: honors courses in 9th and 10th grade, both standard level and higher level IB courses, a world language program, a fine arts department offering visual arts, music, and drama, a health and physical education program, Career and Technical Education courses in Game Design and Video Production, and support services for special education and English learner students.

Students at EHS are provided personal and social development opportunities created by participation in extracurricular activities such as ASB, clubs, yearbook, dances, study trips, performances, cheer and athletics. Edgewood offers CIF sports in cross country, baseball, softball, tennis, basketball, volleyball, water polo, soccer, wrestling, track and swim.

EF Academy International Boarding Schools opens a world of opportunities for high school students by providing them with a superior secondary school education, thorough university preparation and access to a future that knows no borders. We believe in every student's ability to succeed and we empower them to do so through our renowned curricula, as well as quality relationships with teachers and mentors. With a student body made up of 75 nationalities, multilingualism and intercultural exchange are built into every course and our students live the IB ethos every single day.

**The School**

This IB World School is located approximately 40 minutes north of Manhattan. EF Academy's secure campus offers 100 acres of landscaped grounds, running trails and playing fields in the quiet suburban town of Thornwood. Our facilities include a premier science center, fully-equipped gym, auditorium, spacious classrooms and comfortable on-campus dormitories.

**Academics**

Instruction and guidance at EF Academy New York is highly personal. Students can follow the IGCSE program in their first two years of secondary school and the IB Diploma in the following two years. Alternatively, students can follow the US High School Diploma for all four years of high school. All students who successfully complete their high school

studies with EF Academy New York are awarded a nationally recognized New York State High School Diploma.

**University Placements**

EF Academy New York graduates have been accepted to universities such as Harvard University, Columbia University, University of Pennsylvania, Cornell University, New York University and Rochester Institute of Technology, and other business and engineering schools as well. Some of our artistically talented students have been accepted to Rhode Island School of Design and Parsons School of Design.

**Support and Guidance**

Each student at EF Academy New York is assigned a student success counselor who helps them select the right courses, supports them with school work and comforts them if they ever feel homesick. In addition to receiving one-on-one support from teachers, students also work together with university advisors who help them research and apply to the universities that best suit their goals and interests.

**Student Life**

We encourage students to participate in co-curricular activities, such as special-interest clubs, academic competitions, varsity sports and community service opportunities. We believe that by getting involved in student life, students can make lifelong friends, pursue their passions and gain experience that will benefit their college essays and personal statements.

São José dos Campos, Brazil, is a city known for its attractive surroundings and importance as a center of Science and Technology. Esfera Escola Internacional aims to contribute to the development of innovative citizens, who are able to interact in international contexts for the common good. Esfera offers an academically rigorous bilingual curriculum from Preschool to Middle School which is based on the National Brazilian Standards and the IB framework. Esfera is also an UNESCO Associated School.

In Preschool, children are encouraged to develop their social skills and explore the world around them, through play-based learning, building new understandings and learning to communicate their ideas and feelings with respect. Relationships are at the heart of the Preschool program and multiple intelligences are valued, allowing for differentiated approaches to teaching and learning. Teachers recognize the full potential of each student, aiming to foster their talents through creativity and a joy for learning. In Elementary School, students engage in six transdisciplinary

Units of Inquiry each year, exploring content and concepts, while developing essential skills and attitudes. Students become progressively more autonomous in their ability to think critically, work collaboratively, employ technology and propose solutions. Then, in the Y5 Exhibition, they are able to demonstrate the breadth of their understanding, skills and values that they've acquired throughout the PYP.

In Middle School, students work with interdisciplinary units in an expansive curriculum that includes: Languages (Portuguese, English and Spanish), Mathematics, Science, Design, History, Geography, Art, Music, Drama and Physical Education. Students continue to develop their international mindedness and active pursuit of meaningful action through the international exchange programs and the Community Project in Y9. Throughout Middle School, the tutorship program allows students to become more aware of their learning process and how to develop strategies for thinking and relating to others as they change and grow.

Greengates School, Mexico has been held in high esteem for close to 70 years. Its British style international education caters to 1200 students, aged 3-18. The student body is largely made up from the diplomatic and business communities of Mexico City.

International-mindedness and cultural diversity are seen daily through the participation of over 50 nationalities.

The mission statement of Greengates School holds as true as ever today as it did when it was written in 1951. We encourage our students to develop character, self-discipline, respect and reflection in a challenging learning environment which honours individual differences. At Greengates we act with integrity and seek to motivate our students to become socially responsible citizens while achieving academic excellence.

As a British international school English is the language of instruction, from the age of six all students also study Spanish. Support in both languages is given as required. Furthermore, French is taught in the Secondary School and can be taken at IGCSE and on the IB diploma. Korean and Japanese are also available as options on the diploma.

Graduates from Greengates attend some of the most prestigious universities in the world. Of the 2018 cohort 20% are attending universities in the USA, acceptances to Greengates students were made by Brown, University of California, Johns Hopkins, Yale and many others. 25% of the year group are studying in Canada, while offers were received from University College London, King's College London, St Andrew's, University of Edinburgh and many more. Our students also study at some of the very best universities in

other regions such as Sophia and Waseda in Japan and KAIST in Korea, or across Europe. Greengates students received scholarship offers totaling over \$1.5M USD.

The teaching body at Greengates is comprised of almost 140 teachers from a wide variety of backgrounds. Alongside the many British teachers, highly qualified and experienced educators come from across the world, with all regions represented. Teachers bring a variety of different skills and modern methods to the classroom and beyond. Approaches to teaching and learning are central to students' success.

The Primary School uses the International Primary Curriculum (IPC) inquiry based curriculum. The Secondary School prepares students for the International General Certificate of Education (IGCSE). The IGCSE two-year course is studied prior to embarking on the IB diploma programme. The Secondary School has been authorised to offer the IB diploma programme since 1986. In each of the last three years the pass rate has been over 98%, with overall points scores consistently well above the world average.

The Greengates campus covers an area of 20,000 square metres, with purpose-built facilities including two libraries, nine sciences laboratories, six computer media centres, four art studios, an auditorium, a large gymnasium, basketball courts, an indoor swimming pool, an organic learning garden used by all students, a cafeteria, an adventure playground designed by the famous architect Javier Senosiain and an all-weather field.

Enrollment is open throughout the year, depending on availability. We always welcome enquiries and visits from prospective families.

www.fasny.org

The French-American School of New York (FASNy) is an international and bilingual independent coeducational day school providing an international education to approximately 800 students in Nursery through Grade 12. FASNy develops globally literate, multicultural lifelong learners through a unique program that integrates French, American and international curricula.

**A unique location**

FASNy is located in Westchester County, New York, 20 miles north of Manhattan (35 minutes from Grand Central Station by rail) and 9 miles south of Greenwich, Connecticut. Most families choose to enjoy the space and quiet that this peaceful yet active area has to offer. A number of large and medium sized companies are located here and the commute to Manhattan is very convenient. For families living in New York City, their older children easily come to school by rail.

**Stellar academics**

FASNy is the only school in the New York metropolitan area to be accredited by the International Baccalaureate Organisation and by the French Ministry of Education (AEFE). We are also accredited by the New York State Association of Independent Schools. Our students therefore enjoy the unique privilege of graduating with either the IBDP or the French Baccalaureate (with or without the International Option), and with a New York State High School Diploma.

The school offers a bilingual immersion program in Nursery through Kindergarten, bringing children of all cultural and linguistic backgrounds to academic fluency in French and English. In grades 1 through 8, students follow a rigorous

bilingual program that combines official French and best-in-class American curricula, with classes taught in both languages. Starting in September 2018, students in grades 9 and 10 will choose between the international program taught in English, and the French-American program taught bilingually or mainly in French. In grades 11 and 12, students choose between the International Diploma Programme track taught in English or bilingually, or the French Baccalaureate track taught in French or bilingually.

Each year FASNy sends students to top colleges and universities. Our acceptance list since the first graduating class in 2009 has included: Columbia, Harvard, MIT, Princeton, Stanford, and Yale in the United States, and Cambridge, Imperial College, LSE, Oxford, and UCL in the United Kingdom. Many students also choose to study in Canada, in France, and in other fine European institutions.

**A vast array of co-curricular activities**

Our strong Arts, Music and Athletics programs along with our many clubs ensure a well-rounded education and encourage leadership. Our strong Community Service program, our educational international trips, and a large choice of clubs all contribute to the development of balanced and caring individuals.

**A diverse and welcoming community**

Our community of teachers and students represents over 50 nationalities, and the fabric of our school is one of tolerance, acceptance, and appreciation of our diversity. We mix French and American school life traditions, creating a warm and engaging experience for our students.

Instituto Anglo Británico Campus La Fe, and Campus Cumbres, belong to the Madison Group of Schools, which are located in different Mexican cities.

IAB Campus La Fe is located in a suburb of Monterrey, a modern and industrial city, known as one of the three most important cities in Mexico. Monterrey has at least four well-known universities with important international exchange programs and several smaller ones.

This school was founded in 1993 in order to offer our community an international school for their children (1 to 15 years old), with programs that help them develop critical skills necessary for the globalized world we live in. This year we proudly celebrate our 25th anniversary.

IAB Campus Cumbres is located to the west of Monterrey and was founded in 2015.

Our schools provide a holistic education to better prepare our students to thrive in a fast-changing and highly-connected world. They are committed to obtain the authorization and work under the curricular and training framework of the IB with the PYP and the MYP programs.

We welcome students from all religions and nationalities

in order to encourage diversity and internationalism. We have had students from different countries such as Germany, Spain, India, Argentina, Korea, Japan and the United States.

The schools have programs that nurture its students' development: Young Leaders Explorers, Future Leaders, Model United Nations and Destination Imagination (DI).

One of the Madison Group of Schools' greatest strengths is an International Teachers Program that enhances our students' abilities to interact with foreign cultures and learn from them. We have had teachers from Canada, China, Colombia, Costa Rica, Croatia, Cuba, England, Ireland, Lebanon, Scotland, Poland, Venezuela, Egypt and the United States, teaching in our schools.

Our constructive learning environment allows students to be lifelong learners that are proficient in English and Spanish.

Students and graduates from our school are well-appreciated by the community and by the high schools they attend.

Our graduates (as well as current students) have already made a difference here in Mexico.

The International School of Denver (ISDenver) is an inclusive, globally minded community that develops highly motivated and academically successful bilingual learners. ISDenver students are inter-culturally adept and make positive contributions in a complex world.

ISDenver is proud to be authorised to offer the three-year Middle Years Programme. Our preschool through 5th grade programs offer immersion in French, Chinese or Spanish to families who represent more than 50 nationalities. Our younger learners follow a rigorous, broad and balanced curriculum, based on the national standards and benchmarks from accrediting agencies of France, China and Spain, as well as Colorado State Standards. Our teachers are native speakers of the languages, and our specific approach to immersion education gives the learners an authentic

bicultural as well as bilingual education. The development of their intercultural competencies provides a perfect foundation for their entry into the IB MYP in 6th grade.

Within the MYP structure, we continue to focus strongly on the development of bilingualism, while building international-mindedness. We capitalise on the students' broad knowledge base and help them apply their diverse approaches to learning to global contexts.

As a three-year MYP school, our culminating work is evidenced by both the Community Project and a service learning trip to Costa Rica. Our 8th grade students are well prepared to meet the challenges of high school: 100% of our graduates are admitted to their first or second choice high school, with 87% attending their first choice school – often a local IB World School.

The International School of Los Angeles is an independent, international, preschool through 12th grade school committed to bilingual education and academic excellence in a nurturing environment. Currently, all students study a common bilingual program from preschool through 9th grade, at which point they have a choice between the rigorous and well-balanced French baccalauréat (taught in French) and International Baccalaureate Diploma Programme (taught in English). Beginning in 2019-2020, the School will extend its international track to the start of 9th grade, further internationalizing its curriculum and providing students an additional year of preparation for the IB Diploma Programme.

Possessing such a robust bilingual background, many of the School's IB students pursue the Diploma's bilingual option, demonstrating their proficiency by completing the requirements in both English and French at Literature level. The Washington Post consistently lists the International School of Los Angeles as one of the nation's most challenging private high schools.

With five Los Angeles-area campuses (Burbank, Los Feliz, Orange County, Pasadena, and West Valley), and over 1,000 students, the School holds triple accreditation from the French Ministry of Education, the Western Association of Schools and Colleges (WASC), and the International Baccalaureate (IB).

The International School of Los Angeles is committed to the values of respect, excellence, and diversity, and to preparing students of all backgrounds to excel in and contribute to a global world. Since 1978, the School has been instilling the love of learning in all its students through small classes and low student-to-teacher ratios. With over 60 nationalities and 39 spoken languages represented on the campuses, students study and live in a diverse global community every day.

In 2018-2019, the International School of Los Angeles is commemorating its 40th anniversary and celebrating 40 years of leading the way in bilingual education.

*Working together with Southern International School and Northern International School.*

In 1981 Mrs. Estela María Irrera de Pallaro and her husband Andrés Pallaro founded a kindergarten in a lovely house situated in O'Higgins St. in Belgrano, which was later to become Islands International School. Some years later, as a result of hard work, clear objectives and true commitment, a primary school was opened in a spacious building situated in Virrey del Pino and Arcos St. In 1988, a secondary school was opened with a curriculum based on the latest, most prestigious syllabi in Argentina and the whole world. The new building situated in Amenábar St. offered our students appropriate facilities and modern equipment to meet the highest educational standards.

From the beginning, our aim has been to present our students with a demanding curriculum while emphasizing the values of hard work, effort and commitment. The outstanding achievements of our alumni both in college and later on in their jobs are irrefutable proof of our success.

In 1990 Islands embraced new challenge by joining the International Baccalaureate Organization, a well known association of schools seeded in Geneva, Switzerland whose main objective is to foster the students' skills so that they can perform successfully in an increasingly demanding academic world and expanding job market. Furthermore, it is essential that our students should acquire full command of the languages taught at our school: Spanish, English and Italian.

By getting an IB diploma our students can also get the "Maturità Linguistica o Scientifica", which is a diploma issued by the Government of Italy at the end of secondary school and which grants students admission to European Universities.

Our school emphasizes the values of respect and hard work as the main tools, which will enable our students to achieve success. Islands International School provides students with quality education, which comprises the latest technological breakthroughs and the practice of human and social values.

La Scuola d'Italia is a multicultural, multilingual institution located in the heart of Manhattan. At La Scuola, students pursue both Italian and U.S. rigorous curricula simultaneously, supported by a nurturing international community comprised not only of Italian families, but of people from all over the world who recognize the value of an internationally-minded, multilingual and academically challenging education.

In addition to being recognized by the Italian Ministry of Education, La Scuola is chartered by the Regents of the University of the State of New York and accredited by the New York State Association of Independent Schools (NYSAIS). As a further confirmation of the quality of its educational offering, in May 2018 La Scuola was officially authorized to offer the International Baccalaureate Diploma Programme to its 11th and 12th grade student population.

As a result, La Scuola students enjoy the unique possibility of graduating with a high school diploma that is fully recognized by all university institutions in both Europe and the United States. As an integral part of La Scuola's current

academic offering, the International Baccalaureate Diploma Programme naturally provides our students with even better opportunities to excel on a truly global stage.

La Scuola takes great pride in its commitment to the harmonious integration of different disciplines, cultures, and languages into its carefully designed K-12 curriculum. An exceptionally dedicated and highly qualified faculty, actively engaged in its professional growth, refines the curriculum regularly in a low teacher-student ratio environment.

La Scuola strives to prepare students for the academic, professional, social, cultural and ethical challenges deriving from a globalized world. The education we offer aims to:

- develop in students the specific skills and knowledge required to excel in higher education and beyond within the domains of mathematics, science, modern (English, Italian, French) and classical (Latin) languages, history, philosophy, the arts and business management;
- foster in students a deeper understanding of their future role as thoughtful, respectful, caring and principled human beings in an ever expanding world community.

La Scuola's mission is to "Inspire Brave Learners to Shape the Future" through our unique combination of the rigorous IB-PYP curriculum framework (our head), the Reggio Emilia inspired pedagogy (our heart), and Italian language immersion (our soul). Our approach promotes a lifelong passion for learning and gives our students both the academic and socio-emotional skills they need to succeed, thrive, fulfill their unique potential, and be happy. La Scuola is San Francisco's only authorized IB-PYP World School, with preschool students at the Dogpatch campus and K-8 at the Alamo Square campus.

**Core Values**

- We believe that children actively construct theories about their world and test their hypotheses through meaningful hands-on experiences as well as social interactions and relationships with their teachers and their peers (social constructivist approach).
- We foster children's imagination, curiosity, inquiry, creativity, critical thinking and problem solving to shape a lifelong passion for learning through the whole development of the child: physical, intellectual, emotional and social.
- We educate children to meet the needs of a rapidly changing world where the ability to problem-solve,

innovate, learn independently and cooperate is of paramount importance.

- We offer an Italian immersion program: bilingualism leads to increased cognitive flexibility and has long-term positive effects on literacy and academic performance. Italian language proficiency is not required to enroll at La Scuola.
- We believe in lifelong education and learning: our faculty regularly attend professional development courses, seminars and events.
- We believe in fostering lifelong healthy eating habits and in sharing the earth's resources. The students share a family-style lunch. We have a garden in which children can grow the food that they eat, and obtain knowledge about sustainable agriculture and the environment.
- We believe in Global Citizenship: bilingualism also gives a broader perspective and greater intercultural experience, thus enabling children to develop curiosity for the surrounding world, a respect for differences and to become global citizens in a rapidly changing world.

Located in Manhattan's most historic neighborhood, Léman Manhattan provides students with a rigorous academic program in the most dynamic, international education setting in the world. We are home to nearly 900 students ranging from 16 months old to grade 12, and New York City's only boarding program.

Léman Manhattan is an International Baccalaureate World School that sets high expectations for students from early childhood through 12th grade. Serving our local neighborhoods and a diverse international community, we prepare students with the knowledge, confidence and fluency they need to engage in a rapidly changing world.

Léman challenges students' intellect and inspires their creativity. We encourage them to think critically and work collaboratively. Celebrating each student's individuality, we foster the skills they need to grow in mind, body and spirit. Our unifying mission is to instill a positive outlook in each of

our students and a certainty for all they can achieve in life.

Eighty percent of Léman faculty hold advanced degrees in their fields. Our commitment to instructional excellence leads to exceptional academic outcomes. Eighty percent of Léman graduates are accepted to top 50 ranked US universities, including highly selective colleges such as Brown, Columbia, Cornell, Dartmouth, Duke, Haverford, Johns Hopkins, New York University, Oberlin, Princeton, University of North Carolina Chapel Hill, University of Pennsylvania, University of Virginia, Wellesley, Wesleyan, Yale and many others.

As an integrated day and boarding community, the Léman student body represents more than 50 nationalities and is highly diverse. This allows for inquiry based learning in the IB philosophy and cultivates students who are open-minded, collaborative, principled, and balanced.

Léman Manhattan. Each student, future prepared.

Lincoln Park High School, founded in 1899, is a Chicago public high school that offers very successful IB Diploma, MYP & CP Programmes within the context of a college preparatory school for students of all ability levels. Students living in our attendance area or anywhere within the Chicago city limits can make application to Lincoln Park's Magnet Programs, which include the IB Diploma Programme, the CP (Performance Music, ROTC, and Visual & Digital Arts), an Honors/Double Honors/Advanced Placement Program, and a Performing Arts Program with concentrations available in drama, band, string instruments, and vocal music. After admission, any student may elect vocal or instrumental music. Special consideration for admission is extended to students from other IB schools and to international students from the business and diplomatic communities.

Fluent/bilingual French students can participate in a special program (EFAC) that can include preparation for DELF or the French Baccalaureate in addition to college prep, AP, and/or IB classes. All students with special needs are supported in their IB and college preparatory classes by a full special services program.

*Newsweek* magazine has ranked Lincoln Park as one of the top 100 high schools in the US and for the last six years US News & World Report awarded the school gold and silver medal rankings.

Its staff places high value on rigor, mutual respect and creativity, while encouraging students in both their academic and extracurricular activities to develop their talents and interests to the full. Personal excellence, a willingness to

challenge oneself, inventiveness, and a can-do spirit are at the core of Lincoln Park's culture.

Students come from over 80 countries and speak more than 60 different languages at home. A significant number of students in the IB Diploma Programme were born in other countries, are first-generation in this country, or the children of internationals. Within this diverse context students acquire insight into others and the leadership skills needed in a global society.

A wide variety of extracurricular activities (50) and interscholastic sports opportunities (currently 26) are available for all students. IB students are active in sports, drama, music, art, school clubs, and local organizations. Many do community service beyond the CAS requirement and are active in their individual churches, synagogues, and mosques. In addition to their work in their classes, all Lincoln Park students participate in a number of academic competitions in writing, history, experimental science, literature, social issues, world languages, and the fine and performing arts; many have gone on to the national and international levels of these competitions. Every year, the boys' and girls' athletic teams win division and sectional championships. The music program regularly earns superior ratings in competitions and is currently ranked as the #2 music program in the state of Illinois.

Since 1984 approximately 82% of the IB students have gained the diploma on completion of the IB Diploma Programme. Lincoln Park enjoys an outstanding record of university acceptances both in the US and internationally.

Founded in 1964, Lyceum Kennedy French American School serves the needs of French francophone and English speaking families living in New York City and the metropolitan region. Fifty years later, the school is one of the most respected international schools in Manhattan and Westchester, offering a nurturing yet rigorous bilingual education experience to its students.

The school operates three campus locations – two in the heart of Manhattan, just two blocks from Grand Central Terminal, and the other in Ardsley, NY. The International Baccalaureate Diploma Programme (DP) is offered at the school's 815 Second Avenue campus location.

Currently, Lyceum Kennedy welcomes 300 students from more than 40 nationalities, ages 3 through 18 years old and provides a family-oriented school environment. Our teacher/student ratio allows us to understand and work with each student as an individual in order to ensure academic success and instill a love of learning.

**Mission**

Lyceum Kennedy's mission is to provide its students with a unique bilingual and bicultural education based on the principles of self-expression and differentiated pedagogy. Our solid foundation allows students to grow into full participants in the world around them and keep a passion for knowledge throughout their lives.

**Core Values**

At Lyceum Kennedy, we emphasize on multiculturalism, a solid bilingual educational experience, challenging curricula, and critical thinking, with an open and compassionate mind. These standards align firmly with the International Baccalaureate Diploma Programme.

**Curriculum and IB**

In September 2014, Lyceum Kennedy became an authorized IB school for the Diploma Programme. We offer 11th and 12th graders a unique, totally bilingual French and English IB Diploma Programme, with Spanish and German as additional foreign languages. This program is ideal for all students seeking an exceptional education that prepares them to become responsible citizens of the world and the leaders of tomorrow. In addition, students follow the New York State Board of Regents program.

Additional language support is provided to help students strengthen their second language so that they can participate in all English and French programs with native speakers. We also provide a wide range of after-school enrichment classes which allows students to fully develop physically, artistically, and intellectually.

We belong to the Madison Group of Schools, which has more than 35 years of educational experience.

On a national level, we have campuses in the cities of Torreón, Chihuahua and Mérida\*. Locally, we have the Madison International School (MIS), Instituto Anglo Británico, and Madison Monterrey campuses.

Our particular campus opened its doors in 2007 in the south of Monterrey, in the El Uro area, and we offer Nursery, Kindergarten, Primary and Secondary levels of schooling.

MIS is located in Monterrey, an industrial and modern city in Northeastern Mexico. The city is anchor to the third-largest metropolitan area in Mexico. Its economic, cultural and social influence makes it one of Mexico's most developed cities with the highest per capita income in the nation.

MIS provides a first class education for students and gives children a head start in the modern world by taking their English skills to a higher level. Madison's superb bilingual program teaches children English beginning in their most formative years.

Madison International School uses the constructivist educational method and is also based on inquiry, reflexion, and active participation of our students.

As part of our international profile we encourage our students to participate in different programmes that nurture

their development, such as:

- Destination Imagination: engage participants in project-based challenges that are designed to build confidence and develop extraordinary creativity, critical thinking, communication, and teamwork skills.
- Model United Nations: academic simulation of this international organization, which aims to educate participants about effective communication, globalization and multilateral diplomacy.

Madison International School proudly boasts some of the best student facilities in Monterrey such as computer and science labs, video and conference halls, library, cafeteria, music and art rooms, and substantial sports fields that are all staffed by teachers committed to creating a fun and interesting learning environment for the children. The school offers extracurricular classes ranging from guitar, piano, robotics, to sports teams. Madison's dedication to students' safety and wellbeing is the most important element, which is why we provide excellent security features that will give every parent and child peace of mind.

We encourage diversity and internationalism and therefore we welcome students, teachers and families from any religion, race, and nationality.

Meadowridge School exists as a point of departure for parents and students who are seeking more meaning from education; an unfettered education that has greater impact on the whole individual and more relevance to the realities of the world.

As an International Baccalaureate (IB) Continuum World School, we offer the academically-rigorous Primary Years Programme (PYP), Middle Years Programme (MYP) and Diploma Programme (DP) to students from Junior Kindergarten to Grade 12. This continuum of learning supports the growth and development of the whole child in a safe, supportive, and challenging environment. Through inquiry-based instruction, students learn to engage with challenging and complex questions effectively and creatively. Our school, from classroom to natural woodland, is the setting for our program that challenges students to find out more about their own beliefs and society through striving for excellence in academics, arts, and service to the community. Just 45 minutes east of Vancouver, British

Columbia, Meadowridge is located in beautiful Maple Ridge on a unique, pastoral 27-acre campus complete with gardens and greenhouses and a discovery forest for students across the continuum to engage and explore. Our facility includes state-of-the-art science labs, a theatre, an eight foot bouldering wall, and an international-sized soccer pitch. With our accreditation of the IB program, and accredited by the Council of International Schools (CIS), Meadowridge is committed to providing our students the highest quality of education and the knowledge to become engaged participants in the global community. Only two schools in Canada have this dual accreditation as both IB Continuum and CIS. Through our outstanding teaching, programs and facilities, Meadowridge develops the confidence in students to not only meet the future, but also to create it.

To discover more about Meadowridge visit us online at [meadowridge.bc.ca/virtual-tour](http://meadowridge.bc.ca/virtual-tour) or join us for a student-led tour to see firsthand why our community is proud to call Meadowridge home.

### Mission

Mercyhurst Preparatory School (MPS) is a four year co-educational Catholic secondary school founded by the Sisters of Mercy to prepare students from all religious and ethnic backgrounds for a successful, productive, and compassionate life in an ever-changing and interdependent world. A Mercyhurst Prep education is based upon the teachings of Jesus Christ, the Mercy charism, and a modeling of Judeo Christian values. We strive for excellence in academic and co-curricular programs, promote service to our local and global communities, and foster the dedication and active support of the students, parents, faculty, staff, and alumni of the Mercyhurst community.

### Community

Mercyhurst Prep is located on the beautiful shores of Lake Erie in the USA where students experience seasonal change and access to numerous outdoor activities in this safe community of 200,000. Erie, Pennsylvania has easy access to major US cities – Cleveland, Buffalo and Pittsburgh – as well as Toronto, Canada.

### Curriculum

As a college preparatory school, the curriculum is rigorous. 98% of graduates matriculate to post-secondary institutions. The school offers a wide range of courses at the college prep, honors, and International Baccalaureate (IB) levels. Implemented in 1985, the International Baccalaureate program is geared towards knowledgeable and caring students who are motivated to succeed in a well-rounded

interdisciplinary curriculum, which leads to IB certificates or the IB diploma.

Students take eight courses in each of the school's three terms. Our block schedule classes are ninety minutes long. We encourage every student to study at least one IB course.

### STEAM (Science, Technology, Engineering, Arts and Math in the Classroom)

One-to-one iPad deployment provides a tremendous blending of cutting-edge classroom technology with best educational practice. MPS faculty receives extensive ongoing training in the use of iPads. Faculty and students are supported by a full-time technology expert and coach. iPad integration occurs across the curriculum.

### Creative Arts

The school offers 49 courses in the performing and visual arts taught by a faculty of active award-winning artists. Students exhibit and perform year-round in the school's nationally recognized musical theater, dance and choral groups.

### Collaboration with Mercyhurst University

Academically advanced students may begin college course work or pursue a subject in greater depth at Mercyhurst University. Some students may complete freshman year of college and senior year of high school simultaneously. The two schools are adjoined by a walkway, making each easily accessible to the other.

### Athletics, Activities, and Clubs

A wide variety of extracurricular programs meets the interests of our students and helps them develop time

management skills, hone their ability to prioritize, assume responsibility for learning and social events, and compete in ventures that highlight their talents. Athletic teams include football, soccer, tennis, golf, volleyball, basketball, swimming, softball, cheerleading, baseball, rowing, cross country, track and dance team. MPS teams regularly win district, regional and state titles with a program philosophy that emphasizes dedication, teamwork, and good sportsmanship.

### **Boarding Opportunities**

While 85% of the students are day students, the school also serves 75 international students from countries such as China, Vietnam, Taiwan, India, Brazil, Canada, Mexico, and Russia. A partnership with Pennsylvania International Academy (PIA) provides dormitory housing for international and American students who board full-time as well as weekdays. Visit [piacademy.org](http://piacademy.org) for more information.

### **A small sampling of colleges attended by Mercyhurst Prep grads includes:**

- Alfred University
- Boston College
- Columbia University
- Emerson College
- Georgetown University
- Harvard University
- Ithaca College
- Johns Hopkins University
- Rochester Institute of Technology
- Sarah Lawrence College
- University of Chicago
- University of Notre Dame

### **Faculty**

60% of our faculty/administration hold postgraduate degrees. The student to faculty ratio is 11:1. Besides in-depth expertise in their specific fields, our faculty embody the Mercy charism, an attribute that makes them unique and exceedingly qualified to work with teens. Many teachers travel extensively during breaks and summer vacation, bringing an international mindset to instruction.

### **Admissions Policy**

MPS admits students of any race, creed, color, or national origin without discrimination. When any student applies

for admission, every effort is made to determine whether the school offers an educational program which will allow that student to develop intellectually, socially, spiritually, emotionally, and physically.

### **Recent Renovations:**

#### **Vorsheck Library and Research Center**

Our newly transformed Library and Research Center enables our students to be miles ahead of the secondary standard in scholarly research and state-of-the-art technologies.

#### **Hirt DREAM Labs**

##### **Design-Research-Engineering-Arts-Math**

This innovative space facilitates creative endeavors with a combination of CADD (computer-aided design and drafting), 3-D design, and hands-on learning. We recently added “zSpace,” an educational solution that creates the ultimate learning experience by combining Augmented Reality (AR) with Virtual Reality (VR). The DREAM Labs encourage technological experimentation, while supporting studies in English, graphics, robotics and self-directed learning across the curriculum.

#### **Performing Arts Center (PAC)**

Our newly renovated PAC boasts a cutting-edge flying system, acoustics, lighting, and climate control. These improvements will help prepare our students for the creative endeavors of a 21st century actor, dancer, vocalist, musician, lighting designer and technician.

Mott Hall Science and Technology Academy is a rigorous math, science, and technology focused middle school that offers families the opportunity for their children to meet the highest academic expectations and standards, to make smooth transitions to selective high schools, to compete successfully for admission to top public and private colleges and to succeed as a global citizen. Our school culture is characterized by a shared vision for academic excellence, the healthy personal growth of all students, and a commitment to our strong belief that all students can and will succeed in their endeavors.

At Mott Hall, students, faculty, and staff members have a shared vision of each individual's ability to achieve personal success each day as preparation to become active members of our global society. The journey our students embark on when they enter our doors is marked by continuous support and guidance academically, emotionally, and physically, to ensure the holistic development of our young people. They enter a community that embraces them while challenging them.

Instruction in our school is rooted in collaboration and inquiry, which leads to deeper individual understanding of

content and application of this content to real life. To this end, our instruction is rigorous and differentiated for students. Our young people learn to connect content to concepts that ask them to think about ideas in ways that go beyond the classroom. Interdisciplinary learning is used as a tool to reinforce content connections with assessments and questioning that build upon prior knowledge to encourage new discoveries.

Along with strong support in our classrooms, we create a safe learning environment for our students, nurturing and supporting them as they grow. Students are equipped with tools to overcome obstacles they may face and to help them become understanding and respectful of different identities and cultures. To do so, we focus on our school's core values: respect, responsibility, honesty, integrity, compassion, generosity, and fairness, along with the International Baccalaureate learner profile traits. With these tools, our students become life long learners ready to actively participate in the world.

This year, we celebrate a decade of service to our students and families, and we look forward to our continued growth as a community.

www.mulgrave.com

Mulgrave, The International School of Vancouver is a multi-cultural, co-educational International Baccalaureate World School (pre-school to Grade 12) authorised to offer all three IB programmes. Our campus is nestled on the slopes of Cypress Mountain overlooking the Pacific Ocean and downtown Vancouver, and our stunning facility houses students and faculty that are as inspired by each other as they are by the views. We very are proud to attract families from over 41 different countries. Our community is inclusive and welcoming, and we are all committed to developing the interpersonal and intercultural skills, attitudes and values that will allow our students to thrive and be happy no matter where in the world they find themselves. Our graduates go on to post-secondary institutions across the globe; this year, our students have accepted offers that span from UBC and McGill in Canada, to Stanford and UPenn in the United States, and to Durham and the University of St. Andrews in the UK. We know that we can expect them to return as fulfilled alumni excited to share their achievements.

By inspiring excellence – the continuous pursuit of personal best – in education and life, Mulgrave strives to equip lifelong learners to thrive in a culturally diverse and interdependent world and to embrace, with passion and confidence, their responsibility always to do their best to support others and to make a difference by serving their communities, both locally and in the world at large.

Developing growing independence in learning, service, and leadership are inherent to our school's ethos, as is a strong culture of caring and support. Indeed, Mulgrave is highly valued for our positive community spirit and vibrant learning atmosphere. Experienced teachers from around the world provide a comprehensive, appropriately challenging, and personalized IB curriculum to an equally ambitious, diverse, and capable student body.

Mulgrave's strategic plan focuses on the teaching and learning that go on each day and endeavours to make a Mulgrave education even more personalized, enriched with 21st century skills, applied to authentic real world contexts, extended through the offering of an extensive array of varied co-curricular opportunities, and international. The school's commitment to athletics, service, outdoor education, arts and leadership provide ample opportunity for students to find and develop their unique passions. The personalized aspect of our education provides students with the chance to discover the extent of their potential.

Mulgrave is proud to be an accredited member of the Council of International Schools (CIS), the Independent Schools Association of British Columbia (ISABC), Canadian Accredited Independent Schools (CAIS), and is authorized by the International Baccalaureate Organization as an IB Continuum School. For more information, please visit [www.mulgrave.com](http://www.mulgrave.com).

Navajo Preparatory School is the only authorized IB World School that serves primarily Native American students. We are a college-preparatory school for Native Americans and non-Native American students who desire to pursue higher education. Navajo Preparatory School recruits some of the best and brightest students of the Navajo Nation. The school offers students a challenging, innovative curriculum. In harmony with the past, it steepens the youth in a deep appreciation of the Navajo language, culture, and history. Forging ahead, students engage in STEM and writing through history and modern poetry. Armed with this impressive, balanced education, students graduate with the skills to succeed in college and an understanding of the world around them. Over 95% of our graduates are accepted into college.

The International Baccalaureate Programme is an integral part of Navajo Preparatory School and aims to:

- To develop inquisitive, compassionate life-long learners and leaders through a challenging curriculum of international education and assessment.

- To promote a strong foundation of Navajo Philosophy and holistic world view that fosters intercultural understanding and respect in a global society.
- The mission is reflected in the IB Learner Profile and the School's motto:

**“Yideeskaago Naat'áanii – Leaders Now and Into the Future”**

We employ the Navajo philosophy of learning Nitsáhákees (East-White) – Thinking, Nahat'á (South-Blue) – Planning, Iná (West-Yellow) – Action, Sihasin (North-Black) – Reflection to guide our educational curriculum and Navajo Prep mindset.

Students participate in numerous Gifted & Talented programs, Student Senate, clubs, and interscholastic sports such as football, volleyball, basketball, baseball, softball, golf, cross country and track. Students also have opportunities for community service. Navajo Prep strides itself on a balanced student to prepare them for international experiences.

**Lifelong Learners and Active Global Citizens**

New Hampton School is an independent, coeducational, college preparatory school for boarding and day students, grades 9 through 12 and postgraduate. Nestled in the foothills of New Hampshire's White Mountains and in the heart of the beautiful Lakes Region, yet just 90 minutes from Boston, Massachusetts, the 350-acre campus features six contemporary classroom buildings, including the state-of-the-art Pilalas Center for Math and Science and the newly restored Meservey Hall. There are 13 dormitories, varying in size, each with resident dorm parents/family and exceptional athletics and arts facilities.

Our school, which has a mission to cultivate lifelong learners who will serve as active global citizens, is an inclusive community of students who develop an appreciation for difference, openness to others, and a unique world view.

The student body includes representation from 28 states and 30 different countries. Twenty-five percent of New Hampton students are international. New Hampton routinely sends its students to top colleges and universities including the University of Michigan, Princeton University, Cornell University, Williams College, Dartmouth College, UCLA, and University of Chicago.

New Hampton School is considered a leader in technology

integration, featuring a 1:1 iPad Program, and has been an Apple Distinguished School since 2012. Exceptional use of technology by teachers and students prepares graduates for today's world. At the same time, the school's two core values – respect and responsibility – ground the community.

Our school is proud of a strong athletic program and a variety of arts offerings. International Baccalaureate classes begin in the eleventh grade and can be taken as part of the full Diploma Programme or as certificate courses. The IB philosophy pervades the curriculum, and ninth and tenth graders are prepared to embrace its challenges. Equally prominent is the school's commitment to the delivery of durable skills using relevant content with emphasis on experiential education, habits of mind and career internships and partnerships. The average class size is 11, and the breadth of academic offerings ranges from university rigor to support, from the IB Diploma Programme, honors courses, and independent study to tutorials and International Support classes that accommodate individual methods and pace of learning.

Weekend activities on and off campus include dances, dinner trips, shopping, hikes, concerts, and day trips to Boston. The school's dining hall has been recognized for its outstanding cuisine.

www.neworientalgroup.org

Beijing New Oriental Training Inc. / NOIC Academy represents New Oriental Education & Technology Group China (New York Stock Exchange: EDU) in Ontario, Canada. New Oriental Education & Technology Group is the largest provider of private educational services in China. As of May 31, 2017, the Group had a network of 77 schools, 855 learning centers, 20 bookstores and access to a nationwide network of online and offline bookstores through 170 third-party distributors and over 22,000 teachers in 65 cities, as well as an online network with approximately 17 million registered users. New Oriental was listed on the New York Stock Exchange on September 7th, 2006, a first for a private education company in China.

NOIC Academy, located in Toronto, is a private secondary school inspected by the Ontario Ministry of Education. The college currently has one boarding and two educational facilities. We provide university preparation courses to international students, as well as the opportunity to earn an Ontario Secondary School Diploma. We became an International Baccalaureate (IB) Diploma Programme school in March 2015 and the year of 2017 saw the first IB graduate from NOIC Academy. The annual university enrolment rate of NOIC Academy is 100% and more than 80% of graduates are admitted by the University of Toronto and other top ranked universities. The College also provides international students

with TOEFL, IELTS, SAT, and integrated English language instruction.

NOIC Academy students have competed in a variety of academic competitions. For instance, in the 2013 Euclid Mathematics Contest, the overall performance of NOIC Academy candidates ranked 21st among 1200 participating schools in Canada, 15th in the province of Ontario and 3rd in the district where the school is located. Also, we are one of the first schools in the world to develop and use an educational mobile application, iEdu, to facilitate the flow of information among students, parents, teachers, mentors, and the school administration.

The mission of NOIC Academy is to inspire students to improve their lives and expand their horizons through a lifelong commitment to learning, by empowering students to achieve their academic potential, to build self-confidence, and to develop a global vision which embraces cultural differences and promotes cultural exchanges. NOIC Academy is committed to educating a new generation of business and community leaders with international visions. At the same time, we strive to connect our education with rich Chinese history and tradition while fostering open-mindedness, creativity, and critical thinking in our students.

*Together with Islands International School and Southern International School.*

Northern International School opened its doors in 1997 in a site of 8 hectares in Pilar.

Its founder, Prof. Estela María Irrera de Pallaro, has as an aim to offer a demanding educational quality for families looking for a better lifestyle for their children. With the benefits that contact with nature offers, Northern International School develops all its regular activities in a bright and cheerful environment.

The International Baccalaureate, of which we have been members since 1997, is key in this institution; that is why teachers and heads are trained regularly.

The school has all the facilities needed to comply with this modern and demanding programme: science and IT labs, a library for research, a multi-purpose hall as well as comfortable and bright classrooms.

Our three schools have fully equipped laboratories for the experimental sciences; they are an essential facility for classes in Physics, Chemistry and Biology. Our laboratory provisions are not only for demonstration classes but also for students to become personally acquainted with different research techniques and apply them in practice in experiments ranging from the simple to the more complex.

Our students learn to handle laboratory materials safely and efficiently and make full use of them in different pieces of research.

At primary level, research projects include: photosynthesis, animal nutrition, the ill effects of tobacco, analysis of animal movements, electrical resistance, the structure of materials, magnetism, the human body, heat energy, ecosystems, soil, water, cells, life process in vegetables and diet in humans.

At secondary level, research projects include: coefficients of contact, genetics, physical and chemical properties of hydrocarbons, evolutionary theory, population growth, biodiversity, pollution of the environment, ecosystems, and health and human physiology.

Year after year, our students take part in different events and competitions, among these Physics and Biology Olympiads, science fairs organized by ESSARP (English Speaking Scholastic Association of the River Plate), local representative of the University of Cambridge, and Mathematics Olympiads organized by OMA (Argentine Mathematics Olympiads). In recent years the schools have taken part in the worldwide NASA projects and one of our schools has on three occasions won the regional competition and taken part in the world finals in Houston in the United States.

NORTHLANDS is a coeducational, bilingual IB World School that, through caring and innovative teaching, educates young people to the full extent of their individual potential. It is a school that values its Anglo-Argentine roots, while respecting all cultures, religions and nationalities. It offers an all-encompassing friendly environment reflected in its motto: Friendship & Service.

We aim to strengthen our position as leaders in education and innovation by achieving outstanding international examination results, obtaining international credits, focusing on state-of-the-art technology, expanding our Education for Sustainable Development Projects, instilling a culture of healthy lifestyle choices, developing our campuses to meet the needs of our highly demanding programmes, and continuing to develop a closely knit community influenced by the diversity of our families.

**Kindergarten Education**

An all-embracing curriculum that works on physical, social, emotional, intellectual, ethic and aesthetic aspects through teaching and learning strategies focused on encouraging curiosity and the desire to know in children.

**Primary Education**

Our integral curriculum based on inquiry and research as the ideal vehicles for learning. We provide a caring and stimulating environment where children enjoy doing their work and develop positive academic and interpersonal attitudes, self-confidence and self-discipline.

**Secondary Education**

During this phase students develop critical thinking skills, creativity and autonomy. Individual talents and personal interests are nurtured so that students can make satisfactory career choices at the end of their school life.

**Physical Education as an integral part of education**

Our students participate in interhouse, national and international inter-school events which promote team spirit and healthy competition.

We understand that wellbeing is acquired through physical, mental and emotional balance and encourage our students to make healthy lifestyle choices.

**Visual & Performing Arts**

In Art classes at NORTHLANDS, we stimulate our students to find alternative and different ways in which to express themselves.

The initial learning process is based on games to learn and experiment different disciplines. As students mature, they have the opportunity to explore visual arts, music and drama through a variety of techniques, instruments and cultures.

**D-Learning Model 1:1**

We implement a 1:1 model from Year 2 to Year 12. The aim is to improve the way they learn, making responsible use of 21 Century digital technologies.

#### **Robotics Ed Tech Programme**

Students have the opportunity to develop skills in construction, design, programming and start-up of robots, while learning logical processes.

#### **Personal & Social Education Programme**

This is a central part of the comprehensive education and through a well-defined programme, our students develop integrity based on high moral standards enabling them to freely choose what is right.

#### **Spanish Immersion**

We offer the teaching of Spanish language according to the needs of each student. Emphasis is placed on the child's ability to communicate and self-confidence.

#### **Peer Friend Programme**

Designed to accompany children when they join our School, and associate new pupils and their families with the NORTHLANDS community so that they can start the new School year with confidence and make their social integration a smooth process.

#### **Global Citizenship**

We appreciate the richness of diversity and promote international mindedness. Currently around 11% of our families coming from 18 countries in our Olivos site are international, and 19% coming from 28 countries in Nordelta

As the first all-girls school in Massachusetts, established in 1853, Notre Dame Academy continues to deliver a unique student experience. It has a rich heritage focused on the simple goal of developing young women of faith, character and scholarship through a dynamic college preparatory environment. The Sisters of Notre Dame de Namur aim to equip students with whatever is necessary for life which is evident today on the Hingham campus, home to over 435 students in grades 7-12. Students come from more than 30 communities and NDA welcomes students from China, Germany, Spain, Switzerland, and the United Kingdom.

**Academics**

The IB DP at NDA fosters risk-taking and nurtures curiosity. The IB Learner Profile is a powerful force for developing confident women. It requires students to embrace the world beyond their community and their borders, encouraging social responsibility on behalf of global justice, a key attribute of the school's mission.

**Athletics**

A community that stresses character above winning at any cost defines NDA athletics. It is a highly successful and regionally recognized program, a key part of over 80% of the student body's experience. A staff of over 50 coaches supervise interscholastic teams in 18 sports and 35 levels.

NDA is proud of recent achievements including 33 state championships, multiple league and conference titles and Coach of the Year awards.

**Co-Curricular**

Student life at NDA extends beyond the classroom. NDA empowers students to become bold and thoughtful artists. In Visual Arts, students create work that challenges them to problem-solve. Music students showcase their talents to the entire school community through concerts and musicals. Thespians at NDA perform in three fully-staged productions.

**Global Immersion**

An integral part of the Notre Dame Academy experience is service to others. Students travel as far as Tanzania and Costa Rica or as near as Boston. The Academy believes that reflecting upon service is a life skill. Students are encouraged to examine their choices and decisions in the light of their faith and consider their influence on the global community. Faculty and staff believe it is their goal to help the young girls graduate as confident and compassionate women who are ready to impress the world.

For more information about Notre Dame Academy, please contact the Admissions Office at 1 (781) 749-5930 or [admissions@ndahingham.com](mailto:admissions@ndahingham.com).

Notre Dame Academy is accredited by the New England Association of Schools and Colleges.

[orangewood.wcusd.org](http://orangewood.wcusd.org)

Reflecting Southern California's rich, multicultural heritage, Orangewood Elementary is a multi-ethnic, TK-5th Grade learning community located twenty miles east of downtown Los Angeles in the San Gabriel Valley city of West Covina. Recognizing the power and potential of the IB curriculum frameworks to reinvigorate public education, West Covina Unified School District has embarked on the ambitious goal of creating a TK-12th grade continuum of IB learning. In July 2017, Orangewood Elementary earned recognition as an IB World School, creating the foundation for a district pathway of IB schools.

Students who read, write, think and communicate in two languages will be best prepared for college and career and well-positioned to compete in a global economy. Although all students at Orangewood study Spanish as an additional language, a Dual Immersion Pathway is available, providing instruction in both Spanish and English with the goal of cultivating bi-literate learners. Students who continue their language studies beyond elementary school are eligible to earn the California Seal of Biliteracy for their high school diploma.

As part of Orangewood's commitment to providing a well-rounded curriculum, we incorporate technology and the arts to support our transdisciplinary units of inquiry.

Striving to enhance learning through 21st century skills, we introduce the use of 1:1 tech devices beginning with iPads in kindergarten and moving up to Chromebooks in second grade. Coding and robotics are studied by all students, serving as an early bridge to our district Career Technical Education pathway. Additionally, beginning in TK, weekly dance lessons provide the opportunity for all students to explore, study and perform dance throughout their education.

Ultimately, the strength of Orangewood Elementary lies in our wholehearted approach to creating a principled, caring community that honors the uniqueness of each child. In 2018, Orangewood's commitment to kindness was validated with national distinction as a Capturing Kids' Hearts National Showcase School. The enthusiastic involvement of our families and the promotion of student action are evident in our grade level "IB Scholar Spotlights" and the numerous collaborative projects undertaken in our Learning Garden and the broader community.

**Mission Statement:**

"Orangewood Elementary is dedicated in developing globally-minded problem solvers. We enhance learning by inspiring students to inquire through transdisciplinary units, while empowering them to take action using the attributes of the Learner Profile."

**Introduction**

Pearson College UWC was created in honor of Nobel Peace Prize Laureate Lester B. Pearson, a former prime minister of Canada, whose vision of peace and global cooperation inspired the founders of the school.

**Inside the Classroom**

Pearson College UWC offers the International Baccalaureate Diploma Programme. Alongside standard courses, students can take Philosophy, Marine Science, French, Spanish, Visual Arts and Theatre.

**Outside the Classroom**

At Pearson College UWC, students learn by doing, particularly through the Creativity, Activity, Service program and community service. Once per term, students plan, design and carry out individualized or small group projects.

Students share international music, dance and stories of their homelands and their international experiences at the annual One World community event. They also lead and participate in regular community events such as Global Affairs, Regional Days, Village Gatherings and can volunteer for the campus Emergency Response Team. Weekly student-led fitness programs supplement daily fitness opportunities.

The College's unique geographic and spiritual environment (located on the mild west coast of Canada on the unceded

territory of the Scia'new First Nation) encourages students to undertake challenging academic and experiential learning in both modern classrooms and outdoors year-round.

Pearson College UWC also acts as the ecoguardian for the world-renowned Race Rocks Ecological Reserve. Students learn through marine sciences courses, diving activity and volunteering. Additionally, each summer, the College brings together youth from around the world for the Pearson Seminar on Youth Leadership short course.

**Campus and Facilities**

Students, as well as many faculty members and their families, live together on campus. Facilities include five student residence buildings accommodating 40 students, four in each room, plus a House Parent apartment. The facilities are built in a West Coast modern style designed to reflect the natural setting and include a waterfront dining hall, state-of-the-art science labs, a 300-seat theatre, visual arts and sports facilities, a Library and a Spiritual Centre. Unique architectural features include a floating marine sciences that features an environmental systems lab as well as a nearby hilltop observatory.

**Admissions**

Students can apply through their UWC national committee or through the UWC Global Selection Programme.

Pueri Domus is proud to be a school that was born with the future in mind and the students at its heart. By using a learner-centred approach and active learning methodologies, Pueri Domus helps students to become leaders of their own learning. The school is recognized for its focus on using technology during the learning process. International recognition of this commitment came when Apple awarded the school the “Apple Distinguished Program”, a worldwide program that acknowledges pioneering and outstanding initiatives which use technology to further transformative education. Bilingual education is education for the 21st century and technology is an essential pillar of any forward-looking education. Therefore, Coding and STEM are integral parts of the curriculum from Year 2 onwards.

Starting in the earliest years of Preschool, ethical values and social-emotional skills are part of the curriculum developed through practical structured activities within the ConViver Program. The objectives of this program are to foster students’ self-knowledge and personal

maturity, stimulate initiative and creativity, encourage leadership, and develop citizenship. As a Unesco Associated School, we also promote the students’ commitment to Sustainable Development Goals by equipping them with social entrepreneurship skills and active participation in community service.

Pueri Domus’s bilingual Portuguese-English program develops the students’ language skills by ensuring real-life contexts to acquire, develop and consolidate Thinking Skills in both languages. English is taught not only in traditional Language Arts classes but through Logical Reasoning, Social Sciences and Natural Science classes, all of which are structured to enhance the understanding of information and concepts taught within our integrated bilingual curriculum. The holistic bilingual education offered at Pueri Domus expands students’ opportunities to move on to university and college courses outside of Brazil. This culminates in the International Baccalaureate Diploma Programme on the Verbo Divino campus.

As Canada's leader in positive education, Ridley College is focused on educating the whole child and providing them with the tools that will help them lead flourishing lives.

Founded in 1889, Ridley is a coeducational boarding and day school located on a beautiful 90-acre campus in St. Catharines, Ontario. An hour drive from Toronto and ten minutes from breathtaking Niagara Falls, the Ridley campus is easily accessible from both Toronto Pearson International Airport and Buffalo Niagara International Airport. Students range from JK through Grade 12 and come from 60 countries worldwide. With over 375 boarders, Ridley has the largest CAIS boarding programme in Ontario and is one of Canada's oldest and most prestigious boarding schools.

"World Prep" is what you find here: a forward-looking and rigorous programme that prepares students for a university education and a promising future. Ridley is one of only three International Baccalaureate (IB) continuum boarding schools in North America, offering the Primary Years Programme, Middle Years Programme, and Diploma Programme. In addition to the IB Programme, Ridley offers the Ontario Secondary School Diploma and a wide range of

summer programmes, including our EAL credit course. Ridley graduates go on to study at some of the top colleges and universities in Canada, the United States and internationally, and are equipped with knowledge and skills for success.

Beyond academics, students experience a diverse co-curricular programme in the arts, athletics, leadership and, most importantly, community service. For over 129 years, Ridley College has held true to its motto, Terar Dum Prosim, or "May I be consumed in service." Opportunities abound for participation in Creativity, Activity, and Service activities year-round and for students to explore new interests, cultivate their passions, and be challenged to reach their potential.

One of the defining features of Ridley is the traditional House system, which integrates both boarding and day students into 10 boarding houses on campus, each with its own unique identity and sense of community. By incorporating our local day students into the boarding programme, Ridley provides students with a perfect balance of global cultures and a uniquely Canadian experience.

Santiago College is a bilingual, independent, co-educational day school, founded as a non-sectarian institution in 1880 with support from the US Methodist Church.

The educational programme at Santiago College meets the requirements of the Chilean Ministry of Education and is authorized to offer three of the IB Programmes: PYP, MYP and DP. Santiago College is accredited by CIS and NEASC.

Students normally enter Santiago College at PK level and stay until they graduate from 12th Grade. The students are mainly Chilean, but a considerable number of students come from other countries and priority admission is given to overseas applicants. Approximately 90% of the graduating class enters Chilean universities and the remainder pursues studies in the USA or Europe. The school operates a 180-day

minimum calendar starting in early March and ending in mid-December. PK and kindergarten children have a half-day schedule. All other grades have a full school day beginning at 7:55am and ending at 3:35pm. The school campus of 11 hectares is located in Lo Barnechea, 30 minutes drive from the city centre. Facilities include a library of 40,000 volumes, 98 classrooms, AV rooms, an auditorium, gymnasium, playing fields, science labs and computing labs, music and art studios and one cafeteria. Students applying for admission to PK must be four years old by December 31st of the year prior to school entry. Santiago College accepts students without regard to gender, colour, creed, or ethnic, nationality or social origin. The selection process includes an interview with prospective students and their parents.

## Empowering indigenous identity to become a community of global thinkers

Set in the beautiful Okanagan Valley of British Columbia Canada, Senpokchin School is a small independent, First Nations school on-reserve open to all. We provide quality education for children between the ages of 4 and 12 years old. Our School belongs to the Nk'mip people who are one of 7 Bands within the traditional lands of the Okanagan Nation. We are proud to be the first on-reserve authorized Primary Years IB World School in the North Americas. We believe that being part of IBO will help shift the stereotypes that exist within the country regarding First Nations education and that indigenous knowledge can be shared globally.

Our school is built on the foundation of indigenous knowledge (nsyilxcen) and the identity of the sqilxw people (Okanagan First Nations). Our mission is to explore our interconnectedness to the land locally and globally with a focus on sustainability of the tmxwulxw (Earth). Our students participate in annual cultural experiences on the land. Through these hands-on learning experiences

and the cultural captikwl stories, students compare the traditional beliefs and values of the Okanagan Nation and find similarities to other cultures around the world – past and present.

The Okanagan Valley is known for its agricultural land use. Our school is fortunate to have a 100 square metres of fenced garden space where the students are able to participate in a variety of learning experiences including planting, harvesting, and gathering of eggs for our lunch and breakfast programs. Students are able to have experiences that connect indigenous ways of knowing to current farming practices like planting using the 'Three Sisters' way of companion planting.

Our second language is the nsyilxcen (Okanagan) which is the traditional language of the people. Much of the culture is embedded within the language. Many of the elders believe that if the language dies, a large piece of the culture will die with it. We are at a critical tipping point for ensuring that this language is not lost for future generations.

The Sir John A Cumber Primary School (SJACPS) is situated in the district of West Bay in the beautiful Cayman Islands. The Cayman Islands are a British Overseas territory made up of three islands with a total of 264 square kilometers (102 square miles). The islands are south-west of Cuba and north-west of Jamaica with a population of over 60, 000. The school employs educators and specialists from diverse cultures ranging from the Caribbean, Europe, North America, Africa and Central America. It is the largest public primary school on the island with more than half of the student population being Caymanian. Spanish is taught as a second language. Several of the students have a Spanish heritage and are from neighbouring Spanish countries mainly Honduras and Cuba. It offers a range of disciplines including a rich music, ICT and Physical Education Programme. The school has a strong and vibrant community partnership.

The school's mission is to produce competent, responsible, independent, lifelong learners prepared for secondary education using a comprehensive curriculum presented in a stimulating manner by motivated and dedicated teachers, in partnership with cooperative parents and a supportive community. It also aims to provide quality education

recognizing that each child is special and has individual needs and abilities. To achieve this we:

- Provide a happy, secure, and stimulating environment in which children can fully develop their potential
- Provide a high standard of education that promotes quality learning
- Promote a positive attitude towards learning so that everyone can strive for excellence in all they do
- Encourage children to develop a good self-image, self-confidence, and self-motivation in order that they become mature, responsible and independent, respecting the rights of others
- Provide equal opportunity for all regardless of gender, cultural background, academic or physical ability or religious belief
- Promote a close partnership with parents and the community, in order for parents to recognize their role as educators and our ability to draw from and contribute to the community
- Monitor and review all aspects of school life to ensure continuous improvement and growth.

*Working together with Islands International School and Northern International School.*

**A community committed to education**

In 1999 Mrs. Estela María Irrera de Pallaro, backed up and encouraged by her experience in founding and developing a comprehensive educational project, creates a new school with the aim of improving the institution objectives in a place where families can not only find peace and privacy but also a space in contact with nature.

The school mission is to teach students to interact and adapt to a complex social environment in which they need numerous tools to be able to succeed, accompanied by a teaching staff permanently trained. For this purpose, with a history of more than three decades, the school provides a demanding education that not only abides by academic aspects but expects to educate upright people as well.

Southern International School develops the students'

capacities through different activities so that they can interact with full independence and freedom in today's society.

**International Baccalaureate Programme**

International Schools want their students to complete their studies hand in hand with this organization. Born in Geneva, Switzerland, these programmes, which demand a strong commitment from teachers and heads, are worldwide recognized by their excellent quality.

To belong to or to be a member of this organization implies meeting certain requirements such as having fully equipped experimental sciences laboratories, where the students acquire and handle different research techniques in order to apply them in class in a practical manner, which will help them achieve a better understanding of all kinds of topics, easy or complex.

**To Learn, Lead, and Succeed**

Southpointe Academy cultivates engaged, well-rounded citizens poised to thrive in their pursuit of post-secondary education and primed to achieve their full potential. Located in sunny Tsawwassen, 30 minutes from Vancouver, overlooking both farmland and the ocean, the School is a non-denominational institution offering a co-educational, university-preparatory program for students in Kindergarten to Grade 12.

We offer the International Baccalaureate (IB) Primary Years Programme (PYP) and are an IB Middle Years Programme (MYP) candidate school. The College Board's Advanced Placement (AP) Program, including the AP Capstone Diploma, is offered to students in Grades 10-12, preparing them for selective post-secondary institutions.

Our mission is to involve, instruct, and inspire our students to learn, lead and succeed. We aim to develop outstanding citizens who are intellectually engaged, intrinsically motivated, and globally responsible. Our balanced approach produces confident, well-rounded graduates, who are creative, independent thinkers and communicators. Our shared values of kindness, integrity, perseverance, respect and responsibility reflect our goal to be people of character and substance.

The Southpointe student body represents a diverse community of learners that come from the greater Vancouver area and across the globe.

Our well qualified faculty, many of whom have taught internationally, continue to build a globally focused educational environment where students are inspired to learn for a lifetime. After graduating from Southpointe, 100% of the students are accepted to top universities in Canada, the United States and around the world.

Southpointe students make meaningful connections locally and globally, learning additional languages in order to communicate more effectively. Emphasis is placed on teaching 21st century skills and engaging students in authentic inquiry into the world around them. At Southpointe, we encourage our students to actively involve themselves in all facets of school life: to cultivate their passions, to pursue their interests, and to build upon their strengths.

Southpointe offers a wide array of activities beyond the classroom to ensure a well-rounded experience for each of our students. A complement to our academic and physical education curriculum, our Athletics Program develops character, leadership, and interpersonal skills through student participation in a wide variety of sports. As participants in an acclaimed Arts Program, Southpointe students demonstrate creativity, dedication, and the ability to effectively collaborate with their peers. The School provides outlets for inventive thinking, allowing our students to push the bounds of their imagination.

### Mission Statement

St. Francis College is an international school which strives for excellence providing a warm and friendly community committed to the IB Philosophy. We offer a challenging educational programme with rigorous assessment through inquiry-based instruction.

We empower pupils to be passionate lifelong learners, achieve academic and personal excellence and be committed to impact the world positively.

### Curriculum

The international curriculum offered is taught in English. The formal curriculum is guided by the Brazilian and British National Curriculum and the IB Programmes. A broad approach of concept-based learning encompasses the humanities, arts, sciences, mathematics, and information technology. An important element in the curriculum are the Portuguese language subjects, which include Brazilian literature, Portuguese language as well as the history and geography of Brazil. The College provides pupils with academic challenge and key life skills in a flexible and transdisciplinary programme. Throughout the primary school we offer the IB PYP, in the secondary school we offer the IB MYP and the IB DP in the last two years. IGCSE exams

are taken in the main subjects in MYP 5. Pupils will conclude their secondary education having also obtained their Brazilian studies diploma.

A wide range of physical activities and sports is offered to students as well as outstanding programmes in visual arts, drama and music, from Early Years throughout Secondary Years.

Once our students graduate from St. Francis they go on to both Brazilian and international universities and continue to excel academically, personally and professionally.

### Extracurricular activities

Extracurricular activities offered include football, basketball, Volleyball, dance, skateboarding, martial arts, cooking, drama, music, arts.

### Entry Requirements

Application to the college should be done through the Admissions Office at: admissions@stfrancis.com.br or +55 11 3728 8055/56.

Evaluations and interviews are held in October and March for acceptances during the next semester. Previous school reports, confidential references and IGCSE results (if applicable) are taken into account.

St. John's – Kilmarnock School (SJK) is the leading co-educational independent school in the Waterloo and surrounding region. Established in 1972, the School is located on a beautiful 36-acre natural campus. We offer enriched educational programming for students from JK – Grade 12 through our accredited International Baccalaureate (IB) curriculum. Our diverse community, of approximately 400 learners includes 40 international students with a student/teacher ratio of 15:1.

At SJK, students exceed expectations in an environment where they are engaged, understood and supported. Students learn through inquiry-based instruction where they are encouraged to reach their fullest potential. The quality of contextual learning is one of the aspects that make SJK and the IB education powerful and distinct.

Our specialized teachers utilize innovative approaches to learning and collaborating, in technology-rich environments, preparing our students for their post-secondary studies and lifelong learning. We are committed to equipping our students with a new kind of thinking in local and global contexts.

A dynamic and diverse co-curricular program helps develop the whole child and extends learning beyond the School's gates. The community has the opportunity to try new things, discover passions and learn the value of different perspectives and cultures.

Travelling abroad with the Five Worlds Program, experiential learning and service projects enrich the learning experience realized through the global classroom.

In addition to having authorization to deliver the PYP, MYP and DP programmes, SJK is also accredited by the Ontario Ministry of Education and the Canadian Accredited Independent Schools (CAIS), and is a member of the Conference of Independent Schools of Ontario (CIS).

At SJK students find their excellence within, love to learn, and graduate as confident, well-rounded individuals, fully prepared for post-secondary education and life beyond.

St. Timothy's is a private, all-girls boarding and day school for students in grades 9-12, offering the International Baccalaureate Diploma Programme (DP) and Middle Years Programme (MYP). Our goal is to prepare students for lives of meaning and consequence by providing a comprehensive and flexible academic program in a supportive, richly resourced and beautiful setting.

The School's residential structure enables faculty to support students in their personal, social and intellectual development. Boarding and day students – as well as our parents, alumnae and friends – appreciate the individual attention, the community atmosphere, the spiritual richness and the high standards that characterize the St. Timothy's experience. The academic program fosters excellence in all disciplines within the liberal arts tradition. Faculty members guide students in mastering skills, acquiring knowledge, and thinking critically, creatively and independently. The School strives to help girls achieve their potential not only

intellectually, but also artistically, athletically and morally, so that they may lead responsible and fulfilling lives.

St. Timothy's School is committed to establishing a community that encourages people of diverse backgrounds and beliefs to understand and respect one another and to be sensitive to differences. In its programs, the School seeks to promote a balance of leadership, cooperation and service, together with a deeper awareness of the global community and the natural world. Each member of our tight-knit community has special talents and gifts that help fulfill the mission of the School.

To begin the application process or for more information about St. Timothy's School, contact the Admissions Office at +1 410 486 7401 or [admis@stt.org](mailto:admis@stt.org). The Admissions Office can help you schedule a campus tour and your personal interview, and staff can arrange additional meetings with faculty, coaches and administrators.

St. Paul's School was founded in 1926 and was the first British School in São Paulo. Fully coeducational, with approximately 1,000 pupils, aged from 3 to 18, it is a school with history and tradition, but which embraces innovation, contemporary values and technological developments. We offer a British curriculum, including the International Primary Curriculum (IPC) and courses up to IGCSE and the International Baccalaureate Diploma. At IB the following subjects are taught in the Sixth Form (and offered as standard and higher levels): English, Portuguese, Spanish, French, mathematics, mathematical studies, physics, chemistry, biology, Brazilian social studies, computer science, environmental systems and societies, geography, history, economics, business management, theatre, visual arts, and music.

The school prides itself on an excellent enrichment programme ranging from MUN to Duke of Edinburgh, from knitting classes to a robotics programme, from mathematical olympiads to outstanding drama and music. Field trips also form an integral part of the curriculum with every year group from the age of 8 years old going on residential visits throughout Brazil and beyond.

We prepare our pupils within a bilingual and bicultural Anglo-Brazilian community for a global future. We offer

a broad and balanced but rigorous curriculum where the individual pupil is at the heart of the teaching and learning. It is our aim to discover the passion and talents of every pupil, and create the right environment to develop these. Pupils leave us confident, assured and well prepared for an exciting life, and a multitude of opportunities, often at top universities.

We are a world-class school; a member of HMC, COBIS and LAHC, and the first officially accredited British School Overseas in South America. We are proud of our local, national and international reputation and we constantly strive to improve the opportunities for our pupils and staff.

The school has undertaken an almost continuous programme of building works over the past 20 years as it has gradually grown; this includes extensive refurbishment and extension of the original school building, the creation of a sixth form centre and a multimillion dollar underground state of the art sports centre. In 2018, we were awarded as a Microsoft Showcase School in recognition for our excellence in transforming and enhancing our physical and online learning environment to deliver more personalised education to our pupils.

Stratford Hall is an independent, co-educational, nondenominational, university preparatory day school with a student population of 533 ranging from Kindergarten to Grade 12. Our location in a vibrant, urban setting in East Vancouver, British Columbia reflects our diverse community of students. Through the continuum of International Baccalaureate (IB) programmes, the Primary Years Programme (Kindergarten – Grade 5), Middle Years Programme (Grades 6 – 10) and Diploma Programme (Grades 11 & 12) the School provides a level of individual challenge and academic rigour beyond the norm. Equally important is our commitment to the IB Learner Profile as a guide fostering international-mindedness in students and adults alike.

At Stratford Hall, your child will be given the opportunity to learn and to thrive; to discover their unique strengths, and to explore the diverse opportunities our rapidly changing world offers. Under the care and guidance of Stratford Hall staff, they will grow and mature, while equipping themselves with intellectual tools, strength of character, and a global perspective.

Stratford Hall is a not-for-profit school operating under the authority of the Ministry of Education of British Columbia.

**Our Mission**

Stratford Hall educates students to the highest global standards through the programmes of the International Baccalaureate. Excellence and confidence are developed through a challenging academic curriculum with further emphasis on creativity, action and service. We foster a strong pluralistic community built on integrity and respect.

**Our Vision**

Stratford Hall strives to be a global leader in the International Baccalaureate community. Our students will gain a deep understanding of the world around them, and they will act on their connections to the outside community. They will excel to the best of their abilities, and graduates will be equipped to achieve their chosen goals. This is accomplished by acquiring and retaining the best teachers, and by a commitment to a balanced and enriched curriculum. The success of Stratford Hall is deeply rooted in the establishment of a supportive, knowledgeable and committed community.

Stratford Hall is proud to be an accredited member of the Independent Schools Association of British Columbia (ISABC), Canadian Accredited Independent Schools (CAIS), National Association of Independent Schools (NAIS), and is authorized by the International Baccalaureate Organization as an IB Continuum School.

Bilingual and co-educational since 1962, TFS is renowned as Canada’s leading bilingual International Baccalaureate (IB) school, providing an internationally focused education with high academic standards to 1,440 students. Teaching the curricula of France and Ontario through the framework established by the IB programs, we offer our students an education that is rich in academic excellence, diversity and opportunity.

Authorized to offer the PYP, MYP and IB Diploma, TFS is an IB World School and the only full continuum bilingual IB school in Canada.

We welcome boys and girls from age two to university entrance. No prior knowledge of French is required for entry up to and including Grade 7. Thanks to our Introductory Program, we successfully integrate students with no background in French. While 90% of TFS students have little or no knowledge of French when they enrol, they graduate fully bilingual with an international outlook that sets them on a path to a bright future.

TFS’ mission is to develop multilingual, critical thinkers

who celebrate difference, transcend borders and strive for the betterment of humankind.

Our educators come from around the world to teach at either our Toronto or West Campus in Mississauga, and provide a caring and supportive learning environment that encourages students of diverse backgrounds to become individuals who reflect, and citizens who act.

We demonstrate our commitment to the development of the whole child through stimulating academic and co-curricular programs that include recreational and competitive sports, music, visual and dramatic arts.

In addition to being authorized by the IB, TFS is accredited by the Ministry of Education of Ontario, the French Ministry of Education, and Canadian Accredited Independent Schools (CAIS). TFS is also a member of the Conference of Independent Schools of Ontario (CIS), the Council of International Schools, and Agence pour l’enseignement français à l’étranger (AEFE).

The Baldwin School of Puerto Rico, located in the greater San Juan metropolitan area, is the premier independent, PPK-12, college preparatory English language day school in Puerto Rico. It is the first school on the Caribbean island to offer the Primary, Middle and Diploma levels of the International Baccalaureate (IB) program. “Baldwin School has long been an exceptional institution, but IB pushes us further,” says Headmaster James Nelligan. “It ensures that all children are challenged to become creative thinkers, problem solvers and effective communicators. We implemented IB to challenge the vagaries of traditional pedagogy while retaining its strengths, and to foster novel thinking and creative individual and intellectual endeavor.”

At Baldwin School, technology is broadly integrated in the classroom. Students use a range of platforms, applications and web-based software; to research, organize and create content. A fully modern, wireless digital mainframe allows students to leverage the world’s resources and conceive original content. Touchscreen technology supports literacy and numeracy across all grades. Interior and exterior laboratories combine hands-on and digital learning. “Technology is central to the world in which our students live, so we need to take advantage of it to reach them more fully, where their inclinations and needs intersect our learning expectations in an organic and meaningful way,” says Mr. Nelligan.

Baldwin offers a beautiful and spacious twenty-three acre campus, which is also a Certified Wildlife Habitat. Its location means that students can take part in a range of outdoor activities. Spectacular facilities include a swimming pool, tennis courts, field house, outdoor courts, soccer field, and a rainforest biological field station. Indoor facilities include science and computer labs, a performing arts center, a recording studio, multiple art studios, a dance studio, and music rooms.

Baldwin’s student body very much reflects Puerto Rico’s diverse population. Students participate in dozens of co-curricular activities. Athletes compete at mini, youth, junior varsity, and varsity levels. Math, Science and Model United Nations teams also compete at the national level. Campus life includes opportunities to participate in many clubs and organizations, most of which serve the broader community through both service and donations. All of Baldwin’s graduates go on to study at university, mostly abroad, including the United States’ most prestigious colleges and universities.

As Baldwin School marks its 50th anniversary, it remains committed to the belief that every child can flourish if they are given the right combination of time, opportunity, and support.

Originally founded in Coral Gables in 1926, The Biltmore School is one of the oldest schools in Miami Dade County. Our school enjoys a tradition of educational excellence that has provided guidance to children for the past 90 years.

Our Principal, Gina Romero and our Biltmore Staff members are actively involved in the “Project Zero” research initiative, sponsored by Harvard University that promotes creative thinking, encourages children to be self-reliant, and empowers them to think “outside the box” through a challenging curriculum that incorporates instruction that maximizes the multiple intelligences, individual learning styles and modalities. Through participation in ongoing professional development workshops in partnership with Florida International University, our staff, actively explores “Visible Thinking” strategies that promote the highest levels of abstract and critical thinking in children of all ages.

During the 2007-2008 school year our school was awarded

accreditation by AISF (Association of Independent Schools of Florida), SACS (Southern Association of Colleges and Schools) and CASI (Council on Accreditation and School Improvement).

The Biltmore School has also been an IB World School since March 2012 and offers the IB Primary Years Programme and is currently a candidate school for the IB Middle Years Programme.

The Biltmore School believes that students are capable and knowledgeable agents of their learning. We feel that it is the responsibility of the educator to be both the partner and guide in the growth and development of the child. It is through much research and collaboration that our school has embraced and synthesized diverse educational views and practices to best benefit our students.

The Biltmore School offers a comprehensive program for students from age one through eighth grade.

**Website**

www.britishschool.g12.br

Founded in 1924, we are a non-profit, independent and coeducational day school offering a complete and coherent curriculum for pupils of all nationalities from ages 2-18.

The school is an IB World School accredited by the Council of International Schools (CIS). The director is a member of the Latin American Heads Conference (LAHC). The school has approximately 2200 pupils located on three sites. The Zona Sul Unit is split into two sites. The Botafogo Site houses a primary school and the first year of secondary school. The secondary school is based at the Urca Site, close to the Sugar Loaf. The Barra Unit is a full unit located in the Barra suburb. It houses a full school with students from age 2 (Pre-Nursery) to age 18 (Class 11 / Year 13).

We aim to cultivate well-informed, open-minded, confident, caring and enquiring young people who strive to do their best. The emphasis on academic achievement is balanced by our concern to meet our pupils' physical, emotional and social needs and to ensure that they are prepared for active and well balanced citizenship.

English is the language of teaching and learning. From Pre-Nursery to Class 9 the programme broadly follows the IPC – International Primary Curriculum – and the British National Curriculum. Secondary students are prepared for the International General Certificate of Secondary Education (IGCSE) examinations and the International Baccalaureate (IB) Diploma Programme. The school has a history of creditable results in both IGCSE and the IB Diploma Programme and evident success in university entrance worldwide.

Classes are generally small and the school environment

is pleasant, well-resourced and stimulating, with a strong focus on health, safety and security. Performing arts, sports, Model United Nations, Duke of Edinburgh's Award Scheme and work experience provide a wide range of co-curricular opportunities. Experiences beyond the school include numerous local day visits and national or international residential trips for most year groups from primary Class 3 / Year 5 upwards.

Our teachers are well-qualified (some 30% being recruited from overseas) and supported by a robust and effective programme of continuing professional development. The School continually invests in well-qualified staff and their training, curriculum development, resources, technology and infrastructure, including new buildings.

**Extracurricular Activities**

The extracurricular activities offered include football, capoeira, volleyball, basketball, ballet, artistic gymnastics, judo, choir, music (instruments and singing), cooking, drama, arts, robotics, yoga. Depending on the age and interest of the students, hiking and climbing, rowing and sailing lessons are offered.

**Facilities**

Air-conditioned classrooms, interactive Whiteboard in all classrooms and computers connected to the internet, science laboratories and computer & technology laboratories, makerspaces with IT equipment, 3D Printers, virtual reality items, libraries, gymnasiums and open spaces for sports and games, playgrounds with a variety of toys, auditoriums for drama classes, drama presentations and art exhibitions, sickbays (first-aid – nurses), and dining halls.

The Newman School, founded in 1945 in the heart of a great city, provides a diverse student body a college preparatory, liberal arts education, based on moral values, intellectual rigor and trust, guided by the spirit, vision and philosophy of Cardinal John Henry Newman.

Situated in Boston's Back Bay, The Newman School is within short walking distance of the Boston Public Library, Symphony Hall, the Boston Ballet, the Museum of Fine Arts, and the many colleges and universities – including Harvard, Boston College, Suffolk University, Boston University, and MIT – for which Boston is world-renowned. Of the 240 students (grades 7 through 12), international students comprise approximately one quarter of our student body. Homestays are arranged through an established network of experienced families known to the school. The school is approved to issue the I-20 required of students seeking approval for student visa status.

Authorized as an IB World School since 2009, Newman offers a broad selection of IB courses in order to meet students' interests. The school accepts transfer students interested in attending an IB school. All students work toward The Newman School diploma. Since we started our IB program we have had more than 125 students earn

the International Baccalaureate Diploma. Recent college acceptances include: Babson, Barnard Boston University, Boston College, Brown, Cornell, Duke, Georgetown, Georgia TECH, McGill, MIT, New York University, University of Toronto, University of Virginia and Wellesley.

IB diploma candidates choose from the following IB courses: English A and B, SL Literature, Spanish B, French B, Latin B, History of the Americas, Economics, Business and Management, Environmental Systems, Biology, Chemistry, Physics, Computer Science, HL and SL Math, Math Studies, Visual Arts, Film.

Newman students participate in the following sports and extracurricular programs available at the school:

boys Crew and girls Crew (fall and spring), Sailing (fall and spring/coeducational), boys and girls Soccer (fall), Cross Country (fall/coeducational), boys and girls Basketball (winter), girls Volleyball (fall), Tennis (spring/coeducational), boys Lacrosse (spring), girls Softball (spring). Extracurricular, clubs and enrichment activities include: Model United Nations, Mock Trial, National Honor Society, Robotics, Engineering, NASA club, Chess, Musical Performance, Poetry, Junior Achievement, Film, Art, and a broad range of service opportunities.

**Introduction**

UWC Costa Rica used to be the SOS Hermann Gmeiner International College (HGIC), built for students from SOS Children’s Villages across the region. In 2006, HGIC became UWC Costa Rica, committed to continuing its mission of supporting children from SOS Villages in Latin America alongside students from around the world by offering 5 full scholarships to students with SOS backgrounds every year.

**Inside the Classroom**

UWC Costa Rica is proud to be the only UWC offering the full International Baccalaureate Diploma Programme in both Spanish and English. All students are expected to be able to communicate effectively in both English and Spanish when graduating from UWC Costa Rica. Alongside standard courses, the College offers Cultural/Social Anthropology, Visual Arts, Environmental Systems & Societies and French.

**Outside the Classroom**

At UWC Costa Rica students can engage in more than 50 different activities. Additionally, all students must take part in the Agents of Change Programme, a two-year experiential learning adventure in which students become aware of their capacity for positive change, form their own project teams and partner with local communities or organizations while getting trained step by step in designing, implementing

and evaluating a project from a social entrepreneurship approach. Activities at UWC Costa Rica are framed by six competencies with an emphasis on social entrepreneurship: diversity, leadership, conflict resolution, social responsibility, sustainability, and healthy lifestyle. The college is also host to the Leading with Heart camp which helps adolescents develop the knowledge and skills associated with socially responsible leadership and emphasizes its initiative aimed at fostering a culture of social and emotional wellness for its community.

**Campus and Facilities**

UWC Costa Rica’s campus is nestled within the friendly neighbourhood of Santa Ana, surrounded by scenic mountains and a plethora of flora and fauna that make the perfect setting for a campus life that is safe, exciting, and diverse. UWC Costa Rica has eight residence halls (each accommodating 24-26 students), all named after famous Costa Rican beaches. Other facilities include an amphitheatre with an 807 square feet stage, a library, a social centre, basketball and soccer playing fields.

**Admissions**

Students can apply through their UWC national committee or through the UWC Global Selection Programme.

**Website**

www.uwc-usa.org

**Introduction**

UWC-USA was originally founded as the Armand Hammer United World College of the American West at the request of Prince Charles, then the President of UWC. Hammer chose the Montezuma location in the American Southwest, because of its remarkable beauty, proximity to immense wilderness areas in Northern New Mexico, and an architecturally compelling site within a historic region of the United States.

**Inside the Classroom**

UWC-USA offers the International Baccalaureate Diploma Programme curriculum. Alongside standard courses, students can take courses like Mandarin, German, Social and Cultural Anthropology, Sports exercise and health science, Music, Theater Arts, Dance.

**Outside the Classroom**

At UWC-USA, the Creativity, Activity, and Service program is divided into three components: Wilderness, Community Engagement, and The Bartos Institute for Constructive Engagement of Conflict. All students participate in a minimum of two overnight Wilderness trips. In addition to backpacking, students may choose to take part in winter camping, snowshoeing, or cross-country skiing.

As part of the Community Engagement Program, students have built homes for families who wouldn't have a house otherwise and help run the local homeless shelter. Additionally, students serve their own campus through participation in work crews. The initiatives of the Bartos Institute for Constructive Engagement of Conflict aim to equip young people with lenses with which to constructively engage with personal, interpersonal or community level conflicts. All first-year students participate in each component. In their second year, students choose one area to gain mastery. The College hosts the Global Leadership Forum, where participants step out of their comfort zones. Through supportive education and community engagement, it aims to harness the energy youth have.

**Campus and Facilities**

The 200-acre campus is anchored by the famous Montezuma Castle, including dorm rooms (each dorm, named after the world's highest peaks, housing 25-40 students), classrooms, offices, and the Dining Hall.

**Admissions**

Students can apply through their UWC national committee or through the UWC Global Selection Programme.

Council School is a magnet school that is located near the downtown area of Mobile, Alabama. The school serves a diverse population of students from all over the county. Presently, the school's enrollment is 673 students. Council School has received numerous awards and recognition for outstanding academics, clubs and enrichment programs. Council serves as the only International Baccalaureate Primary Years Programme in the county. All students receive academic instruction in the core curriculum, Spanish, Art, Music, Science Lab and Technology.

The school has a stellar staff of highly qualified teachers trained in the core curriculum, IBO Curriculum, technology, and AMSTI (Alabama Science and math hands-on instruction). The Parent Teacher Association is an integral component of Council Elementary School, and has achieved 100% membership for the past 28 years. The organization has demonstrated excellence and has been awarded on all levels for its partnership with the school.

In 2013, Council was nationally recognized as a Blue Ribbon School. Council was one of 250 schools to receive this honor. The principal, Hattie Alexander, was one of seven recipients of the 2013 Terrel H. Bell Award given to principals who are innovative and implement strategies for academic challenges.

In 2015, Council received the CLAS Banner School award, a recognition for schools with outstanding educational programs. Council students have met and exceeded average yearly progress every year. Council's 5th graders were ranked #1 for their writing scores. The Council Math team has won 1st place in the county's competition for the last two years.

Council is warm, friendly, and inviting, nestled in a small neighborhood called "Down the Bay" in Mobile, Alabama. The campus has a beautiful outdoor classroom featuring a gazebo and a butterfly garden. One original building remains on the campus and is a part of the Mobile Historic Preservation Society. Living up to its namesake, (Dr. William Hooper Council, the first president of Alabama A & M University) has been a remarkable accomplishment. The community is very proud of Council's continuous accomplishments. Council's state testing data was #1 in Mobile County Public School System and #6 in the state overall during the 2016-2017 school year. This year, Council will celebrate 30 years as a Magnet School. Many programs and recognition activities will take place. Council is presently under the leadership of Hattie Alexander, Principal and Mr. Chresal Threadgill, Superintendent.

## Who We Are

The first public school in Washington DC to offer inquiry – based Mandarin language immersion through the PYP framework, Yu Ying means Nurturing Excellence. Founded by a group of professionals interested in offering ‘more’ to the children of Washington, D.C. through a public school of choice, Yu Ying was awarded its charter in 2007 and IB World School status in 2013. Serving ages 3 through 11, Washington Yu Ying sits on 3 acres of land in the heart of the urban city of Washington, D.C., U.S.A. The opportunities to learn through Yu Ying’s World Wildlife Certified Nature Center and outdoor garden classrooms allow the students to embody awareness of environmental sustainability through their everyday learning experiences. Yu Ying is committed to providing an educational environment that supports both the wellness of the students and the health of the planet.

*“My child is embraced with a caring atmosphere each day when he enters Yu Ying. The school has taken his individuality and allowed it to blossom while helping him to learn how to negotiate and thrive within a collaborative classroom, both inside and outside. I KNOW this will prepare him for the world of tomorrow.”* (Yu Ying parent, 2014)

In today’s interconnected global world, bilingualism is power and a global norm. Through our Mandarin/English

immersion, our teachers represent the interconnected world. With a diverse teaching population, fostering student diversity is more than a goal for Yu Ying; it’s at the core of everything we do.

*“What I love about Yu Ying is not only the diversity in the population, but the diversity perspectives that are taught to my children. We have dinner conversations where I am astounded at my kids understandings.”* (Yu Ying parent, 2017)

We believe the greatest gift we can give our students is a world-view that takes them outside of the day-to-day and pushes them to ask questions to better understand the world around them. Our students come from every ward of Washington, DC, from different families with different backgrounds, and we believe our diversity is our greatest asset to further understanding of international-mindedness. Washington Yu Ying Public Charter School provides a world-class public school education for elementary-age students in the capital of the United States.

## Our Mission

Washington Yu Ying PCS aspires to inspire and prepare young people to create a better world by challenging them to reach their full potential in a nurturing Chinese/English educational environment.

Westlake Middle School (WMS) is a public school located in the leafy suburbs of Westchester County in New York. The school is housed on a large green campus with ample outdoor athletic fields and indoor facilities. Served well by public transportation, it is approximately 45 minutes by train to the heart of New York City. The school offers The IB Middle Years Programme years 1-3, USA grades 6-8. At Westlake, all students engage in the full MYP Programme of eight subjects. Westlake Middle School is recognized as a middle school of excellence and is ranked by Niche as an 'A' school. WMS supports the whole child and our mission is to engage and develop independent, inquisitive, tenacious and open-minded students who think critically, perform innovatively and act ethically in our local and global community.

All students at Westlake have the opportunity to study the core subjects as well as the arts, design, physical education and health. Languages are offered in Spanish and Italian at all grade levels. WMS has a full inclusion program where students who require special education supports are given the necessary structures for them to thrive within the framework of the IB program. In MYP Year 3, students have the opportunity to take high school level classes

in Algebra, Earth Science and Living Environment. The Community Project is the culminating experience for all year 3 students allowing them to connect to a personal passion or a community organization. They can grow themselves as caring, thoughtful human beings. Students also participate in advisory sessions where their social and emotional learning and well-being is supported. The school has full-time school counselors, a school psychologist and a school social worker to support students and families.

Extracurriculars are offered and open to all students. All Fours on Paws, Engineering Club, Environmental Club, Art Club, Student Council and Yearbook Club are just a few examples. Students also participate in national competitions such as Science Olympiad, Math League and the Robotics Competition Team, often bringing home medals of achievement. Competitive sports include track, lacrosse, football, cheerleading, baseball, volleyball, wrestling, soccer, swimming, diving and softball.

The community of Westlake Middle School is part of the Town of Mount Pleasant. There is a vibrant 'Westlake Wildcat' spirit surrounding the school and families move to our sought-after area for a safe and stable place to live and grow.

**Who We Are**

Founded in 2003 with a mission to achieve academic excellence and develop life-long learners who become well-balanced, responsible global citizens, Westlake Academy is the first and only municipally-owned charter school in the State of Texas, USA. Celebrating 15 years of excellence, and having just graduated its ninth class, the Academy was given the highest rating this year (98%) from the state education agency and this number is a direct reflection of the power of an IB World Education.

**IB World School**

Westlake Academy was the fifth public school in the US offering three IB programmes (PYP, MYP, DP) on a single campus. The IB curriculum and the school's smaller class sizes are enhanced by a breath-taking outdoor campus of innovatively designed stone-clad buildings clustered among 23 acres of verdant pastures and the crown of oak-adorned hills. Imagine how this helps create a premier, knowledge based community that is truly unique.

**College Preparation**

Westlake Academy is an open enrollment college preparatory charter school, where great care and consideration is given to the mission and vision by the town leaders, citizens and education staff dedicated to academic excellence and personal achievement. The Town of Westlake is proud that results focus on high student achievement, strong parent and community connections, financial stewardship and sustainability, student engagement in extracurricular

activities and service, and effective educators and staff.

**Mission**

Westlake Academy is an IB World School whose mission is to provide students with an internationally minded education of the highest quality to become well-balanced and respectful life-long learners.

**Vision**

Westlake Academy inspires college bound students to achieve their highest individual potential in a nurturing environment that fosters the traits found in the IB learner profile.

**Values**

Maximizing Personal Development, Academic Excellence, Respect for Self and Others, Personal Responsibility, Compassion and Understanding, Global Citizenship.

**International Mindedness**

Providing an internationally minded education of the highest quality means students will become globally well-balanced. This is not an alternative to cultural and national identity, but an essential component of life in the 21st century. Successful interaction requires our students to clearly communicate, solve problems and create new possibilities in a global context, connecting individuals from around the world.

**Extracurricular Activities**

Westlake Academy believes student clubs, societies and after-school activities allow young citizens to further their academic foundation while developing essential interpersonal skills. After school clubs are student driven

under the guidance of our faculty. IB learner profile traits are reinforced outside the classroom via athletics, music, art, theatre, technology and specialty niches including math, coding and science.

### **Global Citizenship & Collaboration**

Internationally minded educators, Westlake Academy creates authentic global collaboration experiences that prepare our students to meet the demands of the 21st century marketplace while encouraging them to think globally and act locally:

- *Costa Rica and Argentina:* Student and teacher exchange programs offered with a school in Costa Rica and another school in Argentina.
- *Germany – China – Oman:* Students in grade 10 can apply to be a delegate at the International Student Leadership Symposium with 8 global schools in different countries. This year, the symposium will be held in South Africa.
- *Global Service:* Extended service opportunities with

Student Shoulder-to-Shoulder include destinations like Tibet, Peru, Kenya, Nepal and more.

- *Leadership:* Our teachers host the annual Westlake Academy International Mindedness Educator Symposium with 7 countries represented and over 50 participants.
- *Class Trips:* Students are given experiential travel opportunities beginning in the third grade.
- *Technology:* Teachers and students engage in collaborative learning in a 1:1 iPad environment.

### **Real World Experience**

It is in these real world experiences, and others like it, that our students share international perspectives with their counterparts from other countries and, in doing so, deepen their understanding of what it truly means to live, work and succeed as a global citizen.

Today, our students live in a global society. Tomorrow, our graduates will work and lead in a global marketplace.

Nestled in the outskirts of Princeton, New Jersey, YingHua International School (YHIS) is the only not-for-profit, independent school in the greater Princeton area that offers English-Chinese dual language education with an internationally-focused, inquiry-based curriculum. YHIS is also the third school in the US that offers the IB Primary Years Programme with whole-school Chinese immersion.

YingHua International School (YHIS) was founded in 2007 with a mission to enable academic excellence and prepare students for compassionate, effective, and ethical global citizenship through English and Chinese language acquisition and instilling a passion for lifelong learning. A hidden gem in Central New Jersey, YHIS accomplishes its mission by combining total Chinese Immersion with IB inquiry-based learning.

Through this unique approach, YHIS enables ethnically diverse students from as young as 2 years old through 8th grade, to develop the skills and mindset needed to become leaders in an increasingly global world. Through exposure at an early age to a language-immersive environment combined with IB inquiry-based learning, YHIS students gain deeply rooted cognitive benefits that stay with them well into adulthood. At YHIS this approach is further

characterized by small, nurturing, and inclusive classes led by passionate, dedicated teachers. The results are students who consistently outperform their suburban and private school peers on the local and national stage and in standardized testing. While many parents are initially drawn to YHIS for Chinese immersion, they often stay because of its ability to foster independence and self-reliance while instilling critical thinking skills and academic excellence in students.

Much of YHIS' success can be attributed to its core values of Excellence, Diversity, Integrity and Compassion. Excellence is striving for and being the best that we can be. It means high standards of teaching, learning, and all that we do. It includes well-rounded development in addition to intellectual curiosity and rigor. It requires teamwork, community service and leadership. Diversity is embracing difference and building on the best of all worlds. It embraces equity among cultures and peoples, and suggests respect for the natural world including its animal and plant inhabitants. Integrity is excellence of character and Compassion is caring for diverse others: both are essential for guiding how we relate to and treat one another and are a critical cornerstone for what YHIS stands for.

YHIS welcomes all into its warm and nurturing community!

# 3. Diploma Programme Subjects offered in 2019 (May and November sessions)

## Group 1 – Studies in language and literature

Language A: literature HL  
Language A: literature SL  
Language A: language and literature HL  
Language A: language and literature SL  
Literature and performance SL

## Group 2 – Language acquisition

Language B HL  
Language B SL  
Language *ab initio* SL  
Classical languages HL  
Classical languages SL

## Group 3 – Individuals and societies

Business management HL  
Business management SL  
Economics HL  
Economics SL  
Environmental systems and societies SL  
Geography HL  
Geography SL  
Global politics HL  
Global politics SL  
History HL: History of Africa and the Middle East  
History HL: History of the Americas  
History HL: History of Asia and Oceania  
History HL: History of Europe  
History SL  
ITGS HL  
ITGS SL  
Philosophy HL  
Philosophy SL  
Psychology HL  
Psychology SL  
Social and cultural anthropology HL  
Social and cultural anthropology SL  
World religions SL

## Group 4 – Sciences

Biology HL  
Biology SL  
Chemistry HL  
Chemistry SL  
Computer science HL

Computer science SL  
Design technology HL  
Design technology SL  
Environmental systems and societies SL  
Nature of Science (Pilot, SL)  
Physics HL  
Physics SL  
Sports, exercise and health science HL  
Sports, exercise and health science SL

## Group 5 – Mathematics

Mathematics: Analysis and approaches (first teaching 2019) HL  
Mathematics: Analysis and approaches (first teaching 2019) SL  
Mathematics: Applications and interpretation (first teaching 2019) HL  
Mathematics: Applications and interpretation (first teaching 2019) SL  
Further mathematics HL  
Mathematical studies SL  
Mathematics HL  
Mathematics SL

## Group 6 – The arts

Dance HL  
Dance SL  
Film HL  
Film SL  
Literature and performance SL  
Music HL  
Music SL  
Theatre HL  
Theatre SL  
Visual arts HL  
Visual arts SL

## Core requirements

Creativity, activity, service  
Extended essay, or  
World studies extended essay  
Theory of knowledge

## Interdisciplinary subjects

Environmental systems and societies SL  
Literature and performance SL

## School based syllabuses

Art History (group 3)  
Astronomy (group 4)  
Beginners' Hindi (group 2) (last exams May 2019)  
Brazilian Social Studies (group 3) (also examined in November session)  
Chile & the Pacific Basin (group 3) (last exams May 2019)  
Classical Greek & Roman Studies (group 3)

Food science and technology (Group 4)  
Marine Science (group 4)  
Modern History of Kazakhstan (group 3)  
Political Thought (group 3)  
Turkey in the 20th Century (group 3)  
World Arts and Cultures (group 3)

## Languages offered in group 1 – studies in language and literature

### Language A: literature

Tamil B (SL, Nov only)

### Language *ab initio*

Arabic *ab initio* (May only)  
Danish (May 2020, May only) *ab initio*  
English *ab initio*  
French *ab initio*

German *ab initio* (May only)  
Indonesian *ab initio* (Nov only)  
Italian *ab initio* (May only)  
Japanese *ab initio*  
Malay *ab initio* (May only)

Mandarin *ab initio*  
Russian *ab initio* (May only)  
Spanish *ab initio*  
Swahili *ab initio* (May only)  
Swedish (Mat 2020, May only)

### Classical languages

Classical Greek (English) May only  
Latin (English and Spanish)

#### Language B Notes:

Malay SL and Tamil SL are available only in the November session. Therefore, any candidate registered for a May session wishing to take Malay SL or Tamil SL must be additionally registered for a November session (usually, but not necessarily, in the preceding year). They must take all Malay SL or Tamil SL assessment components (written assignment, internal assessment, paper 1 and paper 2) in that November session.

## 4. IB Associations Around the World

### Associations of IB World Schools

Associations of IB World Schools are groupings of IB World Schools who come together in order to provide mutual support in a variety of ways and who have been recognized by the International Baccalaureate Organization (IB). These associations are organized in various ways, sizes and constituencies, depending on their local circumstances and provide a forum for school collaboration, hold periodic meetings and share best practices among members.

The IB works closely with the recognized Associations of IB World Schools who play a key role in supporting IB World Schools. Much like IB World Schools themselves, each Association is an independent entity that is not run or managed by the IB but may choose to formalize its relationship with the IB, provided it meets certain criteria, by means of a recognition agreement and licence.

Associations can be an indispensable resource for schools discovering the IB for the first time, offer a wealth of IB experience and support, and are often active at district, state or government level raising awareness of all IB programmes within their area of representation. They may also, working in concert with their regional IB office, assist in negotiations with governments for acceptance of all IB programmes and with universities for recognition for the Diploma Programme.

### Benefits of being an association of IB World Schools

The IB raises the profile of Associations by featuring them on its website, inviting their representatives to regional meetings, and permitting their use of a specially created logo for use under licence on their websites and in publicity to denote their status.

Recognized Associations have similar rights to IB World Schools in their use of IB materials, but can attend more IB meetings and have more routes to advice from the IB's regional offices.

### How to become recognized as an association of IB World Schools

Groups of schools who wish to be recognized by the IB as an Association should contact their IB regional office. Contact information for the regional offices can be found on the IB website.

Recognized Associations are situated throughout the world in all three regions.

In addition to recognized Associations, there are many other formal and informal groups, coalitions and loose networks of IB World Schools at work in many areas of the world that are not recognized by the IB as Associations. This may be because they are newly formed or that they do not yet meet the recognition criteria. The IB criterion that they are an official entity may make recognition difficult in some countries where the rules of association prevent this.

## Informal groupings of IB World Schools

The IB does not formally recognize all groups of IB World Schools. A group must have first formed itself into a formal or legal entity to meet the recognition criteria. There are, nevertheless, informal networks of schools in various parts of the world that make valuable contributions to supporting

schools in their programme development. Their scope and activities vary from group to group and each operates independently of the IB regional office, which offers them its own support.

## 5. University Acknowledgement

The IB Diploma is a passport to higher education. Universities around the world welcome the unique characteristics of IB Diploma Programme students and recognize the way in which the programme helps to prepare students for higher education. IB students routinely gain admission to some of the best universities in the world. Most of these institutions have established recognition policies for the IB Diploma Programme.

The following list contains the names of the universities that according to IB records have a stated IB recognition policy. This list is not necessarily complete as other universities may recognize the IB Diploma but have not alerted the IB to their recognition policy.

Please note that this listing is accurate as of 2018. For more information, please see the University policy index at [ibo.org/university-admission/recognition-of-the-ib-diploma-by-countries-and-universities](http://ibo.org/university-admission/recognition-of-the-ib-diploma-by-countries-and-universities)

 y Agricultura  
 Universidad Tecnológica del Centro –  
 UNITEC

## ZIMBABWE

University of Zimbabwe

# 6. University Scholarships for IB Diploma Holders

As of September 2018

The following universities offer scholarships for recipients of the IB Diploma. They are listed by country.

## AUSTRALIA

SP Jain Center for Management  
Deakin University  
Murdoch University  
Bond University  
Curtin University  
Edith Cowan University  
Macquarie University  
Griffith University  
Monash University  
University of Newcastle  
University of Queensland  
University of Wollongong  
University of Technology Sydney  
University of Southern Queensland  
University of South Australia  
University of Notre Dame  
University of New South Wales  
University of Newcastle  
University of Melbourne  
University of Adelaide

## CANADA

Acadia University, NS  
Bishop's University, QC  
Brandon University, MB  
Brescia University College, ON  
Brock University, ON  
Cape Breton University, NS  
Collège universitaire de Saint-Boniface,  
MB  
Concordia University College of Alberta,  
AB  
Dalhousie University, NS  
EduNova IB Entrance Scholarship  
Program  
Huron University College, ON  
Memorial University of Newfoundland,  
NF  
Mount Allison University, NB  
Mount Saint Vincent, NS  
Nova Scotia Agricultural College, NS  
Nova Scotia College of Art and Design,  
NS dub  
Red Deer College, AB  
Saint Mary's University, NS  
Simon Fraser University, BC  
St. Francis Xavier University, NS  
St. Thomas University, NB

Trent University, ON  
Trinity Western University, BC  
Université Sainte-Anne, NS  
Université de Moncton, NB  
Université de Montréal QC  
University of Alberta, AB  
University of British Columbia, BC  
University of Calgary, AB  
University of King's College, NS  
University of Manitoba, MB  
University of New Brunswick  
(Fredericton), NB  
University of New Brunswick (St. John),  
NB  
University of Prince Edward Island, PEI  
University of Regina, SK  
University of Saskatchewan, SK  
University of Toronto, ON  
University of Victoria, BC  
University of Waterloo, ON  
University of Western Ontario, ON  
University of Windsor, ON  
University of Winnipeg, SK  
Wilfred Laurier University, ON  
York University, ON

## FRANCE

American University of Paris

## GERMANY

Jacobs University Bremen  
International University of Bremen

## HONG KONG

Hong Kong Polytechnic University  
University of Hong Kong  
Savannah College of Arts and Design –  
Hong Kong  
City University of Hong Kong  
Chinese University of Hong Kong  
Hong Kong University of Science and  
Technology

## INDONESIA

BINUS University  
Universitas Pelita Harapan

## JAPAN

International Christian University  
Tokyo International University  
Nagoya University of Commerce and  
Business  
BBT University  
Kwansei Gakuen University  
Ritsumeikan Asia Pacific University  
Tsukuba University  
Yokohama National University

## MALAYSIA

University of Reading Malaysia  
Taylor's University  
Monash University Malaysia  
Sunway University  
Swinburne University of Technology  
Sarawak Campus  
Heriot-Watt University Malaysia  
Universiti Tunku Abdul Rahman  
UCSI University

## NEW ZEALAND

Auckland University of Technology  
Lincoln University  
University of Auckland  
University of Canterbury  
University of Otago  
University of Waikato  
Victoria University of Wellington

## SINGAPORE

SP Jain Center for Management  
Nanyang Academy of Fine Arts  
Embry-Riddle Aeronautical University  
National University of Singapore  
Singapore Management University  
Nanyang Technological University

## SPAIN

IE University

## THAILAND

King Mongkut University of Technology

**TURKEY**

Bahçeşehir University

British University Vietnam  
 Ho Chi Minh City University of  
 Technology  
 Hong Bang International University  
 RMIT University Vietnam

**Please note**

- The scholarships vary in size. Some are modest, others are substantial. Please check universities' web sites and contact university officials for more detailed information about a particular scholarship.
- The IB diploma is recognized by universities worldwide. These universities, including those that do not offer scholarships for IB students, often look favourably on applications from IB graduates. They may offer other types of scholarships for which IB graduates are encouraged to apply.
- In many cases, universities with low tuition fees do not offer scholarships of any type because financial assistance is unnecessary. However, they may recognize the IB diploma and even be particularly interested in IB students.
- The list is not exhaustive and is regularly revised as new information is received from universities.
- The IB does not in any way endorse the universities listed.

INTERNATIONAL  
BOARDING SCHOOLS

## TAKE YOUR HIGH SCHOOL STUDIES TO THE US OR UK

Our students live the IB ethos each day. With over 75 nationalities represented at our schools in New York, Oxford and Torbay, they learn from each other's differences and seek to build a better world.

### BY EARNING THE IB DIPLOMA AT EF ACADEMY, YOU WILL:

- > Be encouraged to think critically and independently
- > Build a path that can lead you to some of the top ranked universities around the world
- > Become more culturally aware, considering both local and global contexts
- > Be able to respectfully engage with and understand people in an increasingly globalized, rapidly changing world

Plus, our dedicated community of advisors, teachers and fellow classmates will be there to support you every step of the way.
